is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them.

CARTER MEDICINE CO., NEW YORK.

Small Pill. Small Dose. Small Price.

A PRACTICAL EXAMPLE

Example of the Effect of Competitio with Australia.

On March 18th last, 750 carcasse of frozen lamb from Australia ver landed at St. John, N. B. 250 carcasses were sent to the William Davies Co., Limited, Toronto. The greate part of the remainder were shippe to Montreal. This lamb was purchased at nine cents per pound delivered in bond at Toronto.

Under existing conditions the dut was three cents per pound Thi made the lamb cost twelve cents pe pound laid down in Toronto.

Fresh dressed lambs were selling i Toronto at that time at 12 1-2c. t 13c. per pound.

Hence, after paying this dut there was not much difference between the prices of the Australia and Canadian lamb.

The duty protected the Canadia farmer against the Australian product.

But under Reciprocity the duty o this frozen lamb will be only 1 1-4c per pound, so that similar shipment could be laid down in Toronto a 10 1-4c. per pound, two or three cent per pound chaper than the price fo the home raised products.

Referring to the lambs which wer sent to Montreal. When they reache Montreal Canadian lamb was sellin at 10 1-2c. The Australian lamb were sold at 9 1-2c. delivered ex car Montreal duty paid, the owners apparently being contented to underse the Canadian market by one cent pe pound.

Now, if you wish to see the effec upon the live stock market of the receipt of this Australian lamb in Montreal, turn up the Montreal papers o March 20th, in one of which, for example, the headline was "Sheep Sol Lower in Local Markets."

If, with the three cent duty on every pound, frozen lamb can be profitably imported from Australia, it seem almost conclusive that reducing th duty will also reduce the price o Canadian lamb accordingly.

And not only does Australia expor frozen meat, but it exports butter a well. It exports annually betwee fifty and seventy-five million pound of butter

Australian butter can be laid dow now in bond at Montreal at 23c. pe pound. A duty of four cents pe pound keeps it out of competitio with the Eastern Townships butte now selling at 26c. per pound.

Under Reciprocity, which would d away with the duty of four cents pe pound, the Eastern Townships butte would have to compete during th winter months with Australian butte which cost only 23c. per pound i Montreal.

THE VANISHING FORESTS Timber Resources of the United

States Showing Signs of Exhaustion.

Commissioners and commissions have been appointed in various parts of the United States to make reports on what should and could be done to stem the destruction and prepare for the restoration of timber supplies, but wherever actually a response to the recommendations was secured the means employed were too feeble to prevent the former and too inefficient to secure adequate results in the latter direction. For instance the latest State to move in the matter of taking care of its important timber interest, Alabama (whose annual lumber output is valued at $5,000,000), appropriates $500 for carrying out the provisions of the act providing a commission with various duties. The great State of Minnesota whose forest products in one year approach in value $45,000,000, devotes less than $13,000 to its forest interests, and $20,000 on prairie planting The State of Maine, which still cuts around one billion feet, and is indebted to the forest for a product of $18,000,000 in value, keeps within the modest sum of $25,000 to pay for the protection against fire and the support of a commissioner. Examples of such picayune and inadequate measures are found in many other States!

The only two States which have not hesitated to spend money for forestry purposes are New York and Pennsylvania. The former, in purchasing forest lands for a preserve, which now comprises about one and a half million acres only, has expended millions of dollars, and is annually appropriating money for further purchase, besides liberal provision for its Forest, Fish and Game Commission. But, alas! the policy of forest reservation which had begun on economic grounds, has degenerated into providing a pleasure ground—a park—for the wealthy, and there is little consideration to economic forest questions given by the State or the Commission.

Pennsylvania is the only State which can be said to have started on a true policy of recuperation, buying up waste lands, protecting them, and in a small way beginning to reforest them, an appropriation of about $600,000 being at the disposal of the Forest Commission.

Rossini's Reception of Wagner.

Wagner and some companions called upon Rossini. Hearing them on the stairs, Rossini hastily placed the score of "Lohengrin" on the piano, and when the German composer entered he said, pointing to it, "You see, illustrious maestro, I am studying your work."

"But the score is upside down!" exclaimed the other, seeing how the book was placed.

"Yes," returned Rossini calmly; "the fact is I have had it the right way up for some time, but could make nothing of it," and then all present began to laugh, including Wagner himself.

TO CURE A COLD IN ONE DAY
Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box 25c.

The Old Folks

find advancing years bring an increasing tendency to constipation. The corrective they need is

"NA-DRU-CO" Laxatives

Entirely different from common laxatives. Pleasant to take, mild and painless. A tablet (or less) at bed-time regulates the bowels perfectly. Increasing doses never needed. Compounded, like all the 125 NA-DRU-CO preparations, by expert chemists. Money back if not satisfactory.
25c. a box. If your druggist has not yet stocked them, send 25c. and we will mail them.

IF YOU ARE SICK
YOU CONSULT A SPECIALIST.
WHY ?

Because he has made a special study of the disease you are suffering from, and from the knowledge gained by years of experience knows just what treatment you require.

If you are going into a law-suit, you do the same—consult the best lawyer you can get, and find it cheap in the end.

Now, when you are considering taking Life, Fire or Accident Insurance, do you not think it would pay you to consult one who has had many years experience in that profession, and whose knowledge would be of use to you in enabling you to get the best value for your premiums, with the most liberal policies and absolute guarantees ?

If you want what is best in Life, Fire or Accident Insurance, you can get it by calling at, or phoning to

W. H. HILL'S GENERAL INSURANCE AGENCY
159, HUNTER STREET,
PETERBOROUGH, Ont.
Prompt attention given to the settlement of all claims.

WHO'S COMING AND GOING

Mrs. George Cluxton, of Chicago, is guest at the National.

Miss Laura Tooley, of Bobcaygeon, is visiting her sister, Mrs. Henry, Park street.

Mr. and Mrs MacGregor, of Toronto, are visiting friends in the city after an extended trip through the west.

Rev. H. J. Keith was unable to take the services at Knox Church yesterday and is confined to his room with an attack of pneumonia.

Mrs. Rupert Gliddon, Hunter street, will receive on Wednesday and Thursday of this week and afterwards on the first Wednesday and Thursday of the month.

Mrs. Raymond P. Best will receive for the first time since her marriage, at her residence, 320 Stewart street, on Thursday afternoon of this week, from four to seven o'clock, and afterwards on the first Wednesday of every month.

REPORT NOT TRUE

No Wholesale Dismissal at the Fire Department

Lieutenant George Crouter, of the local fire department has severed his connections with the fire hall, in accordance with instructions from the Fire, Water and Light Committee.

There is another fireman to go yet but he is remaining until pay day.

A report was circulated on the street to-day to the effect that there had been trouble and four dismissals at the fire hall.

WHATS ON TO-NIGHT

George street church—Pie Social.

At the Grand—The Mummy and the Humming Bird.

St. Andrew's church—Rally of Christian Endeavorers at 8 o'clock, special meeting of leaders at 7 p.m. o'clock.

St. Luke's Rectory—Sale and social by Girls' Auxiliary.

DOG POISONED

Mr. Gerald Dunsford is minus his coach dog, the animal having arrived home with a dose of strychnine.

Some evil disposed person is evidently at his nefarious work. Only a few days ago Mr. R. J. Munro lost his dog and several other cases are reported.

Boat Arrivals

"Lake Michigan," C.P.R. from Antwerp, October 11th, abeam, Belle Isle 8.30 a.m., Sunday, is due at Quebec, 6 p.m. Tuesday.

"Grampian", Allan Line, arrived at Quebec Sunday morning, Montreal this morning.

The C.P.R. will spend $5,000,000 in hotel extension and re-building throughout Canada.

Dr. Clapp, of Mildmay, will be Conservative candidate for the Legislature in South Bruce.

CONDITIONS IN THE HOME NOT THE BEST FOR CHILDREN

No Definite Action Taken Regarding Two Children of Edward Montgomery.

After a hearing at County Court today, that consumed nearly three hours' time, no definite decision was reached for the disposition of the two children of Ed. Montgomery, of Burleigh Falls, who was charged with shamefully neglecting them and of being unfit to exercise a proper guardianship over them.

The investigation revealed a most unfortunate state of affairs, which have existed in the place in question for the past year. The two children are a girl and a boy, the girl being thirteen years of age, bright looking and intelligent and by her appearance a clever child. The boy is slightly younger, not quite so intelligent, but would, with proper education, become a useful resident. Their schooling has been sadly neglected, however, and it was chiefly that question that the whole trial was based upon.

F. D. Kerr appeared for the defendant, Montgomery, who is a widower, J. E. L. Goodwill conducted the case for the Children's Aid Society. Considerable corroborative evidence, dealing with the neglected condition of the inmates of the cabin and of its dirty and disreputable condition, was taken.

LIVED IN LOG CABIN.

William West was called as first witness. He had been engaged to drive Mr. George Cochrane, agent for the Children's Aid Society, and Mr. Henry, superintendent of the Shelter, to Montgomery's cabin. He described the ill clothed manner in which he discovered the children, who were without underclothing, shoes or stockings. Neither did their appearance indicate a recent acquaintance with soap and water. The house was situated a mile away from the nearest neighbor, consisted of three rooms which witness termed to be very dirty, and in fact no fit place for children. There did not appear to be an over-supply of food in the house either, just half a loaf of bread and a little butter.

HOUSE WAS FILTHY.

Mr. Cochrane, in describing the condition of the house, said that it was in a dirty, filthy state, and that four pillows hanging on the line, fairly reeked.

Regarding the father of the children, the evidence tended to show that his general reputation was good, save for the fact that he was addicted to drink occasionally. At times when he worked in the camps nearby, he took the children with him, where they helped to pile the wood and do other chores. Montgomery has other children but they are grown up and married.

Mr. Kerr for the defendant argued that the case did not come strictly under the act governing neglected children, on the ground that the children were beyond parental jurisdiction, and made a strong plea for the children to be allowed to remain with the father who plainly evidenced an affection for the youngsters.

The children were again consigned to the shelter for two or three days to allow Mr. Goodwill and Mr. Kerr to come to a satisfactory arrangement as to the disposal.

SICILIAN ORGAN GRINDER AT THE GRAND TO-NIGHT

Paul Terhune Divides Honors With the Star—As Sicilian Organ Grinder Fresh From Native Hills, He is Excellent

The London Free Press has many kindly words to say in commendation of "The Mummy and the Humming Bird," as will be seen by the following excerpt taken from the issue of Oct. 20th:—

"The Mummy and the Humming-Bird" has a most ingenious sort of plot running through its four acts; a plot which the author puts together like a puzzle, then takes apart again before the eyes of the spectator and the trick of which can be caught by the wary.

There is little real flesh and blood in Isaac Henderson's comedy-drama, but one must say for it that it has an interest that never flags; the puzzle-interest which one wants to see worked out to a finish.

In the role of the "Mummy," otherwise Lord Lumley, an aristocratic scientist absorbed in the development of explosives to the exclusion of all less important matters; so absorbed in noisy occupation that his wife's heartbeats entirely fail to attract his attention, Mr. Paul Gilmore plays cleverly. Mr. Gilmore is so clever in fact that only once or twice does he give his audience a chance to think of him as a living, breathing man, and not as the marvelous bit of mechanism which he has skillfully and dexterously worked himself."

Supporting the star is Mr. Paul Terhune, a most delightful artist. Mr. Terhune's part as the Sicilian organ-grinder Guiseppe, who travels from his mountain home to London for purposes of "vendetta," is small, but through the exquisite naturalness with which he treats it, he works it into something which pervades the whole.

Practically making a single scene is all that Mr. Terhune has. In his hands that scene becomes the scene of the evening. Such understanding, such repose, such gestures; and then that incomparable smile and the inimitable "Sel Sill" (yes) which follows when light breaks through the cloud of a foreign tongue, and the exile comprehends all that his London host is trying to make plain. It is a rare treat.

LOCAL NEWS ITEMS

The Women's Auxiliary of the Y.M.C.A. will meet next Saturday night and elect officers.

A Health Association for Kingston has been incorporated.

The Conservatory Madrigal Club will practice to-morrow night at eight o'clock sharp. A full attendance is requested.

HAD FINE TRIP TO ENGLAND

Detective Newhall Returns to Duty on Police Force

After a two months' visit to England, the land of his birth, Mr. Samuel Newhall, of the local police force, returned home Sunday afternoon delighted with his trip and feeling in excellent health. Detective Newhall accompanied by his cousin, Mrs. Holmes, made the home trip on the S. S. Virginian, arriving in Montreal on Saturday night.

The major portion of his sojourn in the home land was spent in the cities of London and Liverpool, where he had formerly been connected with the police departments of these large centres.

Knox Church Notes

Monday, 7.45 p.m.—Young people to meet and attend meeting in St. Andrew's church.

Wednesday, 8 p.m.—Midweek prayer meeting. 9 p.m.:—Teachers' training class.

Thursday, 3.30 p.m.—Thank offering of Women's Missionary Society in Lecture Hall.

Thursday 8 p.m. — Special choir practice in preparation for Thanksgiving services on Sunday.

St Luke's Church

Monday, 8 p.m.—Girls' Auxiliary sale of work and social evening at the rectory. A cordial invitation to all.

Tuesday, 2.30—Ladies' Aid.

Wednesday 7.30—Evening service and address. Choir practice afterwards.

Thursday, 2.30—Women's Auxiliary monthly meeting.

Friday, 4.15—Junior Auxiliary. 9.30 Boy Scouts.

Few people can say a good word for anyone without adding a sting.

SUSPENDED SENTENCE

The six young culprits who were found guilty this morning of breaking into schools in the south end, and stealing a watch and money from St. James' church, were let out on suspended sentence at police court to-day. Their ages range from nine to fifteen. They will have to report to the chief every two weeks with a written report from the school teacher as to their behavior and regular attendance at school. They are the same boys who are alleged to have written the so-called black-hand letters, but Chief Thompson did not press this charge.

Where Is the Phial?

Boston, Mass., Oct. 23.—In their efforts to clear up the circumstances of the death of Avis Linell, the Hyannis Sunday School teacher and music student, with whose murder Rev. Clarence V. T. Richeson is charged, the police have been unable thus far, it is said to locate the poison receptacle.

When the girl took the dose of cyanide of potassium which caused her death, she was in the bathroom of the Young Women's Christian Association Home on Warrenton street, and though the house was searched immediately after her death by order of the medical examiner and later by the police, the receptable which had contained the poison, before she had poured it into a cup to drink, cannot be found.

Dead Man Identified.

Hamilton, Oct. 23.—The body at the unknown man, who was killed on the T., H. & B. Railway tracks Friday evening, was identified Saturday afternoon as that of Abraham Lee, an Englishman, who for the last six years and at the time of his death boarded with Mrs. Cahill, 199 East Ferrie street.

Lee had worked at the Sawyer-Massey plant as a painter for about five years, but more recently and until a few days ago had been employed at the Otis Fensom Elevator Works.

Friday morning the unfortunate man left Mrs. Cahill's house about 8.30 to look for work, and was not seen alive again by any of his acquaintances. His subsequent movements are unknown, and his friends know of no reason why he should have been in the locality where his death is supposed to have occurred.

People are not so much interested in your grievances as you think they are, [illegible]

OBITUARY

Peter Milne

The death occurred at Belleville on Friday morning of Mr. Peter Milne, father of Mr. James Milne of this city, after an extended illness of about five years. For years he conducted a wood yard in Belleville, and served in the city council as alderman for Bleecker ward. He was sixty-seven years of age having been born in the township of Thurlow. In religion he was a Roman Catholic being a member of St. Michael's church. He was twice married his first wife having died thirty-eight years ago, and his second surviving him. He leaves four brothers and three sisters in addition to a family of four children, Peter, of Spokane, Wash.; James, of Peterboro; Miss Lizzie, of Toronto, and William, of Belleville.

WOULD GIVE UP HIS SEAT

Mr. Burnham Offers to Retire for Hon. Mr. White

Mr. J. H. Burnham wired on Saturday to Ottawa to Premier Borden, offering to place the seat for West Peterborough at the disposal of the Premier for Hon. W. T. White. This action by Mr. Burnham was taken in the belief that those supporting him in the late election would be quite willing that Peterborough should be represented in the cabinet by the finance minister of the country, Mr. White being an exceptionally fine representative for a riding. Whether the offer will be accepted or not, remains to be seen, as it is believed that Mr. Borden has a seat in view for Mr. White that is entirely safe and solidly Conservative.

WIFE PAID FINE OF BLACKLISTER

Disorderly Paid the Usual $2 for His Fun

Before Magistrate Dumble at police court this morning, a well-known local youth pleaded guilty to acting in a rather reckless manner on the evening of October 18th.

His escapades cost him $2, which he paid over.

FINED $10.

A blacklister whose appearance in police court is by no means an unusual occurrence, faced his Worship again this morning on the usual charge of drinking while on the prohibited list.

His better half was present and on the accused entering a plea of guilty, she handed over the $10 fine imposed upon her husband.

FIFTY YEARS AT GEORGE STREET SUNDAY SCHOOL

Mr. T. W. Robinson Has Had Long Active Service

From Sunday School Scholar to Superintendent

The session of George Street Methodist church Sunday school was of unusual interest yesterday afternoon when Mr. T. W. Robinson, who has been an active worker in the school for the past half century, gave a most interesting address to the officials, teachers and scholars. Fifty years ago this month, Mr. Robinson joined one of the classes of the Sunday school which then had as its superintendent Mr. Robinson Rutherford, who has long since passed to his reward. In the month of October 1861, Mr. Robinson having come to the town from his birthplace in Smith township, he joined the Sunday school to follow out the wishes of his mother, made just before her death, that he keep closely connected with the church and Sunday school. He continued to attend regularly and one day was approached by the superintendent with the request that he take a class. Assenting he taught his scholars, and this work fitted him for other positions, which he ably presided over until at last he was called upon to take the superintendence of the school. The school grew and prospered and when he gave up the office some ten years ago, the Sunday school was an organization to be proud of. The last five or six years, Mr. Robinson has been superintendent of the Home Department, and here again he has done splendid work.

Mr. Robinson's reminiscent talk was followed by an address by Mr. D. W. Dumble, also a former superintendent.

The Harvest Thanksgiving services were held during the day in the church. The pastor delivered two fine sermons, and the work of the choir in anthems and solos was very pleasing.

Night Classes
— AT THE —
Peterboro' Business College
(Founded 1885.)

Many ambitious young people are taking advantage of the splendid opportunity to improve their education by attending the night classes at the Peterborough Business College. These classes are conducted on Monday, Wednesday and Friday nights, and students receive instruction in any one or all the subject of the Commercial or Stenographic Course. By this method, young people may learn while they earn, and thereby increase their salaries and better their positions without losing time from their work. You may enter any time, but it will be to your advantage to enter now. The cost is small, while the benefit to be derived therein is inestimable.

The Business world is full of opportunities, but the best positions are open only to those who are competent to fill them. By attending Night School at the Peterboro' Business College, you may become competent.

FRENCH MAID CO. STRUCK THE ROCKS

Went Out of Business After Sudbury Performance

Toronto, Oct. 23.—Twenty-six stranded actors and actresses landed high and dry in Toronto from a tour of New Ontario. All but nine of the company subsequently raised sufficient wind to raise themselves off the rocks, and embark for Philadelphia. Of the remaining nine, three are men, four are women, two are girls of fifteen or less. One of these younger ladies is accompanied by her mother. The other is alone and penniless.

The French Maid company was organized in Philadelphia last August by Weinberger and Kaelkaer. It was managed by Walter M. Leslie, of Toronto, well known here in his connection with the Majestic Theatre. The show opened in Vineland, New Jersey, and played through to Nova Scotia, New Brunswick, Quebec, and Northern Ontario, to all appearances meeting with fair success. The French Maid is described as a nice little musical comedy.

At Barrie a quarrel is said to have occurred in the management. Messrs. Weinberger and Kaelkaer arrived and a great argument took place between them and Mr. Leslie. Subsequently the company played to a house of $783 at Sudbury on Thursday night. Mr. Reese, the treasurer, made an announcement yesterday morning.

"I am very sorry, ladies and gentlemen, we can't go on. We will have to each shift for ourselves."

He then distributed the money said to be available, amounting to $11 each.

By clubbing together the stranded actors got a theatrical rate of $5.20 from the railway company, which brought them all to Toronto.

Steve Robertson and his wife, who played "leading straights" in the company, were scurrying around town today trying to get the female members of the party placed with shows at the local theatres. He met with no success. He says he will attack the properties, as Messrs. Weinberger and Kaelkaer have a rating in Bradstreets.

ITALIAN HAD HIS HIP CRUSHED

Painful Accident Occurred at Drummond Station

An Italian workman who has been employed in the cement works at the Drummond Station, had his hip crushed on Saturday afternoon and was brought to the city on the Belleville train at nine o'clock.

At the station he was met by Comstock's ambulance and conveyed to St. Joseph's Hospital, where Dr. McNulty is attending his injuries. It is not expected that the injuries will prove very serious.

It appears he was engaged in coupling an engine and car when he was injured. He was standing facing the coupling when he was hit by the engine and crushed against the buffet of the car. Owing to his small knowledge of English it was difficult to obtain a really accurate explanation as to what did happen.

Lindsay is to have a rifle range, according to the Lindsay Post. The proposed site is at North Ops.

KARL LEHMANN AT ST. ANDREWS'

Made a Powerful Appeal for Personal Soul Winning

With an abundance of interesting reminiscences at his tongue's end, the majority of them illustrating the subject of his sermon, Karl Lehmann the interstate field secretary of Christian Endeavor Societies, experienced no difficulty in retaining the rapt attention of the congregation of St. Andrews last evening. The truth of the appelations, "Consecrated Dynamite" and "Whirlwind" which have been bestowed upon him, were demonstrated last evening, and his delivery and forceful utterances revealed him to be a man whose soul is devoted to the duties of his office and of Him in whose cause he is laboring.

His appeal was especially intended young people, and in it he made a powerful and inspiring plea for more sustained and faithful efforts at personal soul winning for the Master. There were two outstanding and necessary object in view, remarked the speaker, and they were first, the bringing of people in touch with the work of the young people's societies and secondly, the bringing of these organizations into a higher state of efficiency.

Proceeding he dwelt briefly but forcibly on the need, the opportunity and responsibility of personal soul winning. Every one can do it; it has been left too often with the minister and the missionary. The surest and the best way to win souls, is by winning them one at a time. Two reasons why everyone should be a personal soul winner are, first, because sinners need salvation, secondly because the Christian needs it for his own glory, that he may be strong.

To illustrate a point in his remark Mr. Lehmann cited the following incident. A man was once lost in a fierce blizzard in the West. Completely ignorant of his bearings, he travelled in a circle all the afternoon, and on into the darkness, and chaos of the night. Though he would fain have given up and stretched himself in the snow from sheer fatigue, he kept trudging on. His weariness reached a climax and just as he was at the limit of his endurance, he fell on his knees and prayed to God for deliverance. As he keeled over in the snow, his hand came in contact with an object, which, on investigation proved to be the body of a man, who had given up also. The first man's sympathy was at once aroused and he commenced to chafe his limbs, finally inducing consciousness. His efforts efforts proved to be his own salvation by restoring circulation and the two men went on together. The above true anecdote was an example that could be applied to spiritual life, showing that a Christian is often benefited himself while saving others.

Mr. Lehmann told many other stories, some of them of vivid interest. To-night he will address a union rally of the young people's societies in St. Andrew's church.

CONSECRATED DYNAMITE

Mr. Karl Lehmann, the Field Secretary of the C.E. Union of the U.S.A. will address a rally of the young people's societies of the city in St. Andrew's church this evening at 8 p.m. Rev. Mr. Rollins will take the chair and special music will be rendered during the evening.

Mr. Lehmann has a splendid reputation amongst the churches of the U.S.A., and has earned the name of "Consecrated Dynamite" on account of his tremendous energy.

Address—Mr. F. Wilson.
Instrumental solo—Miss Ferguson.
Reading—Inspector Mowat.
Violin solo—Mr. Wilson.
Instrumental duet—Miss Cathcart and Miss Morrow.
Recitation—Robt. Whitfield.
Instrumental—Rev. J. Marsh.

FRIENDS GAVE FOUNTAIN PEN

Mr. Bert Gillespie to Take Position at Edmonton

Prior to his departure to accept a lucrative position in Edmonton, Alta., Mr. Bert Gillespie, of the Peterborough Hardware Co. staff, was pleasantly surprised Friday evening at his home, 138 Hunter street, when he was waited on by a number of his fellow employes and presented with a handsome gold fountain pen. The gift was accompanied by an eulogistic address, read by Mr. Albert Hugerman. Mr. Thomas Record made the presentation. The affair was a total surprise to the recipient, who felt deeply grateful for the evidence of his fellow-workers' good-will. During his five years connection with the Peterborough Hardware "Bert" has been a popular employe, and his eagerness and desire to please all customers further augmented his popularity.

The best of good wishes from scores of warm friends will accompany him to his prospective field of employment in the west.

He leaves next Wednesday for Edmonton.

The Daughters of Erin of St. Andrew's Church, will hold an At Home on Tuesday evening, October 24th, from 7.30 to 10, at Mrs. Wm. Campbell's, 511, King St. Silver Collection.

LEARNING TO USE LIGHT

In these days when every one has so much to say about efficiency, illuminating engineering is of the first importance. In order that employes may work rapidly and well they should be protected from needless fatigue. About the quickest and surest way to tire out a roomful of people is to flood the room with a uniform light of high intensity. Where work is to be done by artificial light the general illumination should be moderately low, with local lights of higher intensity above the work bench or desk. And, by the way, the average desk light or reading lamp is too low.

The color of the light, too, plays an important part in tiring people out. Fatigue occurs far more quickly with orange and yellow rays at high intensities than from green and bluish green light like that from the mercury vapor lamp. Nothing equals the bluish white of diffused daylight.

Shadows also have an important part to play. In fact one of the principal aids in distinguishing objects is the difference in brightness. If there were no shadows but only a perfectly diffused illumination of high intensity it would be hard to see clearly. In order to have shadows there must be directed light from one or a number of sources, and not merely diffused light coming from all directions. There must be enough directed light to mark the edges of objects by shadows, and also enough diffused light to enable one to see clearly in the shadows. The directed light should come from above at a considerable angle with the horizontal so as to limit the length of the shadows. There are cases, however, when a combination of directed and diffused light will not answer. In a flour mill or a foundry, for example, where everything is of the same color diffused light would be practically useless; but in a draughting room where all the objects requiring distinction are in one plane, a directed light casting shadows would be equally objectionable.

To light the home with comfort and economy requires a combination of concentrated illumination of fairly high intensity at the dining or reading table with a general illumination of low intensity. The lighter the walls and ceiling are the more light they reflect to give the required diffused general illumination and so less direct light will be needed. As artificial light is deficient in blue and green rays, walls and ceilings of a bluish or greenish shade give them greater reflecting power for daylight than for artificial light, which is generally desirable.—November Technical World Magazine.

TRUTH, PURITY AND DECISION

Qualities Which the True Man Should Possess

Rev. G. A. Rix, of Orangeville, preached splendid sermons at All Saints' church yesterday and at the evening service took as his text part of verse 13 of 1. Corinthians, 16 chapter:—"Quit you like men." To be the best of man, the preacher held it to be absolutely necessary that a man be true, of pure faith, and have decision and be capable of showing tenderness. It was not the man who was successful in sports or in business. If he lacked truth, or was impure in his thoughts or actions, he was not the right type of man. He should scorn to lie, both by word and by act. To have decision was a most important and necessary qualification. Too many men, the speaker held, were too willing to sit on the fence and drop off with the majority. The real man, should be firm in his convictions, and have the strength to say yes or no. Sports he said were a good thing to promote decision, as one had to see, think and act quickly.

CONVENTION TO BE HELD AT OTTAWA

Ottawa, Oct 23—Ottawa was decided upon as the place of holding the next annual convention of the Canadian Forestry Association at a meeting of the Directors on Friday afternoon. The time is February 7th and 8th, 1912, which coincides with the annual meeting of the Canadian Lumbermen's Association, and it is proposed that the two Associations shall hold a joint banquet on the evening of February 7th. Both associations expect an array of distinguished speakers, and the event will be one of the biggest of the kind ever held in Canada. Efficient committees have been appointed to look after the different features and Mr. Frank Hawkins, Secretary of the Lumbermen's Association, and Mr. James Lawler, Secretary of the Forestry Association, both of whose officers are in Ottawa, will co-operate in the work.

REV. KEITH UNABLE TO TAKE SERVICES

Owing to a severe attack of la grippe, Rev. H. J. Keith was unable to occupy his pulpit at either services yesterday. Mr. H. M. Gilchrist, general secretary of the local Y.M.C.A., took his place at the morning service and Rev. Mr. Ross at the evening service.

In the afternoon Rev. James Rollins addressed the Brotherhood of Andrew and Philip in the pastor's absence.

WANTED TO BE SURE OF DEATH

Aged House of Refuge Inmate Hanged Himself

A case of suicide occurred last week at the House of Refuge at Cobourg, when Humphrey Wood, an aged inmate of that institution, very deliberately took his life, by hanging. On Wednesday morning his body was found suspended by a rope over the piggery. He put a brick in his bosom and placed the rope around his neck, while standing on a box. He then stepped off, and to make sure of his job he had to draw up his legs, his knees almost touching the floor. He was missed at breakfast time and a search made, which resulted in finding him as stated. He was 78 years old, and had led a rather hard life. He came from the township of Manvers.

Have you learned that when you express an opinion on a subject, that does not finally settle it?

DANGEROUS FAMILIARITY

Shooting Season Brings Much Enjoyment, But Drastic Measures are on Demand for the Careless Handlers of the Rifle.

The shooting season is upon us again. For a great many men and boys it is going to mean a few days at least of well-earned holiday and some genuine sport, carried on in a manner becoming to true sportsmen. It is going to mean welcome additions to the larder at a time when the range of meat foods has become narrow and monotonous. Roast wild duck is not to be despised at a king's table. But unless it is remarkably unlike previous seasons, this shooting season is going to mean more than sport and good eating. It will mean death to a number of people, sorrow in the homes they leave, and passionate regret never to die out in the heart of the man whose hand caused the "shooting accident" of which we read and hear so often that it scarcely causes a pang of pity or surprise. None of these deaths are ever caused by malice, but nearly all of them are avoidable if proper care is taken. Real familiarity with a gun breeds respect; it is your youthful, inexperienced sportsman with a desire not to appear like an amateur who treats his weapon with dangerous familiarity and adds the largest quote to the list of the slain. There are a group of men — middle-aged men now — who have gone deer hunting together every season since they were young fellows. There never was an accident in that camp in all the years because the infallible rule was that no man was to shoot till he was sure at what he was shooting, and no man was to bring a loaded gun into camp under any pretext whatever. Breaking the rule meant that the camp was closed forever to the guilty one. Making it compulsory to have a gun license is a good thing, but suggests a sporting authority one of the conditions should be that any man who caused an accident with a gun during the game season, should have both gun and license taken away from him for the rest of the year, and aggravated cases of heedlessness should be punished by fine or imprisonment.

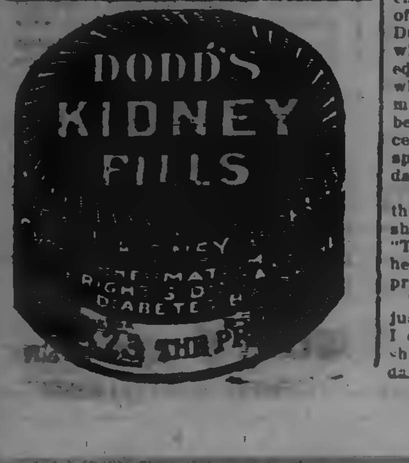
THE GOLDEN RULE

Not Too Much Strict Letter of the Law, but Do to Others What Will Bring Most Happiness.

The Golden Rule should not be interpreted too literally, for at times to do to another what you would like him to do to you is to incur his undying enmity. The spirit of the law breeds happiness but the strict letter of it has the power to cause trouble of no trivial sort.

It is told of a man who for a whole winter took a girl every week to see a vaudeville show and prided himself on being a most generous and attentive cavalier. He was fond of vaudeville himself and presumed that she ought to be, for he turned a deaf ear to any suggestion that they go to see any good things in legitimate drama, of which he knew she was fond.

In the narrow confines of domestic life one sees it often, this too literal translation of the Golden Rule. One sees the wife work and toil over meals and the keeping of the house, all for her husband's good as one fondly believes, when what he really wants most is a smile and a song. Again the husband thinks he is doing all in his power to make his wife happy when he provides well for her and gives her presents of as great value as he can afford. He cannot comprehend that what she wants is to be teased and kissed, and when he is away from home a letter every day is of far more worth than if he brings home a Paris frock or a pearl necklace. Do unto others what will give them the most happiness even if it looks like foolishness.



Togo and the Suffragettes

Admiral Togo recently gave his views on the Suffragist question to a woman interviewer. "I am not a Suffragist,' he said. "I believe woman is harmed by any movement that takes her mind off her home and children. I believe in the higher education of women, but to me the highest education a woman can have is that which makes her believe that her greatest usefulness is at home and her greatest duty towards the States is the giving to the nation children — the future citizens. What does a woman [illegible] education [illegible] given to men? In our country women have a lower grade of education than men — that is, where the outside political, and practical things are considered — but she gets all the education she needs. The women of my country send their husbands, and brothers and sons out to the battlefield with a courage as great as that possessed by the soldiers themselves. That is where woman shows her strength and splendid citizenship and patriotism."

A Sudden Change!

"Florida in the late winter and early spring is a delightful place to visit," said John Jacob Astor, at tea beneath a palm at Palm Beach.

"But," said Mr. Astor, "some people think that in any Florida town for $1.50 a day they will get the luxury that we find here, or in St. Augustine or in Miami.

"I know a man who, arriving at a kind of 'busted boom' resort in the hammock lands of Orange County said to the hotel clerk with a sarcastic smile:

"'It's wonderful what havoc time makes.'

"'Yes?' said the clerk, politely.

"'Yes, I was thinking,' explained my friend, 'what a magnificent building this hotel was in the circular I saw before leaving New York yesterday—and, alas! look at it now.'"

Realism in Art

Actors frequently receive unexpected proof of the realism of their art. Not long ago, on the occasion of the performance of "Hamlet" by a distinguished English player, there were no more interested and absorbed spectators than two newsies in the gallery.

The boys had been watching the performance with breathless interest. The last act was drawing to a close. The duel almost dragged the lads from their seats.

Before their eyes the Queen was poisoned, Laertes killed, the King killed, Hamlet killed. On the final tragedy the curtain started down. The audience was spellbound.

In the gallery there was a clatter and a crash as one of the boys mentioned started for the door.

"Come on, Tommy," he shouted back to his companion. "Hustle! There'll be extras out on dis!"

A Timely Hint

One of the best known and ablest of English judges is not given to the use of superfluous words, and his fondness for brevity is such that he embraces every possible opportunity of leading others to seek it also. During the hearing of a certain case which came before this judge, a learned King's Counselor prosed away at what seemed likely to be an interminable length, until His Lordship, becoming utterly weary of the proceedings, suddenly looked towards the speaker, and gently enquired what day it was.

The question was so unexepected that the barrister looked a while, in sheer amazement, at the questioner. "Tuesday, me lud," he replied, when he had partly recovered from his surprise.

"Ah, yes, quite so,' responded the judge, in his suavest tones, "You see I only just wanted to mention that I shall not be sitting after next Saturday."

BEEN SNEEZING LATELY?

Hay Fever Blamed But Few People Get Sneezes From Hay, and There's No Immediate Death Danger.

The alleged "hay fever" season is now operating on full time and sneezing is general in the land, notwithstanding the more or less earnest efforts of the members of the Hay Fever Association which is alleged to have been in operation on the American Continent for close on forty years.

Hay fever is never 'caught", we are told. A victim must have the tendency to develop the sneezing habit. He may develop it at seven and he may develop it at twenty-seven; but if it is in him, he will develop it, sooner or later, depend on that. There is something so dreadfully certain about hay fever. It comes, and nothing can turn it away. Doctors may claim to cure it. The man who has had hay fever thinks they deceive him. Their assertions are delusions, and their cures are snares. They may banish the awful explosions in one's bronchial tubes corresponding to the explosions in the carbureter of a gasoline engine for a brief time. But as for permanent relief — never.

Still, there are some consolations in hay fever. It seldom gets worse with age and few people have ever been known to die of it. Now and then you hear of some stout person of apoplectic tendencies being overcome by a paroxysm of sneezes, but after all that kind of person is apt to explode with fatal consequences, one way or another.

The facts of the matter are that people who have hay fever or asthma, which is often confounded with hay fever generally live to a ripe old age. They may sneeze on their death beds to be sure; but the sneeze will not kill them. Some doctors are even disposed to the possibly cynical belief that hay fever is an indication of longevity.

One might go on through an almost endless list of remedies. Injections of alcohol, cocaine, menthol, adrenalin and margol, air heated by electric lamps, these and many other queer means of relief are all seriously considered, weighed, and endorsed or found wanting, according to the individual experiences of individual sufferers. For the queerest thing of all about hay fever, is the fact that it never affects any two persons in the same way, and no relief, no matter how good it is, has ever proved anything like unanimous in its operation.

But, after all, hay fever any way you look at it, is not what it pretends to be, nine times out of ten. Very few people get the sneezes from hay, and as a conclusive and final indictment of hay fever, the worst that can be said against it is that it is not a native product. It slipped in long ago and it has propagated like the English sparrows. To be exact, in the days when this country was covered by forests, the hay fever particular sneeze was unknown. The red men never did it, and the first generation of colonists probably escaped it. Not because they were "hardy pioneers." The hardy pioneers have always escaped hay fever, not because they were hardy, but because they were pioneers. But with the pioneers came cultivation, and with cultivation came the introduction of the poisonous gases, plants, flowers, and weeds, the pollen of which started the disease, and roads which gave off dust. And then.

Sherlock Out-Holmes'd

A short time ago a large factory fitted with the most modern appliances, including electric light, caught fire, and, despite the most strenuous efforts of the fire brigade, was almost demolished.

The following morning a newly appointed member of the police force was despatched to the shop to see how the fire originated. After closely questioning the manager of the factory, he asked to see the man who was responsible for the electric light.

The manager stated that the electric switches were under his sole control.

"Then you are the man that lights up the electric affair?" said the policeman.

Manager—"That is so."

Policeman, bubbling over with excitement—"Now, be careful how you answer my next question, 'cos if it ain't satisfactory, it will be took as evidence against ye. When you lighted the electric light last night, where did you throw the match?"

Breaking the Hat-Pin

Berlin's Chief Constable is dealing with the hat-pin danger in a very pointed manner. Some months ago he issued a courteous appeal to the fair inhabitants of the city requesting them not to wear dangerously long needles in their headdress without covering the points with protecting sheaths. This appeal, however, does not appear to have met with the desired compliance, and the Chief has now proceeded to stronger measures. A woman whose unprotected hat-pin inflicts a wound on another person is now liable to a fine of $220 and to a term of imprisonment not exceeding two years, in addition to which the injured party may claim damages up to $1,500.

Blind Shorthand Writers

A Jewish contemporary puts on record the remarkable feat of Mr. Maurice Myers, who reported the whole of the discussions at the recent conference at Exeter, Eng. on the treatment of the blind, and adds the interesting fact that his notes were recorded on a narrow strip of paper which extended to a length of two and a quarter miles. The idea of shorthand note taking by the blind is, of course, not new to Britain, for it is well known as one of the principal subjects taught to the sightless at the Birmingham Royal Institution for the Blind. Mr. Myers was trained at the Birmingham institution, and his speed is 153 words a minute — rather above the average speed of the seeing stenographer.

The "Philosophers Stone"

The philosopher's stone was something which the chemists of long ago were looking for. In those days they were called alchemists, alchemy being the old name for chemistry. They are the same words, al simply meaning the.

The general name of philosopher was given by other people to all who studied Nature in any of her aspects. The object of the search was to find something that would turn base metals into gold. This was really not worth aiming at, but in the search, which never succeeded, the alchemists found out all manner of chemical facts, for which we must always be indebted to them. And we must do them the justice to suppose that many of them were deeply interested in what they found out, for its own sake. The philosopher's stone would not have been worth finding for the sake of the gold, for directly gold became common it would lose its costliness. It has no real value in itself beyond that of a great many other metals. We are learning now that one metal can be turned into another especially through the action of radium.

It is not certain that we shall be able to make gold for a long time yet, but radium already goes a very long way towards being what our ancestors looked for in the "philosopher's stone."

About the Modern Girl

The woman of to-day differs from the woman of earlier times, for not only has she a clearer consciousness of her own intellectual possibilities, but she has broken down the barriers of custom, prejudice and tradition, which for long surrounded her, and has found scope for her talents in those wider fields hitherto reserved exclusively for men. In public works women are serving in the employ of the London County Council, Board of Education, Local Government Board, Home Office, and Board of Trade. In agriculture and gardening, hygiene and cookery, philanthropy and politics woman has justified the position accorded to her; and in the arts she is making her mark, and this with an intelligent development which has placed her on equality with man. In poetry, Elizabeth Barrett Browning, Christina Rossetti, and Alice Meynell are names in the first rank; whilst in painting in 1875, we have Ruskin's recantation of his opinion that no woman could paint publicly expressed, his "iniquitous prejudice" confessed, his frank acknowledgement that Lady Butler — Miss Elizabeth Thompson as she then was — was doing Amazon's work." Since that time we have the work of Mrs. Stanhope Forbes, Mrs. Henrietta Rae, Mrs. opling, Mrs. Adrian Stokes, Miss Eleanor Fortescue Brickdale, Mrs. wynnerton and Miss Lucy Kemp-elch, as illustrative of the extraordinary development, the robust originality, the sound technical method to which, in this branch of art, woman's work has reached.

Mother (crossly)—"Freddie, haven't I told you that you must not talk when I am talking."

Freddie—"But, mamma, you won't let me stay up after you go to bed."

Men hate to be called liars, but most of us are, occasionally.

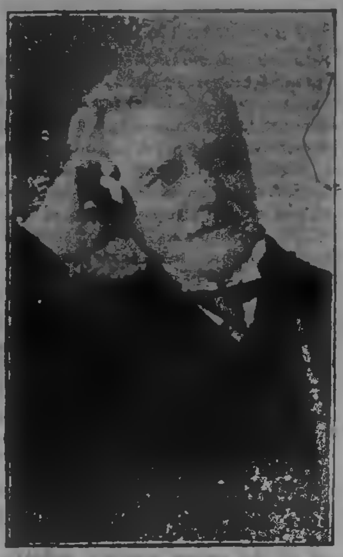
WHAT CANADIANS ARE DOING

LT.-COL. FRED. WHITE

Canada's Great North West has been settled without anything in the shape of the lawlessness that marked the dawn of white civilisation in certain other sections of the American Continent. Those who have "gone in" have, with possibly a few exceptions, been of a good breed, anxious to make their way, willing to abide by the law written and unwritten, and with determination to leave behind them a blazed trail that the follower-on would approve. This big family had, notwithstanding, a few to whom the law of self made stronger appeal than that of the general welfare; men with a cross in their temper and a gun on their hip. For such as these, arrangements had to made. And the North West Mounted Police came into being.



LIEUT.-COL. FREDERICK WHITE

With the administrative work in connection with the raising of this estimable body of peace-preservers and guardians-in-general of the inhabitants of these territories will ever be associated the name of Lieut.-Col. White, C.M.G., who has held the appointment of comptroller of the Royal North West Mounted Police since 1878 after a short term service as chief clerk.

Col. White saw the daylight at Birmingham, England, in February of 1847, and spent his alaphetical days there. The bigger latitudes and longtitudes of the Dominion attracted him in early manhood, however, and he "broke away" for the west Atlantic shores. Railroad life appealed to him, as it has to many thousands of lads from the old Country, and as a start-out on life's real business journey, White set his feet on the first rung of the ladder at Montreal by getting his name on the payroll of the Canadian Pacific Railroad Company. This did not hold him for any extended length of time however, for we find him at Ottawa in 1869, in which year he started in to hold down an appointment in the Department of Justice, and to such extent did he make good at the Capital, that the administrative work in the North West followed.

During the years 1880-82 White acted as private secretary to Sir John MacDonald, and in course of the following year was honored with the status of a Deputy Minister.

Col. White started on his career military while in Montreal, where he served in the ranks of the 3rd Victoria Rifles, and later held a commission in the Governor General's Foot Guards at Ottawa, in which he attained the rank of Captain. In recognition of his services in connection with the raising, and the equipment of a contingent to fight alongside the Brother Britons in South Africa Captain White was accorded the rank of Lt.-Colonel in the Canadian Militia in 1901, and the title of C.M.G. followed in 1902; that of Commissioner of the North West Territories being added three years later.

Mr. E. B. DEVLIN, K.C.

Mr. E. B. Devlin, K.C., who succeeded Sir Wilfrid Laurier as parliamentary representative for Wright County, Ont., is a native of Aylmer, and has for a matrimonial partner the daughter of a gentleman who was perhaps one of the closest political friends of Sir John A. MacDonald — Hon. Col. L. R. Masson, of Terrebonne who was minister of Militia, and for a period president of the Privy Council in the MacDonald Cabinet.

Mr. Devlin received his early education in St. Mary's College, Montreal, and subsequently attended college in Derbyshire, England. Returning to Canada, he took B.A. degree at Laval University, Montreal, his M.A. degree at Canisius University, Buffalo, and the degree of B.C.L. at the law school of McGill University in 1895.

In 1896 Mr. Devlin began the practice of law in Montreal, where he soon took his place as one of the leading criminal lawyers at the Quebec bar. He acquired a lucrative practice, and was a prominent figure at a number of important trials held in his native province. In 1900 Mr. Devlin received the Liberal nomination for parliament in St. Anne's division, Montreal, but he withdrew from the contest before polling day. In 1901, he moved to Hull, where he has had a paying law practice ever since. He was appointed K.C. in 1907. Mr. Devlin is a brother of Hon. C. R. Devlin, minister of mines, fisheries and colonisation in Sir Lomer Gouin's present Quebec cabinet, and a nephew of the late Bernard Devlin, Q.C., formerly M.P. for Montreal central division.

The body of John Connolly, a well-known Bridgeburg man, was found in the M.C.R. yards there.

The Famous Rayo Lamp.
The best part of the day is the evening, when the whole family is gathered together around the lamp.
The old days of the smoky fireplace and flickering candle are gone forever. In their place have come the convenient oil stove and the indispensable Rayo Lamp.
There are to-day, in the United States alone, more than 3,000,000 of these Rayo lamps, giving their clear, white light to more than 3,000,000 homes.
Other lamps cost more, but you cannot get a better light than the low-priced Rayo gives. It has become so popular we may almost call it "the official lamp of the American family."
The Rayo is made of solid brass, with handsome nickel finish—an ornament anywhere.
Ask your dealer for a Rayo lamp; or write for descriptive circular to any agency of

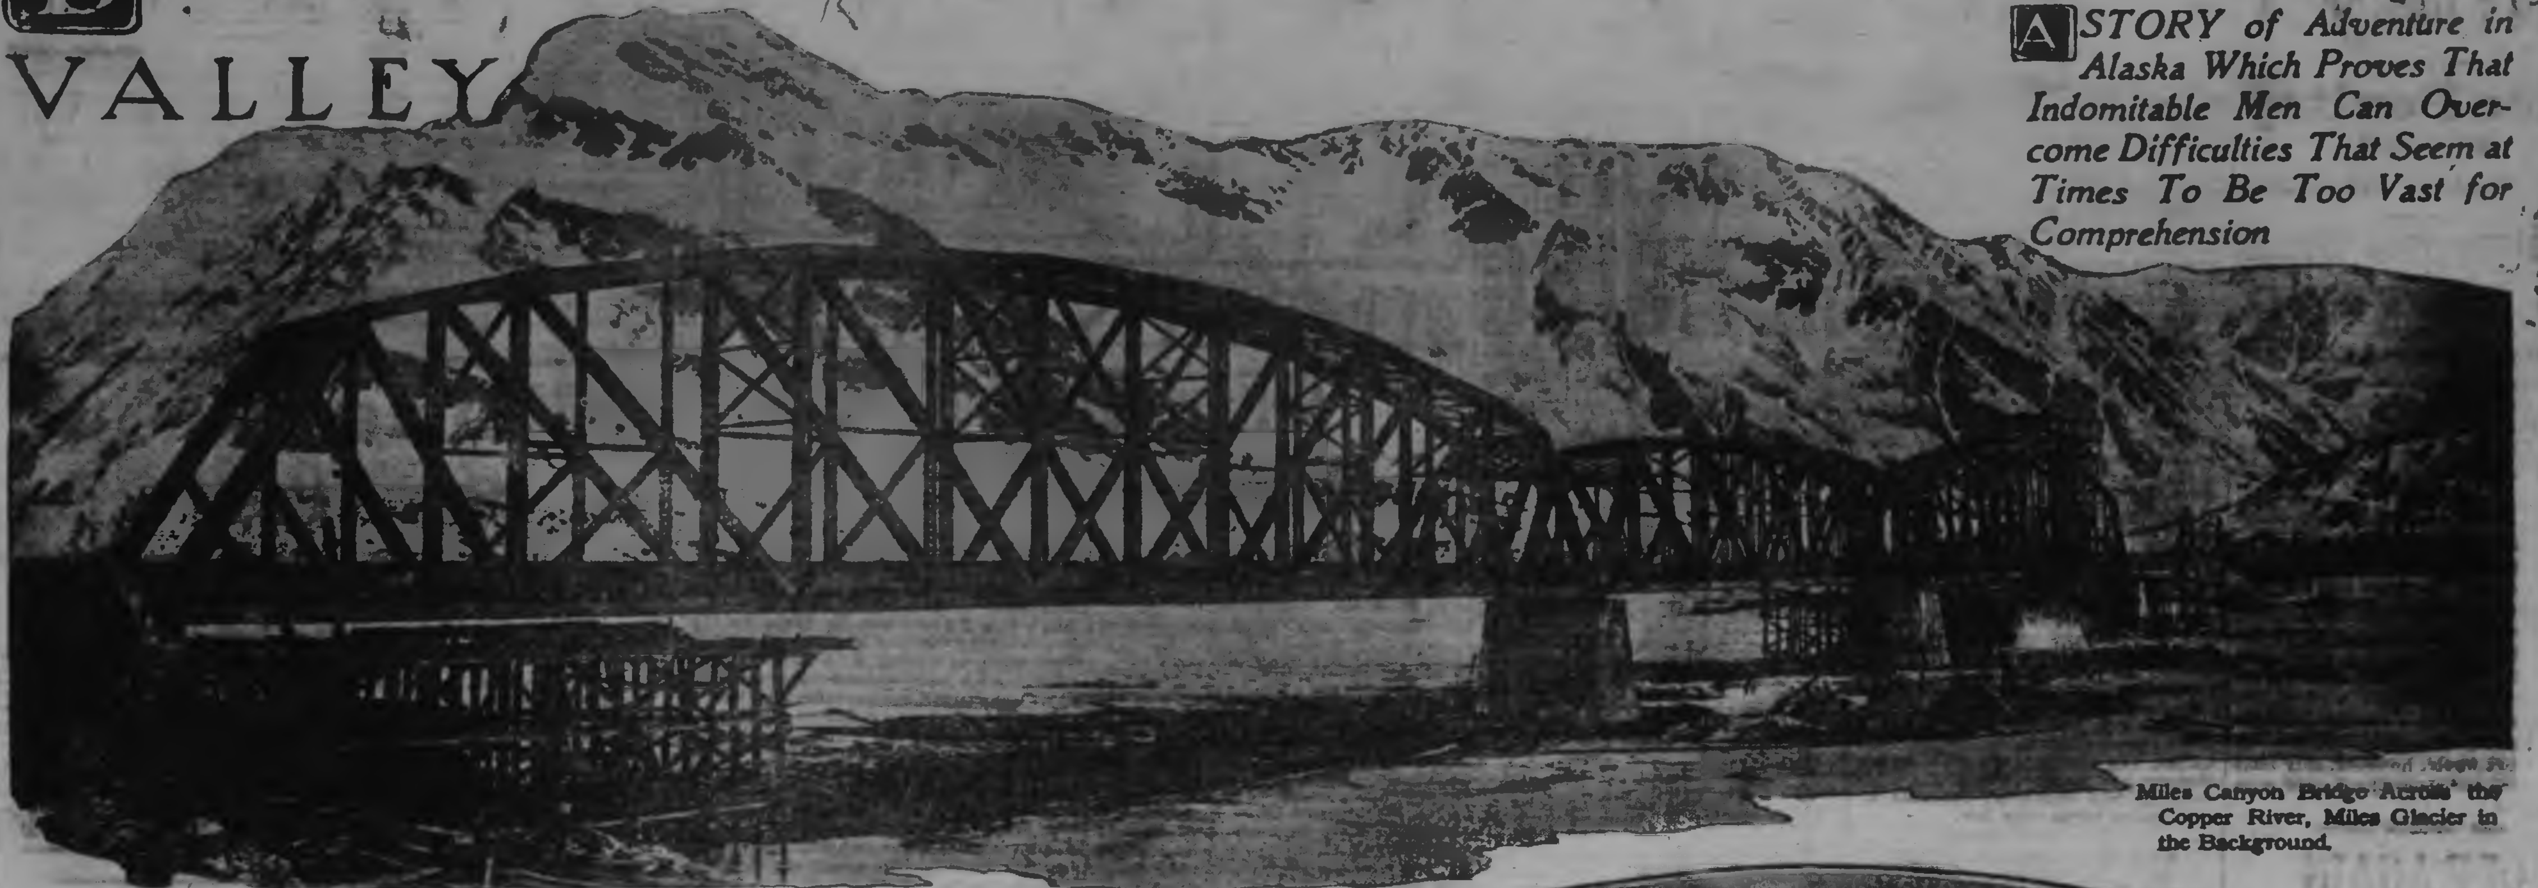
BEATING NATURE in the COPPER RIVER VALLEY

A STORY of Adventure in Alaska Which Proves That Indomitable Men Can Overcome Difficulties That Seem at Times To Be Too Vast for Comprehension



Miles Canyon Bridge Across the Copper River, Miles Glacier in the Background.

THE author of this article is known even among progressive, daring, dauntless American railroad men as an "advanced railroader." Before he took the presidency of the Copper River and Northwestern Railroad he won his spurs with the Burlington, after a record with other roads in lesser offices, as a driving, pushing, indomitable man.

Physically he is a giant, and, quite like many other such men who really do things, he has an abounding good nature and a sense of humor that nothing can cloud.

Many of the tales in this series are particularly the adventures of the narrator, and perhaps one or two immediate associates. In this one are told the things that have befallen five thousand Americans, of whom the teller of the tale, though the leader, was only one, who took his share of the labor and danger as any good general in a great campaign should do.

BY S. W. ECCLES.

(Copyright, 1910, by the New York Herald Co. All rights reserved.)

TO the average man in the United States Alaska is merely a near-polar region of ice and snow, where there is plenty of gold to be found if the hunter can keep from freezing to death. The truth is that it is largely a fair and wonderful land, in parts of which nature has locked up treasures of untold value and set the mightiest of mountains, the most powerful of streams, the cruellest of winds and the most crafty, stubborn and treacherous of all her aids as guards, whose vigilance is eternal.

They comprise an appalling defensive and at times aggressive force, and, quite as much as Napoleon's troops who marched on Moscow, Edward III.'s outnumbered knights and bowmen who triumphed at Crecy and the marvellous Foreign Legion which Africa engulfs in part each year, our men on the Copper River constitute an army, and the building of the Copper River Railroad is one of the fiercest and most spectacular battles ever fought. The enemy is Nature—Nature who when conquered, as she will be, will prove a good friend and ally.

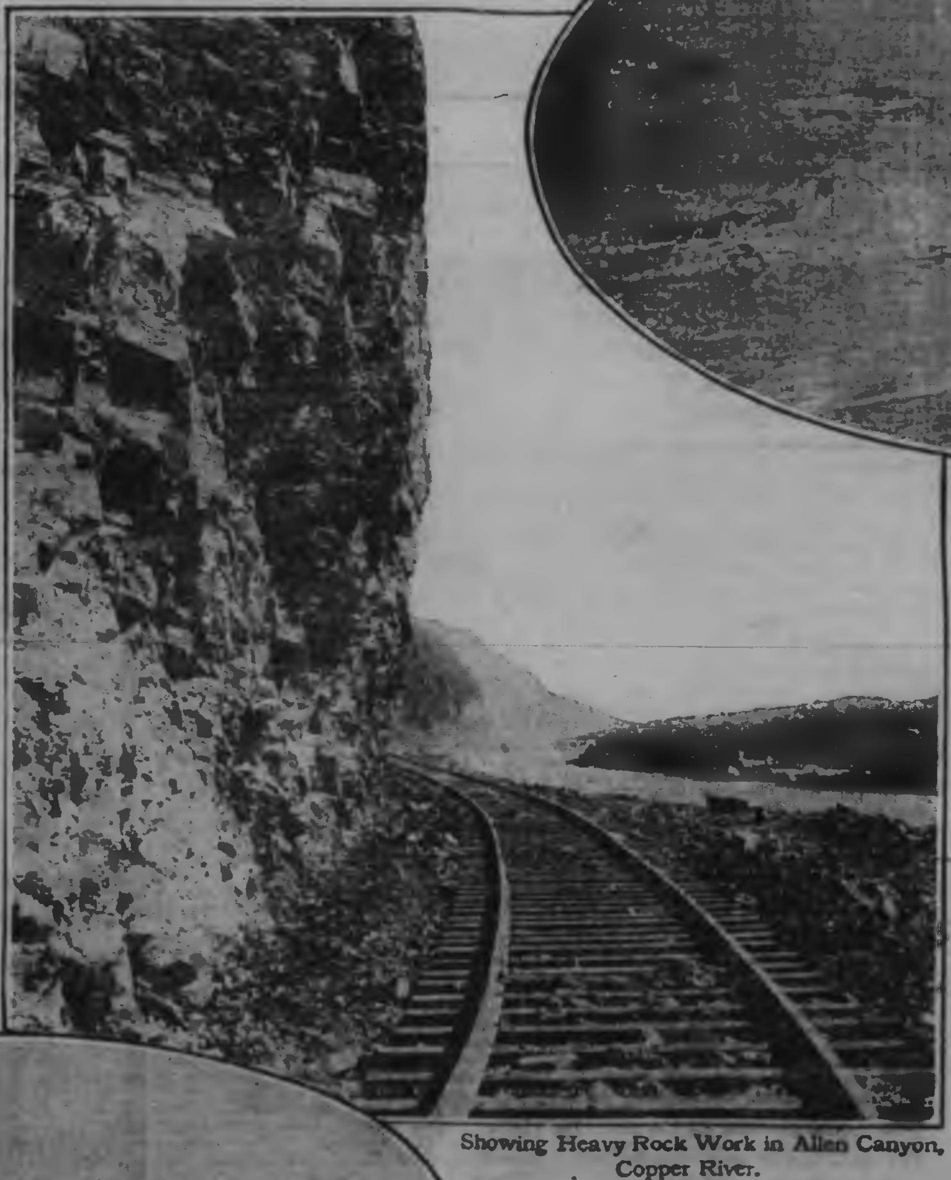
It is only building two hundred miles of railroad. It is only the fulfilling of a contract. There will be no heroes, medals, processions, pensions and thrilling pages in history. The men who, from the chief to the lowest camp helper, imperil their lives every day are working merely for pay, but I can't help feeling that, though the great mass of people never will hear of it and only a few will realize, it is something more than commonplace, it constitutes one of the truly glorious things in the history of the American people.

Picture of the Scene.

Before passing to the narrative of the crisis of this battle of the Copper River in the North, permit me to detail some of the smaller heroisms of the long campaign, for surely the man who under fire digs a rifle pit with his bayonet or bears a wounded comrade through a leaden hail is no greater hero than the man who swings a pick where the next instant he may be swept to death in a rush of ice and earth and water or in the bitter, bitter cold strives to thrust forward a mattress of brush for a footing where one misstep means that he will be whirled away in an icy torrent at the speed of an express train beyond all possible hope of rescue.

Northward from the port of Cordova, on the centre of the southeastern coast, at a distance such as a good automobile can cover in a tamed Eastern State between breakfast and dinner, lies the Kotsina-Chitina copper district, one of the world's richest, if not the richest of all, deposits. Just beyond is the region of gold, and part of the way from the coast are fields of coal the wealth of which even at the lowest estimate makes a mind strain for comprehension. The American spirit would not permit that this wealth should remain undeveloped for lack of transportation, and when the government evaded the task of preparing to get it out a private corporation set out to build a railroad that would haul that wealth to tide water. The men who are building it are the adventurers of this narrative.

This Is the Only Method of Reaching the Interior in Winter—Valdez-Fairbanks Trail.



Showing Heavy Rock Work in Allen Canyon, Copper River.

Alaska's Present Winter Transportation—Dog Team Leaving Valdez.

Beginning with the first few miles after the road sweeps from Cordova around Lake Eyak the first three hundred and fifty men who invaded the region encountered the first fight. M. J. Heney, dubbed the "Prince of Alaska," a brother of Francis J. Heney, the noted prosecutor of San Francisco, led the movement as the contractor, seconded by E. C. Hawkins as chief engineer.

The Copper River is spread into a delta covered with silt as is the delta of the Mississippi. This it was necessary to cross in the hard season before the summer floods should turn it into a shallow lake with a muddy bottom of great depth.

It was on November 15, 1907, that the heroes of my story began and already the terrible winter was on. The snow was eight feet deep and there were only six hours of daylight. The flats were twenty miles wide and bare to the blast, with many glacial and tidal streams, in addition to the three mighty channels of the Copper River itself. They set to work in storms in which the wind, blowing from sixty to ninety miles an hour, hurled the particles of fine ice and snow through the air like fine shot. Utilizing the winter hardened stretches, they must construct before the softening spring came a highway over not only them but the reaches of loose ice, churning slush and speeding water, so that the heavy material for construction inland could be transported thither.

Using brush and poles packed into a mattress, placed by men and horses where many times if they missed footing all went floundering down into varying depths of loose ice, snow and water that froze like armor on them when they were dragged out, if they were so fortunate as to be dragged out—that was the way they built that track. All winter they worked preparing the way and getting men, equipment, tools, donkey engines, materials and food supplies across.

The spring brought added terrors in the way of labor under difficulties and sufferings that increased. Each thaw meant the sinking of a portion of the work or the undermining or sweeping away of another, and as the weather grew warmer the turning of the whole into a mush from six to twenty feet deep, over which men must work in snowshoes.

How doggedly they had striven can be imagined when it is said that one month after reinforcements had landed in April track had been laid across the first section of those terrible flats reaching to Alaganik, crossing a distance of twenty-two and one-half miles.

Now, just beyond are two channels of the river itself, averaging eighteen feet in depth; torrents of icy water filled with floes crashing and grinding down to the sea. One channel is 3,500 feet wide, the other 1,400 feet. Imagine handling piles and timbers under such conditions, with men in boats held by long ropes and men standing on the structural work, never taking their eyes from the workmen, ready to pick up or throw a line to any man who succumbed to the labor and exposure or lost his foothold! Nevertheless, the twenty-first of June found track laid across both channels and on to the twenty-ninth mile.

These labors, these dangers were the everyday things. More dramatic were some of the exceptional. Not heeding the signs of a storm a man had started to "mush on," he and one dog drawing the sled, taking fresh provisions from one camp to another late in the day, and as the storm descended and the dark came down he lost his way. At last he found himself on water side ice, and before he could retreat the section supporting him gave way and he went whirling down stream. Soon he saw a gleaming light ahead somewhat to the right. He yelled and the malamoot barked. Just as he was swept against the timbers in the dark and the floe crashed beneath him to let him through to death, a giant Wisconsin Swede rushed out, clung with one hand as he swung down and heaving mightily lifted man, then dog and at last the loaded sled to safety.

Bravery of One Man.

Another time when a gang was advancing horses in individual barges, as was often done, an odd thing happened. The barges were craft that would hold one horse only. The animal would be forced into it, made fast, and then the gang would take hold, sometimes to the number of thirty on a hauser, and haul the beast not only against ten mile currents, but through shallows choked with ice and slush, through dense mud and over stretches of sand with very little water over it.

Two big brothers from Seattle, longshoremen they had been, were in this gang, and when the horse they were hauling partly broke loose the elder of the two made his way out to the barge to readjust the fastenings as it touched on the tip of a sandy spot. The horse in his struggles dealt the man a kick with his fore leg that stretched him unconscious in a precariously balanced position across the bow of the barge.

Now the barge swung out where at any moment the horse might dislodge the man and drop him to his death. Shouting to the other men to haul for all they were worth the younger brother plunged in, clinging to the line, with its coating of flesh cutting ice, and made his way, at times up to his neck in water or up to his hips in quicksand, to the barge. It was a superhuman muscular effort, but when he reached the barge he still had strength enough to deal the horse a blow that took all the fight and struggle out of it, and then raising his brother to safety he stuck to the barge until it was drawn through to safety.

There was a very great deal of this work to do in making connections between the various islands up the delta, and frequently the current was such that it required fifteen men to haul up a boat carrying a few hundred pounds of freight, and at times they were breast high in the raging icy flood, slipping into quicksands or falling over logs along the bank.

Nowhere in the world has anything ever been heard of like the construction of the section of line across the front of Childs Glacier. The bridge thrown across the river here, called the Miles Canyon Bridge, is what is called "glacierproof," and there is no such another one in the world, so far as that is concerned.

Like an Avalanche.

As the great ever moving river of solid ice, three miles wide and towering three hundred feet sheer from the water, flows slowly down great bergs of ice burst from the face day in and day out and fall into the river with an alarming noise and a great upheaval of water. The "ripple" a berg will raise ranges from a wave ten feet high to a wall of water twenty feet high.

One can never tell when these things are coming, and when one of those walls of water hurls itself across the twelve hundred foot channel, bearing hundreds of thousands of tons of ice on its front, the shock is something terrific. The industrial soldiers of the Copper River Valley had to get boats through with material, build sufficiently strong piers in this icy water and do all their work between the onslaughts of these waves. At the first cry of the watchers, who would go almost blind from scanning the glistening, changeable ice face, the men would drop their work and run for their lives. As the wave subsided they would return to their work if it had not been swept away. The water is so cold that it would freeze if it were not for the fifteen mile current. Construction of the camp opposite the glacier was not extremely difficult. Just above, on the same bank, however, was the great Miles glacier, and this made it necessary to cross to the other shore between the two glaciers. It was quite the usual thing for boats to arrive with but one-third of the cargo with which they started. The men were saving the lives of one another all the time. When a man fell into the river the deadly chill of it seemed to make him almost powerless and quick action was necessary unless he was an able swimmer.

For a time after the upper camp was established it was impossible to get building material to the men there, as all of the available force was required to get through enough food to keep the men in the camp alive.

The most incredible set of rescues occurred one day when a boat with seventeen men was making a brave effort to land a cargo of supplies that were imperatively needed. They were caught by one of these gigantic ice-hung waves, the boat crushed to bits and all the supplies lost, yet it was contrived to get every man out, and none of them had more serious injuries than broken legs and arms.

Just as an illustration of the force of attack this bridge must stand all the time every day in the open season of the year, this is one thing that happened to us. At last a very determined and ingenious foreman had contrived to get nine huge piles chained deeply into the bed of the river and felt that he had made a substantial beginning in that spot. The next wave hurled the ice against those nine huge sticks of wood bound together as one and broke them off like pipe stems. Barges towed by launches, a double cable worked by donkey engines, both failed as a means of getting material across that river, till at last an overhead cable was rigged and every pound of the heavy material, including engines, cars and rails, was got across by October 30.

In conclusion there should be cited that part of the battle which M. J. Heney led in person in the Allen Canyon. The contract required completion to Mile [illegible] by October 30, 1908. The stream down this canyon is really liquid ice moving at a rate of twenty miles an hour. Up this must go the material and supplies.

Does man need to have the struggle described to picture it? In September there were twenty-four days of storms and blizzards, one destroying the construction camp at Mile 52. Some men did desert, but Heney leaped into the work himself and out of pure grit and loyalty the men stayed with him, working in that awful weather from fourteen to sixteen hours a day, staggering to their bunks for a few hours' sleep and back again, half the time in the dark, driving those last five miles on to completion, and they did it.

No army in the field, not even Washington's men at Valley Forge, ever was called upon for greater fortitude or courage.

SCRAPPING AFTER FOOTBALL MATCH

Rough Rider's Manager in Mix-up at Prince George

Special to the Review.

Toronto, Oct. 23—After the football game between Ottawa and Argonauts on Saturday Manager Chittick of the Rough Riders got into a fight, at the *Prince George Hotel*, and this morning the complainant tried on two occasions to obtain a warrant for Chittick's arrest, the authorities at the police court would, however, only issue a summons and there the matter rests at present.

OFF AGAIN

Nothing Doing in the World's Series To-day

Special to the Review.

Philadelphia, Oct. 23—Another postponement of fourth game was made to-day on account of wet grounds. Rain commenced falling again last evening about six o'clock.

ENGRAVED VISITING CARDS

Bring us your plate and we will supply you with any quantity of Engraved Cards if you need a plate we can have one made for you in any style at a low price. The Review Office.

BASKETBALL

White Sox and Hungry Five Won Games

The White Sox and Hungry Five were the winners in the opening games of the Collegiate class Basketball League at the Y.M.C.A. on Saturday morning. The first game was between the White Sox and Giants and was a very fair exhibition. The splendid shooting of O Cavanah, the centre for the Sox, was probably responsible for a 15 to 6 victory over the Giants.

Team play was the feature of the Athletics—Hungry Five game, the latter taking the large end of a 14 to 8 score. In the Hungry Five, captain Matthews has a formidable bunch of players and when they meet the winning White Sox next Tuesday, there will be something doing. The Athletics and Giants also play on Tuesday.

HOCKEY

The annual meeting for the re-organization of the Cobourg Hockey club is called for to-morrow night.

Belleville will have an Intermediate and Junior O.H.A. team this season. A new rink under construction will have an ice space of 190x80 feet.

Pete Campbell acted as captain during the first half of the Ottawa College rugby game Saturday.

Shot Hit Prince's Ship.

New York, Oct. 23.—A London cable Saturday morning said: News has leaked out of a sensational incident which occurred off Portsmouth on Tuesday, when the battleship Hindustan, on which the Prince of Wales is serving, was struck by a shot from her sister ship, Colossus, while engaged in target practice.

The Hindustan was stationed near the target to note the effect of the firing, when during a slight mist a six-pounder shell from the Colossus plunged aboard on the after deck. Being plugged the shell was harmless after falling, but narrowly missed a seaman, who was the only person on that part of the deck. The prince was below at the time

Banker Gets Five Years.

Pittsburg, Oct. 23.—Jacob W. Hill, a prominent banker of East Brady, Pa., was sentenced on Saturday to five years in the federal prison at Leavenworth, Kas., for violation of the banking laws. He was charged with making false returns to the controller of the currency. Hill declared he was not responsible for the wrecking of the First National Bank of East Brady, of which he was cashier, and had he been given time he could have saved the institution. The bank failed in 1907.

Electric Restorer for Men

IN THE SCIENTIFIC WORLD

A QUICK FREIGHT HANDLER

Easy and Inexpensive Method of Handling Goods to and from Storage Flats.

Some more expeditious means of handling goods in warehouses, whether they be crates, boxes, bales, or what not, has long been necessary to supplant the slow, antiquated methods of doing this by manual labour, especially in regard to transit between building and street. This has been found in a new type of simple conveyer that has recently been devised, and which is now in successful operation. It comprises a number of trestles supporting a continuous series of wheels or rollers, carried on two rails like a light, narrow-gauge railway. The wheels are employed when boxes have to be handled, and the rollers for bales and crates. The system works entirely by gravitation, a fall of about thirty inches in one hundred feet being advocated. Demonstrations with this simple appliance have sufficed to prove that goods can be expeditiously and safely transported by this means, and that sharp curves can be negotiated successfully. In a lofty building where goods have to be discharged from different levels the same system is adopted spirally, the gradient being so arranged that the descending goods do not acquire an unnecessary downward impetus. The conveyer has been adopted on one of the wharves of Thames-side, and another larger installation is in operation at a Belfast factory, this latter plant handling packages weighing up to five hundredweight. The system is stated to be far cheaper and more efficient than the ordinary belt conveyer, the cost of installation being very low.

THE GLOW-WORM'S LIGHT

Learned Men Differ in Opinein as to the Source and Nature of the Light.

French entomologists have been just lately devoting much attention to the study of the glow-worm, particularly with reference to the source and nature of its light. It is found that both male and female are luminous, although in the former the light is much feebler. Even the eggs and larvae are faintly luminous. The light is produced on the last three segments of the abdomen. It may perhaps be worth pointing out that the glow-worm is not a worm, but an insect belonging to the great order of beetles the Coleoptera. Luminosity among insects indeed is chiefly found in the beetle order. The Mexican fireflies Pyrophorus, for example, are betties. Some of them give out sufficient light to read by. Waterton sometimes used them in this way to write up his diary when wandering in the South American forests.

In adult life the glow-worm is a vegetarian, feeding on tender leaves of plants, but while a grub it is carnivorous, feeding on snails and slugs. The light of the glow-worm and fireflies has been called phosphorescent and attributed to phosphorus. Jousset de Bellesme has stated his conviction that it is phosphoretted hydrogen gas stored up in the cellular tissues and in communication with the nervous and respiratory systems.

Fabre finds that phosphorus does not enter into the composition of the luminous substance of the glow-worm. Under the microscope it is seen to be a sort of white plaster covering the epidermis and full of branching tubes.

The Manchurian Bean.

The "Japan Herald" has drawn attention to the fact that Manchurian beans were formerly used only to make tofu, miso, and soy. About fifty years ago Chinese near Tiehling and Kaiyuan first produced oil from them by a process similar to that employed for sesame and linseed. This oil was used for fuel and for cooking, and the residual for bean-cake fodder. In the winter of 1908 it began to be exported into Europe, where it was found to be better than cotton-seed for fuel, soap-making, and feeding cattle. This success has marvellously increased the area devoted to the growing of the beans, and has caused the farmers in the north of Manchuria to give up wheat-raising. The Shantung farmers discovered that bean-cake was a first-rate fertiliser, and after the war with China this bean-cake was largely exported to Japan. The oil is used in Manchuria for lighting, lubricating, and cooking, and in south China in making waterproof cloth, paper umbrellas, and lanterns, and is often mixed with lacquer for making varnish and printing-ink. The Chinese hit upon the principle of rotation of leguminous with cereal crops quite accidentally, without knowing anything of the scientific explanation.

Vibration-Proof Electric Lamp

One of the drawbacks to the metallic filament incandescent electric lamp is the extreme fragility of the filament. The average lamp, if submitted to a jar or vibration such as occurs in a large manufactory where machinery is running, is apt to break down. This disadvantage counteracts the many attractive features which the lamp possesses. A recent invention seeks to obviate this defect. In this case the strands of the filament, instead of being looped over hooks, as is the usual practice, are passed through small rings which are carried on the hooks, but in such a manner as to have a little free-play. By this arrangement the filaments are not held so rigidly, and the effect of vibration is not so forcibly conveyed thereto. It may be pointed out that a lamp which suddenly gives out can often be given a little longer life by turning on the switch and giving the bulb a few taps to cause the broken ends to come together or fall across another strand, when, immediately lighting up and becoming incandescent, they fuse together.

A man who dislikes preachers says that when he dies, he intends to be buried by a justice of the peace.

SPRIGS OF SPORT

ALL SAINTS' WON THE CHAMPIONSHIP

Burnham Shield and Medals for Winners — Tied With Park Street.

By playing Park street to a tie 1—1, on Saturday afternoon, All Saints' football club won the championship of the Church Football League and the Burnham Shield as well as medals given by the league. Only by one point did they win over St. James' champions of the last series and holders of the Willis Cup.

All Saints had to take the field minus Gash, owing to injuries, while Park street substituted Hitchem, the Havelock star, for Boycott, and a new man was tried in place of Bobby Irwin, which trial by the way, was fortunate for their opponents, as he did not show the speed or boring in powers of little Bobby. All Saints' kicked off against a slight breeze. Park street attacked immediately but were driven back. Mid-field play followed for a time, until Park street broke away and Smith the Park street captain getting possession, scored the first goal with a beautiful side shot.

Straight from the centre kick All Saints made things warm for their opponents and during a scrimmage the Park street goal escaped somewhat luckily. A big kick by W. Dawson brought relief, but the Saints were soon back again and the halves following up their forwards in a judicious manner kept up a bombardment until Monk got the pig skin and banged it through, thus tying the score. Half time was called with the count standing one all.

SECOND HALF.

The second half started up with the pace a hard one. All Saints' went down down the field and Hooper just missed scoring with a nice drive. From the goal kick away dashed Park street, but a timely clearance by little Hull relieved the situation and the Saints' were pressing again, E. Dawson just missing with a great shot. For a time Park street took up the running, but the Saints' backs and halves were in great form kicking and tackling splendidly and holding the crack Park street forwards. The referee gave a foul against the Saints for Vickers mixing up with Milburn, and the ball was lobbed into the Saints' goal, but Gamble cleared. The whistle sounded just afterwards, the game ending in a draw one all.

Mr. W. Abbott gave good satisfaction as referee.

The teams lined up as follows:

All Saints.		Park Street.
	Goal.	
Calladine		Taylor
	Backs.	
Gamble		Donnell
Hull		Renshaw
	Half Backs	
Vickers		Allen
Hooper (Capt.)		Dawson
Hardie		Milburn
	Forwards.	
Monk		Smith (Capt.)
Moraity		Acford
Williams		Miller
Dawson		Hitchins
Downer		Williams

LOCALS FINISHED STRONG IN SECOND JUNIOR GAME

The Toronto Centrals Were Ahead by Six Points at Finish of Contest.

At Scarboro Beach, Toronto, the Peterborough West End rugby team was defeated by the Toronto Central Y.M.C.A. fourteen by a 16 to 10 score on Saturday afternoon.

In the last seven minutes of play a touch by Gilbert with five kicks to the dead line by Kirn constituted the local points. Owing to the inability of Craig, Copping, Minargin and Corkery to get away, and Johnston's injury to his ankle, forcing Denison to play quarter, there were four new men on the local back division, which greatly crippled the team, as they did not know the signals, and, barring Kirn, who played a stellar game, were not of much assistance.

In the first quarter Centrals secured a touch, but failed to convert. Richardson was kicking for the locals, and Captain Denison had to resort to line-plunges and bucks, as "Gusty" could not hold his own with the "Y" punters, and with the other halves he did not know any signals, so could not be used much. In the second quarter there was no scoring done, but in the third Richardson contributed five points to the Torontos by giving them the ball over his own touch line. A second touch they got by stealing the ball after Denison had risen from the ground after having yelled "held" after a tackle. A rouge made the sixteenth point.

Kirn was doing the punting in the last two quarters, and he had the Centralites guessing all the time. The locals failed to count, however, until Kirn kicked over with but seven minutes to play. Then the W.E.A.C. boys started, and before the final whistle had blown a touch and four kicks to the dead-line made the Y.M.C.A. men wonder what had hit them. The locals went at it hammer and tongs with Kirn outpunting Duke and King by several yards, and had there been a few minutes more to play it would have been a safe bet that the locals would have won. Had they started the scoring earlier in the game they would surely have been returned champions of their district, as they certainly had the Torontos faded in the last quarter.

"Skin" Gilbert was by a long shot the best player on the field. He was always following the ball, and by breaking through often got the Centrals for a loss. The only West End touch was secured by Gilbert, when he fell on the pigskin when it was fumbled by one of the Toronto backs. Langley, the other outside wing, played a fine game. He was used for line plunges, as was Davidson.

Turner did the most effective bucking, though Hogan, Ecclestone and Davidson made good gains. With Kirn and Denison the wing line was left to do practically all the work, as the halves were all brought into commission after the team arrived in Toronto, and they did not make good. Had the regular back division been in the game, it is certain the locals would have been returned victorious.

The local line-up was as follows:
Full back—Kirn.
Halves—Rankin, Richardson, Rice.
Quarter—Denison (captain)
Scrimmage—Webb, Hill, Ecclestone.
Outside wings—Turner, Thompson.
Middle wings—Davidson, Hogan.
Outside wings—Langley, Gilbert.

Peterborough fans may be given another opportunity of seeing the Toronto Centrals in action, as they will probably play here on Thanksgiving Day. If they should come they will not have the walk-over that characterized their first appearance in this city.

As usual the Petes are getting into their stride too late for any championship.

EASTERN BASEBALL LEAGUE PRESIDENT WAS IN THE CITY

Ed. Barrow Went Down to Rice Lake for Annual Duck Shooting Trip

ATHLETICS TO WIN

Spiking of Frank Baker by Snodgrass Looked To be Deliberate

Mr. Ed Barrow, president of the Eastern Baseball League, was in the city for several hours to-day, he being with his family en route to Wedlock, Rice Lake, where an outing of two weeks will be spent.

Next to handing out decisions to the Eastern League, or watching the battles in the world's series, Mr. Barrow favors duck shooting, and that's the reason why he came away from Philadelphia for his annual trip to Rice Lake. Mr. Barrow arrived on the 11.35 C.P.R., dined at the National hotel, made some trip arrangements and was on his way to Wedlock at two o'clock, and he had only a few moments at his disposal when seen by a Review representative.

"Yes, it looks like the Athletics to get a second term as world's champions," he remarked during the conversation in which he spoke of the big crowds and some of the featured plays of the three games.

Referring to the spiking of Frank Baker, the Athletics' third baseman, by Fred Snodgrass, Mr. Barrow stated that the offence appeared to be quite deliberate on the part of the Giant's middle fielder.

CURLING

The Cobourg curling club officers for the season are: Hon. President, H. B. Cruso; President, John Henderson; Vice-President, E. W. Hargraft; Sec.-Treas., Chas. McCallum.

AUTUMN IS THE TIME FOR GLASSES **Why?**

The increasingly long evenings of autumn give greater opportunity for sewing, writing, reading, study, and as this is necessarily by artificial light the strain upon the eyes is such as to make Glasses quite a boom at this season of the year. This no doubt accounts for much of the present increased demand for Glasses.

Appointment for examining the eyes for Glasses is usually necessary.

J. W. BROWETT, OPTOMETRIST. Optical Institute, Peterborough.

Millinery Bargains

We offer some extraordinary bargains in Ladies' Hats for this week only:

54 LADIES' TRIMMED HATS, all leading shades and styles, very tastefully and modestly trimmed, making a dressy hat for street wear. Regular up to $7.00. This week only........ **$2.98**

This is positively the best bargain in Ladies' Hats of this season.

SHAPES OF ALL KINDS, different colors and styles, regular up to $2.50. This week only........ **98c**

20 LADIES' READY-TO-WEAR HATS, beautiful styles, to clear this week at........ **$1.49**

Come in for your Fall and Winter Millinery this week. You will not be disappointed.

IMPORTANT CHANGES MADE IN BRITISH CABINET BY ASQUITH

Churchill Becomes First Lord of Admiralty---R. McKenna Becomes Home Secretary.

London, Oct. 24.—The British Cabinet has undergone an important reconstruction, rumors of which have been in circulation for some weeks past.

Winston Spencer Churchill, the Home Secretary, becomes First Lord of the Admiralty, while Reginald McKenna lays down the Admiralty portfolio to assume the Home Secretaryship. Earl Carrington, President of the Board of Agriculture, becomes Lord of the Privy Seal. C. E. Hobhouse, Financial Secretary to the Treasury, is appointed Chancellor of the Duchy of Lancaster. Walter Runciman retires from the Presidency of the Board of Education to become President of the Board of Agriculture, while the Presidency of the Board of Education has been assumed by J. A. Pease, the former Chancellor of the Duchy of Lancaster.

HON. WINSTON CHURCHILL.

Sir Edward Stratchey, Parliamentary Secretary of the Board of Agriculture, and the Rt. Hon. Alfred Emmott, M.P. for Oldham, and Deputy Speaker of the House of Commons, have been promoted to the peerage.

With the exception of the exchange of offices by Mr. Churchill and Mr. McKenna, the Cabinet shuffle causes little comment. The Unionists express the fear that the change made will enable the Government to reduce the naval estimates, Mr. Churchill being considered one of the economists of the Cabinet.

PICTURES OF THE McNAMARA CASE

Funds to be Raised by Labor Federation

Special to the Review.

Washington, Oct. 24.—The American Federation of Labor has prepared moving pictures of the arrest of McNamara, his prison life and a number of court room scenes, to educate the people regarding the case. It is also hoped that considerable funds to be used in the fight to free McNamara will be raised.

PROBABILITIES

Fresh westerly winds, fair and cool. Wednesday, easterly winds, cloudy and cool.

GROWTH OF CANADA'S TRADE

Ottawa, Ont. Oct. 23.—Trade returns for the six months ending Sept. 30th, of the current fiscal year, indicate an increase of nearly $40,000,000 in the total trade of the Dominion for that period as compared with the first six months of the previous fiscal year, the figures being $400,270,855, as against $360,277,276. These include imports and exports of both Canadian and foreign products. The six months imports amounted to $258,006,091, an increase of $35,000,000. Exports of Canadian products to $129,006,982, an increase of $35,000,000. Exports of Canadian products to $129,006,982, an increase of $2,000,000, and exports of foreign products from Canadian ports $12,257,779, an increase of $3,000,000. During the month of September the total trade increased by over $5,000,000 as compared with September, 1910.

CHINESE INSURRECTION IS SPREADING TO THE NORTH

Part of Empire Which Was Expected to Remain Loyal is Showing Disaffection—More Rebel Victories Are Reported.

Pekin, Oct. 24.—The revolutionary spirit is now manifesting itself in the north as well as in the south. Those who heretofore have believed that the northern provinces might rally around the Government are now of the opinion that secessions will follow in rapid succession.

The precautionary measures taken in Manchuria, where the Government does not permit mention of the revolution, show the anti-Government spirit in the far north. There are persistent reports that risings have been planned for the next few days in the immediate vicinity of the capital. It may be that these will not be fulfilled, but they indicate a widespread sympathy with the revolt.

The diplomatic corps have discussed the necessity of maintaining communication between Tientsin and Pekin. The military commanders report only sufficient troops to protect the legation quarter in Pekin and the foreign settlement in Tientsin, which number approximately 1,000 and 3,500 respectively. Consequently, in a serious emergency, only Japanese would be immediately available from the garrisons at Port Arthur and Dalny.

The legations have not yet considered seriously the suggestion of an English paper in Shanghai, that the Manchus, when desperate, might endeavor secretly to encourage the ignorant multitude to attack the foreigners, and thereby attain foreign intervention, which would militate in their favor, they being the only established dynasty.

It is argued that such machinations will prove more dangerous to the Manchus than to anyone else, because it is known that the rebel organization elsewhere is able the restrain its adherents. The Manchus, however, are apparently following a weak and vacillating policy, which conceivably might be followed by desperate measures.

A prominent Chinese official of western education, in discussing this possibility, gave it to be understood that precautions against such a manoeuvre should not be overlooked. The increase in the activity of the press shows either defiance or relaxation of the censorship, whether from venality of sympathy on the part of the police is unknown. The newspapers are publishing reports of rebel victories which have not yet been attained, and of Government calamities more serious than have yet been suffered, and in so doing they are displaying a greater degree of temerity than usual.

Gen. Yin Tchang, the War Minister, seems to have pushed his troops through the passes on the Honan-Hupeh border without resistance. Some, therefore, are of the opinion that he intends to attack promptly. He has, however, less troops under his command than heretofore supposed. It is not generally believed that he has above 15,000, of which only two battalions are Manchus. They are guarding the railway in the rear. Other troops intended for the Hankow campaign have not been sent owing to the fear of their desertion. There was also necessity for the retention of a strong force near Pekin.

Gen. Yin Tchang sent back several military attaches who attempted to follow the army, although they all possessed passports from the Chinese Foreign Board. The British and American attaches left here for Shanghai yesterday, intending to proceed to Hankow up the Yangtsekiang. It is believed that Yin Tchang, Manchu-like, desires to give battle, although the half-hearted spirit of his troops may deter him. On the other hand, Yuan Shikai, Chinese-like, is temporizing with the rebels. Yuan Shikai has refused to leave Changte in the special cars which have been sent for him, but there is evidence that he has despatched trusted adherents of former days as emissaries to the rebel leaders. It is believed that he is endeavoring to reach a compromise between the rebels and the throne on the basis of immediate constitutional government.

The foreign customs commissioner at Changsha has telegraphed the inspector-general of customs here that the city revolted. The officials were killed and the viceroy fled. The foreign customs men took refuge in the river boats.

It is officially stated that the diplomatic body has informed the Chinese Government that it is unable to rely on the subject of indemnities, which is so complicated and important that China had better approach the individual Governments direct.

Madero Feared Assassination.

San Antonio, Texas, Oct. 24.—A statement was made here yesterday by a friend of Francisco I. Madero that the President-elect of Mexico has abandoned his trip to Piedras Negras because of reports that reached him from San Antonio that his assassination was planned.

TRY A REVIEW WANT AD.

SIR WILLIAM MEREDITH.

Who is conducting an inquiry into workmen's compensation matters for the Whitney government to base a new statute on.

HOME RULE BILL IS OFF

Small Chances for Its Appearance in Commons This Year

Special to the Review.

London, Oct. 24.—At the opening of the House of Commons to-day Irish members asking for the introduction of the Home Rule bill, were informed that it might make its appearance this fall, but nothing definite would be done before February.

THEY'RE OFF

Teams Clash In Fourth Game of World's Series

Special to the Review.

Philadelphia, Oct. 24.—The fourth game in the world series will be played to-day, although weather conditions are not of the brightest.

To Second Address From Throne.

Quebec, Oct. 24.—Albert Sevigny, M.P. for Dorchester, has been invited by Premier Borden to second in French the address of the Lower House in answer to the speech from the throne, at the opening of the new Parliament in November next, and he has accepted. Sevigny is an anti-navy man.

Batteries—Matthewson and Meyers; Bender and Thomas.

NEW YORKS LED AT FIRST

Philadelphia Made Three Runs in Fourth

Special to the Review.

Shibe Park, Philadelphia, Oct. 24.—Manager Mack sent in Big Chief Bender to do the twirling for the Athletics in the fourth game of the world series called to-day, while Mathewson was for the third time asked to face the hard hitting Mackmen.

New York in their first time at bat hit Bender for two runs, securing as many hits and the counters without an error on the part of the Athletics. In their half Philadelphia could not do more than secure one hit off Mathewson and were retired scoreless.

SECOND INNINGS.

New York was soon retired with no runs 1 hit no errors. Philadelphia followed suit with two hits, but no runs.

THIRD INNINGS.

It was a blank all the way along for the Giants, Philadelphia in their turn getting one hit, but no runs.

FOURTH INNINGS.

Here was another series of blanks for the Giants, but the Athletics broke loose with three runs, three hits, no errors, giving them a lead of one run.

FIFTH INNINGS.

New York got one hit no runs Athletics one run.

SIXTH INNINGS.

Giants again drew blanks. Athletics faring better with one hit but no runs.

Outbreak of Diphtheria.

Montreal, Oct. 24.—The Protestant School Commissioners, declared the medical health officer of the city yesterday, had ordered that the Madison avenue school in Montreal West should be closed for the present owing to five cases of diphtheria, which had broken out in the place.

Health officials are at the school making a thorough examination.

Last week 29 cases of the disease were reported in the city. It was not thought by the health authorities that there was any grave danger of the disease becoming epidemic.

G. T. R. STRIKERS DO NOT GET A GENERAL INCREASE OF WAGES

Will Be Increased in Some Individual Cases, But Not as a Whole—Advances Since 1907 Were Satisfactory.

Special to the Review.

Ottawa, Ont. Oct. 24.—The conciliation board in the G.T.R. machinists strike has refused to order a minimum rate and said that the advances since 1907 were generally satisfactory. There were individual cases that needed attention, however, and the master mechanics were requested to make increases in these cases according to merit.

BANK ACCOUNTANT HOLDS UP TELLER; GETS NEARLY $5,000

Is Arrested a Couple of Hours Later—Was to Have Been Married Within a Week.

Fort William, Oct. 24.—One of the most daring robberies that ever took place in this section occurred yesterday when A. R. Running, until two months ago accountant in the local branch of the Royal Bank, at one o'clock held up the teller at the point of a gun and took between $5,000 and $6,000.

Running entered the bank, and the teller, H. J. Dickson, offered to assist him to remove his trunk. He pulled out a revolver and compelled the teller to hand over a part of the money inside his cage. He backed out of the bank and started down Victoria avenue, followed by several persons to whom the teller had shouted the alarm.

The police captured Running in the coal dock section in half an hour. He offered no resistance. Running came here about six months ago. His former home was Brockville, Ont. He formerly worked in Winnipeg, at the British North American Bank. The money stolen was found in Running's room in a valise, amounting to $4,835, and bank officials say that was the amount taken.

The young man was to have been married next Thursday to a local girl. He wanted to take a honeymoon tour and was without sufficient means. Friends think his mind is unbalanced. He has not confessed.

Opposition For Ferguson.

Brockville, Oct. 24.—G. Howard Ferguson, the sitting Conservative member for Grenville, and mentioned as likely Cabinet material in the Whitney Government, is to have opposition in his fight for re-nomination. Mayor F. S. Evanson of Prescott has announced that he will give Mr. Ferguson a run in the convention, which has been called for Nov. 1 at Spencerville. Evanson says Ferguson should retire and give some one else a chance.

The Brockville Conservatives will pick a candidate on November 7.

Murderous Negro.

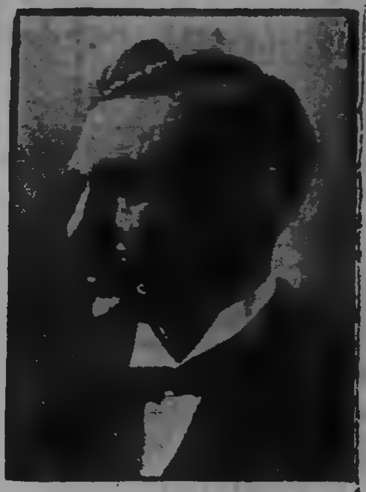
Birmingham, Ala., Oct. 24.—Frank Harrison, a negro, who Sunday killed former Deputy Sheriff Thomas Cooper, at Northport, Ala., yesterday killed Deputy Sheriff Brown Horton and a negro, wounded Deputy Sheriff Hornby and another negro near Sanders Ferry, Ala. A posse is on his trail.

ORILLIA MAN MET HIS DEATH

Was Caught in Shaft at Paper Mills

Special to the Review.

St. Catharines, Oct. 24.—Caught in a shaft at the Kinleith Paper mills mills here this morning, T. C. Haght, whose home is in Orillia, was instantly killed.



HON. WALTER SCOTT
Premier of Saskatchewan

Who is expected to announce a date for the Saskatchewan elections soon.

Cannot Fix Rates.

Ottawa, Oct. 24.—The board of conciliation in the dispute between the Grand Trunk Railway Co. and its machinists have come to the conclusion that owing to the G. T. R.'s system of payment it is not possible for them to lay down any schedule of minimum rate.

"The majority of the board strongly recommend that the master mechanics take up with their foreman the cases where lower rates of wages obtain, and make advances in pay according to the merit and qualification of the individual."

May Abolish Labor Gazette.

Ottawa, Oct. 24.—The departmental reorganization which is coming may cause among other things the disappearance of The Labor Gazette. This, a monthly publication of department of labor, is looked upon as useless in its present form, either as an statistical compilation or as an unbiased record of labor information. It costs $50,000 a year under the new regime, and it will cease publication or will be transferred into usefulness.

TOOK LIFE BY HANGING

Dairyman Worried Over Changes Made in Milk By-law

Special to the Review.

Toronto, Oct. 24.—John R. Benson, a dairyman, hanged himself this morning. The frequent changes in the milk regulations, some of which were drastic and effected his business, are believed to be the cause of his rash act.

WELCOMING THE DUKE AND DUCHESS OF CONNAUGHT

COPYRIGHT BY UNDERWOOD & UNDERWOOD.

MAYOR DROUIN OF QUEBEC (IN CENTRE) READING ADDRESS TO THE DUKE AND DUCHESS OF CONNAUGHT.

THE DUKE OF CONNAUGHT AT HIS OFFICIAL RECEPTION AS THE NEW GOVERNOR GENERAL OF CANADA AT QUEBEC OCTOBER 13. COPYRIGHT BY UNDERWOOD & UNDERWOOD.
1-R.L BORDEN, 2-DUKE OF CONNAUGHT, 3-DUCHESS OF CONNAUGHT.

A. C. BOYCE, OF ALGOMA SAID TO BE SLATED FOR CABINET

Brokers on Trial.

New York, Oct. 24.—Simon Jacob Herzig, better known as George Graham Rice; Bernard H. Scheftels, Geo. Sullivan, otherwise known as "Red Letter" Sullivan, Charles B. Stone, Charles E. Belser, John Delaney and Ralph E. Waterman, composing the brokerage firm of B. H. Scheftels & Co., were yesterday afternoon placed on trial in the U. S. Circuit Court, charged with using the mails in a scheme to defraud investors and with obtaining money by false pretences. Their operations covered the whole of the United States and portions of Canada.

These men and others were captured in a raid in the Scheftels office here in September, 1910, when similar descents were made upon offices of the firm in Chicago, Boston, Philadelphia, Milwaukee Detroit and Providence.

The trial continues to-day, and is expected to last several weeks.

SURRENDER OF FOUR WARSHIPS

Another Reverse is Reported for Chinese Imperials

Special to the Review.

Tokio, Oct. 24.—Pekin dispatches today say that four Chinese imperial warships hauled down their colors and surrendered to the rebels.

Will be Solicitor-General—Ontario to be Given Another Representative in Cabinet.

Ottawa, Oct. 24.—A. C. Boyce of West Algoma may be the new Solicitor-General. A few days ago it was a toss-up whether this semi-Ministerial office would come to Ontario or go down to Nova Scotia. The odds are now lining up in favor of Ontario, with A. C. Boyce as the likely man. Quebec had the Solicitor-Generalship for many years, but Quebec has fared well in recent preferments.

There is a general idea that there is still something coming to Ontario instead of what this province did last month. Mr. Boyce is a good lawyer and good fighter and his friends here say the post is as good as his.

Child Not Drowned.

Bath, Me., Oct. 24.—That three-year-old Martin Howard Keefe, jr., whose body was found in a mill pond Saturday morning by his mother, Mildred Keefe, was not drowned, was the report made by Medical Examiner R. H. Donnell, following an autopsy yesterday. The cause of death cannot be determined until the stomach and other organs have been thoroughly examined. They have been sent to the Bowdoin College medical school.

The mother was arraigned before Judge A. J. Dunton in the Municipal Court yesterday, charged with murder and entered a plea of not guilty.

CURE THAT COLD

This is Quickly and Pleasantly Accomplished If You Use

Catarrhozone

Catarrhozone will relieve colds almost instantly and in a few hours will cure completely. If it is old-standing asthma or bronchitis its quick and curative results will astonish you.

Catarrhozone is little drops of healing medicine carried by air to the sore and diseased parts. You breathe them through the Catarrhozone Inhaler and they spread throughout all the air passages.

It is sense as well as healing, because Catarrhozone is a germ killer, a healer and restorer of weak tissues, because it is so prompt and certain in its results, better than any other remedy for diseases of the throat, lungs and bronchial tubes, and it is neither alcohol, morphia or cocaine—all dangerous.

Tens of thousands have used Catarrhozone without reporting a single case of failure to cure diseases of the throat and lungs and nasal passages.

Remember, CATARRHOZONE is taken in air, and is little drops of healing for the throat, nasal passages, or lungs. It always does cure—is guaranteed.

Price 25c., 50c., and $1.00 at all druggists or by mail, post paid, from The Catarrhozone Co., Buffalo, N.Y., and Kingston, Canada.

The Daily Review

TUESDAY, OCT. 24, 1911.

CURBING JUDGES

That idea of Theodore Roosevelt's that the judges are in the way of popular reform, has a good deal in it. The people of the United States are really ruled by the group of periwigged white stockinged, and sword-sporting gentlemen who in the wisdom of their day framed the Declaration of Independence and the United States constitution. Anything that the United States people want to do now must bear the test of whether it will pass the test of constitutionality, according to the stand laid down a century and a quarter ago by these venerable men, whose remains are now but dust. There is no reason why the popular will of the people of a republic should be balked and thwarted by the determination to maintain in a glass case the ideas of the eighteenth century.

That is mediaevalism such as few monarchial countries would permit. Yet the very fact that the judiciary of the United States so frequently rules out of court popular proposals because they are not in conformity with these ancient constitutional ideas gives ex-President Roosevelt ample ground for his declaration. The judges and the constitution should be made for the people, and not the people for the judges and the constitution.

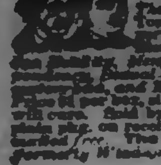
A GOOD FORETASTE

Speaking of the Leonard appointment the Ottawa Journal says:

If the appointment of R. W. Leonard as chairman of the National Transcontinental Railway Commission to succeed Mr. Parent, is an illustration of what the Borden administration will mean in Canada, the people of this country will have reason to be well satisfied. This important public position goes to a competent engineer and successful business man. Every position on the Transcontinental Board hitherto has gone to a man whose chief qualification was political. No man appointed had any previous knowledge of railway engineering or railway building. Every man appointed was a man likely to be influenced by political favoritism in his action on the Board. As a result, a national enterprise which was expected to be completed for a hundred millions or less is certain to cost nearly double that. As an illustration, on one single contract on the Transcontinental, where the estimate of cost by the commission's engineers was a little over five million dollars, there has been paid out already over 12 million dollars, while 15 per cent. of the work remains to be done. The appointment of Mr. Leonard by the Borden government suggests a different future. He is a railway engineer of first-class reputation. He is a man who has made his own fortune in other business. As a partisan asset he does not look to amount to much for the government, but as a national asset he looks good. As contrasted with the Parent regime, Leonard ought to be worth a good many million dollars to Canada in the still uncompleted 30 per cent. of the Transcontinental work.

THE GLOBE DEBT

The Toronto Globe continues its policy of silence, after its first blanket denial, on the charges that it owes the post-office $35,000 for excess postage on the millions of extra Globes that were circulated throughout Ontario in the late campaign. Though nearly every Conservative newspaper of any standing in the province has remarked on the scandalous abuse of the post-office for partisan purposes by the Globe and its friends— under promise to the Toronto post-master that he would be "protected"— the chief Liberal organ prefers to treat the charges in silence. The Globe has not attempted, so far as we are aware to deny that it promised "protection" to the post-master for not enforcing the postal regulations against it in the matter of excess postage. The Globe evidently was prepared to take advantage of the fact that a Liberal machine was handling affairs at Ottawa and gave itself a considerable sum of money. Under the Borden administration there will be a square deal to all newspapers from a public institution like the post-office, and no coercing of post-masters and subversion of post-office regulations. And the Globe will not have the opportunity to owe the country some $35,000 for excess postage.



Wood's Phosphodine, The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins, Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhoea, and Effects of Abuse or Excesses. Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. New pamphlet mailed free. The Wood Medicine Co. (formerly Windsor) Toronto, Ont.

EDITORIAL NOTES

If Sir Cement Aiken had been around around Philadelphia during the last week, he would undoubtedly be charged with being responsible for the watered condition of the atmosphere.

Mr. Hall says that he thinks the Whitney government majority is too big. That might be true to some extent, but West Peterborough is not the riding that should reduce it.

The furbishing up of Rideau hall has begun, it not being fit for royalty. They say that you can't buy even a five cent mirror in Ottawa now. The whole stock has been cleaned out.

The appointments being made by Mr. Borden are a puzzle to many Canadians. Those who are being appointed are not familiar figures before the public eye. But the appointments are going to specialists in each line, and the public will get acquainted quickly enough.

Mr. Peck has announced that he is opposed to any language but the English language in the public schools, as far as is practicable. That is a stand which every citizen of Peterborough and of the riding can endorse. We all want Ontario to be English speaking, and to do the right thing by the French who live in Ontario.

The tremendous gravity with which some of the so-called influential British journals propound their ponderous views of things Canadian is very amusing. To Canadians some of the British comment seems positively silly. But in the newspaper business, perhaps more than in most other professions, men often have to write about things they don't know much about.

Mayor Lees, of Hamilton, saw a football game for the first time in his life on Saturday, when the Montreal team and the Tigers had a free-for-all, with a mobbing at the end. He thinks the game is brutal, and would like to have the police commissioners stop the game. It is a good thing the mayor was not around in the days when the Glosson and Counsell gangs were playing. He would have died from fright, if he is so sensitive to present day parlor football.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO.,
Toledo, Ohio.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Pure Food Crusade In New York.

New York, Oct. 24.—The crusade against impure food continues with zeal in New York. Two men were sent to jail, one for thirty days and one for twenty days, and a large number of other persons were given fines ranging from $40 to $100, in the trial yesterday of cases charging violations of the pure food law. Butchers, fish dealers, milk purveyors, candy stand keepers and restaurant proprietors formed a majority of the defendants.

Steamer Strikes Shoal.

Halifax, N.S., Oct. 24.—The Norwegian steamship Halovdan, Capt. Jeraldsen, struck on a shoal three miles west of Fourchu Head, C.B., at 2.30 o'clock yesterday morning. The ship was from southern ports for Montreal with a cargo of nitrate, her cargo consisting of about 6,000 tons of this material. The steamer is broken in two, only part of the funnel above water, and she will be a total loss. [illegible] landed safely.

Sickness is usually caused by the accumulation of waste matter and impurities within the body.

Dr. Morse's Indian Root Pills,

enable the bowels, the kidneys, the lungs and the pores of the skin to throw off these impurities. Thus they prevent or cure disease.

25c. a box. 13

ENIGMA OF GROWTH.

Reason Why Persons Do Not Keep on Growing.

Six pounds and a half is the weight of the average child at birth; at the end of the first year the average weight is eighteen pounds and a half, a gain of twelve pounds; and at the end of the second year the weight is twenty-three pounds, a gain of only four pounds and a half. And with each successive year the gain is less and less until maturity is reached. Why is the gain less each year? And why does it finally cease altogether?

The reason is that the absorbing surfaces inside the stomach and intestine do not, and in the nature of things cannot, grow proportionately to the growth of the body as a whole. During the first year of growth the child's body becomes approximately three times as large as it was at birth but the interior of the stomach and bowel of the child at the age of one year is not even twice as large as it was at birth, let alone three times as large. Yet all the nourishment which supplies materials for growth has to be absorbed by the membrane which lines the inside of the stomach, and especially the small intestine. It is, therefore, plain that growth of the body as a whole must gradually subside as the tissues to be nourished gradually approach a size at which their demands balance the utmost supply of nutrition taken up by the stomach and intestine.

QUEEN MARY FROWNS.

Order about Hobble Skirts was Disobeyed.

Queen Mary's order about hobble skirts was disobeyed at the two courts by all except the actual court ladies. All the rest wore tight skirts, but their trains covered them. They say they didn't see why they should make themselves unfashionable because the queen herself is abnormally large around the hips and unsuited to tight dresses.

Nevertheless everyone was staggered by the costume of the Marchioness de la Vill Urrutia, the wife of the Spanish ambassador. Her dress was so tight that her whole figure was sharply outlined and she had great difficulty in walking. As she belongs to the diplomatic circle she is independent of the queen's wishes and fortunately had no courtesy to make with consequences which might have been indescribable.

The queen only smiled when she saw her trouble and seemed wisely oblivious of how her order was generally obeyed. Indeed, the queen was the surprise of the court, she was so smiling and bright, with a word for everybody.

CHANGE OF TRAIN SERVICE

Commencing on October 2nd the Lakefield train service will be changed as follows. The train which has been leaving here at 8.30 a. m. will now leave at 7.00 a. m., and returning will arrive Peterboro' 8.15 a.m. The noon train for Lakefield will leave at 12.30, and returning will arrive Peterboro' 5.15 p. m. The evening train is discontinued. The public will be glad to learn that the new service inaugurated this summer to Port Hope will be maintained throughout the winter and will thus enable all passengers to leave Toronto at 9.00 a.m. and arrive Peterboro' at mid-day. This train also affords good connection for all Eastern points to Montreal and Boston.

THE MARKETS

Latest Quotations in Grain Dairy Products, Live Stock Etc.

CHICAGO, Oct. 23.—Wheat prices today felt the pressure of sales by large owners and for the first time in nearly a week suffered a material setback. The close was at a decline of 3-8c and 1-2c to 3-4c net. The end left corn 1 1-8c to 1 5-8c lower; oats down 1-8c to 3-8c and hog products less costly by a nickel to a dime.

The Liverpool market closed to-day unchanged to ¼d lower than Saturday on wheat and ¼d lower on corn. At Antwerp wheat closed ⅛c lower, at Berlin ⅛c lower, at Paris ⅛c higher, and at Budapest ⅛c higher.

Montreal Grain and Produce.

MONTREAL, Oct. 23.—The foreign demand for Manitoba spring wheat continues fairly good, and, as bids for No. 2 and No. 3 northern for prompt shipment were 3d higher than Saturday, sales of several loads were made, and some business was done in sample and feed wheat.

The local demand for oats is fair at firm prices. Malting barley is in demand at $1.02½ per bushel, ex-store, but the offerings are small. Exporters are bidding 64c to 65c for buckwheat.

The European demand for spring wheat flour is fairly good, and sales of third grades were made to Liverpool at 27s 3d, with 27s bid for more and refused. Winter wheat, 90 per cents., were sold to Leith at 24s 9d and Glasgow bid 24s 6d. Local trade is fairly active and firm. Sales of bran for export account were made at $23.00 per ton, Montreal freights.

Cheese is quieter, the exports for the week being only 54,671 boxes, against 62,344 a year ago. Butter is firm. Exports for week, 401 packages, against 326 last year. Eggs firm under a good demand. Dressed hogs are 25c lower.

New York Dairy Market.

NEW YORK, Oct. 23.—Butter—Firm; receipts, 5900; creameries, 23c to 32c; state dairy, 21c to 30c; process, 20½c to 25c; factory, current make, 18½c to 21½c.

Cheese—Steady; receipts, 2061; state, whole milk, 13½c to 14½c; state dairies, 14½c to 14⅝c.

Eggs—Irregular; receipts, 479; fresh to extras, 25c to 31c; refrigerator, 13c to 21c; state, Pennsylvania and nearby, hennery, 31c to 50c; do., gathered, brown and mixed, 26c to 30c; western gathered, whites, 28c to 35c.

CATTLE MARKETS.

Union Stock Yards.

TORONTO, Oct. 23.—Receipts of live stock at the Union Stock Yards were 119 cars—2218 cattle, 811 hogs, 1079 sheep and lambs and 28 calves.

Exporters.

The S. & S. Company bought 71 export steers, 1319 lbs. each, at $5.75 to $6.

Butchers.

Prime picked lots of butchers sold at $5.80 to $6; loads of good, $5.50 to $5.75; medium, $5.15 to $5.45; common, $4 to $5.15; bulls, $3.60 to $5; cows, $3 to $5.25; canners, $1.50 to $2.

Stockers and Feeders.

Distillery steers, 900 to 1050 lbs. each, $4.60 to $5; steers, 800 to 900 lbs. each, $4.25 to $4.50; stockers, 600 to 750 lbs., at $3.50 to $4.

Milkers and Springers.

A moderate supply of good to choice milkers sold at from $60 to $77 each. Medium cows are worth from $40 to $50 each.

Veal Calves.

About 30 calves sold at from $4 to $7.30 per cwt.

Sheep and Lambs.

Ten hundred and seventy-nine sheep and lambs sold as follows: Sheep, ewes, $3.50 to $4; rams, $3 per cwt., and lambs $5 to $5.65 per cwt., the bulk going at $5.60.

Hogs.

W. J. Johnston, Gunns (Limited) reported $6.10, fed and watered at the market, and $5.75 to drovers for hogs f.o.b. cars.

Montreal Live Stock.

MONTREAL, Oct. 23.—At the Montreal Stock Yards west end market the receipts of live stock for the week ending Oct. 21 were 2500 cattle, 2675 sheep and lambs, 3000 hogs and 500 calves. The offerings on the market this morning amounted to 1550 cattle, 2200 sheep and lambs, 1500 hogs and 250 calves.

There was no further change in the condition of the market for cattle since last Wednesday, prices being about steady at the decline. The supply was large, which consisted principally of rough stock from the northwest; consequently, good to choice steers were not plentiful, for which the demand was fairly good from local and Quebec buyers. The trade in common stock was rather slow, as the offerings of such were in excess of the requirements.

A few picked extra choice steers, which would have brought $6.50 per 100 lbs. two weeks ago, sold at $5.90 to $6, and odd loads of northwest ranch steers and heifers, weighing on an average 1050 lbs. each, brought $5.50, and rough, small cattle, $4 to $4.25.

In small lots, choice steers sold at $5.65 to $5.75; good at $5.40 to $5.60; fairly good at $5 to $5.25; fair at $4.55 to $4.75, and common at $4 to $4.25 per 100 lbs. There were a number of cows on the market, which brought from $3 to $4. The demand for canning stock was fair, of which the supply was fairly large, and sales of bulls were made at $2.90 to $3.25, and cows at $1.50 to $2 per 100 lbs. A few good bulls, suitable for the butcher trade, sold at $4.20 to $4.50.

Owing to the more liberal supplies of hogs, a weaker feeling developed in the market, and prices scored a further decline of 15c to 25c per 100 pounds since last Wednesday. At this reduction the demand from packers was good, and a fairly active trade was done, with sales of selected lots at $6 to $6.10 per 100 lbs., weighed off cars.

Supplies of sheep were larger and in excess of the requirements of the trade, consequently the tone of the market was weaker, and prices declined 25c per 100 pounds, with sales at $3.25 to $3.50. There was no change in lambs, for which the demand was good at $5 to $5.50 per 100 pounds.

A few grass-fed calves sold at 3c to 3½c per pound, and the others at from $4 to $10 each, as to size and quality.

East Buffalo Cattle Market.

EAST BUFFALO, Oct. 23.—Cattle—Receipts, 6000 head; market choice cattle active and steady, other grades 10c to 15c lower; prime steers, $7.35 to $7.80; butcher grades, $5.75 to $6.75; cows, $3.25 to $4.75.

Calves—Receipts, 16,000 head; market active; cull to choice, $5.50 to $9.25.

Sheep and Lambs—Receipts, 20,000 head; market lambs active and steady, sheep slow; choice lambs, $6.25 to $6.35; cull to fair, $4.00 to $6; yearlings, $4 to $1.50; sheep, $2 to $2.[illegible]

CHAPTER XXIII.

The Procession.

It had got to be noon, with the sun at fire heat; but for all the scavengers were kept on at work. No rest for them until the task should be completed and they taken back to their prison quarters at a late hour of the afternoon. The cruel jailer told them so in a jeering way. He seemed to take pleasure in making things disagreeable to them, as he strutted to and fro along their line, flourishing his whip and giving grand exhibition of his "brief authority."

A little after midday, however, there came a change in their favor, brought by unlooked-for circumstances. Groups of people began to gather in the Calle de Plateros, swarming into it from side streets and taking stand upon the walk. Soon they lined it all along as far as the eye could reach. Not vagrants, but most of them belonging to a class respectable, attired in their holiday clothes, as on a feast day. Something of this it was, as the scavengers were presently told, though some of them may have had word of it before without feeling any concern about it. Two, however, whom it did concern, were only made aware of what the crowd was collecting for, when it began to thicken. These were Kearney and Rivas, who, knowing the language of the country, could make out from what was being said around them that there was to be a function. The foundation-stone of a new church was to be laid in the suburb of San Cosme, the chief magistrate himself to lay it—with all ceremony and a silver trowel. The procession, formed in the Plaza Grande, would, of course, pass through the Calle de Plateros; hence the throng of the people in that street.

Functions and feasts are of such frequent occurrence in the Mexican metropolis that this, an ordinary one and not much announced, excited no particular interest, save in the suburb of San Cosme itself—a quarter where a church might be much needed, being a very den of disreputables. Still, a large number of people had put on their best apparel and sallied forth to witness the procession.

This did not delay long in showing itself. It came heralded by the stirring notes of a trumpet, then the booming of the big drum in a band of music—military. A troop of cavalry—Lancers—formed the advance to clear the way for what was to follow, this being a couple of carriages, in which were seated the bishop of Mexico and his ecclesiastical staff, all in grand raiments; on such an occasion the church having precedence and the post of honor.

Behind came the gilded coach of the dictator—flanked on each side by guards in gorgeous uniform. Not alone, but with one seated by his side, whose presence there caused Florence Kearney surprise, great as he ever experienced in his life. Despite the coat of diplomatic cut and its glittering insignia, he easily recognized his former teacher of the Spanish tongue—Don Ignacio Valverde.

But great as was his astonishment, he was left no time to indulge in it, or speculate how his old "crammer" came to be there. For close followed another, holding one who had yet more interest for him than Don Ignacio—Don Ignacio's daughter!

CHAPTER XXIV.

Significant Glances.

Yes, the lady in the carriage was Luisa Valverde. Too surely she, thought Florence Kearney, for seeing her there was painful to him—a shock—as one who sees the woman he loves in the jaws of some great danger. And so he believed her to be, as a host of unpleasant memories came crowding into his mind like hideous spectors. No imagination either, but a danger real and present in the person of a man riding by the side of the carriage in which she sat—Carlos Santander. He it was, in a gold laced uniform, with a smile of proud satisfaction on his face. What a contrast to the craven, crestfallen wretch who, under a coating of dull green ooze, crawled out of the ditch at Mont Martin! And a still greater contrast in the circumstances of the two [illegible] positions.

The Hussar colonel appeared not to be one of the regular escorts attending upon the dictator, but detached, and free to choose his place in the procession. Well had he chosen it: for there was a second lady in the carriage, young and beautiful, too; as may be guessed—the Condesa Almonte. But he seemed to have no eyes for her, nor words; his looks and speech all bestowed upon Luisa Valverde. For he was smilingly conversing with her and she appeared to listen attentively, returning his smiles!

A spectacle to Kearney not only saddening, but maddening. Through his thoughts, dark as winter now, swept dire misgivings.

"Are they married? No. 'Tis not the behavior of man and wife. Soon will be—engaged, no doubt. Yes; he has won her heart, after all; likely had it then, when I believed it mine. Such deception!"

These unspoken conjectures passed through his mind rapidly as thought itself.

They were interrupted by his seeing the ladies—the carriages being now nearly abreast—turn their faces towards him in an odd, interrogative way. The movement abrupt and sudden, seemed prompted, and so had it been by him on horseback. Florence Kearney saw him nod in that direction, his lips moving, but the distance was too great to hear what he said.

"Look! The Texans!" were Santander's words, indicating the group of which they formed part. "One of them is, if I mistake not, an old acquaintance of yours, Don Luisa? And how strange!" he added, feigning surprise. "Chained to a criminal—no, let me not call him that—an individual in whom the Condesa Almonte takes an interest, if rumor's to be believed. Is it so, condesa?"

Neither of them made response, for neither was now listening to him. Each had her eyes upon that which engrossed all her attention, one fixedly gazing at Florence Kearney, the other at Ruperto Rivas. For, by the grace, or rather negligence of their guards, the latter was now up on the pavement.

Had Santander seen them just then he might have doubted the success of his scheme and certainly could not have accounted it a triumph. For the eyes, late turned smilingly upon himself, were now regarding Florence Kearney with earnest sympathetic gaze.

And the man to whom this was given was trying his best to interpret it. He saw that she turned pale as her eyes first fell upon him. That might be but surprise seeing him there, with the consciousness of her own guilt. Or was it pity? If so, he would have spurned it. All the tortures the Acordada could inflict upon him, all the toil and degradation would be easier to bear than that. But no. It could not be pity alone. The sudden start and paling cheek; the look of interest in those eyes beautiful as ever, and so well remembered; a flash in them that recalled the old time when he believed her heart his; all spoke of something more than mere sympathy with his misfortune. Before the carriage, moving slowly on, had carried her out of his sight, the jealous fancies so late harrowing his soul seemed to be passing away, as though an angel was whispering in his ear, "She loves you—still loves you!"

Kearney, naturally, was too much occupied in reading the expression on Luisa Valverde's face to give even a look to the other beautiful one beside it. And alike was he forgetful of the man who stood beside him—Rivas. Yet, between these two neglected individuals, glances were being exchanged also in earnest, and watchful glances, which told of their being as much interested in one another as he in Luisa Valverde or she in him. Better comprehending one another, too, as a physiognomist could have told, observing the play of their features. The first expression on those of the condesa was surprise, quick changing to indignation, this as suddenly disappearing or becoming subdued, restrained by a thought, or possibly a sign, given by Ruperto. As evinced by the fond, yet proud, sparkle of her eyes, he was no less dear now, no less noble in that degrading garb, than when she knew him in a gold-laced uniform, splendid as that worn by Santander, and he, in her eyes, ten times more worthy of wearing it. If he had turned bandit, she did not believe it; though believing it, she would have loved him all the same.

Soon the carriage passed on out of sight, other carriages following, with other ladies in them; more cavalry—Lancers, Hussars and heavy Dragoons—more music, mingling with the shouts and cheers of the fickle populace, as they swarmed along the foot walk, every now and then vociferating:

"Long live Santa Anna the great! Long live the savior of the nation."

OTTUMWA WOMAN CURED

By Lydia E. Pinkham's Vegetable Compound

Ottumwa, Iowa.—"For years I was almost a constant sufferer from female trouble in all its dreadful forms; shooting pains all over my body, sick headache, spinal weakness, dizziness, depression, and everything that was horrid. I tried many doctors in different parts of the United States, but Lydia E. Pinkham's Vegetable Compound has done more for me than all the doctors. I feel it my duty to tell you these facts. My heart is full of gratitude to you for my cure."—Mrs. Harriet E. Wampler, 524 S. Ransom Street, Ottumwa, Iowa.

Consider This Advice.

No woman should submit to a surgical operation, which may mean death, until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous medicine, made only from roots and herbs, has for thirty years proved to be the most valuable tonic and invigorator of the female organism. Women residing in almost every city and town in the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

Mrs. Pinkham, at Lynn, Mass., invites all sick women to write her for advice. Her advice is free, confidential, and always helpful.

TELEGRAPHIC BRIEFS.

Abraham Russell, father of Roselle Knott, the celebrated actress, died in Hamilton on Saturday afternoon, aged 86 years.

George Lawrence, the new Manitoba Minister of Agriculture, was re-elected by acclamation for Killarney yesterday.

The Royal Commission on Industrial Training and Technical Education is off on its final tour, which will be through the New England States.

Beachville, Ont., has adopted a Hydro-electric power bylaw by a vote of 82 to 5. The village will require at the outset something over 100 horsepower.

A new merger, to be called the Canadian Jewellers, Limited, has secured a charter from the federal authorities. The authorized capital is $5,000,000.

Guiseppi and Pietro De Santio, father and son, residing in a cabin in Arcadia, N.Y., were shot to pieces by two Italians, who called at their home for robbery.

It is now determined that William Ryder, found dead at White's Mount in King's County, N.B., on October 11, with three bullets in his body, was murdered.

Monday marked an epoch in the history of Waterloo. The Evangelical Lutheran Seminary, the first Lutheran theological seminary in Canada was formally opened.

The Greek steamer Georgios XXX, grain laden, was wrecked at the entrance of the Gironde Estuary, France, during a storm. Of the crew of 22 only seven were saved.

William P. Martin, a laborer at the C. P. R. repair shops, West Toronto, was instantly killed yesterday when assisting in the removal of the steel plate from the front of an engine.

John H. Jewell, principal of the firm of J. H. Jewell & Co., Toronto, bankers and brokers, was stricken with paralysis as he was leaving his office last night and died at 1.50 this morning.

Bequests totalling $75,000 to educational and charitable institutions are made in the will of the late Thomas Douglas Smith, one of the old-timers in the West, who died in Winnipeg last spring.

Petitions have been circulated throughout Digby County, N.S., praying for a commutation of Harry Wilson's death sentence to life imprisonment. He was convicted of the murder of his brother.

Bravery Medal For Jennings.

Toronto, Oct. 24.—For his bravery in rescuing a drowning man at Niagara-on-the-Lake on Aug. 23, A. H. Jennings will receive a medal from the Royal Humane Society of Canada.

Mr. Jennings jumped from the deck of the Corona, while the boat was at the wharf, and rescued a man in the water below, who had fallen overboard in the dark. The act involved considerable danger, and the investigation committee of the society unanimously decided that he should be awarded a medal.

Women For Jury.

Los Angeles, Cal., Oct. 24.—That women may be drafted to complete the jury which is to pass upon the guilt or innocence of James B. McNamara is one of the interesting possibilities incident to the recent victory of women suffrage in the State of California.

Clarence S. Darrow, senior counsel for the defence, says: "The matter is by no means a joke. There is no legal or constitutional reason so far as I can see which would bar that contingency."

Will Oppose Merger.

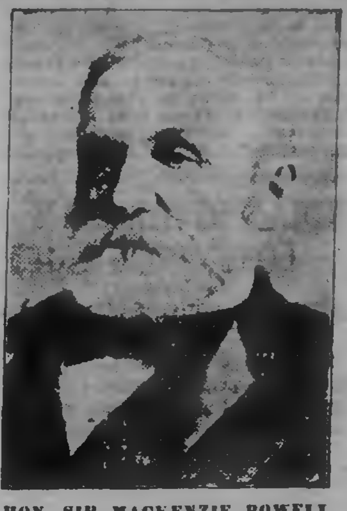
Montreal, Oct. 24.—The Board of Control yesterday reported against the proposed street railway amalgamation, and a caucus of aldermen unanimously and practically without discussion, pledged the City Council to accept the further recommendation to oppose the ratification of the merger when the question came before the Public Utilities Commission to-day.

ADVERTISE IN THE REVIEW.

WHAT CANADIANS ARE DOING

HON. SIR MACKENZIE BOWELL

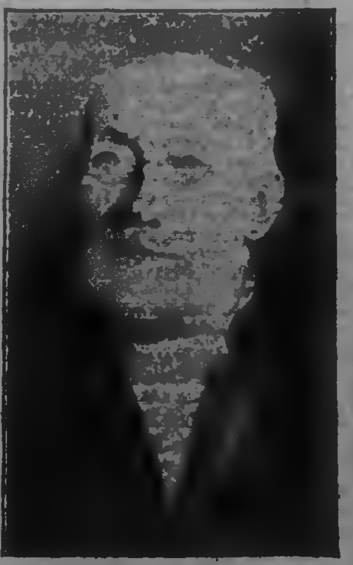
When nine years old, the boy whom fate had decreed as a man above the average amongst his fellows, voyaged across the Atlantic with his parents, having been born at Rickinghall, Suffolk, in 1823. Educated at Belville public school, young MacKenzie joined the staff of the Intelligencer at quite an early period of his life, and has been a busy man during all the intervening years, growing up with the paper in various capacities all the way from office lad to editor and proprietor, with many other duties parliamentary and otherwise worked in. His initial active participation in politics was at Confederation when he was elected for North Hastings, and during the years until he joined the Macdonald Cabinet he continued to occupy the editor's chair of the Intelligencer. Entering the Macdonald administration as Minister of Customs 19 October 1878, he was subsequently Minister of Militia in the Abbot Administration, of Trade and Commerce in the Thomson administration, and formed a ministry in December 1894, which he reconstructed in January 1896 from which he resigned three months later. Sir Mackenzie Bowell was leader of the Senate 1893-96, and leader of the opposition from that date until 27 April 1906 when he retired. Created K.C.M.G. on 1 January 1895, he in the year following had the further honor conferred by being appointed Chairman of the Colonial Conference, of which, it will be remembered, he was organizer. He is president of the Imperial Association of Canada and ex-President of the Belville Hardware Manufacturing Co. and Northumberland Power Co., is a Governor of Toronto University, member of the Senate of Albert College Belville, and for many years Grand Master of the Orange Association of America. In his earlier years Sir Mackenzie took active interest in things military, having been a member of the 15th Light Infantry and the 4th Rifles from which he retired with the rank of Lieut.-Colonel. He served on the frontier during the American war, and was also in the field at the time of the Fenian troubles in 1866.



HON. SIR MACKENZIE BOWELL, Editor and Parliamentarian

REV. A. CARMAN, D.D., LL.D.

If the G. O. M. of Methodism in Canada, Dr. Carman, could be induced to write his biography much of Canadian history would be told for the doctor in his many years of work has been a great factor in the moulding and raising not only of the spiritual but the social life, in its widest sense, of this Dominion.



REV. A. CARMAN

General Superintendent Methodist Church, Canada.

Dr. Carman was born in 1833 in Ontario, and after occupying a number of scholastic positions was elected in 1874 to be Bishop of the Methodist Episcopal Church and in the joining of all the Free Churches in 1884 was elected General Superintendent, a position he has held since.

Her Own Fault

The wife of a pugilist was denied a divorce on the ground that her husband blackened her eyes. It was probably contended that the pugilist was only making a sparring partner out of his partner for life. This is only reasonable. A wife should be willing to help her husband in his profession and to take an active interest in it. If a lady is prejudiced against black eyes she should not marry a pugilist.

TO CURE A COLD IN ONE DAY

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

A Warm Bathroom

PERFECTION SMOKELESS OIL HEATER

Every mother should be careful that the children take their baths in a warm room. The chill of a cold room is dangerous after coming out of the hot water.

A Perfection Smokeless Oil Heater brings bathroom or bedroom to just the degree of warmth you want in five or ten minutes. All you have to do is to touch a match.

The Perfection Heater burns nine hours on one filling and is always ready for use. You can move it anywhere it is needed. There is no waste of fuel and heat warming unoccupied rooms. Just the heat you want, when and where you want it.

The Perfection is fitted with an automatic-locking flame spreader that prevents the wick being turned high enough to smoke and is easy to remove and drop back when cleaning.

Drums finished either in turquoise-blue enamel or plain steel; light and ornamental, yet strong and durable—suitable for any room in any house.

Dealers everywhere; or write to any agency of

The Queen City Oil Company, Limited

Earl of Onslow Dead.

London, Oct. 24.—The Earl of Onslow died yesterday.

William Hillier Onslow, fourth Earl of Onslow, had been chairman of committees and Deputy Speaker in the House of Lords since 1905. He was a Conservative. An ancestor, Sir Richard Onslow, was a Parliamentarian; he urged Cromwell to assume the kingship, but afterwards assisted the Restoration.

The fourth Earl of Onslow was born in 1853. He was Under-Secretary for the Colonies in 1887-88; Parliamentary Secretary to the Board of Trade, 1888; Governor and commander-in-chief of New Zealand 1888-92; President of the Board of Agriculture 1903-05; in Lord Salisbury's and Mr. Balfour's Ministries.

Trolley's 1,200 Mile Run.

Atlantic City, N.J., Oct. 24.—A trolley car that had been driven by its own motor on its own wheels all the way from St. Louis reached here to become the exhibit of chief interest at the opening of the convention of the American Electric Railway Association. Delegates from all parts of the United States are attending the meeting.

Too Much Self-Flattery

[illegible] an awful speed!" said a motorist, who was relating a strange experience with a dog and its mistress. "I didn't see the dog, but I heard this 'Ki-yi,' so I ordered the chauffeur to stop. Going back we found an irate lady standing over her dead dog — one of the ugliest dogs you ever saw! She met us with a tirade of abuse, telling us in no uncertain manner what she thought of us and motorists in general, and finishing up by calling us the murderers of her dog. It was then that I thought I would pacify her. 'Madam,' I said, 'I will replace your dog.' 'Sir,' she said, in a freezing tone, 'you flatter yourself!'"

IF YOU ARE SICK

YOU CONSULT A SPECIALIST

WHY ?

Because he has made a special study of the disease you are suffering from, and from the knowledge gained by years of experience knows just what treatment you require.

If you are going into a law-suit, you do the same—consult the best lawyer you can get, and find it cheap in the end.

Now, when you are considering taking Life, Fire or Accident Insurance, do you not think it would pay you to consult one who has had many years experience in that profession, and whose knowledge would be of use to you in enabling you to get the best value for your premiums, with the most liberal policies and absolute guarantees?

If you want what is best in Life, Fire or Accident Insurance, you can get it by calling at, or phoning to

W. H. HILL'S GENERAL INSURANCE AGENCY
159, HUNTER STREET,
PETERBOROUGH, Ont.

Prompt attention given to the settlement of all claims.

(Established 1883). Both Phones 14

"The Special Order"

YOU owe it to your Business and Social Life to wear Clothes that denote good taste and sound judgment.

Though it be but a "look around," we should like you to set aside an early date and spare a brief hour to look at the new Semi-ready designs.

We promise you that it will be a pleasant duty.

Semi-ready Tailoring represents the many new ideas in wholesale custom tailoring. If you cannot find just what you want we can make just what you do want to Special Order and have it made to your measure in four days.

The CRESSMAN Company Limited Peterborough, Ont.

THE CORRECTION OF DEFECTIVE EYESIGHT

It is very important that you have implicit faith in the ability of the Specialist who fits you with Glasses, since there are several important features which must be left solely to his ability and honor.

You cannot possibly appreciate the quality of lenses furnished, and yet on this feature depends the degree of satisfaction to be obtained from the use of glasses. In our Optical work we frequently find people wearing inferior and imperfect lenses, for which they have paid a full price. We will not economize in this department of our business, for we always insist on furnishing the best material at prices that are reasonable.

We believe you will be satisfied with the prices asked in our Optical Department, and know that you will be pleased with the results obtained.

YOUNG MAN WANTED ON CHARGE OF FALSE PRETENCES

Was Arrested at Toronto—Amount of Money Said to Be $151

Toronto, Oct. 24.—At the request of the chief of police at Peterborough, David Viener was arrested last night at 290 Parliament street, by Detective Taylor. The charge against the man is false pretences, and is in connection with the sale of a number of tons of hay by him.

Viener, who is a young man of nineteen years, worked for a man in Grasshill and when a shipment of hay was made here, it is alleged that Viener sold the hay and took the proceeds, about $150, and cleared out.

Chief Thompson was informed of the case and the arrest of the young man followed. His father lives at Toronto.

Detective Newhall has gone to Toronto to take charge fo the prisoner.

THE BALD LAKE BRIDGE

It has been a long cherished project of all those who take any interest in the northern part of Peterborough county, to unite the east and west parts of the township of Harvey which are separated entirely by the northern arm of Pigeon Lake, known as Bald Lake. Bald Lake narrows, is the only feasible point for a bridge which with the fill-in, will be a matter of no small expense. However, it must be done sooner or later in the interests of trade, and Mr. Burnham wrote to the Minister of Public Works explaining the matter, and asking that it be taken into consideration in the estimates soon to be laid before parliament. The minister replied that the matter has been entered upon its first stage, that of serious consideration. It will remain no doubt for the County Council to act with Mr. Burnham in pressing this matter to a successful issue. It would be worth for Peterborough City Council to unite with the County Council in sending a deputation to Ottawa on the assembling of parliament. There is no doubt that this bridge would work a revolution in land values in that part of the country and in the possibilities of improved circulation of trade. Mr. Burnham stands ready to push this project as also the bridge at Gannons to the best of his ability and there is no reason why both projects should not be accomplished in the near future, and the proposition of the Pigeon Lake floating bridge is one that will probably be taken up.

INDIAN RIVER MAN LOST ONE FINGER

Refused Chloroform While Physicians Treated the Injury

Mr. Peter Walker of Indian River met with a painful accident, he having had one finger severed, while at working with a sawing machine.

He refused to take chloroform while having the finger treated by his physician, who had to scrape the bone and cut off the jagged pieces of flesh. The pain was most severe, but the patient withstood it bravely.

ANNIVERSARY AND FOWL SUPPER

Held at Fairmount Methodist Church—Ladies Made $65

Interesting anniversary services were held Sunday and last-night at Fairmouth Methodist church, when there were large attendances. At the Sunday services Rev. Mr. McCall, of Napanee, an old Springville boy presided. Rev. Mr. McCall has been absent for about twenty-six years.

Last-night a fowl supper and entertainment provided a most enjoyable time. The after supper speakers included Rev. G. W. Henderson of Charlotte street church, Rev. Mr. White, of Fraserville, and Mayor Morrow. Among the entertainers were the Charlotte street church quartet and Mr. John, and as a result of the affair $65 was realized.

RURAL MAIL IN NORTH MONAGHAN

It Soon Will Cover the Whole of the Riding

The completion of the rural mail route in the northern half of North Monaghan has inspired the southerners with a desire to have that part covered also. It is even more thickly settled than the northern half. Already a general petition is in circulation, it having been sent but a few days ago. This morning the forms of individual contract came in and it look as if North Monaghan would have a full township covered by rural mail routes before the snow flies.

CANADIAN CLUB

Two Meeting to be Arranged for the Fall

The Executive committee of the Canadian Club met yesterday to reorganize for the coming season. It is hoped to have at least two meetings before the close of the year addressed by speakers of national reputation. Further details will be announced later.

A resolution was also carried expressing the regret of the members at the resignation of Mr. Hodgson, who is leaving the city. Mr. Hodgson has been a valued and active member of the executive since the formation of the club.

LOCAL NEWS ITEMS

Miss Pearl McKee, teacher of piano, Studio, Peterborough Conservatory of Music. Telephone 355. dtf

The Daughters of Erin of St. Andrew's church, will hold an At Home on Tuesday evening, October 24th, from 7.30 to 10, at Mrs. Wm. Campbell's, 511 King street. Silver collection.

The Ladies' Aid of St. Peter's will be at home on Wednesday afternoon October 25, from 3 to 6, and also in the evening, at the T.A.S. rooms. The occasion will be in the form of a shower for the Children of Saint Vincent's Home. Anything useful, either made or unmade, for boys or girls, will be accepted.

CONSECRATION ENTHUSIASM AND SERVICE

Another Helpful Address to the Christian Endeavorers

Organization Now Has Approximate Membership of 4,000,000

There was nothing dull about the union meeting of Christian Endeavors at St. Andrew's church last night. The young people in attendance, and there was a goodly number, must have been inspired and helped by the service, which included a most enthusiastic address by Mr. Karl Lehmann, Interstate Field Secretary of Christian Endeavors, whose home and headquarters are at Denver, Colorado.

Mr. Lehmann held the close attention of a large congregation in the church the previous evening. His second appearance was none the less successful. Evidently Mr. Lehmann has seen a lot of good work done by the Christian Endeavor organizations, and his suitability for the position he holds strikes his audience ere he has proceeded with his remarks at any great length. With half the confidence and enthusiasm of Karl Lehmann, Christian Endeavor leaders would do 99 per cent. better work than has been done in the past. Those who heard him last night, probably caught some of his enthusiasm, and in putting it into practice should find it a delightful topic.

A NEW PRESIDENT.

Prior to the address the secretary of the City Union suggested that, as the president, Rev. H. R. Trumpour, had been called to Vancouver, a new officer be elected.

Rev. J. G. Brown nominated Rev. Jas. Rollins, and in Rev. Robt. Pogue was found a seconder. The gathering gave its assent by an unanimous show of hands. Rev. Mr. Rollins thanked the young people for the honor, and promised to serve them as faithfully as was in his power for the remainder of the unfinished term.

Rev. Mr. Rollins was chairman, and gave the scripture lesson from Romans 12th chapter. Two hymns were sang, and Mr. J. M. Gerard, a member of the choir, sang that ever popular piece, "Beautiful Isle of Somewhere."

Mr. Lehmann didn't take many minutes to get up steam, and when he got going his audience took in every word of his helpful address. He referred to his embarrassment at being dubbed "Consecrated Dynamite," but one on hearing this active man cannot fail but be impressed with the fact of the title being rather appropriate.

He told of the largeness of the Christian Endeavor Society, which had an approximate membership of 4,000,000, and had seen an increase during the last two years of 1,200,000. All were getting closer together, massing the forces so that a better work might be done. Even the prisoner behind the bar was not neglected, the C.E.'s awaiting him at the hour of freedom to help him to get upon his feet. The society was doing a tremendous work for the Master. He told of the successful fight made to prohibit the showing of the pictures of the Johnson-Jeffries fight at Reno, Nevada, and remarked that it had been said by the picture men that $2,250,000 had been lost through the meddlesome Christian Endeavors. This victory, the speaker held, had been made possible by the Endeavors standing together.

The three big letters of the organisation, C.E.S., he explained as standing for Consecration, Enthusiasm and Service. On each of these essentials in Christian Endeavor work he enlarged, and made a strong plea to his audience to carry them into practice in their daily lives.

Social functions, such as pink teas, ice cream socials, etc., the speaker was inclined to score. He would, he said rather have young people who would consecrate themselves and meet for prayer, or to give their testimony.

The necessity for enthusiasm and service were forcibly brought home to the young people, and altogether the service was bright, helpful and one that will no doubt have its good results.

When people tell me things for "my good," I promptly think of things for their good.

PIE SOCIAL

Full House and Happy Gathering at George Street

The basement of George street Methodist church was filled to capacity last night when the postponed pie social under Epworth League auspices was attended with thorough success from every standpoint.

A noticeable feature of the affair was the easy sociability and friendliness that reigned which made every one feel completely at home, and on good terms with all. The program commenced shortly after eight o'clock with Rev. Isaac Couch officiating as chairman. After opening devotional exercises, the chairman made a brief but applicable address, expressing the pleasure it gave him and the committee in charge of the evening to see such a large attendance.

He then introduced the following program.

Chairman's Remarks.
Piano Duet—The Misses McKee.
Vocal Solo—Mr. G. Wright.
Reading—Miss Martin.
Cornet Solo—Mr. Miller.
Vocal Solo—Miss Dawson.
Piano Solo—Miss Pincian.
Reading—Miss Jackson.
Piano Solo—Miss Isabella Baird.

During the program five minutes of an interval was given for those present to mingle and become acquainted and a fine of fifteen cents was imposed upon all those found not doing their part in this way.

The arrival of the pies and other refreshments, put on the finishing touches to an evening of real enjoyment and it was a thoroughly pleased and delighted crowd that dispersed shortly after ten o'clock.

To Miss Aggie Davis and the social committee and all others, who assisted, hearty congratulations are due for their able management of the event.

Y.M.C.A. NOTES

Some of the members of the physical department of the Y.M.C.A. journeyed to Warsaw Saturday night to conduct the physical work for the young men's club of that place, where there was a fine turnout of members. They have decided to organize a junior club for the younger boys of the village. The management has asked that the association send out a man or two every Saturday night to assist in carrying on the work, and the association has promised its assistance.

Tuesday—Junior Collegiate class 4.15; business men's class, 5.45 p.m.; business boys' class, 7.00; intermediate class, 8.10.

Wednesday—Junior boys' class, 4.15; senior leaders meet for tea at 6.30; senior class, 8.00.

Thursday—Business men, 5.45; business boys, 7.00; intermediate class, 8.10.

Friday—Junior leaders, 5.30; St. Paul's junior Brotherhood, 6.30; senior Brotherhood hour from 7.30 to 8.30; senior men's class, 8.30.

Saturday, a.m.—Junior boys, 9.00; junior collegiate class, 10.30.

Own the Piano where quality knows no compromise.

Conservative Investors Wanted

As a rule our clients get the benefit of all the "Certainties" we control. To-day we are making use of "An Absolute Certainty" for the purpose of extending our clientele. Here's the proposition in a nutshell—

—a 7% profit-sharing preference stock on which dividends are paid twice a year—a stock issued by a concern with a record of 25 years' successful and progressive business experience—a concern at present controlling Natural Resources which are bound to double the value of its securities before long.

We guarantee 7% on this investment. We are practically certain that this stock will pay higher profits. It's the best industrial stock, at par, on the market.

Furthermore we guarantee to buy it back, at par, plus 7%, in one year from date of investment.

Night Classes

— AT THE —

Peterboro' Business College

(Founded 1885.)

Many ambitious young people are taking advantage of the splendid opportunity to improve their education by attending the night classes at the Peterborough Business College. These classes are conducted on Monday, Wednesday and Friday nights, and students receive instruction in any one or all the subject of the Commercial or Stenographic Course. By this method, young people may learn while they earn, and thereby increase their salaries and better their positions without losing time from their work. You may enter any time, but it will be to your advantage to enter now. The cost is small, while the benefit to be derived therein is inestimable.

The Business world is full of opportunities, but the best positions are open only to those who are competent to fill them. By attending Night School at the Peterboro' Business College, you may become competent.

ST. JOHN'S G. A.

Enjoyable Evening at Home of Mrs. E. B. Clegg

A very pleasant social meeting of the Girl's Auxiliary of St. John's church was held last evening at the home of Mrs. E. B. Clegg, 273 Charlotte street, there being almost a full attendance of members and also a few friends.

Mrs. (Rev.) Fee, who is on furlough from China, was among the guests and she gave an interesting address on mission work in China, giving graphic pictures of the life, and work among the mission workers and natives and also telling of the difficulties and encouragements in connection with the work.

In a missionary contest in which a well prepared paper of missionary questions were given out, the questions to be answered on the spot, Mrs. Clegg gave handsome prizes to the winners, Miss Linden Hall and Mrs. F. C. Roy. Many other contestants were well up to the mark attained by the winners.

Rev. Canon Davidson thanked Mrs. Fee and the hostess of the evening and congratulated Mrs. W. E. Conway, the president and other officers on the wide awake progress being made by the society and on their large membership and work being done.

Refreshments were served and a social hour spent before dispersing.

COURSE OF LECTURES

Well Known Speakers to be Heard at Normal

The following course of Friday evening lectures has been arranged by the Educational Department for the local Normal School:

Mr. W. Gordon Craig, a lecture-recital on Shakespeare's Merchant of Venice, November 10th.

Miss A. B. Warnock, (Katharine Hale) Toronto. "The Music of Literature," December 1st.

Mr. R. S. Neville, Barrister, Toronto "Nation Building," December 8th.

Dean Robertson, Victoria College, Toronto. Glimpses of Greece, (with illustrated lantern slides.) January 12.

President Falconer, University of Toronto, "The Idea of Progress." January 19th.

These lectures will be delivered in the Assembly Hall of the Normal School and the public are invited to attend.

ASTRONOMY

Meeting of Local Centre of R.A.S. This Evening

The meeting to-night of the local centre of the Royal Astronomical Society of Canada will be somewhat of a rally. It is the annual meeting and, therefore, important that all members be present, and also that they bring their friends.

Observations of the past summer will be reported on, and the first of a series of lectures on the moon, made doubly interesting with a profusion of limelight views.

The meeting is called for eight o'clock in the Chemical Laboratory of the Collegiate Institute, and the officers will certainly be pleased if they are greeted with a large attendance. The general public is cordially invited.

FOR CHRISTMAS WORK

New Pictures in sepia and colors; new Mounting Papers for calendar pads, all shades; new Calendar Tabs in many sizes at the Review Office. tf

The condition of Mrs. G. W. Fitzgerald who is dangerously ill, with pneumonia, was reported at noon to day to be in the same critical state.

Sherwood Forest Camp, Woodmen of the World, held a social evening last night in the S.O.E. hall which was successful in all respects. Refreshments were served and a good program supplied. Afterwards games were played, the gathering breaking up about 11 o'clock.

A number of the fire brigade staff, under the direction of Chief Howard, are engaged this afternoon in removing the dead vines clinging to the west wall of the tower of St. John's church. The withered limbs had sprung away from the wall, leaving them in a dangerous position.

Bulbs From Holland

We have received a delayed consignment of bulbs from Holland, which are on sale at our George street salesroom. Jordan Bros., florists.

FOUR CASES

To be Heard at the Fall Assizes Next Week

At the fall court assizes which commence on Oct. 31st. before Sir William Mulock, three civil actions will be heard, and one criminal. The latter is the Moore vs. Newell case, when the latter will be charged with having committed a serious offence upon the former.

In the civil list of cases, one is an action brought by Grace Hillier against the Canadian Chicle Company. The plaintiff, Grace Hillier, is an orphan and under the age of 21. She was employed in the Canadian Chicle company factory and while engaged on a machine her hand was drawn in between rollers and badly crushed, necessitating the amputation of one finger, and leaving the hand permanently injured. The plaintiff says the injury was caused by reason to the negligence of defendants having defective machinery in their plant.

She claims $4,500 and the costs of the action, and such other relief as may be right.

CLAIM OF $1,282.62.

The second action is between the Bank of Ottawa, the plaintiffs and Thomas W. McDonough and his wife Charlotte McDonough. The plaintiffs were doing business on George street and on Feb. 3rd, 1909, are said to have given their joint and several promissory notes promising to pay the Bank of Ottawa or order $2,500 on demand. The bank claims that only $1,046.50 was received by them, and have taken action to recover the balance of $1,282.62 on the note and interest, and the costs of the action.

ACTION FOR $10,000

Catherine Darke, widow of the late late Hugh Darke, has entered a claim of $10,000 damages against the Canadian General Electric works for the loss of her husband, who was killed while in the employ of the company.

DEDICATION ANNIVERSARY

Dr. Patterson-Smith Coming to St. John's

General interest is being aroused in the coming on Sunday next, of Dr. Paterson Smith, who will preach at St. John's church, morning and evening, the occasion being the anniversary of the dedication of the ivy clad edifice.

An Irishman of brilliant attainments, Dr. Paterson Smith, was for many years professor in the Dublin University and rector of a church there. On the advancement of Bishop Carmichael to that office, St. George's congregation of Montreal, one of the leading congregations in that city, he was persuaded to accept the vacant position and since then he has thrown himself with enthusiasm into the work of the Canadian church, and has travelled from the Atlantic to the Pacific.

As a distinguished author, Dr. Paterson Smith is known thoughout the world. One of his most popular books being "The Gospel of the Hereafter." He also wrote several books on the Bible, one of which is "How We Get Our Bible."

THE WHITE SQUAW

The Boston Journal, in reviewing the Canadian American romantic drama, "The White Squaw" which recently played an engagement in that city says—

"This week's offering at the Grand Opera House, "The White Squaw" tells a charming love story in picturesque fashion. The play is splendidly staged, the Indian costumes and scenery being excellent.

The name of the play tells the story in part. "The White Squaw," living with Indians, is in ignorance of her white parents from the first curtain until the close of the last, when she is about to marry a French Canadian trapper. She does anyway, but there is an interesting denouement, nevertheless.

Clara Greenwood, in the leading role carries it across the footlights to her audience with notable success. Ben Johnson, as Bruce Marshall, a fur salesman, has the leading male role and handles it splendidly.

The other principals are Clinton P. Ferry, as the trapper, Pearl G. Hart as the White Squaw's sister and Bernard Castle, who plays the part of her foster father."

"The White Squaw" appears at the Grand next Saturday, October 28, matinee and evening.

COMMISSIONERS

Routine Business Transacted by City's Water Custodians

Owing to the absence of Mr. T. F. Matthews, Mr. W. H. Hill acted as chairman at a meeting of the water commissioners yesterday afternoon.

It was moved by Mr. Moore, seconded by Mr. Hill, that on considering a letter of the Bishop Construction Co., of Oct. 18th inst., returning cheque of the commissioners in favor of the Traders' Bank, for $1,632.38, marked "in full," settlement with Bishop Construction Co., Ltd., for construction of dam pump house, etc., order that a new cheque for the same sum be sent to the Traders' Bank, after acceptance by the Bank of Toronto, here acknowledge the receipt of the returned cheque for same sum enclosed, and adding that in the commissioners' view this is all they owe, and is in accordance with the engineer's certificate.

Also that a letter be sent to the Bishop Construction Company, advising them of the remittance.—Carried.

Moved and seconded by Messrs. Moore and Hill, that having received Mr. Kennedy's letter of the 18th inst., re McDougal pump, order that a letter be sent to Aylesworth, Wright, Moss and Thompson in the form now submitted.—Carried.

A letter was read from Mr. V. Eastwood with reference to his water rate. No action was taken.

A letter was read from T.A.S. Hay, city engineer, with regard to the position of the hydrant at the corner of Dalhousie and Reid streets. The matter was referred to the acting superintendent.

A letter was read from T.A.S. Hay, city engineer, with regard to a service at the sewer pumping station. Referred to the acting superintendent.

YOUTH GETS ANOTHER CHANCE

Judge Huycke Was Lenient With Edward Kane

The trial of Edward Kane, who is alleged to have forged the name of John Kane, fishery inspector, to a government cheque of $90 and who was committed for trial by Police Magistrate Dumble, took place at the court house to-day before Judge Huycke. He was found guilty.

Practically the same evidence and the same witnesses were heard.

The youth was given his freedom, and in a sense is on parole, and he was ordered to report to the chief of police every month. Owing to his youth and his previous good character, Judge Huycke dealt leniently with the lad and gave him an opportunity to make restitution to Mr. Kane. Mr. G. N. Gordon conducted the defence and the crown attorney prosecuted.

ADVANCEMENT FOR FRANK MYERS

Called to Head Office of G.T.R. at Allandale

Mr. Frank Meyers' many friends in this city will be pleased to learn that he has received a promotion to the head office of the Northern Division of the G.T.R. Mr. Meyers came to this city last May from Gravenhurst, and has been in the freight office of the G.T.R. in the capacity of billing clerk. While in Peterborough he made a host of friends, who, while regretting his departure from the city, join in congratulating him upon his advancement.

Mr. Meyers left yesterday morning for Allandale. It is expected that he will receive an appointment to the charge of some station.

Some men wear themselves out talking about a new enterprise, and have no energy left to engage in it.

MARKET FOR MEAT.

Argentina Finds a New Market for its Meat.

A new market for Argentine meat has been secured in northern Italy. The mayors of Rome and 58 other cities in the northern part of Italy have combined to promote the importation of frozen meat from Argentina. Negotiations in southern Italy have similar arrangements in view for that section. Efforts are being made by the Argentine authorities to have the Swiss regulations modified so as to permit the entry of meat into that country. At present every carcass imported into Switzerland must be accompanied by the tongue, heart, liver, spleen and kidneys. It is thought that a Swiss inspector may be stationed at Buenos Ayres to pass upon carcasses intended for his country and so relieve the trade of this prohibitive order.

ONTARIO FRUIT OUTLOOK.

Ontario's orchards were not in blossom on the 8th May, when correspondents made their return to the Department of Agriculture. The season is said to be later than usual. Fruit buds, however, promise to be plentiful, and after the lean orchard yield of 1910 a liberal yield is expected. War upon scale, codling moth, and other pests is being conducted with more vigor than ever, and several correspondents point to the improved appearance of fruit trees as the result of work done in the last year or two in the way of spraying, pruning, and the better general culture of orchards. A few reports of damage to trees from mice come from some of the St. Lawrence and Ottawa countries.

NEW WAY OF CATCHING RATS.

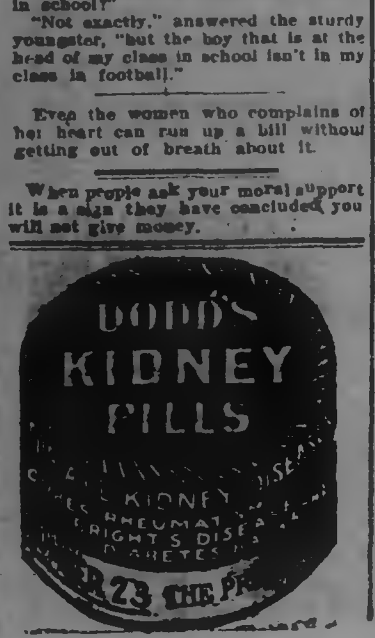
Catching rats with oyster shells is the unique method employed by some pearlers round about Broome, West Australia. They leave a large oyster on the floor of the cabin at night. It opens for a breath of fresh air, and the smell of fresh meat attracts the rats. When the rodent thinks he'll try a little supper, the oyster suddenly decides that he doesn't like fresh air. Next morning the shell is prized open, and the dead rat thrown overboard.

"Are you at the head of your class in school?"

"Not exactly," answered the sturdy youngster, "but the boy that is at the head of my class in school isn't in my class in football."

Even the women who complains of her heart can run up a bill without getting out of breath about it.

When people ask your moral support it is a sign they have concluded you will not give money.



ACCIDENTS IN AVIATION.

Mostly Due to Breakdown in Human Machine

All who walk the earth in safety and apparently in a normal condition of health are not physically qualified to be aviators. This is demonstrated by Dr. R. Moulinier who writes as follows

"The rapid ascent to great altitudes exposes the body to conditions different from any terrestral ones. Mountain climbing offers some analogy, but it is different in the fact that the transition from the high atmospheric transition of the sea level to a low pressure takes place much more slowly. The author has reported some interesting observations on the blood pressure of aviators who have ascended to high altitude. On alighting after ascending to a height of 1200 to 2000 meters the aviator presents cyanosis of the extremities, probably from the low temperature of the high regions of the atmosphere."

This means that the extremities turn a dusky blue color. Often there is congestion of the inner surface of the eyes. The pulse is quickened, but there is no irregularity of the heart's action, nor bleeding from the nose. There is often slight headache and ringing in the ears. Sometimes there is a tendency to sleep, and this may be felt even during flight. Rising to a great height and coming down again always increases th blood pressure, as the writer explains.

Power From Sea Waves.

At the recent meeting of the British Association the question of economical production of power from tides and winds was again under discussion, and it has been taken up widely by scientific journals in Europe. "La Revue Scientifique" calls attention to a system of utilizing the power of sea waves to actuate a dynamo which has been employed during the last six months at the mouth of the river Gironde. An air chamber is connected with a well, which communicates with the sea at a depth below the level of the lowest tides. By the advance and recession of the waves changes of pressure are produced in the air chamber, and a system of valves enables the resulting air currents to be applied to rotating a kind of turbine. It is said that the apparatus works equally well in calm and in stormy weather.

Dont Want our Cheese.

The American market, for home consumption, demands a soft variety of cheese, that is not made in Canada. From 100 pounds of milk the cheesemaker in the States makes about 11 pounds of cheese, whereas in Canada only 9 pounds of cheese are produced from 100 pounds of milk. In other words, the American cheese contains about 42 per cent. of water, while there is only 36 per cent. in the Canadian harder product.

Why Men Leave Home.

My wife and I have birthdays
Upon the selfsame day;
We celebrate together,
It is the nicest way.

We give each other presents—
This year the gifts were swell;
I gave my wife some diamonds,
My wife she gave me —
Goodness!
We almost said it out loud.

Christianity was first preached in Britain in 178

Melodrama began in Germany in eighteenth century.

AN ERA OF PROGRESS

A Few Facts of Which We Are Entitled to Feel Proud.

Canada's trade in 1868 was $116,600,000; in 1910, $649,000,000, an increase in forty-two years of 459 per cent.

The exports then were $49,000,000. Last year they were $279,000,000, an increase of 470 per cent.

The imports then were $67,000,000. Last year they were $370,000,000, an increase of 450 per cent.

It might be interesting to make a comparison between some of our exports then and now.

Take, for instance, animals and their products. In 1868 we exported to the value of $7,000,000; in 1910, $54,000,000.

Our agricultural exports in 1868 were $13,000,000. Last year they were $90,000,000.

The value of the total field crops of Canada last year was $533,000,000.

In 1866 we had $33,000,000 in our banks. Last year we had $925,000,000.

In 1868 the area of Canada was 357,524 square miles. Now it is 3,316,649 square miles.

We have only to consider these things for a moment to realize how far from the truth was the belief of Americans generally and the statements of some of their public men in 1866 to the effect that Canada could not prosper without the markets of the United States.

Golden Anklets for Bathers.

A curio shop at Atlantic City is offering for sale as a novelty anklets made of various materials, from gold to hard rubber. Some time ago, a well known lady was reported to have introduced the anklet style by wearing one of solid gold with bangles and the question "will the anklet become popular" was a subject for much discussion in sea side society. The Atlantic City dealer seems to have solved the question, for his circular reads in part: "The anklet will be the correct thing with all well dressed bathers this season. Call and see those of filagree silver, with or without extra ornamentation and made to fit any person."

Risky to Marry Money.

Apropos of a beautiful young wife, worth $40,000,000, who had just divorced her penniless husband in order to marry again, Henry E. Dixey, the comedian, said at a dinner:

"The young man who marries for money has none too easy a time of it. His rich wife is likely to tire of him and throw him out in a few years, or else she is likely to limit his allowance to 25 or 50 cents a day.

"'I married money,' a man once said to me.

"'Wasn't there a woman attached to it?' I asked.

"'Yes, you bet there was,' he exploded. 'So much attached to it that she never parted with a penny.'"

An Insect Gunner.

Many insects have some means of defense from their natural enemies, none of which is more curious than that of a small beetle, which, when closely pursued, discharges a puff of poisonous vapor with a distinct detonation. Undoubtedly in many instances this aids the diminutive gunner in his escape, mainly, in all probability, by startling his pursuer and causing him to abandon the chase. From this peculiar acquirement, this little fellow is kown as the bombardier beetle.

An Ignorance of Values.

"You shouldn't have said you could hire all the brains you need for $25 a week," said the politician's friend.

"Why not?"

"Because it's merely an invitation to somebody with only six dollars' worth of brains to come along and cheat you."

Doing Things Regularly.

The Lady—I thought you said you were looking for work?

The Hobo—Well, I am, mum. But I don't want to get it right now. I'm a detective, you see, an' I'm just after clews, to-day.

Nearly every country town has a girl who became an actress; anyway, she ran off, and no one knows where she is.

IN THE WORLD OF SCIENCE

THAWED BACK TO LIFE

Remarkable Experiments With Fish and Frogs Frozen for Months in Ice Blocks.

Some remarkable experiments were made not long since at the University of Geneva by M. Raoul Pictet, whose name is intimately connected with the production of artificial cold. In the course of some work he was able to take live fish and place them in a tank. Then he froze the water in which the fish were swimming, so as to form a block of ice. After two or three months the block of ice was thawed out very slowly, and the seemingly dead fish came to life and swam about as usual. In a recent interview M. Pictet stated that his first experiments upon life at very intense cold date nearly eighteen years back. He became convinced that if the chemical reactions of a living organism could be suspended without causing any organic lesion the phenomena of life would disappear, but these would come back as soon as the organism was restored to the usual conditions. Great cold will suspend the operations of life as far as we are able to observe, but without losing it totally. The freezing must not be carried down too far in the case of fresh water fish, otherwise the fish will be killed. However there are other animals which can stand a much greater amount of cold. Frogs come next in order to fish in this respect, and can be frozen down to 28 deg. C. below the freezing point. Some water lizards or salamanders will stand more cold, or 50 degrees. He finds that snails will resist the greatest amount of cold among the specimens which he tried, and they can be frozen as low as 120 deg. C below the freezing point, and will then come back to animation.

PROFESSOR CALDWELL,

A McGill man with a big scientific reputation.

COLOURS OF THE OCEAN

It has been proved that the blueness of sea water is in constant ratio to its saltness. In the tropics the tremendous evaporation induced by the blazing sun causes the water to be much more salt than it is in higher latitudes. For about 30 degrees both north and south of the equator the waters of the world's oceans are of an exquisite azure. Beyond these latitudes the blue fades and changes to green, and in the Arctic and Antarctic Oceans the greens are almost as vivid as the tropical blue.

The extraordinary blueness of the Mediterranean has two causes. One is that very few large rivers of fresh water run into this sea; the second that the Mediterranean is practically land-locked, and, being exposed to a powerful sun, evaporation is great. By actual test the waters of the Mediterranean are heavier and more salt than those of the Atlantic.

But blue and green are not the only colours observed in the world's seas and oceans. In January, 1909, a river of yellow water, three miles wide and of enormous length, was observed running parallel with the Gulf Stream. It stretched from Cape Florida to Cape Hatteras, and was undoubtedly caused by some tremendous submarine upheaval, probably of a volcanic nature.

Again, about nine years ago the sea turned almost black off a large portion of the California coast. The whole of Santa Cruz Bay assumed this extraordinary inky hue, and fishing came abruptly to an end. In this case the darkness seems to have been caused by millions of tiny animalcules, known as whale food. The dull reddish tint which is occasionally seen in the Red Sea, and which has given that sea its name, has a similar cause. The water becomes full of microscopic algae — tiny weed.

China's Yellow Sea is usually supposed to owe its origin to the flood of muddy water which its great river pours into it. But here again modern science has proved that living organisms are responsible for its peculiar tint.

Occasionally, and for some cause as yet undiscovered, great areas of the ocean turn milkwhite. In March 1904, the passengers and crew of a Japanese merchant vessel steaming at night between Hong Kong and Yokohama ran into a snow-white sea. It was an opaque, phosphorescent surface, but an expanse of pure snow-white, having a dazzling effect upon the eyes. The phenomenon lasted for six hours, and alarmed the passengers so greatly that not one slept at all that night.

Eight thousand gallons of fresh water are used in a large battleship daily. About two-thirds of this is taken up by the boilers, and the remainder is used for drinking, washing, etc.

PILES CURED IN 6 TO 14 DAYS

To Make Light in a Bottle.

A safe light for going about at night or where there are inflammable materials, as into a store-room, may be made as follows: Take a long glass bottle and put into it a piece of phosphorus the size of a pea; upon this pour pure olive oil heated to the boiling point until this bottle is about one-third full and cork tightly. When light is needed take the cork out and allow the air to enter, subsequently recorking. The empty space in the bottle will then become luminous and give quite an effective light. If it becomes dim it can easily be revived by uncorking the bottle for a few seconds. One bottle will last a whole winter. Small bottles may also be prepared in this way and carried in the pocket.

Small but Strong.

The Katydid, which is closely allied to the grasshopper family, is something of a hauler for its avoirdupois. Recently, an average looking specimen was harnessed to a kind of sledge made by folding a piece of ordinary notepaper, and then loaded the sledge with various articles. The insect proved able to draw, in addition to the original paper, twelve paper sheets each three by four and a half inches, a large screw, two steel pens, a stone weighing two ounces, and three and a half lead pencils. When the weight became too heavy to draw otherwise the katydid got its fore feet over the edge of the table for a better hold, and on addition of another weight it increased the adhering power of its feet by moistening them in its mouth.

How Deserts are Formed

There is a popular idea that deserts like the Sahara are the bottoms of ancient seas which have been lifted above their original elevation by geological forces. This notion is an erroneous one. It is absolutely certain, high authorities contend, that the sands of all the great deserts have been formed on the spot by the disintegration of the solid rocks on which they rest. Desert sands correspond in all respects, so far as their mode of origin is concerned, to the dust and sand that accumulates on our high roads in summer. All deserts are situated where the winds from the ocean, before reaching them, are exhausted of their moisture by passing over mountains or across extensive tracts of land.

New Zealand's Sulphur Island.

One of the most extraordinary islands in the world lies in the Bay of Plenty, New Zealand. It is called White Island, and consists mainly of sulphur mixed with gypsum and a few other minerals. Over the island, which is about three miles in circumference, and rises between 800 and 900 feet above the sea, there continually flots an immense cloud of vapour attaining an elevation of 10,000 feet. In the centre is a boiling lake of acid-charged water, covering fifty acres, and surrounded with blow holes, from which steam and sulphurous fumes are emitted with great force and noise. With care a boat can be navigated on the lake. The sulphur from White Island is very pure, but little effort has yet been made to procure it systematically.

Men hate to be called liars, but most of us are, occasionally.

FRIENDS AMAZED AT THIS RECOVERY

AFTER YEARS OF AGONY, "FRUIT-A-TIVES" CURED HIM

HARDWICKE, N.B., Jan. 25th, 1910.

"Chronic Constipation of the Bowels was the disease I suffered with for many years. My general health was miserable.

I was treated by physicians and tried all kinds of Pills and Tablets, but nothing did me any good. I then saw a strong testimonial in favor of "Fruit-a-tives". I tried "Fruit-a-tives" and the effects were most marvellous. Now I am entirely well from Chronic Constipation, and my general health is once more all right".

A. C. WILLISTON.

"Fruit-a-tives" — the famous fruit medicine—is the only remedy in the world that will completely and permanently cure Constipation.

25c. a box, 6 for $2.50, or trial size, 25c. At all dealers, or from Fruit-a-tives Limited, Ottawa.

The "Philosophers Stone"

The philosopher's stone was something which the chemists of long ago were looking for. In those days they were called alchemists, alchemy being the old name for chemistry. They are the same words, al simply meaning the.

The general name of philosopher was given by other people to all who studied Nature in any of her aspects. The object of the search was to find something that would turn base metals into gold. This was really not worth aiming at, but in the search, which never succeeded, the alchemists found out all manner of chemical facts, for which we must always be indebted to them. And we must do them the justice to suppose that many of them were deeply interested in what they found out, for its own sake. The philosopher's stone would not have been worth finding for the sake of the gold, for directly gold became common it would lose its costliness. It has no real value in itself beyond that of a great many other metals. We are learning now that one metal can be turned into another especially through the action of radium.

It is not certain that we shall be able to make gold for a long time yet, but radium already goes a very long way towards being what our ancestors looked for in the "philosopher's stone."

THE EARTH'S AGE.

One of the most interesting results of Professor G. F. Becker's summing up of recent investigations as to the age of the earth is the general agreement in the figures arrived at by different methods. "These," as Professor Becker says, "seem to be mutually confirmatory, and to give results which converge towards some value near 60,000,000 or perhaps 65,000,000 years." And these figures approach more nearly to the time allowed by Lord Kelvin from physical consideration than to the practically unlimited period demanded by some evolutionists. One of the methods of estimating the age of the earth is by dividing the amount of salt in the ocean by that yearly carried in by the rivers of the globe. And Professor Becker draws attention to the remarkable fact that 200 years ago the famous astronomer Halley suggested a way of determining the age of the earth from the saltness of the ocean. "If," he said, "we determine the quantity of salt in the sea, and then some centuries after make a second determination, we may by the rule of proportion take an estimate of the whole time wherein the water would acquire the degree of saltness we at present find in it."

To Hear the Fly Tramp

The inferiority of the human sense organs to the instruments of science is pointed out by Dr. Carl Snyder. He says that whereas the human eye can see but little more than 3,000 stars in the heavens on the clearest of nights, the photographic plate and the telescope can discover countless millions. It is difficult for the eye to distinguish divisions of the inch if they are smaller than 1-200 of that unit of measure, yet a powerful microscope will make an object 1-10,000 of an inch in diameter look comparatively large. It would be a delicate ear which could hear the tramp of a fly, yet the microphone magnifies this sound until it sounds like the tramp of cavalry. The most sensitive skin cannot detect a change in temperature less than 1-5 of a degree, but the bolometer will register on a scale an increase or decrease of temperature of 1-1,000,000 of a degree, and can easily note the difference in temperature caused in a room when a match is lighted one mile away.

A cyclone wrecked 13 buildings and injured four people at Len Davis, Indiana.

A Galt syndicate has bought 120 acres of land, and will donate 40 acres to manufactures.

DOCTOR'S PRESCRIPTION TO CURE ECZEMA

The most advanced physicians of this country and Europe, are now prescribing a wash of Wintergreen, Thymol, and other soothing and healing ingredients for the cure of Eczema, Psoriasis and all other forms of skin trouble. This compound is known as the D.D.D. Prescription.

Dr. Holmes, the well known skin specialist writes—"I am convinced that the D.D.D. Prescription is as much a specific for Eczema as is quinine for malaria. I have been prescribing the D.D.D. remedy for years."

We ourselves vouch for the D.D.D. Prescription for Eczema and absolutely know that it will take away the itch the instant you apply it.

Drop into our store and get posted on this wonderful remedy for Eczema and all other skin troubles. Or write the D.D.D. Laboratories, Dept. P.R., 49 Colborne street, Toronto, for their free sample bottle. They will be glad to send it immediately.

McDermid & Jury and E. L. Payne, Peterborough.

OUR COAL WEALTH

An Estimate of the Great Deposits in Western Canada

In the Crow's Nest coal field, between the eastern summit, 4,330 feet above tide, and the valley of the Elk river, there is a coal-bearing area of 144 square miles. This district, owing to its enormous wealth, has been inspected with the utmost care. Eminent geologists and mining engineers have been through it examining it for a number of years. The report made by these men is to the effect that it contains 49.952 million tons to the square mile. Figured out, this indicates a total of 7,193,088 million tons. For various reasons it will be impossible at any time to get all this coal out of the mountains. Perhaps one-half of it may ultimately be mined for human consumption. In that case there will be available a total in this field of 3,596.544 million tons.

Although the deposits in this incredibly rich district are by far the most important yet developed in Western Canada, there are other regions from which immense shipments will in future years be made to consumers in the prairie provinces, and out of some of which large quantities of the needed fuel are being taken at the present time. Mr. Brock, of the geological survey, estimated that the maximum coal content of the coal-bearing districts of Manitoba, Saskatchewan and Alberta was 130,260 million tons. He said:—

In the known coal fields of the three provinces there is, according to present estimates, a total coal-bearing area of 27,136 square miles, with a maximum coal content of 130,260 million tons. This is, roughly speaking, divided as follows:—

	Tons.
Anthracite	400,000,000
Semi-anthracite	860,000,000
Bituminous and semi-anthracite	6,700,000
Coal land lignite coal	26,000,000
Lignite coal and lignite	71,000,000
Lignite	25,000,000
Total	130,260,000

Regarding the total coal supplies of Western Canada, Mr. Brock states in his report that it was impossible to give even an approximate estimate. "There are still," he said, "so many areas known as likely to contain coal, in which as yet little geological work has been done, notably along the route of the Grand Trunk Pacific, in the Yukon, and also in the comparatively unexplored portions of British Columbia. In British Columbia there are the deposits on Vancouver Island and the Queen Charlotte Islands, with reference to the extent of which it is impossible to speak with accuracy."

IN THE LAUNDRY

Black cotton fabrics should be washed in hot water. Use suds instead of rubbing with soap, and rinse in very blue water. When dry, dip in very thin black starch. Hang on the wrong side.

Fresh wine stains may be removed by dipping the stained part in a pan of milk boiling on the stove.

If you want a tablecloth to look like new every time it is washed, do not starch, but let it get perfectly dry, then dip it in hot water, and wring just so that it will not drip, lay it on the board, and iron it perfectly dry. It will take an hour to do it, but you can get a beautiful polish. Roll on a long, round stick, and you will have a polished lineless tablecloth.

MUSTN'T SLAY A NEIGHBOR'S PIG

Magistrate Leggatt, Windsor, fined Mrs. Lucy Strong, of Belle River, $5 for having beaten one of her neighbor's pigs to death. Mrs. Strong's defence was that the swine of her neighbor, Mrs. Ladouler, had annoyed her, and that she had merely driven the animal out of her yard, but the magistrate allowed the fine to stand, giving the woman the option of ten days in jail.

BRANDED WITH HOT IRON

Little Girl Tells That Parents Seared Her Flesh

Branding with a red-hot iron was the method of punishment Marie Rose Rousseau, Montreal, claims her parents used when she did not do as they desired. She is only ten years of age, and told the court that when she did not sweep the house and wash the dishes as she was told she was struck and beaten by both her father and mother. Not only did they beat and strike her, she said, but they used vile language whenever they had anything to say to her.

Frequently, said Marie Rose, when her parents did not think kicks and cuffs sufficient chastisement for her offences, they would roll up her sleeve and, while the step-father held her, her mother would brand her on the arm several times with a red-hot iron which she, screaming with pain, was helpless to resist.

The parents denied that they were guilty of any such outrage and said the child was very refractory and had to be scolded to make her obey, but they deny that they used more severe measures than to administer an occasional birching when they thought it needed.

The little girl, who is thin and emaciated, is under the protection of the Society for the Protection of Women and Children.

THE FLIGHT OF SEEDS

It is popularly believed that winged seeds from trees travel to great distances on the wind, but the investigations of a British scientist, who has spent much time at Singapore, indicate that winged seeds have a far narrower range of flight than have "powder" seeds and plumed seeds. The greatest distance travelled by the winged seeds of a forest tree observed by this authority was 100 yards. Under the most favorable circumstances, he calculates, it would take this plant just 100 years to spread 300 yards, and 1,500,000 years to spread from the Malay Peninsula to the Philippines if a land connection existed.—Scientific American.

A good idea is not to promise to do too much.

FROM A SOUTH WINDOW

IN CANADA

"Love, Laughter and Life"

LITTLE TEMPERS

I do not believe anything spoils the happiness and serenity of home so much as "little tempers," says a writer in Horner's Weekly. It frequently happens that the person who indulges in them is warm-hearted, and ready to help, and gives little or no thought to the failing which mars an otherwise sweet nature. You will frequently hear people say, with a smile, "I have a quick temper." It is really a serious defect, all the same. A man has something to disturb him at his work, or he misses his train, and comes home in a "little temper." He won't answer his wife civilly; he turns on the children and the cat, and takes his food in moody silence. That man creates a desert of discomfort around him. The peace and comfort of home depend upon the temper of those who dwell there, to a very large degree. What pleasure is there in the clean home and nicely prepared food, if "mother is in a temper"? What joy is there in the pretty house and nice clothes father's care provides, if he is cross and grumpy? To try to make things go well and smoothly when there is a member of the household whose temper is uncertain, is like trying to run a machine with one part of it rusty, or gritty with dust. If, when we feel irritable, as we all do at times, we would hold ourselves in for even ten minutes, how many a quarrel, how many a heartache, how many a mortification, how many a disgrace to our religious profession would be spared us!

HOUSEHOLD HINTS

A Good Idea to Keep Lime in the Pantry

Flour absorbs all odors, so keep it closely covered.

A Small Box of Lime kept in the pantry will help to make the air quite dry and pure. It should be renewed occasionally.

Before putting Milk into the saucepan, boil rapidly a few spoonfuls of water (enough to just cover the bottom of the pan) and it will never burn, however fierce the fire.

Where there are several children constantly in need of new shoes, the one who has to provide them will do well to try this: Cover soles of shoes with three or four coats of copal varnish, and they will never need resoling.

The Really Best Method of cleaning mirrors and windows is to rub them with a paste of whiting and water. When this dries polish with dry chamois and remove the powder. A little alcohol in cold water also gives a brilliant polish. Soapsuds should never be used.

It is not generally known that slices of lemon put into the copper when boiling clothes will make them beautifully white and take all the stains out of pocket-handkerchiefs and children's aprons. Cut the lemon, with the rind, into slices, and let it remain in the boiler till the clothes are ready to come out.

In Spite of all the remedies offered for driving away ants from the house, the only sure way seems to be to catch and kill them. Set in the closets plates coated thick with soft lard, with little sticks leaning against them for the ants to climb. When filled, drop into a pan of boiling water, and then set the plate as before.

To remove Grease or oil spots from clothing, especially light suits as worn by cyclists and tourists, mix a little fuller's earth into a paste, spread it over the affected part and allow the same to dry thoroughly. In doing so it draws and absorbs the grease. Then take a stiff brush, which will quickly remove the dried earth, and the result will be pleasing, and far more satisfactory than most other methods.

Painted Wood, panellings, and wainscoting can be rapidly and effectually cleaned with potato-water. Put half a dozen tubers into a pail, having previously peeled, washed and grated them. Pour a gallon or two of fresh water over them and let them stand for half an hour; then strain and use with a house flannel. No scrubbing will be needed, but another flannel with clean water must be used for rinsing purposes. This is good for any kind of wood.

A BEAUTY HINT

If you want to make your face look thinner, arrange the hair loosely, but not allowing it to flop forward. This is much better than straining it back. Do not cover the head with curls, as this only increases the size. A neat, close arrangement of the hair at the back is better.

A DRESS HINT

Always have some arrangement of your dress to give length by a downward line. For instance, if you make yourself one of the little seamless blouses, have a piece of perpendicular embroidery let into the front, or slit the blouse a little on one side and insert one of those pretty white muslin frills. Never have a blouse and skirt of different colors. This is a most important rule if you want to look slimmer. Blouse, skirt and waistbelt should always be the same shade.

A BACHELOR'S WISDOM

A perfect duty is to exercise gentleness and cheerfulness.

The sweetest music of all is the sound of a voice when it speaks words of tenderness and comfort to a friend.

True wealth is of the heart, not of the hand.

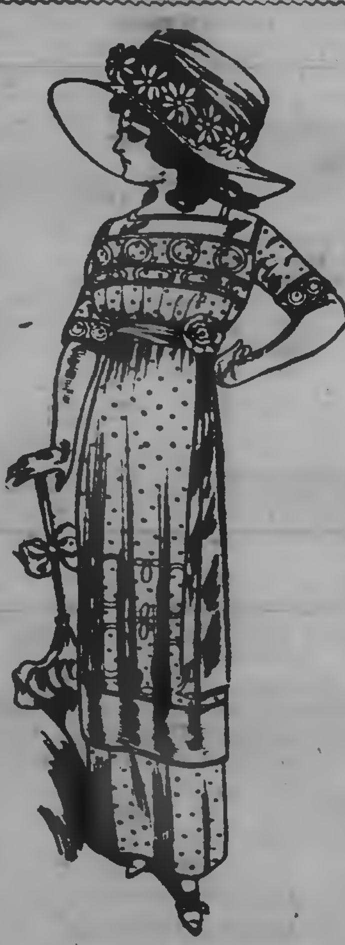
We would all do well to perform kindnesses when they are needed, and not to put them off until they are of no use.

Those in search of bright rays in the midst of storm and stress usually find them.

Strive to be what you would have your friends become.

Marking time leaves no mark on time.

Never let the burdens of to-morrow break the back of to-day.



PINK AND WHITE ROBE

What could be daintier for a young girl than a frock of white dotted swiss with embroidered designs in pink? Above model shows the way of construction with the girdle and rosette of pink satin ribbon. These daintily embroidered robe frocks come in all the pretty light colors and are surprisingly reasonable in price.

FIGHTING THE FLIES

How to Minimize the Nuisance These Pests Cause

A recent issue of The Woman's World gives a list of rules for dealing with the nuisance that it would be well if all householders would read, use, and remember. The list is as follows:

Keep the flies away from the sick, especially those ill with contagious diseases. Kill every fly that strays into the sick-room. His body is covered with disease germs.

Do not allow decaying material of any sort to accumulate on or near your premises.

All refuse which tends in any way to fermentation, such as bedding straw, paper waste and vegetable matter, should be disposed of or covered with lime or kerosene oil.

Screen all food.

Keep all receptacles for garbage carefully covered and the cans cleaned or sprinkled with oil or lime.

Keep all stable manure in vault or pit, screened or sprinkled with lime, oil, or other cheap preparation.

See that your sewage system is in good order, that it does not leak, is up to date, and not exposed to flies.

Pour kerosene into the drains.

Cover food after a meal, burn or bury all table refuse.

Screen all food exposed for sale.

Screen all windows and doors, especially the kitchen and dining-room.

Burn pyrethrum powder in the house to kill the flies.

Don't forget, if you see flies, their breeding place is nearby filth. It may be behind the door, under the table or in the cuspidor.

If there is no dirt and filth there will be no flies.

If there is a nuisance in the neighborhood, write at once to the health department.

It is far better that the beauty of the carpet should fade than that your face should bear the marks of a sympathetic wear and tear. You can easily buy a new carpet when one of your good husband's numerous ships comes in in the near future, but you cannot buy a new face.

Few people can say a good word for anyone without adding a sting.

Girls don't seem to care as much as boys to know what is going on.

A FAMOUS ENGLISH CLOCK.

Terrestial and Celestial Bodies Incorporated in the Movements.

Wells cathedral contains one of the most interesting clocks in the whole world. It was constructed by Peter Lightford, a monk, in 1320 and embraces many devices which testify to the ancient horologist's ingenuity. Several celestial and terrestrial bodies are incorporated in the interesting movement and relationship. They indicate the hours of the day, the age of the moon and the position of the planets and the tides. When the clock strikes the hour two companies of horsemen fully armed dash out of gateways in opposite directions and charge vigorously. They strike with their lances as they pass as many times as correspond with the number of the hour. A little distance away, seated on a high perch, is a quaint figure, which kicks the quarters on two bells placed beneath his foot and strikes the hours on a bell. The dial of the clock is divided into twenty-four hours and shows the phases of the moon and a map of the universe.

$2,300 FOR ONE FOX SKIN.

More Than Once a Black Fox Skin Has Paid a Farm Mortgage.

The pelt of the pure black fox is the highest priced fur on the market. The sum of $2,300 has been paid to a breeder of black foxes in Prince Edward Island for one medium sized, flawless skin of exceptional beauty and lustre. The average prices per pelt, according to color and quality, run from 300 to $500.

The business of domesticating and breeding foxes has been carried on in this island for about twenty years; it is now past the experimental stages and promises to develop into a paying industry. In more than one instance the proceeds of the sale of a pure back fox skin has paid off a farm mortgage.

The black fox is very rare. Its pelt is marketed at London, where the available supply is offered at auction four times a year. At the sale in January 1910, 171 pelts, varying from the silver tinged to the pure black, were offered; this year the number at the midwinter sale was only 64.

The fox reaches full growth in from eight to nine months. The fur is at its best in the months of December, January and February, when the animal is from 2 to 3 years old. The highest degree of care must be exercised in taking off the skin. A drop of blood or the smallest break or defect ruins the fur for commercial purposes. To kill the fox it is smothered or chloroformed while confined in its hut or in a hollow log.

The Bread Would Burn.

The error into which King Alfred fell in that famous instance when he let the cakes left in his care burn, is not going to be repeated by the telegraph operator of whom Arthur W. North tells in 'Camp and Camino in Lower California.'

'I learned at this point that for the first 500 miles before me I would require more change than I had on hand, and would pass through no place where cheques could be cashed. Moreover, my drafts were used up.

'In this dilemma I wired for money. After four days of exasperating delays, I received this satisfying message from the obliging operator of the wireless office:

"Operators on other coast may be have two messages for some one, but his bread in oven — wife she away — and might burn if be leave it long. After lunch he transmit message."

Darwin Caught On.

When Charles Darwin was visiting the country house of a friend the two boys of the family thought they would play a joke on the scientist. So they caught a butterfly, a grasshopper a beetle and a centipede, and out of these creatures they made a strange composite insect. They took the centipede's body, the butterfly's wings, the grasshopper's legs and the beetle's head and they glued them together carefully. Then, with their new bug in a box, they knocked at Darwin's door.

"We caught this bug in a field," they said. "Can you tell us what kind of a bug it is, Mr. Darwin?"

Darwin looked at the bug and then he looked at the boys. He smiled slightly.

"Did you notice whether it hummed when you caught it, boys?" he asked.

"Yes," they answered, nudging one another.

"Then," said Darwin, "it is a humbug."

Both Alarmed.

Louis Agassiz, the naturalist, spent the evening of the day he was married in his laboratory as usual. He retired after his newly-found wife was in the realm of dreams, bringing to his bedroom two very choice specimens of the snake family which he had been studying, and was still engrossed in. Forced to part with them for the night, he looked about for a suitable place to leave them, and finally laid hold of his wife's stocking as a convenient receptacle.

The next morning, when Mrs. Agassiz rose, she cried: "Louis, there's a snake in my stocking! What shall I do?"

"A snake!" yelled Agassiz, now fully aroused. "One snake! Heavens where's the other one? I put two in there."

What Every Woman Knows

That women with pasts seldom have a future.

That kisses in public are as unsuitable as pyjamas and carpet slippers at a dance.

Winnipeg Electric Is Sold.

Winnipeg, Oct. 24.—All holdings of the Winnipeg Electric Co., which supplies gas, power, and street railway services to Winnipeg and vicinity, have been purchased by the F. R. Reese Engineering Co., an American concern backed by large capital.

SPORT TALK

Frank Heffernan, Dick Sheehy and Vernon Hayes each had a hand in the Ottawa College-Varsity game, Saturday when the capital boys beat the Dominion champions by a score of 10—8.

Heff showed up in the third quarter and Sheehy was sent in. Hayes subbed on a wing, and even that small honor is something for the local lad to be proud of.

How is, asks the local sport, that Peterborough athletics collectively, have not done anything startling during the past few years, and yet taken individually, can move to another town and make good in almost any branch of sport?

RUGBY GAME ON THE HOLIDAY

Mulock Cup Champions to Play the Locals

The West End Athletic Club have concluded arrangements for a rugby game on Thanksgiving Day with Mulock cup champions of Toronto University and as this team has the advantage of the best of coaching, a good fast game is assured.

The W.E.A.C. wish to express their regret at not sooner answering the challenge of Mr. Hurtubise for a game but owing to the negotiation for the above game, they were not at liberty to make arrangements with Mr. Hurtubise. However, they are willing to play his team on Saturday afternoon next.

The following are asked to be out to practice at Central Park to-night, at 7.15 to get into shape for the game on Thanksgiving Day.

Hill, Webb, Ecclestone, Thompson, Turner, Davidson, Hogan, Langley, Gilbert, Denison, Corkery, Eastwood, Copping, Kirn, and any others wishing to have a work out.

CHURCH LEAGUE HOCKEY MEETING

One is to be Held at the Y.M.C.A Nov. 2

As the Association Football season is over so far as the Church League is concerned, and the different clubs will be holding a meeting in the near future to discuss the possibilities of entering teams in other branches of sport, it is probably in line to remind them that there is to be a meeting in the Y.M.C.A. parlors on Thursday Nov 2nd., to discuss the advisability of re-organizing the Church Hockey League. Several of the clubs have already received notice regarding this meeting which it was at first decided would be held on October 31st, but as that is Hallowe-een night and so soon after the holiday, it has been decided to hold forth the following Thursday.

There is no reason why, at least, four strong teams could not be placed in the series. There is an abundance of material in the city, which would not otherwise get any hockey this season as they cannot all catch the O.H.A. sevens. There is already the J.H. Burnham trophy, which is at present in the possession of St. Andrew's club which won it two years in succession and it may also be possible to secure medals for the winners.

It is necessary that there be a large number of representatives present, on November 2nd., as considerable business is likely to come up.

STANDING OF THE CHURCH LEAGUERS

Below is the standing of the teams in the Church Football League, the All Saints' eleven having won the championship on Saturday:

	Played	Won	Lost	Drawn	Points
All Saints'	4	2	1	1	5
St. James'	3	2	2	0	4
Park street	4	[illegible]	2	1	[illegible]

PERCIVAL S. WEBB,
Secretary-Treasurer,
Church League.

Don't expect people to be loyal to you. That's where we are all weak.

Electric Restorer for Men

STILL A MYSTERY.

No Arrests Yet In Murder of J. Walter Dick.

Toronto, Oct. 24.—Despite the efforts of some of the jury another adjournment was made in the inquest into the death of J. Walter Dick last evening, no arrests having yet been made.

Detective Tipton was placed in the witness box and swore to having followed up many suggested clues, but without the least success.

Since the time Dick was struck three weeks ago last Saturday evening the detectives have been working hard on the case and though several times they felt almost assured that an arrest would be made in a day or two, they have, as yet, not been warranted in taking any suspects into custody.

Hope of securing the man who struck Dick has not yet been given up, but on the contrary the detectives are still following several clues and feel confident that they will soon have gleaned sufficient information to run down a man whom they have suspected almost from the start.

Where Dick spent the intervening time after leaving the athletic grounds and nine o'clock is still a mystery, yet the mystery is not nearly so deep as a fortnight ago.

Coroner Graham repeated his belief that it would be unwise to close the investigation without an arrest, but went so far as to say that should the matter not be straightened out by the end of another two weeks, he would allow the jury to retire and bring in a verdict.

The new crown attorney, R. H. Greer, last evening conducted his first inquest.

CANNOT RAISE RATES.

Publishers Win Fight Against the Express Company.

Toronto, Oct. 24.—The express companies were foiled yesterday in their attempt to secure the permission of the Dominion Railway Commissioners to cancel section D. of their rate tariff. the section fixing the charges on books, calendars, posters, and similar printed matter.

The application was opposed by the Toronto, Winnipeg and Montreal Boards of Trade, the Canadian Manufacturers' Association, and the Canadian Bill Posters' Association, as well as by individual manufacturers. J. E. Walsh represented them.

The protest was made that the rates of section D had permitted the booksellers to build up a big business in books, and that the cancellation of this section would work a great injury.

For the commissioners, Justice Mabee turned down the express carriers' application. "The express companies argue that section D is discriminatory, and urge that the shippers in classes covered by section D are favored in the matter of rates," he said. "The answer to that is that the post-office department puts in force special rates on certain classes of commodities, and it is optional for the express companies to meet those rates. They are not forced to reduce their rates, they are responsible for the result. The discrimination is not undue; it is caused by the rates of the postal department."

WANT STRICT LAW.

Associated Charities In Toronto Would Punish Wife-Deserters.

Toronto, Oct. 24.—The Associated Charities decided at their meeting, held in the City Hall yesterday afternoon, to take steps to have a law passed making it a criminal offence for a man to desert his wife and leave her in want. The suggested enactment is substantially as follows: Any husband who shall without just cause desert or refuse to provide for the support of his wife or children shall be guilty of an indictable offence and liable to a fine not exceeding $1,000 or a term of imprisonment not exceeding two years with hard labor, the earnings from such labor to go to the support of his wife. The Associated Charities will ask the mayor and the Board of Control to support the measure, and the local members of the Dominion House to introduce the measure at Ottawa.

At present it is not an indictable offence for a man to desert his wife. About the only protection a woman is afforded is an order of protection, which can be granted if it is shown that she is in danger of maltreatment.

The association thought also that charitable organizations should be empowered to lay information against a husband in case the wife refused.

Banker Walsh Dead.

Chicago, Oct. 24.—John R. Walsh, former banker, publisher and railroad owner, released a week ago from the Leavenworth Federal Penitentiary, died yesterday of heart disease.

Walsh was 74 years old. He gained pre-eminence in financial circles through astute business methods. It was on Dec. 16, 1905, however, that the financier overstepped the national banking laws in his conduct of the Chicago National Bank, of which he was president. That institution failed. On Jan. 3, 1907, Walsh was indicted on 183 counts, charged with "wrecking" the bank. Through three years of litigation, the financier fought desperately to stave off a prison sentence, but the Supreme Court of the United States on Jan. 17, 1910, refused an appeal, and on the 19th the former bank president began his five-year term at Leavenworth Penitentiary.

Last month Walsh appeared before the federal parole board of Leavenworth and applied for a parole, being eligible under the laws. His parole was granted Oct. 14, and the banker released after having served a year and a half of his five-year sentence.

Jeered Cook at Copenhagen.

Copenhagen, Oct. 24.—Dr. Fred A. Cook, who was so enthusiastically welcomed here after his alleged discovery of the north pole two years ago, arrived here last night. He was accompanied by his wife. Owing to the threatening attitude of the crowd, Dr. Cook was escorted to his carriage by a detachment of police. The mob followed, jeering and hooting.

The explorer said he had given up his projected European lecture tour and will lecture only in this city. The newspapers denounce him, some of them recommending demonstrations of disapproval at his lecture.

OBITUARY

Frances Estella Tisdale

The Belleville Ontario of yesterday says— "The death occurred yesterday morning of Frances Estella Tisdale, widow of the late Martin Ryan of Brockport, N.Y., at the home of her parents, Mr. and Mrs. Alexander Tisdale, Front street. In religion she was a Roman Catholic and a member of the League of the Sacred Heart and several other societies. She was 36 years of age. Besides her parents she leaves to mourn her loss four brothers and four sisters, Mrs. John Givens, Kingston; William Tisdale, Seattle; Mrs. John Ryan, Brockport, N.Y., Leonard Tisdale, Toronto; Alexander Tisdale, Buffalo, N. Y., Raymond Tisdale, Peterboro; Miss Florence Tisdale, Belleville,, and Irene Rochester, N.Y. Their many friends will regret to hear of this untimely loss.

LETTERS TO THE EDITOR

The Review does not hold itself responsible for opinions expressed by its correspondents

WHITE'S SEAT.

To the Editor of the Review.

Sir,—You say that Mr Borden probably has a safe seat some where for Mr. White. Where is it? Give us some reliable information on this point.

Yours,
CITIZEN.

Note—The information will come in due time. When Mr Borden sees fit to make the public announcement.—Ed.

EVOLUTION.

To the Editor of the Review.

Sir,—It is reported that at a great platform meeting where evolution was being discussed, Prof. Huxley, who was one of the speakers, and who was one of those who, like the higher critics, believed that his grandfather was a monkey, was asked the question? "Mr. Huxley, if your grandfather was a monkey, what was your grandmother?"

It is not reported, Mr. Editor, that Prof. Huxley made it clear to his audience whether his grandmother was a monkey or a woman. Now, if the professor's grandfather and grandmother were both monkeys, according to the unalterable law of nature, that, like produces like, why the offspring from such would be monkey. Then, again, if the professor's grandfather was a monkey, and his grandmother a woman, that cross would produce a hybrid, and hybrids are always sterile and go into extinction.

That is where most of the monkey brand men, the "Higher Critics" have already gone, and the rest are fast heading that way.

Yours, etc.,
JOHN CARLISLE.

COLD IN CHEST

Rub Well With Zam-Buk

For bad colds on the chest, rub the chest and between the shoulders well with Zam-Buk at night.

If you suffer from catarrh or cold in the head, just insert a little Zam-Buk at the base of the nostril, and as the balm becomes warm, inhale the healing essences which vapor so.

Sores in the nostril, which are sometimes set up by catarrh, will yield to Zam-Buk treatment.

Mrs. N. S. Babcock, of Matawatchan, Ont., says: "For a long time I had a very disagreeable sore on the inside of the nostrils, which gave me great pain and caused much annoyance. I feared it would turn to cancer, and all I tried proved unavailing. I was ordered to try Zam-Buk, and I am glad to say that the sore that defied all other remedies was overcome by one box of Zam Buk, and is now quite healed."

Zam-Buk will also be found a sure cure for cold sores, chapped hands, frost bite, ulcers, eczema, blood-poison, piles, cuts, and skin injuries generally. All druggists and stores 50c. box, or Zam-Buk Co., Toronto. Try Zam-Buk Soap, 25c. tablet!

Not Loaded.

No other language under the sun is open to so many interpretations as the English language, as witness the conversation between two Sharon Hill girls the other evening

"Oh, May," said the first one, "Jim and Bill tried to fight a duel over me."

"How romantic! What happened?"

"It was terrible. I came into the room, and those foolish boys were pointing big pistols at each other!"

"Pistols? Heavens! were they loaded?"

"Not a bit. That is just what made it really very serious. They both were sober."

The Importance of the Beard.

The importance of the beard was fully recognized in the middle ages. Here is a passage from a letter of the writer, Bartolomeo Catena: "It is well that those who have to lead and govern should have a long and fine beard. And I can assure you that the government of cities and provinces has been given to more than one prelate because he had a long and fine beard; otherwise he were not worthy that honor."

Passengers on the White Star liner Arabic saw a rainbow by moonlight while in midocean

And

The bartender said 'twas a wonder some of 'em didn't see two rainbows.

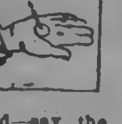
The C.P.R. will spend $5,000,000 in hotel extension and re-building throughout Canada.

OUR CHILDREN'S COLUMN.

TO-DAY'S TRICK FOR THE SUPPER TABLE.

Here's a bully scheme for "working" dad for some spending money.

Tell him you can make a quarter stick to the wall without using glue or anything else.



If he feels like arguing the matter, ask him if he will give you a quarter if you can make it stick to the wall. When he "bites" take the quarter and slam it flat against a smooth surface of wood—say the bookcase or a door panel— pressing it hard with a downward sliding motion, against the wood. Take your hand away and the coin will stick tightly.

The striking and pressing expel the air between the coin and the wood, forming a vacum which will hold the millionaire's dollar or Johnny's penny just alike.

BOY CAN MAKE.

Some Descriptions of Useful Articles for Camping.

Many boys look forward to going into camp as soon as school is closed, taking for their camping grounds some piece of woods or small island near their homes. It is also good fun to set up a camp in the back yard if one's parents do not wish to have one go away. Boys who are interested in this sort of good time will find it a good plan to start soon to make some of the necessary articles of the camp equipment. A boy reader has sent to this page some descriptions of articles which are useful for campers and which may be made at a very small cost or without any cost at all.

To make a camp lantern take a can and puncture it. A small block of wood may be hollowed out to make a holder for the candle. The block of wood is set inside the pail and the light shines through. This pail may also be used for carrying small fish or bait.

Another lantern is made of a glass jar which has a tin cover. Puncture holes in the cover and make a basket for the candle of wire which is twisted around so as to hold the candle as shown in the picture. There are two long strands of wire which come up through the lid and form a handle for the lantern.

A camp warmer and cook stove may be made of a pail.

The article to be cooked may be put in a covered pail and then covered with hot coals. To make an oven fill thepail with hot coals. The articles to be roasted may be placed on top of these coals.

ASOF AND HIS PONY.

An Arabian Story for Canadian Children.

Asof loved his pony Selim very dearly. He used to whisper in his ear that when he grew to be a man he would buy him a string of the loveliest pearls to hang around his neck and feed him on rose sugar drops. One day Asof's uncle came to see Asof and brought him a box of sweetmeats of most beautiful colors and shapes, 25 in all.

"Have a good time with these candies," said he. He knew his little nephew had a sweet tooth, and the sugar roses, violets and lilies were made of the purest creamed sugar.

Asof nodded his head.

"I will have the best of times," said he. "I will eat five candies myself and feed the rest to Selim."

"To Selim!" echoed his uncle.

"Yes, to Selim!" merrily laughed Asof, and off he scampered to have a good time with his pony.

AN AFTER SUPPER THUNDER "STORM."

Here's some homemade, individually applied thunder that will put thunder old Vulcan himself. You can produce it on nights when there isn't a cloud in the sky—right in the house, and only one person at a time will hear it.

Place a piece of string around the other fellow's head, taking care that his hands cover his ears. Then cause the string to vibrate by drawing the moistened finger and thumb along the string.

The effect will be that of a rolling peal of thunder, audible only to the person operated upon.

INSECTS TOOLS.

There is a little fly called a sawfly because it has a saw to work with. The fly uses it to make places where the eggs will be safe. What is more strange it has a sort of home-made glue which fastens them where they are laid.

Some insects have cutting instruments that work just as scissors do. The poppy-bee is one of them, whose work is wonderful. This bee has a boring-tool, too. Its nest is usually made in old wood. This borer cleans out the nest for use. When all is ready, the insect cuts out pieces of leaves to line the nest and to make the cells. These linings are cut in the shape of the cells. You would be surprised to see the care taken to have every piece just the right size.

FUN FOR FRIVOLOUS FROLICS.

Seated in a circle you begin to count, passing rapidly from one to the next but instead of saying "seven" the player says "Buz" which must be repeated at 14, 21 and each multiple of seven; also instead of five and any multiple of five, take 10, 15, etc., the player must say "Bang." A forfeit must be paid each time one fails to "Buz" or "Bang" at the right time.

Every man who attends a lecture is cross because he couldn't get out of going.

AUTUMN IS THE TIME FOR GLASSES **Why?**

The increasingly long evenings of autumn give greater opportunity for sewing, writing, reading, study, and as this is necessarily by artificial light the strain upon the eyes is such as to make Glasses quite a boom at this season of the year. This no doubt accounts for much of the present increased demand for Glasses.

Appointment for examining the eyes for Glasses is usually necessary.

J. W. BROWETT, OPTOMETRIST. Optical Institute, Peterborough.

Faces Murder Charge.

Cornwall, Oct. 24.—Of four criminal and one civil cases at the Cornwall fall assizes, which opened to-day, the case of outstanding interest is that of the King v. McRae, in which F. D. McRae, ex-reeve of Lancaster Township, is charged with the murder of William Shaw, druggist, of Carp, Ont. The tragedy took place on July 1, near the residence of D. C. McRae, Bridge End, Lancaster Township, Glengarry, where Shaw had been one of a party which had gone to make a futile attempt to recover possession of the infant child of Dr. and Mrs. Magee of Carp. The pair had quarrelled along religious lines, Dr. Magee being a Methodist and his wife by birth and education a Roman Catholic.

After the birth of their first child last spring, troubles began and multiplied. Finally Mrs. Magee left home with the child and went to the residence of her father in Glengarry.

It was on the occasion of Dr. Magee's attempt to get possession of his child that the fatal shooting occurred. Dr. Magee was accompanied by his brother, his druggist, Shaw, who was fatally shot, and a constable named Uren from Bainsville.

Flooded the Magazines.

Toulon, Oct. 24.—A repetition of the Liberte disaster was probably averted yesterday by the presence of mind of the commander of the battleship Suffren. As the vessel was preparing to leave here escaping steam overheated the partitions between the coal bunkers and the magazines, causing an outbreak of fire.

The commander without delay flooded the magazines and extinguished the flames.

If you have a grievance against a man, and can't get over it, walk up to him and say, "Square yourself; I intend to hit you." That will give him fair notice; and may the best man win. It is a better way than to whine and talk forever.

TEN CENTS PER WEEK.

CANADIANS' LOVE OF COUNTRY SUPERIOR TO ALL THINGS ELSE

Earl Grey Speaks For Canada in Old Country.

The Dominion Has Not an Annexationist From Sea to Sea, Says Former Governor-General — Quebec's Opposition to the Navy Is a Temporary Misunderstanding, He Declares—Eulogy for Sir Wilfrid.

London, Oct. 25.—(C.A.P. Cable.)—The Royal Canadian Institute banquetted Earl Grey yesterday evening. Rt. Hon. Louis Harcourt, Colonial Secretary, presiding, and Lord Minto, Sir J. Bevan Edwards, the Duke of Marlboro, Earl Carrington, Hon. A. Lyttleton, Earl Dundonald and Earl Brassey being among those at the head table. The general body of guests included practically all the leading men in London Canadian circles, the crush being so great that many guests were forced to dine in the ante-room. The total company numbered nearly 300.

Harcourt, in proposing Earl Grey's health, said his departure from Canada coincided with Laurier's resignation. He was quite sure there was no assembly of Englishmen who wouldn't wish at this moment to pay a tribute to that distinguished Prime Minister and express a grateful sense of the great services rendered so many years to the progress and prosperity of the Dominion to which he had devoted his intellect and energy. No divergencies upon the latest policy could detract from the warmth of gratitude felt for achievement of his past career. (Cheers.)

Turning to Earl Grey's return, Harcourt said it was no reflection upon his able and distinguished successor to say that Canada would gladly have seen Grey's governorship indefinitely prolonged.

Harcourt quoted many administrative acts for strengthening, solidifying and even extending the Dominion during Earl Grey's term of office. During the last five years the Canadian Government had been in close touch with the Washington ambassador, and through him had negotiated a series of treaties and arrangements of the highest possible value to the amicable relations of Canada and the United States.

"I am not referring at this moment," added Harcourt, amidst laughter, "to the recent reciprocity proposals. I don't think in my official position any advantage would be gained by discussing these circumstances. I had in mind other agreements, which in public estimation have been overshadowed by those proposals. Practically every outstanding question between Canada and the United States has either been settled or placed in a way of settlement."

He proceeded to say that Earl Grey had witnessed and assisted in the advance of the naval and military protective forces of Canada. During the life of his governorship, he had witnessed perhaps the greatest and most rapid extension of commercial and agricultural prosperity ever recorded in Canada's history.

Mr. Harcourt finally referred to the charm and ability displayed by Lady Grey and said. "We welcome Earl Grey back as a great governor, a good fellow and a true friend."

Earl Grey had a rousing reception on rising to respond. Alluding to his welcome, he said:

"It is a great reward for seven years' constant effort to serve Canada and the crown and I hardly think such a reward is deserved, when the conditions of my governorship considered. I have said more than once that I believe I have been privileged to occupy the most pleasant billet in the whole Empire. It is no ordinary privilege to be in an atmosphere of undiluted optimism and continued new development.

"I feel that, with the shadow of the governorship still upon me, it would be out of place to give expression to any individual views upon subjects of controversy.

"I can say, however, with the greatest confidence that, with the exception of an occasional crank here or there, it is impossible to find an annexationist throughout the whole of Canada. (Cheers.) I say with equal confidence that, notwithstanding some desire to the contrary, there is no expectation in Canada that the recent Canadian elections should be used for inducing any change into the tariffs of the United Kingdom. It cannot be too clearly understood that Canadians are as adverse to the idea of interfering in your local affairs as they are to any interference on your part in theirs.

"In justice to Sir Wilfrid Laurier, my affection and admiration for that distinguished statesman require me to say he and his Government were actuated by no annexationist sentiment in the policy they adopted at the polls. Sir Wilfrid was fully persuaded that his policy, if adopted, would strengthen both Canada and the crown. To secure free entry for the products of the farm and fisheries into a protected market of nearly one hundred millions by the purchase of reciprocal admission to products from the U. S. A., and by trifling duties on agricultural implements, which had been energetically demanded by the agricultural interests, appeared to Sir Wilfrid Laurier to be an economic advantage which he was bound to accept for his country when an unexpected opportunity placed it within his reach. It was certainly in no sense a policy of dislike to closer connection with the Mother Country.

"The people of Canada, however, sniffed a great danger in these proposals—(cheers)—rightly or wrongly it is not for me to say. Thousands of Liberals feared their adoption might

CANADA'S FINE BOOSTER

Earl Grey will be one of the best advertising agents Canada has ever had in Britain.

REBELS CAPTURE TWO TOWNS; REVOLUTION GAINS STRENGTH

Revolutionaries Are Elated and Are Gaining In Numbers as a Result of the Victorious Uprising In Kiukiang and Sian, Two Important Centres—People Burned the Governor's Yamen.

Pekin, Oct. 25.—Two important towns, Kiukiang, in the Province of Kangsi, and Sian, capital of Shensi Province, have fallen into the hands of the revolutionists, very materially extending the area of the uprising, disheartening the Government and giving new confidence to the leaders in the movement to establish a republic. Sian was regarded as a Government stronghold.

Consular reports from Kiukiang say that the people of that town rose on the evening of Oct. 24. They burned the Taotai's yamen and declared in favor of the rebels. The Imperial troops made no serious resistance. Gen. Yin Tchang, who commands the Government forces, still remains in Sinyangchow. He demands reinforcements before taking the offensive, as he has learned, according to his own report to the administration here, that the rebels are abundantly supplied with artillery and have many adherents.

A steamer from Ichang, crowded with Chinese soldiers, reached Wuchang yesterday under a white flag. Tenhetre Point, which is being fortified by the rebels, is considered of great strategical importance, as it commands the railway and river approaches to Hankow.

A messenger from Hankow says that the revolutionaries have advanced to a point eight miles north of that city, near to where the Imperialists in unknown numbers are entrenched in a position protected by swamps on both sides of the railway.

One of the latest messages from Sian says that the rebels are making overtures to the Mohammedans in the province of Kansu, which lies to the north of Sze-Chuen. The Mohammedans have been in open rebellion since August, and the sender of the message believes that the two revolutionary parties will join forces.

Kai-Feng, in the Province of Honan, is in a serious position because the local officials have practically abandoned the whole place to the soldiers. There have been several clashes between soldiers and police and there is much danger of rioting.

Pessimistic reports are at hand from Soo Chow, Tsi-Nan-Fu and other centres. Numerous soldiers have deserted the Chinese gunboats and joined the rebels.

It is officially reported that no news has been received from the tenth division, which left Ching Tang Tao by steamer on Oct. 17 for Hankow.

Fears are entertained for the loyalty of the garrison at Kiang-Yin, a strong fort on the lower Yang-Tse.

There is no information as to the whereabouts of Admiral Saha' gunboats.

Imperial Successes.

Shanghai, Oct. 25.—A Chinese official despatch from Ying Tchang, the War Minister, reports Imperialist successes over the rebels on October 20 and 21 at Sinyanchow. The despatch states that the rebels had more than 600 killed while the losses of the Imperialists amounted to a few score.

A long letter from Gen. Liyuanheng to Admiral Saha, whom the rebel leader addresses as "My Dear Master," is published. Gen. Li justifies his action in joining the rebels on the ground that when the revolt broke out his own troops were absent. He attempted to escape, but was captured and forced to take command. Since then, he says, he has found all the men, from the highest to the lowest, of one mind and thinks it better to belong to a united than a disunited party.

Communication, even by wireless, with Honan is cut off. The troops in that province were recently disaffected, but the trouble was settled by the payment of their wages.

Continuous Skirmishes.

London, Oct. 25.—A special from Pekin, dated yesterday evening, says that throughout Monday there was continuous firing and skirmishing between the rebels and the Imperialists near Hankow. The insurgents displayed bold tactics and engaged the Imperialists at many points.

In the meantime, says the correspondent, the northern army is pushing its way to the south, advancing with caution and clearing the ground in front scientifically with artillery. The remainder of the Government forces are fighting without any regard to order or method.

DATES FOR TWO BYE-ELECTIONS

Leeds on Nov. 13 and Nipissing Two Days Later

Special to the Review.

Ottawa, Oct. 25.—Cabinet decided two bye-election dates. Leeds with W. T. White as candidate will be held on November 13th, while that at Nipissing will take place on November 15th, with Hon. Frank Cochrane as candidate.

GENERAL FENG SHAN KILLED

Chinese Commander Met Death in Bomb Explosion

Special to the Review.

Shanghai, Oct. 25.—General Feng Shan, military commander at Canton, was killed by a bomb to-day, according to the latest message. The first report stated that he had escaped injury as the result of the explosion.

Many Delinquents.

Montreal, Oct. 25.—The sale of city properties by the sheriff for non-payment of taxes this year is the largest on record. The average number of lots placed under the hammer at such sales has been up-to-date seven or eight, but this year twenty-seven lots were disposed of.

The original list included 359 lots, but as usual, the taxes due were paid on most of them before the hour of the sale, and 27 were finally put up.

ITALIANS WILL TAKE NO CHANCE

All Natives at Tripoli are Being Disarmed

Special to the Review.

Tripoli, Oct. 25.—The Italians to-day began disarming the native population of Tripoli as a result of the outbreak of the Arabs on Monday, which occurred simultaneously with an attack made by the Turkish troops in which the losses in the battle of a few hours were heavy.

MASTERY OF THE AIR

Orville Wright Remains Stationary for Ten Minutes

Killdevil Hill, N.C., Oct. 25—Orville Wright in a motorless glider, hovered stationary for ten minutes yesterday in a fifty mile gale, showing that it is possible to remain in the air without a motor, if there is sufficient winds.

To make travel in the air virtually as safe as it is on the earth is known to be the real purpose of the experiments which the Wright brothers are conducting.

They are working upon their new mechanism designed to keep an aeroplane on an even keel. This problem of stability has been the study of aviators the world over. The Wrights began their work on it before 1907. Orville Wright met with an accident yesterday while experimenting.

Goderich Crew's Escape.

Goderich, Oct. 25.—The schooner Azov, of Goderich, was wrecked off Saginaw Bay on Sunday, and Captain McDonald, of Goderich, and his crew of four men, most of them Goderich boys, were forced to take to the yawl and spend Sunday night and all day Monday in the face of a fierce gale with high seas, trying to reach this shore.

They landed about ten miles from Goderich Monday night in a very exhausted condition, and were taken care of by farmers. The captain and part of his crew reached home late Monday evening.

Captain McDonald owned the schooner. His young daughter and two sons were also in the yawl.

Made Noted Capture.

Montreal, Oct. 25.—An important arrest was effected when Detectives Gorman and Lepage captured "Billy" Watts, who, the detectives say, is a noted cocaine fiend and dispenser. Watts' capture was accomplished after a four months' search by the authorities. Last spring he was arrested in Toronto on a charge of vagrancy, but the case was not proved.

Yesterday morning he was arraigned on four counts: selling cocaine, having it in his possession, vagrancy, and carrying a loaded revolver. To the first three he pleaded not guilty, and was remanded for trial. For carrying a loaded revolver he was fined $10 and costs.

EMPEROR FRANCIS JOSEPH IS ILL

Cancelling of All Engagements Has Been Found Necessary

Special to the Review.

Vienna, Oct. 25.—Great uneasiness is felt to-day concerning the state of Emperor Francis Joseph's health. All engagements have been cancelled and the Emperor is under the care of his physicians.

MR. FIELDING WILL TAKE THE LEADERSHIP OF THE LIBERALS

Father of Reciprocity Pact Comes Into Prominence Again After the Failure of the Graham Boom—Two Sessions Before and After Christmas Are Posible Now — Sproule to Rearrange Rooms.

Ottawa, Oct. 25.—The mantle of Opposition leader may after all adorn the shoulders of Hon. W. S. Fielding. The Graham boom has flattened out during the last few days, the Liberal effort to obtain an acclamation for the ex-Minister of Railways in return for acclamations for the Ontario Ministers, having been so far unsuccessful.

Mr. Fielding, on the other hand, might not be opposed in Yarmouth, and could come back in time for the second session. B. B. Low, who won the Yarmouth seat, cannot resign till there is a Speaker, and even then the writ might not be issued at once.

There is no certainty yet as to the duration of the session. The probabilities are for a short session before Christmas, and another beginning in the spring, but many Ministers prefer a session extending into the new year, after which a comprehensive legislative program could be arranged.

R. B. Bennett of Calgary will move the address in reply to the speech from the throne, seconded by Arthur Sevingy of Dorchester.

Dr. Sproule, the new Speaker, comes to Ottawa to-day and will superintend the general re-arrangement of rooms, etc. An army of charwomen has been turned loose in the House of Commons.

A Cabinet Council was held yesterday, presided over by Hon. George E. Foster. No appointments were made.

Seat For White.

Brockville, Oct. 25.—The Recorder (Liberal) last night published a special from Delta, the centre of Leeds County, represented by George Taylor, M.P., stating that Mr. Taylor was there Monday and endeavoring to get a requisition signed by the members of the executive of his riding giving him permission to resign his seat in favor of Hon. W. L. White. The document was signed by the executive for Bastard and Burgess Townships.

It is said that Mr. Taylor will be called to the Senate, hence the reason for his resignation. The despatch concludes: "The Conservatives in this district say that the cabal to slate Taylor and make his seat easy for White will have a decided bearing on the chances of Mr. Dargavel for the Provincial House, aside even from the difficulties he has now in making the convention sure."

NO BOUQUETS FOR POLE DISCOVERER

Cook Didn't Remain Long With Copenhagen People

Special to the Review.

Copenhagen, Oct. 25.—Much upset by the unfavorable reception given them, Dr. Cook and his wife left to-day for Berlin. The police were kept busy saving Cook from acts of violence. Two years ago when he returned to Copenhagen with the story that he had discovered the North Pole Cook was enthusiastically welcomed. He says he has given up his projected European lecture tour.

PROBABILITIES

Southerly winds, fair to-day, showers to-night. Thursday, strong north westerly winds and becoming colder.

GEORGE TAYLOR, M.P., of Leeds, whose seat will be taken by Hon W. T. White, Mr. Taylor to go to the Senate.

M.P. KILLED BY OWN HAND

British Unionist Cut His Throat in London

Had Taken Considerable Part in African Work

London, Oct. 25.—Alfred Peter Hillier, Unionist member of Parliament for the North Division of Hertfordshire committed suicide by cutting his throat yesterday.

He was associated with John Hays Hammond and Dr. Jameson in the organization of the raid on the Transvaal, was president of the South Africa Medical Congress in 1893, and a member of the International Committee for the Prevention of Tuberculosis.

Alfred Peter Hillier, B.A., M.D., C.B., physician, retired, was elected to Parliament in 1910. He was consulting physician of the London open air sanitarium, and a councillor of the Royal Colonial Institute. Born in 1858, he was educated at Edinburgh University. In the Kaffir war of 1878-9, he served as a trooper. He was a member of the Reform Committee, Johannesburg, and was a political prisoner in Pretoria, 1895-6. He was nominated by the Prince of Wales as a delegate to the National Association for the Prevention of Tuberculosis in Berlin in 1899, and was the author of several books on medical subjects and relating to South Africa. Deceased was married, with a son and two daughters.

Against Church Union.

Montreal, Oct. 25.—When the subject of church union was discussed in the Baptist Convention of Ontario and Quebec last evening, the entire expression of opinion was against considering any amalgamation with sister churches, the general trend of argument being that union would mean complete surrender of the tenets and principles for which the church has stood in the four centuries of its existence.

ONTARIO GOVERNMENT LIKES SUTHERLAND'S NEWEST SCHEME

Register All Chinamen

Washington, Oct. 25.—Commissioner-General of Immigration Keefe, in his annual report, lays special stress on Chinese immigration. Most of the Celestials are coming over the Canadian border. Owing to the length of the border, it is impossible for agents to keep these activities within bounds.

Last year more than 6,000 Chinamen landed in Canada and a great percentage of these have entered the United States. The ease with which Chinamen can get into the United States from Canada has caused an increase of more than 100 per cent. in number of immigrants, who have entered the Dominion within the past five years. Canadian statistics give 22,000 Chinamen residents, although it's known that two or three times that number have entered the country in the past decade.

Keefe will advise Secretary Nagel that the only way to handle the Chinese situation is to register all Celestials now in this country, irrespective of the manner of their entry, and to allow them all to stay here. He will suggest that Congress then pass a law that every Chinaman found without registration papers be deported.

Sir James Gives Warm Endorsation to the Duke's Plan for Immigration.

Toronto, Oct. 25.—Sir James Whitney is entirely in accord with the Duke of Sutherland's plan to bring out a large number of agricultural laborers from England and Scotland to the farms of Canada.

Yeserday the duke held a conference with Sir James and the other Cabinet Ministers, and he explained the proposal and outlined it in a general way. His grace is following this procedure in his tour all through Canada, making it a point to explain his scheme to each of the Provincial Governments, as well as to individuals to see if they are in sympathy with the purpose in view.

After the conference was over, Sir James told the newspapermen that he and his confreres were unanimous in endorsing the scheme proposed.

"It is very praiseworthy," said he, "and we told the Duke of Sutherland that when the project is got into concrete form the Government of Ontario would help him in every possible way."

Scene from "The White Squaw," which comes to The Grand next Saturday, Oct. 28th, Matinee and evening. Plan open to-morrow morning.

SHOOTING PAINS IN SIDE, ARMS, BACK

Prove the Presence of Rheumatic Virus, Which Is Cured Quickest by Nerviline—Rub It In.

Pains in the muscles, in the sides, the back, the neck, or the chest—they always carry with them great discomfort. If the inflammation is severe the pain will be intense. If allowed to continue they are dangerous. Nothing so quickly cures local inflammation and drives away pain as Nerviline. Nerviline does this because it penetrates so deeply. Nerviline is not only powerful but soothing. By relieving congestion it cures pain. It does this always. It cannot fail because is a true antidote for pain. You can scarcely find anybody that will not tell you wonderful things about the pain-curing power of Nerviline. Remember that there is not an ache or pain that Nerviline will not cure immediately. Nerviline is an anchor of health in every household.

Refuse anything that may be offered you instead of Nerviline which is guaranteed for rheumatism, neuralgia, sciatica, lumbago, and all muscular aches and pains.

Large bottles, 50c; trial size, 25c, at all dealers or The Catarrhozone Company, Kingston, Ont.

NERVILINE
CURES ALL PAIN

The Daily Review

WEDNESDAY, OCT. 25, 1911.

A NEW TROUBLE

There is a new trouble coming for Chief of Police Thompson. It is in the latest ukase of the Window Dressers National organization of the United States. It means at least doubling the police force here, and perhaps a few riots, and it means that the musical comedy business, will fade away to nothing, as far as the bald-headed row is concerned.

It has been the fashion for the window dressers of big, up-to-date stores to use nude and semi-nude dummy figures on which to drape dress goods fit corsets, and display lingerie. There has been some protest even at this from those who do not like to see the art of Nature revealed to the bold gaze of the public. But now the window dressers propose to substitute human models, to use comely maidens for the purpose. So even now, as the fashion may spread to the up-to-date merchants of George street, Chief Thompson is wearing a furrow in his brow thinking how he is to cope with the immense crowds that will block the sidewalks. How can half a dozen policemen, the entire force of the city manage to keep the crowds moving?

The chief is reported to be thinking of hiring a snow plow and running it down the sidewalk occasionally to clear the walk, for, of course no one could stand out in the mud on the George street roadway. But if the human models scantily draped looked half as charming as they do in some of the magazine advertisements, we are afraid that perhaps Chief Thompson and his six trusty stalwarts would be liable to forget to keep the crowds moving.

HANGED IN EFFIGY

The Rev. Clarence V. T. Richeson may be a murderer. Until he is tried the law presumes him to be guiltless. A different stand is taken by certain people in Hyannis, Mass., who hanged him in effigy from a big elm tree which grows before the church where he has ministered. The deacons, seeing the dangling scarecrow decided to leave it there "as a warning to the youth of the town." That is their published reason. If wounded pride had anything to do with their decision they do not say so, says the Toronto Star.

As a matter of fact, people are being hanged in effigy every day, and there is no necessity of going to Hyannis, Mass., to find them; nor, it is imperative to have an elm tree handy when the execution takes place. The essentials consist of one human being to talk and a second to listen. The most guiltless person in the world may thus be not only hanged, but drawn and quartered, in effigy. The effigy itself may be pieced together with a few twisted sentences. It is then ready for execution, and may be hung upon the tree of gossip instanter there to be jeered at and kicked by the rabble who pass by.

Pity for Rev. Clarence V. T. Richeson will be tempered by the knowledge that his own folly contributed to the present situation, even though he be guiltless of murder. Censure of those who hanged his likeness to an elm tree will be tempered by the knowledge that what they did was silly rather than harmful. Far more to be pitied are the men and women who are hanged in effigy by the gossip of their kind, and far more to be censured are the people of evil tongue who delight to make effigies of their fellowmen, to put the rope of scorn about their necks, and leave them swinging in the public gaze. Strange to say, the scandal-makers and the scandal-monger, almost invariably give the same excuse as the deacons at Hyannis. They disguise their tales as a warning to the youth of the town "not that I like to say such things but I really thought you should know."

The man who is hanged in the Hyannis way soon learns of it. But the unfortunate who is executed by the tongue of gossip may find friends growing cold and his fellows shunning his acquaintance without guessing at the reason. For sometimes he does not know that his effigy is hanging to the little scandal-tree around the corner.

COMMISSION GOVERNMENT

In view of the fact that Ald. Edgar proposes to move at the next meeting of the city council that steps be instituted to take a vote of the people on the question of municipal government by commission, the experience of Spokane which has been under commission government for seven months is interesting. From what the Spokane people say, the commission seems to have effected a great reformation in the conduct of civic affairs. But while there may have been this change we must remember that American municipal government is usually honey-combed with graft much more than our own, and while the commission form of government might result in great economies and more business like administration of affairs, commission form of government might not in Canada have the same opportunity for improvement.

Charles M. Fassett, commissioner of public utilities, speaking for the commission, says the people, as a rule, are satisfied with the change, and that it is doubtful if even those who were most active against the present charter would vote to return to the old system. There are some, of course, who honestly believe the old form is better, he added, but the chief opposition to the adoption of the charter and its continuance comes from those whose private selfish interests are being interfered with by the beneficial change in administration introduced by the present government.

Enumerating the chief points of advantage of the commission form of government over the party system, Mr. Fassett says—

"For the first time in its history the community is not disturbed by political wrangling at the city hall. Our commissioners often do not agree on various measures, but differences are soon healed and there is harmony and good feeling between them.

"Each commissioner has charge, under the authority of the whole body, of his departments and the taxpayer knows to whom to apply for his needs. The result is that business is despatched in hours and days, where it formerly required weeks and months.

"Street and other improvements are made for from 20 to 40 per cent. less than in recent years, without reducing the city wage scale, or decreasing our standards of quality. The contractors' ring is broken, and most of our work goes to those who have done the best work in the past. For the first time in our history a contractor has been fined for delaying public work.

"Our tax levy will be the same as last year, notwithstanding a deficit of about $90,000 left by the former government and the settlement of many claims and complications, neglected for years.

"The various departments are being managed with efficiency and common sense. The water department, which has been permitted to run heavily in debt, has been placed upon a business footing, free water has been cut off, the number of meters has been doubled in seven months, wastes have been stopped and an adequate supply of water furnished for all purposes during the hot months, where every year heretofore there has been a famine in certain districts.

"Our streets are well paved and kept clean and sewers are maintained; the health of the city was never so good; public service corporations are encouraged and enforced, when necessary, to give good service; back franchise taxes are collected and the affairs of the city generally are conducted along modern business lines.

"The preferential system of voting, the short ballot and the election of commissioners at large, who select one of their number as mayor, are other features which have strong arguments in their favor. Hereafter, not more than three commissioners will be chosen at any election, giving the voter no excuse for ignorance of the men or their duties. We require a non-partisan affidavit, and restrict the use of money for election purposes to $250 for any candidate.

"By our system of voting the results of the election express the will of the majority much more closely than could be obtained by caucus, convention and ward representation. On the whole, we believe Spokane has the most advanced and characteristic commission charter yet adopted by any city in this or other countries."

EDITORIAL NOTES

Now that the Athletics have made it three straights, the New York restaurants will begin to get back some business.

Kaiser Wilhelm doesn't want a war. That is all very well when Germany sees that it is beaten, and cannot get away with any more bluffs. For Germany to make the announcement before playing its game would be too much to expect.

The Orange lodge officials in Toronto deny that the Orange lodges are going to take any active part in the provincial elections. This is just as well. The bi-lingual question is one on which nearly the whole of Ontario can comfortably unite.

The Toronto Star thinks Mr. Borden would do well to stop the coining of the silver dollars started by the late government. But did the Star criticise the Laurier government for starting this, at the time? Not much. It shut up and merely grinned, to show its pleasure.

The Borden government falls heir to a thirty million dollar surplus on paper, but goodness only knows what the real conditions are. The national debt has been increased four million dollars, in spite of the thirty million surplus.

The Montreal Gazette says that the appointment of Mayor R. W. Leonard to the chairmanship of the National Transcontinental, involves a new departure in the affairs of that "misfortunate" enterprise.

The hydro-electric policy is one that does not alone benefit the Niagara Falls section of the province. The hydro-electric commission is anxious to help Peterborough as far as can be done, and if there has been no benefit to the city to date through the hydro-electric reports and opinions, and Hon. Adam Beck's visits, it is not the fault of the commission or the Whitney government.

Only under the American judicial system could there be such a monstrous farce as the McNamara trial is going to become. Fancy taking two months to get a jury! In Canada the thing would be done in two hours. As in Canadian procedure, counsel for either side should be limited as to rejections, making it impossible to call more than two dozen talesmen to get a jury.

MUCH RELIEF IN RHEUMATISM

IN ONE BOX OF GIN PILLS

Thousands of people have tested Gin Pills in thousands of cases of Painful or Suppressed Urine, Backache, Aching Legs and Shoulders, Pain through the Hips, Rheumatism and Lumbago. Here is a case of one cure—out of thousands.

NEWBURGH, ONT.

"My father had been troubled with Rheumatism for a number of years. He tried two doctors but got no relief, when a friend advised him to try Gin Pills. He purchased a box and after taking Gin Pills for a week, found that they were giving him much relief. He then bought three more boxes, which were the means of curing him. He is now a strong man—in good health—and able to attend to his daily work."

ALEX. MOORE.

If you suffer, get Gin Pills and be free of pain this winter. 50c. a box, 6 for $2.50. Sample free if you write National Drug & Chemical Co. of Canada, Limited, Dept. B Toronto. 94

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

THE MARKETS

Latest Quotations in Grain Dairy Products, Live Stock Etc.

CHICAGO, Oct. 24.—Shutting down of flour mills at Minneapolis to-day acted as a wet blanket on the market for wheat. Notwithstanding big cash sales of the cereal, closing figures were a shade to ⅛c to ⅜c lower than last night. Corn finished ⅛c to ¼c higher; oats unchanged to ⅛c to ⅜c up, and hog products varying from an unaltered level to 10c to 12½c decline.

The Liverpool market closed to-day ⅜d to ½d lower than yesterday on wheat, and ⅜d lower on corn. Antwerp closed ⅜c lower, Berlin ⅜c lower, Paris ⅛c to ⅜c lower, and Budapest ⅜c lower.

Liverpool Grain Prices.

LIVERPOOL, Oct. 24.—Closing—Wheat—Spot nominal. Futures weak; Dec. 7s 6¼d, March 7s 5⅛d, May 7s 5⅛d.

Corn—Spot steady; American mixed, 6s 5½d. Futures steady; Jan. 5s 9⅛d, Feb. 5s 9¼d.

Flour—Winter patents, 29s 3d.

Hops—In London, £10 10s to £11.

Montreal Grain and Produce.

MONTREAL, Oct. 24.—Business in Manitoba spring wheat over the cable was very quiet, owing to the fact that the demand was poorer, and bids in most cases out of line. The local market for American corn is much stronger, owing to the small supply, and prices have advanced. Oats are quiet, but firm. A good trade is passing in flour for local and country account, but the export demand is quiet. There continues to be a good enquiry for bran for export account. Cheese is quiet, and butter fairly active.

CATTLE MARKETS.

Toronto Live Stock.

TORONTO, Oct. 24.—The railways reported 78 carloads of live stock at the City Yards, consisting of 1177 cattle, 1189 hogs, 1669 sheep and lambs, 116 calves and 3 horses.

Butchers.

Geo. Rowntree bought 200 cattle for the Harris Abattoir Co. as follows: Butchers' steers and heifers at $5 to $6; cows, $3 to $5; bulls, $3 to $4.25; Canners and cutters, $1.50 to $2.75.

Stockers and Feeders.

Feeders, 950 to 1100 lbs., sold at $4.60 to $5.10; feeders, 800 to 925 lbs., at $4.25 to $4.50; stockers, 500 to 750 lbs., at $3.50 to $4.

Milkers and Springers.

Receipts of milkers and springers were moderate with prices high for choice quality. Good to choice cows sold at $60 to $80 each, and common to medium, $40 to $50 each. See sales given.

Veal Calves.

Prices for veal calves ranged from $4 to $8 per cwt.

Sheep and Lambs.

Receipts of sheep and lambs were liberal, with prices about steady. Sheep, ewes, sold at $3.50 to $4; rams, at $3 per cwt.; lambs, $5.25 to $5.60 per cwt.; selected lots, of ewes and wethers sold at $5.65.

Hogs.

Mr. Harris quoted selects at $6 fed and watered, and $5.75 to drovers, for hogs f.o.b. cars at country points. Occasionally 10c to 15c per cwt. more was paid for extra choice lots.

East Buffalo Cattle Market.

EAST BUFFALO, Oct. 24.—Cattle—Receipts, 200; market slow, steady; prime steers, $7.25 to $7.65; butcher grades, $3 to $6.25.

Calves—Receipts, 200; market active, steady; cull to choice, $7.75 to $9.25.

Sheep and Lambs—Receipts, 4400; market slow, steady; choice lambs, $6.25 to $6.35; cull to fair, $4.50 to $6; yearlings, $4 to $4.25; sheep, $1.50 to $3.85.

Hogs—Receipts, 4280; market slow, 10c lower; yorkers, $6.60 to $6.65; stags, $5 to $5.50; pigs, $6; mixed, $6.70; heavy, $6.60; roughs, $5.50 to $5.85.

New York Live Stock.

NEW YORK, Oct. 24.—Beeves—Receipts 235 head. No trading to-day. Feeling weak.

Calves—Receipts 735; market quiet but steady. Veals, $6 to $10; culls, $3.50 to $5; grassers and westerns, $4.25 to $4.50.

Sheep and lambs—Receipts 4008 head. Sheep steady; best lambs, steady; others slow and lower: Sheep, $3.25 to $4; culls, $2; lambs, $5 to $6.00; culls, $4 to $4.75.

Hogs—Receipts 4891 head; nominally lower; heavy to light, $6.60 to $6.85; pigs, $6.25 to $6.40.

Chicago Live Stock.

CHICAGO, Oct. 24.—Hogs—Receipts, 25,000; market slow; mixed and butchers, $6.05 to $6.60; good, heavy, $6.20 to $6.60; rough, heavy, $5.95 to $6.20; light, $6.25 to $6.65; pigs, $3.50 to $5.85.

Cattle—Receipts, 16,000; market weak; beeves, $4.70 to $8.75; cows and heifers, $2 to $6; stockers and feeders, $3.25 to $7; Texans, $4 to $6.

Calves, $5 to $9.

Sheep and Lambs—Receipts, 30,000; market steady; native, $2.35 to $3.75; western, $2.60 to $3.85; lambs, $4 to $5.10; western, $4 to $5.10.

May Be Rev. Dr. Burke.

Toronto, Oct. 25.—A rumor was in circulation yesterday in Roman Catholic circles that the Rev. Dr. Burke, president of the Catholic Church Extension and editor of the Catholic Register, would be the next Archbishop of Toronto. The leaders of the church in the city stated that they had not been advised that such was the case.

"Rev. Dr. Burke's recent visit to Rome might mean something," was the way one of the fathers of the church viewed it.

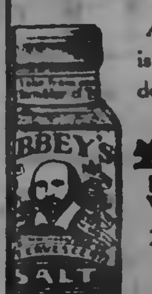
Earl Grey Gets K.C.G.B.

London, Oct. 25.—Earl Grey on his return to this country had an audience with His Majesty the King.

His Majesty was graciously pleased to confer on the ex-Governor-General of the Dominion of Canada the decoration of a Knight Grand Cross of the Most Honorable Order of the Bath.

Snow Around Cobalt.

Cobalt, Oct. 25.—The rainfall in the Temiskaming district during the week ending Monday night was 2.34 inches. Two inches of snow fell during Monday night.



A bottle of prevention is better than a deranged stomach.

Peerless Peninsular

A CAST IRON RANGE WITH MODERN OVEN AND EQUIPMENT

A wealthy mustard manufacturer once said that he made his profit not out of what people ate, but what they left on their plates.

The coal dealer might say about the same thing.

It's not the coal you use that buys his six-cylinder car, but the coal that goes up the chimney.

You might as well save some of that coal.

Building ranges to cook well and to save coal has kept us thinking and working over in Preston for upwards of 50 years. Every year improvements in range construction have been made. The flues have been widened here; a wall made thicker there; weight reduced in one spot and added to another. But every change has made the oven heat with less fuel and the construction of the range strong and durable.

Nickel ornaments, special features or size do not affect the internal construction or honest materials and workmanship that go into the "Peninsular." So that when buying one, a housewife may feel free to consult her own tastes as regards finish and appearance. If the range is "Peninsular" she will know that it will give her good bakings for the least amount of coal.

The PEERLESS is a *modern* cast-iron range—it has a quick oven—an oven that heats evenly on every side, top and bottom—a square oven big enough to cook four pies at once; and it has a drop-oven door, which is not usual on a cast-iron range.

The PEERLESS Peninsular may be had with a steel warming closet and hot water reservoir and with a low closet under the oven for pots, pans and irons.

The PEERLESS Peninsular is a perfect beauty and has many a convenience not found on other ranges.

Take the top of the Peerless Peninsular.

It is made in three separate sections which slide along or lift out whenever you want to clean the flues.

In most ranges the oven is either "on" or "off." That is, it is getting full heat or none at all. The Peerless Peninsular oven is regulated by means of a sliding damper so as to get just as much heat as you need. This is another way you save fuel.

Get "The Cost"

"THE COST of a Range" tells more about these Peninsular Ranges—not a list of pictures and prices, but a book showing that the after-cost is the big cost and how the "Peninsular" cuts it down.

Yours, for the asking.

MEXICO IN '42

By D. Lewis

CHAPTER XXV.
A Mysterious Missive.

"Oh! Isabel! To think of it! In the chain-gang—in the sewers!" exclaimed Luisa Valverde, half addressing herself to the Condesa Almonte, in her father's house again, to which they had just returned from the ceremony of the procession.

Ah, yes!" sighed the countess, "to think of it, and fearful it is to think of. I understand things better now. Ruperto is indeed in danger—more than I believed this morning. And Florencio, too. I could read his death in the eyes of Don Carlos Santander, and one told me the Texans are all to be shot!"

"Oh, Isabel, do not say that! If they kill him, they may kill me! The man I love!"

"It's no use repining," said Isabel, showing spirit. "Something else should be done now—another effort made—this time with money; no matter how much it takes. Yes, Luisa, we must act."

"I want to act," rejoined the other, "only tell me how!"

"My dear, is there in your service one we may implicitly trust?"

"Jose. You know we can trust him."

"True. But he won't do for the first step to be taken, which is, indeed, only to deliver a letter. But it needs being adroitly done, and a woman will be the better for that something else, at the same time."

"Would Pepita do?"

"You mean the little mestiza who was with you at New Orleans?"

"The same. She's all that, and, besides, devoted to me."

Don Ignacio's daughter had reason to know this, from experience in the Casa de Calvo, in which Pepita had played a part.

"She'll do," said the countess; "the very individual—from what I've seen of her. Give me pen, ink and paper—quick! At the same time summon Pepita!"

The countess was now all action and, responding to her roused energies, the other rushed towards the bell pull and gave it two or three vigorous jerks.

While waiting for the bell to be answered, the countess hastily scribbled some words on a sheet of paper, which she folded without putting into an envelope; instead, twisted it between her fingers, as if dissatisfied with what she had written and designed cancelling it. Far from this her intention, as was soon made manifest.

"Pepita," she said to the girl, who had answered the bell herself, "your mistress tells me you can be trusted on a matter which calls not only for confidence, but cleverness. Is that so?"

"I can't promise the cleverness, your ladyship, but for the other, I think the Dona Luisa knows she can rely on me."

"You'd be good at delivering a letter without letting all the world into the secret, I suppose?"

"I'll do my best, your ladyship, if Duena command it."

"Yes, I wish it, Pepita," interposed Luisa.

"Very well, senorita. Into whose hands is it to be put?"

Though speaking direct to her own mistress, the question was more meant for the countess, between whose fingers and thumb she saw the thing she was to take charge of.

The answer to her query called for some consideration. The note was for Ruperto Rivas, but the girl knew him not; so how could she give it to him?"

In this case Dona Luisa was the first to see a way out of it, saying in a whisper:

"Let her give it to Florencio; she knows him and he can——"

"How wonderfully wise you are, my dear," exclaimed the countess, interrupting. "The very thing! And it never occurred to me!"

Before leaving the room Pepita received full instructions where to find "Don Florencio," and when found what she was to do and say to him.

More difficult was the commission to be instrusted to Jose—more dangerous, too. But it was made known to him in less than 20 minutes after, receiving his ready assent to its execution—though it should cost him his life, as he said. One motive for his agreeing to undergo the danger was devotion to his young mistress; another to stand well with Pepita, who had a power over him, and as be knew had entered upon her part with an ardent alacrity. But there was a third stimulus to keep up his courage, should it feel like failing—this having to do with the countess. Drawing out her beautiful gold watch—good value for $100, and holding it up before his eyes, she said:

"That's your reward, Jose; that or its worth in money."

No need saying more. For the commission he was to execute much preparation was to be made, in all haste, too. And in all haste he set to making it—determined to win the watch.

CHAPTER XXVI.
The Play of Eyes.

For nearly another hour the work went on, though not so regularly as before. The stream of returning sightseers still lined the footwalks, many of them intoxicated. Some stopped to fraternize with the soldiers, extending hospitality to them in the shape of treats; sentry after sentry stealing away from his post after the proffered and covted toothful. Nor was Dominguez an exception, he too every now and then made hurried visits to the dramshop.

All this gave the scavengers license of spech, with some liberty of action, or rather rest from their disagreeable task. And in the interval, while they were thus idling, the young Irishman noticed that the eyes of his chain companion were kept continuously on the footwalks, now on one side, now on the other, his face towards the Plaza Grande—as though he expected to see some one coming that way. Kearney himself was regarding the people who came along—but only from curiosity—when his attention was more particularly drawn to one who had come to a stop on the sidewalk nearly opposite. This was a girl of rather diminutive stature. Her face was hidden, one eye only being visible through a little loop in her folded scarf, which was kept open by the hand that held it. The girl had drawn up in front of a jeweler's window, as though to feast that eye on the pretty things therein displayed. Just as his eye happened to light upon her, he saw that hers—literally a single one—was fixed upon him, regarding him in a way altogether different from that which might be expected on the part of a chance stranger. Her attitude, too, was odd. Though facing nearly square to the shop window and pretending to look into it, her head was slightly turned and the eyes surely on him.

At first he was puzzled to make out what it could mean and why the girl should be taking such an interest in him. Then all became clear, for the girl, seeing she had caught his attention, relaxed her clasp upon the scarf, partially exposing her face and the other eye.

Kearney needed not seeing the whole of it for recognition now. Well remembered he those features pretty in spite of the dark skin—he had often seen wreathed with pleasant smiles, as their owner used to open the door for him in the Casa de Calvo in New Orleans.

CHAPTER XXVII.
A Letter Dexterously Delivered.

Pepita it was, though in a different style of dress to what he had been accustomed to see her in, as at New Orleans she had not kept to her national costume. Beside, there was a look of shabbiness about her present attire, and then the shoeless feet!

Just then he observed a slight tremor of her head and with a sudden movement of the hand which seemed to say, "No, don't speak in language, so well understood in her country.

So restrained, he kept silent; to see her now glance furtively around, as if to make sure no one else was observing her. She had again closed the scarf over her face, but in the hand that held it under her chin something white—a piece of paper he supposed—appeared; just for one instant, then was drawn under. Another significant look accompanied this gesture, saying plain as word could speak it:

"You see what I've got for you; leave the action all to me."

He did, for he could not do otherwise; he was fixed to this spot, she foot free. And the use she now made of this freedom was to walk straight out into the street, though not as coming to him; instead, her steps, as her eyes were directed towards Cris Rock and the hunchback, who were at work some paces further on. She seemed bent on making a closer inspection of the odd pair, nor would any one suppose she had other object in crossing over to them.

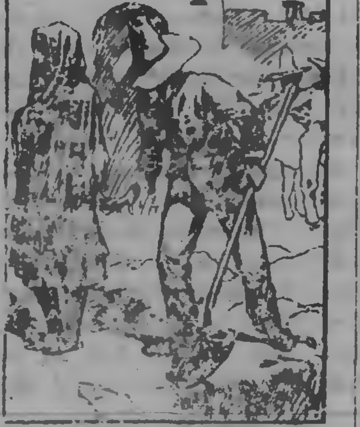
"How strange!" she exclaimed aloud, brushing past the young Irishman and stopping with her eyes bent wonderingly on the queer couple; then aside, sotto voce, to Kearney, whom she had managed to place close behind her, apparently unconscious of his being there—"A note, Don Florencio—not for you—for the Senor Rivas—you can give it him—I dare'nt. Try to take it out of my hand without being seen."

While she was speaking the crumpled sheet had passed through the fringe of the scarf, out of her fingers into those of "Don Florencio," who had bent him to his work bringing his hand to the right place for the transfer.

Her errand, thus accomplished, with another wondering look at the giant and dwarf, Pepita turned back to the sidewalk. But before passing Kearney she managed to say something more to him.

"Carriage will come along soon—two ladies in it—one you know—one dear to you as you to her."

Sweet words to him, though muttered, and he thanked her who spoke them—in his heart. He dared not speak his thanks, even in a whisper; he was already too far off, tripping back to the flagged footwalk, along which she turned, soon to disappear from his sight.



HE CRUMPLED SHEET HAD PASSED THROUGH THE FRINGE ON HER SCARF.

What she had said about the coming of a carriage was to Kearney not altogether intelligible. But, no doubt, the note, now concealed inside his shirt bosom would clear that up, and the next step was to hand it over to whom it was intended

CRIPPLED BY RHEUMATISM AND KIDNEY TROUBLE 10 YEARS!

Morriscy's No. 7 Cured him. Other Doctors unable to help.

RANDOLPH, MASS., May 15, 1911.

"I suffered from Rheumatism for the last ten years, and at the suggestion of a friend I decided to try your No. 7 Tablets. Before I had taken one dozen I could notice a change—and as I always had a bad pain across my kidneys I found to my great delight the pain was gone by the time I had finished the first box. I used several boxes, and my Rheumatism gradually left me. I gave a box to a friend to try, and he is getting well very fast. No. 7 is a Great Remedy, and was the only thing that would help me. However, before using it I had tried everything I ever heard of, besides several good doctors, and all without success. I hope every sufferer will read of my cure, and try No. 7 if they want quick and sure relief."

John P. Hanley,
General Merchant.

The above prescription is not a "Cure-All" or so-called patent medicine. Dr. Morriscy prescribed it for 41 years, and it cured thousands after other doctors failed

Price, 50c. per box at your dealers, or Father Morriscy Medicine Co., Limited, Montreal. 202

SPORT COLUMN.

BOXING TO LEARN SINGING.

Welshman Whose Tenor Voice Equals His Boxing.

You've heard that threadbare expression, "playing both ends against the middle?" Well, what do you think of a boy who aspires to a musical education, following the prize ring to get the money that will make him a second Caruso?

You can't beat that, can you?

The boy working the duet is Fred Dyer of Cardiff, Wales. He says he is a better singer than he is a fighter and if this is true he must be a marvel, for he is one of the best lightweights in the British empire.

Dyer's specialty is to beat his man and then, with chest heaving from the exertion and pursuant to shouts of "Thora! Thora!" he sings in a clear tenor the song the London fight-loving public has taken to.

Sometimes Dyer sings with a lip split, or his nose swollen or one of his eyes blackened. Such things don't interfere. He gets double pay for his singing act.

Dyer whipped every lightweight in Cardiff before going to London and between battles sang in the choir of the biggest church in the Welch city. His stay in London has been an unbroken string of victories. He expects to sail for the United States soon.

The boy has been doing concert work in the fashionable West-end.

Dyer says singing helps his fighting and that fighting helps his singing.

FITZMONNS FOUGHT MEN WHO RUSHED HIM.

But Jim Corbett Used to Keep Him Guessing.

Bob Fitzsimmons says he always could beat a man quickly who would rush at him. The fellows who knew how to feint and step around were the ones that bothered him most—that is, they lasted longer against him than the sluggers. For instance, Tom Sharkey was always easy for Bob because he went in and tried to rush Bob all around the ring. But men like Jim Hall and Jack Dempsey and Jim Corbett made it more troublesome for the lanky fellow, says W. C. Kelly in the Cleveland Leader.

"It made no difference how hard they could hit if they would come tearing in I liked them," said Bob last night. "I knew the moment I squared off in front of Sharkey that I would beat him just when I got ready to do it. He was a powerful fellow, but every time he rushed he left himself wide open, and all I had to do was to shoot out one fist or the other. He went down when he got it on the right spot.

"I had some trouble finding Jim Corbett, for he was the shiftiest fellow who ever pulled on a glove, and he was an adept at the art of feinting. And any man who can feint cleverly can bother any fighter, I don't care how good he is. I had to bide my time and do a lot of thinking before I finally got to Corbett. He was watching my right hand all the time and stepping away every time I moved it.

"Finally, I thought about the shift and then by feinting with the left for one side, and then with the right, he threw up his guard one after the other. The instant he lifted his right arm to protect his jaw, I shifted my right leg in front, and then let go with all my force in the solar plexus, or pit of the stomach. He went down, and the fight was over. If I had missed his stomach he would have got the blow on the chin.

FRENCH POSTAL BANKS.

People of France More Provident than Anglo-Saxons.

The record of the postal savings bank system in France has been one of continued progress. In 1882, when this institution was established, the total number of postal banks in operation was 6024, with 211,580 deposit accounts remaining open at the close of the year. These accounts, including interest due to depositors, amounted to $9,187,116, the average sum of the deposits being $43.41. On December 31, 1909, the latest year for which complete statistics are available, the number of banks had increased by nearly 2,000, the deposit accounts numbered 5,548,882, and the deposits, including interest, represented an aggregate amount of $316,456,866, averaging $37.08.

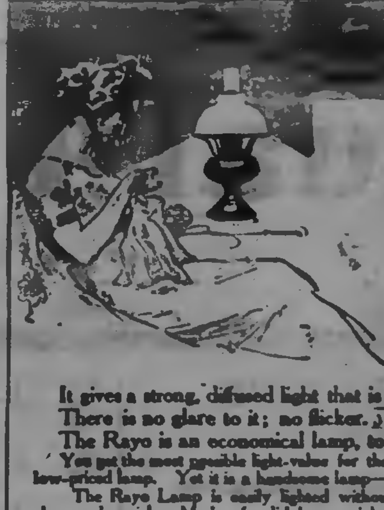
The expenses of administration during 1909 amounted to $1,504,678 and the net profits to $526,786. It may be recalled that individual accounts are limited by law to 1500 francs ($289.50). When an account exceeds this the surplus is invested by the bank in national bonds. The total value of the bonds purchased in 1909 was $2,080,575. The withdrawals, including these purchases, amounted to $104,916,150.

ABOUT COREA.

Corea is the land of queer customs. One is that the children in school use sand boxes instead of slates. They use the difficult Chinese characters and have to learn them as early in life as we do the alphabet. They make the character in the sand with a stick and then shuffle the box and make another.

There are many "little mothers" in Corea, for babies are mostly given over to older girls to be cared for. A broad sash or strip of cloth is tied around the waist of the little mother, and the baby is tucked snugly within its folds. It keeps its place during all the games of the children and seems as contented and happy as possible.

TO CURE A COLD IN ONE DAY
Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.



It Never Flickers

The long winter evenings give a woman a splendid chance for sewing or embroidery; but her eyes suffer from the strain unless she has a good light.

The Rayo is the best lamp made.

It gives a strong, diffused light that is remarkably easy to the eyes. There is no glare to it; no flicker. It lights up a whole room. The Rayo is an economical lamp, too.

You get the most possible light-value for the oil burned; and the Rayo itself is a low-priced lamp. Yet it is a handsome lamp—an ornament to any room in the house.

The Rayo Lamp is easily lighted without removing shade or chimney; easy to clean and rewick. Made of solid brass, nickel-plated; also in numerous other styles and finishes.

Ask your dealer to show you his line of Rayo lamps; or write for descriptive circular to any agency of

The Queen City Oil Company, Limited

PETERBOROUGH

IF YOU ARE SICK YOU CONSULT A SPECIALIST

WHY?

Because he has made a special study of the disease you are suffering from, and from the knowledge gained by years of experience knows just what treatment you require.

If you are going into a law-suit, you do the same—consult the best lawyer you can get, and find it cheap in the end.

Now, when you are considering taking Life, Fire or Accident Insurance, do you not think it would pay you to consult one who has had many years experience in that profession, and whose knowledge would be of use to you in enabling you to get the best value for your premiums, with the most liberal policies and absolute guarantees?

If you want what is best in Life, Fire or Accident Insurance, you can get it by calling at, or phoning to

W. H. HILL'S GENERAL INSURANCE AGENCY

Night Classes

— AT THE —

Peterboro' Business College

(FOUNDED 1885.)

Many ambitious young people are taking advantage of the splendid opportunity to improve their education by attending the night classes at the Peterborough Business College. These classes are conducted on Monday, Wednesday and Friday nights, and students receive instruction in any one or all the subject of the Commercial or Stenographic Course. By this method, young people may learn while they earn, and thereby increase their salaries and better their positions without losing time from their work. You may enter any time, but it will be to your advantage to enter now. The cost is small, while the benefit to be derived therein is inestimable.

The Business world is full of opportunities, but the best positions are open only to those who are competent to fill them. By attending Night School at the Peterboro' Business College, you may become competent.

THE CORRECTION OF DEFECTIVE EYESIGHT

It is very important that you have implicit faith in the ability of the Specialist who fits you with Glasses, since there are several important features which must be left solely to his ability and honor.

You cannot possibly appreciate the quality of lenses furnished, and yet on this feature depends the degree of satisfaction to be obtained from the use of glasses. In our Optical work we frequently find people wearing inferior and imperfect lenses, for which they have paid a full price. We will not economize in this department of our business, for we always insist on furnishing the best material at prices that are reasonable.

We believe you will be satisfied with the prices asked in our Optical Department, and know that you will be pleased with the results obtained.

DELEGATES RETURN FROM THE BAPTIST CONVENTION

Local Clergymen Occupied Pulpits of Churches in Montreal

The Peterborough representatives to the Baptist convention held at Montreal for the past week, returned home this morning on the early C.P.R. train. The ministerial representatives were Rev. J. R. Webb, of Murray street church, Rev. W. C. Riddiford, of Park street, and Rev. J. R. Bonner, of Gilmour Memorial church. Other church workers in attendance were Dr. and Mrs. Scott, Mr. and Mrs. R. E. Harding, and Mrs. Wm. Garbitt, Mrs. Darling and Mr. John Riddell.

At the evening service held at Dominion Square Methodist church Sunday Rev. J. R. Webb occupied the pulpit and Rev. W. C. Riddiford preached at the Baptist Tabernacle.

Many important questions came up for consideration at the convention, one of the chief ones being the ratification of the union of the Dominion Board for foreign mission wrok.

The 75th anniversary of the Grande Ligne Missions among the Roman Catholics in Quebec was celebrated and for the first time in the history of the convention a French Canadian in the person of Dr. Terrien, was elected president of the convention.

Church union was discussed, but the convention placed itself on record as not being favorable at the present time for organic union with the other bodies.

LADIES ARRANGE FOR THE ANNUAL C.A.S. TAG DAY

Date is Saturday November 11—More Workers Wanted to Carry on Campaign.

Tag Day, Saturday, November 11. Keep this date in mind and help the ladies when you are tagged.

At the meeting in the City Council chamber, yesterday afternoon, which had a fairly good representation of ladies from the different churches of the city, it was decided to hold the annual Tag Day for the Children's Aid Society as stated above. Mrs. T. F. Matthews presided.

There could have been a larger attendance of ladies, but now that the movement is under headway, no doubt numerous others will rally to give their aid to this very deserving cause.

At the meeting yesterday, those present were allotted areas to be covered on Tag Day and they will receive reinforcements as more workers are added. The system which was so successful last year, will be carried out on Saturday, November 11.

Another meeting will be held in two weeks time.

"We want as many ladies as possible to turn out and help the work this year," said Mr. George Cochrane, agent of the society, this morning."

"They certainly did a grand work last year, and now that the date is announced, and the movement just going, we are sure that this much needed assistance will be given," he remarked.

FOR THE PUBLIC

Lecture at Collegiate Auditorium To-morrow Evening

It is hoped that there will be a large attendance at the Collegiate auditorium to-morrow night, when Hon. Adam Beck, will lecture under the auspices of the Peterboro Health Association.

He is sure to have something of utmost importance to citizens of Peterboro, speaking as he will on a subject such as will be found in tuberculosis. This is the first of a series, which the Association intend to hold this season. The meeting is called for eight o'clock and Mr. W. H. Moore, K. C., will take the chair.

"THE GIRL FROM RECTOR'S"

Theatre-goers are anticipating with a remarkable show of interest the forthcoming production in this city of "The Girl From Rector's," which ran for over three hundred nights at Weber's Music Hall, New York. All box office records were broken during the engagement and the run might have continued indefinitely were it not for the necessity of filling out-of town dates that had been previously made.

"The Girl From Rector's is declared by the Metropolitan critics to be one of the funniest of high class productions made there in many years. The plot deals with the actions of a young society woman of Battle Creek, Mich., who is charitably inclined. She spends most of her time in her own circle at home but her husband, a judge at the Court of Shangai is away for such long periods she decides to go to New York for recreation and rest. She is attracted by the glaring lights at Rector's and there she makes her headquarters. In the course of time she earns the sobriquet of "The Girl From Rector's and on her next visit to Battle Creek she meets at the home of a society friend many of those of the Rector circle. She had been posing as the daughter of a Buffalo man and while "The Girl" in a way, is endeavoring to explain her dual identity complications arise which reveal a series of situations that keep the audience in a roar to the final curtain.

The engagement of "The Girl" here is Thanksgiving Day, Oct. 30, matinee and evening.

A FATAL ACCIDENT

Former Mate of Water Lily Met His Death

Word has been received in the city from Frankford of the death through accident of Rolland Griffin, who was mate on the Water Lily of the Peterborough and Lake Simcoe Navigation company through the past season. His home was in Lakefield and his age about forty-five years.

He left here at the close of the season to accept a position with R. B. Rogers, contractor, at Frankford. His death will be regretted by a large number of friends. "He was one of the best navigators who ever took a boat through Stoney Lake," was the tribute paid the late Mr. Griffin by Mr. Robt. Pinchin, manager of the Peterborough and Lake Simcoe Navigation Co. today. He was courteous to the travelling public and one of the kindest of men."

A Thanksgiving Dinner will be given in the basement of St. James's Church on the night of Oct. 30th, from 6 to 8 o'clock, followed by good programme. Admission 25 cents. 3dwf

WOULDN'T BE GOOD SO HE GOES TO CENTRAL

Local Vag Graduates from County Jail—Got Six Months

A vagrant's journey down the primrose path was given a painful jolt this morning when a six months' term in Central Prison was the sentence dished out to Michael Larone at police court, by Magistrate Dumble. Michael was discovered last night dozing in a shed in the rear of the Snowden House, when a blue coat took him in charge and led him to the shelter of the cells. It was the old story, booze was at the bottom of it all. Although capable of earning good money at his trade as bricklayer, Michael preferred the vagrant's life and Detective Newhall's evidence as to his mode of living was not at any time flattering. His face and general conduct were also well known to the Magistrate.

The evidence was that the prisoner was continually drunk, that he loafed around corners and spent his nights wherever the darkness overtook him.

Once he had a home with his sisters, but his actions forced them to cast him off.

Chief Thompson had also received complaints about the prisoner sleeping in barns, and is determined in every case to bring these nuisances to an end.

Larone spent a term in the county jail for a similar offence this summer.

FIRST MEETING OF LOCAL CENTRE

Royal Astronomical Society of Canada at Collegiate

The local centre of the Royal Astronomical Society opened their season's series of meetings last evening under promising conditions. The attendance was very large and present prospects for a successful and helpful season are very bright.

Mr. H. O. Fiske acted as chairman at the gathering. The meeting opened with an address, or rather an account, given by Mr. Carveth of his observations made with the Toronto telescope, and his description of the sun's spots. His talk was followed by a report from Mr. Richardson of the results of the use of the 3 inch telescope when directed upon the sun, moon, the planet Saturn, Mars and the constellation Pliades.

Rev. Mr. Macleod, of Brighton, who is an ardent member of the local centre, and has been using the Stratton telescope, gave a very faithful account of his explorations by its aid, of the sun and the planets Saturn and Jupiter. H. B. Collier, of Toronto, and a former resident member here, reported through the secretary his observation of Venus and other stars of first magnitude.

The chairman then called on Dr. Marsh, who gave a report of his visit to the American Astronomical Society at Ottawa, also a talk on some spectroscopic work he had been able to see, after which he gave a lecture on introductory topics pertaining to the proper study of the moon; the theories of its origin; its effects on the tides and on the earth's crusts. He explained considerable about lunar landscape, and his remarks throughout were received with good attention. An opportunity was given at its completion for questions to be asked and answered.

The names of two citizens present were received, who evinced a wish to join the society, namely, Messrs. H. Pearson and James Frowde.

NA-DRU-CO
COD LIVER OIL PREPARATION
NATIONAL DRUG AND CHEMICAL CO. of Canada, Limited

NA-DRU-CO Tasteless Cod Liver Oil Compound

There is no question as to the very high value of Cod Liver Oil, properly prepared and made digestible, as a "builder-up" for convalescents or those who are run-down.

Na-Dru-Co Tasteless Compound contains the valuable properties of the Cod Liver Oil without its disagreeable flavor. In fact, this preparation is decidedly pleasant to the taste. With Extract of Malt, Extract of Wild Cherry, and Hypophosphites of Lime, Soda, Potassium, Manganese and Iron added, it makes a combination that puts an edge on the appetite—aids digestion—invigorates the nerves—relieves and helps to cure affections of the throat and lungs—and generally builds up strength and restores health.

For puny, delicate children there is probably no better "builder-up" than Na-Dru-Co Tasteless Cod Liver Oil Compound. 102

RENT VALLEY LEAGUE TALK

w About Local Team for League Grouping

everal local hockey enthusiasts are ussating themselves the question of esenting Peterboro in a grouping the Trent Valley League this sea- and intend to take up the matter th the officials of that organization. hose good hockey was played here en the old T.A.B. seven, with Bill ley, Billy George, Wallie Parnell orge Lynch, Bill Meagher, Fred. Grath and Frank McCoy, were do- business at Brock street rink, and ile interest might be lessened by silence of the old boys, still there plenty of youngsters who can drop o their shoes, and make a very cre- able showing. Such a proposition ght be more successful than plac- a septet in the Junior O.H.A. se- . The object being one to de- op material would be attained pro- ly with a greater degree of suc- e, in the event of the Trent Valley ague proposition materializing. akefield, Lindsay, Keene, Norwood Havelock, will likely be communi- ed with for an opinion on the mat- , but meanwhile the proposition is in its infancy.

SPORT TALK

r W.A.B. says: 'The athletes uld try to run the town collectively and get run in. Perhaps they are on suspended sentence or have n ordered to get out of the city.

HOCKEY

anager Fred Dobson with his ationals" is making a bid for the Hockey League, and if reorganiz- n takes place, Fred. will have a nidable seven in line.

he handsome trophy, which is em- natic of the city championship, is present at the National Hotel. an ping for the Strathconas, who won the last series and the Nationals make a strong attempt to have it her there for another season.

RUGBY

Owing to some misunderstanding, the W.E.A.C. rugbyists did not turn out to practice last-night, but every one is wanted out to-night at Central Park, at 7.15 o'clock.

On Thanksgiving Day there will be a game here with the Minto Cup holders and the locals need all the practice there is to be had.

The West Ends will take up the challenge of Manager Gene Hurtubise to play the old boys, and the game will likely take place on Saturday afternoon. Among Manager Hurtubise's stalwarts will be seen "Doc" McPherson, "Chubby" Connors, Dorris, Len Johnston, O'Brien, Meagher and other come-backs.

Several attics throughout the city are being ransacked for relics of the gridiron, which are being hung over the back yard fence to freeze out the moths.

THE MOOSE AND THE LILY PAD

The moose's love for the lily pad that floats on the surface of the northern lakes make him appear reckless and unafraid. In summer, even in September, the fishermen often cut him off from the shore, drive him into deep water and have fun with him. Sometimes, when the moose reaches shoal water and gets his hind feet on the bottom he has fun with the fisherman, smashes his canoe and makes him swim for his life.

However, after the shooting season opens the moose becomes more cautious.

There are thousands of moose around Lake Temagami. At North Bay you change from the Grand Trunk to the Temiskaming and Northern Ontario and get off at Temagami Station.

AT THE TEMPLE

Lecture on Rise and Progress of Salvation Army

A very interesting meeting will be held in the S.A. temple, Simcoe street, to-morrow, Thursday, evening, when Captain Fred Martin, of Toronto, will deliver a lecture on "The Rise and Progress of the Salvation Army." This lecture will be replete with reliable information and statistics regarding this world-wide organization, and a most cordial invitation is extended to the general public to attend. An offering will be taken.

STILL ALIVE AND—

To the Editor of the Review.

Sir,—Mr Stratton is taken his beating like a little boy, who has received a spanking and doesn't like it. Well sir, what is all the kickin' about? He said himself before the election that the men in the companies he belonged to were all kickin' about him being in politics and now he's kickin' because he ain't. We all know he wanted the membership alright, but the people had just got tired. Goodbye! Robert will follow you soon.

Yours,
THE REAL STUFF.

COMES FROM NOVA SCOTIA THIS TIME

Another Splendid Cure by Dodd's Kidney Pills

R. Moulaison, whom two doctors treated, finds relief and permanent cure in Dodd's Kidney Pills.

Surette Island, Yarmouth Co., N.S., Oct. 24.—Special—Mr. Renie Moulaison, a well known resident here, is telling his neighbors of his cure from a severe attack of Kidney Disease which kept him in a state of pain and suspense for two months and defied the efforts of two doctors who were treating him.

"My trouble started with a cold," Mr Moulaison says. "My muscles would cramp and I had backache and dizzy spells, My head ached, and I had a tired, nervous feeling while specks of light flashed in front of my eyes.

"I suffered in this way for over two months and was treated by two doctors, but they didn't seem to be able to do much for me. Then I started to take Dodd's Kidney Pills and they helped me almost at once. Six boxes cured me."

Dodds Kidney Pills always cure the Kidneys. Cured Kidneys strain all the impurities of the blood. That makes pure blood and good health.

BROUGHT BACK FROM TORONTO

Deal in Hay Was Made With Water Street Man

A young man named David Viener was brought to the city last-night by Detective Newhall and arraigned before Police Magistrate Dumble, at police court this morning.

He is wanted here, as noted yesterday, on a charge of false pretense, in connection with the sale of a car load of hay.

The case was not proceeded with this morning, but will come up at three o'clock this afternoon.

Mr. G. N. Gordon has been engaged to conduct the defence of the lad while the crown attorney will act for the crown.

Viener was arrested in Toronto at the request of Chief Thompson, who was informed of the circumstances of the alleged offender.

According to Mr. White, the Water street flour and feed dealer, Viener came to him representing himself as an agent for his father's flour and feed firm of Toronto. Mr. White ordered a car of hay from him for which he says he paid $115. Later it was discovered that the car was the property of another man, so that Mr. White was the loser through the transaction.

WHO'S COMING AND GOING

Mrs. LeBrun and her daughter, Miss Hackett, leave to-morrow morning for Toronto, where they will spend the winter.

Dr. and Mrs. Weston, Milburn, and Master Harold, who have been visiting relatives in the city for the last month, left last evening for their home in Macleod, Alta.

The many friends of Mr. S. J. Stubbs, of the Collegiate Institute staff, will regret to learn that he is seriously ill at his home, Dennistoun Ave.

DISTRICT MEETINGS

St. Andrew's Church to Hold First Meeting To-night

St. Andrew's church will hold the first of their district meetings to-night at 8 o'clock. These meetings will be partly business, partly devotional and partly social. The congregation has been divided into seven districts, and on the last Wednesday evening of the winter months, the mid-week service will not be held in the church but in its place, seven meetings, one in each district, will be conducted.

The districts will be published to-morrow.

MEETING IN ST. ANDREW'S CHURCH TO-MORROW

To-morrow afternoon at three o'clock, there will be a meeting of interest to the Presbyterian women of the city and county of Peterborough The meeting will be held in St. Andrew's church. A Presbyterial Women's Home Missionary Society, for the Presbytery of Peterboro will be organized. There are now fourteen Women's Home Missionary societies and Mission Bands in the Presbytery which feel the need of Presbyterial oversight and encouragement. Mrs. John Somerville of Toronto, the president of the general society will be present to give an address, and officers will be elected.

SERVICES AT KNOX CHURCH

To-night the regular mid-week service is to be held at eight o'clock with a meeting of the Teachers' Training Class at nine o'clock.

Thursday afternoon the thank offering meeting of the Women's Missionary Society of the church will be held in the lecture hall at 3.30 o'clock Mrs. Keith is to give an address and ladies of other congregations are cordially invited to attend.

Thanksgiving services are to be held at the church Sunday. The choir is giving special music and in the evening Mr. H. R. H. Kenner, principal at the Collegiate Institute, will give an address on the "Great Hymns of the Church." during the course of a thanksgiving song service.

CHANGES AT THE GAS PLANT

Enlargements to be Made for Increased Business

Mr. J. H. Munro informed a Review representative to-day that new buildings would be erected at the gas works to replace those now at the rear of the plant and which were recently visited by a fire.

Mr. Munro further stated that the probabilities were that at some future date, a new unit would be installed.

The company must necessarily make some changes to the plant owing to the increased consumption of gas in Peterborough, which is being brought by the new gas mains being constructed to give the service throughout the city.

The new buildings at the gas plant will be of brick and fireproof.

Delegates to Convention

The Springville Presbyterian church congregation has appointed the pastor, Rev. Dr. Marsh, and Mr. H. Clarke, chairman of the Management comittee, as its delegates to the Laymen's Missionary convention to be held in Hamilton November 8, 9 and 10. Mr. Fred Elliot is the delegate from the Christian Endeavor.

Parents Bereaved

William George, the seven months' old child of Mr. and Mrs. William Griffin, 73 Jackson Avenue, succumbed at nine o'clock this morning after a short illness from bronchitis.

The funeral will take place at three o'clock to-morrow afternoon to Little Lake cemetery. Rev. W. C. Riddiford will conduct service at the house at 2.30 p.m.

Sixty-Three Deaths.

Montreal, Oct. 25.—"The drowning accidents in the Lachine Canal are something dreadful to think of, and I have decided to bring up the matter before the Board of Control at once," said Mayor Guerin yesterday. "It is true that the controllers cannot order action to be taken, but what we can do is to go to Ottawa and interview the Government in regard to the matter.

"The stand the controllers will take is that it is criminal negligence that booms do not run along the canal edge so as to give a man a chance to save himself when he falls in the water.

"Only yesterday two bodies were taken from the canal and the usual verdict of accidental death was returned. The verdicts should have been criminal negligence.

"Sixty-three persons have been drowned there during the summer months. This is a most disgraceful condition of affairs. I am positive that with only ordinary precautions many of these lives would have been saved. I feel sure that when the situation is placed before the Ottawa authorities that this condition of affairs will be remedied."

CANADA'S LOVE OF COUNTRY

(Continued from page 1)

lead them into the U. S. A.; recollections of past hard treatment suffered from the U. S. A., and the present great abounding prosperity of the Dominion, all combined to strengthen the national resolve to vote down a policy which, however advantageous to their material interests, was one in which they scented possible danger to their fiscal independence and national autonomy.

"Canadians have shown that love of their country is superior to every other consideration, thereby justifying their belief in the Empire and their coming greatness. To those who do not know the Canadian people as I know them the revelation afforded by the recent elections of the strength, vigor and national sentiment of Canada to convince those already acquainted with the history and character of her people that her attachment to her national institutions and the connection with the Empire is far too deeply rooted ever to be overthrown.

"It may possibly be objected by some people — Quebec, and perhaps other provinces are opposed to participation in the naval defence of the Empire. For the moment that is true, but I honestly believe it is for the moment only. It is my conviction that the reluctance of the French-descended citizens of Quebec is due, not to any lack of appreciation of what the British Empire means to them, but solely to the lack of appreciation of what are the requirements of the Empire, to their exaggerated idea of its omnipotence.

"From the point of self interest there are none other than inhabitants of Quebec who stand to gain more from our naval supremacy. There is no part of the world where the Roman church enjoys equally great privilege as guaranteed to Quebec by the British North American Act. All of these great, free, exceptional privileges were secured to the Roman Catholics of Quebec by the British navy."

Gunboats Have Disappeared.

Hankow, Oct. 24.—(Delay in transmission)—The Imperial gunboats have proceeded down the river and their whereabouts are unknown. The movements of the Imperial forces are a mystery. The revolutionaries believe that the Imperialists have scattered northwards.

The revolutionists have been advancing cautiously and are meeting with only guerilla opposition. Many of the rebels have cut off their queues, indicating that they will win or die.

The city of Ichang, in Hupeh Province, was taken Thursday without a fight. Recruits are flocking to Wuchang.

Passing of the Toll Road.

Brockville, Oct. 25.—The Townships of Elizabethtown and Augusta, through the County Council, is seeking to expropriate from the Lowell Plank road the toll road running from Brockville to Prescott, a distance of twelve miles, on which there are four gates. A board of arbitration commenced the hearing of evidence here yesterday to determine a fair valuation. The road was built in 1851, macadam being used for the first five miles and plank for the remaining seven. After two years the planks became broken, rendering the road so dangerous that the entire distance was made of stone.

It is one of the few remaining highways in these united counties upon which toll is collected.

Cayuga Hotelman Dead.

Cayuga, Oct. 25.—John A. Hoshall, proprietor of the Campbell House and a resident of this village for over fifty years, died yesterday morning. He was a Conservative in politics and a prominent mason. He will be buried on Thursday afternoon with Masonic honors.

When a man lets a woman impose on him, he thinks to himself: "What a perfect gentleman I am!"

A "Happy Thought" in Every Home

We can scarcely hope to accomplish this, but we can let everyone know what a thoroughly good range the Happy Thought is, so that when you are buying one you can recall our statements, see the range for yourself, ask the advice of someone who owns one, and be in a position to select your range with a know- of what a good range should be.

The manufacturers have tried to make the

HAPPY THOUGHT

a satisfactory general purpose range—one that will fulfill the needs of the ordinary household, in the best possible manner.

Those who have used one say that they have succeeded. It bakes and cooks perfectly. It has all the newest labor-saving conveniences, many of them peculiar to itself.

It is a range, the general appearance of which is an ornament to any kitchen.

More than a quarter of a million "Happy Thoughts" are in daily use in Canada.

ARCH. WEIR JAMES O'BRIEN

"FEEBLE STOMACH"

Causes Digestive Weakness and Poisons the Entire System.

"No one can have suffered more than I did with stomach trouble." writes Phil. E. Pascalar, well known at St. Andrews Corners. "My doctor told me my indigestion and sleeplessness were due to poisons in the blood. Certainly my condition was desperate, and it seemed from the despondent feelings that swept over me that I would lose my reason. I happened to read about Dr. Hamilton's Pills and bought five boxes from the druggist. Such body-cleansing pills I never used; they were mild and yet quite strong enough to drive all the humors out of the blood. My stomach gained strength rapidly with Dr. Hamilton's Pills and I improved so much that in eight weeks I could eat and digest all ordinary food. Depression and weariness passed away and I am, thanks to Dr. Hamilton's Pills, enjoying robust good health."

No remedy for biliousness, indigestion, headache, sick stomach, or constipation that compares with Dr. Hamilton's Pills. Refuse substitutes. Sold in 25c boxes. All dealers, or The Catarrhozone Co., Kingston, Ont.

Dr. Hamilton's Pills Cure Stomach Troubles

INDIAN RIVER

Special Correspondence.

Indian River, Oct. 24.—After the cold wet weather at the commencement of the month, the fine weather of late has been greatly appreciated by all. It must be the Indian summer that visits us at this time of year when summer, as though loath to leave us, comes back once more before bidding a final adieu.

Owing to the inclemency of the weather the Baptist social, which was to have taken place on the 6th of October, will be deferred for some time. The 31st of the month was the date set for the second time, but we understand the majority of the populace object to that date, they being alarmed for the safety of their buggies, as this is the time of year when the usually exemplary youths of this part play pranks on their neighbors, and this is also the night when weird, uncanny creatures are supposed to be at large. Some are afraid of an encounter with them on their way home. The social will be held on Nov. 14, it has been decided.

The many friends of Mr. Peter Walker of this village, will undoubtedly be sorry to learn of the accident that befel him when he got his thumb taken off by the sawing machine. Mr. Walker displayed unusual intrepidity by his refusal to take chloroform when having his thumb attended to by the surgeon, who had to scrape the bone and cut away the ragged pieces of flesh that clung to the finger. The doctor reports that though the pain must have been intense, Mr. Walker sat without a murmur, even attempting spasmodic efforts to smile, but even a casual observer could not fail to see anguish depicted on every lineament of his countenance. Such heroism is well worthy of comment.

Mr. and Mrs. Ernest Evans, Miss Mary Elmhurst and Mr. Richard Elmhurst, who went on a trip to the west about two months ago, have now returned to their home here. All speak very highly of the western country.

Mrs James Hall and Mrs. W. H Borland, both of this village, were in Peterborough last week.

All the business men of Indian River closed their doors, gave their employes a holiday Norwood fair day and went to the show.

Messrs. Albert and Charley Elmhurst are very profitably employing their time, at least the nocturnal part of it, in hunting coons.

Messrs. Willie Shearer and Donald Hope attended the "At Home" held at Lang last week.

PLEASANT VALLEY

Some Interesting News From Otonabee Hamlet

Special Correspondence.

Pleasant Valley, Oct. 24.—Miss Lillie Crowley, Otonabee, spent a few days with Mrs. William Collins, East City.

Miss Julian Gillespie, Otonabee, and Mrs. James Rose, of Cold Springs, attended the Norwood Fair.

Miss Ethel Richardson, of the city, was visiting the Misses Gillespie, of "The Maples," Otonabee.

Mr. and Mrs Richard Thompson and children spent Sunday with friends in the city.

Mr. and Mrs. George Gillespie and children, of East City, spent Sunday with the former's parents in Otonabee.

The friends of Mr. Frank McKeegan will be sorry to learn he is laid up with a sprained side.

Many old friends in Otonabee attended the funeral of the late Robert Hallahan, which took place in Peterborough last week. He was an old Otonabee boy.

Friends of Mr David Thompson will be pleased to hear that he is progressing favorably, and with the care of his skilful physician and the hospital nursing staff, we expect to see him around in a short time.

Most farmers in this locality are very busy just now, some getting land ready for next year's crop, others storing away roots, filling silos, threshing, and in many different ways preparing for Canadian winter.

JULES MOTOR CO.

Mr. A. W. Taylor reports that the stock of the Jules Motor Co., is selling well, there being now less than 500 shares to be disposed of. The new machinery arrived in the city to-day and men are busily engaged in installing it. Two Guelphites will be elected to the directorate of the concern.—Guelph Herald.

BEAUTIFUL EYES

are made beautiful by long, silky lashes and well defined, lustrous brows. Eyes, like diamonds, depend on their setting. The beauties of the face are lost if the eye brows are thin and scanty, and the lashes are short and lifeless. Parisian Lash Lustre grows beautiful, soft, silky lashes. It has done so for society women throughout Europe, and it comes here well recommended to do the same for you. Parisian Lash Lustre is not a dye or colorator, but a scientific preparation for beautifying the eye lashes and brows. Our guarantee goes with every box of Parisian Lash Lustre. A two weeks' treatment will bring beauty to your eyes that you have never before possessed. By mail, prepaid, in opal boxes, on receipt of price, fifty cents. B. V. Marion, sole distributor, Bridge-

390 WATER STREET, PETERBOROUGH

CAMERON HIGHLANDERS.

The Sergeant's Story.

The Cameron Highlanders fought at Waterloo throughout the three glorious days of June, and they were "particularly mentioned" by Wellington in his famous despatch of June 19, addressed to Lord Bathurst. Fortunate in their opportunities, they have been fortunate also in winning the praise of poets. Byron, in "Childe Harold," has consecrated their immortality in a famous stanza:—

And wild and high the "Cameron's gathering" rose.

Here sounds the high note of romance, and bravely the Highlanders could echo it. But war does not always rest at the lofty plane of glory, and we can sometimes realise it most clearly in homelier touches.

After the battle it is said that the 79th stripped the cuirasses off the dead Frenchmen and used them for cooking its rations. They were good enough frying-pans, though the bullet-holes let something escape. But some Belgian soldiers who passed by while the cooking was in progress, and seeing the cuirasses, went off with the legend that the Highlanders were cannibals, and no doubt the legand, which it is a pity to disturb, is repeated unto this day.

One other piece of comedy is worth remembrance. When the allied armies were in Paris Sergeant Campbell of the 79th was taken with others to the Elysee to be shown to the Emperor Alexander, and it is thus that he tells the tale himself. "The Emperor made a very minute inspection of us," he writes, "and his curiosity led him to call upon me, as being the most robust of the party, to step to the front. . . . As soon as I stepped to the front I was surrounded by the astonished nobility, and the emperor commenced his inspection and questions as follows:—First, he examined my appointments and drew my sword..... Second, he examined my hose, gaiters, legs, and pinched my skin, thinking I wore something under my kilt, and had the curiosity to lift my kilt up to my navel, so that he might not be deceived. The questions were:—If I was present at the actions of June 16, 17, and 18? How many officers and men the regiment lost? . . Whether I was in Egypt? If I wore the kilt in winter, or if I did not feel cold in that season? If I was married? If my parents were alive?" Thus it was that the Highlanders seemed beyond the general experience of mankind.

LONGING EYES

The American Farmer Looking to the Canadian Market

The home market is taking eighty per cent of the produce of the Canadian farms at good prices.

The demand of this market is increasing and it will continue to increase as th country grows.

It has the advantage of nearness stability, cheapness of transportation and quickness of returns.

The Canadian farmer is familiar with its conditions and requirements.

And yet, withal, the Canadian farmer is inclined to look beyond this market with longing eyes to the market of the United tSates, forgetting, perhaps, that the United States farmer is looking with just as longing eyes at the Canadian market.

There are at least twelve farmers in the United Stats looking longingly at the Canadian market to one farmer in Canada looking at the United States market.

Let us remember that there are at least twelve times as many farmers in the United States as there are in Canada, and so, while one Canadian farmer will get entrance into the markets of the United States, twelve American farmers will get entrance into our home markets. They have already succeeded in selling immense quantities of farm products in Canada, in spite of the duty. They have sold twice as much in Canada as Canadian farmers have sold in the United States.

With reciprocity in farm products the twelve American farmers will crowd the one Canadian farmer pretty closely in his own home market.

The surplus production of the United States farmer would be liable at any time to demoralize the home market of the Canadian farmer.

It will cost the American farmer no more to bring his farm products to Canadian towns and cities than it will cost the Canadian farmer to carry his to the United States.

These American products are pretty well kept out now by the tariff wall. With this removed they will enter twelve to one.

We must remember, too, that the Americans have the earlier season and that their products will therefore be upon our markets before our products are salable and get the early price.

Unappreciated Sympathy.

The Soda-fountain clerk was engaged in vigorously shaking up a chocolate and egg, says a writer in the Bellman, when suddenly the glass broke in his hands, and the ensuing deluge made him look like a human eclair. The horrified customer leaned over the counter and tried to be sympathetic. Not knowing exactly what to say, he finally burted out, consolingly:

"Oh-er-too bad! Did the glass break?"

Dripping from head to foot, the clerk looked at him witheringly.

"Did the glass break?" he repeated "Did the glass break?" And then with freezing sarcasm, "Oh, no, not at all! You just happened to stop in while I was taking my morning shower."

One Way.

"How did you get your husband out to that musicale last night?"

"Told him there was going to be a lunch afterward."

THE NEW C.P.R. EASTERN TERMINAL ON GEORGIAN BAY, AT TORONTO'S BACK DOOR

117 MILES FROM TORONTO

Quietly, and without the knowledge of Toronto people, the Canadian Pacific Railway have been building on the shores of Georgian Bay, at Port McNicoll, what one of their own officials has said will be the LARGEST TERMINAL on their system. For months the work of creating a new shipping port has been going on. Seven Million Dollars have already been spent, ten millions will be spent. Grain elevators are now being erected, freight sheds provided and a city is in the making.

We have in our offices maps and photos showing the immensity of the work being so rapidly pushed to completion by the C. P. R. We ask you to call and look these over—it will pay you. We will also show you the best located lots in Port McNicoll. Lots that are situated in the heart of the busiest district. We are selling them at a price that will re-imburse you more than four fold. You do not need a heavy cash deposit—and the lots are not high priced.

PORT McNICOLL IS NOW THE TERMINAL OF THE C.P.R., GEORGIAN BAY

All freight and tourist travel is via Port McNicoll. Port McNicoll will have low freight rates. It is the logical point for flour mills, factories and distributing warehouses, and is 134 miles nearer the seaboard than the former Georgian Bay Terminal. Port McNicoll has to-day what many a new town takes 10 years to acquire, namely, sewers and water. History repeats itself. What Fort William, Port Arthur, and Owen Sound are to-day, Port McNicoll will be in a few short months.

WE VENTURE TO SAY THAT

PORT McNICOLL IN 1915 WILL HAVE 15,000 PEOPLE
BUY YOUR LOT TO-DAY
WE HAVE SOLD TO DATE OVER 80 LOTS. PRICES RANGE FROM $175 TO $250. 1-3 CASH

From Owen Sound to Peterboro is about 210 miles. From Port McNicoll to Peterboro about 90 miles or a saving of 120 miles on the haul from Georgian Bay to Montreal and the ocean liners.

Grades out of Owen Sound are heavy. From Port McNicoll to Peterboro a perfect line allows the carrying of 60 cars per train of grain. See this advantage?

The Canadian Pacific Railway directors know all about Port McNicoll. Look out for huge flour mills, for the Lake of the Woods and Ogilvy Flour Companies at Port McNicoll.

Last year the C. P. R. handled over its systems seven and a half million barrels of flour. The export trade is growing. How many million barrels of flour will be handled at Port McNicoll?

Port McNicoll is blessed in every way. Bala Falls is only a few miles away and great power, under the auspices of the C.P.R., will be generated and transmitted to Port McNicoll.

ALLY YOUR DOLLARS WITH PORT McNICOLL AND REAP FOUR-FOLD

OUR GUARANTEE

We guarantee the title to our lots in Port McNicoll to be perfect.

We guarantee to furnish a good and valid deed to each purchaser of a lot or lots in Port McNicoll.

We guarantee to pay all expenses, both for time and money expended if any person who upon investigation finds that we have stated anything in printed literature or written letter materially at variance with the facts in regard to Port McNicoll.

We guarantee to return all money paid to us if conditions are not as represented in our printed matter and written letters.

DO YOU WANT TO KNOW MORE ABOUT PORT McNICOLL? IF YOU DO COME IN AND SEE US. IF YOU LIVE OUT OF TOWN SEND IN THIS COUPON. IT COSTS YOU NOTHING.

J. C. HAYES CO., LIMITED.
154 Bay St., Toronto, Ont.

Kindly let me have further particulars of Port McNicoll without any obligation on my part to buy:—

WEDNESDAY UNTIL SATURDAY, and give all particulars of the proposition. He will be glad to see all who may be interested.

OMEMEE NEWS BUDGET

Special Correspondence.

Omemee, Oct. 23.—The public school held no sessions on Thursday and Friday, the teachers being present at the annual convention at Lindsay. The following teachers from points near town were present at the convention: Misses Balfour, Bannon, Bushnell and McConnell.

Mr T. A. Mitchell, an old resident of Omemee, came down from Toronto, and is renewing old acquaintances.

Mr. H. Beatty, of Welland, ex-manager of the Commercial House, is in town on business.

The anniversary services of the Presbyterian church will be held next Sabbath. The Rev. D. W. Best of St. Andrew's, Beaverton, will preach at 11 a.m. and 7 p.m. There will be special music and a special collection at each service. On Monday evening the story of "Jean Val Jean" will be given by Rev. S. Cleaver, D.D. pastor of Trinity Methodist church Toronto, in the Presbyterian church at 8 p.m. Admission 25 cents Dr. Cleaver has a provincial reputation as a lecturer, and a rare treat is in store for his audience. Rev. D. W. Best is well known here, having been born in Mount Pleasant, and we bespeak for him large congregations.

Rev. H. D. Currie, pastor, will be in Beaverton on Sabbath, taking Rev. Mr. Best's work.

The Methodist church has withdrawn its morning service to enable its members to attend the Presbyterian anniversary service.

Messrs. S. Thompson, of Peterborough, and J. S. Burnham, of Toronto, were visitors to Omemee on Monday.

The following notice suggests that our new town hall is well on the way to completion. The notice explains itself:—"Don't care whether you are old or young, handsome or otherwise, if you can sing soprano, tenor or bass, you are asked to join the chorus for the opening of the new Omemee town hall. Please send your name to Mr. W. G. Stephenson, secretary. Must start practice soon. Want to get the music."

(Signed)

R. J. MULLIGAN.

Mr. W. J. Woodward, of Cannington, was in town on Tuesday.

The following gentlemen from Toronto made business calls on Wednesday: Messrs. G. Bedell, J. E. Littler, W. H. Paget and W. S. McTavish

Mr. Ed. B. Fielding, of Hamilton, called on friends Thursday.

Mr. Havelock Fee, of Lindsay, was home for over the week-end.

Dr. N. H. Sutton is removing from King street west to George street north, having secured one of the fine new houses owned by Mr. T. J. Parsons, and just recently completed.

On Thursday Messrs. A. Birch and J. Warden, of Toronto, were in town.

Colds are epidemic in Omemee.

Messrs. Geo. Holdaway, of Port Hope, and James McIntyre, of Peterborough, were registered at the Commercial house on Saturday.

Mr. and Mrs. E. Hayes were visitors to Lindsay on Friday.

We are pleased to report the convalescence of Mrs. (Rev.) Earle.

Mr. Barron was in Lindsay on Thursday.

Electric Restorer for Men

DOMINION
CHINESE CAFE

Best meals in the city. If you are going out to dinner [illegible]

328 GEORGE STREET

SWEEPING ALONG

The tremendous rush for the chance of sharing in the sacrificing clearance of the well-known high-class stock at ROBERT FAIR'S

Great Retiring Sale

still keeps up. The public have found that the price reductions are not from inflated values, but actual big cuts from the known standard selling prices.

THAT EXPLAINS WHY EVERYBODY BUYS FREELY

Seeing is believing, and the greatest array of underpriced, select goods ever seen in Peterborough, is certainly here on sale.

EVERYTHING IN THE STORE INCLUDED in this Great Sale because Robert Fair, the largest Stockholder, is retiring from business, and is giving the public one big, memorable money-saving event, before leaving the active work of catering to his always splendid trade.

No goods on approval or exchanged. Same courtesy as before to open account patrons

ROBERT FAIR & Co. LIMITED

SALE AND SOCIAL

Successful Affair Under Auspices of St. Luke's G. A.

The Girls' Auxiliary of St. Luke's church, held a successful sale and social in the rectory last night and all present had a good time. Pretty tables of fancy articles and candies were well patronized and the young ladies realized $21. Those taking part in the program were Miss Bryce, Mr. Greenedale and Mr. Hague Sawers, solos; Miss Prudie and George Long in duets, and Mrs. (Rev.) Sawers and Miss Leary in recitations.

AUTUMN TIMES

A deep silence is settled on the wood Across the rill a grey trouse is drum- Across the rill grey grouse a drumtree. The grey squirrel is gathering nuts for the winter. The young deer has changed his summer coat for one of a more sombre hue; a red-brown to match the autumn leaves. Now the leaves are falling, unveiling the forest and opening long avenues through which we get glimpses of jumping deer. If you take your rifle and go up into the "Highlands of Ontario" and stand perfectly still some autumn morning, you can see the red deer racing by. Any Grand Trunk Agent can tell you how to get there.

PRICES—Matinee, 25c to 75c; Evening, 25c to $1.00

GOOD TIME AT BANQUET

For Young Men of Mark Street Church

Mr. J. H. Burnham M. P. Gave Address on Land Taxation

The banquet and program arranged by the members of the Mark street Athletic and Debating Club, with the aid of the ladies of the Mark street Methodist church, and given in the new club rooms, Hunter street east, last night, was a most enjoyable affair.

Only being started in their quarters, which is the site of a former broom factory, about a month, and having a membership of fifteen, the young men are accomplishing a great deal. Last night being their first banquet, fifteen strangers were invited, and in all thirty-five sat down to two tables, artistically decorated and well laden with edibles. As well as having flags hung about the room, a large picture of King George was prominently placed immediately to the south ends of the tables.

After the dinner, which was very enjoyable, the speaker of the evening, Mr. J. H. Burnham, M.P., delivered an interesting address on "Land Taxation," depicting the value of the single tax system over the the multiple system. The speaker explained that at present a man had to pay taxes on improvements and personal property, and if he is willing to lie over the valuations of his belongings he may escape considerable taxes. If the single tax system were in vogue, by which payment made on land only, it would induce the people to improve their property instead of, as at present, keeping people from building.

At the close of his remarks Mr. Burnham emphasized the necessity for boys to read serious literature and not trashy novels. They should not waste their time as they had a lot to learn.

In the absence of the president of the club, Mr. Bert Gillespie, who left yesterday afternoon for the west, Rev. Mr. Cragg, the honorary president, was the chairman.

The first toast was that of His Majesty King George V., proposed by Mr. Ward Gamble, and honored by the hearty singing of the National Anthem.

Rev. C. E. Cragg proposed a toast to Mr. J. H. Burnham, M.P., and the guest of the evening responded.

"The Stranger" was proposed by Mr. Samuel Taylor, and responded to ny Mr A. A. Fowler.

Other toasts were "The Ladies" and "The Press," which Dr. J. E. Middleton proposed.

A vocal solo was given by Mr. A. Gay in good voice.

In responding to the toast to the member for West Peterborough, Mr. Burnham thanked the gathering. He said it was a great pity that there were not more clubs in the city devoting evenings to discussing serious subjects. It was a regrettable fact that when an announcement is made that there is to be a debate there will be a very small gathering that night.

SMALL GYMNASIUM.

The rear room of the building occupied by the Mark street Athletic and Debating Club is utilized as a gymnasium. It is very small, but the boys are furnishing it piece by piece, and may in time have enough apparatus to furnish a very large place. They have already enough equipment to develop their muscles, and their club is already a grand place to spend an evening.

Though they have not yet decided what league they will enter, the members are likely to have a hockey team. It will be a means of adding to their membership role, as well as a form of recreation. Though the last season's baseball team did not have many workouts, the decisive way in which they walloped the printers' nine on that memorable day at Idyl Wyld will not be forgotten for some time.

It is probable the club will be represented in the city baseball league.

The officers of this progressive young club are:

Hon. Pres.—Rev. C. E. Cragg
President—Mr. Bert Gillespie.
Vice-President—Mr. Ward Gamble
Secretary—Mr. Horace Coon.
Treasurer—Mr. Josh Gamble.

On Friday evening at the regular meeting a new president will be elected.

LATE BERRIES

Picked on Farm of Thomas Rose in Otonabee

The Review reported early October raspberries and to-day announces a find of the same kind of fruit at the farm of Mr. Thomas Rose of Otonabee.

A sprig of a raspberry bush was brought into this sanctum yesterday and the berries, large in size and in all their richness, tasted like more.

DR. PARK AT THE N.O.T. CONVENTION

Gave Two Interesting and Instructive Addresses

Cannington, Ont., Oct. 23.—The North Ontario Teachers' convention, which was held at Beaverton, was highly successful.

Among those taking part in the program were Inspector Hutchison, B.A., and Dr. H. G. Park, of Peterboro, Normal school, who delivered very interesting and instructive addresses on "The Nature and Elements of Literature" and "the Teaching of Literature in Senior and Junior Grades." Dr. Park proved himself master of his subjects and illustrated them by many happy quotations from the best authors. Miss L. Harris ably discussed analysis and parsing, and Prof. A. T. De Lury, of Toronto, University, delivered a splendid address on "Geometry" in an instructive and charming manner.

NEW OFFICERS

Were Elected for Ladies' Auxiliary of the Y.M.C.A.

Reports made at the meeting of the Ladies' Auxiliary of the Y.M.C.A. at their meeting Saturday night, showed the society to have had a successful year in the matter of finances. The officers elected were:

President—Mrs J. C. Shook.
Vice-President—Mrs. Hunter.
Secretary—Mrs. F. Clegg.
Assist Secretary—Mrs. B. Shortly.
Treasurer—Miss Lena Davidson
Rooms Committee—Mrs. Wm. Harstone and Mrs. J. J. Howden.
Social Committee—Mrs. Mustin and Mrs. B. Shortly.
Devotional Committee—Mrs. Goheen, Mrs. Campbell and Mrs. Wm. Madill.

CROWN COUNSEL AT THE ASSIZES

Mr. Frank Reid, K.C., of Cobourg, will be the Crown Counsel at the Fall Assizes, which commence here on Tuesday, Oct. 31st.

JERMYN NEWS

Special Correspondence.

Jermyn, Oct. 25—The autos speed through the village at a nice gait on fine days during the week.

Mr. Fred. Fife, threshed last week in his new barn for the first time. He has got fine stables in for his stock He also has a cement sidewalk along the front of the stable doors, which makes a neat looking barn yard.

One day recently, while Mr. David Kidd was out hunting in Mr. Hugh Fife's woods, he met a skunk and shot it. Young Andy Hall seized the hide and has hung it up for sale.

Mr. Andrew and Herb Evans are making quite an improvement along the front of their farms by removing the old rail fence, clearing the old rubbish away, and building a neat looking wire fence.

The vacant house in the heart of Jermyn makes things rather quiet but as long as the blacksmith makes a noise in his shop, things won't seem so slow as we think they are.

LUSTROUS HAIR

Makes Women Fascinating and Attractive

Parisian Sage is not a nostrum; it is the scientific preparation of one of the world's greatest dermatologists.

It will grow hair. It will make the scalp clean and white and free it from any disease.

Parisian Sage is the most marvelous and efficient hair dressing known. It will turn harsh, lustreless and uncontrollable hair into soft, lustrous and fascinating hair in a few days. It is the favorite hair dressing of thousands of women who realize that no one can be handsome without beautiful hair. Large bottle 50 cents at Wm Madill's on money back plan, who guarantees it.

Fish Story

Chief Miller and Mr. W. Sayles caught a lunge at Pigeon Creek that competes favorably with the ones Sam Hunter told about in these columns a few weeks ago—the big ones that resemble logs, and draw punts and scows with ease. The head of the lunge in question may find its way to the museum at Toronto—Millbrook Mirror.

AUTUMN IS THE TIME FOR GLASSES Why?

The increasingly long evenings of autumn give greater opportunity for sewing, writing, reading, study, and as this is necessarily by artificial light the strain upon the eyes is such as to make Glasses quite a boom at this season of the year. This no doubt accounts for much of the present increased demand for Glasses.

Appointment for examining the eyes for Glasses is usually necessary.

J. W. BROWETT, OPTOMETRIST. Optical Institute, Peterborough.

SIXTH GREAT GAME OF THE WORLD'S BASEBALL SERIES WON BY ATHLETICS

CHINESE EMPEROR PREPARING TO SEEK PROTECTION OF JAPS

Defection is Alarming---Chinese After Head of Man Who Sold Railway to Foreigners.

Pekin, Oct. 26 — The Emperor is said to be preparing for flight to Mukden in a day or two, in order to put himself under Japanese protection.

Pekin, Oct. 26.—Further defections to the rebels, including Nanchang, capital of the Province of Kiangsi, and Klielin, capital of Kwangsi, have served to increase the tension here over the revolution. To add to the seriousness of the situation, the Tsachengyuan, China's first national assembly, yesterday gave to the Manchus what the legations consider an ultimatum. The assembly impeached Sheng-Hsuan-Huai, president of the Ministry of Post and Communications, and demanded his dismissal with severe punishment.

A reply is required from the Government to-day, failing which the assembly will dissolve and the members return to their respective provinces. From the temper shown, it is believed that the assembly will carry out the threat. The only course open to the Government is either to sacrifice a man who is considered by the foreigners the strongest member of the Cabinet, or, retaining him, declare war on the assembly, as well as on the best majority of Chinese.

The charges against Sheng-Hsuan-Huai are those formulated by the people of Szechuen, Hupeh and Hunan. Sheng negotiated the loans for the nationalization of the railways, and has been a leading advocate of the anti-provincial policy, which is regarded as largely responsible for the revolution. The inhabitants of these provinces have shown strong opposition to the proposed railway construction. At the meeting of the assembly yesterday the members urged that they were not against foreign loans, but against the methods employed and the results, which were tantamount to robbing the pockets of the Chinese, who had already begun the railways, and selling them out to foreigners.

When the assembly rose to vote, even the front row Manchu princes, evidently intimidated by the Radicals, stood up, demanding the noted mandarin's degradation.

Gen. Yin-Tchang's silence has given rise to innumerable speculations. The War Minister in the field seems to consider it unnecessary to communicate anything but his needs to the presidents of the other Government boards. Only the palace seems to know his intentions.

The Imperialist commander has not been followed by any foreigners, even the foreign controllers of the railway having withdrawn, either voluntarily or by request. Therefore it is impossible to ascertain whether or not the reports regarding the Imperial army, upon which the dynasty's hope depends, is seriously disorganized. The troops have been pushed forward without having been safeguarded in any manner, which would already have meant disaster had the enemy been more capable.

The trains go down to the south laden with soldiers and equipment, but they do not return. The troops set forth without sufficient ammunition; then quantities of ammunition follow, but no commissariat supplies. There

MacKAY WILL REMAIN AS LEADER

Special to the Review.

Toronto, Oct. 26.—It has been definitely decided that A. G. MacKay will continue as the Liberal leader in the coming provincial elections, though N. W. Rowell, K.C., of Toronto, has been practically decided on as his successor. The Liberals in Toronto do not assert very much confidence in being able to make headway against the Whitney government at this time, the war chest being so empty, but expect that after the elections, with Mr. Rowell as the new leader, they will be able to take up the work of rebuilding the party in Ontario in earnest. There are many strong MacKay Liberals in camp and they will be heard from when the deposition of the present leader becomes an actual fact.

McRAE TRIAL IS UNDER WAY; MIXED MARRIAGE TROUBLES

Story of the Lancaster Shooting Told on the Witness Stand—Dr. McGee Wanted to Get Possession of the Child From its Mother.

Cornwall, Oct. 26.—The McRae murder case occupied the assises before Judge Sutherland all day yesterday and will last until some time on Saturday. About an hour of the morning session was taken up with the selection of the jurors.

The first witness called was Dr. Magee of Carp, who made two expeditions to Glengarry, to recover possession of, or, as the defence claims, kidnap Dr. Magee's child with which she had fled to her father's home at Bridge End, Glengarry, after several disagreements with her husband. He told of the two attempts to recover his child, his quarrels with his wife and finally, under cross-examination, admitted having used her in a manner unbecoming a gentleman. He had seized her by the hair on one occasion, on another he had shoved her and she fell down. Letters were produced to show that he had written to her using an insulting name.

D. C. McRae, called by the crown, told briefly of the visit of Dr. Magee and his friends on July 1, and their search of the house.

When it came down to cross-examination there was another squabble between Messrs. Pringle and Blackstock as to the admission of certain evidence in contradiction of Dr. Magee. Part of this was ruled out, but McRae was permitted to contradict Dr. Magee most emphatically on the point of interfering between the doctor and his wife. He had never said that unless she had liberty of conscience he would have to take her home. Mrs. Magee could no longer stand the treatment meted out to her by her lord and master and took advantage of her husband's absence to leave home with her child for the last time.

Because he was nearing the hiding place of Mrs. Magee and her child, D. C. McRae secured an old gun and threatened to shoot Dr. Magee. The doctor turned and made a detour to the roadway, joining the others, who had been compelled to move up 100 yards or so to save their tires.

After a brief confab and seeing another woman with a child at McRae's door, the party started back afoot, when they were confronted by the hired man, an Englishman named Rosser, who had picked up the shotgun and, dropping on one knee, threatened to "blow their bloody heads off."

Under re-examination by Mr. Blackstock, McRae said that he was not willing that Dr. Magee should get possession of the child unless the doctor produced authority. He wished Dr. Magee to believe that the old useless gun was a good one, and would be used unless the doctor left the premises. He had his hand on the axe which was on the road and had told Farquhar to cut the tires of the motor unless the party moved away.

He did not know who got the rifle for Farquhar, nor where Rosser got his gun. He heard the report of a rifle shot but could not swear that it was fired by Farquhar. He did not suspect that anyone was injured by the shot. Next morning he heard for the first time, while at church, that a man had been shot and killed. He knew that Farquhar was a good shot, but could not say he was a crack shot.

In reply to his lordship, McRae said that he was between where the shot was fired and the motor.

John Uren, the Rainsville constable, denied having a revolver and said that what had been mistaken for a revolver was a paid of hand-cuffs. Up to the time the party left the house to search the orchard, witness had not seen anything of F. D. McRae.

When the party got into the motor Dr. Magee, James Magee, Shaw and the witness were looking backwards. F. D. McRae came down the road to the rest of the McRae party, where, after speaking to them, he cried out, "You damned Protestant hound." He then dropped on his knees and seemed to be aiming at Dr. Magee.

When arrested by the witness next morning McRae had said that if anyone had been shot they had shot themselves.

Under cross-examination Uren admitted being a boy from a home in England. He had held people up before. As a preventive officer he admitted having carried handcuffs, which he sometimes carried to church. He drew the handcuffs with the intention of handcuffing D. C. McRae if he interferred with Dr. Magee in his search of the McRae premises, expecting to find D. C. McRae, the only man on the premises.

He did not know if he had any right to be on the premises. He had no papers. He had arranged by letter with Dr. Magee to join in the attack, and to stand between Dr. Magee and anyone who interfered with him.

Witness admitted getting D. C. McRae in a corner, holding him up with the handcuffs. Along with Dr. Magee he had prowled around the McRae homestead in June and knew all about the attempts to kidnap the child." He knew that he had no legal authority to enter D. C. McRae's house. F. D. McRae was on his knee three or four seconds before the auto started.

He said that Magee was mistaken in saying that the auto had moved one hundred yards or so before the firing.

"HOLY GHOSTER" ARRESTED

REV F W SANDFORD

With stricken and hungry men, women and children straining at the pumps to keep afloat their stormtossed craft, the Rev. Frank W. Sandford, leader of the Holy Ghost and Us Society, of Shiloh, brought his yacht Coronet creeping into the harbor of Portland, Me., on October 21, only to be arrested in a damage suit brought by the wife of one of his chief followers. As the Rev. Mr. Sandford was being taken away by the civil authorities health officials hurried two of his sect to hospitals, ill of the scurvy, while the remainder besieged a food salesman who chanced on board.

Failed to Select Candidate.

Brantford, Oct. 26.—The Brantford Trades and Labor Council failed to select a candidate for the provincial contest here last night. Neither J. C. Coles nor Edward Lavery, both well-known trades unionists, were willing to accept the nomination. A section of the council was strongly favorable to placing a man in the field, but lack of proper organization was considered a serious drawback.

NO DEARTH OF SEATS NOW

Hon. W. T. White Has Many Kind Offers

Ottawa, Oct. 26.—Now that a seat has been found for Hon. W. T. White in Leeds there is something of a rush by men who have hitherto shown a marked disinclination to part with their seats.

Halton County is a case in point. The new Finance Minister might have represented his native county, whose electors as victims of the Farmers' Bank smash, are seeking relief from the Government, but there was difficulty in opening the constituency. The difficulty was overcome Tuesday when a meeting of Halton Conservatives decided to offer the seat to Mr. White. A delegation was despatched to Ottawa yesterday in time to see the Finance Minister accept the Leeds offer.

PROBABILITIES

Light winds, fine to-day and on Friday. Night frosts.

IS CZAR WOUNDED

Rumor of Attempted Assassination Abroad

Special to the Review.

Vienna, Oct 26.—It has been reported that the Czar was wounded by a revolver shot while motoring. The chauffeur is said to have been killed by an assassin. The rumor is not generally believed.

ST. LUKE'S BELL HAD LONG FALL

Supporting Iron Broke But Bell Was Not Damaged

The bell at St. Luke's church took a sudden fall last night, through the breaking of the iron rod which connects with the hammer and by which the bell was held to the iron framework above.

The wife of the secton, Mr. Francis Legon, had commenced operating the bell at seven o'clock, when suddenly the rod parted and the bell on its fall struck the roof of the porch and bounded off against the south corner of the church and then fell to the pavement, without receiving any damage other than a very small piece being chipped off.

The bell was manufactured in 1877 and has been in service at St. Luke's for the past thirty years or more. It will be replaced at once.

PETERBORO MAN IS IN CHARGE

Construction of a Peat Plant by Ernest V. Moore

Special to the Review.

Ottawa, Oct. 26—Ernest V. Moore, of Peterborough, the welll-known engineer is in the city to-day in conference with the department of mines regarding the construction of a peat plant near here. A number of Canadian capitalists are behind the company.

CHAIRMANSEIPS ANNOUNCED FOR COMMONS COMMITTEES

Samuel Barker, of Hamilton, Chairman of Railways; Broder for Agriculture; Ames For Public Accounts.

Special to the Review.

Ottawa, Oct. 26—John Stanfield, of Colchester, N.S., has accepted the appointment of Conservative whip, succeeding Geo. H. Perley.

Samuel Barker, for East Hamilton, has been appointed chairman of the railway committee, Andrew Broder, chairman of the agriculture committee, and H. B. Ames, chairman of public accounts committee.

Police Seek Hull Doctor.

Ottawa, Oct. 26.—The Ottawa detectives left yesterday afternoon for Cayament Lake, in the Gatineau district, north of here, to bring back Dr. J. A. Ouimet of Hull, on a charge of conducting an establishment for the performance of criminal operations in Ottawa. Ouimet is away on a deer hunt. He is the Hull physician who some months ago was tried and acquitted on a charge of killing Mrs. Frank Spain of Ottawa by performing an illegal operation.

The proprietress of the alleged resort in Ottawa is under arrest and two women said to be patients of Ouimet have been removed to a hospital. The police have been working up the case for some weeks, but only yesterday secured sufficient evidence to act upon.

Elopements to Blame.

Washington, Oct. 26—Statistics compiled from the records of the District Supreme Court show that 40 per cent. of all divorces here are the result of runaway matches and 30 per cent. result from marriages where one of the contracting parties was under 21 years of age.

Eighty per cent. of the divorce suits have been filed by women and less than 10 per cent. of the couples who seek the courts are parents. There is one divorce suit in the District Court to every four marriage licenses.

JAP TROOPS ON THE WAY

Will Protect the Emperor if Needful

Special to the Review.

Pekin, Oct. 26.—A report says that the troops at Chentu have killed their commander, Gen. Feng, and joined rebels.

Pekin, Oct 26.—Ten thousand Japanese troops have arrived in Mukden to protect the Chinese emperor. The Mikado does not plan another grab.

Shanghai, Oct. 26.—The Chinese newspapers announce that the minister of war, Gen. Yu Tchang, commanding the imperial troops, has been killed by his own troops.

COURT MARTIAL WILL BE HELD

British Officers to Sit in Judgment on Niobe Crew

Ottawa, Oct. 26.—The Department of the naval service having reviewed the circumstances attending the stranding of H. M. C. S. Niobe on the southwest ledge off Cape Sable in July last, have come to the conclusion that a court-martial should be held, and Hon. Mr. Hazen, Minister of the naval service, has ordered that steps should be taken to hold this court-martial.

As there are not at present in the Canadian naval service a sufficient number of officers of the proper rank to constitute this court-martial, arrangements have been made with the Admiralty to loan a sufficient number of officers to hold it and orders have been given for the fourth cruiser squadron to sail immediately for Halifax. The squadron is composed of the following four first-class cruisers: H. M. S. Berwick, Donegal, Essex, Leviathan (flagship).

The squadron is commanded by Rear-Admiral F. E. Bradford, who will be authorised by the Minister of the naval service to convene a court-martial for the purpose of investigating the conduct of the officers of the Niobe and the circumstances which led to the stranding of the vessel.

THE RT. HON. H. H. ASQUITH

Who will be elevated to the peerage shortly, leaving to Lloyd George the leadership of the British Commons.

TURKS BEATEN

Italians Repulsed in Attack at Tripoli

Arabs Fought Desperately Against Europeans

Tripoli, Oct. 26.—Fight Monday was of a desperate nature. The Arabs rose against the Italians at the time of the Turkish attack on the outposts and the Italian losses were heavy.

It is nevertheless clear that the Italians can count on the greater number of Arabs in the country. Those who attacked the Bersaglieri numbered two or three hundred, including many Turks dressed as Arabs. In the town the number of rebels is smaller still.

The Italian soldiers remained perfectly calm under fire. When the Arabs found the Italians seriously engaged at Sciaraighad repelling the Turkish attack they opened fire among the gardens, the thick vegetation of which makes them almost impenetrable.

The fourth company of the Eleventh Bersaglieri accepted the situation without flinching, the men in the trenches firing in turn. One man who was seriously wounded bandaged a gaping wound with his handkerchief and continued fighting. When ordered to go to an ambulance he refused, and it required four men to remove him to the Red Cross station by force.

A sergeant of carabinieri, stationed with his men at the mosque near Sciaraighad, where a large number of Arabs were in ambush, insisted on going out on a scouting expedition, saying the bullet that would kill him was not yet manufactured. He had hardly turned the corner of the mosque when a volley fired at about ten paces killed both him and his horse.

A detachment of Italian soldiers on the flank, who had seen four Arabs rise from cover to shoot, fired immediately, killing the Arabs.

Naval Lieutenant Roselli, who happened to be with the outposts when the firing commenced, placed himself at the head of a detachment of the Eighty-Second Regiment, and began a forward movement, with the object of reconnoitring the ground.

The mounted carabinieri, who replaced on the left flank the cavalry engaged on the front at Boumeliana and Gargaresh, covered themselves with glory.

The Turks and Arabs showed equal disregard for danger. They appeared to be quite indifferent to death.

Every Arab house was found to be a hiding-place for arms. The ammunition and rifles landed from the Turkish transport Derna had been lowered at the ends of ropes into wells. Sacks of cartridges were hidden in the houses.

GRAND JURY SITS ON CASE

Richeson Charge Being Probed in Boston

Special to the Review.

Boston, Oct. 26.—The case against Rev. Mr. Richeson is being laid before the grand jury to-day. Thirty witnesses will be examined.

NO OPPOSITION TO BE OFFERED IN QUEBEC TO THE MINISTERS

Three Protests Are Being Considered—Nothing Done by Liberals.

Montreal, Oct. 26.—Friday will be nomination day for the bye-elections necessitated by the Cabinet appointments. Yesterday it was stated by Liberal leaders in Montreal that there will be no opposition offered to any of the newly-appointed Ministers in this province. There has been some agitation along these lines of late, especially with regard to Hon. Mr. Monk in Jacques Cartier, and Hon. Bruno Nantel in Terrebonne, but a caucus of the party leaders was held yesterday afternoon, at which it was decided that nothing was to be gained by further opposition just now.

There has, however, been discussion going on regarding protests by both sides. As matters now stand it was stated yesterday that only three protests were being considered, in Montcalm, Bagot and Three Rivers. Whether these protests will be forced is not yet decided, but it is thought not unlikely that the close election of Hon. Jacques Bureau in Three Rivers will be contested.

Want Colonial Consuls.

Montreal, Oct. 26.—At yesterday's meeting of the Chamber of Commerce a report was submitted and approved to the effect that the Canadian Government should make representation to the Imperial Government so as to gain consent to the recognition of the right of Colonial Governments to appoint consuls abroad, or so to enlarge their own consular system as to admit colonial representatives, who should be empowered to watch exclusively over colonial interests.

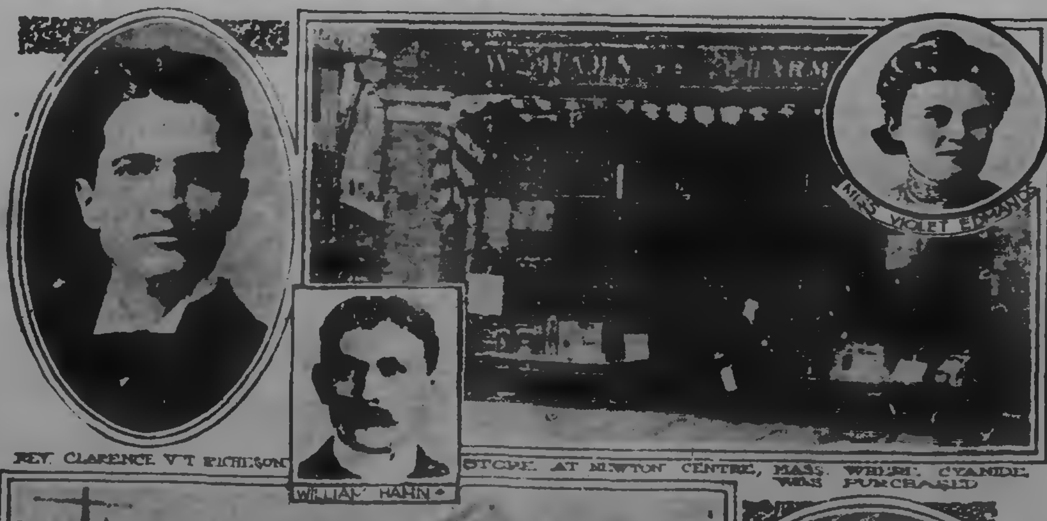
ITALY SAYS IT HAS TRIPOLI

Formal Notification of the Annexation

Special to the Review.

Rome, Oct. 26.—Italy to-day formally notified the powers that it had annexed Tripoli.

PRINCIPALS AND SCENES IN CONNECTION WITH SENSATIONAL MURDER.



REV. CLARENCE V. T. RICHESON
WILLIAM HAHN
STORE AT NEWTON CENTRE, MASS. WHERE CYANIDE WAS PURCHASED
MISS VIOLET EDMANDS
HOME OF MISS AVIS LINNELL AT HYANNIS, MASS.
MISS AVIS LINNELL

As an evidence of the bitter feeling against the Rev. Clarence Richeson, who is accused of the murder of nineteen-year-old Avis Linnell, an effigy of the clergyman was hung from the limb of a tall elm tree in the yard of the Baptist Church at Hyannis, Mass., of which be was once pastor.

Moses G. Edmands, father of Miss Violet Edmands, to whom the pastor was to have been married October 31, has full confidence in Richeson and believes in his innocence. William Hahn, whose portrait is shown above, is the druggist who sold the poison to the accused man.

Catarrh and Bronchitis

The Bane of Thousands, and has Hitherto Baffled the Skill of Medical Science.

Catarrhozone

Dry air treatment is the one treatment that will cure these diseases.

What stomach medicine has ever been known to cure Catarrh or Bronchitis?

Catarrhozone is not a stomach medicine, but an air medicine, that carries to the remotest parts of the throat, lungs, and air cells little drops of healing so curative that whenever it touches germ life it kills and eradicates them from the system.

Thousands of doctors and patients have been disappointed by using stomach medicines for coughs and colds. Have you not found it a rather roundabout way to reach the diseased portion of the throat and lungs?

Why not use Catarrhozone, which is breathed to the very root of the disease and heals so quickly and perfectly that every spot is rebuilt with new healthy tissue?

Catarrhozone is the only medicine that will cure. Thousands have testified.

Think for a moment. Is it not sense? Little drops of healing—the air carries them just where disease exists. That is why

Catarrhozone Cures

Price, 25c, 50c, and $1.00, at all druggists, or by mail postpaid from The Catarrhozone Co., Buffalo, N.Y. and Kingston, Ont.

The Daily Review

THURSDAY, OCT. 26, 1911.

THE NAVY QUESTION

The Ottawa Journal in a very able editorial on the navy question, advocates a Canadian navy, pure and simple, as the best solution to Canada's desire to be of some help in the naval insurance of the empire. It says that a gift of two Dreadnoughts, such as the Montreal Star proposes, or a money contribution yearly as the Hamilton Herald proposes, would not be satisfactory, for one would only be a temporary benefit, and the other would lead to endless squabbles about the amount, or whether it should be given at all.

There is a great deal to be said for the Journal's attitude on the question. Canada wants to do something to aid Britain in bearing the great burden of maintaining British naval supremacy on the seas. Australia and New Zealand have already far outstripped Canada in the effort to repay the motherland for some of the costly protection afforded the overseas dominions in the last half century. Canada is willing to assist in building up the British navy by contribution, or by building a Canadian navy to co-operate with the British navy whenever there may be cause. The Dominion's action must be along either one of these lines, for we do not think there is any danger of Canada deciding to remain aloof from a naval assistance to the empire. Canada has a just debt to the empire in this regard, and it is not to be thought that we are so anaemic as to fall down entirely on the proposition.

A referendum or plebiscite ought to show the mind of the Canadian people on this question entirely, and presuming that Canada wants to share in the burden of maintaining British naval supremacy, how shall we go about it?

The gift of two Dreadnoughts would be very acceptable to Britain, no doubt, but after they were in commission a few years, would there not arise a demand that we should again contribute to the British sea power? Should we not be called by circumstances to contribute warships to the British navy every few years, yielding to the pressure to which the British nation will undoubtedly be put—increasing every year—of competition among the great nations?

A Canadian navy, subject to the British admiralty whenever needed, would suffice to protect ourselves, though a naval attack on Canada would undoubtedly come from a European power, and the best means of stopping that would be a strong North sea and Mediterranean fleet. Canada would be protecting herself to some degree by strengthening the offensive power of the British navy. At the same time a Canadian fleet of efficient warships would be of great service in time of trouble around Canada.

Therefore, would it not be good policy to first provide that efficient naval defence for Canada—not a tin-pot navy—and having a navy for the care of our coast-line against possible attack, set to work to strengthen the British navy in offensive power? This is a rather far-reaching program, but our duty first is to ourselves, and having performed that, the question of contribution to the British navy within Canada's means could be considered. This would obviate many of the difficulties that surround the question. Having established a sufficient unit for ourselves, which need not be so very large, we would be able to further assist, if assistance were necessary, by contributions of ships to the British navy.

Wood's Phosphodine, The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins, Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhoea, and Effects of Abuse or Excesses. Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. New pamphlet mailed free. The Wood Medicine Co. (formerly Windsor) Toronto, Ont.

HYDRO-ELECTRIC POWER

In his address at the Liberal convention, Mr. Hall attacked the Hydro-electric policy of the Whitney government on the ground that it was benefiting the contiguous district, while acting to the detriment of cities like Peterborough. That this was a narrow and selfish view to take of the effort of the government to get part of the wealth of power production from Niagara Falls for the people, is evident. There are many good Liberal newspapers—newspapers as good Liberals as Mr. Hall esteems himself to be—which have supported the hydro-electric policy. The Woodstock Sentinel Review, a Liberal organ, says most emphatically that there is no necessity to make the hydro-electric policy a party question. But Mr. Hall would like to use it as an axe on the government, were that possible. It isn't, but that will not probably make Mr. Hall any the wiser. The Woodstock Sentinel Review says, and says fairly:

> The Niagara power question has not heretofore been a party question in Ontario. There was no element of partyism in the demand that was made upon the government for the inauguration of such a policy. The policy in its development has encountered a good deal of criticism; but it would be very unfair to say that this criticism has been dictated by a party spirit. Some of the strongest attacks upon the policy have been made by regular supporters of the Whitney government. Some of the strongest support the policy has received has come from the Liberal press.
>
> There is no necessity now for seeking to make it a party question. Such an attempt would not be good business, and would not even be good politics. Let the Whitney government's hydro-electric policy be dealt with on its merits. If there are defects of any kind the criticism should be so directed as to remove them, not to bring discredit on the policy as a whole.
>
> There are enough party issues in the province. Too many, perhaps. It would doubtless be much better for the people as a whole if there was less partyism and more business in the transaction of the affairs of the province.

RELIGION IN SCHOOLS

The Review has received a copy of the regulations and course of study for the public schools, as prescribed by the department of education amended and consolidated for 1911. In reference to the matter of teachers conducting religious exercises in schools, as the agent of any church or denomination, there is apparently a change, for the new regulations give no right to the teacher to act on behalf of a church or denomination.

The only paragraphs dealing with this feature of denominational religious instruction after hours in the schools are:

> "A clergyman of any denomination shall have the right and it shall be lawful for the board to allow him, to give religious instruction to the pupils of his own denomination, in each school-house, at least once a week, after the hour of closing the school in the afternoon.
>
> "Under the same conditions a clergyman selected by the clergymen of any number of denominations shall also have the right to give religious instruction to the pupils belonging to such denominations.
>
> "If the clergymen of more than one denomination apply to give religious instruction in the same school-house, the board shall decide on what day of the week the school-house shall be at the disposal of each, at the time above stated."

It will be seen that in these paragraphs there is no reference whatever to the teacher undertaking any denominational instruction after school hours, on behalf of any church or denomination. That provision is entirely eliminated, and now only clergymen may undertake that duty. This will be entirely satisfactory, for it removes the regular teacher from the field as a factor in denominational instruction, and his or her influence over the pupils not belonging to the denomination in whose cause he or she would have instructed, is inoperative.

EDITORIAL NOTES

No one has yet suggested that the trouble in China is of a tea-pot nature.

The order of the Bath will be given to some prominent British nobles. It is an order that should be reserved for the honoring of vags.

In the first seven months of the present year, Canada bought 3,721 automobiles from the United States, or about $4,030,000 worth. In five years from now any man of moderate means will be able to have a machine—providing he is willing to go broke in maintaining it.

To the west will be given the honor of moving the address in reply to the speech from the throne. Mr. Borden has succeeded in balancing the honors for east and west in a very satisfactory way to those who want to see a strong, united party, held together for the promotion of the unity of the Dominion.

The Hydro-Electric commission has offered Kingston power at $30 a h.p. for 3,000 horse power, and $17.50 for 10,000 horse power. It is certain that Kingston city cannot undertake to handle more than 3000 horse power for many years to come, and for that reason the Seymour Company offer of $25 for any quantity of power is likely to be accepted. The Seymour company is rapidly getting this section of Ontario into a tight grip.

SUREST TONIC IN THE WORLD

IS "FRUIT-A-TIVES" THE GREAT FRUIT MEDICINE

Like fruit juice, "Fruit-a-tives" acts on the great blood purifying organs of the body—namely the liver, bowels, kidneys and skin, and stimulates all these parts to increased activity. The splendid nerve tonics and intestinal antiseptics, combined with the intensified fruit juices, make "Fruit-a-tives" the finest of nerve tonics.

On the stomach, "Fruit-a-tives" acts as a soothing tonic and allays all irritation.

By purifying the blood—strengthening the nervous system and regulating kidneys, bowels and skin—"Fruit-a-tives" builds up the whole system as nothing else will.

"Fruit-a-tives" is a really wonderful medicine—being made directly from fresh fruit—and is the intensified juices of apples, oranges, figs and prunes. "Fruit-a-tives" is the only medicine in the world made of fruit. It is mild in action—pleasant to take—and is a tonic of inestimable value.

50c. a box, 6 for $2.50, or trial size, 25c. At all dealers, or from Fruit-a-tives Limited, Ottawa.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

S. F. McKinnon Left Million.

Toronto, Oct. 26.—The will of the late S. F. McKinnon, who left an estate amounting to nearly a million dollars, came up yesterday for an interpretation before Justice Teetzel. The court was informed that the provision allowing the executors $200 for their work by the deceased, was a mistake, and that the heirs were willing that this amount should be increased. The court was asked to take action on the matter.

Holy Ghost Leader Arrested.

Durham, Maine, Oct. 26.—Rev. F. Sandford, leader of the Holy Ghost and Us Society, was arrested yesterday yesterday at Shiloh, the society's colony here, by a federal officer in connection with the death of four of his followers from scurvy, due to insufficient provisions on board the society's yacht Coronet.

Aged Emperor Is Unwell.

Rome, Oct. 26.—The Pope is anxious concerning the condition of Emperor Francis Joseph of Austria, and has instructed Mgr. Bisletti, major domo of the Vatican, who is just now in Vienna, to keep him advised of the true situation.

McFarlane In Centre Bruce.

Walkerton, Ont., Oct. 26.—Conservatives of Centre Bruce were in convention yesterday, and W. H. McFarlane, grain merchant of Paisley, was selected to contest the riding in the next provincial elections.

6.25 p.m. for Toronto, Hamilton, Guelph, Woodstock, London, Chatham, Detroit, Chicago; also Fort William, Winnipeg and all points in Canadian Northwest.

THE MARKETS

Latest Quotations in Grain Dairy Products, Live Stock Etc,

CHICAGO, Oct. 25.—Assertions that the Argentine harvest, now almost at hand, will prove so abundant that scarcity elsewhere can work no harm, sent the wheat market to-day to a lower level. The close was 1-2c to 5-8c under last night. Other leading staples, too, showed a net decline all around, corn 5-8c to 1 3-8c to 1 1-2c; oats 3-8c to 1-2c to 1c, and hog products 5c to 10c.

The Liverpool market closed to-day ¼d to ½d lower than yesterday on wheat, and unchanged on corn. Paris wheat closed ½d to ¾d lower, Antwerp ⅝c lower, Berlin ¼c higher, and Budapest ½d higher.

Turpentine—Spirits, 35s 9d.

Resin—Common, 15s 3d.

Petroleum—Refined, 6½d.

Linseed oil—42s.

Montreal Grain and Produce.

MONTREAL, Oct. 25.—There was a fairly good enquiry from foreign buyers for Manitoba spring wheat, but the volume of business done was small, as the prices bid did not show any advance. The local trade in oats was quiet, but the undertone to the market is firm, as stocks on spot are light, and it will be some days before any arrivals from the west of importance come to hand. Corn is strong, but the demand is rather limited. A good trade is doing in flour for local and country account, but the bids from the other side were all out of line for spring wheat grades. Cheese is quiet, but firm. Demand for butter for shipment to western points is fair, and the undertone to the market is strong. Eggs are fairly active. Provisions quiet and unchanged.

Dressed hogs—Abattoir, $8.50 to $8.75 per 100 lbs.

Beef—Plate, half-barrels, 100 lbs., $7.50; barrels, 200 lbs., $14.50; tierces, 300 lbs., $21.50.

Lard—Compound tierces, 375 lbs., 9¼c; boxes, 50 lbs. net (parchment lined), 9½c; tubs, 50 lbs. net, grained, two handles, 9¾c; pails, wood, 20 lbs. net, 9¾c; tin pails, 20 lbs. gross, 9¼c.

Pork—Heavy Canada short cut mess, barrels, 35 to 45 pieces, $24; half-barrels, $12.25; Canada short cut and back pork, 45 to 55 pieces, barrels, $23; Canada clear pork, barrels, 30 to 35 pieces, $22.50; bean port, small pieces, but fat, barrels, $17.50.

Oats—Canadian western, No. 2, 49½c to 50c, car lots, ex-store; extra No. 1 feed, 49c to 49½c; No. 3 C.W., 48½c to 49c; No. 2 local white, 48c to 48½c; No. 3 local white, 47½c to 48c; No. 4 local white, 47c to 47½c.

Flour—Manitoba spring wheat patents, firsts, $5.80; seconds, $5; winter wheat patents, $4.75 to $5; strong bakers', $4.80; straight rollers, $4.25 to $4.40; in bags, $1.95 to $2.05.

Rolled oats—Per barrel, $5.25; bag of 90 lbs., $2.50.

Corn—American, No. 3 yellow, 81½c to 81¾c.

Millfeed—Bran, Ontario, $23 to $24; Manitoba, $23; middlings, Ontario, $27 to $28; shorts, Manitoba, $25; moullie, $28 to $32.

Eggs—Selected, 28½c to 29c; fresh, 33c to 34c; No. 1 stock, 22½c to 24c.

Cheese—Westerns, 14c to 14¼c; easterns, 13¾c to 13⅞c.

Butter—Choicest, 27½c; seconds, 26½c to 27c.

CATTLE MARKETS.

East Buffalo Cattle Market.

EAST BUFFALO, Oct. 25.—Cattle—Receipts, 200 head, market quiet and steady; prime steers, $7.25 to $7.90; butcher grades, $3 to $6.75.

Calves—Receipts, 150 head; market active, 25c higher; cull to choice, $6 to $9.50.

Sheep and Lambs—Receipts, 7000 head; market slow; lambs 15c to 20c lower; sheep steady; choice lambs, $6 to $6.15; a few at $6.25; cull to fair $4.50 to $5.90; yearlings, $4 to $4.25; sheep, $1.50 to $3.75.

Hogs—Receipts, 5100; market slow, 15c to 25c lower; yorkers, $6.40 to $6.50; stags, $5 to $5.50; pigs, $5.85 to $5.90; mixed, $6.50; heavy, $6.50 to $6.60; roughs, $5.50 to $5.65.

New York Live Stock.

NEW YORK, Oct. 25.—Beeves—Receipts, 2925 head; best steers firm; others slow to 10c lower; bulls and cows steady to a shade lower; steers, $4 to $7.75; bulls, $3 to $5; cows, $1.65 to $4.25.

Did Friends Conceal Suicide?

Indianapolis, Ind., Oct. 26.—The detectives yesterday turned to investigation of a theory that Dr. Helen Knabe may have ended her own life, and that friends who gathered in the flat before the police inquiry got under way, may have sought to take away evidence of suicide.

East Northumberland Conservatives.

Brighton, Oct. 26.—The Liberal-Conservative convention for East Northumberland was held yesterday at Workworth for the purpose of choosing a candidate for the Ontario Legislature. Sam Nesbitt of Brighton, the present member, received the nomination unanimously.

Biliousness is certainly one of the most disagreeable ailments which flesh is heir to. Coated tongue—bitter taste in the mouth—nausea—dizziness—these combine to make life a burden. The cause is a disordered liver—the cure Dr. Morse's Indian Root Pills. They go straight to the root of the trouble, put the liver right, cleanse the stomach and bowels, clear the tongue and take away the bitter taste from the mouth. At the first sign of biliousness take

MEXICO IN '42

By D. Lewis

Luckily, Rivas had not been unobservant of what was going on between the girl and his companion. He was not taken by surprise, therefore, when Kearney, drawing closer to the edge of the drain, spoke down to him in a half-whisper:

"I've got something for you. Bring the point of your tool against mine and look out when you feel my fingers.

"Very good! I understand," was the muttered response.

In a second or two after the shafts of their implements came into collision accidentally, it appeared. He would indeed have been sharp witted who could have supposed it intentional, and lynx-eyed to have seen that scrap of twisted paper passed from one to the other—the second transfer dexterously done as the first. And shortly after Rivas might have been seen, in bent attitude, his arms busy with his shovel, but his eyes and thoughts busier with a sheet of paper which lay at the bottom of the drain. It was the billet, and though the creases were but hastily pressed out, he contrived to make himself master of its contents. They were but brief and legibly written—the scrip familiar to him.

"Dear One: Soon after receiving this—say, half an hour—look for a carriage—landau shut up—two ladies inside—pair of large horses—gray. When opposite, be ready—with him who shares your chain. Leave manners in the mud—make a rush, storm the carriage, eject the occupants rudely—violently—and take their places. You can trust the coachman. Some danger in the attempt, I know, but more if not made. Your old enemy implacable—determined to have your life. Do this, dearest, and save it—for your country's sake, as also that of

"ISABEL."

CHAPTER XXVIII.

Looking Out For a Landau.

Rivas planted his muddy boot upon the note, keeping it under the mud and trampling it with both feet.

He and Kearney again contrived to bring their ears together and the latter now knew all about the contents of the countess' letter, nor did they draw apart till a thorough understanding had been established between them as to the action they should take.

All this without loss of time was translated to Cris Rock, who was told also of their resolve to attempt to escape, in which the Texan was but too glad to take part. Kearney would have stayed there and gone back into the Acordada, loathsome jail though it was, sooner than leave his old filibustering comrade behind. He could never forget the incident of El Salado, nor cease to feel gratitude to the man who had offered to give up life for him.

But there was no need for Rock being left behind. Rivas himself wished it otherwise, for more than one reason, but one good one, that instead of obstructing their escape he would be an aid to it.

The hunchback alone was not let into their secret. No doubt he, too, would be glad to get free from his chains, since he was under a sentence of imprisonment for life. But who could tell whether at the last moment he might not purchase pardon by turning out and betraying them? They knew him to be vile enough even for that, and so kept him in the dark about their design.

* * * * *

It is now late in the afternoon and the "beauty and fashion" of the Mexican metropolis were beginning to appear in carriages, with chivalry on horseback, along the line of streets leading to the Paseo Nuevo. The procession of the morning would little affect the usual evening display, and already several equipages had rolled past the place where the chain-gang was at work. But as yet appeared not the one so anxiously looked for, and the half hour was up!

Ten minutes more passed without any sign of it.

Then Rivas exclaimed, "Good. Yonder it comes!"

And ready they were, as panthers preparing to spring. Rock and Rivas, as Kearney himself, were now out of the sewer and up on the street; all three still making believe to work; while the dwarf seemed to suspect there was something in the wind, but could not guess what.

He knew the instant after, when a strong hand, grasping him by the collar, lifted him off his feet, taking and tossing him further aloft, as though he had been a rat.

CHAPTER XXIX.

A Clumsy Coachman.

Perhaps no people in the world have been more accustomed to spectacular surprises than they who perambulate the streets of the Mexican metropolis, and rare enough was that they were called on to witness now.

They first saw a carriage—a handsome equipage of the landau specialty—drawn by a pair of showy horses, and driven by a coachman in smart livery, his hat cockaded, proclaiming the owner of the turnout as belonging to the military or diplomatic service. The beauty of the two "senoritas" inside was certainly exceptional. The day was one of the finest, the atmosphere deliciously enjoyable. Other carriages were open, yet the hoods of theirs met overhead and the glasses were up. Still, as these were not curtained they could be seen through them. Some saw who knew them and saluted; gentlemen by raising the hat, lady acquaintances by a nod, a quivering of the fingers. For it was the hour of promenade to the Alameda.

And so they drove along the street until the cariage came nearly opposite the entrance gate of the Alameda, still going slowly; at which the pampered, high-spirited horses seemed to chafe and fret. Just then, however, they showed a determination to change the pace, or at all events the direction, by making a sudden start and shy to the right, which carried the off wheels deep into the ridge of mud recently thrown out of the sewer.

Instinctively or mechanically, the coachman pulled up. No one could suppose designedly; since there was sufficient likelihood of his having an overturn. Still, as the mud was soft, by bearing on the near rein, with a easily clear the obstruction. sharp cut of the whip, he might tators wondered why it was not.

This was not done, and the spec- Shouts, jeers and angry ejaculations assailed Jose from all sides, for it scarce needs telling that he was the driver of the carriage and the ladies inside it his mistress and the Countess Almonte.

The horses commenced plunging.

The ladies looked sorely affrighted; they had from the first, for it was all but the occurrence of an instant. Both had risen to their feet, one began tugging at the strap to get the sash down, the other was working at the handle of the door, which perversely refused to act, all the while they were uttering cries of alarm.

Several of the bystanders rushed to the door on the near side to assist them, that on the off being unapproachable by reason of the open drain. But on this also appeared rescuers—a pair of them—not street promenaders, but two of the chain-gang! All muddy as these were, they were advancing with as much apparent eagerness as the others—more in reality—to release the imperilled senoritas, a proof that humanity may exist even in the breast of a jail bird, and the spectators, pleased with an exhibition of it, so rare and unexpected, were preparing to applaud them enthusiastically.

Their admiration, however, received a rude and almost instantaneous check, changing to wild astonishment, succeeded by equally wild indignation. The prisoners got their door open first, but the ladies, apparently terrified at the rough, unclean creatures, refused to go out that way and only shrank back. Luckily, the other door was also opened and they rushed through it into the street, but not before the two scavengers had leaped up into the carriage beside them, and, as if angry at their earlier offer being declined, gave them a rude shove outward!

That was not all the spectators saw to astonish them. Simultaneously, a second couple of the scavengers, rushing towards the coachman's box, clambered up to it, Rock flinging the dwarf before him as one would an old carpet-bag and mounting after. Then, jerking the reins and whip out of Jose's hands—letting him still keep his seat, however—he loosened the one and laid the lash of the other on the horses so sharply and vigorously as to start them at once into a gallop.

Meanwhile, the uncouth couple inside had closed the doors, shutting themselves in and occupied the seats just vacated by the elegantly dressed ladies—a transformation so grotesque as to seem more a dream than reality. And all left behind a crowd as much amazed as any that ever witnessed a spectacle on the streets of the Mexican metropolis.

CHAPTER XXX.

The Plight of the Senoritas.

Never were sentries more completely taken by surprise than those guarding the chain gang. Nor more disagreeably. They knew they had been neglecting their duty and might expect severe punishment! possibly set at the very task they were now superintending! Still, they made no attempt to pursue. They were not cavalry, and only mounted men could overtake that landau with its curious load, soon to vanish from their sight. So they stood in groups gazing after it in helpless bewilderment, their faces showing a variety of expressions, surprise, anger, fear, mingled in a most ludicrous manner.

But the most interesting group now on the ground was that which had collected round the ladies left carriageless: some offering services, others speaking words of sympathy.

It was a trying situation for the senoritas to be in, but they acquitted themselves admirably; especially the countess, who, young though she was, for courage and coolness had few to equal her. In that emergency no man could have shown himself her superior. Her look of still untranquillized terror, the intermittent flashes of anger in her eyes as she loudly denounced the ruffians who had carried off their carriage, was a piece of acting admirably executed. He would have been a keen physiognomist who could have told that her emotions were counterfeit. Little dreamt the sympathizing spectators that while being pushed out of the carriage she had contrived to whisper back to the man so rudely behaving: "Look under the cushions, dear one!"

Still less could they have supposed that the other young lady, looking so meek, had at the same time spoken tender words to the second ruffian who had assailed them.

Glad were the unfortunates when some of their gentlemen acquaintances, who chanced to be passing the place, came up and proposed escorting them home.

DOCTORS FAILED TO HELP HER
Cured by Lydia E. Pinkham's Vegetable Compound
Pound, Wis.—"I am glad to announce that I have been cured of dyspepsia and female troubles by your medicine. I had been troubled with both for fourteen years and consulted different doctors, but failed to get any relief. After using Lydia E. Pinkham's Vegetable Compound and Blood Purifier I can say I am a well woman. I can't find words to express my thanks for the good your medicine has done me. You may publish this if you wish."—Mrs. HERMAN SIETH, Pound, Wis.
The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.
For thirty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills, and suffering women owe it to themselves to at least give this medicine a trial. Proof is abundant that it has cured thousands of others, and why should it not cure you?
If you want special advice write Mrs. Pinkham, Lynn, Mass., for it. It is free and always helpful.

BOY'S FOOT BADLY SCALDED
Mother Says Zam-Buk Acted Like Magic !
Mrs. E. Capell, 31 Sydney street, Hamilton, tells how beneficial Zam-Buk proved in her family. She writes "My little boy, aged one and a half years, put his foot into a pot of boiling water. The foot was so badly scalded that the skin came off with his stocking, and he had a shocking scald, from instep to toes.
"I at once sent for a supply of Zam-Buk, and as soon as this was applied, it seemed to act like magic and gave him ease. It was good to tell that Zam-Buk stopped the pain, because up to applying it I had to nurse the child all the time, but soon after I applied Zam-Buk, he was anxious to get on the floor and go on with his play!
"I only used four boxes of Zam-Buk, and the scald was then entirely healed; so I consider this the best investment I ever made. I believe Zam-Buk would have cured the scald even more quickly had the boy been lying down all the time, but after beginning with Zam-Buk, it made the sore so easy that he was soon on his feet and playing about again.
"I might also tell you that my next boy to him, aged five years, had some bad broken chilblains. We used Zam-Buk on these also, and it cured them. For sores of any kind, I shall in future use only Zam-Buk."
Housekeepers everywhere speak similarly of Zam-Buk. It is a sure cure for eczema, rashes, ringworm chapped hands, scurvy, heat rashes, cuts, burns, ulcers, discharging sores, abscesses, piles, inflammation, festering and all skin injuries and diseases. 50c box all druggists and stores, or Zam-Buk Co., Toronto, for price. For skin diseases use also Zam-Buk Soap, 25c. tablet.

OUR CHILDREN'S CORNER

THE JOLLY OLD CROW.

On the limb on an oak sat a jolly old crow,
And chattered away with glee, with glee,
And he saw the old farmer go out to sow,
And he cried, "It's all for me, for me!

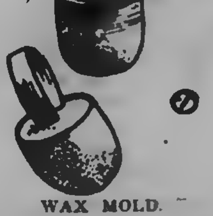
"Look, look, how he scatters his seeds around;
He is wonderful kind to the poor, the poor;
If he'd empty it down in a pile on the ground
I could find it much better, I'm sure, I'm sure!

"I've learned all the tricks of this wonderful man,
Who has such a regard for the crow, the crow,
That he lays out his grounds in a regular plan,
And covers his corn in a row, a row!

"He must have a very great fancy for me;
He tries to entrap me enough, enough;
But I measure his distances as well as he,
And when he comes near, I'm off, I'm off."

A WAX MODEL.

This is a little mold of wax to go in somebody's work basket. Any girl or boy can make one by melting some beeswax over a fire and then pouring it into a thimble to harden. However, the thimble must first have been greased on the inside so that the wax will not stick to it.



WAX MOLD.

Take a little piece of baby ribbon and dip the two ends of it into the melted wax after it has been poured into the thimble. When the wax hardens, the little ribbon will be held fast, and will make a handle to hold the mold up by.

AUTHORITIES REPORT ON CROP.

Prospects Good in Canada.

The seeding and growing season for the whole of Canada has opened late this year, and the month of April has been marked by hard frosts. But May has been favorable to cultivation of the land, and the rainfall has been sufficient for healthy vegetation.

Fall wheat, which is grown chiefly in Ontario and Alberta, showed an average condition of 82 per cent. at the end of April, being 89 per cent. in Alberta and 81 per cent. in Ontario. In Ontario, however, the April frosts were destructive in some regions; and from 12 to 34 per cent. of the area sown has been reported as winter-killed. The central countries, North of Lake Ontario, suffered worst, the average loss as reported being 34 per cent. In the Western counties 27 per cent. of the area in crop has been destroyed. In the Southern counties, North of lake Erie, the loss is 10 per cent.; in the Northern counties and districts, 12.6 per cent.; and in the Eastern counties, between the St. Lawrence and Ottawa rivers, 16 per cent. For the whole of Canada, the area winter-killed is reported to be 21 per cent., and the per cent. condition of the growing crop is 82.

About 12 1-2 per cent. of the clover was heaved out by the spring frosts, and the average condition of hay and clover at the end of April was 89 per cent. Alberta shows better than any other part of Canada, its average being 94 1-2 per cent. Nova Scotia comes next, with 93.75; and in Quebec, British Columbia and Saskatchewan it is 86, and in Manitoba 85 per cent.

It is not known just how long mosquitoes can live, but their average life is much longer than is ordinarily supposed. Thousands of them live through winter, hibernating or asleep in dark places, and even though the temperature may fall far below freezing they are not winter killed, but on the approach of warm weather become active again.

No Mystery.

"Son, why don't you marry Emily? You have been attentive enough to her."

"Father, I will never marry Emily. There is an insuperable bar to our union."

"What mystery is this?"

"No mystery. Only I asked Emily and she won't have me."

Evidence for the Defence.

"Now, then," said the magistrate, in a loud voice, "Mr. Baumgartner, you were present at this fray. Did Murphy, the plaintiff, seem carried away with excitement?"

"Nein; he vos carried avay on two piece poardts mit his head cut."

"That will do. You may stand down."

Licking postage stamps poisoned a girl in Fayette City, Pa. Washington ought to obey the pure food laws.

It is doubtful if old Diogenes would make out any better with a modern searchlight than he did with his lantern.

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

St. Lawrence "Crystal Diamonds"
may cost a few cents more on the hundred pounds than other lump sugar. Good things always cost more than inferior quality.
However, ST. LAWRENCE "CRYSTAL DIAMONDS" are really the most economical Sugar, because they go further on account of their matchless sweetness due to perfect purity.
To appreciate the superiority of St. Lawrence Sugar, compare it with any other sugar.

IF YOU ARE SICK YOU CONSULT A SPECIALIST
WHY ?
Because he has made a special study of the disease you are suffering from, and from the knowledge gained by years of experience knows just what treatment you require.
If you are going into a law-suit, you do the same—consult the best lawyer you can get, and find it cheap in the end.
Now, when you are considering taking Life, Fire or Accident Insurance, do you not think it would pay you to consult one who has had many years experience in that profession, and whose knowledge would be of use to you in enabling you to get the best value for your premiums, with the most liberal policies and absolute guarantees ?
If you want what is best in Life, Fire or Accident Insurance, you can get it by calling at, or phoning to
W. H. HILL'S GENERAL INSURANCE AGENCY
159, HUNTER STREET,
PETERBOROUGH, Ont.
Prompt attention given to the settlement of all claims.

THE CORRECTION OF
DEFECTIVE
EYESIGHT

It is very important that you have implicit faith in the ability of the Specialist who fits you with Glasses, since there are several important features which must be left solely to his ability and honor.

You cannot possibly appreciate the quality of lenses furnished, and yet on this feature depends the degree of satisfaction to be obtained from the use of glasses. In our Optical work we frequently find people wearing inferior and imperfect lenses, for which they have paid a full price. We will not economize in this department of our business, for we always insist on furnishing the best material at prices that are reasonable.

We believe you will be satisfied with the prices asked in our Optical Department, and know that you will be pleased with the results obtained.

YOUTH IS OUT ON BAIL OF $1000

Witnesses Not Present and Case Was Enlarged

Louis Vieser, came before Magistrate Dumble for trial yesterday afternoon at 3.30, but owing to the inability of some witnesses to be present, the case was enlarged until Oct. 25th. The lad's mother was present from Cannington. The family are of Russian extraction.

The charge that was read to the prisoner was that of the theft of $115.

Mr. G. N. Gordon is acting for the prisoner, who pleaded not guilty. Bail was secured for the sum of $1,000, in two sureties, the prisoner's for $500 and one put up by Mr. Abraham Low for the same amount.

JUDGE HUYCKE ONE OF ARBITRATORS

The arbitrators to decide the price to be paid by the C.N.R. to Mr. Pearce for his farm in the township of Hope, will meet to-morrow. Mayor R. A. Mulholland will act for Mr. Ramsden, of Toronto for the C. N. R. while his Honor Judge Huycke, of Peterborough, has been selected as the third arbitrator.—Port Hope Guide.

TWO MEN ARRESTED HERE GO FREE

Made Satisfactory Settlement at Belleville and Paid Costs

Belleville Intelligencer; Harry and Louis Stocker, the two young men who were arrested at Peterboro, on behalf of the police here, on a charge of defrauding some creditors, were yesterday afternoon, brought to the city by Chief Newton. Later in the day they were liberated on bail, and this morning appeared before the Magistrate to answer the charge upon which they were arrested. The parties conducted a shoe repairing business here, and also dealt, but not extensively, in shoes. It appears that they obtained credit from some parties here and also secured some money. Not being able to meet their obligations, they suddenly left the city.

This morning when the matter was brought up a settlement was proposed and the result was that, an amicable arrangement was effected and the young men were allowed to go. All costs in the case were paid by them.

Inspector Donald McPherson, of the Winnipeg police, has been appointed chief.

HARRY ADAMS

CORDAGE WORKS TO COMMENCE AGAIN

International Harvester Company of Chicago Will Have Operations Resumed at Once at Full Capacity.

It will be entirely new to the citizens of Peterborough to be apprised of the definite information that the Canadian Cordage company, which went into liquidation last January, has been taken over by the International Harvester Company, of Chicago, and that operations on a most up-to-date and extensive scale will be commenced immediately for the sole manufacture of binder twine.

Negotiations having been going on with the above company for considerable time in the endeavor to induce this large and flourishing concern to locate in Peterborough, the final result has been, that Mr. Rice, superintendent of the twine mills of the International company at Chicago, visited the city to-day and was in close consultation with local interested parties.

The outcome of the matter was the decision to commence immediate operations and run the present factory and plant to its fullest capacity. This means the employment of about 250 hands at least, right away, which can be easily seen will be a mighty boon for the city. It is hoped that the International Harvester company may decide to permanently locate in Peterborough, which, according to Mr. Rice, offers almost unparalleled advantages for an industry of its description. Mr Rice furthermore stated that in his opinion the city had one of the nicest equipped factories for the manufacture of twine possibly, outside of perhaps the plant at Chicago.

SAMPLE OF THE STORIES TOLD BY BLACKLISTERS

Fine of $12.60 Was Made Against the Guilty One

Another blacklister case was fought out this morning in police court, but all efforts to ascertain from the prohibited one, where he secured his liquor, were fruitless. He told a very ingenuous story, which failed to satisfy the authorities, of how he had purchased several bottles of whiskey in Port Hope on another occasion, going for a drive in a hired outfit, and taking along a bottle of whiskey for company. The next he remembered was of finding himself in bed at his home in East City.

CAUGHT WITH THE GOODS

P. C. Meagher received a call to East city on the night of Oct. 18th and gave evidence of finding the prisoner in bed with a decorated eye and a discolored condition of his brow. He stated that he had fallen out of the rig, which accounted for his injuries, but the constable discovered a flask of whiskey in the coat pocket of his clothes, and a bottle at the foot of the bed. The bottles were labelled Corby's whiskey.

The blacklister is a married man with four children.

His Worship after sternly censuring him for his folly and weakness, imposed a fine of $12.60 to be paid in ten days.

A Thanksgiving Dinner will be given in the basement of St James' Church on the night of Oct. 30th, from 6 to 8 o'clock, followed by good programme. Admission 25 cents. 3d w/s

AT REST

In the final summons to Mrs Fitzgerald at her home on London street, late yesterday afternoon, the fact of the silent visitor having called at many homes on this street during the year of 1911 is strikingly brought home to citizens of Peterborough. No less than on nine occasions has the hand of death entered homes on this street, one of the oldest in the city, and at almost every call Peterborough lost one of her oldest residents. Between Water and Aylmer streets, the death list during this year has been as follows;—Geo. W. Fitzgerald, Jacob Isbister, Geo. Schneider, George Hope, Samuel Sharpe, Thomas Jamieson, John Sawers, Miss Alexander and Mrs. Fitzgerald.

"THE RIGHT OF WAY"

Mr Sanford Dodge, has surrounded himself with a splendid company this season and will be seen in "The Right of Way." This great play is an adaptation from Sir Gilbert Parker's famous story of the same name, the dramatization being made by America's greatest playwright, Eugene Presbrey.

"The Right of Way was originally produced at Wallack's theatre, New York city, by Klaw and Erlanger, and it immediately became the sensation of the theatrical world. Not to have seen it is to miss seeing one of the most talked of dramatic productions of modern times.

Mr Sandford Dodge will present this splendid new play at the Grand, Tuesday, Oct 31st. He carries a car load of new scenery and properties and the production will be first class. Prices will be made to suit all.

Charley Steel: "Do you love me enough to live with me alone away from the world?"
Rosalie: "You alone are my world."

From "The Right of Way" which comes to "The Grand" next Tuesday, Oct. 31. Seat sale opens Saturday.

WEDDING BELLS

ROWLEY—RITCHIE

Ottawa Free Press— The marriage took place this morning at a quarter to eight, in All Saints' church, of Miss Elsie Ritchie, youngest daughter of the late Chief Justice, Sir William Ritchie and Lady Ritchie, to Mr. W. H. Rowley. Owing to recent bereavements in the bride's family, the wedding was a very quiet one. The Rev. A. W. Mackay, rector of All Saints performed the ceremony, assisted by Rev. G. P. Woollcombe.

The bride, who was given away by her brother, Mr. J. A. Ritchie, looked very handsome in a gown of white crepe meteor, a corsage bouquet of white gardenias, and a large black velvet hat with willow plumes.

Both bride and groom were unattended, and only the immediate relatives and friends of both were present. Mr. and Mrs. Rowley left immediately for Montreal and New York, and after their return will reside at "Worfield House." Among the many lovely gifts received by the bride was a diamond and sapphire bracelet, the gift of the groom, a diamond pendant from Earl and Countess Grey, and a handsome dinner set of Crown Derby from the Manufacturers Association.

A few of the guests who were present in the church were Mr. and Mrs. Hazen Ritchie of Peterborough, Mr. and Mrs. J. F. Smellie, Mr. and Miss Nicholson, Miss Grace Ritchie, Mrs. W. E. Hodgins, and Miss Betty Hodgins of London, Ont., Mrs. Frank Ritchie and her three children, Miss Grace, Master Frank and Archie Ritchie, Mrs. Rowley, Mrs. Helen Rowley, Mr. and Mrs. Owsley Rowley and Miss Grace Rowley of Montreal, Mr. and Mrs. Harry Rowley, Miss Laura Kains, Mr. and Mrs. Henry Blakeney, Mrs. McKeil, Miss Nora McKeil, and a few others.

ENGINE HOUSE DAMAGED AGAIN

Baggage Car of Belleville Train Guilty This Time

The north end of the engine shed in the G.T.R. yard has been the butt of several hard knocks during the past few months and at 8.15 o'clock this morning the baggage car of the Belleville train knocked the whole end out. It was purely a case of misunderstanding. The cars of the train which was in charge of Conductor Adams, were being backed along the west siding in the direction of the building and owing to some misinterpretation of orders, it appears one of the brakies loosed two cars from the others and their speed was so great that they could not be stopped before they hit the end of the building.

Only a short time ago the east part of that end was damaged by someone starting an engine and that hole was patched with timber and the bricks carted away. This morning the remaining brick portion went down along with the board structure.

It was fortunate that there was no one near at the time of the accident this morning as the bricks were thrown out quite a distance. The car was only slightly damaged by the impact and was attached to the train.

MR. Wm. J. TODD IS CLIMBING

Peterboro Boy is Manager in a Moose Jaw Establishment

Peterborough friends will be pleased to hear of the success of Mr. Wm. J. Todd, son of Mr. R. J. Todd, Aylmer street, he having secured the lucrative position of manager of the carpet and drapery department with the MacLeod company of Moose Jaw, Sask.

Mr. Todd got his start in this city, having been connected for some time with Richard Hall and Sons. Prior to accepting his new position at Moosejaw he was with J. F. Cairns, of Saskatoon, Sask.

DISTRICTS OF ST. ANDREW'S CHURCH

The congregation of St. Andrew's church held the first of the district meetings last night. The districts dividing up the congregation are as follows.

District No 1 consists of all that territory lying west of Rubidge and south of Charlotte street and the meeting will be held in the home of Mrs. Shannon, 493 King street.

District No. 2 consists of the territory east of Rubidge and south of Charlotte and will meet at the home of Mr. Archie Moore, 260 Aylmer street.

District No. 3 is the territory to the west of Rubidge and between Brock and Weller on the north and Charlotte street on the south. This district will meet at St. Andrew's manse.

District No. 4 is the territory to the east of Rubidge and lying between Brock and Charlotte to the Otonabee river. This district will meet at the residence of Mr. J. John, 418 Rubidge street.

District 5 consists of that section of the city to the west of Rubidge and to the north of Brock and Weller. This meeting will be held at the home of Mr J. Walter Green, 543 Brock street.

District No. 6. This is the territory east of Rubidge and north of Brock and the place of meeting is the home of Mr W. J. Chisholm, 559 Water street.

District No. 7, East City. This district will meet at the home of Mr. Geo. A Gillespie, 120 Hunter street east.

A cordial invitation is extended to the members and adherents of St. Andrew's church to be present at these gatherings.

OFFICERS CANED LIEUT. HODGSON

Farewell Reception Tendered Him at the Armories

Lieut Hodgson of No. 5 Company, 57th Regiment, was tendered a farewell reception by the garrison officers at the Armories last night, during which he was presented with a gold headed cane. During his seven years served with the Peterboro Rangers, Lieut. Hodgson has shown himself to be an efficient officer in the regiment and a thorough gentleman among his brother officers and the men.

Major Walker presided and Major Mills occupied the vice chair. Short, appropriate speeches, were made by several of the officers. The health of the guest of the evening was neatly proposed by Lieut. Col. Clegg, and Lieut Hodgson made a happy reply.

Major Medd and Capt. Ackerman were present from the Third Prince of Wales Dragoons and 24th Artillery, respectively.

The cadets of which Lieut. Hodgson has been in charge has been the initiative step of present officers of the regiment and the training received, has ably fitted them for the positions now held.

Dr. Patterson-Smith

Rev. Dr. Paterson Smith, who is to preach at the anniversary services at St. John's church, on Sunday next, will arrive from Montreal, on Saturday afternoon. Any who desire to meet him are invited to call at the rectory, from 7.30 to 8.30 o'clock, Saturday evening. A special invitation is extended to the clergy of the city.

An Excellent "Buy"
the preferred stock of a big, prosperous, expanding business concern — a concern controlling Natural Resources which are bound to double the value of its securities before long.

This preferred stock is cumulative, profit-sharing — the 7% dividend payable twice annually.

You can resell this stock to us or the company, at par, plus 7% one year from the date of your investment.

Night Classes

— AT THE —

Peterboro' Business College

(FOUNDED 1885.)

Many ambitious young people are taking advantage of the splendid opportunity to improve their education by attending the night classes at the Peterborough Business College. These classes are conducted on Monday, Wednesday and Friday nights, and students receive instruction in any one or all the subject of the Commercial or Stenographic Course. By this method, young people may learn while they earn, and thereby increase their salaries and better their positions without losing time from their work. You may enter any time, but it will be to your advantage to enter now. The cost is small, while the benefit to be derived therein is inestimable.

The Business world is full of opportunities, but the best positions are open only to those who are competent to fill them. By attending Night School at the Peterboro' Business College, you may become competent.

GEO. SPOTTON - President
E. E. LOGAN - - - Principal

CADETS CHEER MR. HODGSON

They Regret His Departure From the City

Yesterday afternoon in the Armories Mr. Hodgson reviewed the Collegiate Cadet Corps prior to his departure for the West. After the battalion had marched passed in column and quarter column, and had been formed into line, Cadet Major Mowat, on behalf of the cadets, expressed their regret at his departure, and their wishes for his future success. He then called for three cheers for Mr. Hodgson, which were given with much enthusiasm. In reply, Mr. Hodgson referred to his conection with the corps, for seven years, and reviewed its growth, from a single company to its present status as an organized battalion.

TWO OF A KIND

Heavy Fines Imposed in Liquor Case in Police Court

Stiff fines were meted out this morning to a blacklister, and a young man who was found guilty of supplying him liquor. The habit that is so very common, of black listers denying all knowledge of where they secured the intoxicants, is so firmly established that the Magistrate and Chief and License Inspector Stewart, are determined to stop it, and make a conspicuous example of offenders.

The blacklister was fined $12.00 and the youth who caused his temporary downfall will have to pay $27.00. Neither appeared in court, but to License Inspector Stewart, they both confessed their guilt, previously.

CITY'S FINANCES

Bridgenorth Disorderly to Contribute $5.75 to the Treasury

A Bridgenorth resident, looking as if his night in the cells had not been very refreshing, entered the prisoners' box in police-court to-day in an uncombed and unwashed condition. For acting disorderly while drunk yesterday afternoon, he was locked up in the cells.

He pleaded guilty and will have to land over $5.75. His resources were $3.25, but Sandy expects some kind pal to come to financial assistance with the balance.

WORK STARTED AT TURNER AND SONS

Baptie Bros. to Add Two Stories to Plant

The enterprising firm of Messrs. J. J. Turner and Sons having decided to add two stories to their factory, let the contract this morning to Baptie Bros. There are already three stories in the factory and with two added it will be one of the largest plants of the city.

As well as for the building operations, the contract has been let for the heating of the present plant by steam also the store north of the Opera House, now occupied by Messrs. Reynor and Cunningham. The work in the latter place has been commenced.

WEDDING BELLS

MIDDLETON—ROBINSON

On October 18th, the George st. parsonage was the scene of a quiet wedding when Miss Mary E. Robinson and Mr. James F. Middleton, both of this city, were united in the holy bonds of matrimony, by Rev. Isaac Couch.

The bridesmaid was Miss Georgina Dainard, while the groom was assisted by Mr. Wm. I. Elliott.

Mr. and Mrs. Middleton are residing in Peterboro.

BARCROFT—DUGGAN.

A pretty wedding took place at 2.15 yesterday afternoon at the home of Mr. Thomas Duggan, 730 Bethune street, when Myrtle Clementina, daughter of Mr. Thomas Duggan, and Mr. Ernest Barcroft, of Toronto, were united in the bonds of holy matrimony by the Rev J. R. Webb.

The bride, wearing a beautiful white gown, was given away by her father, and the bridesmaids were Miss Stella Duggan and Miss Margaret Campbell.

Mr. and Mrs. Barcroft left for a short trip by the 4.28 C.P.R. train, after which they will reside in Toronto.

Mr Wm. Franks wishes to thank his many friends and acquaintances for their kindness and sympathy shown him during the illness and death of his wife.

The demand for girls for domestic employment, states Mr Howson, was never so great as it is at present. Constant enquiries asking for female help are being received, and there are few girls coming out from the old land to meet the demand.

The two children of Ed. Montgomery have been taken over as wards of the Children's Shelter.

Dedication Music

A practice of St. John's choir is called for to-night to practice dedication music, boys at 7.30 and adults at 8 o'clock.

OBITUARY

Mrs. Mary Ann Fitzgerald

At 4.45 p.m. yesterday, Peterboro lost one of her most valued citizens in the person of Mrs. Mary Ann Robinson, relict of the late Mr. George Fitzgerald, who passed away on January sixteenth of this year.

The late Mrs. Fitzgerald was born in Smith township in the year 1851 the daughter of the late Mr. and Mrs. J. Robinson. Thirty-eight years ago she was married to the late Mr. Fitzgerald, and they farmed in Smith Township, thirty years, where deceased made a host of friends, who will be deeply grieved to learn of her demise. Eight years ago, the Fitzgerald family moved to Peterboro and have since resided at 174 London st. After an illness of only ten days duration, Mrs. Fitzgerald passed away last evening.

A believer in the Baptist doctrine the late Mrs. Fitzgerald was a member of Murray Street church and was always interested in its welfare.

Those left to mourn her loss are four sons, Messrs. Clarence Vancouver; Percival, Peterboro; Walter and Alex., at home; four daughters, Mrs. H. McConkey, Smith; Mrs. Hanna, Montreal; Miss Edna, at home; three brothers, Messrs. James Robinson, Oil City; Christopher Robinson; Sagertown, Porter Robinson, Alberta; and one sister, Mrs. Brookhouser, Erie Pennsylvania.

The funeral will take place at 2.30 o'clock Friday afternoon from the family residence, 174 London street, to Little Lake cemetery. Rev. J. B. Webb will officiate at the service, at the home at two o'clock.

FUNERAL OF LATE ROLLAND GRIFFIN

The remains of the late Mr. Roland Griffin, former mate of the steamer Water Lily, whose death occurred at Frankford, arrived in the city last night on the Belleville train and were conveyed to deceased's late home by a Lakefield undertaker.

The funeral will take place at one o'clock to-morrow, from the late residence at Lakefield, to Little Lake cemetery.

The late Mr. Griffin was fatally injured when he fell down an embankment some twenty or thirty feet.

Thanksgiving Dinner by Ladies' Aid of St. Andrew's Church, on Monday, October 30th, in School hall. Dinner from 5 to 7 p.m., with good program. Admission 25c 3d

PERSONNEL OF THE SHAWANAGA HUNTING PARTY

Those Who Leave Saturday for Annual Trip to Shawanaga

Captain Charles Gladman and the Shawanaga hunting party leave Saturday afternoon on the 4.28 C.P.R. train for Shawanaga, Parry Sound, where the annual camp will be held. The party will travel in special coach and Mr. Wm. Sharpe will be the chef.

Those making up the party are: Charles Gladman, Thomas Wilson, Martin McFadden, Dickson Best, John Bennett, Peter Kerr, George Metcalfe, Chas. Curtis, Albert Curtis, Jos Pentland, Wm. Bothwell, Judge Roger, Cobourg; Bert Lillie, Toronto; L. Steele, Lakefield, and Jas. Metheral.

Mr. Sam Ray, a veteran member of the party, may be unable to take the trip on Saturday, but hopes to spend some time at least at the hunting grounds.

ALD. JAS. BROWN'S SISTER IS DEAD

Passed Away at Toronto—Funeral Friday Afternoon Here

Word was received in the city at six o'clock last night that Miss Prudence Brown, sister of Ald. James B. Brown and Mr. Thomas Brown, cattle drover, of this city, had passed away in Toronto yesterday afternoon.

The late Miss Brown was born in North Monaghan, the daughter of the late Mr. and Mrs. James Brown.

Those left to mourn her loss are four brothers, namely, Messrs John Brown, North Monaghan, Thomas Brown, Peterborough, Ald. J. B. Brown, Peterborough, and Mr Henry J. Brown, North Monaghan, and two sisters, Miss Rebecca Brown, North Monaghan and Mrs. Fred Sanderson, city.

The funeral will take place at three o'clock to-morrow afternoon from the residence of Mr. Thomas Brown, 176 Lock street, to Little Lake cemetery. Rev. J. G. Brown will officiate.

SHOWER FELL

To Help the Children of St. Vincent's Orphanage

The children of St. Vincent's Orphanage, were the recipients yesterday afternoon and evening of their annual shower of articles and clothing, underwear and other useful things, the affair taking place in St. Alphonsus Lyceum. It was a great success in every way, and was attended with a splendid contribution of all the things which will be very necessary and convenient for the thirty or more little ones of the orphonage.

In the evening, an informal tea was served to those who so generously contributed. A number of the clergy were present including Father McColl.

The average number of child inmates of the orphonage is about thirty-five.

Those in charge of the children desire to express their gratitude to all who so kindly contributed towards making the annual affair such a success.

SHOOTING AT WARSAW

Local Team Won With Margin of 11 Points

Capt. Watt, Lieut. Ackerman, Sergt. Halpin and Private Fitzgerald, in answer to a friendly challenge from the Warsaw Rifle Association, went to Warsaw yesterday and won in a shooting competition by 11 points, the ranges being 200, 250 and 600 yards.

The Warsaw team was Messrs. W. Selkirk, W. Bell, B. Bell and B. Hendren and the total points were: Peterborough, 348; Warsaw, 337.

FINANCE COM.

Chief of Police Asked to Make Inquiries

A communication was read to the Finance committee last evening regarding Sarah Burns, who was admitted to the hospital for the insane at Woodstock, and is said to have come from Peterborough. The chief of police will be requested to have further inquiries instituted about her.

There were present at the meeting Aldermen Bradburn, Metheral, Butler and Duncan.

A letter from the Canadian Municipal Journal was received with reference to a subscription of 12 copies for $10 from November to January 1st, 1910. On motion one copy for the city clerk's office will be subscribed for.

The Lancashire Motor Company will be paid $1,367.62 on account.

A motion was also carried advising that the pay sheets for the special work in connection with the south end sewerage be approved of.

The passing of a large number of accounts concluded the session.

HOLIDAY TRIP TO STONEY LAKE

On Saturday, October 28th, Steamer Stoney Lake will leave Lakefield on arrival of the morning train and on Monday, Thanksgiving Day, it will leave Lakefield on arrival of the morning train for the Lakes, returning to connect with the 4.40 train Thanksgiving Day afternoon for Peterborough. 2d

ATTEMPTED TO SINK SCOW

A case was reported to the chief of police by Mr. Pinchin, of the Peterborough and Lake Simcoe Navigation company, of an alleged attempt by some party or parties, to sink a scow belonging to the company. A plug that was in the scow is reported to have been pulled out, thus allowing the water to enter. Fortunately the attempt was discovered in time and the plan frustrated.

O'K

Extra Mild, Remember

Many people would drink ale, in preference to all other malt beverages, if ale did not make them bilious.

This O'K brew is brewed especially for those people. It is extra mild and extra light, and lets you enjoy the creamy deliciousness of real old English ale without the heaviness and excessive bitterness. In easily—opened seal stoppered bottles. No broken cork or tinfoil in the glass.

O'Keefe's

GOOD BASKETBALL AT Y.M.C.A. GYM

Athletics and Hungry Five Had to Work for Honors

Two fast games of basketball were played in the Junior Collegiate Class basketball league Tuesday afternoon the first game was between the Athletics and Giants, and after a see-saw game first one team leading then the other, the Athletics pulled the game out of the fire with a score of 18 to 14.

The second game between the Hungry Five and White Sox was even more close, the checking being very close which kept the score down. At the expiration of full time the score was found to be a tie 8 all. Play was resumed until one team scored a basket, which fell to the Hungry Five, making the final score Hungry Five 10, White Sox 8.

STRATTON HORSES SOLD AT TORONTO

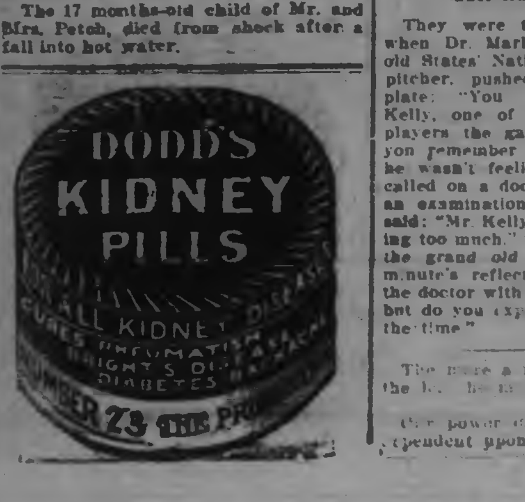
Perfect Dream Brought Top Price of $1,600

Toronto, Oct. 26—More than thirty thousand dollars changed hands at The Repository yesterday, when the greatest sale of blood registered horseflesh ever held in the history of Canada took place. Over eighty horses were sold, which makes an average price of over $400 per horse.

The whole of Mr. J. R. Stratton's stable was sold, comprising eleven horses, all of which have won names some at Olympia, London; some at the Richmond show in Surrey; and others at Madison Square Garden, New York, and all the big shows in the Dominion.

Mr. Stratton's "Perfect Dream" a chestnut gelding, 15.2 hands, headed the list, fetching the high price for a gelding of $1,600. His purchaser was Mr. T. A. Crow, one of the best judges of horseflesh in the Dominion, who was the principal buyer. Other keen purchasers were the Graham Bros. of Claremont. In addition to Mr. Stratton's animals, the stables of Mr. Charles Willmott and Mr. B. R. Hepburn, M. P., were disposed of.

The 17 months-old child of Mr. and Mrs. Petch, died from shock after a fall into hot water.



DODD'S KIDNEY PILLS

GOLF

The finals in the golf championship for the club cup of 1911, will be played at the golf links on Saturday between Messrs. A. H. Stratton and H. O. Hill.

"DUCK" O'BRIEN

O'Brien the pitcher recently transferred from Denver to the Boston club has won 24 games out of 2 this season. He is also 24 years old.

OLD MEN MADE YOUNG

"An old man's game" used to be the scornful comment on the game of bowls. If ever there was truth in the jibe there is none now. Bowling, which has an ever-increasing bunch of followers in Canada, is still played by old men, and played by them at its best, but there are many young men who find on the velvety green as keen enjoyment and physical refreshment as are to be found in any other sport. Few games offer greater opportunities for social intercourse. Bowling is one of the games in which the players can "let themselves go" without detriment to the play. Excepting always curlers — who, indeed, are of the same breed — bowlers when on the green mingle with the varying fortunes of the game more of jollity and good fellowship than is possible in almost any other pastime. And thus old men are made young again.

Must Have Diet Change

They were telling baseball yarns when Dr. Mark E. Baldwin, famous old States' National and Brotherhood pitcher, pushed this one over the plate: "You all remembers Mike Kelly, one of the greatest baseball players the game ever knew. Sure you remember Mike. Well, one day he wasn't feeling any too good and called on a doctor. The latter, after an examination, turned to Mike and said: "Mr. Kelly, you have been drinking too much." This was too much for the grand old catcher, and after a minute's reflection he came back at the doctor with "That's all right, doc; but do you expect a fellow to eat all the time."

The more a man thinks of himself the less he talks of himself.

Our power of sympathy is largely dependent upon our sensitiveness.

SPORTING COLUMN.

THE BELFAST CHICKEN

With a fame extending to wherever boxing is known, Bill Clark, familiarly christened "The Belfast Chicken" has

decided to leave St. Louis, the home of his adoption and return to old Ireland the home of his youth. He owns to 87 years but is active as a forty-years-old.

THE BASEBALL FAN

Humorously Told Tale of How the Scoffer Gets Dragged Into the Ranks of Rabid Enthusiasts.

The lure of baseball is continuous, says an athletic writer, and the ranks of the devotees swell with each recurring season

The man who is not yet converted can't see anything in baseball. "Why go out there to see some galoots knocking a ball around while a few thousand more galoots yell themselves hoarse about it?"—that's his question. "But—the sport of it," you protest, "the excitement, the zest, the vim, the recreation of it." "Yes," say he, "but you don't play ball yourself, do you? You just sit there and watch the other fellows — you take your exercises by proxy." "But, man," you plead, "it isn't the exercise it's the glorious, riotous tension of tight plays, the appropriated delight of seeing your favorite do the stunts you would like to do. You really feel as if you were doing it yourself. It's the attack and strategy, the defense and countercharge, the—oh, hang it all! It's the game, man! It's the game!" After all you feel that your argument is lame. There is something you can't convey. The virus is in your blood—you know that; but you also know that the man who has never fanned doesn't know, and the worst of it is he never can know, until he becomes infected. You might as well try to argue the yellow fever into a man as to try to argue his apathy toward baseball out of him.

There is only one cure—drag him to the game. Once there, he is in a vortex of electrical enthusiasm to which only a wooden tub would not respond. He is caught in a network of emotions, he breathes the breeze of daring, the nostrils of his soul scent the battle atmosphere from afar. Human batteries before him, beside him, behind him, play upon him with irresistible power. Watch him! Watch him! Who let out that whoop? Why, it was your friend, of course. It doesn't matter that he cheers at the wrong time or bellows encouragement to the out-of-town club. He's up in his seat. He throws his hat. He groans at the umpire. He shouts incoherent advice to the players. He sits like a man on a wire while a player crouches away from a base to make a record steal. He fairly exudes sympathy when a gallant attempt fails. First thing you know he's beginning to distinguish the players and call them by their first name. Rather proud of that, he is, and works it to the extent of his limited knowledge. He is experiencing his first intoxication by baseball. Between innings he gets into conversation with someone and learns something about "standings" and "averages," and on the way home on the car he lets casually drop a few of the choice slang phrases of the game.

ATHLETICS AND THE CHURCH

Speaking, recently, on the subject of athletics Rev. Dr. Frank W. Gunsaulus of Chicago, who, as pastor, author, and orator, has a wide popularity, said the value of physical culture as an adjunct to the work of the pulpit was beginning to be more and more recognised.

Wholesomeness of the body is closely allied with wholesomeness of the mind and indeed with the spiritually of the soul. Such wholesomeness can only be attained by the practice of what may be called athletic hygiene, a term that includes all things that have to do with the welfare of the physical being. Therefore, it is the privilege and should be the duty, of the church to do all that it legitimately can to encourage clean athleticism among those who come within the scope of its influence. I speak more particularly of our young men and women, although for that matter, there are a good many older people filling our pews who would be none the worse and much the better if they would at times seek recreation with the help of golf-clubs or fishing-rods; horse or afoot, instead of invariably trying to find it in library or club; dining-room or theatre.

CHINESE EMPEROR PREPARING TO

(Continued from page 1)

are rumors of mutinies, retreats, and desertions.

It is now said that the engine drivers who previously were reported as having been shot for refusing to take the trains forward, were really shot because they proceeded, the soldiers not desiring to meet the enemy. The foreign engineer, Bouillard, with his staff, will go south to-day and endeavor to reorganise the railway traffic for Yin-Tchang.

Nevertheless, in spite of disorganization, inability and disaffection, the army evidently has moved steadily forward. A wireless report from Hankow last night indicated that the Imperialist and revolutionary forces are already closely in touch.

The Government authorities have succeeded in arresting a large number of students who attempted a manifestation favoring rebellion in Tientsin.

Fear Mohammedan Troubles.

Toronto, Oct. 26.—A cable from Honon, China, to the Presbyterian Foreign Mission office in Toronto, yesterday, states that the situation is quiet there. The movement among the Mohammedans is a source of some anxiety among the mission officials here, the church having some forty-nine missionaries in Honan Province. Should an anti-Christian feeling be stirred up by them, there is a possibility of the entire Christian population being wiped out.

Welland Conservatives.

Niagara Falls, Ont., Oct. 26.—Welland County Conservatives will hold a convention in Welland this afternoon to nominate a candidate for the Legislature. Bertie, Stamford, Thorold Townships have instructed their delegates to vote for the re-nomination of Evan Fraser. Dr. F. W. Wilson of this city is seeking the nomination and claims to have the support of a majority of the delegates from this city.

ANIMAL LOVE

Mother love is universal and there is no love like the mother love. Most of the high and lofty loving in this world is done by mothers. Apart from this the work of wooing falls to the male members of the family whether it be the human family or some one of the other animal tribes. We read how, ages ago, a Bulbul, or Oriental Nightingale, wooed a white rose until it blushed red, and that was the beginning of the red rose. The Spanish Cavalier stands out in the rain and serenades his "Dolce Mia" until there is a crick in his neck, while she sits sheltered in a window above.

The cackle of the loon may be a love song for all we know. Maybe that's what made him looney in the first place

The wild moose bellows his passion across the lakes and as likely as not the answering call is from a bark horn in the hands of a hunter, luring him to death.

It seems a sizzling shame, but if you will take a Grand Trunk train and travel into the "Highlands of Ontario" you will find men doing that very thing, arguing, doubtless, that all is fair in love and war.

Dr. Anna Shaw, has been re-elected president of the National American Woman Suffrage Association.

Andrew Carnegie has been nominated as lord rector of Aberdeen University.

German Elections.

Berlin, Oct. 26.—It was officially announced yesterday that the elections for members of the Reichstag would be held on Jan. 12. The present session will probably close at the end of November or early in December. Meantime the Reichstag hopes to dispose of the labor exchange measure, the new workmen's insurance bill and reform the criminal code. Chancellor von Bethmann-Hollweg will probably reply to the interpellation concerning the Moroccan negotiations with France.

George Will Case.

Kingston, Oct. 26.—Two months ago, when the famous George will was found, it was discovered that some person had tampered with it. The figure "four" had been changed to "fourty," the spelling being incorrect, showing it had been changed. When it came before Chief Justice Mulock, in the assize court, he ordered that the word "four" be accepted as the intent of the testator. New settlement papers between the widow and other interested parties are being made out.

One Wife's Woes.

Montreal, Oct. 26.—While listening to the torrent of charges against him, made by his wife, Patrick Ferrier swooned and fell in the prisoner's dock and his trial had to be postponed.

His wife claims that in four years of married life all he has ever given her was $1.50. He had beaten her and in one of the beatings he had kicked her when a child was about to be born, and the baby died before birth. Another child had died of privation. He had become a cocaine fiend and when she remonstrated he beat her. She wanted him sent to jail for a long time, so that he would not bother her.

WARSAW NEWS

Fine Reception Given to Mr. J. A. Sexsmith M. P.

Special Correspondence.

Warsaw, Oct. 25.—The Young Conservative Club, of Warsaw, gave a reception to Mr. J. A. Sexsmith on Wednesday evening. The town hall was packed to the doors with Conservatives for an oyster supper was one of the chief features of the program. Addresses were delivered by the Rev. Brown, Mr. Thompson, Mr. Langley, of Lakefield, and Mr. J. A. Sexsmith. Mrs. Sexsmith accompanied her husband and enjoyed the hearty welcome extended by the club

The Methodist congregation gave a sacred concert last evening in aid of the furnace fund. There was a good program prepared and a large crowd gathered to enjoy it.

The regular meeting of the Warsaw Woman's Institute was held at the home of the President, Mrs David Miller. The officers were all present and a large percentage of the members. The president's sister, Miss Coleman, gave a splendid address on Oriental life and customs, having been a missionary for some years. During the address a Turkish lunch was served. Rev. Mr. Brown and Mr. Huffman were present in behalf of the Y. M.C.A. to solicit aid from the W.I. in the renting of a hall. It was decided to pay one dollar per month, provided they might hold their meeting in the hall once a month, and have their library there. Mrs. Robert Payne and Mrs. Arthur Edwards were sent as delegates to Toronto to the convention.

Birth.—Friday, Oct. 20th, to Mr. and Mrs. Albert Roe, a son.

Mr. and Mrs. Fleg. Bell entertained a large number of friends and acquaintances with a dance on Friday night.

Mr. Charles Bolton, who has been in the west for some time, arrived home on Monday evening.

The Y.M.C.A. members are having splendid times in the town hall Saturday evenings.

Mr James Haggis, of Peterborough spent Tuesday and Wednesday in Warsaw visiting friends.

The Bishop of Toronto purposes visiting Stony Lake mission on Nov. 3rd. Confirmation will be held at Young's Point.

BENSFORT BRIEFS

Special Correspondence.

Bensfort, Oct. 25.—Mr. Herbert Gendron, who has been residing in the eastern extremity of our community, on the property formerly owned by Mr. Wm. Overend, has departed for Havelock, and Messrs. John and Fred Watkins have moved into the property vacated by him.

Mr. William Murney's sale of farmstock and implements took place on Wednesday, 18th. Auctioneer Wilson, of Port Hope, conducted the sale. Mr. Murney and family purpose moving to Wiarton, a former place of abode, Mr. Thompson Huggins having rented the property that they are leaving.

We have had little news from the field of sport for some time. This was perhaps owing to the summer season not being a favorable time for athletic performances. One of our boxing principals is now employed with Mr. James Whittington, and we hope some course of action may soon be decided upon.

Mr. and Mrs. Finnie, of Dakota, have been renewing acquaintances in this city a short time ago.

Master Harold Montcrief was the guest of Mr. John Finnie on Sunday evening.

Mr. Harry Kerr is making preparations for next year's haying, having purchased a valuable mower at Mr. Wm. Murney's sale.

Mr. Louis Wedlock, of Toronto, has been home for a few days' vacation during the past week.

Mr. Thos. Bradshaw, who has spent the past two months in the Northwest, returned on Saturday, feeling much refreshed after his pleasant trip.

The Bensfort bridge was completed during the past week. Considerable delay was experienced through neglect on the part of Mr. Samuel of Cobourg, in completing his contract for material for re-planking. Reeve Waterman superintended the construction work, which was controlled by Messrs. Reid and O'Heir.

Miss Lizzie Pue has returned from Allendale, where she has been visiting during the past week.

We observe that Lorenz and Tannerville are advocates of sulky plows for ladies. We hope in the event of the idea becoming popular that Bensfort may also adopt the plan.

Miss Annie Perrin has been visiting friends at Oakwood recently.

Miss Sisson of Peterboro, a former resident, has been renewing acquaintances around here during the past week.

Mr Harold Nurse is becoming quite skillful in engineering, being in charge of the company engine, which operates the machines belonging to their respective shareholders in our community. His last threshing was at Mr. James Thompson's.

Tannerville expected to be the object of criticism by Bensfort and Lorenz, in being termed imposters, as Douglasville and Lakeview had been, but probably their own convictions of guilt, as expressed in their suspicions may be as influential as anything we might say.

CONVENTION TO BE HELD AT OTTAWA

Ottawa, Oct 23—Ottawa was decided upon as the place of holding the next annual convention of the Canadian Forestry Association at a meeting of the Directors on Friday afternoon. The time is February 7th and 8th, 1912, which coicides with the annual meeting of the Canadian Lumbermen's Association, and it is proposed that the two Associations shall hold a joint banquet on the evening of February 7th. Both associations expect an array of distinguished speakers, and the event will be one of the biggest of the kind ever held in Canada. Efficient committees have been appointed to look after the different features and Mr. Frank Hawkins, Secretary of the Lumbermen's Association, and Mr. James Lawler, Secretary of the Forestry Association, both of whose officers are in Ottawa, will co-operate in the work.

HOTEL LENOX BUFFALO, N.Y.

FIREPROOF THROUGHOUT

MODERN HIGHEST GRADE
UNEXCELLED SERVICE.

Conveniently located in the most beautiful section of the city Buffalo's leading tourist hotel.

C. A. MINER, Manager.

WOMEN CROOKS ARE NOT CUTE

Study by Criminal Expert Shows that the Lady Lawbreaker Too Often Neglects to Cover Up Her Tracks.

Several recent crimes in which women played the leading part have moved the French writer, Jean Frollo, to study women criminals.

The woman criminal, he says, never displays in her exploits what is known as the "simplicity of genius." Her crimes are always too complex, too ramified to escape close observation on the part of close investigators. There is plenty of ingenuity in them—more perhaps than in those of men—but where the man criminal leaves the one inevitable overlooked point the female of that class will leave a dozen.

In particular do many essentially feminine attributes display themselves in women after the commission of a crime. Frollo assures us that criminal woman cannot conceal her secret. She must blab; and as another trait is her unfailing desire for sympathy in her hour of tribulation, it follows that the inevitable confident is bound in long, or short time, to extract the secret from the peccant feminine.

And as for returning, like all criminals, to the scene of the committed crime, woman is far worse, in this case, than man. Just as when injured woman intends to take her life she always returns to take it where her traducer stabbed her heart, and her love, so the woman who has committed a foul crime always returns to the theatre of tragedy.

MOST WICKED CITY ON EARTH

Russian Town of Irkutsk Alleged to be Toughest Known to Modern Times, Producing 500 Murders Per Year.

One would hardly recommend Irkutsk for a rest cure. With a population of 120,000 persons crammed into a couple of square miles on a bend in the Angora river, it produces 500 murders in a year, with an average of one arrest for each fifty killings. And for each ten arrests there are but five convictions. This is a transcription from the city's criminal records. In one day last month there were twenty-two murders within the city limits.

Irkutsk is pretty gay at nights now, but the citizens look back enviously to the zenith of its career in the days of the recent Japanese war. Then, it is said, champagne and wines were often cautiously transported free of freight charges from St. Petersburg and Moscow in steel cars labeled Powder — cars militant with painted imperial eagles and Cossack guards. A colonel of the regiment openly boasted in the Metropole restaurant recently that more champagne was drunk in Irkutsk in one month during the Japanese war than is sold on Broadway, New York, in half a year.

The fun at Irkutsk starts at midnight; the city is as dead as a Sunday an hour before. Then the moving picture shows, of which there are three to a block on the Bolshoiskala spin off their last films and the officers and mining engineers — for all the world goes to moving picture shows in the towns of Siberia — crowd into the restaurants.

Here, too, the sons of Uncle Sam keep the old flag flying. Last year there were, for instance, the young Harvard graduate of a town in the north of Pennsylvania and his friend the clergymans' son. They sojourned here for three hectic weeks, spending $25,000 in one hotel during that time. The Harvard man disbursed $1,000 in one day and another day had $2,500 stolen from his person.

An Unstable Platform

One of the most remarkable political meetings on record is described in a Paris contemporary as having taken place at Riga. The Letts Socialists desired to hold a meeting. The Riga police expressed an opposite view, and then the contest began in reality. It was brains versus determination. Wherever the Socialists determined to pitch their camp the police checkmated them. At last one of the Socialists conceived a brilliant idea. He circularised the members of his organisation to have a kind of swimming match. Of course, the competitors were the orators. They went into the water, and the assemblage stood around. Then swimmer after swimmer delivered a speech, and invited questions from those on land. It is claimed that, although somewhat damp, the meeting was a great success.

Courted His Own Mother

The custom of finding a mate for life through the medium of advertisements sometimes has curious results. A young Polish engineer stationed at an out-of-the-world place in the Crimea recently felt he ought to marry, studied the advertisements in a Polish newspaper, and replied to one inserted by a "widow in the height of her beauty." He used a nom de guerre, and gave an address at the nearest town. The widow also used a pseudonym, and they interchanged typewritten letters. The young man was delighted at the propsect of becoming engaged to a young widow from his own town, and the widow looked forward to marrying again in a town only a few miles away from her dear boy. A meeting between the widow and the engineer was arranged, and then it was discovered that all the affectionate correspondence had been wasted between mother and son!

The Anglican Y.P.A. may establish an official organ.

REMEMBER! HE WHO BUILDS HIS FORTUNE UPON THE FOUNDATION OF A CITY BUILDS SOLIDLY FOR AN-EVER INCREASING INCOME

PORT McNICOLL

ONTARIO ONTARIO

THE NEW C.P.R. EASTERN TERMINAL ON GEORGIAN BAY, AT TORONTO'S BACK DOOR

117 MILES FROM TORONTO

Quietly, and without the knowledge of Toronto people, the Canadian Pacific Railway have been building on the shores of Georgian Bay, at Port McNicoll, what one of their own officials has said will be the LARGEST TERMINAL on their system. For months the work of creating a new shipping port has been going on. Seven Million Dollars have already been spent, ten millions will be spent. Grain elevators are now being erected, freight sheds provided and a city is in the making.

We have in our offices maps and photos showing the immensity of the work being so rapidly pushed to completion by the C. P. R. We ask you to call and look these over—it will pay you. We will also show you the best located lots in Port McNicoll. Lots that are situated in the heart of the busiest district. We are selling them at a price that will re-imburse you more than four fold. You do not need a heavy cash deposit—and the lots are not high priced.

PORT McNICOLL IS NOW THE TERMINAL OF THE C.P.R., GEORGIAN BAY

All freight and tourist travel is via Port McNicoll. Port McNicoll will have low freight rates. It is the logical point for flour mills, factories and distributing warehouses, and is 134 miles nearer the seaboard than the former Georgian Bay Terminal. Port McNicoll has to-day what many a new town takes 10 years to acquire, namely, sewers and water. History repeats itself. What Fort William, Port Arthur, and Owen Sound are to-day, Port McNicoll will be in a few short months.

WE VENTURE TO SAY THAT

PORT McNICOLL IN 1915 WILL HAVE 15,000 PEOPLE
BUY YOUR LOT TO-DAY
WE HAVE SOLD TO DATE OVER 80 LOTS. PRICES RANGE FROM $175 TO $250. 1-3 CASH

From Owen Sound to Peterboro is about 210 miles. From Port McNicoll to Peterboro about 90 miles or a saving of 120 miles on the haul from Georgian Bay to Montreal and the ocean liners.

Grades out of Owen Sound are heavy. From Port McNicoll to Peterboro a perfect line allows the carrying of 60 cars per train of grain. See this advantage?

The Canadian Pacific Railway directors know all about Port McNicoll. Look out for huge flour mills, for the Lake of the Woods and Ogilvy Flour Companies at Port McNicoll.

Last year the C. P. R. handled over its systems seven and a half million barrels of flour. The export trade is growing. How many million barrels of flour will be handled at Port McNicoll?

Port McNicoll is blessed in every way. Bala Falls is only a few miles away and great power, under the auspices of the C.P.R., will be generated and transmitted to Port McNicoll.

ALLY YOUR DOLLARS WITH PORT McNICOLL AND REAP FOUR-FOLD

OUR GUARANTEE

We guarantee the title to our lots in Port McNicoll to be perfect.

We guarantee to furnish a good and valid deed to each purchaser of a lot or lots in Port McNicoll.

We guarantee to pay all expenses, both for time and money expended if any person who upon investigation finds that we have stated anything in printed literature or written letter materially at variance with the facts in regard to Port McNicoll.

We guarantee to return all money paid to us if conditions are not as represented in our printed matter and written letters.

DO YOU WANT TO KNOW MORE ABOUT PORT McNICOLL? IF YOU DO COME IN AND SEE US. IF YOU LIVE OUT OF TOWN SEND IN THIS COUPON. IT COSTS YOU NOTHING.

J. C. HAYES CO., LIMITED.
154 Bay St., Toronto, Ont.

Kindly let me have further particulars of Port McNicoll without any obligation on my part to buy:—

WEDNESDAY UNTIL SATURDAY, and give all particulars of the proposition. He will be glad to see all who may be interested.

NEWS NOTES FROM INDIAN RIVER

BACHELOR'S CLUB

The Indian River Bachelor's Club resumed its usual winter meetings last Wednesday at Maple Grove, the home of the club's pushing president, "David the Devil" occupied the chair, while D. Brooder Kidd took down the proceedings. After the usual routine business was put through the principal item of the evening was taken up, that of the applications for membership.

The application of "Big B" Breckenridge was accepted as though not strictly a bachelor his conduct was such that his name was put down without opposition. The name of "Census" O'Leary was put down as a life member, while that of M. Fitzpatrick O'Leary was held over as rumors of bad conduct were afloat. The proposed membership of "Coldstorage" Andress was heartily received as although under age his habits were most exemplary and all were sure he would make a lifelong member. The names of "Pugnacious" Sullivan, "Featherweight" Devlin and "Red Feather" Bartens were added without opposition. Next came the application of N. Fife Patterson, but his conduct was so bad it was not seriously considered. A deputation was appointed to call upon Scrutineer Patterson and get his consent to join the club as it was felt he would make an excellent life member. Coronation Elmhurst's name was turned down as he was not known how soon he might be in disgrace. "Golden Laced" Hope's name was added on his promise to behave better in future. At this point it was noticed by the secretary that "Leave-I-Alone" Fife had been an exemplary member for twenty years and as he was about to remove from this district, it was decided to present him with a good conduct medal. The names of "Globe" Patterson and "Mail-and-Empire" Kidd were taken from the club's books, they having disgraced themselves by becoming benedicts. As the hour was getting late and there were still a number of names to be considered, it was decided to leave their consideration until the next meeting. The president in closing asked all to stand and repeat solemnly "We're bachelors free, with ourselves we agree, so hope to remain, outside cupid's aim."

Mrs. Sylvia Payton, Peterborough, visited at the home of her sister here, Mrs S. A. Kidd, for a few days last week.

Miss Neibel, of Norwood, spent a few days with Mrs. A. Menn.

Mrs. J. T. Hall visited in the city this week.

Miss Belle O'Shea, of Norwood, was the guest of Miss Angie O'Grady last week.

Pastor W. H. Wood and wife visited at the home of Rev. Mr. Herbert, Norwood, they exchanging pulpits on Sunday.

Miss Ada Payne, who is attending the Peterborough Normal school, made a hurried call on friends here Friday last.

Indian River still keeps up its record as a shipping point. Thursday of last week John E. Devlin shipped a car of hogs; Friday N. Stabler a car; Monday of this week Stuart Armstrong a load of cattle and also Thos. Miller a car of cattle, while on Tuesday Robert Tedford took out a lot of fine cattle to Toronto market making five car loads of stock in four days, which means a goodly pile of money scattered among the farmers of this district. With the good crops they have, with the price of cheese so high and so much stock, the farmers should be hunkeydory this winter.

Dr. de Van's Female Pills

A reliable French regulator; never fails. These pills are exceedingly powerful in regulating the [illegible] [illegible] [illegible]. Refuse all cheap imitations. Dr. de Van's are sold at $5 a box, or three for $10. Mailed to any address. The Scobell Drug Co., St. Catharines, Ont.

SWEEPING ALONG

The tremendous rush for the chance of sharing in the sacrificing clearance of the well-known high-class stock at ROBERT FAIR'S

Great Retiring Sale

still keeps up. The public have found that the price reductions are not from inflated values, but actual big cuts from the known standard selling prices.

THAT EXPLAINS WHY EVERYBODY BUYS FREELY

Seeing is believing, and the greatest array of underpriced, select goods ever seen in Peterborough, is certainly here on sale.

EVERYTHING IN THE STORE INCLUDED in this Great Sale because Robert Fair, the largest Stockholder, is retiring from business, and is giving the public one big, memorable money-saving event, before leaving the active work of catering to his always splendid trade.

No goods on approval or exchanged. Same courtesy as before to open account patrons

ROBERT FAIR & Co. LIMITED

SLICK GAME OF FAKE COBALT KING

Had Money Galore and Arranged for Purchase of $4,500 House and $1,500 Worth of Furniture---He Said Goodbye at C.P.R. Station to His Victims.

With the story of having made a rich strike at Cobalt, one claim of which he sold for $35,000, and another which he was holding worth $60,000, a Frenchman, clean shaven and rather shabbily dressed, giving as his name Alfred Jarry, had a local real estate agent, one of the agent's customers, and a well known furniture dealer "on the string" for a couple of days this week, and after arranging for the purchase of a $4,500 house and $1,500 worth of furnishings, took the 4.28 C.P.R. train on Tuesday evening for points west.

WAS COBALT KING.

It appears the visitor went to a George street real estate man about a week ago, and telling a smooth story of having sold his home in Toronto for a goodly sum and of making a lucky strike at Cobalt, intimated his desire to purchase a residence in this city for himself and his aged mother. The next morning the real estate man received a note to the effect that the would-be purchaser had been called to Cobalt about his claim and would be back in a week.

On Monday afternoon the visitor "returned" and reopened negotiations. He was shown through several houses, and when he had at last settled on the one of his choice he received permission from the lady of the house to show a local lady, whom he had engaged as housekeeper, about. The furniture man was along at the same time, and in the most businesslike manner measured each room for rugs and carpets and took the order for the furniture. The furniture dealer was to have gone to Toronto yesterday to pick the carpets and order the furniture from the wholesalers.

The joker promised to settle everything at one o'clock Tuesday, but sent word to the parties interested that his bank account had been delayed in being transferred, but he would be ready to pay the money at seven o'clock. In the afternoon the agent and furniture dealer got together and found that their information as to the money part did not correspond and, becoming suspicious, they decided to meet the 4.28 C.P.R. train. Their moneyed friend was also at the station and volunteered the remark that he expected his aged mother on the incoming train. They swallowed it, but remained for the train.

GOING—GOING—GONE.

As it was pulling out they were amazed and disgusted to see the slick josher make a run for the platform of the rear coach and wave a merry "good-bye."

SIGNED AGREEMENT.

An agreement had been signed by Mr. Jarry and the owner of the property, and he had also received the bill for the furniture, upon which a deposit was asked before the purchasing trip should be made. All these people have out of him was the pleasant anticipation of making a "good thing" out of a real good customer.

IN THE CITY A WEEK.

A Review reporter got busy this morning and traced the man's doings while in the city. It was ascertained that he had been here since Monday, Oct 16. He boarded at Mrs. Fowler's, corner of Aylmer and Simcoe streets, and was engaged in Jones Bros.' livery barns. Instead of going to Cobalt, as he gave the real estate man to believe, he remained in the city.

PAID BOARD BILL.

To the reporter Mrs. Fowler stated that Jarry had paid his board bill. He had told her of his contemplating the purchasing of a house in the west end of the city and about his aged mother, who was coming to live with him He was out Tuesday forenoon and when he came to the house she informed him that there were a couple of people asking for him over the telephone during his absence. He took his belongings away that afternoon and she has not seen him since.

ANOTHER STORY.

A jaunt to Jones Bros.' livery barn revealed another yarn which the gentleman "sprang." He had said he was a harnessmaker by trade and had come from Toronto. He professed to know something about horses and was given a try-out. At noon on Monday he quit the job with the explanation that he was going to get married, and that he had secured a position with B. F. Ackerman, Sons & Co. On Tuesday he revisited the stables and mentioned having purchased a fine house and showed the bill for the furniture.

NO WEDDING BELLS.

On Monday afternoon he had had a single buggy from the barns and had made arrangements to have a cab at his wedding, but cancelled the first order, as the real estate agent had offered to take him about in his automobile.

None here can figure out what the game of the stranger was, as he does not seem to have gotten away with anything. The theory that he wanted to get married and was going to use the furniture bill and his copy of the agreement to persuade the woman of his choice that he had the goods, was offered.

CLOTHES THAT SATISFY

"**CLOTHES THAT SATISFY**" is the one best phrase we can find to describe our Ready-to-Wear Clothes for Men. They satisfy the most critical dressers as to style, fit and service, and they satisfy them at a lower cost than any others. No matter how particular you may be as regards correct style, or how exacting you may be concerning fit, or how critical you may be about your clothes withstanding hard and long wear, our clothes will satisfy you better than any other clothes you have ever worn, because we are striving to make **small** profits build up a **big** business. You can buy clothes at the same prices anywhere, maybe, but you can't get such values as ours.

Don't wait until the last minute to get your winter clothes. Get them now and LeBrun's the place

We are positive that our values are unsurpassed. Our economical methods of doing business and our willingness to accept a very small margin of profit, make it possible for us to undersell all other stores. If you find upon investigation that you can get a little better service here than at any other store, we shall expect to get your trade. Therefore, we shall expect soon to have the pleasure of showing you some of the new Fall Goods now on display here.

LOST THEIR HOME AND YOUNG SON

Double Misfortune of Family on Jackson Avenue

To be turned out of their home at Gravenhurst and then come to Peterboro, only to lose their seven months old child, has been the trying experience of Mr and Mrs. Wm. Simmons, of 73 Jackson Avenue. The bereaved parents saw the little body of their son carried from the home this afternoon for interment in Little Lake cemetery.

When the home was destroyed by fire in Gravenhurst, the family lost practically everything. They decided to come to Peterboro to make a fresh start, and arrived here about a month ago.

Their young son, several days ago, was stricken with an attack of bronchitis, and passed away Tuesday night and it was indeed a grief stricken home to which a local Baptist minister was called on his arrival home, after attending the convention at Montreal, and being greatly fatigued with the long trip to this city.

He at once busied himself in making arrangements for the funeral, which took place this afternoon.

HIGH HONOR FOR CAMPBELLFORD MAN

Mr Arthur L. Bonnycastle, of Winnipeg, who was recently made deputy provincial secretary to Premier Roblin who took over the portfolio of provincial secretary, when the change took place in the Manitoba Cabinet is a native of Campbellford, and has several relatives and a number of friends in this city.

Mr. Bonnycastle was born at Campbellford, Ont., in 1873 and went west twenty years later, and taught school for four years in Shellmouth, Man., when he entered a law office in Winnipeg. For some years past Mr. Bonnycastle has been employed as right-of way solicitor for the provincial government, and was elected in the provincial constituency of Russell, Man., but the circumstances of the recount which gave him the seat was such as to render his acceptance of the seat most displeasing to his sense of right.

DAUGHTERS OF ERIN WERE AT HOME

The Daughters of Erin of St. Andrew's church, were "At Home" Tuesday evening at the residence of Mrs. William Campbell, King street, and held a very delightful reception. A choice musical program was interspersed during the evening, the following being the contributors—

Piano Selections—H. C. Treneer.
Vocal Solo—Mr. Will. Miller.
Vocal Solo—Mr. Fred. Skitch.
Piano Selection—Miss Logie.
Vocal Selection—Miss Olive Howell.
Piano Selection—Miss Annie Robinson.

Dainty refreshments were served afterwards.

GRAND TRUNK PACIFIC PREPARING FOR FALL RUSH OF BUSINESS TO CANADIAN WEST

Another step in the progress of development of the Grand Trunk Pacific Railway has been made. The new freight shed on the Mission Terminal, Fort William, will be available for occupancy the latter part of this week. It is nine hundred feet long and seventy feet wide, located alongside the basin, opposite the elevator, and equipped with trackage sufficient for one hundred cars, each setting.

This shed is part of the permanent layout of the Grand Trunk Pacific Railway, and will, next spring, be utilized for the handling of a through lake-and-rail freight, interchanged with the various boat lines.

For the balance of this season the Grand Trunk Pacific will handle their through lake freight at their present temporary quarters at Westfort, and the new shed will be utilized for storage purposes.

All Saints' Church

The Advisory Board of All Saints' church met last night, but no definite action was taken regarding a successor to Rev. H. R. Trumpour.

GRAPES! GRAPES!

They are in full swing now. As the season is short, you better get your Plums early. Also fine

AUTUMN IS THE TIME FOR GLASSES Why?

The increasingly long evenings of autumn give greater opportunity for sewing, writing, reading, study, and as this is necessarily by artificial light the strain upon the eyes is such as to make Glasses quite a boom at this season of the year. This no doubt accounts for much of the present increased demand for Glasses.

Appointment for examining the eyes for Glasses is usually necessary.

THE DAILY REVIEW

COAL

VOL. LXIII., No. 90, PETERBOROUGH, ONT., CANADA, FRIDAY, OCTOBER 27, 1911 TEN CENTS PER WEEK.

WESTERN COAL STRIKE IS SETTLED | CHINESE REPUBLIC NOW PROCLAIMED | GREAT BREAK IN U.S. STEEL COMMON

UNITED STATES GOVERNMENT SEEKS DEATH OF STEEL TRUST

Action is Started at Trenton, N. J., for the Dissolution of the Billion-Dollar Corporation—Wall Street Taken by Surprise at Sudden Action by the Administration.

Trenton, N.J., Oct. 27.—The Government's long-planned suit to break up the so-called "steel trust," was begun here yesterday in the United States Circuit Court. It is the most sweeping anti-trust action ever brought by the Department of Justice.

The Government asks not only for the dissolution of the U. S. Steel Corporation, but for the dissolution of all constituent or subsidiary companies which are alleged to have combined in violation of the Sherman law to "maintain, or attempt to maintain, a monopoly of the steel business." There are 36 subsidiary corporations named as defendants.

J. Pierpont Morgan, John D. Rockefeller, Andrew Carnegie, Charles M. Schwab, George W. Perkins, E. H. Gary, John D. Rockefeller, jr., Henry C. Frick, Charles Steele, James Gayley, W. H. Moore, Edmund C. Converse, Percival Roberts, jr., Daniel G. Reid, Norman B. Ream, P. A. B. Widener and William J. Palmer are named individually as defendants.

The Steel Corporation lease of the Great Northern Railway's ore properties, which the directors of the steel company yesterday formally decided to cancel, is alleged to be illegal. The Government acknowledges that it was advised of the Steel Corporation's intention in this respect, but states that under the terms of the lease no cancellation would be effective until Jan. 1, 1915, and there is no limit upon the amount of ore that can be taken out in the meantime.

The Steel Corporation's acquisition of the Tennessee Coal & Iron Co. during the panic of 1908 is declared illegal and scathingly criticized. The petition declares that E. H. Gary and Henry C. Frick misled former President Roosevelt when they told him "that but little benefit will come to the Steel Corporation from the purchase."

Interlocking directorates through which those in power in the Steel Corporation held positions of influence on the directorates of other powerful corporations, are referred to as "a method more refined, more euphemious, but nevertheless more effective than pools."

The bill goes on to allege the formation of illegal pools known as the "Steel Plate Association, the Structural Steel Association, the Steel Rail Combination, the Wire Rope Combination, the Rubber-Covered Wire Combination, the Horse Shoe Manufacturers' Association, the Underground Power Cable Combination, the Weatherproof and Magnate Wire Combination, the Land Encased Rubber Cable Combination, and the Bare Copper Wire Combination." These are alleged to have been illegal agreements to suppress competition and fix prices in the commodities indicated by their names.

It was not generally supposed that action against the giant corporation was so near at hand. Many believed that the attitude taken by the corporation's officials in recent public statements probably accelerated the carefully-laid plans. The former secretary of war's retention as special counsel became known for the first time yesterday, when the bill was filed.

Will Fight For Its Life.

New York, Oct. 27.—The U. S. Steel Corporation is prepared to fight for its existence. The announcement took the steel men completely by surprise, and they declined to make any comment for the time being. The attitude of the corporation is set forth clearly, however, in a statement which it issued a month ago. In that statement it proclaimed its belief that it was within the law. It declared over the signature of J. P. Morgan that it would not dissolve voluntarily.

The stock of the Steel Corporation is now selling about 25 points below the high price of the year.

Word of the dissolution suit did not reach Wall Street until almost an hour after the close of the stock market for the day, so that its effect upon securities has not been registered. The steel shares were heavy all through the session. The pressure against the stock was attributed to many rumors of pending unfavorable developments following the directors' meeting. Brokers made preparations to place orders in the London market, which opens before the beginning of trading on the New York Exchange this morning.

J. PIERPONT MORGAN.

Who announces that he will fight the "trust-busters" over U.S. steel.

SELLING IN RUSH

Break of Eight Points in Steel Common

Special to the Review.

Toronto, Oct. 27.—United States steel common broke eight points here this morning, in consequence of the news that the U.S. government had instituted a suit against the big corporation for its dissolution. Sales were heavy from both American and Canadian holders of stock.

ROAD FROM 'PEG TO BAY

Roblin Government Makes Important Announcement

Special to the Review.

Winnipeg, Oct. 27.—The Roblin government announced to-day that it would immediately commence the construction of a government-owned road from Winnipeg to Hudson's Bay, and that work would start as soon as the Manitoba boundary is extended to that bay.

The Duke at St. Kitt's.

St. Catharines, Oct. 27.—His Grace the Duke of Sutherland arrived at Port Dalhousie Wednesday night. Yesterday morning he, Viscount and Lady Castlereigh, the Marquis of Stafford, son of the duke, and Sir Henry Pellatt, were taken on the special car "Ongiara" over the N., St. C. and T. Railway to Niagara Falls, where they spent the day. They returned last night and left Port Dalhousie for Kingston.

TO HAVE CHAIN OF WIRELESS STATIONS AROUND THE EMPIRE

A W.C.T.U. Resolve.

Sherbrooke, Que., Oct. 27.—The W.C.T.U. delegates adopted this resolution: "That we set ourselves against all that is debasing or demoralizing in dress, reading, or entertainment, maintaining that high standard in home life, in social intercourse, or society at large."

British Sailors Were In It.

Berlin, Oct. 27.—A detailed report of the fighting at Hankow, Oct. 12, received here states that the British gunboat "Thistle" and the American gunboat "Helena" participated.

Factory for Niagara Falls.

Niagara Falls, Ont., Oct. 27.—To arrange for the opening of the Canadian branch of the Beaver Manufacturing Co., Birmingham, England, in the city, Samuel Cattell, who will manage the local plant, arrived here yesterday. Aluminum novelties will be manufactured.

Arrangements Being Made With Marconi For Installation of Imperial Service.

London, Oct. 27.—(C.A.P. Cable.)—An early announcement may be expected to the effect that negotiations have been concluded between the Postoffice Department and the Marconi company for the erection of a chain of wireless telegraph stations round the world, linking up the British dominions and giving Great Britain an independent system of telegraphic communication with any part of the globe.

Connection with the western hemisphere will be affected by means of the station already existing at Glace Bay, and it is proposed to establish another station at Montreal to communicate direct with the West Indies, where all the islands will be connected by short distance stations.

From Glace Bay it will be possible to communicate direct with Vancouver, where a large power station is to be established which will provide direct communication with Hong Kong.

PROBABILITIES

Moderate to fresh north-west winds; partly fair with local sleet showers. Saturday, fair and cool.

A White Girl's Burden.

Toronto, Oct. 27.—For fattening upon the earnings of a girl who says that, were she rid of the load of supporting him, she could and would support herself at honest work, John Jackson, in whose blood there is a strain of color, was sent to the Central Prison for six months yesterday from Police Court.

Just a Stock Exchange Canard.

St. Petersburg, Oct. 27.—There is no truth whatever in the reports circulated abroad of an attempt on the lives of the Emperor and Empress. They are declared officially to have been circulated for the purpose of influencing the market.

FELL SEVEN HUNDRED FEET

Aviator in French Army Goes to Terrible Death

Special to the Review.

Rheims, Oct. 27.—Aviator Desparnat, in the army aerial tests, fell over seven hundred feet to-day and was instantly killed. The machine turned over and over, landing sixty feet from where the aviator fell. The body was crushed by the impact almost into a shapeless mass.

BERLIN LABOR MEN WANT A REAL LABOR MAN APPOINTED

After the Scalp of Ex-Mayor Hahn, of Berlin—Reaume Investigates.

Berlin, Oct. 27.—Hon. Dr. Reaume has sent a clerk from the Department of Public Works to investigate the application of the Berlin Trades and Labor Council, who are asking that a successor be appointed to ex-Mayor Hahn, who is an officeholder with the Ontario Government as secretary of the Government Free Labor Bureau here.

The contention of the T. and L. Council is that Mr. Hahn, not being actively identified with organized labor, should not hold the office, and Stephen Wellheuser, a member of the Cigarmakers' Union has been recommended by the Trades Council as his successor. The clerk in question met a committee from the T. and L. Council last night, and will make his report back to his chief in Toronto, who will then finally dispose of the matter.

Canada Good Enough.

Ottawa, Oct. 27.—The Dominion Government has declined the request of the railway that part of the preventive office of the Customs Department be transferred from Windsor to Detroit so that goods may be examined in transit without unloading at Windsor. The officers will do their work on Canadian territory as formerly.

Ex-Mayor Hahn, of Berlin, whose scalp is being sought by the Berlin Trades and Labor Council.

REPUBLIC IS ANNOUNCED

China Now Has Two Governments

Special to the Review.

Hankow, Oct. 27.—General Li Yuan Weng has notified the foreign consuls that he has proclaimed himself president of a new Chinese republic. This will be acceptable to the revolutionists throughout China.

Opened S. A. Temple.

Brockville, Oct. 27.—The new Salvation Army Temple, erected in Brockville at a cost of almost $10,000, was formally opened last night by Commissioner Rees of Toronto. The chief executive officer was accompanied by Col. Pugmire, Brigadier Hargraves and others. Hon. G. P. Graham presided at the function, and was supported by Senator Derbyshire, Mayor Patterson and other prominent citizens.

MANY ARE IN FIELD

Nominations Being Held in Many Ridings

Mr. Borden Will be Returned by Acclamation

Ottawa, Oct. 27.—Capt. W. H. Bowie, deputy sergeant-at-arms, has been appointed secretary to the Speaker of the House of Commons. The appointment was made by Dr. Sproule. Capt. Bowie has been deputy sergeant-at-arms for twenty years.

Col. the Hon. Sam. Hughes will attend the Thanksgiving Day manoeuvres at Hamilton on Monday next, leaving Toronto that evening for the west, to which he will pay an extended visit.

Premier Borden returned to the capital on Monday, and on Tuesday leaves for Halifax, where a banquet will be tendered him. He will be accompanied by Hon. Messrs. Cochrane, White, Reid, Monk, Nantel and Hazen.

There is a general exodus of Ministers for the bye-elections.

Borden by Acclamation.

Halifax, Oct. 27.—Hon. R. L. Borden was re-elected to-day by acclamation. The Liberals never had any intention of opposing him. It has also been decided that in Nova Scotia there will be no election protests on either side.

Acclamation For Cochrane.

Haileybury, Oct. 27.—Hon. Frank Cochrane, the Minister of Railways and Canals, in the Borden Government, will be elected in Nipissing by acclamation in the coming bye-election.

This announcement was made by Mr. Cyril T. Young, president of the Temiskaming Liberal Association, and brother of Mr. A. J. Young, the defeated Liberal candidate for Nipissing in the last Federal elections.

Election Protest In the West.

Prince Albert, Sask., Oct. 27.—James McKay, M.P., (Con.) was served in Regina Wednesday night with election protest papers. Walter Mills of Melfort is the petitioner, and makes the usual statutory charges.

Col. McLean Holds Seat.

Fredericton, N.B., Oct. 27.—By a decision given by Judge Wilson in the Queens-Sunbury federal election recount asked for by the Conservatives, the recount cannot go and Col. McLean, Liberal, holds the seat.

South Huron Conservatives.

Zurich, Ont., Oct. 27.—Harry Eilber, the present member, was the choice of the convention yesterday. No other candidate was brought out.

Matheson Nominated.

Perth, Oct. 27.—At the Conservative nomination for South Lanark in the Legislative Assembly yesterday, Hon. A. J. Matheson was unanimously nominated.

South Brant Conservatives.

Brantford, Oct. 27.—W. S. Brewster, sitting member, was unanimously nominated at an enthusiastic convention of South Brant Conservatives here last night, for the approaching provincial contest.

Currie In North Huron.

Wingham, Oct. 27.—A convention of North Huron Liberals was held here in the Town Hall yesterday afternoon, and every municipality in the riding was represented. Mr. John T. Currie of East Wawanosh, ex-reeve of the Township, and ex-warden of the county, was tendered the unanimous nomination of the convention, as candidate for the Legislature.

Cook In North Hastings.

Madoc, Oct. 27.—The old Conservative riding of North Hastings has a new Tory candidate. J. W. Pearce had announced his intention of retiring and the field was full of a popular array of new candidates.

Robert S. Cook, reeve of Rawdon, was the convention's choice.

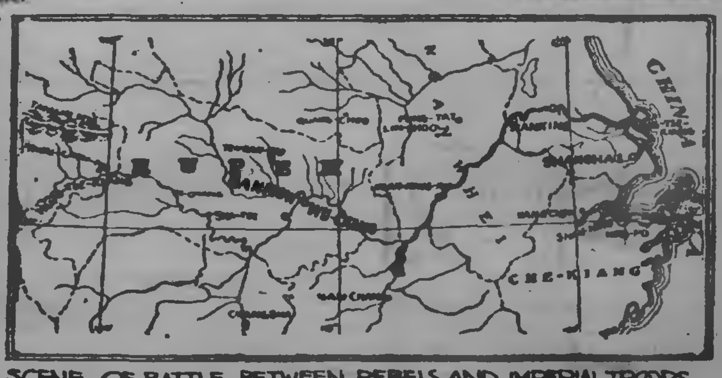
Welland Conservatives.

Welland, Oct. 27.—Evan E. Fraser, who redeemed Welland County in 1905, and who carried it again in 1908, will again be the candidate of the Conservative party in the elections for the Legislature.

The convention yesterday afternoon, some 400 being in attendance, made the nomination unanimous. Eighteen names were placed before the convention, but all withdrew except Mr. Fraser and Dr. F. W. E. Wilson, and Mr. Fraser was declared the choice by 126 to 43. Dr. Wilson promptly moved that it be unanimous.

NAVAL FORCES OF THREE POWERS READY TO CRUSH CHINESE REVOLT.

REAR ADMIRAL VON KROSIGK.
THE ARMORED CRUISER GNEISENAU.
REAR ADMIRAL A.L.WINSLOE.
REAR ADMIRAL J.B.MURDOCK.
IN THE FOREIGN CONCESSION, HANKOW.
ADMIRAL SAH CHEN PING.



SCENE OF BATTLE BETWEEN REBELS AND IMPERIAL TROOPS.

The United States, England and Germany have taken a hand in the unsettled affairs of China. German bluejackets have been landed at Hankow from the cruiser Gneisenau. Vice Admiral von Krosigk is in command of the international naval forces. Vice Admiral Sir Alfred L. Winsloe, commander of the British Eastern fleet, is also in Hankow. Rear Admiral Murdock commands the American naval force at Hankow.

In an engagement between the rebel forces and the imperial troops heavy losses were sustained on both sides. Chinese officials report that negotiations are proceeding between Admiral Sah Chen-Ping and General Li Yuan Heng, the revolutionary commander at Hankow, though the nature of the negotiations is not divulged. These officials claim that Li Yuan Heng was coerced into the leadership and should not be regarded as the prime mover in the rebellion.

CHINESE GOVERNMENT YIELDS TO THE WILL OF PEOPLE IN DEMANDED REFORMS

Obnoxious Minister is Put Out of Office—Constitutional Government Offered to Stay Rising.

Pekin, Oct. 27.—The throne yesterday surrendered to the Tzu Cheng Yuan, China's National Assembly, and in compliance with the demands of the assembly dismissed Sheng Hsuan Huai, Minister of Posts and Communications; ordered Prince Ching, the President of the Cabinet, before a board of inquiry, where he doubtless will be severely dealt with, released from custody the President of the Sze Chuen provincial assembly and other leaders in the riots at Chengtu, and, in fact, agreed to all that the assembly asked, with lack of dignity inconceivable to western observers.

A year ago the throne treated the National Assembly at times almost with contumacy. The Ministers refused to appear before the Assembly, and the budget and other bills submitted to the Assembly for consideration were later put aside for others more suitable to the Palace of the Grand Councillors. Until even a month ago the throne, defiant of the people, issued edicts embodying drastic measures, one in September against the anti-foreign railway agitators in Sze Chuen.

Now, the first resolution of the newly-convened Assembly, carrying consequences of irremediable character, has been granted without a single day's consideration. Sheng Hsuan Huai has been stripped of his ranks, Prince Ching, the Prime Minister, and Natung and Hsu Shih Chang, vice Prime Ministers, as well as several viceroys, who only obeyed the throne's commands, have been handed over to an inferior board, while the members of the Provincial Assembely, who provoked the uprisings in Sze Chuen, have been released from prison.

Prince Ching was not dismissed from the Premiership, but it is not doubted that the Assemby, now having control of the Government, will cause him to retire at an early date.

The appointment of Tang Shao Yi to succeed Sheng Hsuan Huai is belived to forecast the appointment of Yuan Shi Kai to the second office in the Cabinet, if not to the Premiership.

With the prospect of Yuan Shi Kai, who is a Chinaman, leading the country, now ruled by the National Assembly, it is evident that the Manchus mean to offer to the people complete and immediate constitutional government in return for cessation of hostilities. It is reported that Yuan is already negotiating with the rebels. Members of the legations, who are old in experience in Chinese affairs, would not be surprised if the revolution terminated on these lines, practically without further fighting.

Changing Fortunes of War.

Pekin, Oct. 27.—The Official Gazette announces that General Yin Chang, commander of the Imperial troops, has telegraphed that two rebel regiments on Oct. 22 attacked Santae Kiao, 15 miles distant from Wuchang. The Government troops repelled the rebels. On Monday the rebels, using four guns, forced the third brigade of Imperialists to retire and occupied Tsao Chi Chong. On Tuesday there was some scattered skirmishing, during which some rebels were captured and others defeated.

According to the consular reports yesterday the southern provinces are comparatively quiet. Canton and other rebel centres are reported remarkably peaceful.

Foo Chow Has Fallen.

Shanghai, Oct. 27.—Chinese official telegrams report that Foo Chow has fallen and that the customs have been seized by the rebels.

A despatch from Hankow says that in an engagement Tuesday, chiefly artillery, the rebels were driven back, but the Imperialists failed to follow up their success.

Foo Chow is one of the treaty ports and capital of the Province of Fokien. Inclusive of Nantai, a large suburb and European quarter, the population is estimated at 700,000.

French Warship In Danger.

Toulon, France, Oct. 27.—An alarming outbreak of fire occurred yesterday on board the French battleship Justice, a sister ship of the Liberte, which was blown up on Sept. 25. The fire is believed to have been due to a short circuit. A shower of sparks fell in dangerous proximity to the magazines, and the commander of the battleship immediately ordered the forward magazines flooded. The fire was got under control and no great damage resulted.

THE RIGHT HON. [illegible] GEORGE.

Whose insurance bill will cause a great fight in Britain in the next year.

STRIKE IS ENDED

Western Coal Trouble is Settled

Special to the Review.

Medicine Hat, Oct. 27.—The strike of the coal miners of British Columbia and Alberta, which has been in progress for eight months, and involving twenty-five mines and seven thousand five hundred men, was settled last night. The agreement is for three and one-half years. Hon. Mr. Rogers had a conference with both parties yesterday. There is great relief over the western fuel situation. The terms of the settlement have not been given out yet.

CIVIC MATTERS

The city trust commissioners refused to buy the Birdsall property as the location for the proposed city hall, at $15,000. and we think that in this case, the commissioners have the backing of the people. There was strong determination by many citizens that a permanent site for the city hall should be in a much better location, instead of in the midst of some rather cut-of-date structures, including hotels. The tearing down of the present buildings would destroy at least a third of the value, though in any case a loss like that would be faced, unless a Central park site were chosen.

Instead of this, the commissioners have decided to use some of the funds, at their disposal in acquiring a couple of small pieces of property adjoining property now owned by the city, thus spending some of the money available for purchase of real estate.

The city hall question is in no great hurry, but what is in a hurry, is the matter of paving some blocks of George street. Even old Kingston has some of Princess street paved, and every town of 7,000 or 10,000 has paving. Why should Peterborough have to dilly-dally along with a country road for the main street? It is argued that it would be well to wait until all water connections were made, all conduits laid, and everything in the underground line finished. If that be done, George street might never be paved. It would be very nice, were all these things done for the city's convenience, so that there would be no tearing up needed, after the pavement is laid. But the tearing up of pavements or roadways for laying mains or services, is the sign of a growing and bustling city, and one might as well never build a house for fear that after it was finished, someone would want to pull up a piece of the flooring, as wait for paving in such a manner.

It is too late in the season to start the paving of George street this year, but let the incoming mayor and council be prepared to get a move on, and take up the question seriously. With George street lighted by the five lamp clusters for three or four blocks, and paved with asphalt, we would have a main business street, that would put pride into the heart of every Peterboroughean, and be one of the greatest advertisements for the city that it could get.

If Peterborough prides itself on being a live, progressive city, as it in reality does, let it try to get on the appearance of one. Half of the battle is often in looking prosperous.

BUYING CANADA

His reverend nibs of the Globe has been making speeches in the States, and giving interviews to American reporters, saying that $1,500,000 was spent in Canada in defeating reciprocity. He says that of this amount, $500,000 was contributed by the lumbermen, $500,000 by the papermen, and $500,000 from other interests. This explanation of the defeat of reciprocity, is not made in Canada by the Toronto Globe, it will be noticed. The Globe knows better than to try to stuff that down the throats of its Canadian readers—but Rev. Mr. Macdonald has to go the United States to get rid of the reciprocity virus in his system.

Canada does not want a maligner of the Canadian people such as this. Did the vote on September 21, which overthrew the Laurier administration like a tidal wave, come from the aroused indignation of the Canadian people, or did it come from the spreading of a million and a half dollars? Can the voting power of seven million people be bought so easily as this? His reverend nibs either believes it—and it is no compliment to Canadianism—or he is aware that he is making false statements. The preacher-editor thinks it his duty possibly, to explain to the people of the United States, whom he tried to make believe that Canada was ready for a wiping out of customs barriers, what really happened. He doesn't feel free to say that Canadians were asses and fools, so he says that [illegible]

The Montreal Star takes Mr. Macdonald to task for his statements, asking him to substantiate them before an inquiry, so that the truth might be revealed. It says—

> During the late campaign, charges were flying about that the patriotic forces which were fighting the Taft plot to snap a certain "light and almost imperceptible bond," were being financed by the American "Trusts."
>
> At the time, we demanded a full and thorough Parliamentary enquiry into these charges as soon as the new Parliament should meet. So far as we know, they were utterly, foully false. Moreover we had a robust suspicion that "American Money" was being used by the pro-Reciprocity forces, of which crime there were altogether too many signs for comfort. Both phases of the question, we urged, should be investigated by Parliament. The dumping of foreign money into a Canadian campaign is too serious a matter to let pass.
>
> Now, we have Rev. J. A. Macdonald editor of the Toronto "Globe" telling an American paper—the St. Paul "Pioneer Press" that he believes that $1,500,000 was spent in Canada in defeating the reciprocity treaty. Of this sum the lumbermen contributed $500,000, he says, the papermen $500,000 while the remaining $500,000 was obtained from varied interests."
>
> "That at all events, is the report of the press; and, though it is many days old, no denial has yet come from the Toronto editor.
>
> "Now, if Rev. Mr Macdonald knows this fact, it is his duty to insist upon a public enquiry into the whole shameful matter, he going on the witness stand himself, and giving names.
>
> "If he does not know this fact—if he is speaking only from hearsay —then it was the publication of a cowardly libel on his own country for him to give utterance to such a statement in a foreign city to a foreign newspaper.
>
> "But it is only fair to assume that he would not make so grave a charge without knowing whereof he spoke; and that being true, it is manifestly his duty as a citizen of Canada to tell all he knows about it, and join with us in compelling a Parliamentary investigation into the whole sordid business.
>
> "If a million and a half of American money was thrown into this country during the late campaign with a view to influencing the verdict of our people on a question which touched so closely their relations with the American people, a colossal crime against decency, against the life of Canada, against the integrity of our people, was committed; and, if Rev. J. A. Macdonald knows who the criminals were, and in what fashion the crime took place, he can only cover up the evidences of crime in his possession by becoming a partaker in that crime, and practically joining in a conspiracy to permit the escape of criminals who sought to debase the honor of Canada.
>
> "Rev. Mr. Macdonald should speak without delay. Let him make his statement formally and in detail, and compel an investigation. We promise him all the support we can bring; and if he shirks his duty, we promise him a steady interest in the affair until he either withdraws his accusation or "makes good."

THE NATIONALISTS

The Ottawa Free Press says:

> The Conservative Peterborough Review admits that "the appointments being made by Mr. Borden are a puzzle to many Canadians." It does not quite evidently appreciate the relations between Mr. Borden and the Bourassaites, but it will soon find out that the price of support must be paid, whether the Orangemen of Ontario like it or not."

The Free Press uses one paragraph of what the Review has said, but it does not by this correctly interpret the Review's position. The Review holds the view that Mr. Borden has made himself immensely stronger throughout Canada at large by his effort to weld together two very antagonistic sections of the people. He has shown much greater statesmanship for the benefit of Canadian unity and harmony than many of his supporters, who are led away by feelings, which perhaps while worthy in some respects, still are much narrower than his own.

Suppose that Mr. Borden had chosen to use his majority of English-speaking Conservatives and had ignored Quebec entirely! What sort of patriotic Canadian action would that have been, in trying to hold together the diverse elements that make up Canada? It would have set Quebec squarely against British Canada, and British Canada squarely against Quebec in no time, and promoted a height of racial bitterness never seen since Confederation. It might have broken the Confederation.

Mr. Borden has pursued a policy of fair and square dealing with Quebec, as with the remainder of Canada, and this is the only attitude a statesman could take. Had he not given Quebec the justice to which every province is entitled, Mr. Borden would have conclusively proved himself at the outset to be of very small calibre. The Nationalists have been generously treated. They as representing Quebec cannot complain, but Mr. Borden has been careful in making his cabinet and in other appointments, that British Canada shall maintain the dominance which is its right by population and by interest. If the new government works along the line of a strong, patriotic administration, as we believe it will, it will mean that British domination in reality causes the extreme French element, represented by the Nationalists, to moderate its attitude greatly, and thus helps the cause of unity from every standpoint. Individual appointments may be criticised. But the principle actuating Mr. Borden—seen from a national viewpoint—is the only one worthy of a statesman of the highest type.

EDITORIAL NOTES

The celestial empire presents anything but a heavenly appearance these days.

This touch of winter makes us begin to realize that Christmas is less than two months away.

Last year Finance Minister Fielding spent three million dollars more than he received, and yet we have a $30,000,000 surplus. Great juggling!

Hamilton is preparing for a visit from the Duke and Duchess of Connaught. Hamilton will, of course, set to work to outdo its hated rival, Ottawa, in the matter of a howling reception.

The suggestion that their royal highnesses should stop off in Peterborough on their way to Toronto, made by Messrs. Turner, is a good one. Why should not Mayor Morrow wire to the Duke's aide? Peterborough should get in ahead of Toronto, in a case like this.

The lecture on tuberculosis by Hon. Adam Beck last night was attended by an exceptionally large audience. This fact is gratifying, because there is too often a lamentable indifference by the people on a subject like this, unless they are immediately affected. General education on the subject of tuberculosis is needed.

The news of the resumption of work in the Canadian Cordage company full blast will be welcome news to Peterborough people. With a concern like International Harvester company behind it, its success is assured. The Harvester company does not usually take up propositions that do not turn out highly successful.

There is seemingly quite a strong demand in Ontario that there be provision made by the Ontario Legislature whereby land may be taxed more heavily than improvements. At least municipalities should be given the right to exercise local option in the matter. Sir James Whitney does not favor the idea. This is not a campaign issue, at all, but merely a business consideration. It ought to at least receive serious consideration.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Death of Eye Specialist.

Cornwall, Oct. 26.—Dr. Alex. F. Pringle, a specialist in the treatment of diseases of the eye, who was spending a few days with relatives in town before proceeding to his home in Northfield, Minn., after a trip to Europe, died suddenly at the residence of his sister at noon yesterday. He had been in ill-health since an automobile accident in London, Eng.

The late Dr. Pringle was a son of the late Judge Pringle, and was born here 58 years ago. He has resided in the west for a good many years. He leaves a wife in Northfield, but he has no children.

The Baptist convention of Ontario and Quebec has declared against church union.

THE MARKETS

Latest Quotations in Grain Dairy Products, Live Stock Etc.

LIVERPOOL, Oct. 26.—The market displayed an easier undertone with values ⅛d to ⅛d lower, being influenced by the weakness in Buenos Ayres and also Rosario. A slight show of strength was shown in the near month, which, after the opening advanced ⅛d. The support was attributed to the steadiness in Winnipeg yesterday, and continued poor grading there, which prompted buying by a prominent firm. During the morning realizing again developed on reports of scattered rains in Australia, weakness in spot and a very small demand for both cargoes and parcels and very light flour sales. The market closed ⅛d to ⅜d lower than yesterday.

CHICAGO, Oct. 26.—Because of treble as much wheat pressing forward to Winnipeg to-day as the railroads could find cars for, the price of the cereal here inclined to sag. Closing figures ran from last night's level to 3-8c to 1-2c, below. Corn gained 1-8c to 3-8c net, oats 1-8c to 1-4c and provisions 15c.

Winnipeg Grain Market.

WINNIPEG, Oct. 26.—A very poor trade was experienced on the wheat market to-day on almost all grades. This may be accounted for thru someone cabling the other side that the grain standard board had materially lowered the grades of Nos. 4, 5 and 6, and in response, information has been received from a number of houses that they did not care for new business until they had seen the new samples.

There was in sight for inspection to-day only 650 cars, against 770 yesterday. The weather over the wheat belt was good.

Cash grain: Wheat—No. 1 northern, 99½c. No. 2 northern, 96½c; No. 3 northern, 93½c; No. 6, 75c, feed, 65c; No. 1 rejected, seeds, 96½c; No. 2 rejected, 94c.

Oats—No. 2 Canadian western, 42½c.

Barley—No. 3, 70c, No. 4, 60½c; rejected, 55c; feed, 51c.

Toronto Grain Market.

Eggs, new-laid	0 30	....
Cheese, new, lb	0 15	0 15½

Montreal Grain and Produce.

MONTREAL, Oct. 26.—The foreign demand for Manitoba spring wheat was very poor, and business in consequence was dull. There was an improved demand from local buyers for American corn, and sales of cargo lots of No. 2 were made to arrive at 78½c and 79½c afloat. The local trade in oats is fair and prices well maintained. A fairly active trade continues to be done in flour for local and country account, but the foreign demand is quiet. A few small lots of bran were sold for export. Demand for cheese and butter is fair, and eggs are fairly active.

Dressed hogs—Abattoir, $8.50 to $8.75 per 100 lbs.

Beef—Plate, half-barrels, 100 lbs., $7.50; barrels, 200 lbs., $14.50, tierces, 300 lbs., $21.50.

Lard—Compound tierces, 375 lbs., 9¼c; boxes, 50 lbs. net (parchment lined), 9⅜c; tubs, 50 lbs. net, grained, two handles, 9½c; pails, wood, 20 lbs. net, 9¾c; tin pails, 20 lbs. gross, 9¼c.

Pork—Heavy Canada short cut mess, barrels, 35 to 45 pieces, $24; half-barrels, $12.25; Canada short cut and back pork, 45 to 55 pieces, barrels, $23; Canada clear pork, barrels, 30 to 35 pieces, $22.50; bean pork, small pieces, but fat, barrels, $17.50.

Oats—Canadian western, No. 2, 49½c to 50c, car lots, ex-store; extra No. 1 feed, 49c to 49½c; No. 3 C.W., 48½c to 49c; No. 2 local white, 48c to 48½c; No. 3 local white, 47½c to 48c; No. 4 local white, 47c to 47½c.

Flour—Manitoba spring wheat patents, firsts, $5.50; seconds, $5; winter wheat patents, $4.75 to $5; strong bakers', $4.80; straight rollers, $4.25 to $4.40; in bags, $1.95 to $2.05.

Rolled oats—Per barrel, $5.25; bag of 90 lbs., $2.50.

Corn—American, No. 3 yellow, 81½c to 82½c.

Millfeed—Bran, Ontario, $22 to $24; Manitoba, $23; middlings, Ontario, $27 to $28; shorts, Manitoba, $25; moullie, $26 to $32.

Eggs—Selected, 26½c to 28c; fresh, 23c to 24c; No. 1 stock, 22½c to 24c.

Cheese—Westerns, 14c to 14¼c; easterns, 13⅝c to 13¾c.

Butter—Choicest, 27c to 27¼c; seconds, 26c to 26½c.

NEW YORK, Oct. 26.—Butter—Firm; receipts 5181. Creamery, 26c to 33c; state dairy, tubs, 22c to 31c; do., common to process seconds, 21c to 22c; factory current make, 19c to 21c.

Cheese—Firm; unchanged; receipts 2445.

Eggs—Firm; receipts 6181, fresh, gathered.

CATTLE MARKETS.

Toronto Live Stock.

TORONTO, Oct. 26.—The railways reported 101 carloads of live stock at the City Market, comprising 1293 cattle, 2280 hogs, 1202 sheep and lambs, 85 calves and 1 horse.

Butchers.

Geo. Rowntree on Wednesday and Thursday bought 1480 cattle for the Harris Abattoir Company, as follows: Butchers, steers and heifers at $4.75 to $5.85; cows, $3 to $5; canners, $1.50 to $2.75; bulls, $3 to $5; feeding steers, $4.50 to $5; feeding bulls, $3.50 to $4 per cwt.

The light butchers' steers and heifers, 650 to 800 lbs. each, which Mr. Rowntree does not buy, sold down as low as $2 and up to $4.50.

Stockers and Feeders.

Feeders, steers, 900 to 1100 lbs. each, sold at $4.50 to $5; steers, 800 to 900 lbs., at $4.25 to $4.50; stockers, 500 to 750 lbs., at $3.50 to $4.

Milkers and Springers.

There has been a heavy delivery of milkers and springers, and the good to choice classes sold at high prices, ranging from $60 up to $100, the bulk going from $60 to $75; common, and medium cows ranged from $35 to $50 each. See the many sales given.

Veal Calves.

Grass calves sold from $2.50 to $3.50; veal calves, $4 to $8 per cwt.

Sheep and Lambs.

Receipts of sheep and lambs were large, but prices held about steady. Sheep, ewes, sold from $3.50 to $3.75 for the bulk, with a few selects at $4 per cwt.; rams, $3 per cwt.; lambs sold at $5.25 to $5.50, the bulk going around $5.35 per cwt.

Hogs.

Selects, fed and watered, were quoted from $6.15 to $6.25 per cwt. and $5.90 f.o.b. cars. Store hogs were quoted at $5.50 per cwt.

Dined With Connaught.

Ottawa, Oct. 27.—Hon. W. T. White, Finance Minister, and Hon. J. B. Reid, Minister of Customs, were guests of the Duke of Connaught at luncheon at Government House.

MEXICO IN '42

By D. Lewis

CHAPTER XXXI.

A Transformation.

While the ladies set down upon the street were still plaintively appealing to those around, the carriage from which they had been so unceremoniously ejected was tearing along the Calle de San Francisco, going direct for the Acordada! But nothing could be farther from the thoughts of those in it than a return to that grand jail, or even approaching its door. All of them knew there was a regular guard there, and they would likely be saluted with a shower of bullets. Bad marksmen as the Mexican soldiers are, they could not all miss. But even if they passed through that unscathed, beyond was the sentry box of San Cosme, with another guard there. Indeed, go what way they would, there was none leading out into the country without a sentry to be evaded—and for the country they were aiming.

In these gates, however, there was a difference as to the strength of their guard detail, and the possibilities of their being passed. All of which one of the fugitives well understood—Rivas, who, as a matter of course, had assumed direction of everything relating to their flight.

When opposite the old convent, which gives its name to the street, he leaned his head out of the carriage window and said to the coachman:

"Take the route by El Nino Perdido. You know the way; show it to him."

The "him" was Cris Rock, who still had hold of the reins, and who, not understanding Spanish, could not be addressed direct.

The result of the order was, that shortly after, the horse were headed into a side street, indicated to the Texan by a nod perceptible only to himself. It would not do for the real coachman to appear as aiding their escape; though ther was no danger of the dwarf observing it—the latter having been crammed down into the bottom—where he was held with his head between Rock's huge thighs, as in a vice.

The street into which they had turned was a narrow one running along a dead wall—that of the ancient monastery, which occupies acres of ground. And in its stripe of sidewalk just then there was not a pedestrian to be seen—the very thing Rivas had been wishing for. Again speaking out, he said:

"Slowly for a bit. I see an overcoat out there. Tell the Texan to put it on."

For the next hundred yards or so—along the dead wall—the horses went at a walk, they inside the carriage, as also one on the box, all the while busy as bees. And when they came out at the end of the quiet street entering upon a more frequented thoroughfare, the brisk pace was resumed; though no one could have believed it the same party, seen a minute or two before driving at a race-course speed. Jose alone looked the same, in his sky-blue livery and cockaded hat. But the big man by his side had so far effected a change that his mud-stained habiliments were hidden under an ample coat, which covered him from neck to ankles; while the little one was altogether invisible and under a threat of having his skull kicked in if he attempted to show himself.

Alike quick and complete had been the transformation of those inside. There now sat two gentlemen, decently, indeed rather stylishly dressed—one wearing a blue cloth coat with velvet collar; the other a scarlet cloak with gold bullion embroidery from neck to shoulders.

About the equipage there was little now to make remark upon or cause it to be regarded with suspicion. It might have been that of some rich land owner, who had been at the laying of the foundation-stone, on return to his country house, taking a friend along with him. The strapping fellow on the box might be majordomo of the estate—they are usually tall men—who had taken a fancy to try his hand at driving and the coachman had surrendered him the reins. All perfectly natural, even to the rapid speed at which the horses were put.

For all they had apprehensions of the keenest. If they were in no danger while in the streets, they would be when parting from them—at El Nino Perdido. That gauntlet had yet to be run.

But while thinking of it, they had not been idle; instead, all the while planning and preparing for it, Rivas instructing the others as to how they should act.

"A station of the usual kind," he said to eKarney, making known the nature of the anticipated obstruction, "a gate across the road, with a guard-house alongside. There's sure to be a sergeant and eight or ten files in it. If, by good luck, the gate be open, our best way will be to approach gently, then go through at a gallop. If shut, we'll be called upon to show our best diplomacy. Leave all that to me. Failing to fool the guard, we must do battle with it. Anything's better than to be taken back to the *Acordada*. That would be sure death for me, and, if I mistake not, for yourself, senor."

"I'm sure of it. If we can't get through without, let us fight our way, whatever the result."

"Take this pair, then. They seem the most reliable. You Americans are more skilled in the use of firearms than we. With us steel is preferred. But I'll do the best I can with the other pair."

He had preference to two pairs of pistols discovered under the carriage cushions. Nor were they the only weapons there; beside them were two long-bladed knives and a pearl-handled stiletto—the last a tiny affair, which looked as though taken from the toilet case of a lady.

"See that yours arel oaded and in firing order," Rivas added, at the same time looking to his own.

The injunction was not needed, as the Irishman was already examining the weapons put into his hand, with a view to their efficiency.

The inspection was quick and short, as had been all that preceded; pans sprung open, showing them filled with powder; rammers run into the barrels, then drawn out again and replaced inth eir thimbles.

"Mine," said Kearney, first to report, "are good for two lives."

"And mine the same," rejoined Rivas, "unless I'm laid low before I can pull the second trigger. Now to dispose of the knives. My countryman, the coachman, however trustworthy, mustn't show fight. That would ruin all afterwards. But, if I mistake not, your colossal comrade is the man to make play with one of them in a pinch."

"You may be sure of it. He was in the Alamo with Bowie and at Goliad with Fanning. Don't fear putting a knife into his hands; he'll make good use of it if we're driven to close quarters."

"Let him have it, then. You give it and tell him all."

Kearney getting hold of one of the two knives, that seeming best suited for the hands he designed putting it in, passed it on to Cris Rock—not through the carriage window, but a hole cut in the leathern hood by the blade itself. Seapink through the same, he said:

where there's a guard of soldiers—maybe a dozen or so. You're to drive gently up, and, if you see it open, pass through—then lay on the whip. Should it be shut, approach more briskly and pull up impatient-like. But do nothing of yourself—wait till I give you the word."

"Cris! we've got to run a gate where there's a guard of soldiers—maybe a dozen or so. You're to drive gently up, and, if you see it open, pass through—then lay on the whip. Should it be shut, approach more briskly and pull up impatient-like. But do nothing of yourself—wait till I give you the word."

"Trust me, cap; ye kin do that, I kalk'late."

"I can, Cris. Take this knife, and if you hear pistols cracking behind, you'll then know what to do with it."

"I can guess, anyhow," rejoined the Texan, taking hold of the knife. Then bringing it forward and under his eyes, he added, "'Taint sech a bad sort o' blade either, tho I wish 'twas my ole bowie they took from me at Mier. Wal, cap; ye kin count on me makin' use o't, ef 'casion calls, an' more'n one yallerbelly gittin' it, not'ithstandin' this durnation clog that's swinging at my legs. By the jumping Geehosop'hat, if I ked only git ahet o' that I'd——"

What he would do or intended saying had to stay unsaid. Rivas interrupted him, pulling Kearney back and telling him to be ready with the pistols. For they were nearing the place of danger.

CHAPTER XXXII.

An Unlooked For Salute.

In a strict military sense the capital of Mexico cannot be called a fortified city. Still, it has defenses, one being a wall, which envelops it all round, leaving scarce so much as a house outside. Compact and close stand the dwellings of the modern city as those of ancient Tenochtitlan, whose site it occupies, though the waves of Texcuco and Xochimilcu no longer up to its walls.

Save through the gates there is no access to or egress from the Mexican capital, and at each, besides an official having charge of revenue matters, a soldier guard is stationed, with a guard-house provided; their duties being of a mixed, three-cornered kind—customs, police and military. Five or six such posts there are, on the five or six roads leading out from the city, like the radiating limbs of a star-fish, and one of these is the gate El Nino Perdido—literally, the gate of the "Lost Child." It is, however, one through which the traffic is of secondary importance; since it is not on any of the main routes of travel. Besides, from the gate itself runs a causeway, wide and straight for nearly two miles, with a double row of grand old trees along each side, whose pleasant shade invites and often receives visits from city excursionists out for a stroll, ride or drive. Near the end of the second mile it angles abruptly to the right, in the direction of San Angel—a sharp corner the writer has good reason to remember, having been shot at by salteadors, luckily missed, while passing round it on his way from country quarters to the city. A horse of best blood saved his blood there, or this tale would never have been told.

To be continued.

Osborne Is Discharged.

London, Oct. 25.—The case of Chas. Ackroyd Osborne of Montreal, came before Justices Darling, Bankes and Lush yesterday in the Divisional Court. The Solicitor-General appeared for the crown, Huntley Jenkins, instructed by Mr. Davis, for the prisoner, submitted that there was not sufficient evidence of the commission of an offence under the Canadian criminal code, and further that all the facts were not disclosed. On these and other grounds application was made for the prisoner's immediate discharge.

After the Solicitor-General had opened the case the court held that the prisoner should be immediately discharged. Justice Darling said there was not the necessary evidence of the offence having been committed in Canada. It was not suggested that the prisoner had removed goods, though there was evidence that he disposed of them, but that was insufficient. Osborne was accordingly discharged forthwith.

Will Resume Practice.

Montreal, Oct. 25.—On the eve of his retirement from public life, His Honor L. J. Tweedie, Lieutenant-Governor of New Brunswick, who is at a prominent local hotel, announced that he will resume the practice of his legal profession. At the same time he admitted the possibility of being found in the political arena at some future date.

Chief Geographer Dead.

Ottawa, Oct. 25.—Robert E. Young, D.L.S., chief geographer of the Dominion and superintendent of lands in the Interior Department, was found dead in his bed at his home here yesterday morning. He had retired at 10.30 Monday night, apparently in good health.

Refused Injunction.

Montreal, Oct. 25—Mr. Justice Charbonneau has refused the interlocutory injunction applied for by Senator Beique to prevent arrangement being made by the Montreal Street Railway to merge the other railways of the island into the Montreal Tramways Co.

A Seat For Mr. Cochrane.

North Bay, Oct. 25.—George Gordon, Conservative member-elect for Nipissing, has agreed to resign his seat in favor of Hon. Frank Cochrane. There is strong talk of opposition from the Liberal camp.

KIDNEY TROUBLE CURED!

Engineer Elliott Promptly Relieved by Morriscy's No. 7.

LAKE MEGANTIC, P. Q., July 31, 1910.

"I was troubled with lame back for the last four years, due to Kidney trouble, and tried a great many remedies but without any relief. I was advised to try No. 7 Rheumatism and Kidney Remedy, and can say that my Kidneys are entirely cured, and even the jar of the engine does not pain me any more. Any sufferer from Rheumatism or Kidney trouble should by all means try Father Morriscy's No. 7. The nature of my work induced Kidney trouble and it required a mighty good remedy to successfully combat the disease."

W. A. Elliott,
C. P. R. Engineer.

The above prescription is not a "Cure-All" or so-called patent medicine. Dr. Morriscy prescribed it for 44 years, and it cured thousands after other doctors failed.

Price, 50c. per box at your dealers, or Father Morriscy Medicine Co., Limited, Montreal. 300

CARTER'S LITTLE LIVER PILLS.

CURE Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE Is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them.

CARTER MEDICINE CO., NEW YORK.

Small Pill. Small Dose. Small Price.

MY LADY'S COLUMN.

A PLEA FOR THE CHILDREN OF THE SLUMS.

Perhaps the child life of the slums will help us in our almost impossible task of bringing back hope to those lives from which it has been banished by years of hardship.

Anyone passing through the narrow streets where the poor live, cannot fail to notice the toddlers, who, amid the general sordidness, are so busy at their games of make-believe. They seem like beams of sunshine sent by Divine love, and are proofs that degraded lives form no part of the plan of creation. In contrast however to these children, there pass men and women from whose faces the Divine Image is almost erased, and we acknowledge with a pang that the sunbeams of to-day will become the shadows of to-morrow.

Surely it is our duty to prevent such a change, and to recognise that the best way to bring hope to the poor is to follow the example of Divine economy, and to make use of existing material — the great hopefulness of the children. If this is done, which of us will dare to limit the work which these children may do in dispelling the shadows from the land to which they were sent as sunbeams?

EMBROIDERED FLOWERS

The new way with embroidered flowers is to cut the petals out of silk, satin, and velvet and fix them against the train, leaving some to fall outward so that they look as if they were natural blossoms. The padded flower is also very much seen, and is employed for the embellishment of panels.

It is the opinion of the women of to-day that the large and heavy bouquet not only incommodes its owner but hides her frock.

Lace-topped hatpins to wear with lingerie millinery are pretty and very easily made at home.

Very broad ribbon is used to form tabliers or loose panels at the front and back of dresses.

New mesh veils are of two colors, a black web over a flesh tint producing a becoming complexion effect.

SIMPLE COIFFURES FASHIONABLE

Simple and artistic coiffures are the fashion.

While braids, puffs, curls, bangs and chignons are still worn, no longer does the girl or woman who follows closely in the footsteps of Madame Mode overload her lovely head.

RECIPES

To Use Ham.

Sliced ham is more tender if it is baked than if fried. Cut a slice three-quarters of an inch thick, put it into a small enamel pan, turn three-quarters of a cupful of milk over it, cover and bake for an hour and a quarter, basting every fifteen minutes with milk.

For luncheon grind the ends of a boiled ham and mix it with a button onion that has been chopped fine and a little minced parsley. Put the mixture into a pan with a little butter and moisten with hot water or cream. Simmer four or five minutes, and then heap on slices of toast.

A little grated American cheese mixed with minced ham used in sandwiches is delicious if the sandwiches are fried brown and served very hot.

Cold ham is tasty if it is shredded and cooked in current jelly sauce. Put a cupful of the shredded ham into a saucepan with a level tablespoonful of butter and half a cupful of currant jelly. As soon as the jelly and butter begin to bubble add four tablespoonfuls of sherry and a seasoning of paprika. Simmer the mixture about five or six minutes and serve with toast.

Queenstown Pudding

Ingredients — One cupful of fine breadcrumbs, one pint of new milk, four eggs, small pot of jam, half a tea-spoonful of essence of vanilla, sugar to taste. Well butter a pie-dish, and screen with Demerara sugar. Pour a pint of boiling milk over a tea-cupful of fine bread-crumbs, that has been sweetened to taste, and flavoured with vanilla essence. When nearly cool, pour into it four well-beaten yolks of eggs, reserving the whites. Set it into a moderate oven to cook, but do not allow the mixture to boil. When ready and quite set, screen the pie with a pot of greengage jam. In the meantime, beat the white of the eggs to a high froth, adding a little castor sugar from time to time, in all a dessert-spoonful. Arrange the snow in an ornamental shape over the jam. Put it again into the oven to set, care being taken that the oven is only just the heat to colour the snow a golden ray. Send the pie to table, in the dish in which it was cooked, covered with a paper frill.

TO CURE A COLD IN ONE DAY
Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box 25c.

The Ideal Reading Lamp

Opticians agree that the light from a good oil lamp is easier on the eyes than any other artificial light.

The Rayo Lamp is the best oil lamp made.

It gives a strong, yet soft, white light; and it never flickers. It preserves the eyesight of the young; it helps and quickens that of the old.

You can pay $5, $10, or $20 for other lamps, but you cannot get *better light* than the low-priced Rayo gives.

Made of solid brass, nickel-plated. Easily lighted, without removing shade or chimney. Easy to clean and rewick.

Dealers everywhere; or write for descriptive circular direct to any agency of

The Queen City Oil Company, Limited

Toronto University Standing.

Toronto, Oct. 25.—Toronto University continues to occupy front rank in point of attendance among the higher seats of learning on this continent. The official registration figures handed out by James Brebner, the registrar, yesterday afternoon, show that in spite of the higher matriculation standard required in practically every faculty, the total number of students in attendance at the university is equal to that of last year's record.

The total regular registration this session at the university is 3,513, which is about the same as the regular registration of last year.

At the end of last year the grand total in attendance at the university, both regular and occasional students, and from affiliated colleges was 4,144.

The registrar says this year's figures will amount to about the same as last.

Yukon Is Conservative.

Vancouver, B.C., Oct. 25.—A Dawson despatch states that Dr. Thompson, Conservative, is elected in the Yukon by about 400 majority more than Congdon (Lib.).

This will make the Borden majority 50.

Fred. Congdon (Lib.) was elected to the Commons in 1909, his majority being 206.

Dr. Alfred Thompson represented the Yukon from 1907-8, when he retired to resume his practice. He has lived in Dawson since 1899. Both he and Congdon were born in Nova Scotia.

Fugitive Killed; Also Pursuer.

Middlesboro, Ky., Oct. 25.—In a running fight with a sheriff's posse early yesterday, Cal. McRaile, wanted for double murder at Pineville, was killed and Deputy Sheriff Thomas of the posse received wounds from which he died later.

Wood's Phosphodine,
The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins. Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhoea, and Effects of Abuse or Excesses. Price $1 per box, six for $5. THE CORRECTION OF
DEFECTIVE EYESIGHT

It is very important that you have implicit faith in the ability of the Specialist who fits you with Glasses, since there are several important features which must be left solely to his ability and honor.

You cannot possibly appreciate the quality of lenses furnished, and yet on this feature depends the degree of satisfaction to be obtained from the use of glasses. In our Optical work we frequently find people wearing inferior and imperfect lenses, for which they have paid a full price. We will not economise in this department of our business, for we always insist on furnishing the best material at prices that are reasonable.

We believe you will be satisfied with the prices asked in our Optical Department, and know that you will be pleased with the results obtained.

Visiting brethren from a distance will take part in those meetings.

A hearty invitation is extended to all.

GOVERNMENT'S ACTIVE OPERATIONS ALONG THE ROUTE OF THE TRENT VALLEY CANAL

Preliminary Work for New Wharf at Spaulding's Bay is Being Proceeded With — Wharf at Mount Julian Practically Completed—Some of the Works Being Done.

The dredge Little Lake has commenced work on the new wharf on George street, the foundations for the concrete piers now being dredged. As soon as that is done the concrete work will be started. The filling in will be done this winter and this will give employment to a number of men and teams. Mr. E. Wade has charge of the work and the wharf when completed will be a credit to Peterborough and the Trent Canal. The work will be pushed so that the people of Peterborough will be able to get the benefit of the wharf next season for excursions and also freight business, and the steamboat men all express their appreciation for the same.

The wharf is being constructed at what is known as Spauldings Bay. Immediately south of the Matthews company's property and east of George street. A cement wharf will extend 100 feet into the river and for a distance of 350 feet along the river front, which will be to the continuation of Rink street. At this point the wharf will extend out into the water 200 feet, this part being more for the accommodation of the steamboats, and on which heavy freight such as wood, can be unloaded. On the large space lying between Rink street and the Matthews Co. will be erected a pavillion, which provision will be made for the comfort or convenience of the travelling public. Horticultural improvements are to be added and when this work is completed Peterborough will have a wharf that citizens will be proud of.

BEAVERTON.

Mr. J. H. McClellan, superintendent of the Trent Canal, spent yesterday at Beaverton with Col. Sam Sharpe, M.P., North Ontario. Beaverton harbor, Lake Simcoe, is in a very bad state of repair. Col. Sharpe purposes to have it put in good shape. The piers require to be rebuilt, and the harbor requires to be dredged out. This being the only harbor of refuge on Lake Simcoe it is almost necessary work and should be done at once.

MOUNT JULIAN.

The new wharf at Mount Julian is now completed, with the exception of the filling in of the road leading to the wharf, and putting in of an approach from the east end to the mainland, which will be done next spring.

SOUTH BEACH.

The new wharf at South Beach, Clear Lake, will be completed this week. This dock will be appreciated by the steamboat men. A great number of excursions go to South Beach every summer, and heretofore the old wharf has been unsafe.

BURLEIGH FALLS.

Work is being pushed on the new dam and the tug Bessie Butler has been engaged towing cement from Lakefield. She makes four trips each week and takes 200 barrels each trip. The tug will be kept busy at this work until the lake is frozen over.

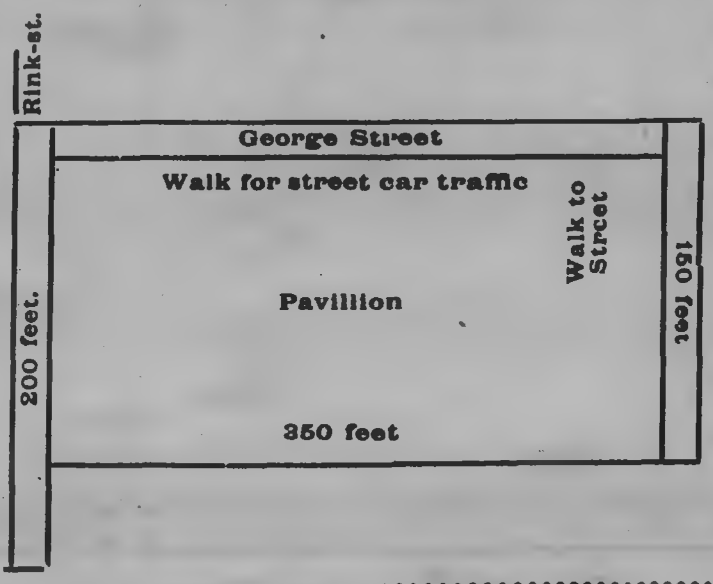
WHITE LAKE DAM, TOWNSHIP OF GALWAY.

The cement dam at White Lake, township of Galway will be completed in about two weeks. In connection with this dam is a bridge, also reinforced concrete. This work, when completed, will not only be a good help to the conservation of the waters, as it will control about 4,600 acres of water, but will be a great convenience to the farmers to have this new bridge. The people of Galway and Cavendish very much appreciate the interest being taken for their welfare.

LINDSAY.

The dredge Fenelon and drill scow are busy at Lindsay. The channel in the Lindsay river is being deepened to ten feet. Heretofore the boats could not go up to the wharf. Excursions and freight business had to be handled at Baker's saw mill about three quarters of a mile below Lindsay. This work is very much appreciated by the people of Lindsay and the steamboat companies. Col. Sam Hughes is busy on his job, and no doubt Lindsay and all this section of the country will benefit by having a cabinet minister representing them.

The following diagram will explain what is to be done:



CITY TRUST BUYS LAND

And Resolution is Passed to Have Pig Pen Removed

At a meeting of the City Trust held on the 24th instant, the commissioners resolved to purchase an addition to the small park at the corner of Hunter and Mark streets at $1000 and an addition to the park near the King Edward school at $5000, to be paid for out of railway mortgage moneys.

Consideration of the request of the city council to purchase a property for $15,000, on which to erect a new city hall, was deterred. The members did not look on the proposal with favor.

A resolution was also passed requesting the city council to at once remove the pig pen from the market square, as it was a nuisance; also to put the market place in better condition.

MILITARY BRUSHES FROM THE PUPILS

Presentation to Retiring Teacher at the Collegiate

At 11.30 o'clock this morning, when the pupils of the 3rd and 4th forms of the Collegiate Institute were about to leave the laboratory to attend classes upstairs, Miss Mowat read the following address to Mr. Hodgson, who left on the 4.28 C.P.R. for Lethbridge, and Mr. Murray Carlisle, also on behalf of the pupils of these forms, presented him with a set of military brushes.

Dear Mr. Hodgson,—We, the scholars of the 3rd and 4th forms, desire to express our deep regret at your departure, for you have always been a capable and much respected teacher.

But we know that our loss shall be others gain and that the school of which you are principal, will grow in every department of its work.

As a small token of our appreciation of your constant and tireless solicitude on our behalf, we ask you to kindly accept this remembrance.

With best wishes we remain, your grateful pupils of the 3rd and 4th forms.

Mr. Hodgson in his acknowledgment said that although he was going a long way from Peterborough, he hoped to meet most of his pupils again.

OFF TO THE HUNT

Party of Seven Going to Madawaska for Outing

These are days when the thoughts of the knights of the trigger, turn to the woodlands. A hearty party, composed of Messrs. Cyril Lech, John Brightman, Wm. Brightman, Thomas Lockhart, Wm. Gill, Lakefield; and John Kenney of Bobcaygeon, will patrol the territory in the vicinity of Opeongo Forks, Madawaska, and several of the party left on the 11.35 C.P.R. train to-day.

WAS AT CHURCH ONLY ONCE IN HER YOUNG LIFE

Ward of Children's Aid Society Tells Sad Story

The two children of Mr. Ed. Montgomery, who were placed as wards of the Children's Shelter, as a result of the investigation into their unfortunate circumstances, have had a considerable acquaintance with rougher side of life and little opportunity of tasting any of its luxuries. The facts of their bringing up as revealed at the recent trial are well calculated to arouse sincere sympathy for the two youngsters and cause feelings of regret that such conditions are almost identical and oftentimes better than is the plight of many dwellers in the rough and barren sections of Dummer and Harvey townships.

The father of the children is somewhat of an exception to the majority of the dwellers in these parts of the country. In his younger days he studied to fit himself for the teaching profession but the strain shattered his health, forcing him to abandon his studies. He then went into the back woods to follow the lumbering occupation.

The two children were born and their entire life so far has been passed in the rough backwoods section. The little girl, who is thirteen years of age, told a Children's Aid society officer that she had only been to church once in her life, and she was as ignorant of common religious themes as almost any heathen. Her education was very much neglected, she having had only a couple of summers schooling, the remainder of the time being spent either working at home or helping her father pile wood, and do other hard work in the lumber camps. The girl is not lacking in intelligence, and with a fair chance, would make a clever and useful woman in time. Her mother died at her birth.

The father has been a hard working man, although badly crippled, but is unable to take proper care of the children, and was willing to allow them to be taken from him and placed in the shelter.

A Thanksgiving Dinner will be given in the basement of St. James' Church on the night of Oct. 30th, from 6 to 8 o'clock, followed by good programme. Admission 25 cents. 3dwal

REV. ARMITAGE AT ALL SAINTS'

Will Preach at Both Services This Sunday

The congregation of All Saints' Anglican church will have a visit from their first rector this Sunday, when Rev W. L. Armitage, of Picton, will take the services both morning and evening.

Owen Sound may build six miles of street railway at a cost of $100,000.

THE WHY OF TAG DAY

Large Number of Children Being Cared for

The approach of the annual tag day canvass of the citizens to raise funds for the support of the Children's Aid Society, is regarded, it is learned, by some people, as rather an unnecessary appeal, and some have been thoughtless enough to inquire why such money is essential, and why so much is required. For the benefit of such, it might be said that the majority of people are perhaps unaware of the amount of money that is absolutely necessary to meet the constant requirements of such a benevolent institution.

With an average of twelve children in the shelter to provide for, the cost of whose maintenance amounts to a considerable outlay for clothes, provisions, etc., besides those who in a sense come and go, when taken aggregately, can be easily recognized as representing no minor expenditure. The board bill alone, without any undue extravagance, amounts to $90 and $100 a month. The society is also dependent upon benevolently disposed citizens and organizations for their kindly donations from time to time. The fact, then, will be easily apparent that the money raised by the annual tag day campaign is in no way in excess of the running expenses of the institution.

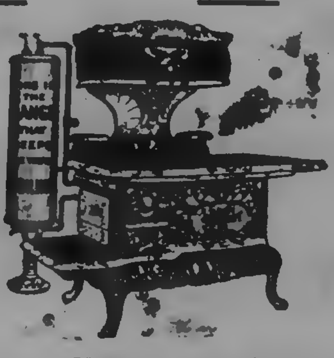
The Least Fuel. The Most Satisfaction



Covers a Whole Series of Fine Features

The reason we sell so many Happy Thought Ranges is because while other ranges have one or two special features the Happy Thought combines all the good features known in modern range building. The most of them were originated by the makers of the

HAPPY THOUGHT

and are found in no other range. We have adapted and improved all the latest inventions in stovemaking, so that now we have achieved what they have been so long striving for—a range that gives perfect satisfaction.

Have you ever tasted a roast, prepared in the Happy Thought oven—cooked perfectly, yet retaining all its juicy, appetizing qualities? The reason for this is because the Oven Ventilation is thorough and effective. A current of fresh air, constantly circulating, keeps it fresh and pure.

This is only one of the host of special features that has made the Happy Thought so highly prized by Canadian housewives.

More than a quarter of a million "Happy Thoughts" are in daily use in Canada.

Night Classes

— AT THE —

Peterboro' Business College

(Founded 1885.)

Many ambitious young people are taking advantage of the splendid opportunity to improve their education by attending the night classes at the Peterborough Business College. These classes are conducted on Monday, Wednesday and Friday nights, and students receive instruction in any one or all the subject of the Commercial or Stenographic Course. By this method, young people may learn while they earn, and thereby increase their salaries and better their positions without losing time from their work. You may enter any time, but it will be to your advantage to enter now. The cost is small, while the benefit to be derived therein is inestimable.

The Business world is full of opportunities, but the best positions are open only to those who are competent to fill them. By attending Night School at the Peterboro' Business College, you may become competent.

GEO. SPOTTON - President
E. E. LOGAN - - - Principal

CORNER STONE OF NEW HOME

Ceremony To-morrow Afternoon to be of Informal Character

The corner stone of the new Protestant Home at the corner of Anson and Hilliard streets, will be laid tomorrow, Saturday afternoon, at three o'clock. The directors will be pleased if those interested will be present. This ceremony will be quite informal as the formal opening will be delayed till the opening of the building in the spring. The street cars can be taken to Anson street.

Senator Boique has been refused an injunction to prevent the tramways merger.

PRESENTATION BY COLLEGIATE STAFF

Teachers Gave Travelling Bag to Mr. J. E. Hodgson

The staff of the local Collegiate Institute gathered in the Library at 3.30 o'clock yesterday afternoon, and presented Mr. J. E. Hodgson, who is leaving for Lethbridge where he has accepted the principalship of the High School, with a beautiful travelling bag.

Principal H. R. H. Kenner, expressed the regret of the staff in losing Mr. Hodgson and conveyed their heartiest wishes for his future success.

Mr. Hodgson briefly reviewed the seven years he had been on the teaching staff of the local Collegiate and spoke of the pleasant co-operative spirit he had found in his associates.

SCHOLARSHIP BY MR. CULVERWELL

Has Been Given to Upper Canada College at Toronto

Mr. J. Alexander Culverwell, of Port Hope, has presented a new scholarship to the upper Canada College at Toronto. The new scholarship is for mathematics and arrangements have been made for its presentation for the next ten years by the deposit of a capital sum at the National Trust Company.

Mr. Culverwell received part of his education at the college.

Fowl Supper by Ladies' Aid of St. Andrew's Church, on Monday, October 30th, in School Hall Supper from 5:30 to 7 p.m., with good program. Admission 25c 3d

THE BOYS OF THE OLD BRIGADE

To Try Conclusions With the W. E. A. C. Rugby Fourteen

The West End team is taking up the challenge of Manager Hurtubise to play the Old Boys. The game will be played to-morrow afternoon on Riverside Park, commencing at two o clock.

The following West Enders are asked to be out in uniform—

Craig, Corkery, Denison, Copping, Eastwood, Minorgan, Kirn, Hill, Ecclestone, Thompson, Turner, Webb, Davidson, Hogan, Gilbert and Langley.

The game with the Mulock Cup champions on Monday will commence aat 2.15 o'clock and will no doubt be the best of the season.

The Hurtubise Old Boys will practice to-night.

CONFERENCE

Delegates of Knox Church go to Toronto To-morrow

Messrs. W. G. Eartley and H. Young leave to-morrow evening for Toronto, where they will represent Knox Church branch of the Brotherhood of Andrew and Philip at the eighth annual conference of the brotherhood, to be held in Cooke's church on Oct. 29 and 30.

There is a splendid program mapped out for the conference, starting with Saturday evening when the assigning of delegates to places of entertainment, and continuously until Monday evening, when there will be a banquet in the Sabbath school room of the convention church, where prominent clergymen and laymen will give addresses.

When Messrs. Eartley and Young return they will be prepared to give to the Brotherhood, an account of their trip and the benefits they derived.

MR. PECK'S COMMITTEES

Wards 2 3, 4, at Conservative Club Rooms, George St.

No. 1 Ward at VanEvery's, Rubidge St.

No. 5 Ward, at Hamilton's Broom Shop, Hunter St. East

Y.M.C.A. NOTES

The senior leaders' corps held their annual meeting Wednesday night, when the following officers were elected for the season: President, P. M. McCarrell; vice-president, D. Loomis; secretary-treasurer, G. Hall. After considerable business was transacted the meeting adjourned, to meet next Wednesday evening at 6 p. m.

GREAT WORK OF SALVATION ARMY

Lecture on its Rise and Progress at the Temple

A large number heard Captain Fred Martin, of Toronto, at the Salvation Army Temple last night when he gave an interesting address on "The Rise and Progress of the Salvation Army."

Capt. Martin believed that the S. A. was the most wonderful organization in existence to-day. He knew of no organization that was doing so much to rescue people on the down grade. Several people thought that the greatest part of the S A. was the corps work. They were badly mistaken as there were in all 147 different branches in the Salvation Army.

As it would be impossible to name all the branches and their value in one evening's address, Captain Martin only spoke on a few.

SOCIAL WORK.

It was that work which was done among men who were down and out. The "Food and Shelter Depot," a place where men and women may receive a bed and food was an important branch of the social work. Last year in Canada alone, 108,000 beds had been supplied to needy people and 250,000 meals had been served. By the Salvation Army in all the countries in the world combined there were 6,018,418 beds and 7,799,509 meals supplied last year. Since 1890 there were 37,850,674 beds and 79,784,480 meals supplied by the Salvation Army Food and Shelter department.

Thousands of men had received employment in the industrial institutions of the S A. and many others had been placed in good positions outside the institutions. There are at present 157 industrial institutions in connection in connection with the Salvation Army. Capt. Martin explained at length the methods of these institutions.

Through the Salvation Army 90,000 immigrants had been brought to Canada during the past six years. To British Columbia alone nearly 7,000 girls had been brought from the old land last year and they were placed in good homes.

PRISON WORK.

Twenty-seven years ago the first prison work had been done by the Salvation Army and last year there had been 23,348 interviews in prisons by Army people. The War Cry was doing a great deal of good work, 23,325 having been distributed amongst the prisoners during the past year.

RESCUE WORK.

This was amongst fallen women and helpless children principally. It was a grand thing. In 1864 the first institution for this work was formed in England and there are now 138 altogether. Last year 1,100 girls were admitted and they nearly all turned out all right.

Homes were found for helpless children who had no one to care for them. Over 700 children were cared for last year.

The Salvation Army Hospitals were a blessing in every town and city where they were.

LEAGUE OF MERCY.

The League of Mercy was one of the grandest bodies of mercy in the Salvation Army. Capt. Martin was pleased to know that there was one doing work in Peterborough. He went on to work in Peterborough. He went on to were doing in every city.

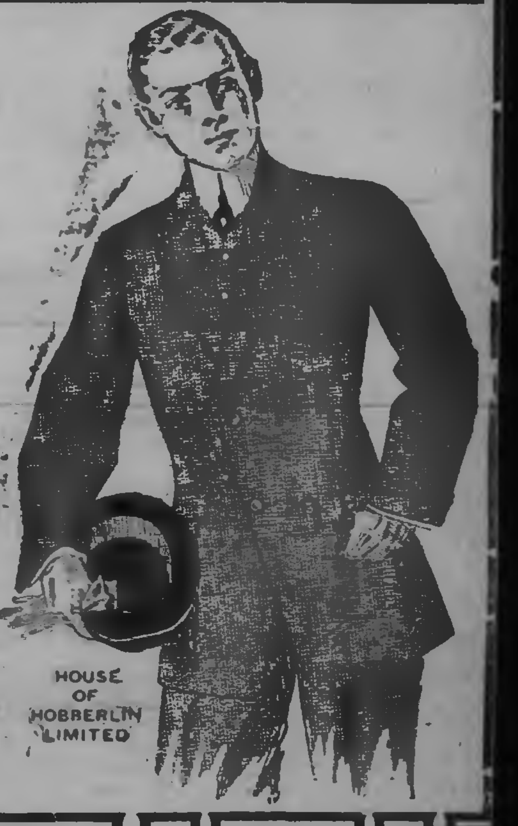
BOUQUET FROM BAND.

Captain Martin when asking for a selection from the band said that there were 1,400 S. A. bandsmen in Canada in 70 bands and he had heard 50 of them and the band in Peterborough compared favorably with any of them.

SOLDIER'S TEA.

On Thanksgiving afternoon there is to be a "soldier's tea," when all the soldiers, husbands, wives and children will be welcomed at the temple, where a supper will be served

CLOTHES THAT SATISFY



"CLOTHES THAT SATISFY" is the one best phrase we can find to describe our Ready-to-Wear Clothes for Men. They satisfy the most critical dressers as to style, fit and service, and they satisfy them at a lower cost than any others. No matter how particular you may be as regards correct style, or how exacting you may be concerning fit, or how critical you may be about your clothes withstanding hard and long wear, our clothes will satisfy you better than any other clothes you have ever worn, because we are striving to make **small** profits build up a **big** business. You can buy clothes at the same prices anywhere, maybe, but you can't get such values as ours.

Don't wait until the last minute to get your winter clothes. Get them now and LeBrun's the place

We are positive that our values are unsurpassed. Our economical methods of doing business and our willingness to accept a very small margin of profit, make it possible for us to undersell all other stores. If you find upon investigation that you can get a little better service here than at any other store, we shall expect to get your trade. Therefore, we shall expect soon to have the pleasure of showing you some of the new Fall Goods now on display here.

SPRIGS OF SPORT

ALL SAINTS' TO PLAY ALL STARS

Exhibition Game to be Called at Park St. Gronnds

On Park street grounds to-morrow afternoon, All Saints' eleven, church league champions, will meet M. Pagett's All Stars. This looks like the game of the season and it will likely be the last.

Mr. Pagett has picked his players from the C.G.E. and church league teams and will have an eleven that will give the "Saints" a strenuous game. There will be a large number of spectators, no doubt, to witness the contest as the meeting is creating considerable interest especially amongst the followers of soccerism.

CURLING RINK FOR NORWOOD

Roarin' Game Will Boom This Season—Skating Rink Too

The Norwood Register says:—It will be welcome news to the young people of Norwood and vicinity as well as to some of the older people, who are interested in curling to learn that the J. Finlay& Sons Co., commenced breaking the ground yesterday morning for the erection of a curling and skating rink on Cedar street adjoining their warehouse opposite the residence of Mr. E. J. Laing.

The curling rink will be a covered building, while the skating rink will be open. Comfortable waiting rooms in connection with both rinks will also be provided.

FOOTBALL

The following members of All Saints' football club are asked to meet at the corner of George and Charlotte streets to-morrow (Saturday) at 1.45 p.m., to get their photos taken, and then to proceed to Park street grounds for their game with the All Stars: Calladine, Hull, Gamble, Vickers, Hooper, Robinson, Williams, Dawson, GGash, Edwards, Downes, Moraity, Monk, Hardie, Curtis, Hawthorne, Rew, Ames and Beck. Players to be in uniform.

THOS. B. MOFFATT,
Secretary.

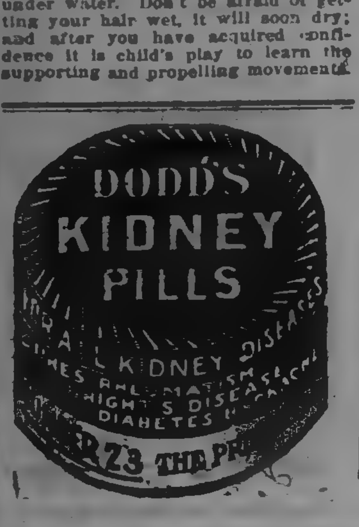
LEARNING TO SWIM

Fear and Lack of Confidence are the Greatest Stumbling Blocks.

It is really very easy and simple to learn to swim. Just a little will power, a short period of application, and the thing is done. And once a swimmer, always a swimmer; one never forgets.

Fear and lack of confidence are the great stumbling block in the path of the beginner.

Once these are overcome it is all plain sailing. The first thing for the would-be swimmer to do is to get rid of the feeling of dread that so many, and particularly women, experience at the start. This feeling should be fought, for it is senseless. It is an excellent practice to stand in shallow water and get used to the sensation of it splashing about the mouth and eyes by ducking the head beneath the surface, and trying to look about under water. Don't be afraid of getting your hair wet, it will soon dry; and after you have acquired confidence it is child's play to learn the supporting and propelling movements.



SPORT TALK

The Old Boys will practice on Central Park to-night in preparation for their game with the West End team to-morrow afternoon.

TURKEYS

There Will be Good Supply for Saturday Shoppers

Inquiry at several stores today elicited the statement from the proprietors that turkeys will be procurable for all who wish to celebrate Thanksgiving Day, by sinking their molars in a juicy section of the popular and seasonable luxury. It was their opinion, however, that the demand for the feathered monarchs would not be very brisk, but that chickens and ducks would be a more popular purchase. There is no scarcity of the latter and the prices are within reach of the most modestly filled pocket wallet, taking everything into consideration.

Mr. W. J. Oke has received several phone messages from farmers offering to supply him with turkeys for the holiday demand, and therefore expects to be able to meet the wants of all who want to buy.

Last Thanksgiving Day the supply was limited, due to the fact that very few of the birds were in good condition or large enough for killing. One lady who called at local stores to-day said that buyers were offering 18 cents per pound.

THREE ARRESTED

Italians Gathered in for Fighting on the Streets

Three Italians were arrested this morning about 10.30, while fighting and acting in a disorderly manner on the street. They were engaged in a vigorous tussle on the street when gathered in, two of them being on the ground.

The dispute is reported to have arisen over some money. The men will come up for trial in the morning.

LOCAL NEWS ITEMS

Mr. George W. Switzer, who was killed at Cameron yesterday, is a brother of Mrs. McMullin, who lives in this vicinity.

The first dance of the season at St. Alphonsus Lyceum was held last evening. Progressive euchre and refreshments provided additional pleasure. Music was supplied by the Misses Gorman and Shevlin and Mr. Tucker.

PERSONAL

Sir Edmund Walker, president of the Bank of Commerce; Mr. Frederick Laird, general manager, and Mr. Robert Stuart, of the bank directorate, were in the city yesterday and paid a visit to the plant of the Quaker Oats company.

St. John's Notices

Teacher Training class will be conducted at St. John's Guild room tonight at 7.30 o'clock.

To-morrow being St. Simon's and St. Jude's Day, Holy Communion will be celebrated at 9.45 a.m. instead of 10 a.m.

Bombarded With Stones.

Berlin, Ont., Oct. 27.—John Beits, aged 26, and Frederick Ross, 17, were arrested in Doon Village six miles from this place early yesterday morning charged with doing wilful damage to property of their employer, Aaron Good, a farmer, as well as endangering the lives of his family.

During the past week approximately twenty-five panes of glass were broken, and the walls and furniture of Good's residence were badly damaged with stones.

It is intimated that there will be sensational evidence at the trial.

REPLY TO MR. BECK

Mr. Burnham Says He Made Absurd Statement at Meeting

To The Editor of The Review.

Sir—As one of the audience that sat listening to the Hon. Adam Beck last evening, I was much impressed by the wholly unsatisfactory attitude of the modern system of government with with respect to such conditions as he so graphically described. He began by making a statement that must be characterized as absurd. He said that the reason such things as tuberculosis were not taken up and treated in Provincial Institutions was, that hangers on of a party would insist on using political influence to get people into these institutions who were not afflicted at all, but merely for the purpose of securing a rest at the public expense. This statement means that people would be allowed into such an institution without due and proper inspection and that the government control would be so wholly unreliable as to make it worse than useless. Now let me say that if this is Mr. Beck's idea of government control, it must apply to more things than tuberculosis hospitals, and it may be possible that institutions for the blind are already loaded with people who can see and lunatic asylums are not inappropriately filled with politicians. This statement, however, as a matter of fact is a bluff. It is a bluff put up by the Hon. Adam Beck in defence of the government in order that the government may like most governments continue to brag of a surplus, while unloading all the burdens on the people.

Let me give you a case in point. Children's Aid societies are not on the government subsidy list and no power under heaven can get them on. The Toronto Government has fought against it in every conceivable way. Why? Not because Children's Aid societies have not saved this province hundreds of thousands of dollars, and not because they are not the means of rescuing children from waste and crime, but because the government wants a surplus. Mr. Beck's statement therefore in defence of the government appears not only absurd but insulting and in my humble opinion it is high time that people irrespective of politics got up on their hind legs and talked to the politicians in a way that they would understand. There is no distinction of parties. Political parties seem to be afflicted all alike. Now in further reply to Mr. Beck, let me say that setting aside the fact that ten million dollars a year is lost to this province from consumption alone. People of this province, who cannot afford it otherwise, are entitled to have the public resources of this province so far placed at their disposal as to have provided for them public institutions where the victims of tuberculosis may receive, free of charge, the best possible treatment and care. Mr. Beck seems to ignore the fact that some municipalities are wholly unfitted as places for curative hospitals and he also ignores the fact that municipalities have no command of public resources or in other words they have no fund from which to draw for the benefit of the public. The government owns public lands, mining rights and exacts taxes such as succession duties and it is these that should be applied for the public benefit, and where, may I ask, is there a greater demand than in the case of consumptive patients? It seems to be the idea of the government that it is more important to build a high-way into wilderness for future generations than to save the lives of people already in existence. In other words we have in this country the extraordinary spectacle of people already in the country working like slaves and mortgaging their future for the benefit of people yet to be born, and what is the consequence? Anybody who has had any practical experience in the matter knows that the greatest blot on our civilization, is the manner in which the consumptive poor are allowed to drift and perish. There are no institutions that will receive them and how, pray, can they afford to pay doctor's bills and nurses? They simply cannot do it and instead of continuing to be the victims of a mistaken idea of government they should be rescued by the government and treated for the cause is at least a provincial one and not a local one. It is I maintain, absurd to ask municipalities, especially rural municipalities to grapple with this question under existing circumstances. If they are to grapple with it let the government apportion to them their share of the public resources. It is entirely illogical that the government should retain the public resources and unload all the burdens on the people. It will be answered that the government proposes to assist. It doesn't assist Children's Aid societies at all, and doesn't propose to do so and the assistance it proposes to give the consumptive poor is so small as to be merely a bait to induce people to undertake burdens that they have no right to assume. I feel strongly in this matter, Mr. Editor, and if I had had an opportunity to express my views I should have done so, but not having the opportunity to do so at the meeting, I feel absolutely compelled to make known what is, not only my opinion, but the opinion of a great many others thoroughly well qualified to form an opinion in the matter. The provincial elections are at hand, and I hope the public will use the opportunity to see that the policy of the government is changed. Now is our time, and I speak simply as a citizen, to force a change in a policy that is no policy at all, and I hope the next reply to be made to the crying needs of the consumptive poor will not be that they cannot be attended to because their healthy brethren are a set of malingerers and humbugs.

Yours truly,
J. H. BURNHAM.
Peterboro, Oct. 27 11.

LETTERS TO THE EDITOR

The Review does not hold itself responsible for opinions expressed by its correspondents

THE DUKE'S VISIT.

To The Editor of The Review.

Sir—We notice by the papers that the Duke and Duchess of Connaught are to pay a visit to the city of Toronto on November 27th, and the city of Hamilton on December 1st. We think it would be advisable for our mayor and city council to extend an invitation to their Royal Highnesses to stop off at Peterborough, on their way to Toronto, and show them our good city of Peterborough in Canada as we have no doubt they have often visited the city of Peterborough in England, and which is only a few miles from London.

We feel sure that their Royal Highnesses would be interested in our city and especially in our wonderful Lift Lock, the finest and largest in the world.

We hope the mayor and city council will take this matter up at once as we feel sure the citizens generally would be pleased to see the invitation sent at once.

Thanking you Mr. Editor for your valuable space, we remain,

Yours truly,
J. J. TURNER & SONS

ROCKIES BEAUTY

Mount Robson a Grand Rugged Sentinel

Mr. A. O. Wheeler, F.R.G.S., Director of the Alpine Club of Canada, has just returned to Vancouver from a summer spent in the Canadian Rockies in the vicinity of the Yellowhead Pass, and is greatly impressed with his trip.

In an interview with Mr. Wheeler, he stated; "It has been the general impression that the Rocky Mountains of Canada attain their greatest average height not very far north of the boundary line. True, of late years much has been heard of Mount Robson, which dominates the region of the Yellowhead Pass, but the popular notion was that there was nothing else in the neighborhood worth seeing, and that the Grand Trunk Pacific would pass through a region of little interest from the point of view of the tourist or mountaineer.

"There was no mistake about Mount Robson. It was without doubt, as was stated by one of the most travelled and skilled mountaineers of the day, Dr. Norman Collie, one of the most magnificent mountains in the world, whether seen from the south, the view that is most familiar, or from beautiful Berg Lake, it still stands supreme. In the hundred-mile circuit of the great massif on all sides were found mighty snow-clad peaks, widespread snow-fields, huge ice-falls, rushing torrents, waterfalls, flower-clad meadows and vast stretches of dark pine forest. Many of the peaks were named by the surveyors, but they are legion, and it will be many years before they are familiarly known as individual mountains."

In speaking of the Robson Glacier, which lies on the east side of this monstrous mountain, Mr. Wheeler said; "It struck us dumb with amazement that anything so stupendous, so superb, so undreamed of, should exist. At our feet flowed the great river of ice, every crevasse, every moraine, every icefall, clearly portrayed. Directly opposite rose the massif, its outline clear from base to summit for fully 8,000 feet. From the beautiful meadows at the head of Resplendent Valley twenty-five peaks were counted, all unknown and unnamed. And lakes, which perhaps lend the most characteristic charm to Canadian mountain scenery, were everywhere."

At the summit of the Yellowhead Pass Mr. Wheeler's party erected a monument defining the boundary bemonument defining boundary between Alberta and British Columbia at the intersection of the Great Divide. On the huge post set up, which is surrounded with a big stone mound, are carved the words: British Colombia on the west face, Alberta on the east face; and on the south 3,727.98 feet, being the altitude of the summit at the point where the post is set."

TIN WEDDING FOR MR. AND MRS. EVANS

Sherbrooke St. Couple Recipients of Numerous Tokens

Mr. and Mrs. W. L. Evans were the recipients of a large number of presents when about fifty friends and relatives gathered at their home, 505 Sherbrooke street, last night. The gathering was to celebrate the tenth anniversary of the wedding of Mr. and Mrs. Evans.

A very pleasant evening was spent in games and dancing and refreshments were served by the hostess.

Five years ago Mr. and Mrs. Evans celebrated their wooden wedding, when they gave a party.

When I go to a menagerie, the larger the big snake is, the less I care to see it.

DID NOT AIM AT DR. MAGEE

Cornwall, Oct. 27.—As far as the evidence went, the trial of F. D. McRae, ex-Reeve of Lancaster Township charged with the murder of William Shaw, the Carp druggist, ended last evening and by mutual agreement the addressing of counsel and the charge of Mr. Justice Sutherland were deferred till this morning.

The accused, F. D. McRae, was the last witness. He denied most emphatically that he was excited at the time he fired the rifle, although he had previously been under considerable excitement. He also brought in rather new evidence, to the effect that his brother, D. C. McRae, had asked him, "Farquhar, where is your rifle? This Magee party is armed, and we have no protection," or something to that effect.

In re-charging his rifle a particle of the old shell had jammed in the breach and thus prevented the proper adjustment of the new cartridge. When he arrived in front of his brother's house the Magee party, in their automobile, were going over the rise of ground on the highway, some distance away. In his anxiety to get rid of the cartridge, as he intended leaving the rifle at D. C. McRae's for the latter's protection, he had finally discharged the rifle. He did not kneel down and did not aim at anybody.

He had gone to the woodshed to get an axe, but instead of wishing to detain the Magee party, as stated by some witness, wished to drive them away. After discharging the rifle the witness had put it inside the gate of his brother's residence. He did not know that any person had been shot till he was arrested the next day by Constable John Uren.

Under a very severe cross-examination by Mr. Blackstock, the witness denied telling Rosser where the shot gun was, as when he shot at a crow a few days earlier the gun was at D. C. McRae's. He had not asked anyone to go for his rifle, and his only object was to frighten the intruders.

The first witness of the afternoon session was Miss Davidson, who for eight months was a companion to Mrs. Dr. Magee. She testified to the ill-treatment of Mrs. Magee by her husband. On one occasion she escaped downstairs with her clothes nearly torn off. The doctor had threatened to smash his wife's face.

Mrs. James McRae, daughter-in-law of D. C. McRae, corroborated the evidence of D. C. McRae as to the attack and the drawing of a gun by Uren. She was alongside of Farquhar when the shot was fired, and was positive that he had not used the expression "Protestant hound," nor had aimed the rifle. The Magee party was already over the hill, and their shoulders and the back of the auto only were visible when the shot was fired. She believed that he discharged the gun to get rid of the jammed cartridge.

MET WITH A REVERSE

Monday's Fight Proves Serious For the Italians.

Later Reports From Tripoli Go to Show That the Net Result of the Battle In the Trenches Was After All a Defeat For the European Troops and White Residents of City Are In Dread of a Massacre.

Malta, Oct 27.—The Italian reverse at Tripoli on Oct. 23, according to steamship passengers who have just arrived here, amounted almost to a rout. An Italian outpost during a reconnaissance encountered a Turkish outpost, which retreated. The Italians followed and found themselves suddenly attacked on all sides.

Three companies of Bersaglieri (light infantry) were totally annihilated. Several officers were made prisoners and mutilated and hanged by irregulars.

The return of the remainder of the Italian force, carrying a great number of wounded—said by some of the passengers to be seven hundred—caused intense excitement among the Arab population of Tripoli. The Arabs attempted to revolt, firing many shots and wounding many Italians. The attempt was soon quelled and hundreds of Mussulmans were arrested and shot. The passengers say that when they left Tripoli the town was still seething with excitement.

Fear Massacre.

London, Oct. 27.—Four hundred Italians were killed or wounded in the fighting around Tripoli on Monday and Tuesday, but all newspaper correspondent were forbidden to communicate the extent of the casualties, according to a news agency despatch received here yesterday from Tripoli, which escaped Italian censorship by being filed at Valetta.

The situation at Tripoli, the despatch adds, is serious. European residents fear a massacre, as a holy war has been proclaimed by the natives of Tripoli and Benghasi.

At Sharashett the left line of the Italian defence is reported as being hard pressed by the Arabs.

Plan Advance Into Interior.

Rome (via the Frontier), Oct. 27.—Reports received here yesterday from Tripoli say that Gen. Caneva, commander of the Italian army of occupation, has completed an elaborate plan for an advance into the Tripolitan interior. The movement will be made through the formation of a chain of forts so strongly fortified as to make them impregnable to the enemy.

Each fort will be provided with field artillery and with cavalry for scouting service. In addition each garrison can easily be reinforced from the neighboring forts as all the posts are to be connected by telegraph.

Arabs Repulsed.

Tripoli, Oct. 27.—The Arabs yesterday made a violent attack against the Italian positions between El Mesri and Boameliana. They were repulsed with heavy loss. The Italian casualties were only a few wounded.

Saw a Strange Man.

Indianapolis, Ind., Oct. 27.—That a man holding a handkerchief to his face as if to hide his features was seen to emerge from an alley in the rear of the apartment house in which Dr. Helen Knabe lived alone, at 2 o'clock last Tuesday morning, about the hour at which the physician met her death by a knife blow, was the newest lead that had developed yesterday in the police investigation.

Sir Robert Hart's Successor.

London, Oct. 27.—A Pekin despatch to The Times confirms the appointment of Francis Arthur Aglen, deputy inspector general of the Imperial Maritime Customs, China, as the successor of the late Sir Robert Hart.

HAVE YOU EVER

After retiring for the night, thought of your forgotten fire insurance policy, which had expired that day, and had not been renewed?

How quickly you'd spring to the telephone, call up the agent, and make matters right till morning, in fear that fire might wipe out your accumulations.

Yet how often have you retired to woo the sleep of the just, with **no life insurance** and it never crossed your mind seriously that ere morn the heart might stop beating, and with it, the whole earning power of both brain and hand, yet your property **may never burn**, but your heart will surely cease to beat some time. It's strange, is it not?

Then why not insure your life at once?

The Sun Life of Canada issues all the modern forms of life assurance at the lowest rates, consistent with ample security, and are giving settlements that should satisfy the most exacting.

Call or phone to the Sun Life Office, 159, Hunter Street.

MATHER'S CORNERS

Special Correspondence

Mathers' Corners, Oct. 25th.—Mrs. W. J. Mather has returned to her home in Wroxeter, after spending a month with friends here.

Miss Mabel Hore, of Keene, was the guest of Miss Fern Howson for a few days last week.

Mrs. W. T. Mather entertained a number of ladies last Thursday afternoon, and all present report a very enjoyable time.

Mrs. N. Gainer and Misses Lila and Dorothy left on Saturday for Norwood, to visit Mrs. Gainer's parents, Mr. and Mrs. F. Starke.

Mr Dalton White, of Peterborough, spent the week-end with his sister, Miss G. White.

Mrs. W. Davison, of Havelock, was the guest of her sister, Mrs. C. Howson last Tuesday.

Mr. George Mather, of the Peterborough Collegiate, spent Saturday and Sunday with his parents, Mr. and Mrs. John Mather.

Miss Fern Howson visited friends in Keene last Sunday.

Mr Robert Taylor and Miss Edna were the guests of Mr. Thomas Taylor Sunday last.

Mr. Norman Gainer's fine roan pacer has been making record time of late, and we all hope to see it on the race course next fall.

Mr. and Mrs. A. E. Wood and Miss Zena Poe visited friends in Monaghan last Sunday.

Youthful Horse Thief.

Montreal, Oct. 26.—That the juvenile court cannot come too soon was the concensus of opinion amongst spectators in the arraignment court yesterday morning, when Frank Martin, aged 9, was arraigned before Judge Lanctot, to answer to a charge of "horse stealing."

The little fellow had to stand on a chair in order that his head might be visible over the railing of the dock.

The boy had jumped into a buggy belonging to Mr. Joseph Filiatreault, which was standing in front of a store on Notre Dame street west on Tuesday. After an extended tour of the western part of the city, the boy was stopped by Constable Beauvais, while driving east on St. James street.

Judge Lanctot decided to give the little lad another chance, and sent him back with his father and a warning.

Welland Canal Problems.

Welland, Oct. 26.—Delegates from the Boards of Trade along the Welland Canal held a meeting here yesterday and decided to invite Hon. Frank Cochrane, Minister of Railways and Canals, to come to Welland and learn at first hand the local situation relative to the enlargement of the Welland Canal. A resolution was also passed, approving of the intention of the Toronto Board of Trade to send a delegation to Ottawa to have the canal question re-submitted to the Government.

W. M. German, M.P., paid a splendid tribute to the Minister of Railways and Canals, as a man likely to find a capable solution of the canal problem. He thought the late Minister, Mr. Graham, had unnecessarily delayed the beginning of the work.

Young Farmer Killed

Lindsay, Oct. 26.—George Switzer, a young farmer, 37 years of age, of Cameron, Ont., was instantly killed yesterday morning in a somewhat peculiar manner. He was backing a load of lumber out of the barn, and, as it was being skidded down the gangway, the wheels slewed, the load toppling over the steel gangway, pinning Switzer underneath the wheels. He was found dead by his father, his watch showing that death occurred at 8.10 a.m.

Switzer leaves a wife and six children, besides his parents.

Elected to Hospital Board.

Niagara Falls, Oct. 26.—City Solicitor McBurney was elected to the General Hospital board at the annual meeting of the hospital trust yesterday, to fill the place of Dr. Norman Walker, who recently moved to Toronto. The other trustees were all re-elected.

Waterloo Bylaw Carries.

Berlin, Oct. 26.—Waterloo town yesterday carried a $4,000 bylaw to grant aid to the Berlin and Waterloo Hospital Trust. Berlin passed a $15,000 bylaw, the county granted $5,000, and they will now build a new wing to the General Hospital.

Pills Killed Pup.

Niagara Falls, Oct. 26.—Its fondness for pills yesterday caused the death of a pup owned by five-year-old Edith Smith. The little girl was playing with a box of pills which the puppy swallowed, after the child had taken several.

WHO'S WHO IN CANADA

G. M. BOSWORTH

The gentleman who presides over the Atlantic and Pacific extensions of the C. P. Ry. lines is Mr. G. M. Bosworth, the vice president in charge of the traffic department rail and ocean and of the operating management of its Atlantic Fleets. He was born at Ogdenburg, N. Y., January 27th 1858 and commenced railway work on May 1st., 1875, as office boy on the Ogdensburg and Lake Champlain Railway. Six years later after many promotions he graduated as general freight agent of that line; leaving the same year to become travelling freight agent of the National Despatch Line, Chicago. Mr. Bosworth joined the Canadian Pacific May 1, 1882, as assistant general freight agent of the Ontario and Quebec lines. In January 1884 he became general freight agent of these lines; April 1885 assistant freight traffic manager on the C. P. R. east of Fort William; January 1896 freight traffic manager of the Canadian Pacific Railway; December 9th., 1901, appointed fourth vice-president, and on 17 June 1910 promoted to vice-president.

G. M. BOSWORTH
Of C. P. Atlantic & Pacific Trade

MAJOR C. GARDNER JOHNSTON of Vancouver

Major C. Gardiner Johnston, R.O., Vancouver, will leave shortly accompanied by Mrs. Johnston, on a trip around the world. The genial major has been in harness for so many years that he has well earned a respite, and his many friends will wish him bon voyage and a safe return. He will go by way of Australia and the Orient, returning through Europe, the British Isles, the Eastern States and Canada. The trip will occupy about a year.

Mr. D. M. CHAMBERS

A Little Red School-House Boy

Few are aware, says an Ottawa writer, that D. M. Chambers, of that city, started out as an imparter of knowledge in a Little Red Schoolhouse in the old county of Lanark.

Young Chambers was far too active and of too ambitious a spirit to remain entombed any great length of time, and one fine morning, to the delight of more than one little urchin in Lanark, he packed his grip and started for Ottawa in search of more strenuous and remunerative employment. He got the job all right, and, while the hours were long, the work hard, and the pay exceedingly small, the Lanark county boy was made of stern stuff, and he just kept on plugging.

Six years ago he launched out for himself. Today he is one of Ottawa's most enterprising and successful merchants.

MISS ELIZA RITCHIE

Many Canadian women teachers hold responsible positions in the schools and colleges of the United States. Miss Elisa Ritchie of Halifax was instructor in philosophy, Wesley College, Massachusetts, and then Associate Professor of philosophy in the same institution, until her resignation in 1900 when she returned to Canada.

MISS ELIZA RITCHIE,
Talented Lady Teacher of Halifax

To Trap the Rain.

In a time of distressing drought, a harassed amateur agriculturalist stepped into a shop to buy a barometer. The shopman was giving a few instructions about indications and pressures, when the purchaser impatiently interrupted him.

"Yes, yes," said he, "that's all right, but what I want to know is how do you set the thing when you want it to rain?"

PILES CURED IN 6 TO 14 DAYS

MYSTERY OF THE AURORA

Ingenious Experiments Prove that the Borealis Is Due to Electrified Sun Particles Playing About a Magnetized Earth.

That marvelous and beautiful spectacle, the aurora borealis, has hitherto been a complete puzzle to scientists. Until recently it was impossible even to make a photograph of the aurora.

It is certain that there is a connection between the aurora and electrical disturbances on earth, for the former never passes without the latter. During a great auroral display of September 25, 1909, telegraphic communication was interrupted all over the world.

Svante Arrhenius, the great Swedish scientist, has now put forward the theory that the aurora is the result of electrical particles thrown off by the sun. To test this theory M Birkeland has directed an electrical discharge of the kind described against a globe and succeeded in reproducing a miniature aurora.

The theory of Professor Arrhenius is that the sun is continually discharging ionized gasses. They condense and form particles which are electrified negatively. These are thrown out all over the universe by the force of radiation.

These particles emit cathode rays, similar to those which produce X-rays. They enter into combination with terrestrial electric currents, are attracted to the poles in accordance with the laws of magnetism and give rise to the aurora, just as the cathode rays in a Crookes tube produce a beautiful light.

M. Birkeland directed a powerful mass of cathode rays upon a small magnetic globe representing the earth. It was covered with a coating of cyanide of platinum and barium to make visible the places struck by the cathode rays. A blaze of brilliant electrical illumination formed itself over the top of the globe, representing the North Pole, or over the bottom of the globe, representing the South Pole. The place where the illumination concentrated itself varied according to the manner in which the experimenter manipulated the cathode rays. It showed itself slightly between the poles. Altogether it was a close reproduction of the way the auroral lights are distributed over the earth.

A Delightful System

The young postmaster of a village was hard at work in his office when a gentle tap was heard upon the door, and in stepped a blushing maiden of sixteen with a money order which she desired cashed.

She handed it, with a bashful smile, to the official, who, after examining it, gave her the money. At the same time he asked her if she had read what was written on the margin of the order.

"No, I have not," she replied, "for I canot make it out. Will you please read it for me."

The young postmaster read as follows:—"I send you ten shillings and a dozen kisses"

Glancing at the bashful girl he said, "Now, I have paid you the money I suppose you want the kisses."

"Yes," she said, "if he has sent me any kisses, I want them, too."

It is hardly necessary to say that the balance of the order was promptly paid, and in a scientific manner. On reaching home the delighted maiden remarked to her mother:—

"Mother, this post-office system of ours is a great thing, developing more and more every year, and each new feature seems to be the best. Jimmy sent me a dozen kisses along with the money order, and the postmaster gave me twenty!"

Bitter Experience

Bitter experience is a wonderful teacher, as is proved in the case of the young lady who had often been told that she ought to wear glasses but had neglected, or refused to do so.

There was a most determined look in her eyes, however, as she marched into the optician's shop.

"I want a pair of glasses immediately," she said. "Good, strong ones. I won't be without them for another day!"

"Good, strong ones?"

"Yes, please. I was out in the country yesterday, and I made a very painful blunder, which I have no wish to repeat."

"Indeed! Mistook an entire stranger for an old friend, perhaps?"

"No, nothing of the sort. I mistook a humble-bee for a blackberry."

DUNNING A KING

King George of Greece has a little black dog, which, like all dogs in all countries, is subject to a tax. When the usual advice asking for payment of this tax was sent to the King this year, it either got lost among his private papers or his secretary omitted to reply to it. At any rate, after a fairly long delay a second advice on a paper of different colour was sent to the Royal dog-owner. Still no payment was made.

The third advice is usually delivered by hand. Great, therefore, was the surprise of King George when he was informed that a bailiff wished to speak to him regarding the non-payment of his taxes. The bailiff was introduced into the Royal presence, and began reading a long rigmarole demanding that "His Majesty George I. of Greece should pay to the Royal Office of Taxes appointed by His Majesty George I. of Greece, etc."

In the middle of this the King, recovering from his surprise, drew out of his pocket a ten franc piece and paid the tax and the extras. And when the bailiff had gone he gave his secretary a reprimand worthy of the occasion.

The Anglican Y.P.A. may establish an official organ.

REMEMBER! HE WHO BUILDS HIS FORTUNE UPON THE FOUNDATION OF A CITY BUILDS SOLIDLY FOR AN EVER INCREASING INCOME

PORT McNICOLL

ONTARIO ONTARIO

THE NEW C.P.R. EASTERN TERMINAL ON GEORGIAN BAY, AT TORONTO'S BACK DOOR

117 MILES FROM TORONTO

Quietly, and without the knowledge of Toronto people, the Canadian Pacific Railway have been building on the shores of Georgian Bay, at Port McNicoll, what one of their own officials has said will be the LARGEST TERMINAL on their system. For months the work of creating a new shipping port has been going on. Seven Million Dollars have already been spent, ten millions will be spent. Grain elevators are now being erected, freight sheds provided and a city is in the making.

We have in our offices maps and photos showing the immensity of the work being so rapidly pushed to completion by the C. P. R. We ask you to call and look these over—it will pay you. We will also show you the best located lots in Port McNicoll. Lots that are situated in the heart of the busiest district. We are selling them at a price that will re-imburse you more than four fold. You do not need a heavy cash deposit—and the lots are not high priced.

PORT McNICOLL IS NOW THE TERMINAL OF THE C.P.R., GEORGIAN BAY

All freight and tourist travel is via Port McNicoll. Port McNicoll will have low freight rates. It is the logical point for flour mills, factories and distributing warehouses, and is 134 miles nearer the seaboard than the former Georgian Bay Terminal. Port McNicoll has to-day what many a new town takes 10 years to acquire, namely, sewers and water. History repeats itself. What Fort William, Port Arthur, and Owen Sound are to-day, Port McNicoll will be in a few short months.

WE VENTURE TO SAY THAT

PORT McNICOLL IN 1915 WILL HAVE 15,000 PEOPLE

BUY YOUR LOT TO-DAY

WE HAVE SOLD TO DATE OVER 80 LOTS. PRICES RANGE FROM $175 TO $250. 1-3 CASH

From Owen Sound to Peterboro is about 210 miles. From Port McNicoll to Peterboro about 90 miles or a saving of 120 miles on the haul from Georgian Bay to Montreal and the ocean liners.

Grades out of Owen Sound are heavy. From Port McNicoll to Peterboro a perfect line allows the carrying of 60 cars per train of grain. See this advantage?

The Canadian Pacific Railway directors know all about Port McNicoll. Look out for huge flour mills, for the Lake of the Woods and Ogilvy Flour Companies at Port McNicoll.

Last year the C. P. R. handled over its systems seven and a half million barrels of flour. The export trade is growing. How many million barrels of flour will be handled at Port McNicoll?

Port McNicoll is blessed in every way. Bala Falls is only a few miles away and great power, under the auspices of the C.P.R., will be generated and transmitted to Port McNicoll.

ALLY YOUR DOLLARS WITH PORT McNICOLL AND REAP FOUR-FOLD

OUR GUARANTEE

We guarantee the title to our lots in Port McNicoll to be perfect.

We guarantee to furnish a good and valid deed to each purchaser of a lot or lots in Port McNicoll.

We guarantee to pay all expenses, both for time and money expended if any person who upon investigation finds that we have stated anything in printed literature or written letter materially at variance with the facts in regard to Port McNicoll.

We guarantee to return all money paid to us if conditions are not as represented in our printed matter and written letters.

DO YOU WANT TO KNOW MORE ABOUT PORT McNICOLL? IF YOU DO COME IN AND SEE US. IF YOU LIVE OUT OF TOWN SEND IN THIS COUPON. IT COSTS YOU NOTHING.

J. C. HAYES CO., LIMITED.
154 Bay St., Toronto, Ont.

Kindly let me have further particulars of Port McNicoll without any obligation on my part to buy:—

J. T. O'CONNELL & CO., REAL ESTATE AGENTS, 136 HUNTER STREET, PHONE 376,

WEDNESDAY UNTIL SATURDAY, and give all particulars of the proposition. He will be glad to see all who may be interested.

NORWOOD NEWS BUDGET

Special Correspondence

Norwood, Oct. 26— Misses Loretta Bennet and Hilda West of Havelock, were in town on Monday.

Miss Muriel Searight is the guest her sister, Mrs. J. D. Moore in Peterboro.

Mr. and Mrs. Fred. Squire of Havelock, visited Norwood friends on Sunday.

Mr. Roy Richardson left last week for Queens University, Kingston where he is pursuing a course in medicine.

Mr. Cecil W Tucker has returned from a trip to the West and has joined Mrs. Tucker in Campbellford.

Mr. G. Cooper of Madoc was in town on Sunday.

Mr. W. J. Gilders has moved into the west side of Mr. J. Davidson's house on Queen street.

Mrs. W. J. Puffer and little daughter has returned from a visit with her parents in Wiarton.

Miss Clara Puffer leaves in a few days for Chicago.

Miss Vida M. Wilkins arrived home last week from the west, where she has been teaching school during the summer at Patience Lake, Sask.

Miss Huldah Dobbin of Peterboro was the guest of Dr. and Mrs. S. P. Ford last week.

Miss Lodemia Johnston visited Havelock on Sunday.

Mr. and Mrs. Gordon Beavis, and baby, Gerald, visited friends in town on Saturday.

Mrs. C. Brooke Marshland, wife of the local manager of the Union Bank arrived in town last week from England, where she has been visiting for several months.

Mr. and Mrs. A. Anderson of Keene were the guests of Mr. and Mrs. A. Davidson on Sunday.

Mr. and Mrs. Jack Rogers are visiting friends in Belleville and vicinity.

Mr. Greene, of the Greene Music Co., Peterboro, is in town to-day on business.

A shade of gloom was cast over the township of Dummer, when Lewis Cross was called suddenly to his home beyond. The late Mr. Cross has been in the best of health and helped with a threshing at his farm on Monday until about four o'clock. In the evening about nine o'clock he was sitting talking to his wife, when he suddenly became unconscious, and before medical assistance could be summoned, life was extinct.

He leaves to mourn his loss, a sorrowing wife, one son, and one daughter, Mrs Wesley Patterson, who, only two weeks ago, left for her home in Dummer, Sask., after spending the summer with her parents here.

The deceased was forty-nine years of age and the funeral took place on Wednesday afternoon from the deceased late home Lot 7, Con. 3 in Dummer.

Mrs. Cross and family have the deepest sympathy of the entire community in their bereavement.

Mr. W. Andrews of Havelock was in town on Monday.

Messrs. T. E. and J.A. Finlay, have men employed in building a curling and skating rink on the vacant lot west of the factory.

Mrs. Brown of Hastings is the guest of her sister, Mrs. J. L. Johnston.

Cook's Cotton Root Compound.

KEENE NEWS

Lad Who Was Shot is Making Recovery

Special Correspondence

Keene, Oct 25—Mr. John Moore has returned home after spending the summer in Edmonton. He reports prosperous times in that growing city

Mr. Roland Weir spent Sunday in Lang the guest of Miss Dinsdale.

Mr. John G. Drummond, has erected a fine poultry house on the premises of Dr. McWilliams.

Mr. Norman Gainer passed through the village with his running colt "Silver Star" on Tuesday. Mr. Gainer is to be complimented on the skillful manner in which he has trained his colt.

What might have been a fatal accident, occurred on Friday, the 20th, when Willie Robertskon, the only son of Mr. Wilson Robertson of "Oak Lodge" had the misfortune to receive the contents of a twenty two calibre rifle. It appears that he and another young fellow were trying to eject a shell when the rifle went off, and the bullet lodged in his hip. Though the bullet has not been removed, he is progressing as favorably as possible. Dr. V. H. McWilliams is in charge of the case.

Rev. Mr. Johnston of the Keene Methodist church, occupied the Stirling pulpit on Sunday, the 22nd.

Mr. John McFarlane, game and fishery overseer, is spending a few days in Toronto.

Mr Duncan McGregor of Toronto was in Keene renewing old acquaintances.

Dr. V. H. McWilliams is having a cement walk built from the street to his gate which will add greatly to the appearance of his residence.

Mr. Fred. Quinn of Rochester is visiting his mother, Mrs. P. Quinn, at the Island.

A farmer was caught stealing chickens. He was asked what he had to say for himself. "Ah, ha!" he replied, with a touch of the reformer in his manner, "How about the railroads!"

TUBERCULOSIS DEATH RATE IS LESS, SAYS HON. ADAM BECK

Disease Will be Eradicated in Twenty-five Years—Large Audience Heard Instructive Lecture in the Collegiate Auditorium

The initial lecture of a series that will be given in the city on the subject of tubercolosis was accorded an attentive and interested hearing last evening, when Hon. Adam Beck gave a very thorough and comprehensive account of the methods and plans that are in vogue in the cities of London and Hamilton for the care and treatment of those suffering from the dreaded white plague.

The lecture was given in the Collegiate Institute assembly hall which was well filled; indeed, the attendance proved somewhat of a surprise and was a most gratifying and encouraging exhibition of the interest that is manifested in the work which the Peterborough Health Association are endeavoring to promote in the city.

Mr. W. H. Moore, president of the Association, filled the chairman's position satisfactorily, outlining the objects of Hon. Mr. Beck's visit to the city, and referring to the reasons for the formation of the organization. He gave some statistics comparing the death rate in Peterborough with that of other cities. The average yearly death rate in Peterborough is 385, and out of this number about twenty-four can be attributed to tuberculosis, or about one out of every twelve who have died within a year have died by consumption. Taking the city's population to be 19,000 it means that one out of every 800 have succumbed to the disease. These figures were given by Mr. Moore merely to show that while Peterborough is not in bad circumstances in relation to its mortality from tubercolosis, yet it emphasized the need of proper facilities for the treatment of those suffering from the disease. He then called on the speaker of the evening, the Hon. Adam Beck.

Mr. Beck, in commencement, expressed the pleasure it caused him to be permitted to address the gathering, and to be of some assistance in the combatting of the dread disease. While not posing as a specialist on the subject from a medical or scientific standpoint, he would endeavor to give through personal contact with the work some ideas of the plans that are in force in London and Hamilton for the prevention and cure of the disease, and which have been found to give a most highly encouraging result.

"It is a big problem that we are up against," he continued, "and it is going to be a hard fight, and it is fortunate that science has made such rapid strides in the knowledge of the subject. The great idea is not only to cure the disease, but to arrest it in its very earliest stages. Tuberculosis is not generally accepted as being an hereditary disease, but it is decidedly infectious. It was just then pleasing to know that with Professor John Burns as the authority, the fact is that the ratio of consumption is on the decrease; and complete eradication of the disease would be effected in twenty-five years." The death rate in New York city had been reduced one-half, and the Hamilton death rate from consumption had been reduced one-half also.

Speaking of the establishment of sanitoriums, the speaker held that in every case the wisest and only plan was that they be under municipal and provincial control and supported by the customary taxation system. The endowment and private subscription plan has been successfully tried and experience had proven that it is not the best system.

The remainder of the lecture was featured by suggestions of a practical and helpful nature, and also by a minute description of the working system adopted for the conducting of the hospital for tuberculosis patients in London, Mr. Beck's home city.

Dr. Cameron, who occupied a seat of honor on the platform, was called upon for a short outline of the objects of the formation and the plans of the Peterborough Health Association in Peterborough. He traced the foundation of the organization, and referred to the campaign which it intends to conduct in the city in the way of disseminating information for the prevention of the disease, and of the attempts which will be made to educate the people concerning the dangers of the lack of proper treatment of the plague. For the purpose of securing the services of a district visiting nurse the sum of $1,500 is required for necessary expenses, and envelopes were distributed among the audience, who were asked to contribute one dollar or more for the purpose. The Association commences under a most optimistic outlook, and if by means of educative literature distributed in the schools and throughout the city, the general public can be instructed in the prevention and care of tuberculosis the Association will feel that their attempts have not been entirely fruitless.

SPRINGVILLE

Special Correspondence

Springville, Oct. 24.—Miss Mary Marsh spent the week-end with friends in Peterborough.

Rev. G. McColl, of Napanee, was a guest at Mr. J. Cathcart's Monday.

Miss Matchett is the guest of Miss Alma Wood here.

Mr. and Mrs. R. E. Clarke, of Peterborough, spent the week-end with friends here.

Miss Smith, of Millbrook, spent last week at Mr. D. H. Smith's, here.

People stand going to church pretty well until a tall stranger gets up and begins to talk about raising more money for foreign missions.

HAVELOCK PEOPLE SUFFER INJURY

Mr. John Jackson Had Arm Broken at Elbow

Special Correspondence.

Havelock, October 25.—Mr. Wm. Walsh spent Sunday in Peterborough.

Mrs. Ghent is visiting friends in Bancroft.

Mr. Herbert Butcher, of Calgary, was the guest of his brother, Mr. E. W. Butcher.

Mrs. Thomas Bennett is visiting friends in Peterborough.

Mr. Wallie Rose is out in Seattle.

Miss Gladys Brewster, of Peterborough, spent Sunday at her home here

Mrs George Backus and children are visiting friends in Toronto.

Mr. Jim Bohan, of Tweed, spent Sunday at his home here.

Mrs Hastings and Miss Hastings, of town, have moved to town, residing with their son and brother, Mr. John Hastings.

Mr. John Jackson, of town, happened with a serious accident while out driving on Friday last. The horse stumbled and Mr. Jackson was thrown out and had his arm broken at the elbow. Mr. Jackson had his wound dressed by Dr. Kindred, and it is hoped that he will soon recover.

Mrs. James Hanlan, of town, was injured in a runaway. She was thrown out and her head and leg were badly injured.

Mrs. (Dr.) Holdcroft held a missionary meeting in the church for the Girls' Auxiliary.

Miss Mabel Lang, of Norwood, was the guest of Mrs. Holcombe last week.

Mr. and Mrs Holcombe, of town, were in Marmora last week.

HIGH SCHOOL RECORDS.

The list of events, with the records of the high school field day, run off last week, is as follows:

Running broad jump—G. Black, 15 feet 1 inch; P. Innis, W. Holdcroft.

Standing broad jump—G. Black, 7 feet 6 inches; P. Innis, G. Frost.

Hop, step and jump—G. Black, 32 feet 11 inches; P. Innes, G. Frost.

Running high jump—G. Black, 3 feet 8 inches; P. Innes.

Standing high jump—G. Black, 3 feet 3 inches; P. Innes.

100 yards dash—G. Black, P. Innes.

220 yards dash—G. Black, 30 secs.; P. Innes.

440 yards dash—G. Black, 1 min. 15 secs.; P. Innes, D. Holdcroft.

Bicycle race—W. Wallar, W Holdcroft.

Mr. Denzil Innes, though a public school pupil, ran in all the races and finished third in each one.

Mr. George Black's record, as given above, is one to be proud of, and will be hard to equal in future years.

HOLIDAY TRIP TO STONEY LAKE

On Saturday, October 28th, Steamer Stoney Lake will leave Lakefield on arrival of the morning train and on Monday, Thanksgiving Day, it will leave Lakefield on arrival of the morning train for the Lakes, returning to connect with the 4.40 train Thanksgiving Day afternoon for Peterborough. 2d

BRIGHT NEWS OF LAKEFIELD

Well Known Lady Leaves to Reside in This City

Special Correspondence

Lakefield, Oct. 27.—The death took place at the home of Mr. and Mrs. Frank Morin, Thursday, Oct. 19th, at 7 o'clock, of their youngest son, Vaughan Murduff Morin, aged 1 year 1 day.

A meeting of the Chancel Guild of St. John's church was held in the parish hall on Thursday afternoon at 3 o'clock.

Miss Melissa and Ella Alford were visiting friends in Peterborough this week.

A meeting of the St John's Boy's Club was held in the parish hall on Friday evening at 8 o'clock.

Mr. E. Mancy spent Sunday in Peterborough visiting friends.

Mr. Geoffrey Hawey, who has been spending the past six weeks visiting friends in the west, returned home on Monday.

Mr. Wm. Preston, who has been spending the past two months in the Northwest, returned to the village last week.

Mrs. Cumberland, who has been a resident of Lakefield for a number of years, left on Monday to take up her residence in Peterborough.

Mr. and Mrs. Wm. Cox, sr., left on Thursday for an extended trip through the Northwest.

Mr. E. R. Tate spent a few days in Toronto last week.

Mr. and Mrs. F. Pullen, of Oakville, are spending a couple of weeks outing at Stony Lake.

Mr. and Mrs. Chas. Watson are the guests of Mr. Watson's parents, Mr. and Mrs. Wm. Watson.

Mrs. Harry Fitzgerald left last week for a couple of weeks' visit in Toronto

The death took place at the home of Mr. W. J. Charlton in Douro, on Tuesday, Oct. 17th, of their infant daughter.

A meeting of the Young Girls' Auxiliary was held in the parish hall on Monday evening at 7.30 and a very interesting time was spent by all.

The Women's Auxiliary met in the parish hall on Tuesday afternoon at three o'clock.

Mr. J. Johnston, of Belleville, was the guest of Mr. and Mrs. J. M. Byzott last week.

Rev. D. D. McDonald, B.A., of Keene, addressed the congregation of the Presbyterian church last Sunday.

GRAPES! GRAPES!

AUTUMN IS THE TIME FOR GLASSES **Why?**

The increasingly long evenings of autumn give greater opportunity for sewing, writing, reading, study, and as this is necessarily by artificial light the strain upon the eyes is such as to make Glasses quite a boom at this season of the year. This no doubt accounts for much of the present increased demand for Glasses.

Appointment for examining the eyes for Glasses is usually necessary.

THE DAILY REVIEW

COAL

VOL. LXIII., No. 100. PETERBOROUGH, ONT., CANADA, SATURDAY, OCTOBER 28, 1911 TEN CENTS PER WEEK.

STEEL TRUST WILL FIGHT THE U.S. GOVERNMENT STEP BY STEP

Many Technical Objections Likely to Arise—An Endless Delay is in Sight Already—First Move on Dec. 4.

Washington, Oct. 28.—The United States Steel Corporation's first step in the titanic legal battle with the Government for its existence will be taken Monday, Dec. 4.

On that day an array of counsel which promises to include some of the most brilliant legal minds in America will formally appear before the United States Circuit Court at Trenton, N.J., in which the Government's dissolution suit has been brought. On Jan. 2, 1912, the Steel Corporation is expected to file its answer to the Government's sensational charges, which have hardly been paralleled in all the anti-trust suits brought by the Department of Justice.

Several legal manoeuvres, of which the Steel Corporation's lawyers could avail themselves, may postpone the date of their answer, for they have the right to ask the court to give thirty days' more grace, thus extending their time to Feb. 2.

In the meantime, they may demur to some of the Government's allegations or they may file a bill of exceptions. Either action would delay automatically the actual beginning of the trial. The Government expects that none of the formalities of law will be overlooked by its opponents. It is possible, however, that no legal technicalities may be thrown in the way, and in that case, the earliest date upon which the trial can begin is Jan. 2.

The procedure will be for Judges Gray, Lanning and Buffington to appoint a master to take evidence in various parts of the country. It required a year and a half to take the testimony in the Standard Oil case. The Government hopes to do as well with the Steel Corporation.

Judge Gary Issues Statement.

New York, Oct. 28.—After a day of intense excitement in the stock market, with especially severe declines in the securities of the U S. Steel Corporation, the appended statement was issued by Elbert H. Gary, chairman of the board:

"I think it would be improper for me at this time to make any comments concerning the suit, which has been brought by the Government against the U. S. Steel Corporation, except to say I regret exceedingly that the Department of Justice felt called upon to institute proceedings. If any harm results, it will fall upon the stockholders and employes, aggregating a very large number, and any loss to them must be deplored. It is a time for everyone to keep cool, with disposition to patiently await results, knowing that in the end justice will be done to all in this.

"I believe a disclosure of all the facts applicable to the allegations contained in the Government's bill of complaint as a ground for relief will show that the suit ought to be decided in favor of the corporation on the merits, and that the following facts will be established:

"1. That in the organisation of the U. S. Steel Corporation those in charge had no intention of creating a monopoly or of restraining trade.

"2. That the corporation never has had, or attempted to exercise, a monopoly or to restrain trade.

"3. That the conduct of the affairs of the corporation has clearly and positively negatived any effort or intention to violate any provision of the Sherman law.

"4. That the existence of the corporation has been of benefit and not of injury to its employes, its customers, its competitors and the general public.

"5. That no misrepresentation was made to the President relative to the Tennessee Coal and Iron properties, and the motive of those connected with the purchase was to prevent a threatened general financial disaster, which would have adversely affected the corporation as well as others."

Excitement on 'Change.

New York, Oct. 28.—The big slump in the New York Stock Market yesterday, following the announcement that the Government had instituted proceedings aimed at enforcing the dissolution of the U. S. Steel Corporation, extended practically throughout the whole list, and while the major part of the decline in prices was borne by the stock of the Steel Corporation itself, the securities of practically every company listed in the exchange suffered from a reflection of the disruption of confidence. The paper losses entailed as a result of the recessionary movement ran into hundreds of millions of dollars.

USED "HIGH SIGN" GOT STIFF DOSE

Prisoner Tried to Work the Judge, But—

Seattle, Wash., Oct. 28.—Charles Hollenbeck convicted of blackmailing a fifteen-year-old girl, recognized in the Judge, Wilson R. Gay, a brother member of a secret society. He gave the signal of distress, and sign of the order, and then wrote him a note.

As soon as the judge realized the situation he reached for the code of the State of Washington, and discovering that the maximum sentence for Hollenbeck's crime was five years, sentenced him to one day less, at the same time arraigning Hollenbeck scathingly for his crime and for giving the distress signal in court. Hollenbeck came to the coast more than a year ago from Newark, N.J.

McNAMARA ON THE STAND

Los Angeles, Cal., Oct. 27.—James B McNamara, on trial for his life before Judge Bordwell, will probably take the stand in his own defence. Such was the admission made to-day by Lecompte Davis, one of his attorneys. Hitherto it has not been thought that counsel would wish to submit him to the painful cross-examination he is sure to receive at the hands of the prosecution.

IS GUILTY OF MANSLAUGHTER McRAE GETS LIFE SENTENCE

Jurymen Did Not Find Verdict of Murder in the First Degree — Kingston Penitentiary for Life.

Cornwall, Oct. 28.—F. D. McRae, who was found guilty of manslaughter, was sentenced to Kingston penitentiary for life.

HON. R. F. SUTHERLAND.
Who this morning sentenced McRae to life imprisonment at the Cornwall murder trial.

Cornwall, Oct. 28.—The jury in the McRae case yesterday afternoon brought in a verdict of guilty of manslaughter.

Justice Sutherland in his address to the jury made a calm and dispassionate review of the evidence. He said there were three courses open to them—to find a verdict, either of murder, manslaughter or not guilty.

The verdict of the jury was accepted in silence. The prisoner seemed to be unmoved. He will probably be sentenced to-day.

R. A. Pringle, counsel for the defence, opened yesterday morning's proceedings by a masterly address, which lasted one and three-quarter hours. He said that he felt the greatest responsibility in approaching the case and felt it would be a great privilege to do what he could towards saving the life of F. R. McRae.

He believed he had just cause to ask for his acquittal. If the prisoner, in the handling of his own weapon, used ordinary care and prudence he was not guilty.

The prisoner was a man of prominence in the community, and not a man of criminal instincts. It was not proved that Mrs. Magee left her husband on account of religious differences, but on her husband's own testimony, on account of his brutal treatment. In the pledge she extracted in returning to her husband, she was only insisting on liberty of conscience.

There was no ground for appealing to religious prejudices as against the prisoner. A man who would treat a woman as Magee had treated his wife, would not hesitate to perjure himself to gratify his spite against the McRae's. The letters written by Magee to his wife were a disgrace to any man. It was hardly to be wondered at that D. C. McRae become alarmed for the safety of his daughter and grandchild and took the steps that any man would take to protect them.

All the Magee party were armed, and admitted they would have used their weapons to obtain the child. It was time that the Magees and Constable Uren should be indicted by the crown for entering the McRae premises armed. Mr. Pringle wound up with a strong appeal for the acquittal of the prisoner.

George T. Blackstock, crown prosecutor, in closing, deprecated the bringing of religious matters into the case, on which they had no bearing, and threw the onus on the defence for so doing. Nor was there any necessity to go into Dr. Magee's conduct towards his wife, for which there was no excuse. These were merely introduced to prejudice the jury.

He then went into the story of the shooting, remarking that he never knew a case on which there was so little real difference of opinion among the witnesses. On McRae's own evidence that he had fired the shot that killed Shaw, he was a murderer, unless he could prove that the circumstances were such as to excuse him. This he did not do, said Mr. Blackstock. It was not manslaughter, but murder, and he asked the jury to find to that effect.

Six Comets Hanging.

Montreal, Oct. 28.—Six comets, three of which have quite recently been seen with the naked eye, are now within the neighborhood of the sun, according to Prof. McLeod of the McGill Observatory. Of the two brightest, one has been visible just after sunset, north of the sunset point. It has a bright head and a tail about seven degrees long.

The second is said to be brighter than the famous Halley's comet, and was discovered last July. Early this week it had a tail twenty degrees in length, and was visible in the morning just before 5 o'clock, northeast of Venus, the morning star.

To See Military Flights.

Ottawa, Oct. 28.—The Militia Department is taking much interest in the flying experiments to be made at Atlantic City, N.J., by the naval and militia authorities of the United States. Col. Hughes has instructed Col. Fiset and Lieut.-Col. Maunsell to witness the experiments.

A Historic Landmark.

Winnipeg, Oct. 28.—After being in operation for almost a century, the Hudson Bay Co. is closing out its store at Lower Fort Garry, and henceforth the old fort will be preserved only as an historical landmark.

New Insurance Company.

Ottawa, Oct. 28.—Parliament is to be asked at the coming session to incorporate the Sterling Life Assurance Co. of Canada, the applicants being Albert E. Nunn of Orillia; W. H. Shaw, Dr. George Smith, A. P. Pousette and J. W. Garvin of Toronto.

TRY A REVIEW WANT AD.

HIS HEAD IN A BAG, POLE WAS BOUND TO AXLE OF FREIGHT CAR

Cotton Waste Tied Around Montreal Foreigners Mouth — Held by Police.

Montreal, Oct. 28.—With his head in a bag half filled with ashes, cotton waste tied around his mouth for a gag, and his arms and legs tied around the axle of the wheels of a Canadian Pacific freight car, Mike Schutz, a Pole, 33 years of age, whose home is at 57 Manufacturers street, Point St. Charles, was found late Thursday night by two constables. A watchman who heard a man groaning, called the police.

Schutz said that while walking along St. Patrick street towards his home early in the evening he had been attacked by four men. They had pulled the bag over his head. He did not know where they had tied him until the police released him.

Schutz is held as a prisoner on a charge of loitering. The police think that he may know about the shooting of Joseph Budziaszek, who died on Tuesday night and that the men who attacked him may have tried to get rid of him lest he tell.

First Train on New Line.

Sault Ste. Marie, Ont., Oct. 28.—The first train over the newly-accepted road between Mile 66 and Mile 79 on the Algoma Central Railway will leave the Soo at 9 a.m.

The large bridge at Mile 91 Montreal River, was completed this week, and contractors are rushing steel across to connect with Hawk Lake, to which point grading has been done. The contractors say the road would be ready to connect with Meben on the C.P.R. early next summer.

Reports from the line to Mile 66 state that three inches of snow are now on the ground. The Soo had its first snowfall on Thursday.

Bishop Holds Kissing Bee.

Guthrie, Okla., Oct. 28.—After Bishop Quayle of the Methodist Episcopal Church, had ordained a number of deacons and elders at the annual Oklahoma conference, he called the wives of all of the new-made church officials to the front of the pulpit and told each to kiss her husband. "Husband and wife should work together perfectly to be valuable to the community in which they live and to the church they serve."

ITALY LOSES MANY MEN

Campaign in the Tripolitan Region Warms Up.

Moslem Attacks on Italians Very Severe.

London, Oct. 28.—From uncensored despatches from Tripoli, reaching England by way of Malta, and which in part are confirmed by censored despatches reaching Italy, it is apparent that Italy's campaign in Tripoli already has cost more lives than Italy anticipated it would, while the financial outlay will greatly exceed the estimates.

The Turks, with their Arab allies, who at best, it was believed, would only carry on a desultory campaign, which would make a kind of holiday for the invaders, have upset the calculations of the Italians by a series of concerted attacks in which, according to accounts sent by correspondents without submission to the censor, the Italians have come off second best.

The Turkish embassy issued a statement yesterday claiming that in Monday's fighting the allies secured a victory, the Italians losing 300 men killed and 700 wounded. This is confirmed in part by an independent report that the Italians brought 700 wounded men into Tripoli, and further by an announcement from Rome that the Government had decided to send forward 15,000 reinforcements.

Since then, according to the telegrams coming in from various points, some of them, it is true, rather conflicting, there has been a series of attacks, the latest of which was delivered Thursday. Thus far only censored accounts have been received of this, but apparently it was extensive.

Only one despatch, which obviously was roughly handled by the censor says wonderful but untrustworthy stories about the action are in circulation, but that the Italian riflemen and artillerymen says that about 100 Italians were wounded and that it is claimed that hundreds of natives were killed in the palms, which a cruiser was shelling. According to this despatch a determined attack was looked for yesterday, Friday being the Moslems' Sunday.

A belated account of Monday's fight, which came by way of Malta, says the Italians have no knowledge of what brought about their defeat. The Moslems, thoroughly understanding each other, prepared for a supreme effort to stagger or destroy the invaders, and, only by accident did the Italians escape ambuscades deep and deadly.

"The Moslen population," the despatch continues, "was expecting the signal to rise and strike their professed friends and awaited the opportunity to shoot or stab the Italians who had been drawn by a strategem to parts favorable for an attack, but the Turks and Arabs showed themselves too soon. Their plans and strength were partly discovered. They number perhaps between 40,000 and 50,000. Undeterred by the failure of their tactics, they fought desperately. The Italian bersagliere, or sharpshooters, sustained the heaviest loss, some 200 to 300 of them perishing.

A later despatch from the same source says that there was an engagement Wednesday, and while the capture of 12,000 Arabs and Turks is mentioned in it, the assertion also is made that the Italian losses were heavy, some companies of the bersaglieri being wiped out.

Another Army Sent.

Rome, Oct. 28.—Another army expedition to Tripoli sailed secretly from Naples during Thursday night. As was the case with the other expeditions, the troops were brought to the port and placed on the transports with the knowledge of comparatively few persons.

The expedition sailed, escorted by a naval division, which will be strengthened with other ships after the convoy has passed through the Straits of Messina. The transports and warships carried no lights, and nothing leaked out as to whether the troops would be landed at Tripoli, Benghazi, Derna or Tobruk.

Gen. Caneva, commander of the army of occupation, has requisitioned a large number of coral, sponge and fishing boats to facilitate the landing of the soldiers, a task which is difficult, owing to the rough seas and unfavorable coast.

REV. CLARENCE RICHESON CHARGED WITH MURDER OF GIRL HE JILTED

THE REV. CLARENCE V.T. RICHESON LEAVING THE EDMANDS HOME FOR BOSTON POLICE HEADQUARTERS
HYANNIS BAPTIST CHURCH
MISS AVIS LINNELL
NEW HOUSE CHESTNUT HILL, BEING BUILT FOR VIOLET EDMANDS AS A MARRIAGE GIFT

One of the most sensational murders in the history of New England is now attracting the attention of the entire country. The Rev. Clarence Virgil Thompson Richeson, pastor of the Emmanuel Baptist Church, of Cambridge, Mass., is now held by the police of Boston, charged with murder in the first degree, in connection with the death of Miss Avis Linnell, whom he had discarded in favor of Miss Violet Edmands, her wealthier and more aristocratic rival. Before he took charge as pastor of the Emmanuel Baptist Church the Rev. Richeson was pastor of the Hyannis Baptist Church, near Cambridge. It was at this church he first met the Linnell girl, who sang in the choir.

PROBABILITIES

Sunday, south-west and west gales; cold and unsettled.

Another Dynamite Plant.

San Francisco, Oct. 28.—Southern Pacific Railroad officials here were notified yesterday of the finding of thirty-six sticks of dynamite in a frog on the track at Ellwood, Cal., a few moments after train No. 18, a southbound passenger, had passed the switch. Part of the dynamite was pulverized, evidently having been ground by the car wheels.

The dynamite was found within a few miles of the bridge where a similar cache was planted when President Taft's train passed on Oct. 17.

"CANADA'S VOTE SAVED THE EMPIRE" SAYS BERESFORD

Missionaries Safe.

Toronto, Oct. 28.—"In any case," said Rev. T. E. Shore of the Methodist Missions rooms yesterday, "we believe our missionaries are quite safe." He explained that the revolutionists realized that their ultimate success depended in a large measure upon the good will of the foreign nations.

"The reports as to the number of Canadians located in the war zone," said Rev. Mr. Shore, are exaggerated. "There are only about twenty Canadian missionaries there, instead of one hundred as reported in the press despatches."

All efforts to reach the missionaries by cable has failed, due to the wires being cut around Hankow, Chingtu and Chingking.

THE OMISSION WAS QUITE ACCIDENTAL

London, Oct. 28.—In the House of Commons McKinnon Wood, for the Treasury Board, informed Evelyn Cecil that the words "Dei Gratia" or letters "D G." had been omitted inadvertently from the new Canadian coinage. Fresh dies had been sent to the Canadian mint.

Sir W. Mackenzie has subscribed a thousand pounds to the habitation fund of the Society of Knights Bachelor.

Earl Grey had an enthusiastic reception when he arrived at Howick, his northern residence.

Stanley Kaufman, Toronto, is admitted to the Royal College of Physicians

Remarkable Scenes at Three Day Convention of Men in England.

London, Oct. 28.—The Church of England Men's Society concluded a remarkable three days' convention yesterday. Ten thousand attended Thursday night's demonstration and cheers greeted a message from the branches in Manitoba and other parts of the Empire. The Archbishop of York said, that, in democratic history, our country now was at the parting of the ways and would have to decide whether the work was only material or ideal. Dr. G. R. Parkin of Canada also spoke.

Lord Charles Beresford, interviewed yesterday on his return, as to the sentiment of the Canadian people, expressed in the elections, said it had saved the Empire. At the same time, he sympathized with Sir Wilfrid Laurier, who was one of the few really great statesmen to-day. Every man was liable to make a mistake. He was glad Sir Wilfrid was remaining in politics and his gladness was shared by all Canadians.

Asks Extension of Time.

Ottawa, Oct. 28.—The Canadian Northern Ontario Railway will apply to Parliament for an extension of time in completing the lines from Toronto to Ottawa, French River to Ottawa and Montreal, to Sudbury to the C. N. R. The company also seeks authority to build from Long Lake to the National Transcontinental, and from a point in the Township of Chisholm to a point on the Central Ontario line.

MINISTERS ARE ALL ELECTED BY ACCLAMATION TO CABINET

Hon. Mr. White Will Have Meetings in Leeds, His New Constituency, to Get Acquainted With the Electors.

Montreal, Oct. 28.—Hon. F. D. Monk, Minister of Public Works; Hon. C. J. Doherty, Minister of Justice; Hon. L. P. Pelletier, Postmaster-General, and Hon. W. B. Nantel, Minister of Inland Revenue, were re-elected yesterday, by acclamation, in Jacques Cartier, St. Ann's, Quebec County, and Terrebonne, respectively; no opposition developing in either of the constituencies. There was a protest, however, in the case of Jacques Cartier, where H. Semple, advocate, handed in a document, alleging that, in the English version of the proclamation, the day of nomination was stated as being Sept. 27, instead of Oct. 27, but as the French proclamation is equally official, the protest was not noticed by the returning officer, and Hon. Mr. Monk was declared elected.

The Minister of Public Works, during a nomination address at Lachine said it would be un-British and unconstitutional for a Minister to attempt to give an outline of Government policy before that policy had been decided upon.

Hon. Mr. Monk announced that he had not only been given an important department by Mr. Borden, but had been asked to select his own colleagues. Both the Prime Minister and his other colleagues had done all in their power for Quebec, and the delicacy shown by the Prime Minister in handling all matters had stamped him to be a man of absolutely unbiased and unprejudiced mind, as were, in fact, so many of the men from the lower provinces.

Foster By Acclamation.

Toronto, Oct. 28.—Hon. George E. Foster was elected by acclamation in North Toronto yesterday, when he returned to his constituency for election as Minister of Trade and Commerce. Norman B. Gash, K.C., was ready to act as Hon. Mr. Foster's financial agent had there been an election.

Raised Age Limit.

Ottawa, Oct. 28.—An order-in-council has been promulgated suspending for the pending examinations the regulations whereby candidates for naval cadets much be from 14 to 16 years old, and putting the age limit at 17. Back of this is the fact that owing to the mismanagement of the naval service by the late Government, very few candidates are presenting themselves.

An order-in-council also makes the necessary legal provision for the holding of the Niobe court-martial.

White to Hold Meeting.

Brockville, Oct. 28. Hon. W. T. White, the new Minister of Finance, for whom Mr. George Taylor has resigned the seat in the Commons for Leeds, will hold several bye-election meetings in that constituency, commencing at Lansdowne on Nov. 2. He will be supported by Mr. Taylor and Mr. Webster, M.P., for Brockville.

East Hastings Conservatives.

Belleville, Oct. 28.—A largely attended convention of the Liberal-Conservatives of East Hastings was held in the village of Roslin yesterday afternoon. In the third ballot, Alexander Grant, reeve of Tweed village, obtained a majority over Mr. Deyes, and his nomination was made unanimous.

Haldimand Liberals.

Cayuga, Oct. 28.—At the Liberal convention held here yesterday, Jacob Kohler received the unanimous vote of the convention to contest the County of Haldimand.

Trying to Place Graham.

Ottawa, Dec. 28.—T. W. McGarry, M.P.P. of South Renfrew (Con.), is back in Ottawa to-day. With his arrival there is a renewal of the effort to arrange an acclamation for Hon. George P. Graham as federal member of North Renfrew. It doesn't look to-day as if such an arrangement can be made.

THE WAR IN CHINA

Special to the Review.

Pekin, Oct. 28.—Yuan Shi Kai, who has been given the supreme command of the army and navy, has placed new men in command of the field forces. All his preliminary steps indicate that he expects to temporarize with the rebels. He hates Manchu rulers.

HAS GIVEN $500,000

Special to the Review

Pekin, Oct. 28.—The Dowager Empress has sent to the minister of finance $500,000 from her private purse. This she has ordered to be put into the war chest for recruiting and equipping more soldiers.

REBELS ARE DEFEATED

Special to the Review.

Shanghai, Oct. 28.—Wireless messages picked up by German vessels sent by imperial forces at Hankow to Pekin war department, state a decisive battle has been fought near Hankow, in which the rebels were defeated. The battle raged all day and the rebels were driven from their fortified positions.

ROUGH

HORSE'S LEG SWELLED

Animal Was Too Sore and Lame to Work—Quickly Cured by "Nerviline."

"I have had a long experience in treating horses, and I can safely say that I know of no liniment for strains, sprains, and swelling that is so useful around the stable as Nerviline." Thus writes Mr. Joshua B. Murchison, from his home, Crofts Hill P. O. I had a fine young mare that wrenched her right fore leg, and from the shoulder down she was stiff, sore, and swollen. I applied Nerviline, and it worked like a charm; in fact, that mare was in shape to work a day after I used Nerviline.

Nerviline is a Trusty Liniment

"We have used Nerviline on our farm for twenty-five years and never found it wanting. For man or beast it is a wonderful liniment."

We have received nearly five thousand letters, recommending Nerviline as a general household liniment, as an all-round cure for aches and pains. One million bottles used each year. Try it yourself. Large bottles of Nerviline 50c; trial size, 25c. All dealers, or The Catarrhozone Company, Kingston, Ont.

NERVILINE FOR MAN OR BEAST

The Daily Review

SATURDAY, OCT. 28, 1911.

THE STEEL CORPORATION

The attempt that will be made by the United States government, to smash the big steel trust will be watched with the keenest interest by students of great industrial problems. The steel corporation is perhaps the greatest of all industrial combinations. If there ever was an octopus worthy of the name, that corporation is certainly one. It has a capitalization totalling about one and a half billion dollars, including bonds. It is a holding company—that is, it does not manufacture itself, but holds the stock of the subsidiary and operating companies.

The commission to the Morgan Underwriting Syndicate, according to Commissioner of Corporations Smith, was $62,500,000 in cash.

The Steel Corporation according to Smith, showed a total investment in tangible property on December 31, 1910, of $1,187,000,000 as against outstanding securities of $1,468,000,000 with $281,000,000 worth of "water" in the stock. On the outstanding obligations, however, the corporation was earning 12 per cent. according to Smith's figures. In 1901, according to Smith, the tangible property was worth only $682,000,000, against obligations of $1,400,000—showing $718,000,000 "watered" stock. In ten years, more than $425,000,000 had been added to the tangible valuation of the corporation.

The announcement made by Morgan that he will fight the attempt to secure dissolution, and the fact that he was a supporting factor in the market in the slump, lend interest to the situation. In view of Morgan's power can the government succeed in doing to the steel trust what it did to the Standard Oil Company—force a dissolution of the big parent company? The action of the government is based on the section of the Sherman anti-combine law, which reads as follows—"Every contract, combination in the form of trust, or otherwise, or conspiracy in restraint of trade or commerce among the several states, or with foreign nations, is hereby declared to be illegal. Every person who shall make such contract or engage in any such combination or conspiracy, shall be deemed guilty of a misdemeanor, and on conviction thereof, shall be punished by fine not exceeding five thousand dollars, or by imprisonment not exceeding one year, or by both of said punishments, in the discretion of the court."

THE LIBERAL LEADERSHIP

It must be a pleasant pill for Mr. Mackay to have to swallow, to have the Toronto Globe reporting verbatim all the nasty things some Toronto Liberals are saying about his leadership. Not only are there insurgents trying to oust him, but their valuable opinions are carefully handed to the public by the chief Liberal organ.

This kindly attitude by the Globe is quite in tune with its general conduct. Having killed the party in Ontario by its reciprocity madness, it seeks to bring the deceased back to life by chopping off its head, and substituting another. And this all the while the preacher-editor is explaining to the United States how the American trusts bought the Canadian verdict against reciprocity.

As it seems to be quite a fad to jump on the poor Liberal leader, especially in select Liberal circles, it might be asked; where does R. R. Hall stand? Is he going to go through the campaign claiming that the people of Ontario should return Mr. Mackay as premier, when even the Liberals are rejecting him? Or will Mr. Hall, say that he should be elected because he might have a chance of at least "honorable mention," for the leadership? Or will Mr. Hall ask that Peterborough voters should vote for a man whom a section of his own party does not want?

These be pertinent questions! If to support Mr. Hall means supporting Mr. Mackay, then there are apparently many precedents and illustrious examples for Liberals to decline to make the jump. But if Mr. Hall will be frank enough to say that he doesn't think much of the leader, and would use his influence to bring on the scene somebody who could satisfy the Globe and the Toronto Liberals, some of us might consider him worth while as a political Warwick.

Some of the remarks made by Liberals at a meeting of the Mackenzie Liberal club—a Toronto political organization — in reference to Mr. Mackay, and reprinted with gusto by the Globe, are worth while. These be the followers O Caesar, who maketh a leader's heart glad. Listen to the Globe report.

H. C. Fortner said that he was not in sympathy with the Liberal leader. "I would rather see the Liberal party go into the fight without a leader" said he.

Dr. Bryan said that he felt free to state his opinion, and it was time for a change. "In my opinion" said he, "the present leader of the opposition is not likely to be a success." Dr. Bryan admitted that Mr. MacKay was clever, a platform orator and had many good points, but thought it would be a mistake to continue him as leader.

Mr. C. W. Kerr, president of the North Toronto Liberal Association said of Mr. Mackay that, "he does not carry the conviction and respect of the people in Ontario."

President E. Fielding of the Mackenzie club said, "I want a better leader for the Liberals of Ontario, though, I think a good man can be found."

EDITORIAL NOTES

The preacher-editor manages to occupy the limelight anyway.

In commencing a suit to break up the steel combination, the U.S. attorney general's department is tackling a cold, hard proposition.

Mr. Hall is evidently preparing a most comprehensive platform for the Liberal party of Ontario, judging by his efforts in the address line.

The opinions of some of the Toronto Liberals as to the leadership of Mr. MacKay are real interesting. The Toronto Globe gives them publicity verbatim. The "dictator" of Liberalism is on the job still.

The Toronto Globe has had two or three of the provincial ministers in trouble over their nominations. But when the conventions were held, everything was peace. The Globe keeps up its reciprocity guessing record.

Morgan having announced that he intends to head the fight of the U. S. Steel corporation against the breaking-up process, the battle of the "Money King" of the United States against the representatives of the people will start. It is the first clinch of a long battle.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio

Take Hall's Family Pills for constipation.

Canadian Locomotive Company

The investing public will very shortly be offered the first mortgage 6 p.c. gold bonds of the Canadian Locomotive Company, by two prominent financial houses. These bonds are not a new issue or charge against the Company, but are the original issue of the Canadian Locomotive Company, which was authorized last summer at the time the doubling of the Company's output was decided upon. The preferred and common shares of the Company were placed with investors last summer.

TRIED EVERYTHING WITHOUT RELIEF

Until I took "Fruit-a-tives"

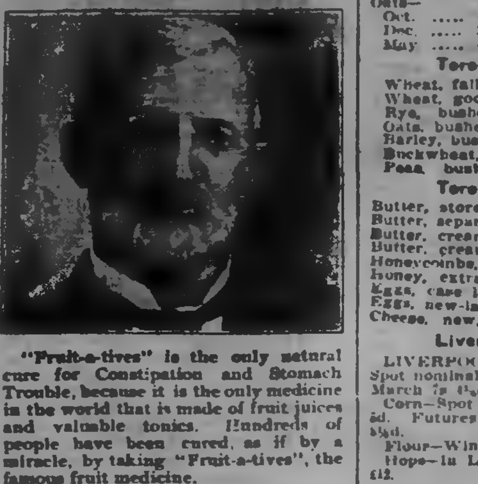
SARNIA, ONT., Feb. 5th, 1910.

"I have been a sufferer for the past 25 years with Constipation, Indigestion and Catarrh of the Stomach. I tried many remedies and many doctors but derived no benefit whatever.

Finally, I read an advertisement of 'Fruit-a-tives'. I decided to give 'Fruit-a-tives' a trial and found they did exactly what was claimed for them.

I have now taken 'Fruit-a-tives' for some months and find that they are the only remedy that does me good.

I have recommended 'Fruit-a-tives' to a great many of my friends and I cannot praise these fruit tablets too highly" PAUL J. JONES



"Fruit-a-tives" is the only natural cure for Constipation and Stomach Trouble, because it is the only medicine in the world that is made of fruit juices and valuable tonics. Hundreds of people have been cured, as if by a miracle, by taking "Fruit-a-tives", the famous fruit medicine.

50c. a box, 6 for $2.50, trial size, 25c. At dealers, or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

Carbolic Acid Cures Lockjaw.

Baltimore, Md., Oct. 28.—Just three days after James H Coleman was admitted to the hospital with his neck perfectly rigid and his jaws locked, he was partly able to open his mouth. Dr. P. C. Kintzing, of the Maryland Medical College, directed the treatment, which consisted of a hypodermic injection of pure carbolic acid every three hours. Only six times before has this treatment been resorted to, and each patient was cured and suffered no ill-effects.

Canada and the Indies.

London, Oct. 28—The Evening Times concerning Canada taking the West Indies, says it is little use considering the plan until Canada is able to take all the West Indies' exports, since the United States could, if induced to do so by a West Indian and Canadian tariff, ruin a majority in the Indies by imposing a duty on articles now finding an American market.

Declines to Run.

Niagara Falls, Ont., Oct. 28.—It is now certain that Mayor Dores, who was nominated for the Legislature by the Liberals last June, will not run against Evan Fraser, the Conservative candidate. Fred. W. Griffiths, a local lawyer, may be nominated at the Reform convention in Welland next Wednesday, it is said to-day.

NO OPERATION WAS EVER NEEDED HERE

Because Mrs. Goodine Used Dodd's Kidney Pills

Doctor Said She Would Have to Undergo Operation but Dodd's Kidney Pills Cured Her.

Central Kingsclear, York Co., N. B., Oct. 27. (Special)—"The doctor said I would have to undergo an operation." So said Mrs. J. V. Goodine of this place. But she smiled as she made the remark, for all need of the dreaded operation had vanished. Mrs. Goodine used Dodd's Kidney Pills and is a well woman. Given in brief and in her own words, Mrs. Goodine's experience is as follows:—

"I was very miserable with Kidney Disease and unable to do my own work. The doctor said I would have to undergo an operation. After using three boxes of Dodd's Kidney Pills I was all better and able to do my work. This statement is true, as you can easily prove by inquiring among my neighbors."

Dodd's Kidney Pills cure the Kidneys; cured kidneys strain all the poisons and other causes of disease out of the blood. Thus Dodd's Kidney Pills are a natural cure for all Kidney diseases and all ills caused by diseased kidneys.

GRAND TRUNK RAILWAY SYSTEM RAILWAY TIME TABLE.

October 1st, 1911

	ARRIVE	DEPART

4.28 p.m. for Toronto, Hamilton, Guelph, Woodstock, London, Chatham, Detroit, Chicago, also Fort William, Winnipeg and all points in Canadian Northwest.

THE MARKETS

Latest Quotations in Grain Dairy Products, Live Stock Etc.

CHICAGO, Oct. 27.—Almost panic conditions took a clutch to-day on the market for wheat. Demoralized stock dealings had the most to do with the scare, but there was also talk that the government would investigate the alleged manipulation of grain. Closing prices were weak at a decline of 1 3-4c to 2 3-8c to 2 1-2c, compared with 24 hours before. Other staples fell, too, but not nearly so much as wheat—corn 1-2c to 5-8c to 5-8c, oats 3-8c to 1-2c, and hog products 5c to 15c to 17 1-2c.

The Liverpool market closed to-day ¼d lower than yesterday on wheat and ¼d to ½d lower on corn. Antwerp closed unchanged on wheat, Budapest ⅝c lower, and Berlin ½c lower.

Winnipeg Options.

Liverpool Grain Prices.

LIVERPOOL, Oct. 27.—Closing—Wheat—Spot nominal. Futures weak; Dec. 7s 5d, March 7s 4½d, May 7s 4d.

Corn—Spot steady; American mixed, 6s 6d. Futures easy; Jan. 5s 8⅞d, Feb. 5s 5¾d.

Flour—Winter patents, 27s 9d.

Hops—In London (Pacific Coast), £11 to £12.

Montreal Grain and Produce.

MONTREAL, Oct. 27.—The foreign demand for Manitoba spring wheat was very limited, but, notwithstanding this fact, there was a good demand for ocean grain room, and engagements for some fair-sized lots were made to Leith, Glasgow and Manchester. Owing to the break in prices of over two cents per bushel in the Winnipeg October option, a weaker feeling developed in the local market, and prices declined 1c per bushel. A good business continues to be done in flour for local account, and prices are firm at the recent advance. The export demand shows no improvement. Cheese and butter in fair demand and eggs fairly active. Provisions quiet.

Dressed hogs—Abattoir, $8.50 to $8.75 per 100 lbs.

Beef—Plate, half-barrels, 100 lbs., $7.50; barrels, 200 lbs., $14.50; tierces, 300 lbs., $21.50.

Lard—Compound tierces, 375 lbs., 9¼c; boxes, 50 lbs. net (parchment lined), 9¼c; tubs, 50 lbs. net, grained, two handles, 9½c; pails, wood, 20 lbs. net, 9¾c; tin pails, 20 lbs. gross, 9¼c.

Pork—Heavy Canada short cut mess, barrels, 35 to 45 pieces, $24; half-barrels, $12.25; Canada short cut and back pork, 45 to 55 pieces, barrels, $23; Canada clear pork, barrels, 30 to 35 pieces, $22.50; bean port, small pieces, but fat, barrels, $17.50.

Oats—Canadian western, No. 2, 48½c to 49c, car lots, ex-store; extra No. 1 feed, 45c to 45½c; No. 3 C.W., 47½c to 48c; No. 2 local white, 47c to 47½c; No. 3 local white, 46½c to 47c; No. 4 local white, 46½c.

Flour—Manitoba spring wheat patents, firsts, $5.60; seconds, $5.10; winter wheat patents, $4.75 to $5; strong bakers', $4.90; straight rollers, $4.25 to $4.40; in bags, $1.95 to $2.05.

Rolled oats—Per barrel, $5.25; bag of 90 lbs., $2.50.

Millfeed—Bran, Ontario, $22 to $24; Manitoba, $23; middlings, Ontario, $27 to $28; shorts, Manitoba, $25; moullie, $26 to $32.

Eggs—Selected, 26½c to 28c; fresh, 33c to 34c; No. 1 stock, 22½c to 24c.

Cheese—Westerns, 14c to 14¼c; easterns, 13¾c to 13⅞c.

Butter—Choicest, 27c to 27½c; seconds, 26½c to 26¾c.

CATTLE MARKETS.

East Buffalo Cattle Market.

EAST BUFFALO, Oct. 27.—Cattle—Receipts, 200 head; market slow, steady; prime steers, $7.25 to $7.60; butcher grades, $3 to $7.

Calves—Receipts, 700 head; market active, 25c higher; cull to choice, $6 to $10.

Sheep and Lambs—Receipts, 18,000 head; market slow, 15c to 25c lower; choice lambs, $5.50 to $6.05; cull to fair, $4.25 to $5; yearlings, $3.75 to $4.25; sheep, $1.50 to $3.65.

Hogs—Receipts, 11,650; market active and firm; yorkers, $6.30 to $6.50; stags, $5 to $5.50; pigs, $5.95; mixed, $6.50 to $6.60; heavy, $6.60, roughs, $5.50 to $5.85.

New York Live Stock.

NEW YORK, Oct. 27.—Beeves—Receipts, 2465 head; market slow; generally steady; steers, $4 to $7.75; bulls, $3 to $5; cows, $1.75 to $4.85.

Calves—Receipts, 345; market steady; veals, $6.50 to $10.25; culls, $4.50 to $5.50; grassers, $4 to $4.50; westerns, $4.50 to $6.50.

Sheep and Lambs—Receipts, 8545 head; market slow and 25c lower; sheep, $2 to $3.50; lambs, $4.50 to $6.75; culls, $4.

Hogs—Receipts, 2850 head; market steady, at $6.50 to $6.70.

Chicago Live Stock.

CHICAGO, Oct. 27.—Hogs—Receipts, 17,000; market strong, mixed and butchers, $5.75 to $6.50; good heavy, $6 to $6.45; rough, heavy, $5.70 to $6; light, $5.70 to $6.40; pigs, $4 to $5.90.

Cattle—Receipts, 3000; market weak; beeves, $4.85 to $8.75; cows and heifers, $1.90 to $5.85; stockers and feeders, $2.90 to $5.75; Texans, $4 to $5.90; calves, $5 to $8.75.

Sheep and Lambs—Receipts, 12,000; market steady; native, $2.25 to $3.70; western, $2.40 to $3.80; lambs, $3.50 to $5; western, $2.75 to $6.10.

Cheese Markets.

PICTON, Oct. 27.—Nineteen factories boarded 1155 boxes cheese, all colored. All sold at 13⅝c.

IROQUOIS, Oct. 27.—At the regular meeting of Iroquois cheese board held here to-day, 400 colored cheese offered. All sold at 13⅝c.

NAPANEE, Oct. 27.—There were 310 white and 600 colored cheese boarded here to-day; all sold at 13⅝c.

BRANTFORD, Oct. 27.—Offered 357, sold 125 at 14⅛c; 160 at 14⅛c. Market adjourned for season.

OTTAWA, Oct. 27.—Three hundred and forty-seven boxes of cheese were boarded to-day, all selling at 13⅝c.

CORNWALL, Oct. 27.—(Special)—The offerings on the Cornwall cheese board this afternoon were 337 white and 791 colored. All were sold with the exception of Lakeview and Bowman combination, which were held. The white sold at 13¾c and the colored at 13 11-16c and 13⅝c.

Found Dead In Bed.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher.

The Kind You Have Always Bought

In Use For Over 30 Years

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

MEXICO IN '42

By D. Lewis

It will be understood how easily the guard on duty at the gate might be "thrown off guard" by a carriage passing through it, especially on that day when there were so many, by reason of the grand doings in the city.

Several had just passed, so, when another appeared, heading in the same direction, the guard sergeant at Nino Perdido saw nothing amiss; instead, something to inspire him with respect. He had been on guard at the palace scores of times. Liveries he could distinguish at any distance, and when he saw a carriage approaching along the street, with a coachman in sky-blue and silver, of an ensign—officers of this rank being allowed only one. The good word of a cabinet minister could give him what he was wishing for easy at a nod, and here was an opportunity of winning it.

"Corporal!" he cried out, in a flurry of excitement, "throw open the gate—quick! Fall in, men! Dress up—ready to present arms! See that you do it handsomely!"

There was some buttoning of jackets, stocks to be adjusted round shirtless necks, with shakos to be searched for inside the guard-house and hurriedly clapped on. Still, it was all got through in good time, and, when at length the carriage came abreast, the guard was found standing at "present arms," the sergeant himself saluting in the most gracious manner.

They inside, knowing how returned the salute in true soldier style, though with a surprised expression upon their faces. No wonder. Where they had anticipated difficulty and danger, they were received with more than civility—accorded military honors!

CHAPTER XXXIII.

An Ill-Used Coachman.

"Such forethought!" exclaimed Rivas, as the landau went rattling along the road with the speed of a war chariot, "wonderful!" he went on. "Ah, for cleverness, commend me to a woman—when her will's in it. We men are but simpletons to them. My glorious Isabel! She's the sort for a soldier's wife. But don't let me be claiming all the credit for her. Fair play to the Senorita Valverde, who has, I doubt not, done her share of the contriving—on your account, senor."

The senor so spoken to had no doubt of it either and would have been grieved to think otherwise, but he was too busy at the moment to say much and only signified his assent in monosyllables. With head down and arms in see-sawing motion, he was endeavoring to cut their coupling chain, the tool he handled being a large file found under the cushions. No wonder Don Ruperto's enthusiastic admiration of the providence which had place it there.

Handy with workmen's tools as with war-like weapons, the young Irishman had laid hold of it as soon as they were safe through the gate and was now rasping away with might and main, the other keeping the chain in place.

It was not a task to be accomplished without time. The links were thick as a man's finger and would need no end of filing before they could be parted. Still there was little likelihood of their being interrupted until it could be done. So the escaping prisoners took little pains to conceal what they were at. Speed was now more to their purpose than strategy, and they were making their best of it, both to get on along the road and have their legs free for future action.

"We might have passed safely through that gate," said the Mexican, who continued to do the talking, "even had they known who we were."

"Indeed! how?"

"You saw the sergeant who saluted us?"

"Of course I did, and the grand salute he gave! He couldn't have made it more impressive had it been the commander-in-chief of your army or the dictator himself who was passing."

"And I fancy it was just something of the kind that moved him. Doubtless the livery of the coachman, which he would know to be that of Don Ignacio Valverde."

"You think he got us through?"

"Yes. But it wouldn't have done so if he'd known what was up. Though something else might—that is his knowing me."

"Oh! he knows you?"

"He does; though I'm not sure he recognized me in passing, as I did him. He was a corporal in a company I was commanded and I believe liked me as his captain. He's an odd schemer, though; has turned his coat times beyond counting, and just as well there's been no call for trusting him. He'll catch it for letting us slip past without challenge and serve him right, wearing the colors he now does. Ha! they've waked up at last! I was expecting that."

It was a gun fired at the citadel which called forth these exclamations, soon followed by the ding-dong of the city bells.

"We're no doubt being pursued now," he continued, "and by cavalry; some of those we saw in the procession. It begins to look bad. Still, with so much start and this fine pair of horses, I've not much fear of their overtaking us, till we reach the point I'm making for; unless, indeed——"

"Unless what?" asked Kearney, seeing he had interrupted himself and was looking ount apprehnsively.

"That! There's your answer," said the Mexican, pointing to a puff of smoke that had just shot out from the summit of an isolated hill on which were batteries and buildings. "Chapultepec—a gun!" he added, and the bang came instantly after.

"We'll have it hot enough now," he continued, in a tone telling of alarm. "There's sure to be cavalry up yonder. If they're cleverly led and know which way to take, they may head us off yet, in spite of all we can do. Lay on the whip," he shouted out to the coachman.

And the whip was laid on till the horses galloped faster than ever, leaving behind a cloud of dust, which extended back for more than a mile.

The road they were on was the direct route to San Angel, and through this village Rivas had intended going, as he had no reason to believe there were troops stationed in it. But Chapultepec was nearer to it than the point where they themselves were and cavalry now starting from the latter could easily reach San Angel before them. But there was a branch road leading to Cayocaon, and as that would give them some advantage, he determined on taking it.

And now another gun at the citadel, with the response from Chapultepec, and, soon after, the third booming from both. But meanwhile something seen at the castle-crowned hill deepened the anxious expression on the face of the Mexican.

"Just as I expected," he exclaimed. 'Look yonder, senor!"

Kearney looked, to see a stream pouring out from the castle gates and running down the steep causeway which zig-zags to the bottom of the hill. A stream of men in uniform, by their square crowned shakos and other insignia, recognizable as Lancers. They had neither weapons nor horses with them, but both, as Rivas knew, would be at the stables below. He also knew that the Lancers were trained soldiers—a petted arm of the service—and it would not take them long to "boot and saddle."

More than ever was his look troubled now, still not despairing. He had his hopes and plans.

"Drop your file, senor," he said hurriedly; "no time to finish that now. We must wait for a better opportunity. And we'll have to leave the carriage behind, but not just yet."

By this time they had arrived at the branch road coming out from Cayocaon, into which by his direction the horses were headed, going on without stop or slackening of speed. And so for nearly another mile; then he called out to those on the box to bring up.

To be continued.

ANOTHER LIFE SAVED.

Weak Lungs Restored by Morriscy's "No. 10."

ST. JOHN, N. B., Nov. 17, 1910.

"I had Pleuro-Pneumonia and was taken to the City Hospital to have my lungs tapped. After this was done I seemed to get worse, and never expected to walk again. In fact, I was given up and wanted to be taken home from the hospital. I was in a terribly rundown condition and felt that I was going right into consumption, and for six months was just a shadow. I tried every means to get well, but there was no cure for me until I began taking your No. 10 Lung Tonic, of which I used 22 bottles in all. It was not long after returning home that I surprised my neighbors by gaining in strength and health, and now I am in good health, and feel it my duty to publish it everywhere, as I am living to-day—saved from the grave by your wonderful prescription. You may publish this letter if you wish, for I am willing to let the world know what this medicine did for me, and I cannot praise it too highly."

Mrs. John S. Barker.

The above prescription is not a "Cure-All" or so-called patent medicine. Dr. Morriscy prescribed it for 41 years, and it cured thousands after other doctors failed.

Price—Small Size, 25c; Large Size, 50c per bottle—at your dealers or Father Morriscy Medicine Co., Limited, Montreal. 400

Sold and guaranteed in Peterborough by McDermid & Jury.

$7,000 For S. A. Citadel.

Ottawa, Oct. 27.—Seven Ottawans have subscribed $1,000 each to the $20,000 Salvation Army citadel. They are Hon. Clifford Sifton, W. C. Edwards Co., J. B. Fraser, H. K. Egan, Mrs. Edith A. Davis, J. Lumsden and Mrs. D. MacLaurin.

Wife Sues 300 Saloons.

Hillsboro, Ills., Oct. 27.—A. A. Warder, district insurance agent, used to patronize about 300 saloons before he died. His widow has sued them all for $55,000, charging they killed her husband.

Eight Years For Abduction.

Winnipeg, Oct. 27.—George Brown, who abducted Gladys Price, the Snowflake school teacher for one night, was yesterday sentenced at Morden to eight years in the penitentiary. He pleaded guilty.

Walked Off With $10,000.

Chicago, Oct. 26.—A sample case containing diamonds valued at $10,000 belonging to W. C. Barry, of Newark, N.J., was stolen from the lobby of a hotel here yesterday. A man was seen to stroll leisurely from the hotel with the case, but it was believed he was the owner and no one interfered with him.

Need More Money.

Brantford, Oct. 26.—Completion of the project to erect a tuberculosis hospital has been deferred owing to tenders being higher than the funds at present on hand will permit. The association has $10,000 and an excellent site, and a campaign has been launched to raise $10,000 additional.

TELEGRAPHIC BRIEFS.

A $200,000 addition will be made to the Ottawa University on the Laurier avenue side. Seven hundred students are attending.

The Ancient and Accepted Scottish Rite thirty-third degree Thursday night at Winnipeg decided that the next assembly should take place in Hamilton.

The Postoffice Department has been notified that through the explosion of a lamp in a postal car on an Intercolonial train on Oct. 23, 125 bags of mail were destroyed.

Incoming trains from the north on the Huron and Bruce line report the first snow of the season, three-quarters of an inch falling in the district between Wingham and Exeter.

Cecil Clark, 12-year-old son of Geo. Clark of Cobalt was accidentally shot in the abdomen while hunting Thursday afernoon and died. The gun was leaning against a log when it was accidentally discharged.

Settling family differences with pistols, Perry Clevenger and his wife of Knoxville, Tenn., fought a duel in which she was killed and he wounded. Then Clevenger went to his room and fired a bullet through his brain.

A tree planted by his father on the day Frank Fitzpatrick of Summit, N.J., was born, 78 years ago, recently suffered a blight. Last evening he began chopping it down. As the tree crashed to the ground, Fitzpatrick fell dead.

Will Speak In New York.

New York, Oct. 27.—The annual banquet of the Canadian Club of New York will be held at the Hotel Astor on Monday evening, Nov. 13. The new Cabinet at Ottawa will be represented by Hon. George E. Foster. Among other Canadian speakers will be Prof. Falconer, president of Toronto University; Right Rev. Frederick Courtney, former Bishop of Nova Scotia; and C. P. Branbin, of Montreal, a lawyer, and next to Sir Wilfrid Laurier, perhaps the oldest orator of the Province of Quebec. John Hayes Hammond will be one of the American speakers.

TOO LITTLE BLOOD

The Cause of Nearly All the Everyday Ailments of Life

Too little blood—that is what makes men and women look pale and sallow and feel languid. That is what makes them drag along; always tired, never real hungry, unable to digest their food, breathless and palpitating at the heart, after slight exertion so that it is wearisome even to go upstairs. Doctors tell them that they are "anaemic"— the plain English being too little blood. If gums are pale instead of being scarlet; if you are easily tired and frequently despondent; if you do not relish your meals, and small matters irritate you, it is a sign that your blood is thin and watery and that you are on the verge of a complete breakdown.

More weak, anaemic people have been made strong energetic, and cheerful by taking Dr. Williams' Pink Pills than by any other means. They actually make new blood, which reaches every part of the body, braces the nerves and brings new health and new strength. The case of Miss Nellie Welch, Essex, Ont., is proof of the great curative powers of Dr. Williams' Pink Pills. Miss Welch says: "A few years ago I was going into what my friends believed to be a hopeless decline. I was subject to severe headaches, had no appetite was pale and grew distressingly weak. I tried several doctors, some of whom we counted the best in this part of the country, but they failed to help me. At last my heart grew so weak and I was so nervous and thin that I had to take to my bed and the doctor held out but little hope for my recovery. Like others I had often read of Dr. Williams' Pink Pills, and though the doctor opposed my taking them I determined to give them a trial, as I felt I might as well be dead as to be living in the misery I was in. In a month after beginning to take the pills I was up and around again, and steadily growing stronger until I was again enjoying the blessing of perfect health. Several years have since elapsed and my health has been the very best. It is therefore with great gratitude that I write you in the hope that my experience may be of benefit to some other sufferer."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

A farmer was caught stealing chickens. He was asked what he had to say for himself. "Ah, ha!" he replied with a touch of the reformer in his manner "How about the railroads!"

MY LADY'S COLUMN.

FOR AN "AT HOME"

Pointers for the Housewife Who Prefers to Arrange the Details of Her Entertainment Without Professional Assistance.

When an entertainment of any kind is in preparation, the question which presents most difficulty is often that of refreshments. Of course, it is sometimes possible to let a confectioner undertake this part of the business at a fixed charge for each guest; but this way of arranging matters is rather expensive and not always practicable, for people who live in the country are sometimes beyond the reach of a really good confectioner.

Then, if it is settled that the catering shall be done at home, the question arises, "How much of each thing shall we want? What quantity will be sufficient for all the guests, and yet will not leave stale cakes and dried sandwiches on which we are obliged to live for a week after the party?"

It may, perhaps, be useful to have a list of the refreshments needed for twenty people, and this can be amplified or reduced according to the number of guests.

For Sandwiches — One quartern sandwich loaf, half a pound of butter, one jar of potted meat or fish paste, one cucumberand some other reasonable green stuff. This will make four large plates — two of green sandwiches and two of meat or fish.

For Sweets. — One dozen eclairs, one dozen pastries, one dozen queen cakes, one pound of rich plum cake cut into fingers, one pound of small fancy biscuits.

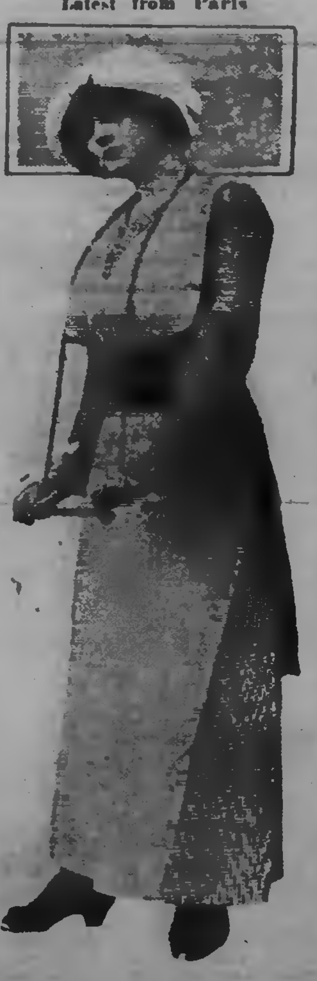
For Beverages. — A quarter of a pound of tea, half a pound of coffee, one pint of cream, one pint of milk. Claret cup made from three bottles of claret and four bottle of soda water.

Ices. — Three pints of ice cream should be sufficient for twenty people, but as in the hot weather ices are apt to waste a little, it might be well to order two quarts.

If the fancy cakes are being prepared at home, they can quite well be made a day or two in advance, provided that they are kept in a tin with a cover which fits tightly enough to exclude the air. Rich cakes keep better than those belonging to the sponge cake or queen cake varieties.

Sandwiches should not be cut until just before they are wanted, as they get dry so very soon.

Latest from Paris



In black and white striped velvet and colored broadcloth this lovely costume calls for no coat until later in the season. The revers are of broad cloth with tiny waistcoat of velvet, which is in turn surmounted by a Val insertion chemisette, the revers being edged with black. The skirt, on the butcher apron design, is also of broad cloth, with a deep V at the left side. A sash of black soutache encircles the waist, with ends in rear.

Jam-Making Hints.

Never use damp or over-ripe fruit.

Cheap-quality sugar spoils the flavour and wastes jam through throwing up large quantities of scum.

Tinned preserving pans are apt to spoil the colour of the jam. If possible use a — scrupulously clean — copper one, or a cast-iron enamelled stew-pan.

If your preserving-pan is at all thin in places, don't put it directly on the fire or gas, but use a trivet.

Boil the jam quickly the whole time; otherwise the colour will be spoilt. Also, skim and stir it constantly.

If the fruit is watery, use rather less water — with those fruits which require water in preserving.

Cultivating our own sorrows kills the power to sympathize.

TO CURE A COLD IN ONE DAY

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box.

"Marvelous Recovery"

Montreal Man So Ill With Dyspepsia Thought He Would Die.

No more convincing evidence was ever put on paper than the following letter from one of Montreal's well-known citizens, Mr. D. R. Larose, of 328 Joliette street.

"Permit me to write you a few words concerning Dr. Hamilton's Pills. I suffered from dyspepsia and indigestion for five years. I suffered so much that I could hardly attend to my work. I was weak and lost all courage. I enjoyed no rest until I decided to follow your treatment after having read your advertisement in the paper. To my great surprise I immediately began to feel better. I am now using the second box and I feel so well that I want to tell you that I owe this great change to your famous pills. I recommend them to every person who is suffering from dyspepsia. Your grateful servant, D. R. Larose, 338 Joliette st., Montreal, P.Q.

Let all who have weak stomachs and those who suffer with indigestion headaches, biliousness, know they can be perfectly cured by Dr. Hamilton's Pills. Successfully used for many years, mild and safe, 25c per box, all dealers, or The Catarrhozone Co., Kingston, Ont.

Dr. Hamilton's Pills Cure Dyspepsia

Captain Ley Exonerated.

Halifax, Oct. 28.—Word comes from London that Captain James C. Ley of H.M.S. Cornwall has been exonerated by the Admiralty from all blame in connection with the touching of a rock by the Cornwall last summer, when the warship went to the rescue of the H.M.C.S. Niobe, ashore in the southwest ledges off Cape Sable.

Investigation by the Dominion Government service showed that the rock which the Cornwall struck was uncharted.

The Cornwall is now at the drydock in Halifax undergoing repairs.

Robbers Attack a Town.

Shawnee, Okla., Oct. 28.—Robbers attacked the town of McComb, several miles from here yesterday, cut telephone and telegraph wires, then blew open the safe in the town bank.

They got a large amount of money and escaped before a sheriff's posse could head them off. Big mobs are on the robbers' trail.

Lunatic Fought Seven Men.

Ottawa, Oct. 28.—It required seven men to overpower an insane man who Thursday night was parading the streets of Metcalfe village, near here, clad in duck trousers and an undershirt. He gave his name as Thomas Smith, and spoke vaguely of Toronto and Hamilton.

Y.M.C.A. MEETING

There will be two Bible classes held in the Y.M.C.A. to-morrow. The first will be held in the morning at 9.30, when the subject "Alone With God" is to be discussed. This will be particularly interesting to Christian men. In the afternoon at four o'clock the young men will gather in the parlor for the study of the parable, "The Rich Fool," and a more than usually helpful study is anticipated.

TEAMS WANTED

To work on new wharf on Spaulding's bay, George street. Apply on the works to

T. E. WADE,
Superviser.

MR. BOGUE AND HIS BIG ACCOUNT

Campbellford Citizens Voted on By-law to Raise $13,500

Campbellford citizens voted yesterday on a by-law involving the sum of $13,500, which is the account of Mr James Bogue, of this city against the town.

Mr. Bogue has not been advised how the voting went, but in any event he gets his $13,500, having received court judgment for that amount. The bylaw presented to the people yesterday was to determine by what means the money should be raised.

The original amount was about $23,000. The case is a long drawn out one, and was the result of alleged unsatisfactory work done by the contractor, who had the contract for the power house at Campbellford.

SUBSCRIPTIONS

For Building Fund of Peterboro Protestant Home

Additional subscriptions to the building fund of the Protestant Home are acknowledged as follows.

SUCCESS OF MR. J A. McKONE

As Principal of Central Business College Branch at Toronto

Mr J. A. McKone, principal of the Riverdale branch of the Central Business College, Toronto, is in the city renewing acquaintances and is the guest of Mr. Gus. Hay, East City.

The branch of which Mr. McKone is principal was commenced only one month ago and has a record attendance of seventy-eight students. It makes the fifth branch in the city which offers better opportunities for graduates, all being able to be placed in good positions. The Central Business College students are in fact, guaranteed positions on their graduation.

SUDDEN PASSING

Bobcaygeon Lady Heard News of Mrs. Fitzgeralds Death

Within ten minutes of being notified of the death of the late Mrs. G.W. Fitzgerald on London street, her sister-in-law, Mrs. Mary Ann Murphy an elderly woman, living alone in Bobcaygeon, was stricken with paralysis from which she never recovered, but passed away without regaining consciousness.

The sad tidings of Mrs. Fitzgerald's death was telephoned to Mrs. Murphy's son in Bobcaygeon, the morning after death. When the son conveyed the news as gently as possible to his mother, the shock was more than her constitution could withstand. A paralytic stroke seized her almost immediately and death occurred shortly afterwards. It is believed that her health which had been very feeble of late, was incapable of standing the sudden shock.

The funeral will be held on Monday afternoon to Bobcaygeon cemetery.

The most sincere sympathy will be extended to the sorrowing relatives and to the family of the late Mrs. Fitzgerald, in their hours of affliction following so closely upon the trial which they have been forced to bear in the loss of a devoted and loving mother.

"JUST RECEIVED" TWO CASES OF BEAVER HATS.

In consideration of the immense vogue of Beaver Hats and their scarcity and high price in the home market, we cabled to England and had shipped direct to us, two cases of the very newest Beaver shapes procurable.

By buying direct we secured extra quality and the price is exceptionally low.

Welcomed Ald Brown

The city council welcomed Ald. Jas. Brown to his seat in the council last night, and His Worship, mayor Morrow expressed the sympathy of the council for Ald. Brown in his recent bereavement.

Ald. Brown gave a short interesting account of his trip to the West, speaking particularly of Regina and its conspicuous growth.

MISS ADELLE NICKERSON
With "The Right of Way," which comes to the Grand next Tuesday, Oct. 31.

SANFORD DODGE HAS "THE RIGHT OF WAY."

In casting about for a successful play for this season, Mr Sanford Dodge decided to produce "The Right of Way." With this end in view he secured from Charles Frohman's agents, the American and Canadian rights for this wonderful drama. He will use Eugene W. Presbrey's version which is conceded to be a most finished dramatization of Sir Gilbert Parker's popular story, which by the way is founded on absolute facts.

The story is not in any way a discussion of religion, still it propounds some questions that are difficult to answer and in fact can only be answered by the individual opinion and dictates of the individual brain and conscience. The play is constructed and executed with artistic care and detail, and is intensely interesting with thrilling climaxes and terse, telling dialogue.

As Charley Steele, the brainy lawyer, Mr. Sanford Dodge will prove a revelation to those who have known him in the "Sock and Buskin" of the legitimate drama. Those who have read the thrilling novel "The Right of Way" will want to see it produced and those who have not will be just as intensely interested as the play is a virile, living, throbbing chapter of heart beats from experiences that might befall any or all of us.

KETCHECUM CLUB LEAVING MONDAY

Preparing for Annual Outing Mr. Winch Captain

The following Ketchecum Lake Hunt Club leave for the lake on Monday morning;—Messrs. Harry Winch, E. Mason, M. Comstock, Wm. Ackerman, J. D. Collins and George Bennett. Mr. A. Jackson will act in the capacity of cook and Mr. Theobald Sampson will be the guide.

Mr. Robert Stuart and several others follow in a few days.

The wagon with provisions, canoes, etc., left this morning and everything will be in readiness for the reception of the huntsmen when they arrive on Monday evening.

Mr Harry Winch is captain this season.

BAD QUARTET

Magistrate Let Boys go With a Warning

Four boys about thirteen to fourteen years of age were up before Magistrate Dumble this morning charged with disorderly conduct. Their unruly actions consisted in the pelting of stones causing danger to pedestrians and plate glass windows, of taking the street car trolly poles off the trolly and in other ways making themselves a nuisance. They reside in the north end of the city and Chief Thompson has received numerous complaints about them.

His Worship suspended sentence, but gave them a stern lecture which they would do well to heed.

CHILD BITTEN

Offending Dog Has Been Sent to the Woods

On the charge of being the owner of a dog that attacked an eleven-year-old girl named Alice Douglas, on Oct. 26th, George McCullough appeared in police court this morning on an information laid by the brother of the girl. As no one actually saw the dog bite the girl the charge was not proven by evidence, although there was no doubt in the Magistrate's mind but that the dog had bitten the girl.

The girl's brother said that he noticed the animal running off the verandah of the house after the girl was bitten, and Dr. Brown, who was present, told of cauterizing the wounds on the child's leg.

The case was dropped, on the defendant's statement that the dog had been sent away to the lumber camps and that he would guarantee that it would be kept in hand in future.

A short Thanksgiving service will be held in St. John's church Monday morning.

The corner stone of the new Protestant Home building was laid this afternoon at 3 o'clock. Mr. J. H. Burnham and Mrs. T. G. Hazlitt officiated, and Canon Davidson conducted the religious ceremony.

All Union Barber Shops will be closed Monday noon.
GEO. BROUSSEAU.

LAID TO REST

The last sad rites following the death of the late Mrs. G. W. Fitzgerald were consummated yesterday afternoon, when a large number of warm friends of the deceased followed the remains to the grave. Interment took place in Little Lake cemetery.

At the family residence, 174 London street, a most impressive funeral service was held at 2.30 p.m., when touching reference was made by the officiating clergyman, Rev. J. G. Webb, to the beautiful and exemplary character which the deceased had revealed in the every-day round of duties. As a mother in the home and a faithful Christian worker in the church, she never failed to exhibit qualities that won for her lasting esteem and respect.

Many beautiful floral contributions adorned the casket, mute tokens of the sympathy of her large circle of friends.

The cortege proceeded to the grave at 3 o'clock. The following were the pall-bearers: Arthur Clysdale, Noble Milburn, Ernest Reid, Thomas Mann, William Higgins and Gordon Adams.

ORIENTAL HOTEL PROPERTY IN DEAL

It has been reported that a deal was under consideration whereby the property known as the Oriental Hotel would change hands, which would mean that the present proprietor would have to remove. Mr. G. N. Graham told to a Review representative to-day that there was nothing doing.

Essential to Comfort
PERFECTION SMOKELESS OIL HEATER

Warmth is essential to comfort. As you grow older, it is hardly less essential to health.

Get a Perfection Smokeless Oil Heater, and you keep warm and comfortable in your home, no matter what the weather without.

The Perfection gives a strong, widespread heat, and gives it quickly. It is always ready for use and burns nine hours on a single filling—no more trouble than a lamp. It can be carried anywhere; no pipes, no wires, no flues; no smoke, odor or dirt.

The heater that gives complete satisfaction.

This year's Perfection is finished in either blue enamel or plain steel; nickel trimmings; light and ornamental, yet strong and durable as can be made. All parts easily cleaned. Automatic-locking flame spreader prevents smoking.

Night Classes

— AT THE —

Peterboro' Business College

(FOUNDED 1885.)

Many ambitious young people are taking advantage of the splendid opportunity to improve their education by attending the night classes at the Peterborough Business College. These classes are conducted on Monday, Wednesday and Friday nights, and students receive instruction in any one or all the subject of the Commercial or Stenographic Course. By this method, young people may learn while they earn, and thereby increase their salaries and better their positions without losing time from their work. You may enter any time, but it will be to your advantage to enter now. The cost is small, while the benefit to be derived therein is inestimable.

The Business world is full of opportunities, but the best positions are open only to those who are competent to fill them. By attending Night School at the Peterboro' Business College, you may become competent.

CHANGE IN WOMAN'S LIFE

Made Safe by Lydia E. Pinkham's Vegetable Compound.

Graniteville, Vt.—"I was passing through the Change of Life and suffered from nervousness and other annoying symptoms, and I can truly say that Lydia E. Pinkham's Vegetable Compound has proved worth mountains of gold to me, as it restored my health and strength. I never forget to tell my friends what Lydia E. Pinkham's Vegetable Compound has done for me during this trying period. Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my trouble public so you may publish this letter."—MRS. CHAS. BARCLAY, R.F.D., Graniteville, Vt.

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. No other medicine we know of has such a record of cures as has Lydia E. Pinkham's Vegetable Compound.

For more than 30 years it has been curing woman's ills such as inflammation, ulceration, fibroid tumors, irregularities, periodic pains and nervous prostration, and it is unequalled for carrying women safely through the period of change of life.

Mrs. Pinkham, at Lynn, Mass., invites all sick women to write her for advice. Her advice is free, and always helpful.

POWER

Council Will Go to Ottawa to Interview Hon. Frank Cochrane

The city council will go to Ottawa at a date to be arranged by the Dominion member, to interview Hon. Frank Cochrane in regard to the power for Peterborough.

Ald. Buller suggested this course at the meeting last night.

TENDERS FOR SNOW PLOUGHING

Some of the Aldermen Have Something to Say

When Ald. Metheral, as chairman of the Board of Works suggested that the matter of advertising for tenders for snow ploughing this winter, be taken up last night, there followed a somewhat lively discussion.

"Some provision should be made for better service, said Ald. Anderson. "Let the slush be cleaned off."

Ald. Buller—"Let the street commissioner look after that."

"You can't get a snow plough to clean off the slush." was the commissioner's quick reply.

Ald. Anderson—"They sit on the plough and let it go any old way."

"The contract said that they must clean off the slush" advised city solicitor Hall.

Ald. Duncan—"They should be out at a snow storm."

"They are out at a fall of three inches of snow," said the commissioner.

Ald. Duncan—"I've seen it when they were not."

Mr. Evans—"Well they have been fined for not doing their duty, and the fines have been remitted. That's how we get backed up when we try to get the work done."

Tenders will be advertised for and the Board of Works was given power to award the contracts.

$500 IS CLAIMED FROM THE CITY

John R. Scott of East City Met With an Accident

O'Connell and Gordon on behalf of John R. Scott, East city, communicated the news in a letter to the council last night, that their client claimed $500, as compensation for injuries received by him, as a result of being knocked down by a horse and vehicle at the corner of Mark and Maria sts., on the night of October 21.

The communication stated that the electric light was not burning at the time, and Mr Scott being somewhat hard of hearing, the accident was thus brought about.

It was claimed that Mr. Scott was seriously injured and would be unable to work for some months and that the effects might be permanent. He gave till November 6 for a reply.

The matter was referred to the legal committee.

The solicitors also gave notice of another forthcoming claim on behalf of a lady residing at Driscoll Terrace.

$750 FOR POWER REPORT TO CITY

What it Cost for Information on Dickson Property

The account of Messrs. Ross and Holgate, of Montreal, for $750 for their report, at the request of the city council, on the Dickson company power property at Lakefield, and which was made this summer, received some consideration at the meeting last night, and was finally passed.

The report made was reported on by the Hydro Electric Commission as a satisfactory one, but several members of the council are of the opinion that it was somewhat of a gold brick for the city. It was said at the meeting that one of the firm went to Lakefield on one train and returned on the next and sent in the report at a later date.

The members were of the opinion however, that the account would have to be paid, and consequently it was passed.

Fowl Supper by Ladies' Aid of St. Andrew's Church, on Monday, October 30th, in School Hall Supper from 5:30 to 7 p.m., with good program Admission 25c 3d

WILL ACCOUNT OF $300 BE PAID?

Rutherford Bros. Case to be Re-opened by Committee

The matter of the Rutherford Bros.' account of $300 will be re-opened by the Property committee at the request of the council, and at the meeting the architects of the Public Library will be present.

Mr. G. W. Hatton, on behalf of Rutherford Bros., asked the council last night to pay the account.

Recent action had elevated it to the shelf.

Mr. Hatton stated his case, but the mayor's recollection of the matter was that it was the contractors had agreed that the $300 should be retained until such times as repairs to the pillars in front of the library had been made. This work had not been done. It was agreed by the council that otherwise the contractors had done a good job. Mr. Rutherford had, however, said that he would repair the pillars.

MARKET SQUARE SITE IS WANTED

Options on Suitable Properties are to be Secured

The report of the Committee of the Whole Council was read last night by Ald. Metheral as follows:

Council of the city of Peterborough:

Gentlemen.—Your Committee of the Whole Council beg leave to report as follows:

1. That a letter was received from J. H. Burnham, M.P., in regard to the Trent canal and calling attention to a report of the chief engineer of the department. We recommend that the matter be referred to the Power committee to deal with.

2. We recommend that a reply be given to the Ministerial Association to their request in regard to the observance of Thanksgiving Day, that the council is of the opinion that it is a matter which can be better carried out by that Association.

3. We authorised the chairman of the City Hall Site committee, Alderman Graham, to have Mr. Langford obtain options on property between Charlotte and King streets and east of Louis street for a market square.—Carried.

MORE LIGHTS.

The Fire, Water and Light committee report by Ald. Morgan included the recommendation:

4. That the matter of placing lights on Aylmer street from Westcott street to Lansdowne street, on Lansdowne street from Aylmer street to Park street, on Pearl avenue, Sheridan, Concession street, Alfred street, Babb's Lane, on Princess street, at the corner of Park street, on Elm street and on Aylmer street north of Smith street, be left in the hands of the chairman.—Carried.

The Board of Works report was also adopted.

NO PAVING THIS YEAR

Only One Tender Received by the Board of Works

Commissioner Evans Asked for More Shed Accommodation

There will be no asphalt paving done this year. City engineer Hay, had one tender to submit to the Board of Works last night. This was from Contractor Maguire of Toronto, whose price for straight paving was $1.30 per square yard and extra prices for curbs, etc.

"Are we going in for paving this fall," asked Ald. Buller. "I'm afraid its too late answered Chairman Metheral. "If we had received tenders in time we might have gone on with the work."

"Well we give the work to local men next year," remarked Ald. Buller.

The above tender was the only one received.

REQUESTS GRANTED

The Board gave permission to the Auburn Power Co., to string wires on Anson and Hilliard streets; to the Bell Telephone Company, permission to erect poles on Homewood Avenue and one on Weller street was given and Ald. Bradburn, who has been a faithful petitioner for a catch basin on George street, he being of the opinion that Payne's drug store basement would be saved from flood and that citizens could use this corner for the purpose intended whenever a heavy rain occurs, was told that the work was under consideration and would receive attention shortly.

Ald Anderson, "the people want one at the corner of Hunter and Mark streets too."

Commissioner Evans asked not for a city hall but for more accomodation for the city's machinery and road work equipment. Such was urgently needed, he said. The only shed at present available was over crowded. There was space he held in the yard behind the Fire Station.

It was decided that more sheet steel piling be purchased. It will further facilitate the work on the south end sewers.

$85,000 BY-LAW PASSES COUNCIL

Dr. Morrison Answers Some Queries of Ald. Bradburn

Monaghan Road Site Not Definitely Decided as Final

The by-law to authorise the borrowing $85,000 to buy sites and erect two new schools, had a delayed passage last night, but was put through by the council.

At the first reading Ald. Metheral seconded by Ald. Duncan, moved that a by-law be prepared for submission to the people. "Take the people into our confidence," Ald. Metheral urged. His seconder was of the same opinion, giving as his reason that the amount of money involved was great. The vote was only three for this amendment. Ald. Brown being the third, and it was defeated.

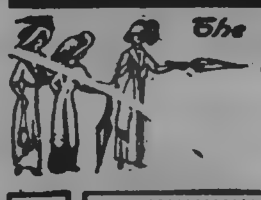
Before the third reading, Ald. Bradburn asked for information as to the report on the street that the West Ward school was to be erected outside the corporation.

The Board of Education being interested in the outcome of the meeting was represented by its chairman Mr. John Crane, W. H. Hill and Dr. Morrison. Inspector Mowat was also present.

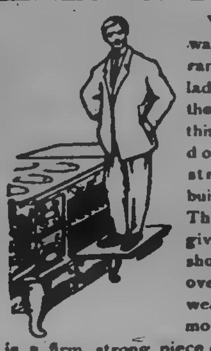
Dr. Morrison as chairman of the Building Committee answered while it was true that the site spoken of at the corner of Weller street and the Monaghan Road, was outside the corporation, the option had not materialised into a deal. It was necessary he held that property which would give ample play grounds for the pupils should be secured, and the one in question was of three acres.

Ald. Bradburn brought up the matter of distance to which Dr. Morrison replied that at present, pupils had to walk to other schools a greater distance than would be required of the West Ward pupils. The school would be equipped to teach pupils in the kindergarten and up to the entrance class. This would relieve the congestion at the South Central school.

It was further explained by Dr. Morrison that the appropriated money would be used only in the purchase of sites and the erection of the schools. The equipment would be secured with the money obtained in the disposal of the present properties.



The Peerless Peninsular
a durable cast-iron range with modern conveniences



You don't want to use a range as a stepladder—not as the ordinary thing—but you do want a strong, well-built range. This picture is given here to show that the oven door — a weak spot in most ranges—is a firm, strong piece of construction in the Peninsular and it is typical of the whole make-up of this durable range.

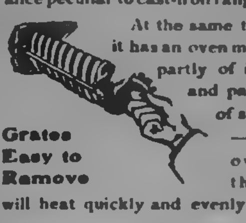
Some people prefer a cast-iron range but want one or two features usually found only in steel ranges.

The Peerless
is designed for just such people.

It has the perfectly-fitting doors and parts, the firm, substantial body

Low Closet for Pots and Pans

and the cosey, homelike appearance peculiar to cast-iron ranges.



Grates Easy to Remove

At the same time it has an oven made partly of iron and partly of steel — an oven that will heat quickly and evenly all over.

It has a large oven, two inches deeper than any other range of the same size, just large enough to cook four pies at once.

It has a drop oven door, which is not usual on a cast-iron range.

These are all things that you can see—very important things, but not more so than the things you cannot see—the interior construction, which decides whether or not your pies will burn, whether your oven will twist and bend, whether it will be perfectly tight so as to keep out dust and smoke, whether it will wear.

These unseen points you can be sure of when you buy a Peerless Peninsular, or in fact any Peninsular range.

Fifty years of building stoves — honest stoves — are behind every range that bears the name "Peninsular." That name says the materials are good — the flue arrangement is good — the oven is built to heat evenly — the range will wear.

All modern conveniences have been embodied in the Peerless, too.

It may be had with a hot water reservoir and a steel warming closet or not, as desired. The warming closet has a drop door like the oven, making it easy to pull out dishes and adding double shelf room when needed.

Top Raised for Broiling.

There is a Peninsular range to suit every purse and to please every taste in range architecture.

"The Cost"

illustrates some of the more popular lines and explains why Peninsular ranges cost less in the long run than others. Don't buy a range before reading this book. It's free.

(S)

PEOPLE WILL NOT BE ASKED

Municipal Government by Commission Gets Cold Shoulder

The ratepayers of the city will not be asked on the day of the municipal elections for 1912 if they are in favor of having municipal government by commission.

At the council meeting last night Ald. Edgar brought in a notice of motion to the effect that the ratepayers be given the opportunity of saying yes or no to the question, and Ald. Buller seconded.

The voting was light, only the movers going in the affirmative.

Ald. Anderson and Buller sparred in a short battle of opinions, and let it go at that. Ald. Anderson held that government by commission was only in its experimental stage, and that the economical end was not furthered and again there was a danger of a commission appointed for a term of years not pursuing a policy favored by the people.

Ald. Buller said that it would save the city double in its business transactions.

"It doesn't to-day," remarked the East City representative, whereupon the people's candidate added that one city in Ohio, which he named, had a saving of one-half.

"Give the citizens a chance to say what they want," suggested Ald. Edgar, but it transpired that he and Ald. Buller didn't have sufficient votes.

London street railway will increase its capital from $550,000 to $750,000.

O'KEEFE'S GOLD LABEL ALE
O'Keefe's Pilsener Lager
O'KEEFE SPECIAL EXTRA MILD ALE

O'Keefe's GOLD LABEL ALE

is a special brew for connoisseurs—a deliciously rich, creamy old ale—full bodied and satisfying. A perfect table ale.

O'Keefe's PILSENER LAGER

is the real old German "Pilsener"—brewed of the choicest Hops and Malt and pure filtered water. Far superior to any imported lager at double the price.

O'Keefe's SPECIAL EXTRA MILD ALE

is brewed especially for those who find ordinary ale too heavy or too bitter.

This brew, being extra mild, will not make you bilious.

All these fine brews come in Crown stoppered bottles. Sold by leading Hotels, Cafes and Dealers generally.

THE O'KEEFE BREWERY CO., LIMITED, TORONTO. 225

SPRIGS OF SPORT

LOCAL FOURTEEN STRONG FOR GAME WITH CUP HOLDERS

ontest to be Called at 2:15 o'Clock on Holiday Afternoon.

The final arrangements for the me on Thanksgiving day between e Mulock cup champions, of Toron- University, and the West End jun- O.R.F.U. team have been com- ted and the public are assured of first class game.

The West Ends have practiced thfully during the week, and after eir game with the Old Boys this ternoon they should be in good ape.

The University is bringing a strong am along, and as they are all well ained, an exciting game should re- lt.

The contest is called for 2.15 so as allow the Varsity fourteen to get ck to Toronto in the evening. The admission is gents, 25 cents; ladies, 15 cents.

The following players are asked to be in uniform at Riverside Park at 2 o'clock sharp Monday afternoon: Denison, Copping, Kirn, Hill, Webb, Ecclestone, Thompson, Turner, Davidson, Hogan, Langley, Gilbert.

TEAM FOR TRENT VALLEY LEAGUE

Secretary Moffat Would Like to Enter Seven

Mr. "Tommy" Moffatt, the energetic secretary of All Saints Football eleven, champions of the Church League, believes he can turn out a septet of hockey players which would make a good showing in the Trent Valley Hockey League this season, if a Peterboro district could be formed.

All Saints is holding a meeting next week and the members will discuss hockey matters. A team can be entered in the Church League or the City League, providing these organizations materialize this season, but "Tommy" would prefer to try for the bigger game.

PORT HOPE WON

Third Team of College Defeated Locals 6-0

The third team of Trinity College school, Port Hope, defeated the Junior Collegiate rugby team this afternoon by a score of 6 to 0.

SPORT TALK

Mr. "Happy" Brydie, a local athlete of more or less ability, but probably best known for his gate swinging performances at Riverside Park, left last night for Quebec, where he has accepted a position. Will the manager of Les Canadiens please take notice.

The Grand Trunk Pacific are in receipt of a letter from a prominent traveller in Eastern Canada, who has just returned from a trip to the West and which included a journey on the Grand Trunk Pacific from Winnipeg to Wainwright and return. He states, "I must say it was one of the pleasantest experiences in a long of travel. Having seen the road in the making, and being aware of the high standard set up, I was prepared for a good roadbed, and was not disappointed, for we rode as smoothly as between Montreal and Toronto. The sleeping cars are models of comfort, and the service on them, as well as the dining cars, couldn't be better. The Grand Trunk are setting the pace for general excellence in Western Canada."

MR. W. GAMBLE IS NEW PRESIDENT

Mark St. Boys to Have Hockey Team

At the regular weekly business meeting of the Mark street Athletic and debating club last night, Mr Ward Gamble, who has been vice-president was elected to the presidency to succeed Mr. Bert Gillespie, who left for the west a few days ago. Mr. Alf. Hagerman was elected vice-president to succeed Mr. Gamble.

Alf. Hagerman was also made captain of the hockey team. The club proposes to enter in the Church League.

Plunging from the open window in the fourth story of the St. Lawrence Hotel in Detroit, where he was rooming, Fred. Bray, aged 28, whose home is a Amherstburg, Ont., was almost instantly killed Wednesday night.

Harry Kelly and Frank Jones were found guilty of attempting to murder Constable Traynor in Winnipeg on Aug. 23. Traynor was attempting to arrest the men. Sentence was deferred until the completion of several other charges.

PERSONAL

Mrs. Kent and her son, Mr. S. W. Kent of Paris, are in the city, with Mrs. R. J. Kidd, Hunter street.

Miss Edna Armstrong is spending the holiday in Ottawa, with Misses Vlorence and Edith McClennan.

COMPARATIVE MARKET PRICES

Few Turkeys Offered--High Prices Asked

What the Housewife Paid thirteen Years Ago

There were a number of people, who went to the market this morning to look for the Thanksgiving turkey, and went away with a goose or a pair of chickens and some housewives were so disgusted with the exhorbitant prices that they went to their butchers and bought beef. There were not more than fifteen turkeys for sale this morning, despite forecasts made to the contrary, and they are very scarce throughout the country. The poultry people state that there was an epidemic among the young turkeys this season, and it has been very hard to raise the birds as they seemed to take this disease and nothing could be done to save them. There are also fewer farmers attempting to raise them than in other years hence the prices are on the ascend.

Chickens were exceptionally plentiful and the prices were within reach of the average purchaser. There were also numerous geese and ducks.

Below are given a few comparative prices and it will be seen that the various commodities have soared in price during the past thirteen years:

	Prices in 1898	Prices to-day
Geese	45c	$1.00 to $1.55
Turkeys	65c	2.00 to 3.00
Ducks	25c.	60 to 75
Chickens	25c.	75 to 90
Butter	18c.	28 to 30
Potatoes	50c. bag	$1.10

Other prices this morning were eggs 28c., 30c., wild ducks, 60c. per pair, lamb, 11c. and 13c., pork, 11c. and 12c, cooking apples, $1.00 per bag, snow apples, barrel $3.25.

Milkmen.

The city milkmen held a largely attended meeting last night and made the final decision to raise the price of milk from 6 cents to 7 cents per quart on Wednesday, November 1st. Customers purchasing tickets will get the pint at the 7 cent rate. Others will pay 4 cents.

The milkmen say they are forced to take this step because of the cost of feed for their cows which is very high this season. About twelve milkmen are retailers and the producers have raised their price.

The milk by-law was referred to at the meeting but the milkmen are of the opinion that it will not be put in force.

Every man believes he could set the world on fire with his ideas, if he could get capital interested.

WHAT MAKES A COMPLEXION ?

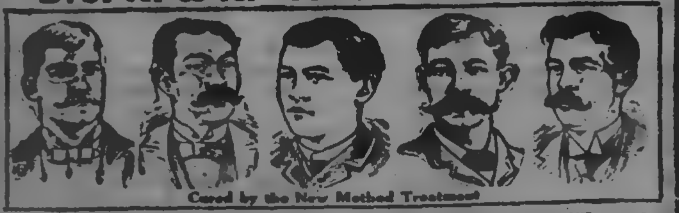
The season's program of evening parties, social events, etc., is before you. Why not look your best? Why not ensure a good complexion? Matter of time and perseverance only if you will use Zam-Buk.

Zam-Buk is a skin food; and complexion is purely a matter of skin health. Zam-Buk smeared lightly over the face, each night, acts as a skin tonic. It stimulates the cells beneath the cuticle to healthy action makes the capillaries and blood vessels work, and the vigorous circulation, thus started, carries away secreted impurities. Waxy, sallow deposits are thus removed. That yellow tinge gives place to the pink of health.

Isn't this wiser than relying upon talcum powder and cosmetics? Zam-Buk builds up a complexion from blood and tissue. It lasts!

YOU PAY WHEN CURED

Drs. K. & K. TAKE ALL RISKS



Cured by the New Method Treatment

NO NAMES OR PHOTOS USED WITHOUT WRITTEN CONSENT

NERVOUS DEBILITY

Thousands of young and middle-aged men are annually swept to a premature grave through Early Indiscretions, Excesses and Blood Diseases. If you have any of the following symptoms consult us before it is too late. Are you nervous and weak, despondent and gloomy, specks before the eyes, with dark circles under them, weak back, kidneys irritable, palpitation of the heart, bashful, dreams and losses, sediment in urine, pimples on the face, eyes sunken, hollow cheeks, careworn expression, poor memory, lifeless, distrustful, lack energy and strength, tired mornings, restless nights, changeable moods, weak manhood, premature decay, bone pains, hair loose, sore throat, etc.

YOU WILL BE A WRECK

Our New Method Treatment can cure you and make a man of you. Under its influence the brain becomes active, the blood purified, so that all pimples, blotches and ulcers disappear, the nerves become strong as steel, so that nervousness, bashfulness and despondency vanish, the eye becomes bright, the face full and clear, energy returns to the body and the moral, physical and sexual systems are invigorated; all drains cease—no more vital waste from the system. Don't let quacks and fakirs rob you of your hard earned dollars. We will cure you or no pay.

HEARTY SEND OFF AT C.P.R. STATION

To Mr. and Mrs. Hodgson Who Will Reside in Lethbridge

Seldom has anyone leaving Peterboro received a send-off such as Mr and Mrs J. E. Hodgson were tendered at the 4.28 C.P.R. train last evening when they were entraining for Lethbridge, where Mr. Hodgson has accepted the lucrative position of Principal of the Collegiate Institute.

At four o'clock the people began to go to the station, and those seeking a few farewell words were pupils, parents, fellow members on the teaching staff a couple of members of the Board of Education and several officers of the local garrison as well as a number of ladies, who had not had an earlier opportunity of saying their good-byes to Mrs. Hodgson. When Mr. and Mrs. Hodgson had been around the crowd and were beginning to feel that parting from so many friends was indeed a task not to be forgotten, peals of the bass drum were heard as the cadet bugle band approached with about fifty cadets in the rear, and Mr. Hodgson realized that he was leaving one part of his work here—that which had for seven years received his attention and consideration—the Collegiate cadets. Under his capable direction they had increased from one company to four, and had become one of the most efficient cadet corps in the province. The bugles and drums had been secured after much work on Mr. Hodgson's part, and the cadet bugle band has become an important factor at the school.

FIVE MORE DWELLINGS

Building Permits for October Amounted to $4065

The building permits since October 16th amount to $4,065, and are as follows:

W. H. Quinlan, dwelling, London street, $600.

Polsons Incorporated.

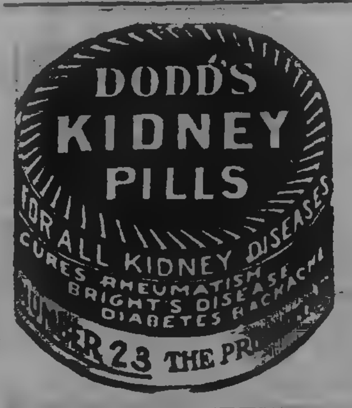
Ottawa, Oct. 28.—The Canada Gazette to-day contains a notice of the incorporation of the "Polson Dry Dock and Shipbuilding Co., Ltd., of Toronto, with a million dollar capital in thousand-dollar shares. The company is given authority to build wharves, docks, ships, etc., and to furnish and sell electricity of light, heat and power, subject to regulations.

The St. Lawrence Dry Dock and Shipbuilding Co. of Quebec is also incorporated with a capital of a million dollars.

Western Strike Settled.

Medicine Hat, Alta., Oct. 28.—The strike of the coal miners of eastern British Columbia and Alberta, which has been in progress for nearly eight months is at an end, and in the course of a few days every one of the twenty-five mines in the district will be in operation again with 7,500 men at work.

The end of the strike was brought about through the efforts of Hon. Robert Rogers, Minister of the Interior, who came to Lethbridge Thursday to meet both parties to the long-standing dispute.



Coal Results

¶ We sell the very best quality of hard coal, as good as we know how to buy.

¶ Are you getting results from the coal you are now using? Are you sure it is good? Are you burning it the right way?

¶ There is a deal of difference in how you handle the range or furnace. Our long experience tells us that fact, and we are ready to advise any in doubt as to the best way to make use of coal as fuel.

TRAMPED 60 MILES TO SAVE HIS CHUM

Prospector at Larder Lake Got Back with GIN PILLS Just in Time.

LARDER LAKE, ONT., MARCH 26th, 1911.

"I am writing to tell you the good GIN PILLS did me. I had been suffering for some time with my Kidneys and Urine. I was constantly passing water which was very scanty, sometimes as many as thirty times a day. Each time, the pain was something awful and no rest at night. I began to feel worn out. I heard of your GIN PILLS and decided to give them a trial at once. I sent my chum out to get them (about 60 miles) —and I am pleased to inform you that in less than six hours, I felt relief. In two days, the pain had left me altogether. I took about half a box and to-day I feel as well as ever and my kidneys are acting quite natural again. Thanking you for the pills which I always intend to keep by me. Yours respectfully,

SID CASTLEMAN.

WELCOME RELIEF.

We have never received a letter that pleased us more than this one. When we realize what Gin Pills meant to this sick man, lying on a bed of pain miles away from a doctor in the frozen north, and how they helped him, we feel that our efforts to prepare a standard preparation for Kidney and Bladder Troubles have been crowned with success.

GIN PILLS is a wonderful solvent for uric acid. It instantly neutralizes the hot, scalding urine, allays the burning pain, soothes the irritated bladder and heals the kidneys. Take GIN PILLS on our positive guarantee of a cure or your money back. 50c. a box, 6 for $2.50. Free sample, if you write mentioning this paper, The National Drug & Chemical Co. of Canada, Limited, Dept. B Toronto.

NATIONAL LAZY LIVER PILLS are a positive cure for Constipation, Biliousness, Sick Headache and Sour Stomach. Excellent for Indigestion. 25c. a box. 112

Catarrhal Deafness

Successfully Treated By

Catarrhozone

Deafness is not so common as blindness, yet thousands are more or less afflicted by it, and their comfort seriously interfered with.

Catarrhal deafness manifests itself but slowly, yet it must be acknowledged that the great majority of those who become totally deaf might have averted this unfortunate condition if they had treated the catarrhal inflammation at its beginning.

The only remedy that can be safely employed for all forms of catarrhal deafness is Catarrhozone. You simply charge the air you breathe with this healing, soothing agent, and by forcing it gently through the ears destroy the germ life which keeps up the inflammation, and at the same time by the soothing, healing action it heals the inflamed surfaces of the middle ear.

CATARRHOZONE, to those who are just a little deaf, and are growing increasingly deaf, is an agent capable of affording the utmost satisfaction, and its use is attended without danger, and as the treatment can be carried on at home no person threatened with the affliction of deafness should postpone one moment in beginning its use.

From every part of the Dominion glowing accounts of the beneficial action it exerts upon catarrhal conditions of the middle ear have been sent in, and you will be resorting to the only method of cure, and the simplest method too, if you try Catarrhozone. Dealers everywhere sell it, 25c, 50c, and $1.00, or by mail from The Catarrhozone Co., Buffalo, N. Y., and Kingston, Ont.

ITALIANS GOT THE FIRST LESSON

It Was $2 Fine for Fighting on the Street

The three foreigners who were arrested yesterday morning while engaged in a strenuous combat with each other at the corner of Aylmer and Charlotte streets, were brought before Police Magistrate Dumble this morning and fined $2 each.

Their frantic efforts to twist their broken English into phrases that the Magistrate could not understand were extremely laughable, to all but the prisoners themselves. When the three were brought into the cells yesterday they commenced to pommel each other again until separated by the constables. The fight arose over one accusing the other of having stolen some money from him. They have only been in this country about three months, and as his Worship imposed the fines he remarked that they might as well learn their lesson now. About $30 in all was owned by the trio.

BABY'S OWN TABLETS USED FROM BIRTH

Mrs. H. V. Ossinger, Tiverton, N. S., says: "We have used Baby's Own Tablets since our little boy was three years old, and know of nothing to equal them. He is now twelve months old and has always enjoyed perfect health. Baby takes the Tablets easily and we always keep them in the house." Mrs. Ossinger's experience is that of thousands of other mothers. An occasional dose of the Tablets will keep the well child in excellent health, or if the baby is ill with any of the many ailments that afflict little ones, they will speedily restore him to health again and make him thrive and grow fat, rosy and strong. The Tablets are sold by medicine dealers or by mail at 25 cents a box, from The Dr. Williams' Medicine Co., Brockville, Ont.

Anthem—"Land of Hope and Glory," Elgar.

BEAUTIFUL EYES

are made beautiful by long, silky lashes and well defined, lustrous brows. Eyes, like diamonds, depend on their setting. The beauties of the face are lost if the eye brows are thin and scanty, and the lashes are short and lifeless. Parisian Lash Lustre grows beautiful, soft, silky lashes. It has done so for society women throughout Europe, and it comes here well recommended to do the same for you. Parisian Lash Lustre is not a dye or colorator, but a scientific preparation for beautifying the eye lashes and brows. Our guarantee goes with every box of Parisian Lash Lustre. A two weeks' treatment will bring beauty to your eyes that you have never before possessed. By mail, prepaid, in opal boxes on receipt of price, fifty cents. B. V. Marion, sole distributor, Bridge-

How long has it been since anyone said you a sincere compliment, or apologized to you?

WHAT CANADIANS ARE DOING

LOUIS P. PELLETIER

It is recognised that the selection of Mr. Pelletier as head of the Post-Office Department is one of the successes of the Borden Cabinet-building effort. A native of Trois Pistoles, Que., where he was born in 1857, Mr. Pelletier had his education at St. Annes College from which he graduated in 1876, carrying with him amongst other honors the Prince of Wales gold medal. Other medals followed, including the Marquis of Lorne award, also of gold, which came as the result of a good showing at Laval, from which our now head of the postal department graduated in 1880.

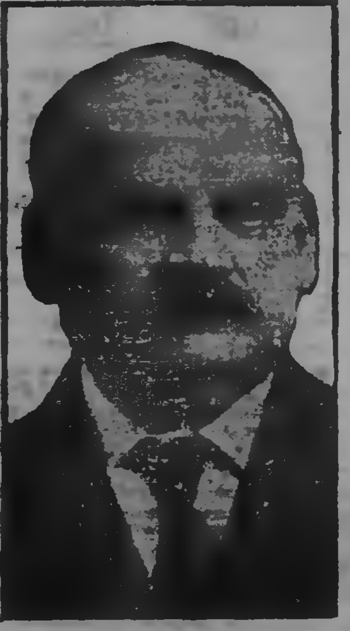
Mr. Pelletier was called to the bar in the latter year and commencing practice in Quebec, at once began to make good in business. In 1886 he made a try for provincial honors in Temiscouata Co. when he failed to catch the harmless necessary majority, but was called to the Legislative Council two years later. This honor, however, he resigned, but by acclamation Dorchester County returned him to the Legislative Assembly, and on formation of the de Boucherville government in 1891 he was appointed Provincial Secretary. Dorchester County held him until 1904 when he retired from politics for the time being.

L. P. PELLETIER.
The new Postmaster General

The Postmaster General is in private life president of the Canadian Electric Light Co., a director of the Manufacturers' Life Insurance Co., and hunts, fishes, and goes yachting, when time hangs heavy on his hands.

W. B. NANTEL

The new Minister of Inland Revenue comes into office the bearer of a reputation that carries weight. A native of St. Jerome, Que., and, like the Postmaster General, born in 1857, he has been the recipient of some honors at the hands of his fellow-townsmen, having been alderman since 1894 and mayor during the past seven years. His first bid for parliamentary honors was in 1904, when he made an unsuccessful effort to secure the representation for Terrebonne. Luck came his way however four years later. Mr. Nantel is L.L.D. of Laval.



W. B. NANTEL,
Minister of Inland Revenue.

G. J. BURY

Prominent Winnipeg Railroader

G. J. Bury has been appointed vice-president in addition to the office of general manager of the Canadian Pacific Railway, with headquarters at Winnipeg, as successor of Sir William Whyte, and will have all the authority in the territory covered by the retiring head of the system in Western Canada. Mr. Bury who is one of the best known railway men in Canada, first became identified with the C. P. R. as secretary to Sir W. C. Van Horne, and later was appointed a superintendent with headquarters at North Bay, from whence he was transferred to Winnipeg as assistant general manager in 1907, a year later being advanced to the office of general manager. In the railway and business worlds he is known as a man of great energy, splendid grasp, and quickness of decision—a few of his marked characteristics.

PILES CURED IN 6 TO 14 DAYS

Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Blind Bleeding or Protruding Piles in 6 to 14 days. 50c.

Dr. Milligan In Ottawa.

Ottawa, Oct. 27.—Rev. Dr. Milligan, Toronto, who has crossed the Atlantic forty-seven times, is here on his way to Toronto. He has been in Europe since June. He says he will probably shortly publish a "Memorial Volume of Sermons," and other works.

Offered $2,000,000 For Church.

Montreal, Oct. 26.—Major John T. McBride yesterday made a written offer of $2,000,000 for the St. James' Methodist Church, and it seems to be the general belief that the church will be sold. It is stated that this is the only offer in view. Major McBride is acting for Mr. J. T. McGreevy of Winnipeg, but it is thought that the Canadian Northern are behind the sale.

Cure Your Rheumatism

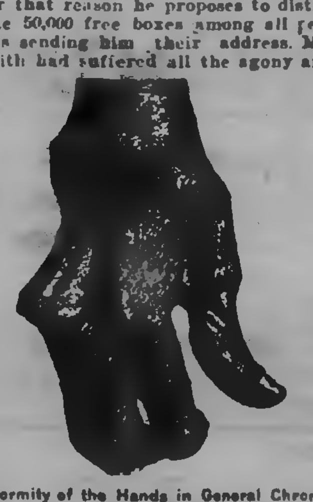
50,000 Boxes Given Away To All Who Apply

John A. Smith and His Remarkable Rheumatism Remedy Cured Himself First and Now Proposes To Cure The World.

A Box of This Great Remedy Mailed Free To Any Suffering Reader Who Will Send Name and Address.

Cured Many Cases of 30 and 40 Years Standing

On the theory "that seeing is believing," John A. Smith, of Milwaukee, wants everyone to try his remedy for the cure of rheumatism at his expense. For that reason he proposes to distribute 50,000 free boxes among all persons sending him their address. Mr. Smith had suffered all the agony and torture from rheumatics, tried all the remedies known and yet utterly failed to find relief.



Deformity of the Hands in General Chronic Articular Rheumatism

At times he was so helpless that he had to take morphine and after considerable doctoring he gave up in despair. He began studying into the cause of rheumatism and after much experimenting, finally found a combination of drugs which completely cured him. The result was so beneficial to his entire system that he called his new found remedy "Gloria Tonic." Those of his friends, relatives and neighbors suffering from rheumatism were next cured and Mr. Smith concluded to offer his remedy to the world. But he found the task a difficult one as nearly everybody had tried a hundred or more remedies and they couldn't be made to believe that there was such a thing as a cure for rheumatism. An old gentleman from Seguin, Texas, U.S.A., wrote him saying if Mr. Smith would send him a sample he would try it, but as he had suffered over thirty years and wasted a fortune with doctors and advertised remedies, he wouldn't buy anything more, until he knew it was worth something. The sample was sent, he purchased more and the result was astonishing. He was completely cured. This gave Mr. Smith a new idea and ever since that time he has been sending out free sample boxes to all who apply.

At the U. C. College, Toronto, it cured Mrs. J. Whitley, who had suffered excruciatingly. Fred K. McDonald writes from Sunny Brae, N.S., that "Gloria Tonic" has cured him of a case of rheumatism of many years' standing. From Ambrose M. Melanson, Meteghan River, Digby County, N.S., comes a letter that he has been cured of a severe case.

Even the first sample box cured Mrs. B. Brett, at 12 Powell street, Guelph, Ont. Two boxes left Mrs. Geo. Wright, of Coaticook, Que., well and happy.

Mrs. T. Deline, West Plain, Ont., writes that she could scarcely dress herself because of rheumatism, but that "Gloria Tonic" has completely cured her. Mr. George Lees, of Dundas, Ont., says that he tried many different remedies but found no relief until he tried "Gloria Tonic," while Clarence A. Scott writes from Tooleton, N.B., that he feels that he owes his life to this great remedy.

A case of 13 years' suffering, is reported by James McFarlan, of L'Amable, Ont., but "Gloria Tonic" cured it quickly. Even prominent physicians have to admit that "Gloria Tonic" is a positive success, among them Doctor Quintero of the University of Venezuela, to whom it was recommended by the United States Consul. In hundreds of other instances the result has been the same. It cured many cases which defied Hospitals, Drugs and Electricity, among them persons of upwards eighty years of age.

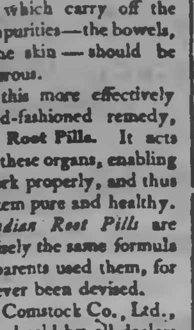
Mr. Smith will send a trial box, also his illustrated book on rheumatism, absolutely free of charge to any reader of The Review, for he is anxious that everybody should profit by his good fortune. Mr. Smith's address in full is:

JOHN A. SMITH,
911 Laing Bldg., Windsor, Ont.

People are tired holding the men who are determined to go to the devil. Let them go, and make room for better men.

GUARD THEIR HEALTH!

Children Who Grow Very Fast Need Careful Watching.



Dr. Morse's Indian Root Pills would make her healthy and happy.

Next to infancy, the years between ten or twelve and eighteen are the most critical in life, especially for the boys and girls who grow too fast. Rapid growth and the physical changes that are taking place render them particularly liable to weakness and disorders of the digestive system, kidneys or lungs that very frequently, when allowed to run on, condemn them to a lifetime of suffering.

It is most important that at this period of life those organs which carry off the body's waste and impurities—the bowels, the kidneys and the skin—should be kept active and vigorous.

Nothing will do this more effectively than that good old-fashioned remedy, **Dr. Morse's Indian Root Pills.** It acts directly on each of these organs, enabling them to do their work properly, and thus keeps the whole system pure and healthy.

Dr. Morse's Indian Root Pills are still made from precisely the same formula as when our grandparents used them, for nothing better has ever been devised.

Made by W. H. Comstock Co., Ltd., Brockville, Ont., and sold by all dealers at 25c. a box. 13

LOCAL CHURCH CALENDAR

SUNDAY, OCT. 29, 1911

ST. PETER'S ROMAN CATHOLIC.

Subject for Sunday, Oct. 29th, "Everlasting Punishment."

Monday 10.30 a.m., Thanksgiving service. No collection taken at this service.

SKIN A MASS OF FIRE

Horrible torture—pain unendurable—days when the whole body seems to be burning up—long nights of sleepless agony—Then—

Instant relief—The skin cooled and refreshed—all burning and itching gone!

Thousands testify to this—thousands who suffered from Eczema, Psoriasis and other skin troubles, until they heard of that simple cooling wash of Wintergreen, thymol and other ingredients known as D.D.D. Prescription.

J. Samuel Lewis writes:—"I used three bottles of D.D.D. Prescription, and now my skin, once a mass of fire and irritation, is as smooth and soft as a child's."

Of all remedies for the skin that we know we can especially recommend the D.D.D. Prescription for Eczema. Just a mild, soothing wash—but it cleanses and cools the skin as nothing else can. And it takes away the itch instantly!

We would like to tell you more about D.D.D. Prescription if you will call, or write the D.D.D. Laboratories, Dept. P.R., 49 Colborne street, Toronto, and get a free trial bottle.

McDermid & Jury and E. L. Payne, Peterborough.

SAILING FOR CHRISTMAS TIDE

When the Big Liners Leave the Canadian Ports

The following list of Christmas sailings on the steamship lines to the old country will be interesting to readers of the Review.:

White Star Dominion Liners, special Christmas sailings are from Portland, Me., and Halifax, N.S., via Canada, December 2, Megantic December 9, Teutonic Dec. 14.

On the Allan Line, steamer Virginian sails from St. John Friday, Nov. 24, and Halifax, Saturday, Nov. 25. Grampion, Victorian and Corsican set Dec. 2nd, 8th and 14th respectively from St. John. The Grampian and Corsican are direct. Victoria leaves Halifax one day later.

Canadian Northern, Royal Edward and Royal George sail from Halifax on Nov. 29 and Dec. 13, respectively. Royal Edward is due at Bristol Dec. 6 and Royal George Dec. 19.

C.P.R. Empress of Britain leaves St. John Dec. 7, Lake Manitoba on December 9, and Empress of Ireland December 15.

There have been many inquiries from the sons and daughters of Merrie England, who hope to spend Christmas with the old people, and Peterborough, her people and her general life will likely receive attention during the plum pudding feasts.

KNOX CHURCH

Thanksgiving Services to be Held To-morrow

Interesting services will be held in Knox Church to-morrow, Rev. D. A. McKenzie, of Centreville, taking the service in the morning, when the choir will give special music.

For the evening service the old favorite hymns will be sung by the choir by the choir and congregation and Mr. H. R. H. Kenner, principal of the Collegiate, will give an address on the 'Great Hymns of the Church.'

There have been 63 drowings in the Lachine canal at Montreal this year.

ST. JOHN'S DEDICATION FESTIVAL

The dedication festival of St. John's will be kept to-morrow and Sunday week, they being the Sundays nearest to All Saints Day, when the old church was re-opened after restoration in 1884. It was built in 1834-35. It is the oldest church edifice in the city and this with its position and beauty causes it to be an object of interest to all citizens.

For to-morrow's services a distinguished preacher has been secured in the person of Dr. Paterson-Smyth, of Montreal, who is an Irishman, and occupied an important post in Dublin, Ireland, before coming to Canada.

In addition to unusual pulpit powers Dr. Paterson-Smyth is a well-known lecturer and a most popular author, whose books are known everywhere.

General interest is sure to be awakened by his visit to Peterborough

A WORD TO MOTHERS

The Chief Cause of Spring Eruptions and Chills Explained—Every Mother Should Read This Article

At this season of the year most people are troubled with Spring eruptions and skin irritations. This is an indication that the blood is full of impurities and can only be removed through the kidneys—the human filters.

In 19 out of 100 cases disordered kidneys are to blame for Spring weakness and disorder. Overworked, they have ceased to become effective and perform their functions very imperfectly. They have permitted impurities that should have been arrested in the human filter beds to get into the system—the blood is overloaded with these impurities and impoverished conditions result.

This is the time all thoughtful mothers are anxious to ward off the dangers to her family that arise from weak and disordered kidneys. She knows that the old-fashioned way of purging is opposed to nature. The sick one needs toning and bracing up and not weakness by purgatives. Booth's Kidney Pills are not a laxative, but a kidney tonic. They go to the seat of the trouble and commence to build up health in the same way as a builder builds a house. The kidneys are toned up, the blood becomes purer and in a remarkably short time the glow of health is seen and felt.

As Booth's Kidney Pills are a guaranteed remedy, you are perfectly safe in giving them a trial. The proprietors would not dare to guarantee them if they were not sure that they were the very best remedy for kidney trouble and would do all they claim for them. They are so well and carefully compounded that they are suitable for both young and old.

A Mother's Story of Her Efforts to Restore Health to Her 7-year-old child and Her Discovery.

"My daughter, Elva, who is in her seventh year, suffered for the past two or three years with a weakness in her back and in the region of the kidneys. She could not lie in bed and the cold chills settled in her back. She was weak and languid and her health was not at all good. I had tried many different prescriptions but could find no good in any of them. I would have to apply hot plasters to her back at night, but this only gave slight temporary relief. I learned of Booth's Kidney Pills and commenced giving her this treatment, following the directions closely. I soon found Booth's Kidney Pills going to the cause of the trouble and giving her the long sought results. Her back gradually strengthened and she is better and stronger in every way. She has not suffered an attack of the trouble since, and I am thankful for what Booth's Kidney Pills did for her."—Mrs. Oliver Johnson, of Havelock, Lucknow, Ont.

All druggists sell Booth's Kidney Pills. 50c. a box, or they can be obtained postpaid on receipt of price.

FREE OFFER.

So sure are the proprietors that Booth's Kidney Pills will do all that is claimed for them that they are willing to send every reader who suffers from kidney and Spring weakness a trial bottle free. Just address your letter to the R. T. Booth Co., Ltd., Fort Erie, Ont., and mention this offer.

Sold and guaranteed in Peterborough by W. Madill.

WHO'S COMING AND GOING

Miss Ethel Killenbeck, of Toronto, is visiting in the city.

Miss Jessie McGregor of Toronto, is spending the holiday here.

Mr. Jack Seymour is holidaying at his home on Smith street.

AUTUMN IS THE TIME FOR GLASSES Why?

The increasingly long evenings of autumn give greater opportunity for sewing, writing, reading, study, and as this is necessarily by artificial light the strain upon the eyes is such as to make Glasses quite a boom at this season of the year. This no doubt accounts for much of the present increased demand for Glasses.

Appointment for examining the eyes for Glasses is usually necessary.

Hamilton is preparing for a visit from the Duke and Duchess of Connaught. Hamilton will, of course, set to work to outdo its hated rival, Ottawa, in the matter of a bowling reception

BIRTH

POTTER.—At 376 Stewart street, on Saturday, Oct. 28, 1911, to Mr. and Mrs. D. Potter, a daughter.

CLOTHES THAT SATISFY

"**CLOTHES THAT SATISFY**" is the one best phrase we can find to describe our Ready-to-Wear Clothes for Men. They satisfy the most critical dressers as to style, fit and service, and they satisfy them at a lower cost than any others. No matter how particular you may be as regards correct style, or how exacting you may be concerning fit, or how critical you may be about your clothes withstanding hard and long wear, our clothes will satisfy you better than any other clothes you have ever worn, because we are striving to make **small** profits build up a **big** business. You can buy clothes at the same prices anywhere, maybe, but you can't get such values as ours.

Don't wait until the last minute to get your winter clothes. Get them now and LeBrun's the place

We are positive that our values are unsurpassed. Our economical methods of doing business and our willingness to accept a very small margin of profit, make it possible for us to undersell all other stores. If you find upon investigation that you can get a little better service here than at any other store, we shall expect to get your trade. Therefore, we shall expect soon to have the pleasure of showing you some of the new Fall Goods now on display here.

COAL

PROVINCIAL ELECTIONS ON DECEMBER 11---WHITNEY GOVERNMENT PRESENTS ITS RECORD---PROGRESSIVE PLATFORM

SIR JAMES WHITNEY ISSUES AN ADDRESS TO THE ELECTORS

Minister of Power to be Created to Replace the Hydro-Electric Power Commission – Federal Aid for Immigration.

Toronto, Oct. 31.—Sir James Whitney last night announced that the Provincial elections are to be held on Monday, Dec. 11, the nominations on the previous Monday, the 4th.

The new Legislature will be the thirteenth since 1867, and may be counted upon for some ill-luck for one side of the House or the other. The Legislature dissolved on May 2, 1908, had endured for three years and a quarter; the present Legislature has already exceeded that term by about two months.

Formal dissolution of the House and the issue of the writs for the new Legislature will take place shortly, the delay being intended to give the municipal officers the longest possible time for the preparation of the polling lists.

This duty should have been undertaken during the summer, but, as usual, was generally allowed to go by default.

A statement to the press accompanied the announcement of the election date, and in it the record of the Government was outlined along with the proposals for the future.

Premier Whitney gives as the more important questions upon which the people of the province should have an opportunity of pronouncing:

(1) As to the advisability of further provincial appropriations if necessary to any scheme of development by reason of the financial aid to be given by the Dominion Government, and also of any statutory enactment which may be found to be necessary under the circumstances.

(2) Whether the Government of the province shall continue to urge upon the Dominion Government the payment of a bonus or subsidy on account of the construction of the T. & N. O. Railway.

(3) Whether a department of the Government shall be created, with a Cabinet Minister at its head, to take over and carry on the work heretofore done by the Hydro-Electric Power Commission.

The question of the opening up of Northern Ontario is said to be obviously of great importance and should be dealt with without delay. The only result of the addition to population in the newer districts is to increase the provincial expenditure while the Dominion derives an increased income from the greater consumption of goods paying tariff duties. The Provincial Government, therefore, notes with satisfaction Mr. Borden's announcement, that he would favor the giving of financial aid by the Dominion to the province in the work of immigration to Northern Ontario; the construction of permanent highways for the province, and for providing practical instruction in agriculture. Legislation to provide for the disposition of any sums voted by the Dominion for these purposes is contemplated and mentioned as "the enactment of statutory provisions of a very important character."

The T. & N.O. Railway policy is an important feature of the address. An engagement has been entered into with the Grand Trunk Railway for running rights of its trains over the line, in consideration of which the company assumes an equitable share of the general maintenance of the road, and pays the sum of $300,000 per annum as rental for such running rights, this sum representing one-half of the interest on the total cost of construction of the railway.

Sir James refers to the "bitter and relentless opposition" to the Hydro-Electric power scheme, which is intended to furnish power at cost to all sections of Ontario, and the great efforts which "have been made by interested individuals to hamper and prevent the carrying out of the intentions of the Government in the central and eastern parts of the province. So far have these efforts gone that in all probability we shall be compelled," says Sir James, "to use the powers given us by statute with reference to expropriation."

Sir James refers to the "very patriotic and unselfish exertions of Hon. Adam Beck, Hon. J. S. Hendrie and Mr. W. K. McNaught to the commission, and announces the discontinuance of the commission, and the establishment of a new power department with a Cabinet Minister at its head.

Tug Struck a Rock.

North Bay, Oct. 31.—The tug Zephyr, owned by Thomas Darling & Sons of Callander, struck a rock in Lake Nipissing on Saturday while towing a scow, and sank in fourteen feet of water. The crew escaped to the scow and were taken off several hours later by a passing steamer. The bow of the wrecked craft is resting upon a shoal, and no difficulty is expected in the task of raising the boat and taking her to the drydock for repairs.

Successor to Sheriff Motz.

Berlin, Oct. 31.—John Fennell of the firm of John Fennell & Son, is most prominently mentioned as successor to the late Sheriff Motz. Mr. Fennell has always been a successful worker in the Conservative cause, and the

SIR JAMES WHITNEY GOES TO THE PEOPLE

"HONEST ENOUGH TO BE BOLD; AND BOLD ENOUGH TO BE HONEST"

CHINESE AUTOCRATS MADE TO EAT CROW; POPULAR RULE NOW

Imperial Edict Grants Reforms Demanded for Years—All Rebels are Pardoned and Better Behaviour is Promised in the Future

Pekin, Oct. 31.—The demand of the National Assembly for a complete constitutional government has been acceded to by the throne. An Imperial edict was issued yesterday, apologizing for the past neglect of the throne, and granting an immediate constitution with a Cabinet, from which nobles shall be excluded. A second edict grants pardon to political offenders connected with the revolution of 1898 and subsequent revolutions, and to those compelled to join in the present rebellion.

The Imperial edict, which is from the hand of the Emperor, Hsuan-Tung, says: "I have reigned three years and have always acted conscientiously in the interests of the people. But I have not employed men properly, as I am without political skill. I have employed too many nobles in political position, which contravenes constitutionalism.

"On railway matters one whom I trusted deceived me. Hence public opinion was antagonized. When I urge reform, officials and the gentry seize the opportunity to embezzle. Much of the people's money has been taken, but nothing to benefit the people has been achieved.

"On several occasions edicts have promulgated laws, but none of them has been obeyed. The people are grumbling, yet I do not know. Disasters loom ahead, but I do not see."

After referring to the uprisings in various places, the edict continues:

"The whole empire is seething. The spirits of our nine deceased emperors are unable to enjoy the sacrifices properly, while it is feared that the people will suffer grievously.

"All these things are my own fault, and I hereby announce to the world that I swear to reform, and, with our soldiers and people, to carry out the constitution faithfully, modifying legislation, promoting the interests of the people and abolishing their hardships, all in accordance with their wishes and interests. The old laws, that are unsuitable will be abolished. The union of the Manchus and Chinese, mentioned by the late emperor, I shall carry out now. Finance and diplomacy have reached bedrock.

"Even if all unite, I still fear that we may fall. If the empire's subjects do not regard and do not honor fate, and are easily misled by outlaws, then the future of China is unthinkable. I am most anxious day and night. My only hope is that my subjects will thoroughly understand."

The throne promises to organize a Cabinet without nobles forthwith. The Manchu Prince Shih Shu, President of the Assembly, is permitted to resign, the Chinese Li Chia Chu, succeeding him. The Manchu Kuei Chun, Minister of Constabulary, has been removed, and the Chinese, Chao Ping Chun, supersedes him in that office.

The lines around Pekin are tightening. While there is no great panic observable in the capital among the higher classes and the foreigners there has been a perceptible tensioning everywhere. The legation quarter is preparing for emergencies and in some cases temporary fortifications have been placed in position. These consist largely of bags of sand.

Strong detachments of troops guard the palace and the gates of the city but while the throne has made haste to comply with the demands of the 20,000 soldiers of the Third and Twentieth Divisions and the Second Mixed Brigade, composing the Second Imperial Army, for the Yangtse campaign, which were presented by the National Assembly, it cannot be said that Pekin is yet safe from attack.

The Imperial edict has been widely discussed and it is generally believed that it was issued in order to provide Yuan Shih Kai with a powerful lever to use in his negotiations with the rebels. Its effect in Pekin already is good. The fear of the people, which was great yesterday morning when it became known that the capital was threatened with an attack unless the Government acceded immediately to demands of far-reaching importance, had somewhat subsided last night, although 600,000 Chinese continue to fear a massacre, while 100,000 Manchus are in dread of a Chinese attack.

At Tien Tsin yesterday the foreign troops marched around the concession for the purpose of impressing the natives with their numbers, armament and general preparedness for trouble. The customs commissioner received a letter signed Shur Yen Fang in behalf of the Tien Tsin branch of the revolutionary committee, announcing the intention of the committee to take possession of both Tien Tsin and Pekin.

FEDERAL AID FOR THE NORTH

Energetic Immigration Policy for Ontario

Dominion Government Will Help in Scheme

North Bay, Oct. 31.—Hon. Frank Cochrane, Minister of Railways and Canals, stated at a convention at North Bay that it would be his endeavor to see carried out the pre-election promise of the Borden administration, that the same energetic immigration policy heretofore applied to western Canada would be given to northern Ontario. He also promised earnest consideration to the question of Federal contribution to trunk roads in New Ontario, and also that a strong effort would be made to settle long-standing disputes between Provincial and Dominion Governments, such as jurisdiction over the islands of Georgian Bay, conservation and control of streams, and other matters, which would be settled by conference if possible, but failing that, by an appeal to the courts.

A subsidy to the Temiskaming & Northern Ontario Railway would also be considered, the opinion of the Minister of Railways and Canals being that the provincial railway was entitled to the same consideration as a private company from the Federal Government.

MR. PECK'S COMMITTEES

Ward 1.—At Mr. VanEvery's building, corner Rubidge and Dalhousie streets, this evening.

Ward 5.—At Mr. Hamilton's, Hunter street, this evening.

Wards 2, 3 and 4.—At Central Committee rooms, George street, on Thursday evening.

All those desirous of assisting in the work of organization are requested to attend these meetings.

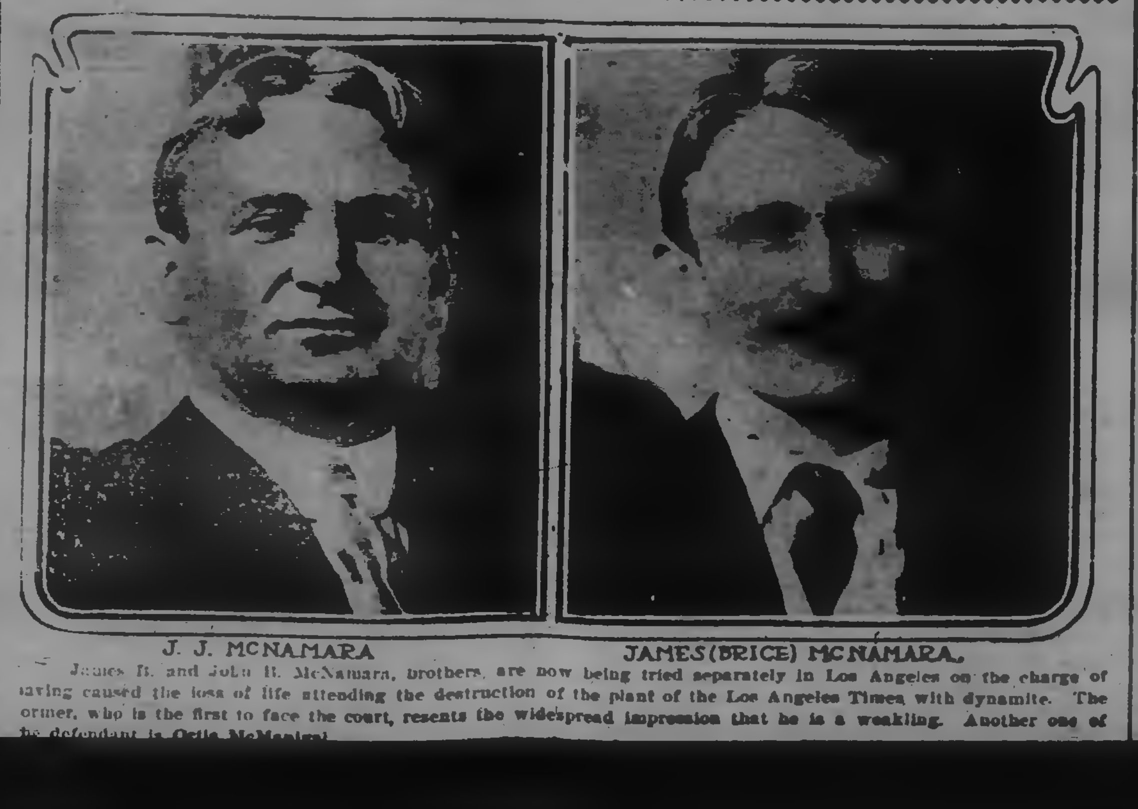
PART OF TRIPOLI IS RECAPTURED

Turkish Embassy Receives Official Despatch

Washington, Oct. 31.—The Turkish embassy received unofficial despatches yesterday confirming reports that the Turkish troops have recaptured part of the city of Tripoli. These messages came indirectly, and do not represent an official Turkish statement on the subject.

The State Department received a message from Consul J. J. Wood at Tripoli, stating that Italian forces have not treated Arabs so badly as some reports indicated.

Rome, Oct. 31.—The Italian nobility, like the people, are paying tribute in blood in the African conquest. Word has reached here of the death in action at Homs, Tripoli, of Duke Riccardo Grazioli Lante Delia Rovere, a lieutenant in the army, and of the serious wounding of Count Pompeo Di Campello, a lieutenant in the cavalry, and gentleman-in-waiting to the king. Both of these officers were well-known sportsmen.



J. J. MCNAMARA JAMES (BRICE) MCNAMARA.

James B. and John B. McNamara, brothers, are now being tried separately in Los Angeles on the charge of aving caused the loss of life attending the destruction of the plant of the Los Angeles Times with dynamite. The ormer, who is the first to face the court, resents the widespread impression that he is a weakling. Another one of he defendant is Ortie McManigal.

MACKAY THROWS UP SPONGE; RESIGNATION IS ACCEPTED

Ontario Liberal Leader Says That a Legal Action Is Pending That Necessitates His Retirement - Successor To Be Selected To-day

Special to the Review.

Toronto, Oct. 31.—After an all night session in caucus in the Prince George last night, A. G. MacKay, the Liberal leader in Ontario, resigned today and his resignation was accepted by the Ontario Reform Association in session to-day.

Mr. MacKay gives as his reason for resigning that a certain action has been launched reflecting on his personal honor, and at this juncture the case might injure the Liberal party, were he to remain leader of the Liberal party. His successor will be selected to-day.

AUSTRIA GROWLS AT ITALY

Ultimatum May Be Sent To King Victor By Triple Alliance Ally—Dispute Over Area of Hostilities.

Special to the Review.

Vienna, Oct. 31.—Trouble between Austria and Italy is said to be threatening. The decision of the Italian cabinet to have a naval demonstration in Turkish waters in spite of Austria's warnings that hostilities must be confined to Africa has caused Austria to ask Italy for an explanation. If this is not satisfactory, an ultimatum will be sent to King Victor Emmanuel.

AUTO PASSENGER LEAPS TO DEATH IN SPASM OF FRIGHT

Aged Pair Married.

Sault Ste. Marie, Ont., Oct. 31.—At the age of 81, and for the fifth time in his life, Jacob Somes has entered into the bonds of matrimony, and the woman of his heart is Mrs. James Cole, a lady of 73 summers, who has been married once before.

Somes has lived here for many years and Mrs. Cole comes from Thessalon, where they will reside. The bridegroom is reputed to have amassed a large sum out of the sale of patent medicines.

Ask Taft to Protest

New York, Oct. 31.—President Taft is to be asked to transmit to the Czar of Russia a protest formulated at a meeting yesterday by New York clergymen of all denominations against the "systematic oppression" of the Jews in Russia. The protest is in the form of a resolution setting forth the "unjust and barbaric conditions" to which, it is declared, the Jews in that country are subjected.

Insurance Bill and the Dominions.

London, Oct. 31.—In the House of Commons yesterday the Chancellor of the Exchequer, in defending clause 26 of his insurance bill, which provides that uninsured persons emigrating to the dominions shall have the right to take their transfer value to similar societies abroad, described the provision as an attempt to bring about reciprocity with the dominions and foreign countries in the matter of insurance. This was to be regarded rather as a general offer to the colonies than as a final settlement.

TROOPS ARE MUTINOUS

Trouble Among Italians May become Acute

Special to the Review.

Vienna, Oct. 31.—Nearly all the Italian troops on the way to Africa battlefields are rebellious with consequent difficulties for the officers. A meeting on a large scale may be expected at any time.

Toronto Man Lost His Nerve, and Lost His Life By Jumping—Death Instantaneous.

Toronto, Oct. 31.—Jumping from a motor car in which he was riding with four other persons between Eglinton and St. Clair, in Dufferin street, Melrose F. Morrison, chief accountant of the Dovercourt Land & Savings Co., was fatally injured at 7 o'clock last night. His companions picked him up unconscious, but still breathing and rushed him in the car to the office of Dr. Walter McKeown, College street, only to find upon their arrival that their speedy trip had been in vain, for the young man was dead.

The story of the accident told by the others in the car is that the car was running swiftly down Dufferin street with its four passengers when it swerved alarmingly upon striking a stone or knoll in the roadway. The car careened, and Mr. Morrison seems to have believed that it was going to overturn, for he jumped headlong from the car. His skull was fractured, and the doctor believes that death must have been almost instantaneous. The body was removed to the morgue.

William Stewart, 564 Brock avenue, says that he was walking south in Dufferin street when he was overtaken by the car. Just as it came abreast of him it seemed to strike a knoll in the roadway and swerved so that it mounted a bank at the side of the road. He saw Mr. Morrison jump from the car, but thought that he had been thrown out. As he struck the ground the machine slid back from the bank, crushing him beneath it. A messenger was sent for a doctor, but when he arrived with a near-by physician, the man had been hurried away in the car.

Mr. Morrison was 30 years of age and single. In speaking of him last night W. S. Dinnick, president of the Dovercourt Land & Savings Co., said he was one of the best men the company had, was a general favorite with its patrons, and would be sorely missed by the company.

Entered Canada Illegally.

Niagara Falls, Ont., Oct. 31.—Karl assay and Andrew Fahr, Hungarians, entered Canada illegally and were fined $10 each by Magistrate Fraser. They were ferried across the river from Grand Island.

NORTH BAY WANTS HELP OF HYDRO-ELECTRIC COMMISSION

Strange Death in Chicago.

Chicago, Oct. 31.—What the police say was a murder, with many features which they were unable to explain, was revealed yesterday when the body of Blanche Dow was found, naked, on the floor of her room in a down-town hotel.

The furniture was broken and the young woman's hair was torn down, giving evidence of a struggle. Despite these facts, there were no wounds on the body and both doors and the windows of the room was locked.

The police believe Miss Dow, who was about 26 years of age, was an actress. Several valuable jewels on her fingers were not disturbed.

Not Eager to Sell.

Winnipeg, Oct. 31.—Sir William Mackenzie, who arrived yesterday from the east, declared that he was not keen to sell the Winnipeg Electric. He was surprised at the novelty of the scheme recently mooted to extend the Canadian Northern Railway north to take in the Hudson Bay Railway.

Services of Hon. Adam Beck Will be Enlisted—Definite Proposition Wanted.

North Bay, Oct. 31.—North Bay is considering entering the list of towns served by the Hydro-Electric Commission. The franchise of the local electric lighting company has expired, and the Town Council seriously contemplates establishing a municipal system and has entered into negotiations with the local company with that object in view.

In the meantime the lightning company has been absorbed by the Nipissing Power Co., controlled by Smith, Kerry & Chase of Toronto, but virtually part of the merger of Ontario power companies. The new company asks for a 21-year franchise, and offers very low rates if the franchise is granted.

Representatives of the Hydro-Electric Commission have also been in consultation with the Council, and Hon. Adam Beck has promised to come here in the course of a week and lay a definite proposition for a

TAFT IS WEARY

President Strikes Pessimistic Note in Speech.

Chicago, Oct. 31.—President Taft surprised a large audience at the dinner of the Hamilton Club yesterday by what most of his hearers construed as an admission of the possibility of Republican defeat in the coming national election. He was speaking to an unusually enthusiastic audience of Republicans.

"Now we are at—some people think—the crisis in the Republican party with reference to its continuance in the guidance of the nation," the President said. "I am hopeful that the good people of the country who know a good thing when they see it, have only chastened us in an off year, in order that we may be better hereafter—but with no intention of shifting from shoulders that are fitted to bear the burden of the present problems and carry them to a successful solution, to those which are untried and which have new theories of action that we do not believe in, and that we don't believe the people believe in.

"However, if so be it they desire to make a change, we shall loyally support the new Government under any conditions, with the hope it will inure to the benefit of the country, but with the consolation, that, if after one trial the people think they ought to go back to the other party that has served them so well in the progressive days of the nation, they will do so—we can bear that, my friends; that is all."

After his address the President retired to his hotel for rest. Though he professed no weariness the three days steady strain had told on him, and it was a tired man who led the Presidential party out of Chicago at 5.30 p.m. over the Pennsylvania Railroad for Pittsburg.

BOUGHT LIQUOR FOR AN INDIAN

Brockville, Oct. 31.—James Cowan of Gananoque fell into the company of David Casey, a St Regis Indian, at Prescott. The pair came to Brockville and occupied a double room in a local hotel, but in the morning the Indian was gone and $2 of Cowan's money.

Casey lit out by the first train for Cornwall, where he was arrested and brought back to answer to the charge of theft. During the enquiry it developed that Cowan purchased liquor for the Indian both in Prescott and Brockville, for which he was fined $50 and costs, and in default was committed for two months. Casey is on remand in order that he may be used in other prosecutions to follow.

Frank Eastman was arrested here yesterday in possession of a horse and buggy which it is alleged he stole from a Smith's Falls liveryman on Saturday night. Eastman is 22 years of age, and says he belongs to Montreal. He was taken to Smith's Falls for trial.

PROBABILITIES

Northerly winds, with light rain or sleet. Wednesday, northwesterly winds, cloudy and cooler.

Killed By Train.

Hamilton, Oct. 31.—Another railroad accident, with fatal results, occurred here yesterday, when the C.P.R. train from Toronto early yesterday afternoon ran down and instantly killed an unknown man near the high level bridge. The train was stopped within a short distance when the accident happened, and Dr. Phelps of the Toronto General Hospital staff, who was a passenger on the train, rushed back to the unfortunate man, who was dead when the doctor reached him.

The man was apparently about 30 years of age and wore a black moustache. Two G.T.R. switch keys were found in his pockets, which, in connection with the clothes he wore, suggested that he was a brakesman.

A Discovery of Vast Importance

It Is Now Admitted That Bronchitis, Asthma, Catarrh, Coughs and Colds Can Only Be Quickly Cured By Mixing a New Medicine With the Air You Breathe.

Scientists acknowledge that medicated air treatment is the only treatment that will cure these diseases, and that stomach medicines are worse than useless.

Catarrhozone air treatment has been found to be the most effective way to cure all diseases of the throat, lungs, and nasal passages. Its action is so prompt that in less than an hour an ordinary cold is cured, and after a more thorough use of Catarrhozone, Bronchitis, Catarrh, and all diseases of the throat and lungs are completely cured.

Catarrhozone is a very simple and powerful method of treatment. You simply breathe it through the inhaler and it immediately passes over every air cell of the throat, lungs, and bronchial tubes, curing and healing as it goes.

Catarrhozone treatment affords little drops of healing for sore places in the lungs, throat, and nasal passages.

Catarrhozone
Does This, And Cures

YOU TAKE THIS MEDICINE IN AIR

Price 25c, 50c, and $1.00 at all druggists or by mail from The Catarrhozone Co., Kingston, Ont., and Buffalo, N. Y.

The Daily Review

TUESDAY, OCT. 31, 1911.

THE LIBERAL POLICIES

The Liberals in Ontario, in addition to being practically leaderless, and in disorganized shape, are up against the fine proposition of trying to form a platform that will appeal to the people of Ontario. Mr. MacKay is described by members of his own party as too reactionary. The Liberals want some leader who can outdo in radicalism the Whitney government, and such a leader who has the sound sense to draft a policy of this nature, and which is feasible for operation, is not to be found every day.

Since the Liberal party has not got a strong platform on which to go to the people, it may be quite possible that Mr. Hall will undertake to supply one. Mr. Hall has evolved plans for much more difficult propositions than that. Taking his pen in hand, as the story says, some of these days Mr. Hall will outline a platform which shall say that the Ontario government ought immediately to borrow some of Col. Sam Hughes' gallant eager boys, have Hon. Adam Beck put at their head, and march 'em to one of the dams in the immediate neighborhood of Peterborough, and seize it, to have and to hold forever, for the benefit of Mr. Hall's many friends in the riding—just now they include every voter in the riding. And Mr. Hall will probably be radical enough to suggest that as Ontario cannot train up enough teachers to supply the cross-roads schools, the government should resort to conscription. Or perhaps it could start action for the expropriation of the services of qualified individuals, and thus secure enough. If the constitution would only permit, the easy way would be to put an export duty on teachers going to the west, and thus keep for ourselves the benefit of our training. The rural schools must get teachers somehow. Some day during the campaign, if there is a school closed in the rural part of this riding, we may have the inspiring spectacle of the candidate taking off his coat and whaling a few of the unruly youngsters just to show them that even temporary dominies have muscles worthy of a good cause.

In reference to the colonization of North Ontario, Mr. Hall may find it his stern duty to consider the offering of a bonus to everyone taking up land, the building a house for the settler, and settling on him an annuity to stay in it. Northern Ontario must be colonized. The people of Southern Ontario are demanding that the north be as full of prosperous farmers and diggers of the rock, as it is full of stunted poplar. Having thus seen to a plan for inducing people to stay on the lands in the north, Mr. Hall will provide a scheme on "How to Make People Forget the Odor of the Ross government." This is really most essential to the laying down of a successful scheme for the return to power of the Liberals in Ontario. Not having been in the Ross gang, Mr. Hall can feel free in conscience and in spirit to bury it with a deep, dark shroud. Mr. Hall may perhaps be taking the prospect of turning out the Whitney government rather seriously, although he hasn't said yet what he thinks about bi-lingual schools, for fear of embarrassing the [illegible]

POLITICAL CIVIL WAR

The Regina Province in remarking about the lack of eclat that has attended the efforts of Mr. MacKay in rallying around his stand the Liberals of Ontario, sizes up the situation here accurately. Even in far away Saskatchewan, it is apparent that the progressiveness of the Whitney government has made a deep impression. The Province says:

The Liberal party in Ontario was dying with the utmost rapidity before the outbreak of the civil war in that party that threatens to hasten the procession to the political cemetery. Instead of fighting the Whitney government, the Liberal party is engaged in a bitter conflict between its two factions—the Toronto Liberals and the country Liberals. A. G. McKay has the support of the Liberal party outside the city of Toronto.

"Under Mr. McKay's leadership the Liberal party in Ontario has not made any progress towards success. This is not the fault of Mr. McKay. The sins of the party when in office have not been forgotten by the Ontario electorate and Sir James Whitney's administration has been in such marked contrast that a new generation must arise before the Liberals may hope for success in that province. Mr. McKay has fought a splendid fight with little support. He stepped into the breach caused by the cowardly desertion of Hon. G. P. Graham, and has been rewarded for his sacrifices for his party by coldness and treachery on the part of those upon whose support he was relying.

"Mr. McKay is an abler man than Geo. P. Graham. He is absolutely unselfish and his lack of success is no reason for lack of support by leading Liberals. He has sacrificed a splendid future in his profession by his political loyalty. Without any chance of success at the coming election under favorable auspices, he must in addition face a factional fight within his party.

EDITORIAL NOTES

A considerable part of turkey has been demolished.

Thanksgiving day is here and gone, and in its honor all sorts of living creatures have been blown to bits. Thus it is we thank the Almighty for his goodness.

W. D. Staples, M.P., for Macdonald, Man., is an old Manvers boy. He will be chief western whip for the government. This district is producing its share of the men, who are helping to make Canadian history.

Lindsay, being a bright little town, and wanting very much to be dignified, is hunting for a slogan. How would this do; "Lindsay's dreams are of many Hughes."

Hon. Mr. Borden will soon receive a knighthood. It would be odd to have a Canadian premier who was a plain "Mister" when all around him are men with titles, whose claims to the honor are of an insignificant nature, in many cases.

The British railway strike trouble again threatens, after the settlement made through the efforts of Lloyd George. Observers of events recently from England say that the country is seething with discontent at social conditions, and it would not be remarkable to see a great revolution from the established order of things within a very short time.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO.,
Toledo, Ohio

Sold by Druggists, 75c.

INCURABLE INDIGESTION

COMPLETELY CURED BY "FRUIT-A-TIVES"

BANCROFT, ONT., October 17th.

"I have been troubled for years with Indigestion, and I have tried nearly every kind of medicine. I used "Fruit-a-tives", more or less, for eighteen months, and I am no longer troubled with Indigestion. I think "Fruit-a-tives" is a splendid remedy for this trouble." JOHN REDMOND.

"Fruit-a-tives" will cure every trace of Indigestion, Dyspepsia, Sour Stomach, Bloating and Pain After Eating. Take them regularly—one before meals and at bedtime—give the intensified fruit juices a chance to regulate your system—and you will be cured. 50c. a box, 6 for $2.50, or trial size, 25c. At all dealers, or from Fruit-a-tives Limited, Ottawa.

WILL POINT THE TRUE NORTH

Compass of Columbus' Days Getting Closed Out, Recent Gyroscope Improvements Helping Man Steer Safer Course.

The magnetic compass, which has been in use by every mariner who sailed the sea since Columbus, is nearing the end of its usefulness, at least for steam vessels. The Bureau of Navigation of the United States has decided that it must go. In its place there is being installed in the warships, the gyroscope compass, which it is said is so far superior to the magnetic compass that they are not in the same class.

So long as ships were built of wood, the magnetic compass was as good a guide as the mariner needed, though its shortcomings were such that to understand its use required much study. To begin with, the magnetic compass, except on a single meridian of longitude, does not point to the North Pole, for the very obvious reason that the magnetic North Pole is many hundreds of miles to the south of it. The effect of this is seen in the fact that in Iceland the compass needle points almost due west, and in Northern Alaska due east. Because of this, allowance must be made for variations before one may know where lies the true north, and before he may discover what allowance to make latitude and longitude must be known.

An examination of the gyro compass shows that its most wonderful feature, next to the way it finds the north, is the tenacity with which it holds it. A magnetic compass is held to its position by a force so slight that a breath will disturb it. The power that holds the gyro to the meridian, on the other hand, is more than 7,000 times as great.

GERMANY IN THE HOLY LAND

It is undeniable that the Holy Land is gradually being Germanized. More than two-thirds of the philanthropic institutions in the way of churches, missions, hospitals, and hospices are in the hands of the Germans. The leading polytechnics, public schools and educational institutes are also governed by them, while quite large German colonies are now to be found in Jerusalem, Bethlehem, Jaffa, and other places. Recent excavations of any importance have been carried out by the Germans, who also virtually control the country's trade. It is well known that the finest and purest bitumen is obtained here, also quantities of excellent sulphur. According to Professor Blackenhorn's report, copper mines have been worked near the south end of the Dead Sea in Byzantine times; and, also marble porphyry, and other fine classes of stone are to be found there as well as phosphates.

It has also been stated by American experts that evidences of coal and oil are very apparent. Salt is found in great quantities; but upon this the government holds a monopoly with the curious result that salt is at present imported from Smyrna and England.

British Columbian Fruit

The apple crop of British Columbia will be about a two third yield, says the Canadian Pacific reports. Peaches are a failure with the exception of Penticton, B.C., where some fair shipments will be made. Cherries have been a good crop in the Kootenays. Plums and prunes are fair and apricots have proven a very regular crop. One grower in Penticton, gathered 5,400 pounds of apricots from 100 trees, and after paying the cost of picking, boxing and packing he realized a net profit of 8 cts. per pound or $424.00, for his crop. The fruit shipment from the Okanagan Valley for the season will be about 300 cars.

The amount of land under cultivation in British Columbia and devoted exclusively to fruit represents 140,000 acres, or an investment of easily forty million dollars. One million acres of land is still available for fruit culture.

Of the lands under cultivation only fifteen per cent are yet bearing, so that a yearly shipment of 7,000 cars can be looked for when all the present orchards are producing.

We can only have the highest happiness — such as goes along with being a great man — by having wide thoughts and much feeling for the rest of the world as well as ourselves. — George Eliot.

Dr. de Van's Female Pills
A reliable French regulator; never fails. These pills are exceedingly powerful in regulating the generative portion of the female system. Refuse all cheap imitations. Dr. de Van's are sold at $5 a box, or three for $10. Mailed to any address.

THE MARKETS

Latest Quotations in Grain Dairy Products, Live Stock Etc.

LIVERPOOL, Oct. 30.—The firmness in America on Saturday and the strength in the near month in Buenos Ayres, as well as Winnipeg was offset here by the unexpected world's shipments to the United Kingdom and values were unchanged. Later there was an advance on the firmness in Buenos Ayres and Winnipeg offers and an improved demand for cargoes and parcels which are sparingly offered. Advices from Australia continue bullish, as rain is wanted. During the morning there was some realizing, altho the market was dull and prices lost the advance. Advices from Argentine continue very favorable, as a result of the recent rain and the weather continues unsettled.

At the close the market was dull, ⅛d to ¼d higher than on Saturday.

CHICAGO, Oct. 30.—Millers buying large quantities of cash wheat here today helped give the option market a lift. The close was steady at 1-4c to 5-8c to 3-4c net advance. Corn finished 1-4c to 1-2c higher than Saturday, and oats up 1-16c to 1-8c. Latest trading showed hog products varying from 2 1-2c decline to a gain of a nickel.

The Winnipeg grain exchange was closed all day Monday for the holiday.

Buffalo Grain Market.

BUFFALO, Oct. 30.—Spring wheat easier; No. 1 northern, carloads, store, $1.12; winter lower: No. 2 red, $1.01; No. 3 red, 99c; No. 2 white, $1.

Corn—Unsettled; No. 3 yellow, 79½c; No. 4 yellow, 78½c, all on track, thru-billed.

CATTLE MARKETS.

Union Stock Yards.

TORONTO, Oct. 30.—Receipts of live stock at the Union Stock Yards were 151 carloads, consisting of 2954 cattle, 589 hogs, 869 sheep and lambs and 60 calves.

Exporters.

E. L. Woodward bought for Swift & Co, 142 steers, 128 lbs. each, at $6.10 to $6.40.

Alex. McIntosh bought eight carloads of export steers for Shamberg & Sons, as well as three carloads for the S. & S. Company.

Butchers.

Best loads of butchers' cattle sold from $5.50 to $5.75; good loads, $5.25 to $5.50; medium, $5 to $5.25, common, $3.75 to $5; cows, $3 to $4.80; bologna bulls, $2 to $3.25; butcher bulls, $3 to $4; canners, $1.50 to $2 per cwt.

Feeders.

Steers, 1000 to 1100 lbs. each, sold at $4.75 to $5, and one lot at $5.25; steers, 800 to 900 lbs., at $4.50 to $4.75; stockers, $3.50 to $4.25, according to quality.

Milkers And Springers.

About 32 milkers and springers sold at from $45 to $80 each, but only one sold at the latter figure.

Calves.

Rough grass calves sold at from $3.50 to $4, and veal calves of good to choice quality at $5 to $8.25 per cwt.

Sheep and Lambs.

Sheep and lambs sold at about steady prices. Sheep, ewes, sold at $3.50 to $4 per cwt.; culls and rams at $2.50 to $3; lambs, $5.25 to $5.60, with selected ewes and wethers at $5.60.

Hogs.

E. L. Woodward, for Swift Canadian Company, quoted $6.25 to $6.30, but it must be remembered that these were selects, 190 lbs. each; light, unfinished hogs would be 10c to 15c per cwt. less; choice selected hogs are worth $6.30.

East Buffalo Cattle Market.

EAST BUFFALO, Oct. 30.—Cattle—Receipts, 6200 head; fairly active; steady on good, 10c to 25c lower on common; prime steers, $7.50 to $7.75; shipping, $6.25 to $7.25; butchers, $4.75 to $6.75; heifers, $3.75 to $6.75; cows, $2 to $5; bulls, $3.25 to $5.25; stockers and feeders, $3.50 to $5.25; stock heifers, $3.25 to $3.50.

Veals—Receipts, 1400 head; active and steady, at $5.50 to $9.75.

Hogs—Receipts, 21,000 head; active and 5c to 10c higher; heavy and mixed, $6.60 to $6.65; yorkers, $6.15 to $6.65; pigs, $5.30 to $6; roughs, $5.55 to $6; stags, $4.50 to $5.50; dairies, $4.25 to $6.60.

Sheep and Lambs—Receipts, 21,000 head; active, sheep steady; lambs 10c higher; lambs, $4 to $5.85; yearlings, $3.75 to $4; wethers, $3.50 to $3.65; ewes, $3 to $3.25; sheep, mixed, $1.50 to $3.25.

New York Live Stock.

NEW YORK, Oct. 30.—Beeves—Receipts, 3800 head; best steers 10c higher; others steady to slow; bulls steady to 10c lower; cows steady; steers, $4 to $7.65; bulls, $3 to $5.25; cows, $1.75 to $4.50; fat heifers, $5.25.

Calves—Receipts, 3004 head; market slow; steady to a shade lower; veals, $6.00 to $10; few choice at $10.25; culls, $5 to $6; grassers, $3.75 to $4.50; culls, $3.50; southern and western calves, $4.50 to $6.50.

Sheep and Lambs—Receipts, 15,100 head; sheep steady; lambs slow to 10c lower; several cars unsold, sheep, $2 to $3.50; culls, $1.50 to $1.75; lambs, $4.50 to $5.75; culls, $3.50 to $4.

Hogs—Receipts, 12,300 head; market steady, at $6.50 to $6.75; a few at $6.70; pigs, $6 to $6.25.

Chicago Live Stock.

CHICAGO, Oct. 30.—Cattle—Receipts, 21,000; market mostly 10c higher; beeves, $4.80 to $8.75; Texas steers, $4 to $5.80; western steers, $4.15 to $7; stockers and feeders, $2.90 to $5.75; cows and heifers, $1.90 to $5.75; calves, $5 to $8.75.

Hogs—Receipts, 30,000; market slow; light, $5.80 to $6.45; mixed, $5.80 to $6.60; heavy, $6.00 to $6.60; rough, $5.90 to $6.05; good to choice hogs, $6.05 to $6.60; pigs, $3.75 to $5.90; bulk of sales, $6.15 to $6.45.

Sheep—Receipts, 58,000; market steady; native, $2 to $3.70; western, $2.50 to $3.75; yearlings, $3.50 to $4.25; lambs, native, $4.10 to $5.75; western, $3.75 to $5.65.

Urge Death-Defying Trip.

Niagara Falls, Ont., Oct. 31.—Although he declared after his rapids' shooting trip in his motor boat Saturday that he would never attempt the feat again, Capt. Klaus Larsen will be waited upon by a committee of business men to-day, who will urge him to make another death-defying [illegible]

SHE WAS SURPRISED

When Dr. Morse's Indian Root Pills Cured her Chronic Liver Complaint

Mrs. R. Smith, of Winnipeg, Man., tells an interesting story of relief from almost intolerable sufferings:

"I can hardly tell you how great my sufferings have been. Chronic liver complaint accompanied by biliousness were a daily source of trial to me. Every day I experienced the sickening effects of these ailments. I longed for some medicine that should permanently drive them away.

Hearing of Dr. Morse's Indian Root Pills, I thought they were worthy of a trial. My surprise was indeed great. From the very first I experienced relief. Continuing with them I found my troubles were slowly but surely leaving me, and before long I once more knew what it was to be free from the harassing effects of the ailments that had long sickened and weakened me. So great is my faith in Dr. Morse's Indian Pills that I shall never on any account be without them."

Dr. Morse's Indian Root Pills cure Bowel and Kidney as well as Liver troubles, and keep you healthy. 25c a box at your dealer's. 14

REVIEW WANT ADVTS.

The Review want advertisements are read by thousands, for people want what they want when they want it.

If you need help,—Servants, hands, or workmen try the Review want ad columns.

MEXICO IN '42

By D. Lewis

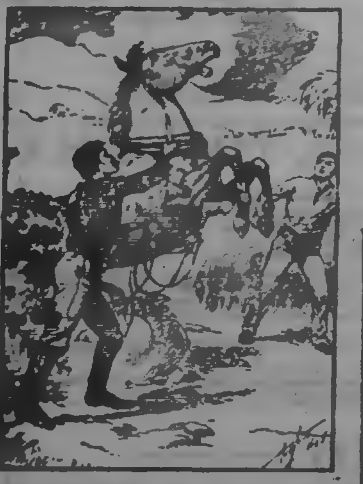
Rock, anticipating something of the sort, instantly reined in and the carriage came to a stand. At which the two inside sprang out upon the road, Kearney calling to the Texan:

"Drop the reins, Cris! Down; unhitch the horses. Quick!"

And quick came he down, jerking the dwarf after, who fell upon all fours; but he recovered his feet, looking as if he had lost his senses. No one heeded him or his looks; the hurry was too great even to stay for unbuckling.

"Cut evrything off!" cried Kearney, still speaking to Rock. "Leave on only the bridles."

With the knife late put into his hands the Texan went to work, Kearney himself plyingt he other while Rivas held the horses and unhooked the bearing reins.



BEFORE MAKING FOR THE MOUNTAIN THE TEXAN CUT LOOSE THE HORSES.

Soon pole-pieces and hame-straps were severed, and the animals led forward left all behind, save the bridles and collars.

"Leave the collars on," said Rivas, seeing there was no time to detach two, but first to dispose of him."

The "him" was Jose, still seated on the box, apparently in a state of stupor.

"Pull him down, Cris! Tie him to the wheel!" commanded Kearney. "The driving reins will do it."

The Texan knew how to handle tying gear, as all Texans do, and in a trice the unresisting coachman was dragged from his seat and bound to one of the carriage wheels.

But Rock had not done with him yet. There was a necessity for something more, which looked like wanton cruelty—as they wished it to look. This was the opening of the poor fellow's mouth and gagging him with the stock of his own whip!

So, rendered voiceless and helpless, he saw the four "criminals," two and two, get upon his horses and ride off, the only one who vouchsafed to speak a parting word being the dwarf—he calling back in a jocular way:

"Farewell, Senor Coachman! May your reflections be as pleasant as your coach is slow!"

CHAPTER XXXIV.

Double Mounted.

The laborers hoeing among the young maize plants saw a sight to astonish them. Two horses of unusual size, both carrying double and going at *full gallop* as if running a race—on one of them two men in cloaks, blue and scarlet; the other ridden by a giant, with a mis-shapen monkey-like creature clinging on the croup behind—harness bridles, with collars dancing loose around their necks—chains hanging down and clanking at every bound they made—all this along field paths, in an out-of-the-way neighborhood where such horses and such men had never been seen before!

However, they were not permitted long to look upon it. For the galloping pace was kept up without halt or slowing, and the strange looking horses—with the men upon their backs, still stranger to look at—soon entered a chaperral, or thicket which bordered the maize and maguey fields, and so passed out of sight.

* * * * *

"We're near the end of our ride now," said Rivas to Kearney, after they had been some time threading their way through the thicket, the horses from necessity going at a walk. "If 'twere not for this ironmongery around our ankles, I could almost say we're safe. Unfortunately, where we've got to go the chains will be a worse impediment than ever. The file! Have we forgotten it?"

"No," answered Kearney, drawing it from under his cloak and holding it up.

"Thoughtful of you! In the haste I had, and we should have been helpless without it, or at all events awkwardly fixed. If we only had time to use it now. But we haven't—not so much as a minute to spare. Besides the lancers from Chapultepec, there's a cavalry troop of some kind—hussars I take it—coming on from the city. While we were cutting loose from the carriage I fancied I heard a bugle call in the direction cityward. Of course, with posts and bells signalling we may expect pur-

have been met somewhere. As it is if they give us another 10 minutes' grace I'll take you into a place where there's not much fear of our being followed by mounted men, anyhow."

Kearney heard this without comprehending. Some hiding place, he supposed, known to the Mexican. It could only mean that. But where? Looking ahead, he saw the mountains with their sides forest-clad, and there a fugitive might find concealment. But they were miles off and how were they to be reached by men afoot—to say nothing of the chains—with cavalry in hue and cry all around them? He put the question.

"Don't be impatient, my friend," said the Mexican in response, "you'll soon see the place I speak of, and that will be better than any description I could give. It's a labyrinth which would have delighted Daedalus himself. Look! You behold it now."

He pointed to a cliff of rock of no great elevation, gray, rugged and precipitous, trending right and left through the thicket far as they could see, and on its crest were growing yuccas, castus and stunted trees.

"The Pedregal!" he added, in a cheerful voice, "and glad am I to see it. I've to thank old Vulcan or Pluto for making such a place. It has saved my life once before and I trust will do the same now for all of us. But we must be quick about it. Hasten forward!"

Another second and they were all out of sight; though not a second too soon. For as they turned their backs upon the cliff they could hear behind, on the farther edge of the thicket through which they had passed, the signal calls of a cavalry bugle.

CHAPTER XXXV

The Report of the Parsuer.

With unconcealed impatience the dictator awaited the return of the pursuing party or some news of it. At last he in time received at first hand from the lips of its leader, who, after nightfall, had hastened back to the city and reported himself at the palace.

"You have taken them?"

"Not yet, sire; I regret to say they are still at large."

"Give me a full amount of what you've seen and done."

Which Santander did, telling how he had followed the fugitve party along the San Angel road, and there met a troop of Lancers from Chapultepec. Some field laborers had seen a carriage turn off towards Coyoacan, and taking that route he soon after came up with it. It was stopped on the roadside; empty, horse gone, the harness strewed over the ground hacked and cut; the coachman strapped to one of the wheels and gagged with the handle of his whip!

When the man was released he could tell nothing more than that the four had mounted his horses, a pair upon each, and galloped off across the country, on a sort of bridle path, as if making for the San Antonio road.

Turning in that direction, Santander soon discovered that they had entered into a thicket, which was quartered in every direction and he soon came to the conclusion it was no use searching for them there.

"Of course not," interrupted his listener. "I know the place well. And if you, Senor Colonel, were as well acquainted with that thicket and what lies alongside it, as one of those you were after, you'd have dropped the search sooner. You needn't tell me more; I can guess the finish; they got off into the Pedregal!"

"So it would seem, your excellency."

"Seem! So it is, for certain, and looking for them there would be so much lost time. It's a very labyrinth. But what did you afterwards?"

"There is not much more to tell sire! for little more could we do. The darkness came on, as we discovered they had taken to the rocks. I've taken every precaution, however, to prevent their getting out of the Pedregal."

"What precautions?"

"By completely enfilading it, sire. I sent the Lancers round by San Geromino and Contreras; the Hussars to go in the opposite direction by San Augustin. They have order to drop a picket at every path that leads from it, till they meet on the other side."

To be continued.

OH HOW I ITCHED

What long nerve-racking days of constant torture — what sleepless nights of terrible agony—itch—itch—itch, constant itch, until it seemed that I must tear off my very skin—then—

Instant relief—my skin cooled, soothed and healed! The very first drops of D.D.D. stopped that awful itch instantly, yea the very moment D. D. D. touched my skin the torture ceased.

D.D.D. has been known for years as the only absolutely, reliable Eczema cure. Just a mild, soothing, pleasant wash made of Oil of Wintergreen, Thymol and other ingredients, but the instant relief D.D.D. gives to all kinds of skin troubles seems like a miracle, and when used with D.D.D. Soap keeps the skin in perfect condition.

If you have any kind of skin trouble—Eczema, Psoriasis, Salt Rheum, no matter what it is—yes, even pimples, investigate the wonderful D.D.D. Prescription. We know what D.D.D. has done—we vouch for it, D.D.D. never fails to do exactly as is claimed.

The D.D.D. Laboratories, Dept. P. W. 49 Colborne street, Toronto, will gladly send you a trial bottle if you write them, or call at our store and get a bottle. It will relieve all skin troubles at once.

McDermid sud Jury and E. L. Payne, Peterborough.

SAVED FROM AN OPERATION

By Lydia E. Pinkham's Vegetable Compound

Peoria, Ill.—"I wish to let every one know what Lydia E. Pinkham's remedies have done for me. For two years I suffered. The doctors said I had tumors, and the only remedy was the surgeon's knife. My mother bought me Lydia E. Pinkham's Vegetable Compound, and today I am a healthy woman. For months I suffered from inflammation, and your Sanative Wash relieved me. Your Liver Pills have no equal as a cathartic. Any one wishing proof of what your medicines have done for me can get it from any druggist or by writing to me. You can use my testimonial in any way you wish, and I will be glad to answer letters."—Mrs. CHRISTINA REED, 106 Mound St., Peoria, Ill.

Another Operation Avoided.

New Orleans, La.—"For years I suffered from severe female troubles. Finally I was confined to my bed and the doctor said an operation was necessary. I gave Lydia E. Pinkham's Vegetable Compound a trial first, and was saved from an operation."—Mrs. LILY PEYROUX, 1111 Kerlerec St., New Orleans, La.

The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound is a remarkable remedy for those distressing feminine ills from which so many women suffer.

TELEGRAPHIC BRIEFS.

Capt. Asa Ribble, mayor of Dresden, died suddenly yesterday.

The corner-stone of the new St. Andrew's Church was laid at Stratford.

Mark Egan of Walkerton was fatally wounded while shooting rabbits yesterday.

Hon. R. L. Borden and Mrs. Borden have returned to Ottawa from Atlantic City.

Samuel Moore, an aged farmer of Cooksville, was killed while walking on the railway.

R. T. Shillington, M.P.P., was nominated for Temiskaming by the Conservative convention at Cobalt.

J. Sidney Roe, Ottawa correspondent of The Montreal Gazette, has been appointed secretary to the Minister of Customs, Hon. J. D. Reid.

Conductor Melanson was killed in a collison on the Intercolonial Railway at Sackville, N.B., and a large amount of rolling stock was destroyed.

Allen Gard, who was relieved last week as U. S. consul at Ceiba, Honduras, has committed suicide by shooting himself through the head.

The C.P.R. steamer Lake Champlain, which had lain stranded in the Montreal channel for three days, was pulled off into deep water Saturday by the united efforts of ten tugs.

It is now estimated in Italian circles that the Turkish and Arabian losses in the battle of Thursday last at Tripoli reached 2,000 killed and 4,000 wounded. The enemy numbered 12,000.

"I am glad for the opportunity to have my name changed," so said Miss Katherine Ottorordemgentsceenfelde, 23 years old, as she was handed her marriage license at Terre Haute, Ind., yesterday.

Kingston temperance people have sent a petition abroad, and have already received over eight hundred signatures asking that the City Council put the question of license reduction to a vote of the people.

Rev. Brother Probatus, Canadian procurator-general of the Order of Christian Brothers, died in Montreal yesterday at the age of 61. Brother Probatus, known in his business capacity as Wilfrid Madore, was widely liked throughout Canada.

Struck By Train, May Die.

Toronto, Oct. 31.—M. Shea, 1,269 West King street, 55 years of age, was picked up about twenty yards east of the Brock avenue crossing beside the C.P.R. tracks at 7.20 last night. He was unconscious and there was a severe fracture at the back of the skull and a deep gash in his hand. He was attended by *Dr.* Gillan, 1,435 West King street, and removed to Grace Hospital in a private ambulance. He is unlikely to recover.

He appears to have been struck by a train while walking on the tracks.

New Allan Liners.

Montreal, Oct. 31.—The Allan Line yesterday placed orders for two new vessels, which will be placed on the Montreal-Liverpool route.

The vessels will be 570 feet in length, will have a tonnage of 15,000 and will be able to maintain a speed of 18 knots.

Beardmore & Co. received the contract for one vessel, and the Fairfield Shipbuilding & Engineering Co. were successful tenderers for the other. The expenditure is $5,000,000.

Vaniman's Flight Postponed.

Atlantic City, Oct. 31.—Melvin Vaniman ordered his huge dirigible balloon, the Akron, taken from its hangar at Inlet Park yesterday, but was unable to make his expected trial flight because of engine trouble. Workmen were busy all afternoon trying to adjust the difficulty. It was almost nightfall when Vaniman finally announced that the flight would have to be postponed.

Lincoln Liberals.

Niagara Falls, Ont., Oct. 31.—Dr. [illegible] T. Kellam of this city yesterday announced that he would be a candidate for the Liberal nomination for

MY LADY'S COLUMN.

SEASONABLE AND SUITABLE

One of the pretty effects recently introduced, suitable for a woman of moderate proportions, can be of various descriptions of material according to taste and purse, with neck and sleeve trimmings to match.

DAINTY HOME-MADE SASHES

Sashes play such an important part in this summer's fashions that every woman who has leisure should make a supply of them. They give a graceful finish to a plain bodice, and are indispensable for outlining the high waistline of the Empire robe, and generally add pretty and coquettish details to the toilette.

On a soft lingerie gown, particularly if worn by a young girl, they bestow a dainty and becoming touch. For afternoon and evening gowns a sash end with deep fringe gives an excellent appearance, and soutache braid can be used with great success in helping to make these dainty sashes and girdles.

For dressy occasions, for instance, a girdle and sash ends of pale blue satin ribbon is a great requisition. The ends of the sash, for which two yards of wide ribbon are necessary, should be elaborately embroidered either with gold embroidery silk, quite an easy matter when a transfer pattern is used, and finished with pale blue silk knotted fringe.

The latter is cut in seven places, twelve inches long. Each piece must be folded and gathered in the centre on to a heavy piping cord; the cord is then pulled tightly through the gathered ribbon, and thus forms one loop of the rosette, one inch wide, which, when finished, makes a double frill of the ribbon.

PUFFS, SOFT, IRREGULAR

When the hair is elaborately dressed it may be puffed. These however are no longer stiff and set in regular rotation. Rather are puffs soft, irregular as to form, with here and there an end escaping as a ringlet.

Sweetmeat Pudding.

Line your pie-dish with puff paste, and screen it with minced orange, lemon, and citron peel (one ounce of each). Now beat well four yolks and two whites of eggs, with six ounces of sugar, and a quarter of a pound of butter. Mix and beat well all together, then lightly sift in two table-spoonfuls of dry flour. Set the dish into a hot oven until the paste is just set, then pour into it the mixture. If the eggs are beaten properly it will resemble a thick cream. The pudding must be watched while cooking, so that it will not burn.

In the heart of a woman there are few chambers and still fewer doors.

TO CURE A COLD IN ONE DAY

[illegible]

A Judgment of Solomon

An English Judge has set up a new legal precedent, and one which the peaceful, law-abiding public is not likely to desire to see generally acted upon. A man was brought before his Worship charged with being on premises with felonious intent. The circumstances were that a young lady, on retiring for the night to her bedroom, happened in a quite accidental manner to discover that there was a man lying concealed under her bed. She rushed out for help, and the man was arrested and brought before the judge. It was alleged that he had got into the house through a window, and had found his way upstairs unobserved. His excuse was that, under the influence of drink, he had mistaken the house. To most minds the excuse would appear to be a particularly thin one, but the court so far accepted it as to dismiss the case, holding that there was no evidence of felonious intent. People do not enter their own houses through the window and conceal themselves under beds as a rule, but one has heard of it being done before for unlawful purposes. In future Bill Sikes will have a legal precedent to quote in his favour whenever he is found on other people's premises, and the decision is one which will doubtless be welcomed by the predatory fraternity.

CHURCH HYMNS, THEIR ORIGIN

H. R. H. Kenner Delivered Interesting Address at Knox Church

A large congregation heard Mr. H. R. H. Kenner, principal of the local Collegiate Institute, when he delivered his address on "The Great Hymns of the Church" in Knox church Sunday night. Rev. H. J. Keith, who has been seriously ill for the past few days, was able to be present, but still unable to take much active part in the service, and he was assisted by Mitchell as well as Mr. Kenner.

Mr. Kenner's address was very appropriate at this season of song and Thanksgiving. He prepared it four years ago on the occasion of the 200th anniversary of the birth of Charles Wesley.

"Among poetic compositions the hymn occupies a unique position," said the speaker. "The function of a hymn is to express vivid feeling, and some people say one cannot think and sing, but can only feel and sing."

Owing to lack of time, Mr. Kenner touched briefly upon the origin of several well known hymns and characteristics of the most successful writers.

Isaac Watts, the father of English hymnists, sent out from the arc of his genius, eight hundred white-winged eric messages, many of which are in use in the Presbyterian hymnal, was born in 1674, and died in 1748.

"Nearer My God, to Thee," by Mrs. Sarah L. Adams, a Unitarian, is one of the best known and best beloved hymns of modern times. It is not only in English, but has been translated into several other languages. It was based on that charming bible scene, Jacob's vision.

Around W. Cowper's hymn, "God Moves in a Mysterious Way," is wound a touching incident. In the dark of the cotton famine in the United States, when the factories were closed, the people turned away and everything looked black for the inhabitants, amid the silence one of the factory girls started to sing the fourth verse: "Judge not the Lord by feeble sense," etc., and it was gradually taken up by the others.

Among other hymns to which the speaker referred were Rock of Ages, which he termed the finest hymn in the English language; Jesus, Lover of My Soul, the noblest and tenderest of hymns, by Charles Wesley; Lead, Kindly Light, which was written on a Sabbath day, 1832, by J. H. Newman, before he entered the Church of Rome; Abide with Me, by Henry Francis Lyle, one of the most popular evening hymns, written near the end of the author's life; the morning hymn of Bishop King, one of the seven bishops who refused to sign the Bill of Indulgence for James II., the last verse of which is known the world over as the doxology, and From Greenland's Icy Mountains, etc., Reg. Heber's missionary hymn.

SOLDIER'S TEA AT S. A. TEMPLE

Bright Meetings were Thoroughly Enjoyed—Taffy Pull To-night

A rousing open air meeting was held by the Salvation Army at the corner of Hunter and George streets at 3.30 yesterday afternoon. The band in full strength was present and supplied some inspiring music. On their return to the temple the soldiers tea was held to which about 200 sat down, and a very sociable time passed. Another open-air meeting was held in the evening and an excellent program of music including singing, given by the band, and the songsters in the temple. Among the selections given was a trombone solo "One Sweetly Solemn Thought" by bandsman A. E. Sandford, which was much appreciated. A new feature was the first appearance of the band's male choir, which was heartily applauded in two numbers.

Tuesday evening at eight o'clock in the temple, the children's annual treat will be held. Mr. Elcome will give a lecture on "Birds of the Bible," which

SERVICES OF DEDICATION

At St. John's Church on Sunday—Dr. Patterson-Smyth Preached

Enthusiastic and largely attended services marked the dedication festival at St. John's church on Sunday and the proceedings during the day were distinguished by unmistakable evidences of devotion to the church, and sincere interest in it's growth and prosperity.

Sunday was the day nearest to All Saints' Day when the old church was re-opened after restoration in 1884. It was built in 1834-35. St. John's is the oldest religious pile in the city and by its position and beauty is an object of general attraction and interest.

The morning and evening prayer was featured and made intensely enjoyable by splendid music supplied by the choir, which had been practicing faithfully for the event. The pulpit was ably filled by Dr. Paterson Smyth a distinguished old land clergyman and author, lecturer, and minister of no limited intellectual ability. His sermons were very practical and lucid especially his evening theme, when he discoursed in detail on the parable of the talents. After prefacing his sermon with a few general remarks Dr. Smyth commenced by inquiring God's object in giving us our talents. 'God has called us into the world, he said, "and into the Church, that we might accomplish something. He has endowed us with talents and some day he would confront us with the question, "what have ye done with the talents I gave thee?"

There are many practical uses which afford scope for our talents even though they be limited to one. Help the man who is beside you, who is drifting away. Man should be helped by his fellowman, that is the meaning of God.

"Are we doing anything to help another soul nearer to God. How many of those in the parish are standing by their rector, and how many prominent men are doing their part towards helping the life of St. John's church. Are people exercising philanthropy towards some one else. Are they using their one talent. Many people will say that God has given us our talents very unequally. That is very true, and no two men are exactly alike, in their endowments. It is easier for one man to keep from evil than it is for another."

Dr. Smyth strove to point out the efforts that should be put forth to cause us to develop to the utmost whatever talents that we may possess.

The music throughout the day showed evidence of hard practice, and the beautiful rendering of the strictly liturgical portions of the services came in for hearty words of appreciation from visitors and parishoners alike, the careful phrasing of psalm, canticle and hymn with purity of intonation, produce an effort, that, to use the words of Dr. Paterson Smyth "is inspiring." In addressing the choristers, assembled in the vestry after evensong, at the late hour of 9p.m. Rev. Dr. Smyth warmly congratulated the singers for their faithful work "It is a long time since I attended such an inspiring service," said Dr. Smyth, and promptly walked into the church to say much the same to Mr. R. J. Devey, at the organ. The music after the sermon at night, fell into line with the "National Thanksgiving Day," and Mr. H. W. Morphet was never in better voice than in Kipling's "Recessional" which was followed by the chorus of "O Canada" sung by choir and congregation. Sullivan's setting to "O King of Kings," sung as a recessional, concluded a very happy day, the whole congregation remaining kneeling to catch the beautiful effect of the final amen in the vestry tuned to the softest combination on the organ. The concluding voluntary was "Cujus Animam" by Rossini.

HEARD THEIR FIRST RECTOR

Rev. W.L. Armitage at All Saint's Preached Splendid Messages

Large congregations, both morning and evening, were present at All Saints' church on Sunday, when Rev. W. L. Armitage, the first rector of the church, but now of Picton, occupied the pulpit at both services. The reverend gentleman preached strong, pointed and thoughtful messages, and his abilities to impress his hearers appear to develop more and more with the passage of time.

His morning scriptural presentation was mainly confined to an exposition of the ignoble qualities displayed by the chief priests in their treatment of the Saviour, the chief of which were slander, avarice, envy and the act of Pilate in taking the line of the least resistance by washing his hands of all responsibility concerning the Saviour. He then compared the attitude of the people of the present day towards Jesus Christ, speaking separately on each of the above qualities.

"We are often willing to sacrifice Christ," said the rector, "that we may be able to follow the line of the least resistance."

Speaking of envy first, he described the degradation to which the temple had been brought by the chief priests, and the money lenders, and merchants at the time when the peasant of Nazareth came forth and purified it. Straightway the priests began to be jealous of Him; to be envious of Him. And so it was in everyday life, when anything new comes up there is always an opposition. Even church work is sometimes done in an unchristian way and Christian co-operation is oftentimes lacking. The only safe plan is to envy the One who envieth not.

Proceeding, the speaker dealt with the evidences of avarice displayed by the priests and then of their slanderous statements about Him, who was crucified. Incensed by the cries of the mob, the Saviour was taken captive. In everyday life people are prone to do things when excited which they would never do in calmer moments.

"Is there anything you have said in the way of gossip," asked the speaker, 'which is not absolutely true, and which might prove harmful to other people?"

Lastly, the speaker referred to the unworthy conduct of Pilate, who wished to content the people who were crying for Jesus death. Pilate followed the line of the least resistance; he wanted to satisfy the people. "Just so," continued the reverend speaker, "there are some people who prefer to take an underground route rather than walk in God's sunshine."

"We find it in everyday life. A young man falls into bad companionship and is asked to drink perhaps, and although he does not indulge, he yields just to content the other young men." In all lines of life if the person comes out good and strong against wrong he is following in the footsteps of Jesus Christ. About certain amusements society says you cannot do these things because you are a Christian, and yet if you don't do them society will drop you," "but depend upon it," said the speaker, "it will not drop very far."

"Strive to live," he concluded, "so that when the day of reckoning comes you will hear the Master's voice say, "Well done, good and faithful servant, enter thou into the Kingdom of Heaven."

LETTERS TO THE EDITOR

The Review does not hold itself responsible for opinions expressed by its correspondents

To the Editor of the Review.

Sir,—Permit me to call your readers attention to the following editorial from the Montreal Star (Liberal):

"Mr. Bennett, M.P., of Calgary, is to move, and Mr. Savigny, M.P., is to second the address in reply to the speech from the throne, when Parliament meets. Mr. Bennett is a Conservative and Mr. Savigny a Nationalist.

There will be unconcealed satisfaction in Conservative circles over the way in which Mr. Borden is forcing the Nationalists to take second place. In this case a Conservative has precedence. It was the same with the Speakership. Dr. Sproule got that post, and the Nationalist, Mr. Blondin, had to be content to trail in as deputy. Mr. Borden's resolute attitude must be considered a concession to Toronto opinion, where the Conservative papers have been so resentful of French domination.

This is the correct view of the matter, and coming from such a source, ought to quiet trouble-makers like the Examiner, etc.

Yours,

CONSERVATIVE.

MILK VENDORS HELD MEETING

The city milkmen held a largely attended a meeting on Friday and made the final decision to raise the price of milk from 6 cents to 7 cents per quart on Wednesday, November 1st. Customers who buy the pint at the 7 cent rate. Others will pay 4 cents.

The milkmen say they are forced to take this step because of the cost of feed for their cows which is very high this season. About twelve milkmen are retailers and the producers have raised their price.

The milk by-law was referred to at the meeting but the milkmen are of the opinion that it will not be put in force.

CORNER STONE LAID FOR THE NEW PROTESTANT HOME

History of the Organization From 1862 to 1911—Mrs. Wallace, First President

Although the wind blew in no gentle manner on Saturday afternoon, it did not deter, in the least, the ceremony of the laying of the corner stone of the new Protestant Home building that is now on the high road to completion. A goodly number of spectators, the majority of whom were composed of the fair sex, gathered at the new building about three o'clock and the proceedings commenced almost immediately.

Canon Davidson led in the religious formalities in use for such occasions Mr. J. H. Burnham, M.P. was present and gave a sketch of the history of the institution formerly known as the Peterborough Relief.

FROM 1862 TO 1911

This Association, which began its work as the Peterborough Relief Society, was organized on Nov. 25th, 1862 The first meeting was held in Col. Haultain's office, with Mrs. Wallace as President, and Mrs. Haultain as Secretary.

On December 2nd, 1863, by permission of the Mayor, a meeting was in the Town Hall, when Mrs. James Hall, was elected President.

In May, 1865, Mr. R. A. Morrow, generously gave the use of one of his houses on Sherbrooke street to the society, and on that account the name was changed to the Peterborough Protestant Home.

In 1870, the late Sheriff, father of the present Sheriff and the City Solicitor, purchased the building on Stewart street, and presented it to the Board of the Home. In July, 1870 the inmates moved into this building and it has been occupied since that date.

The original intention was only to care for children and destitute old women, but as cases of old men who were in need, came before the Board from time to time, it was decided to admit them.

There being no endowment, the Home was entirely dependent for support on the generosity of its friends. About the year 1866, the late Mr. Carnegie, then M.P.P. for this riding used his influence with the Government and secured a grant of 7 cents a head per diem, supplemented by 2 cts. for adults and 4 cents for children over ten years of age.

In 1890, Mrs. Nicholls, an old and faithful friend of the Home passed away, leaving a handsome endowment Fund, of Twenty Thousand dollars, the interest of which has enabled the Board to keep free from debt, and which is to be kept intact in future for the maintenance of the Home.

Miss Roger, the late President, was connected with the work from its earliest days, and no other member of the Board, has attended the meetings as regularly or for so long a time.

In January, 1911, a meeting of representative men of the city was held to consider the matter of a new home which had become absolutely necessary. It was finally decided that a Home should be built to look after the Protestant poor of the city, the Roman Catholic poor being already looked after by the House of Providence. With this end in view, the city agreed to give a site and the sum of ten thousand dollars, if the Association would erect a building costing not less than twenty thousand dollars Also that the Association should become incorporated, and should add to the Board, representatives from the churches of the city.

The letters patent, granting this incorporation, were received on May 3rd 1911, and the agreement with the city was signed on August 29th, 1911.

The first general meeting of the Incorporated Association was held in the Board room on the hold Home on May 9th, 1911 when the following officers were elected—

Directors, for three years — Mrs. Birdsall, Mrs. J. B. McWilliams, Mr. J. A. Aylmer.

For Two Years—Mrs. W. M. Roger, Miss Nicholls, Mrs. R. S. Davidson.

For One Year.—Mrs. Hazlitt, Mrs. Robert Neill, Miss Mary Brown.

The officers elected were—

President—Mrs. W. M. Roger.
1st Vice-President—Miss Nicholls.
2nd. Vice-President—Mrs. Birdsall.
Treasurer—Miss Sara G. Robinson.
Secretary—Miss Helen Denison.

The plans of this building were prepared by Mr. Sandford Smith, of the firm of Bond & Smith, architects, of Toronto, and the work has been carried on under his supervision, with Mr. J. G. Graham, as contractor.

Dated this 27th day of October, A.D. 1911.

HELEN DENISON,
Sec'y P.P.H.

Mrs. T. G. Hazlitt, who has been always prominently identified with the philanthropic work of the institution then came forward and with a silver trowel, went through the ceremony of the corner stone laying. The trowel bore the following inscription "Presented to Mrs. T. G. Hazlitt, on the occasion of the laying of the corner stone of the Peterborough Protestant Home, Oct. 28, 1911."

MALE QUARTET GAVE PROGRAM

At Lakefield Methodist Church Fowl Supper on Thanksgiving Day

The male quartet of Charlotte street church journeyed to Lakefield last night, taking with them a number of other artists and friends, and supplied a first-class program at a fowl supper given under the auspices of the Ladies' Aid of the Methodist church at Lakefield. The visitors say they were treated real white and have nothing but praise to bestow on those in charge of the affair. The treatment was reciprocated by the visitors by the splendid musical program they provided to the big crowd who attended the concert afterwards.

The following was the program:

Selection—Lakefield choir.
Quartet—Messrs. Lee, Fleming, Downey and Skitch.
Recitation—J. Johns.
Solo—Mr. Fred Skitch.
Quartet—Selection.
Address—Rev. Mr. Ireland
Duet—Messrs. Fleming and Downey.
Solo—Mrs. Ireland.
Quartet number.
Solo—Harold Lee.
Solo—Harold Lee.
Recitation—J. Johns.

The proceeds amounted to $106.00, and the affair was an ample success in every respect.

Rev. Mr. Ireland acted as chairman and local clergy who were present gave bright, pithy address.

SPLENDID MUSIC AT CHARLOTTE ST.

The musical portion of the worship at Charlotte street Methodist church on Sunday was attended with a more than usual degree of pleasure. An elaborate program was supplied by the choir, comprised of solos, quartets selections and anthems.

A baritone number by Mr. Fred. Skitch at the morning service was exceptionally well interpreted, Ray's expressive composition "The Garden of Prayer, being most adaptable to Mr. Skitch's powerful and resonant voice.

The quartet composed of Messrs. Lee, Fleming, Downey and Skitch, work splendidly together, their voices blending with noticeable effect, and their numbers at both morning and evening services were exceedingly full of pleasure. The anthems were also rendered with precision and correct delineation.

LOCAL NEWS ITEMS

The session of the Matriculation class for the study physics and algebra will be held in the Collegiate to-night. The books for this class are now in the office at the Y. M.C.A. and can be secured by the students.

The Ladies' Aid of St. Andrew's church had an attendance of about 200 at their Thanksgiving dinner last night in the lecture hall of the church. About $50 was netted.

T. A. S. Members

Members of the athletic section of the T.A.S. are asked to be present at the rooms to-night at eight o'clock, when matters of importance will be discussed. After a general meeting Y. M.C.A. members will give an exhibition of gymnasium work on the gym. floor. Basketball will also be played.

There is an impression current that when a man attempts to reform, his old associates are anxious to pull him back. This is not the case; they en-

PRETTY WEDDING ON THE HOLIDAY

At Knox Church — Miss Mary Denoon and Robert H. Dale Married

At 10.30 o'clock yesterday morning Knox Presbyterian church was the scene of a charming wedding when Miss Mary Alice Denoon, daughter of Mrs. Elizabeth Denoon, and Mr. Robert H. Dale were united in the holy bonds of matrimony. Rev. H. J. Keith performed the wedding ceremony before a large number of relatives and friends.

The bride, who was unattended, entered the church, which was beautifully decorated for the occasion on the arm of her brother, Mr. Kenneth Denoon, to the strains of Mendelssohn's wedding march played by Mr. H. Lewis. She carried a bouquet of white chrysanthemums and was attired in her travelling suit of navy blue serge.

The bride was the recipient of a large number of beautiful and costly presents, testifying to her popularity amongst her many friends.

Mr. and Mrs. Dale left on the 11.35 C.P.R. train for Montreal on their honeymoon.

WEDDING BELLS

ARMSTRONG—ALLISON.

At four o'clock on Saturday afternoon at St. Paul's church by the Rev. Mr. Pogue, the marriage of Florence Eltrude, second daughter of Mr. John Massey Armstrong, of Peterborough, to Mr. Philip Allison, formerly of Orange, New Jersey. The bride was given away by her uncle, Mr. J. D. Armstrong. She wore a traveling costume of brown broadcloth and plumed hat and carried a bouquet of white roses. Mr. and Mrs. Allison will reside in Peterborough.

FIREMAN McBRIDE QUIT THIS MORNING

Fireman Archie McBride left the Fire Hall this morning in accordance with instructions the Chief received from the Fire, Water and Light committee.

In Mr. McBride, the city is losing one of its most able and competent fire fighters.

HALLOWE'EN

Officers Will Keep Tab on Youngsters To-night

Merry youth may have all the fun they like to-night in celebrating Hallowe'en, but they must not get gay. Chief of Police Thompson will have a special force of constables on duty to patrol the city and suburbs, who will certainly prevent any unruly or destructive capers taking place.

DIED

GRANT—AT Reaaduff, Sask., on Oct. 24th, 1911, after a lingering illness, borne with great patience, Ernest John, eldest child of Wm. Henry and Lillian Grant, aged 16

WHO'S COMING AND GOING

Miss Beatrice Blewett is home from Toronto.

Mr. George Graham, of Toronto, is in the city.

Miss Bertha Lytle spent the holiday in Toronto.

Mr. James Rahill spent the holiday in Toronto.

Miss Kate Henderson spent the holiday in Oshawa with friends.

Mr. Chris. Hughes was home from London for the holiday.

Mr. Jack Evans was home from Toronto for Thanksgiving day.

Messrs. Colin and Harold Lees were home from Queen's for the holiday.

Mr. William Hopkins, of Toronto, was in the city yesterday.

Mr. Robert Quinlan, of Havelock, spent the holiday in Peterborough.

Mr. Harold Matthews returned to R.C., Kingston, to-day

Miss Vida Foote, of Toronto, spent Thanksgiving at her home here.

Mr. Stewart Laing is home from Queen's University for the holiday.

Mr. Arthur Howson is home from Queen's for Thanksgiving.

Mr Herb McMillan was in the city yesterday renewing acquaintances.

Mr. Bert Boomer, of Ottawa, is spending a few days in the city.

Trainmaster Dan McMillan, of Lindsay, was in the city yesterday.

Mr. Harold Matthews is home from R.M.C. at Kingston for the holiday

Misses Phyllis and Helen Denne are home for the Thanksgiving vacation.

Miss Una Lytle, of Prescott, is the guest of her cousin, Miss Bessie Logan.

Miss Annie Bryans, after visiting friends here, returned to Havelock today.

Miss Edna Davis of Clarina spent the week end with her parents, Murray street.

Mrs. A. Rutherford is spending a few days in Norwood with Dr. and Mrs. Ford.

Miss Florence Silk has returned to Toronto after spending the past few days at her home here.

Mr Leo Derocher, who has been attending St. Michael's College, Toronto, has been visiting at his home.

Mr. Cecil Armstrong, of the Welland branch of the Bank of Nova Scotia, spent the holiday in the city.

Mr Ernest Brownscombe, of the Bank of Ottawa, Morrisburg spent the holiday with his parents.

Mr. and Mrs. Alfred Goods and Miss Helen Hawley were the guests of Dr. and Mrs. Wood for the holiday.

Mrs. R. A. Dutton and Miss Beatrice Dutton, of Toronto, are the guests of Mrs. H. Huffman, King street.

Miss Margaret Eastwood and Miss Jean Neill, who are attending Glen Manor, Toronto, are home for the holiday.

Mr. Herbert Stock, who was home for the holiday, returned to McMaster University, this morning.

Messrs. Sam Saunders and Charlie Whitley of Toronto were the guests of the former's parents over the holiday.

Miss Matilda Dolby of Lindsay was the guest of Miss Cloudsley Anderson Bethune Street, on the holiday.

Thanksgiving Day with his parents, Brock street.

Miss Sadie Perry, of Toronto, was the guest of her father, Mr. J. A. Perry, Maitland avenue, over the holiday.

Miss Helen Lynn, 290 Grace street, Toronto, returned home this morning, after visiting her cousin, Miss Maude Hawley, 471 Gilmour street

Mr. and Mrs. J. Verner Doe, of Toronto, spent the holiday, the guest of their aunt and uncle, Mr. and Mrs. Jones, Pearl Avenue.

Mrs. (Rev.) James Rollins will receive on the first Thursday of the month, instead of on Friday as formerly.

Mr S. Way Kent, of Paris, who has been the guest of his sister, Mrs. R. J. Kidd, for the holiday, returned to his home this morning.

Mr. H.V.M. McCartney of the Royal Bank staff returned this morning from Bethany, where he was the guest of his parents for the holiday.

Mr. Will Bonus, who has been attending S.P.S. at Toronto, returned to Toronto this morning after having spent a few days at his home, Pearl Avenue.

Mrs. R. Cottrell, 500 Charlotte street, will receive on Thursday afternoon and afterwards on the first Tuesday of each month. Mrs. Cottrell's cousin, Mrs. Reiz, of Milwaukee, will receive with her.

Before leaving Canada Mr. Hamar Greenwood, Member of Parliament, British House of Commons, wrote to the Grand Trunk Railway System in connection with his trip over their lines in Canada, and in which he says "We especially enjoyed the journey from Edmonton to Winnipeg which we made on your system in the best equipped train I ever saw in my life. You have fixed a very high standard if this train is the standard up to which you are working."

Clearing of right-of-way in the uncompleted gap of the Grand Trunk Pacific Railway from Tete Jaune Cache westward to Aldemere in Bulkley Valley, was started a few weeks ago by the contractors, Messrs. Foley Welch & Stewart. Operations thus far are restricted to the route along the south fork of the Fraser between the Cache and Fort George.

Y.M.C.A. NOTES

The Matriculation Class meets to-night, at the Collegiate Institute at 8 o'clock.

Senior Teachers' corps, meet to-morrow at 6.15 for floor work and tea.

Business Men's class to-night at 5.45. Business Boys at 7.00, Intermediate class, 8.10.

The Warsaw Young Men's club had a good turnout of members on Saturday night, when Mr. H. B. Cowan, J. Sharpe and physical director, Thompson, put the men and boys through the different lines of physical work.

Boat Arrivals

"Montfort" from London, and Antwerp reported sixty-one miles, east of Belle Isle, Monday 9 a.m., due at Quebec, 3 a.m., Tuesday.

Night Classes
— AT THE —
Peterboro' Business College
(Founded 1885.)

Many ambitious young people are taking advantage of the splendid opportunity to improve their education by attending the night classes at the Peterborough Business College. These classes are conducted on Monday, Wednesday and Friday nights, and students receive instruction in any one or all the subject of the Commercial or Stenographic Course. By this method, young people may learn while they earn, and thereby increase their salaries and better their positions without losing time from their work. You may enter any time, but it will be to your advantage to enter now. The cost is small, while the benefit to be derived therein is inestimable.

The Business world is full of opportunities, but the best positions are open only to those who are competent to fill them. By attending Night School at the Peterboro' Business College, you may become competent.

THE CORRECTION OF DEFECTIVE EYESIGHT

It is very important that you have implicit faith in the ability of the Specialist who fits you with Glasses, since there are several important features which must be left solely to his ability and honor.

You cannot possibly appreciate the quality of lenses furnished, and yet on this feature depends the degree of satisfaction to be obtained from the use of glasses. In our Optical work we frequently find people wearing inferior and imperfect lenses, for which they have paid a full price. We will not economize in this department of our business, for we always insist on furnishing the best material at prices that are reasonable.

We believe you will be satisfied with the prices asked in our Optical Department, and know that you will be pleased with the results obtained.

SPRIGS OF SPORT

WEST END FOURTEEN WINS FROM MULOCK CUP CHAMPS

Locals Played Clever Game, With Final Score at 22-5

Before a small crowd at Riverside Park yesterday afternoon the West End team trimmed the Mulock Club champions by a 22—5. The game was a fairly good exhibition of rugby and the score just about indicates the respective merits of the two teams. A couple of former Collegiate players in Hall, Wallis and Garnet Rankin were conspicuous on the visitors' line, the latter making a mark at quarter by his fine tackling though he was not very accurate on the passes. Rankin intercepted an attempt at an on-side kick on Peterborough's twenty-five yard line and went over for University's only point. The visiting back division was not in it with the locals in the art of punting though they ran well. Two of the local touches were due to Toronto fumbles behind the line. DeGruchy, cousin of his namesake of T.A.A.C. fame, was responsible for the first when Denison and Gilbert were crowding him and the latter nailed the loose ball.

The stellar kicking of Minorgan and Kirn and their ability to catch and run and great following up by the rest of the team was responsible for the local victory. Quinlan of baseball fame, was prevailed upon to play once more and he pulled off the feature play of the day when he made a perfect running catch and got away for a sixty yard gain through a broken field, going over the line for a touch. Hill made some great tackles and followed up well, duplicating Gilbert's stunt when he followed down after Minorgan's kick and getting the ball on a Toronto fumble near University line, he went over for a touch. Ecclestone, Turner, Davidson and Hogan bucked to advantage. Gilbert, Langley and Denison blocked many attempts at kicking and got in on several passes.

Minorgan kicked to the dead-line for the only point in the initial quarter. A touch each for Gilbert and Hill and one convert by Kirn made eleven counters for the locals in the second spasm. Quinlan's sixty yard run for five points and Rankin's touch settled the scoring in the third quarter. Ecclestone bucked for the last counters near the end of the game. When the whistle blew the score stood Peterborough 22, Toronto 5.

The line-ups were as follows:

Toronto.		Peterborough.
	Full back	
Rice		Kirn
	Halves	
Catto		Quinlan
Croshley		Minorgan
Degruchy		Eastwood
	Quarter	
Rankin		Denison (captain)
	Scrimmage	
Wallis		Webb
Campbell		Hill
Nelson		Ecclestone
	Inside wings	
Brown		Turner
Miller		Thompson
	Middle wings	
Carrow		Davidson
Acton		Hogan
	Outside wings	
Kay		Langley
Fuller		Gilbert

Officials—Leo Durocher and H. Hall.

T.C.S. RUGBYISTS BEAT LOCAL LADS

Collegians Were Too Much for the Youngsters — Score Was 6-0

The T.C.S. thirds came to the city from Port Hope on Saturday last to play fourteen local youngsters. When full time was called the score stood T.C.S., 6; Peterborough, 0.

As there was a high wind the visitors played a kicking game, and all their points were secured on kicks to the dead-line. The locals, composed mostly of Collegiate boys, were not strong in the kicking department, and failed to annex a point.

The Port Hopers returned to the school on the evening train.

WEST END LOST TO THE OLD BOYS

At Riverside Park Score 13-11 in Favor of Old Timers

Manager Oldham's rugbyists were anything but a light lunch for "Gene" Hurtubise's old boys when the met on Riverside Park on Saturday afternoon. The old boys had thirteen men on the gridiron while the West Ends could not muster more than the dozen. The final score stood, 13 to 11 in favor of the old timers. The strong wind and Kirn's great kicking abilities annexed four points in the first quarter, while the Old Boys could not get going. The Old Boys had the wind in the second *second and two fumbles of "Doc." McPherson's punts by the West Ends were gobbled up by Hurtubise and Quinlan for touches. One convert and two kicks to the dead line by the "Doc," were the last converts the Old Boys got. Kirn sent it over for two more points in the third and in the fourth Langley went over for a touch which was not converted. The game ended with the ball at West Ends twenty-five yard line.

It was a kicking game all the way through and the touches which the Old Boys got were secured by their ability to follow down fast. Captain Denison pulled off some good runs and the rest of the back division, Kirn Johnson and Eastwood were used to advantage, Kirn getting the most work on account of his punting abilities. Johnston intercepted several attempts.

"Doc" McPherson was the shining light among the Old Boys. He kicked well and was in on most of the plays, recovering loose balls with wonderful accuracy. The rest of the bunch tired pretty well near the end of the last quarter.

GOLF

The final match of the golf championship was not played Saturday, but may be played this week.

McRae Gets Life.

Cornwall, Oct. 31.—Farquhar McRae, reeve of Lancaster Township will, if the sentence of the court be carried out, end his days within prison walls. Mr. Justice Sutherland sentenced him to life imprisonment in expiation of the shooting of William Shaw, druggist of Carp.

The sixty-five-year-old prisoner goes into captivity because twelve of his fellow-countrymen believe that, laboring under the excitement of provocation, he shot to death the young Scotch chemist who was assisting his friend, Dr Magee, to recover his child. The jury returned a verdict of manslaughter after 1 3-4 hours consideration.

Before McRae had been led away to his cell his friends in the court room were planning a petition to Ottawa for clemency. It would be signed by every man in Glengarry, irrespective of religion or politics, said one of them. McRae will be removed to Kingston this week.

It is possible that a new trial will be applied for on the ground that the jury were allowed to read newspaper reports of the case, some of which are alleged to have been inflammatory. "They should never have seen them," said Mr. Pringle.

When a man hears a boy has been drowned, he fears it may be his boy, the same as he fears it may be his house when the fire bell rings.

"DENVER JACK" GEYER

Geyer, who is anxious to get a chance in top notch class, broke into the game when he won the amateur heavy-weight title at the Denver Athletic club tourney in 1909. He turned professional. He joined Jack Johnson's training camp, remaining with the colored fighter until he knocked out Jim Jeffries.

ATHLETICS IN HOT WEATHER

Daily Exercise Gives Increased Nervous Energy in all Kinds of Weather.

It is a great mistake to suppose that athletic games or other vigorous exercises are intolerable in the hot weather, just because it is hot. This is a notion entertained only by those who exert themselves as little as possible, and who suffer with the heat. Those who participate in active athletic pastimes know better, if they stop to think about it, but in most cases they are almost unconscious of the fact that it is so terribly, dreadfully hot.

Not only does one feel so much better and possess so much more nervous energy when taking a certain amount of daily exercise, either in summer or winter, but he may keep cooler in times of excessive heat by so doing. This is due partly to the directly cooling effect of the evaporation of perspiration, and partly to the fact that in his exercise he consumes a certain percentage of the heat energy of the body, or we might say, at least the surplus heat energy. This makes for comfort during the rest of the day. We know that such heat energy is consumed in vigorous exercise. Running always makes one very warm, yet Marathon runners, after covering some twenty miles, often experience such chilliness that they call for their sweaters to wear during the last few miles. The strain of Marathon running is not to be recommended for the average man, but certainly an hour or even a half hour of truly active and vigorous exercise each day will make one almost immune against suffering from hot weather. Naturally it will help to do this also by giving him increased functional energy and vital resistance against ill-health.

This is a pointed and practical suggestion. If you prefer, run one or two miles, or take your other exercise, whatever it is, the first thing in the morning, when it is still sufficiently cool to enable you to thoroughly enjoy it.

The other special advantage of hot weather athletics lies in the fact that when the muscles are thoroughly warm they are capable of much greater activity. They act more quickly and with a more powerful contraction, or in other words, they are then capable of expressing their full strength. Every one knows how little he is able to do when he feels cold, in which case his muscles are more or less stiff and incapable of their greatest contracting power. The athlete or the gymnast knows that under ordinary circumstances it is necessary for him first to go through some preliminary exercises to get "warmed up," before he can do his best in competition or accomplish his more difficult feats of strength. To attempt a hard lift or a sprint when the muscles are stiff with cold is actually dangerous, for one is liable to strain himself or seriously injure a tendon. In the very hot weather, however, one may go right into his games without the necessity of "warming up" preparations to get his muscles in condition. This is true in running, tennis, baseball, or any other pastime in which one desires the maximum of muscular efficiency, and he will therefore do his best and most keenly enjoy the sport. The best athletic records are usually made in hot weather. Boys can play baseball with more alertness and energy in hot weather, when they are not too lazy to try. Sportsmen know that the fastest horse racing records are made on hot days.

It is better to be wrecked through over-zeal than to rot from over caution.

People are tired holding the men

BAPTISED IN BLOOD

By Andre Roche

Copyright by Publishers' Press Ltd

Paolo Franzetti sat idle in his tent, his helmet and his sword beside him on a stool, and on a table before him a map and papers. Thin, sinewy, clean-shaven, it was only the few grey hairs among the black locks clustered round his brow that betrayed his age.

"A mercenary," he muttered. "She calls me that."

"A mercenary, bought by the largest purse, unheeding vows and oaths, breaking with old friends and old loves as easily as a common soldier."

Where he first came from none save himself knew. He had fought under Coleone for Venice, and had looked to succeed that general in command of the Republic's troops. The Council of Ten had passed over his claims, and he went by open daylight to Ferrara. There he had been the leader, general of all the forces, the close friend of the duke, the lover of the duchess.

Now he sat under Cremona's flag, a dukedom in prospect, a fortune in retrospect. And from Ferrara to Cremona he had gone over in this night; not for fear of what men should say, but for fear of a woman's tongue.

The morning was dull and grey, the bright tents with their fluttering pennons showed up clearly against the sky. The wide open space in front of the general's tent was full of soldiers, who surrounded two men upon horseback. They were strangers to all but Franzetti, and he knew them for captains in the suite of the Duke of Ferrara.

The two heralds approached, and the elder spoke:

"I came from Ferrara to deliver into the hands of Cremona's illustrious general, Paolo Franzetti, this packet and this message: 'This outcast brat I send to Franzetti, a gift worthy of his estate. For I have found no priest so honourless that he will baptise the foundling boy.'"

So saying he handed to Franzetti a bundle of swadling clothes, in the middle of which appeared the red face of a little baby.

His senior captains had clustered round Franzetti. He spoke a few words, gave a few orders, and the word passed quickly round from mouth to mouth.

"To San Luca! To San Luca!"

Silently and speedily four thousand of his force swung into the saddle and marshalled on either side of the great square in front of Franzetti's tent.

"Gentlemen," he said, coldly and politely, "you brought to me a child, unbaptised, and besought me to take charge of it. I will accept the charge on one condition: that you go with me to the baptism and stand sponsors for him. We have no water here, but over yonder by San Luca there is fire, and such a baptism were worthy of a no man's son."

San Luca's fortress was in sight, and to the right of Franzetti's little band were Ferrara's marauders, all but cut off from their camp.

The horsemen of Cremona broke into a shout, and on command from Franzetti spurred towards them, a compact, irresistible mass. They crashed through the wavering lines, cutting a lane of blood, and turning, ploughed their way back again.

"See, see, my son," cried Franzetti, holding the infant high above his head, "your cradle song, the shouts of dying men. Here I baptise thee No Man's Son, and call thee Giovanni to honour of my mare Joan."

"Ferara and the Duchess Joan."

"What does it mean? What does it mean?" cried the general.

"The duches fights with them. I have seen her, on a black horse."

"God and the Madonna defend her!" exclaimed Franzetti; and lest his prayer should not be heard, he himself set off in search of her.

The defence had fallen back under the very walls of San Luca. Around a postern gate a little group fought steadily on. As Franzetti dashed into the midst of the group they broke and fled, hotly pursued by twenty. By the gate one stayed, a woman, tall, fair-haired, imperious of mien.

"You ride hard, my lord duke," she said, with bitter emphasis on the title.

"Madonna, you do me too much honour," be returned. "I am but Paolo Franzetti, general of Cremona's forces."

"A mercenary, a traitor, and a recreant," she added. "Good sir, in your modesty you forget half your titles." She leaned against the wall as though fatigued.

"Pardon, madonna, you have omitted one," he said after a pause. "I am also your son's father."

She laughed aloud, a bitter, mocking laugh.

"So the ruse succeeded," she cried. "You were deceived. Your simple vanity made you an easy prey. That village brat, brought into the camp two days since. Oh, Franzetti! your vanity has led you into strange beliefs. You—my son's father!"

Franzetti came nearer to her.

"Ay, madonna," he replied. "And my son is the son of a daughter of France, for Louis the King is brother to Joan of Ferrara."

He drew her to him, and, holding her close, kissed her passionately.

"Paolo, Paolo! Why did you ever leave me?" she asked, and her voice was faint. Her head dropped and her bright hair glistened on his shoulder against the blood-stained mail.

"Why did you not come with me, Joan?" he answered. "The chance is given you again. Throw off the yoke of Ferrara, as I threw it off, and join me now."

"It is too late, Paolo," she replied. She spoke slowly and with difficulty. "When your horsemen strike it is hard, and this one struck from behind."

It was true. Her left shoulder had been pierced; the steel had gone through gown and corsage and flesh.

"Paolo," she cried, "be good to him — the little one. He was my son, and yours, the son of a daughter of France."

Her lips sought his, and they took their last farewell.

Young men frequently say, "When

HAVE YOU EVER

After retiring for the night, thought of your forgotten fire insurance policy, which had expired that day, and had not been renewed?

How quickly you'd spring to the telephone, call up the agent, and make matters right till morning in fear that fire might wipe out your accumulations.

Yet how often have you retired to woo the sleep of the just, with **no life insurance** and it never crossed your mind seriously that ere morn the heart might stop beating, and with it, the whole earning power of both brain and hand, yet your property **may never burn**, but your heart will surely cease to beat some time. It's strange, is it not?

Then why not insure your life at once?

The Sun Life of Canada issues all the modern forms of life assurance at the lowest rates, consistent with ample security, and are giving settlements that should satisfy the most exacting.

Call or phone to the Sun Life Office, 159, Hunter Street.

No More Cold Hands
PERFECTION SMOKELESS OIL HEATER

A woman often does not notice what a cold day it is so long as she is bustling around the house. But when she sits down to her sewing and mending, she soon feels chilly.

It is then she needs a Perfection Smokeless Oil Heater. Its quick, glowing heat warms up a room in next to no time.

That is the beauty of a Perfection Smokeless Oil Heater. It is always ready for use; you can carry it wherever you please; and you light it only when you want it.

The Perfection Oil Heater is smokeless and odorless—a patented automatic device insures that. It is reliable, safe and economical—burns nine hours on one filling. Handsome, too—drums finished either in blue enamel or plain steel, with nickel trimmings.

Dealers everywhere; or write for descriptive circular to any agency of

LIGHTING UP MAN'S INSIDE

Advance of Science is Such that Medical Men Can Now Light Up a Patient's Internals and Spy Out Trouble.

The interior of the human body is no longer dark to the physician's eye. Its most mysterious recesses may be lighted up so that he can see what ails it or what foreign objects are concealed there. This is done by the science called endoscopy.

The luminous sources are very powerful electric lamps, either fixed on the operator's forehead by means of a wide band or contained in the instrument itself.

The instruments of extraction consist of hooks, of pincers at various angles, and of electro-magnets for attracting foreign bodies of metal.

To-day endoscopy gives us an opportunity to see, not the shadow, but the thing itself: it enables us to ascertain the nature of this foreign body, whether it is free or encysted, whether the walls of the conduit are wounded.

A few years ago the physician was usually in doubt and often in despair. When certain means of doubtful value had been tried, such as emetics, holding the patients head downward, slapping his body, and administering thick pastes intended to carry the foreign body down into the stomach, the prudent physician ceased his efforts. Some more daring ones introduced at random instruments such as hooks or "umbrellas," and made vain and dangerous attempts that were more apt to be fatal to the patient than to bring up the foreign body.

Other surgeons, still more enterprising, proposed to reach the oesophagus or bronchial tubes by cutting through the chest — an elegant operation doubtless, but not of encouraging results, the mortality being one hundred per cent.

At present, thanks to endoscopy in the hands of a skilful operator, we have a rational, sure and safe method of treatment.

To Hold a Cigar

There is only one right way to hold a cigar, that is if the smoker has an especially easy chair in which he is liable to fall asleep while enjoying the fragrant weed. If one holds a cigar between the first and second fingers, the act of falling asleep will invariably cause the hold to become relaxed, and the cigar will drop from the fingers, to the imminent danger of the clothes or the carpet. That is how not to do it. But if the seductive roll be held between the second and third finger, the cigar would still be found safely grasped in the hand even if the sleeper did not wake up until the "morning after."

Big Enough to Work.

Artists do never look alike, any more than grocers or doctors do. Nevertheless, many persons are surprised at an artist who is not small, anaemic, delicate of feature, and decorated with a flowing necktie. Such a person lately visited the studio of a certain artist in one of our big cities.

The man in question wears a big red beard, and stands six feet and some inches high. His shoulders are broad, and his muscles hard from continued exercise. A woman entered his studio and asked for the artist.

"That's him, standing over there," the attendant said.

The woman looked over to where the artist stood, towering like an ancient viking, and gasped. "Why," she whispered, in surprise, "he's big enough to work, isn't he?"

Wrong Anyway

The violent-tempered manager was lecturing his clerk.

"Look here, sir," he thundered, "this won't do! What on earth do you mean by making such wretched figures? They're a perfect disgrace! Look at that 5, it's just like a 3!"

"I—er—I beg pardon, sir," replied the trembling clerk; "but you see, sir, the figure is intended for a 3!"

"A 3?" roared the manager. "Why, you idiot, it looks just like a 5!"

Every housekeeper has at least one dirty habit.

Your Opportunity

For One Day's Work MacLean's Magazine Announces that they will send any Man or Woman in Peterborough.

or in any surrounding town or village, an article which may be selected from their new large catalogue of premiums.

All you have to do is to secure a few subscriptions to MacLean's Magazine, Canada's leading monthly publication. A few of your spare hours devoted to the work will be sufficient to earn the article you want.

MacLean's Magazine will forward the premium you earn, absolutely free of cost to your address.

Among some of the splendid premiums offered are

Gold Watches, Bicycles, Hand Bags, Suit Cases, Cameras, Skates, Boxing Gloves, Books.

Write to-day for one of their catalogues. A post card will do. Be the first to win one of these splendid premiums.

THE STRUGGLE FOR THE EARTH

Desire to Own the Earth Grew from the Individual, to Families, Clans, Nations, and Now We Battle in Batches

The origin of man is wrapt in obscurity. We cannot tell whether we all sprang from one stock, or whether there were two or a hundred human beings evolved simultaneously. If the latter be the case, it would be more than interesting to know the first thoughts of the first man upon meeting another first man, says T. P's Weekly. We do not know what they were, nor can we ever know, but we can make a very shrewd guess. The thoughts that passed through that first man's head were probably these: "Hullo! something else here fashioned like myself, is there? I thought the Earth belonged to me. Everything seems to have been made for my convenience, and here is someone just like me, who, of course, will want to be joint-sharer, or possibly more than that. He is in my way. I want the Earth. I must hit him over the head forthwith."

Whereupon, doubtless, our other first man being by no means less ready for the fray, there was a determined set-to. It did not take these good people long to realise the fact that there were a lot of others all wanting the earth, but this did not damp their ardour, nor has it throughout the course of the centuries. They continued to want the earth; we continue to want the earth; but the fact that we reproduce ourselves in families, that families form clans, and clans form nations, has taught us the absurdity of wanting the earth individually, so we now strive for it in batches.

MUCH MONEY IN TOBACCO ASH

Ton of Tobacco Contains 400 lbs Valuable Mineral Constituents from the Soil Which Must Be Otherwise Replaced.

A writer in the Lancet, (England), says: "As everybody knows, the ash left on burning tobacco is considerable and, as a matter of fact, the mineral matter of the tobacco leaf frequently amounts to as much as a fifth part of its weight. Thus, a ton of tobacco leaf would yield four hundredweights of ash, which represents valuable mineral constituents withdrawn from the soil which have to be replaced by abundant manuring. It has been calculated that a ton of tobacco withdraws over a hundredweight of mineral constituents per acre of land. In 1901 the home consumption of tobacco in the United Kingdom was at the rate of two pounds per head, or a total of about 40,000 tons, which represents, at what is now a probably low computation, approximately 8,000 tons of ash annually committed to the winds or dissipated in some way or other. This would appear to be an astounding waste of material which must be of enormous value to the soil, considering that 75 per cent. consists of calcium and potassium salts and 15 per cent. of magnesium and sodium salts, including nearly 5 per cent. of the essential constituent to all plants — phosphoric acid. On the face of it there would seem to be a fortune in store for that individual who could devise a successful means for the collection of tobacco ash, and it is a great pity that so much valuable material should forever be lost to the soil without any attempt at direct restoration being made."

Eels for the Irish

When so many hard things are being said about the House of Lords it should be kept in mind that they have just affirmed the claim of certain Irishmen to the exclusive right to fish for eels in Lough Neagh for a period of five thousand years from July 1, 1905. It is an affirmation that raises an equiry as to whether or not the people of Ireland eat eels. Scots — even London Scots — never touch them, and a Scotch angler, catching an eel, promptly throws it away. Eels used to be associated with snakes, "and just as men of every race entertain an instinctive horror for snakes," writes Sir Herbert Maxwell, "so there remain traces of the same feeling about eels."

It seems somewhat unkind of Sir Herbert to state that most civilized races have overcome this long ago, and then to add that there exists among the Scots a strong and universal prejudice against eels.

Reducing a Prince's Weight

The Kaiser's second son, Prince Eitel Fritz, whose circumference is a source of worry to him, has adopted a new method for reducing weight. He has given up digging in the garden owing to the intense heat and goes every morning to the ferry across the River Havel, at Sakrow, near Potsdam. There he relieves the old ferryman, and for two hours works on a heavy float, which is pulled across on a chain by hand. His wife motors down about 8 o'clock to take him home.

On Saturday the Crown Prince motors a long way round on his way to Berlin in order to have himself and his car ferried over by his brother.

Princess Eitel has started a crusade against wearing birds' feathers in hats and has signed a pledge never to wear ostrich feathers, egrets or birds of paradise.

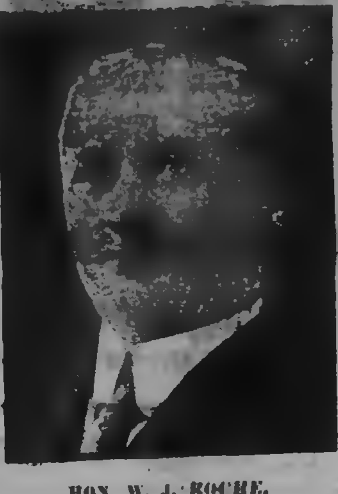
Teacher: "Tommy, how would you punctuate this sentence, 'Willie, while going down the street, dropped a piece of pie, and'"——

Tommy (quickly): "I'd make a dash after the pie."

WHO'S WHO IN CANADA

HON. W. J. ROCHE

For the very important Secretaryship of State Premier Borden is fortunate in having at command Dr. William J. Roche, a native of Clandeboye, Ont., who moved west to practice in Minnedosa, Man., in 1893, and went into active politics soon after, taking a seat in the House of Commons in 1896. The Doctor was educated at Lucan public school, London High School, Trinity Medical College, Toronto University, and Western University, London, Ont., and as a result could not fail of being a man of much merit. In addition to other positions of honor Dr. Roche has been Grand Master of the I. O. O. F. for Manitoba, Grand Representative to the Sovereign Grand Lodge of the same order, and for a number of years was member of the Manitoba Medical Council. He is 51 years old.



HON. W. J. ROCHE,
Secretary of State.

With Dr. T. G. Roddick, Dr. Roche carried on the agitation of a few years ago for a uniform standard for practising physicians in every province of the Dominion. The Roddick bill failed to become operative because of the failure of certain provinces to co-operate, but in an amended form it was made law at the last session of parliament.

Dr. Roche takes a great interest in the new Lady Minto Hospital in Minnedosa, his home town. It is with him a labor of love to assist in making this institution one of the most successful in the West. His intention should it be possible, is to return to the prairie country every summer, to visit old patients, to walk the wards of the Lady Minto Hospital at Minnedosa, and to demonstrate that, at heart, he is still a doctor and a Westerner.

Mrs. R. L. BORDEN,

A Charming Society Queen

In Mrs. Borden, wife of Canada's new premier, are combined all those qualities which adorn social life. She has that dignity, grace and refinement of the ideal in hostess, and though perhaps discriminating to some extent in her social tastes, everyone is received in the Borden home on his or her merit.

The residence of the Premier elect in Ottawa, situated on Wurtemberg street, and formerly occupied by Sir Charles Fitzpatrick, is arranged and furnished interiorally for the comfort of its inmates. Strangers entering that home for the first time are invariably impressed with the restful atmosphere. Refined tastes are evident throughout the house, and among the collection of paintings which adorn the walls are several skilful productions from the brush of Mrs. Borden, who is an artist of some note. She is also a clever photographer, and in preparing her pictures does all the work herself from developing to finishing. Many of the best pictures of Mr. Borden, some of which have been used for publication, were snapped, developed, and completed by his wife.

Also in horticulture Mrs. Borden is an enthusiast. Her garden is beautifully designed, and most of the richest blooms on the grounds surrounding her home are personally attended to by her.

Although not actively identified with many of the charitable institutions of Ottawa, Mrs. Borden by many kind acts, has brought cheer to the sick and needy.

While resident in Halifax she worked indefatigably on what is known as the Woman's Work Exchange, an institution that has accomplished much good, especially for those of reduced circumstances. For some years now she has been on the board of governors of the Victorian Order of Nurses, and her name also appears on the membership rolls of the National Council of Women of Canada, the Society for the Prevention of Cruelty to Animals ,the Aberdeen Association and the Woman's Auxiliary of the Missionary Society of the Church of England. Of the latter organization Mrs. Borden's activities have been chiefly through that branch at All Saints' Church, of which parish both she and Mr. Borden are members.

Outdoor sports also claim some of Mrs. Borden's time. A skilful golfer she has been connected with the ladies' club of Ottawa, and was honored by that body last year when the members elected her as their president.

Mrs. Borden was born at Halifax, N. S., her maiden name being Laura Bond. Her father was Thomas Henry Bond and both parents were of English extraction. Her mother, Catherine Tregallis Atkinson was a descendant of an old Cornwall family of that name. Mrs. Borden's eduaction was received in her home town.

PILES CURED IN 6 TO 14 DAYS

ALSO WORRIED THE EARLY BOY

Arithmetic Problems that Sadden Schoolboy of Today also Gave Pain to the Kiddies of Two Thousand Years B. C.

There is a ray of vindictive comfort for the modern schoolboy in the fact that for over 3,600 years his schoolboy progenitors have been worried by just such problems in arithmetic as annoy him most.

Among the archaeological discoveries made in Egypt is a papyrus roll, in excellent condition, dating from about 1700 B. C. This roll, which had a long heading beginning, "Directions how to attain the knowledge of all dark things," proves beyond doubt that the Egyptians of that time had a thorough knowledge of the elements of arithmetic.

Numerous examples show that their principal operations with units and fractions were made by means of addition and multiplication. Substraction and division were not known in their presetn form, but correct results were obtained nevertheless.

Equations are also found in the papyrus. Here is one that brings the Egyptian schoolboy home to us:

Ten measures of barley are to be divided among ten persons in such a manner that each subsequent person shall receive one-eighth less than the one before him.

Another example given is: There are seven men: each [illegible] seven cats; each cat has eaten seven mice: each mouse has eaten seven grains of barley; each grain of barley would have yielded seven measures of barley. How much barley has been lost?

The papyrus also contains the calculation of the area of a circle and attempts to square the circle.

NOT MOTHER OF PARLIAMENTS

Writer Points Out that England is Not the Mother of Parliaments, the Honor Really Belonging to Spain.

How errors grow, says a writer in T. P. O'Conners Weekly, and how false epithets attached to persons or nations, by constant repetiton come to be accepted as descriptively true! England is called, not only in our own Press, but in that of other countries, the "Mother of Parliaments." She, however, is not in that proud position legislatively. Spain had a Parliament nearly a century before England — meaning by Parliament "popular representation." Such an assembly was convened in Burgos in 1169, while that of England first assembled at Leicester in the middle of the thirteenth century.

Unlike ours, the Castilian Parliament did not receive hereditary nobles; it was left to England to do that, and to give them hereditary legislative powers which were denied them by the Castilians. If, then, writers desire to call any nation the "Mother of Parliaments," to be accurate they must attach that title of grace and honor to Spain.

Evidence from a Shark.

It may be a perfectly unwarrantable reflection upon an upright and exceedingly useful body of men, but somehow the mention of the legal profession irresistibly draws the mind to sharks. And there was at least one historical occasion on which a shark did actually play an important part in a criminal trial.

In 1799 the brig Nancy was captured by a British warship as a suspected slaver; and her release by the prize court at Jamaica, whither she had been brought for trial, seemed inevitable, owing to the absence of incriminatory documents. Curiously enough, the officers of the Abergavenny hooked a shark soon afterwards in the neighborhood, which was found to contain a bundle of papers relative to the Nancy.

These were preserved in ignorance of the capture of the brig, and eventually led to her condemnation. These interesting documents are said to have been stored in the museum at Jamaica, and perished in the great earthquake there a few years ago; but the head of the shark is still on view at the Royal United Service Institution, London.

The Reward of Thrift

In connection with the sale of the French "junk pile" at Panama comes the story that one bidder for the De Lesseps leaving was a man who but a few years ago was working in a junk shop at $7 a week, yet who was able to accompany his bid with a certified check for $115,000.

Such a fact serves to put a hitherto despised business in a different light. We shall do well to treat the lowly rag and bottle man with more respect. His potentialities are great. His shrewdness in taking profitable advantages of such seemingly simple openings as first present themselves deserves a higher appreciation.

A Novel Church Service

A real agricultural setting was provided at a harvest thanksgiving service, held in connection with a parish church in England. The service took place in the well-filled rickyard of a farmstead. The vicar, the Rev. C. Harrison, the assistant curates, the churchwardens, and the choir, during the singing of the processional hymn, took up their places in a space surrounded by corn and hayricks and agricultural implements, and the vicar delivered his sermon from a farmer's waggon. A large congregation, attracted no doubt by the novelty of the service, was present.

HOTEL LENOX BUFFALO, N.Y.

ROBERT FAIR & COMPANY, Limited

SEALED TENDERS, addressed to the undersigned and endorsed "Tender for heating the addition and alteration to the present heating system of Public Building at Peterborough, Ont.," will be received until 4.00 P.M., on Wednesday, November 8, 1911, for the work mentioned.

Tenders will not be considered unless made upon and in accordance with the conditions contained in forms supplied by Department.

Plans and specification to be seen on application to Mr. Wm. Blackwell, Esq., Architect, Peterborough, Ont., and at the Department of Public Works, Ottawa.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, October 28, 1911.

TENDERS FOR SUPPLIES, 1912

THE UNDERSIGNED will receive tenders up to noon on Friday, 10th November, 1911, for supplies of butchers' meat, flour, oatmeal, potatoes, etc., for the following institutions for the year 1912, viz.:

At the Hospitals for the Insane in Brockville, Cobourg, Hamilton, Kingston, London, Mimico, Orillia, Penetanguishene, Toronto; the Central Prison and Mercer Reformatory, Toronto, and the Hospitals for Epileptics at Woodstock.

Exceptions—Tenders are not required for the supply of meat to the Hospitals in Brockville, Hamilton, Kingston, London, Mimico, and Toronto, nor for the Central Prison or Mercer Reformatory, Toronto.

A marked cheque for five per cent. of the estimated amount of the contract, payable to the order of the Honorable the Provincial Secretary, must be furnished by each tenderer as a guarantee of his bona fides, and two sufficient sureties, or the bond of a guarantee company authorized to do business in the Dominion of Canada, will be required for the due fulfilment of each contract. Specifications and forms and conditions of tenders may be obtained from the inspector of Prisons and Public Charities, Parliament Buildings, Toronto, or from the Bursars of the respective institutions. The lowest or any tender not necessarily accepted. Newspapers inserting this advertisement without authority from the department will not be paid for it.

W. J. HANNA, Provincial Secretary,
Parliament Buildings, Toronto.
October 11th, 1911.

LOST BOTH LEGS AND DIED

Frank Keeler of Port Hope, Victim of Accident

Frank Keeler, aged 23 years of age, of Port Hope, and well known in this city died at Brockville Sunday, as a result of a railway accident, when both legs were severed, one below and the other above the knee.

He had left Port Hope with a companion named Rowe, and the two, it is believed, were beating their way. Keeler died six hours after being taken to the hospital.

St. Alphonsus Lyceum—Exhibition of gymnasium work.
City Hall—Charity Board.
Churches—Young People's meetings.
George street—Reception to Normalites.

The English and Scotch football teams clashed yesterday at Park st.

SMOKE ESTABLISHED RECORD, AND LEAHY WON JUNIOR EVENT

Annual Thanksgiving Day Road Races Aroused Keen Interest and Competition —Smoke Holds Stratton Cup.

Albert Smoke of Chemong Athletic Club and Frank Leahy of Ennismore, last year's winners in the annual road races won the senior and junior races respectively yesterday, the Indian breaking all previous records when he made the course in 53.58 3-5, bettering his previous time by 1 16 1-5, and the Ennismore boy equalling the previous mark, 28.30.

This being his third time to win, Smoke retains the Stratton Cup. He was winner in a field of seven, and of a place amongst the best amateur runners of Canada. It is doubtful if there is another amateur in the Dominion who could lower the mark over the same course.

J. E. Lean of Camborne, Ont., a former Normalite was second in the senior. He is a consistent runner.

W. Willis, now of Toronto, formerly of the local Y.M.C.A., finished third, and Harold Smith of the Peterboro Y.M.C.A. fourth.

The weather conditions were ideal, there being very little wind, and it was just cool enough to tingle the blood of the runners and the events were the best in the history of the competitions.

THE JUNIOR RACE

The junior race was a battle between Ennismore and Douro for first place, Leahy, the winner, hailing from Douro and McAuliffe, who was a very close second, finishing but two yards behind Leahy, claiming Ennismore as his birth-place. At Auburn they were running neck and neck but Leahy started to sprint first and obtained a few yards lead and McAuliffe could not overtake him in the stretch.

There were fifteen starters in the junior race, and it presented a field of classy runners. Cecil Armstrong the Y.M.C.A. youth, who came third last year, could not do any better than that this year against the T.A.S. boys. O'Taylor, another Y.M.C.A. youngster was fourth. It is rather striking that the first two to finish were T.A.S. boys, the second two from the Y.M.C.A., and the third two Lakefield lads.

Two of those entered into the senior were barred as they were unable to obtain C.A.A.U. cards.

HOLIDAY JAGS MADE REVENUE

The Collections at Police Court Amounted to $11.50

On charges of being either drunk or disorderly, or the two combined, three individuals were brought up before Police Magistrate Dumble this morning, as the usual aftermath of a holiday spree. Another was up on a vagrancy charge. The financial harvest reaped as a result, amounted to $11.50 in all.

The first man called was George Davenport, who said that he had only taken a little beer, but he "guessed he was guilty all right." As it was a first offence, he was allowed to go without punishment.

Another local young fellow was arrested while drunk. It was $3 and costs or $5.75. He produced the cash.

Edward Parks, popped up again this time on a vagrancy charge; no abode and no means of support. One week ago he was discharged on a drunk charge.

Eddie had not $5, so it will probably be one month in jail unless a benevolent pal comes forward with the dough.

A foreigner named Thomas Farbo was arrested while fighting. Other arrests in connection with the fight will take place shortly. Farbo was relieved of $5.75 by Magisterial orders.

HUNTING PARTY GOING UP NORTH

The floor space in Mason's grocery was piled late Saturday night with a collection of boxes and packages holding provender for the hunting party leaving on Monday morning. The provisions were put up by Mr. Mason and Mr. Felix Brownscombe took a lively and critical interest in the assembling of the supplies.

The Peterborough end of the party includes Mr. Brownscombe, Mr. R. Neill and Rev. Mr. Henderson. At Lindsay they were joined by a number of choice spirits and, a further contingent from Toronto met them at Orillia. The party were making for a point above Parry Sound on Lake Nemegosagamesing, which is connected with Lake Nipissing. The stay will be made to the middle of the month, and they hope for more than fisherman's luck.

THE FALL ASSIZES

Civil Action for $10,000 First Case Heard

The fall high court assizes opened at 1.30 p.m. to-day with Sir William Mulock presiding, and with three civil actions and one criminal case to be considered. The following legal practitioners were in attendance:—F. M. Field, K.C., of Cobourg, Crown Prosecutor; George H. Watson, K.C., of Toronto, D. O'Connell, G. N. Gordon, Crown Attorney Wood, Geo Hatton, L. M. Hayes, K.C., J. H. Burnham, M. P., J. W. Bennett, Basil D. Hall and R. Ruddy, K.C.

After swearing in the grand jurors and the calling of the roll of petty jurors, the judge addressed the grand jury, outlining to them their duties. From a statement before him he called their attention to the plight of some of of the inmates in the county jail. At present there were thirteen people confined to the jail.

It was a pleasure, he remarked, that he noticed very few of the thirteen were criminal cases. One man is 81 years of age and insane, and the jail was no place for the insane. Six out of the thirteen were vagrants, old men without any shelter, forced to come to the jail for refuge.

The judge also referred to the lack of provision for the care of the city poor. These facts he placed before the jury for the purpose of guiding them in making their customary presentment.

The criminal case of Samuel Newell, of the township of Dummer, charged with rape on Mrs. Maggie Moore last May, was for them to consult upon and to conduct an inquiry to find if there was a sufficient case to warrant the prisoner being placed on trial.

The jury then retired. Mr. L. M. Hayes, K.C., and Mr. Basil D. Hall were present in the interests of Newell.

FIRST CASE.

Electric company, the former bringing suit against the company for $10,000 damages, was next proceeded with, Messrs. O'Connell and Gordon conducting the case of Mrs. Darke and George H. Watson, K.C., and L. M. Hayes, K.C., for the Electric company.

Messrs. E. G. Patterson, R. Dobie and Robert Anson, of the C.G.E., were present.

LADIES' OF ST. JAMES CHURCH ENTERTAINED

Large Crowd Enjoyed Thanksgiving Dinner and Program

An evening of real enjoyment, that tickled both the ear and the palate, was provided at St. James' Methodist church last evening, to commemorate Thanksgiving day, and a capacity crowd was present to partake of the generous and delightful double bill of fare supplied. The Ladies' Aid Society of the church were responsible for the rare treat, but feeling no doubt that as the the holiday came but once a year, nothing could be too good for the gathering.

After the edibles had been diminished and everybody's inner wants satisfied, the crowd adjourned to the body of the church for the following program.

Ladies of Lake two.

On the platform were Rev. J. G. Brown, Rev. J. R. Webb, Rev. Isaac Couch and Rev. W. C. Beddiford. Each of these reverend speakers gave addresses that were decidedly excellent and did space permit would be worthy of extended reference.

Rev. J. R. Webb spoke for perhaps twenty minutes, urging a devotion and reverence for the church and advocating spiritual birth in all of the young people connected with it. Rev. Mr. Couch followed with a number of humorous stories from which he drew powerful lessons. All the addresses were given warm applause.

The following was the musical program:

Piano Duet—Misses Palmer and Gillespie.
Vocal Solo—Mrs. Rebill.
Recitation—Mrs. Braund.
Vocal Solo—Mrs. Greenslade.
Bass Solo—Percy Naish.
Vocal Duet—Mrs. Rebill and Mrs. Goodwin.
Vocal Solo—J. M. Greene.
Accompanists—Mrs. Greenslade and Mrs. Rebill.

HOCKEY

All Saints athletes will meet in the chapel hall, to-morrow night, when the prospects for hockey will be discussed. All interested are asked to be present at eight o'clock.

PERSONAL

Mr. H. Smith, of Campbellford, is visiting in the city.

Lutheran Seminary Dedicated.

Berlin, Ont., Oct. 31.—Under auspicious circumstances and ideal weather the new Lutheran Theological Seminary was dedicated at Waterloo yesterday afternoon, in the presence of a distinguished gathering. Rev. Mr. Miller of Hamilton extended a formal greeting to the assembly. Mayor W. G. Weichel, M.P., delivered an address of welcome on behalf of the town of North Waterloo.

J. Charles Mueller, president of the Board of Trade, formally handed over to the directorate the deed for the five acres of land, wishing the seminary board God-speed in its work.

The dedication ceremony was performed by Rev. Mr. Hoffman of Berlin, and Rev. Mr. Weigand of Brodhagen delivered a German oration.

It's a Real Fortune.

Brantford, Oct. 31.—Dr. Charles Perrin, brother of Dr. Thomas Perrin of San Jose, Cal., both reported to be heirs to a fortune of $4,500,000, which has been accumulating in England for 200 years, is in the city on a visit to Fred. Westbrook, but he informs your correspondent that his visit had no connection with the claim established for the legacy. Dr. Perrin declined to discuss the case in any way, although he implied that the fortune was a genuine one. It is his second visit here in forty years, his family having been formerly well-known residents of Mount Vernon, Burford Township.

New York's Low Death Rate.

New York, Oct. 31.—New York city's death rate last week reached the lowest rate on record. The death rate for the entire city was 12.12 per 1,000 of the population, a decrease of 1.41 from the corresponding week of last year, and lower by 1.20 per 1,000 than the previous low record, for the week ending Nov. 5, 1910. The deaths totaled 1,158.

In the Borough of Queen's the death rate was 8.40 per 1,000 of the population, the lowest death rate any of the boroughs has ever shown.

Gold That Is In the Sea.

Apart from the treasures which find their way to the bottom of the sea, and occasionally come to light again, there is more gold in the sea than has ever been coined into money. Such, at all events, is the opinion of Prof. Wilde, of Brussels University. All sea water contains a certain amount of gold, in the proportion of about one grain to each ton of water. Reckoning the total weight of all the oceans at the very moderate figure of 1,000,000,000 tons, Prof. Wilde estimates that they would yield gold to nearly a hundred thousand times as much as

Why, bless you! you can bathe in gold.

Saved by His Wit.

One evening, when the city clerk's office was full of men seeking registration, an Irishman asked to be registered. He received the usual blank, with the request that he sign his name. This he succeeded in doing, after a painful effort.

Suspecting that this was the extent of his accomplishments, an onlooker called out to the clerk:

"Try him on another name! Let him write yours."

"'Deed, I'd never dare!" said the Irishman, quick as lightning. "Sure, 'twould be forgery!"

In Gay Paree.

"What kind of an eating house do you call this?" asked the man from Alberta, as he entered a queer-looking establishment in Paris.

"This is one horse restaurant, monsieur," explained garcon. "You can have ze horseflesh in any style. How would you like yours?"

"Horse in any style, eh? Well, suppose you have mine curried."

Our Four Great Railways.

The United States had thirty million people before the country was connected by railway from ocean to ocean. Four years from now, when Canada's population will probably approximate ten millions, we will have four transcontinental railway systems. And no one doubts that there will be traffic for all of them if we maintain our fiscal independence and encourage interprovincial trade. If the Canadian Northern and Grand Trunk Pacific Railways do as much to develop Canada and advertise it through the world as the Canadian Pacific Railway has done the progress of Canada during the next twenty-five years will surpass that of the United States in any twenty-five years of its history.

Reason for His Hit.

"I made a great hit at the banquet last night. Came off with a good deal of distinction, in fact."

"I didn't know you ever spoke at banquets."

ART IN EYE GLASS MAKING

Perfection seems to have been reached in the making of Eye Glasses, when one beholds the creation of the present time. Our stock is always replete with the newest and best goods from the best makers; the standard of durability is not sacrificed, but lightness, style and strength are combined.

OUR SKILFUL FITTING
and adjusting will satisfy the most critical.

J. W. BROWETT, OPTOMETRIST. Optical Institute, Market Building.

FOOTBALL

On Saturday afternoon Mr. Pagett's All Stars defeated All Saints' eleven, church league champions, by a 7 to 3 score.

Arrangements are being made whereby a football team of married men will play an aggregation of bachelors.

Carnegie has given $120,000 for a hero fund for Norway.

Engraved Visiting Cards

N. W. ROWELL, K.C., CHOICE OF ONTARIO LIBERALS AS LEADER

Retirement of Mr. Mackay Opens Way For the New Man—Conference of Liberals on a Platform.

Toronto, Nov. 1.—Hon. A. G. MacKay has resigned as leader of the Liberal party in Ontario.

Newton Wesley Rowell, K.C., has accepted the leadership.

The platform of the Liberals in the campaign now on is being prepared by a special committee of fifteen representative and prominent Liberals and will be given out by Leader Rowell in a day or so, it is expected.

This is the substance of what occurred yesterday, the most fateful day for a long, long while for the Liberal party in this province.

The gathering that throughout the day and far into the night debated the party's policy was in name the annual meeting of the General Reform Association of Ontario, but in fact it was a convention of Liberals to decide on the problems that faced the party.

The resignation of Mr. MacKay was the prominent feature naturally of the day. While it did not come as a big surprise, the nature of its coming was not anticipated. The resignation was not presented personally by Mr. MacKay. He was not at the meeting. Mr. C. M. Bowman, the Liberal whip in the Legislature, on Chairman Mowat's suggestion, told of what had happened at a caucus held by the late M.P.P. and candidates already in the field on Monday evening and continued Tuesday morning. To this caucus Mr. MacKay had handed his resignation, asking for its immediate acceptance.

Mr. MacKay had tendered his resignation, Mr. Bowman went on to say, because of an attack on his personal character in the courts. The charge Mr. MacKay declared was an absolute blackmail, but as it would be impossible to clear himself in the courts before election time, he deemed it wiser to withdraw and not handicap his party in any way. Until the charge was completely and absolutely shown to be without a vestige of foundation Mr. MacKay must not allow his followers to be saddled with any responsibility in the matter.

At midnight the caucus adjourned, meeting again in the morning, when Mr. MacKay was asked to allow a complete statement of all the facts relating to the charge to be published, but this he was not willing to accede to, and so fifteen minutes before the opening of the meeting of the association, his resignation was accepted.

While Mr. MacKey said he appreciated the fact that no Conservative of standing would aught but condemn the proceedings taken against him; yet he had no doubt as to where the accusations came from. He repeated that the charges were without foundation in fact, and said that all his friend could rest assured that he would vindicate himself beyond possible cavil.

The caucus, Mr Bowman continued, had passed a resolution, which he read, to the effect that they had accepted Mr. MacKay's resignation with the deepest regret and trusted that his action would not deprive the party of the benefits of his great talent and strong personality. They further expressed unbounded confidence in Mr. MacKay's personal integrity and honor.

"The Parliamentary party," Mr. Bowman then said to the meeting of the association, "finds itself without a leader, I suggest that the association appoint a committee to confer with the Parliamentary party." J. F. Atkinson then moved, that the president of the association, F. F. Pardee, A. McD. Mowat, and A. J. Young, confer with the Parliamentary party as to a leader. And, awaiting the result of his conference, the meeting proceeded.

A discussion of the policy of the party occupied most of the day, but early in the afternoon Hon. Geo. P. Graham, seconded by Mr. Ewing of South Huron, placed before the meeting a resolution that we, the members of the Reform Association of Ontario, having learned with profound regret of the resignation of Hon. A. G. MacKay, desire to place on record our appreciation of the untiring energy, brilliancy, and devoted zeal of our late leader and to place on record our appreciation of what he has done for Liberalism in Ontario and the Dominion.

Loud cheering and applause met the resolution and its sentiment was heartily concurred in by all. Three rousing cheers for Mr. MacKay were given.

Mr. Graham went on to say that "our friend Mr. Whitney has presented a list of measures, which he says are on the statute books, but I want to say that the most salient points bear the imprint of Hon A. G. MacKay. I take no hesitation in saying that Mr. MacKay was the ablest man in the Legislature."

When the members of the association met again in the evening their number had diminished considerably. The leadership committee at once made its report. They announced that Mr. Rowell was their choice. The announcement was hailed with loud acclamations that clearly promised the strong support of the members of the Liberal party.

Mr. Rowell addressed the gathering after the cheers had subsided.

"I appreciate more than I can tell you, the expression of confidence you have given me in asking me to accept the responsible position of the leader of the Liberal party in this province.

"I have decided to say yes. If it were to do over again, I might almost decide to say no. Not that I do not

N. W. ROWELL, K.C.

value the call you have given me, but because of the responsibilities of the position you have called me to, and because of the difficulties of discharging those responsibilities consistently with the other demands upon me."

Mr. Rowell said he would be unable to take up the active duties of his new office for ten days, as it would take that time for his to dispose of certain work in his profession, meaning cases now before the courts.

The new leader, in his address, dealt with New Ontario. He stated that as the Liberal party had saved the district for the province, and that its resources under Liberalism were first explored and made known, it was fitting that its development should be advanced by the Liberal party.

"I'm not now going to discuss the question of moral and social reforms, excepting to say that we all believe that the government of this province comes more closely in touch with the people than does the Dominion Government, and that being so, I believe that the Liberals of this province will stand for such measures in social and moral reform that will set a mark for the whole Dominion."

CANEVA IS TAKEN

Italian Commander is Captured By Turks

Special to the Review.

Constantinople, Nov. 1 — General Caneva, commanding the Italian army in Tripoli has been captured by the Turks, according to official information from the war ministry. The capture was effected during a desperate fight between the Turks and the Arabs on one side, and the Italians on the other, in the outskirts of Tripoli.

Stricken With Blindness.

Winnipeg, Nov. 1.—Capt. W. S. Conger of the local militia, awoke Monday to find himself stricken with total blindness. He is now being treated at the General Hospital, and hopes are entertained for the recovery of his sight. No cause is known for the strange occurrence.

No Bail For Motorist.

Toronto, Nov. 1.—Declaring that there are more people being killed by motor cars than the outposts of an army in war, Magistrate Denison refused to grant bail to Stephen Hewgill, charged with manslaughter in killing Lem How, a Chinese boy, with his motor car in Homewood avenue. This action was taken despite the combined pleas of Crown Attorney Corley and the prisoner's counsel.

Counsel protested that the street was not lighted and that the man had immediately given himself up. The crown attorney urged that the man was a careful driver. The magistrate declared that he had killed the boy and that was all there was to it.

Oil-Burning Grain Carrier.

Port Colborne, Nov. 1.—The new ship Toiler loaded 96,000 bushels of wheat at the Government elevator here yesterday for Montreal. This is the largest cargo ever carried through the Welland Canal.

The Toiler is owned by C. I. Dosola of Montreal and is an experiment in the boat line. She uses 300 gallons of oil in twenty-four hours and has fuel for three months ahead.

CABINET FORMED

Change in Chinese Government is Made

Special to the Review.

Pekin, Nov. 1—The old Manchu cabinet resigned to-day and a new one was formed, with Yuan Shi Kai as premier. He has sent a telegram from the south saying that he is negotiating with the rebels, but he is evidently having some trouble in getting into touch with the leaders.

KING VICTOR EMANUEL OF ITALY

Austria's threat to force a quarrel leads to the supposition that King Victor has made a secret deal with Britain.

FOUND DEAD NEAR AUTO

Special to the Review.

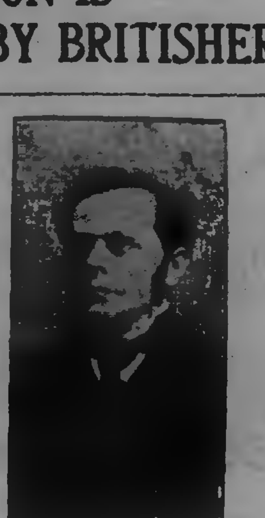
Winnipeg, November 1—Dr. Pirt was found dead yesterday near Carman besided his automobile. His car had met with an accident and was badly wrecked.

IMPERIAL EMIGRATION IS DISCUSSED BY BRITISHERS

Preference, Defence and Emigration Within the Empire Favored.

London, Nov. 1.—(C.A.P. Cable.)—Five thousand Imperialists assembled at Queen's Hall last evening, on the occasion of the mass meeting of the Imperial Mission, which served as a call to arms in preparation for an energetic campaign to be conducted in the United Kingdom during the winter months. The chair was occupied by the Duke of Marlborough, who was supported by Earl Selbourne, Page Croft, M.P., Sir William Russell (New Zealand), and Mrs. Fitzgibbons (Canada), niece of Sir John Macdonald and Baroness Macdonald. The Duke of Argyle telegraphed his inability to attend.

The chairman made an eloquent appeal for the adoption of the policy of which Imperial preference, Imperial defence and Imperial emigration, which he regarded as most pressing and vital if the overseas dominions are to be prevented from negotiating with foreign powers commercial treaties of far-reaching character. He looked forward to the time when Imperial emigration would be included in the Conservative program, and when the Home and Dominion Governments would give active support to the consummation of such an emigration policy.



AUGUSTINE BIRRELL.
One of the framers of the home rule bill now being discussed.

Stood by While Children Burned.

Schenectady, N.Y., Nov. 1.—While their mother was out working fire destroyed the home of Mrs. Mary Pulkowski, and burned to death two of her three children.

The father, who has not lived with his wife for some time, watched the fire from across the street, apparently uninterested.

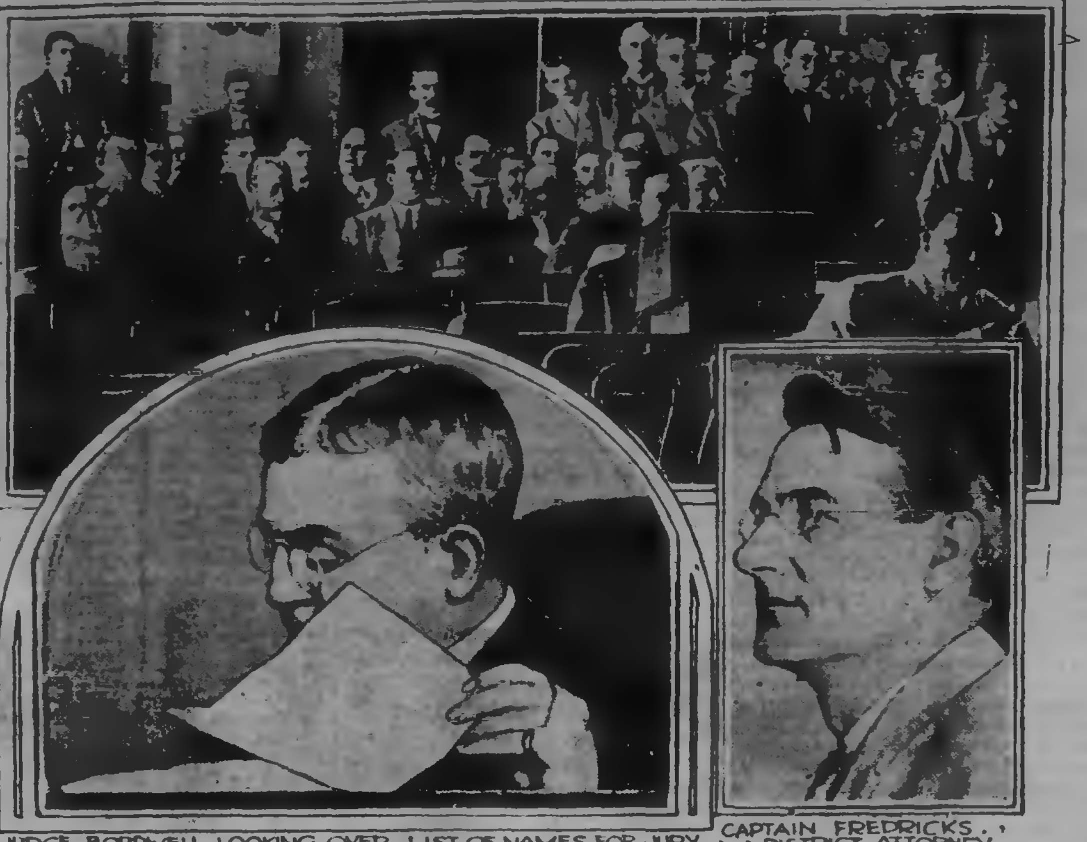
TALESMEN AWAITING CALL IN McNAMARA CASE.



JUDGE BORDWELL LOOKING OVER LIST OF NAMES FOR JURY. CAPTAIN FREDRICKS, DISTRICT ATTORNEY.

The accompanying picture shows Judge Bordwell, before whom the case of the McNamara brothers is being heard, looking over the list of jurors to be selected to try the alleged dynamiters. Some of the talesmen are also shown. Captain Fredericks is the attorney for the prosecution

CHINESE REBELS HAVE LITTLE FAITH IN MANCHUS HONESTY

Reformers are Divided on Question of Accepting Terms Offered by the Throne—Extremists Want Expulsion of the Manchu Rulers.

Pekin, Nov. 1.—Fighting between the rebel forces and the Imperialists continues. It is believed that the revolutionists are making a determined resistance. Late advices received here indicate that Hankow City was not retaken by the Imperialists, although Gen. Yin Tching captured the railway station immediately to the north.

In the meantime there are serious dangers along the railway line between the War Minister's position and Pekin. Disaffection among troops and people has prevented satisfactory communications between the various sections of the loyal army.

Yuan Shi Kai started for the front Monday and is now at Sin Yuan Chau. The policy which he will adopt is eagerly awaited. Negotiations looking to a settlement have been under way between Yuan Shi Kai and the revolutionary leaders, but the latter are confident of their strength and have expressed themselves as having little faith in the promises of the throne.

Foreign troops are guarding the mission houses in Pekin.

The native press has received the reform edict favorably. The Chinese, remembering how frequently the promises contained in former edicts were forgotten, may not be satisfied with these, however. The reformers in Pekin are divided into two parties, the extremists, mainly southerners, who insist upon the expulsion of the Manchus, and the moderates, who are numerous throughout the empire. The latter are indifferent as to whether the dynasty is Manchu or Chinese, but they want great administrative changes and believe that drastic measures are necessary to give the reforms a fair start.

The vital question is whether the two wings will be able to unite. The inherent tendency of the Chinese is toward compromise, but unexpected circumstances frequently carry the day in China. At Canton the viceroy and leading gentry are classed as moderates, while the masses are extremists. The same condition prevails in the Provinces of Hunan, Hupeh, Honan, Shansi, Kiangsi and Sze Chuan. Naturally, Manchuria and Chili remain loyal.

Shang Tung, Kiang Su, Anh Wei, Che Kiang, Ku Kien, Kwei Chow and Yunnan are apparently half-hearted. Elsewhere incipient rebellion is spreading.

An important question for the north is whether Gen. Chang, leader of the Lanchau soldiers, is acting independently or in collusion with other rebels. If the edicts satisfy the northern soldiers the control of North China will not be seriously imperiled, but concerted action on the part of Gen. Chang and the southerners would probably result in the flight of the court to Jehol.

HOUSE OF COMMONS WILL SIT UNTIL MARCH IN ONE SESSION

Nothing Decided as to Naval Policy Yet, as Admiralty Will Have to be Consulted.

Ottawa, Nov. 1.—It is practically certain now that there will be only one session of Parliament, which will adjourn at Christmas and run after New Year's, probably until March. It was at first expected there would be a short session of a month and then possibly another called in the spring.

Instructions have been given by the Finance Minister to the various Departments to prepare their estimates, not only for the remainder of this year, but for the 1912-13 fiscal year, which clearly indicates a session lasting until well after Christmas. Officials this week are hard at work on the estimates, and an effort will be made to have everything in ship shape by Nov. 15. They will be submitted to the Ministers for revision and approval next week.

Last night only two Ministers were in the city, Hon. W. T. White and Hon. T. W. Crothers. Except the western Ministers, who are expected towards the end of the week, the rest of the Cabinet have gone to Halifax to attend the big national banquet to the Premier. They will be back Friday or Saturday, and next week will see a busy time for the Ministers preparing their program for the session.

Little important constructive legislation is expected until after Christmas, as the Ministers have not had time to definitely settle their policy or map out their plans.

Liberal papers continue daily to map out new naval policies for the Government, the latest being that of subsidized ocean steamers, to be turned into fast auxiliary cruisers. As a matter of fact, the Government has not yet taken up the naval question. Before any policy is decided upon, even if there is a referendum or not, the British Admiralty is likely to be consulted and their advice as to the assistance which is most valuable to the Motherland will be secured.

PROBABILITIES

Northerly winds, cold to-day and Thursday with local snow flurries.

MARY MANNERING.
PHOTO BY MORRISON

Who has decided to retire from the stage to take up domestic life.

Imperial Navy Council.

London, Nov. 1.—It is understood that the new First Lord of the Admiralty is considering the establishment of a War Council which among other things, is to act as a connecting link with the administrations of Dominion navies, promoting the unity idea.

CHURCH PREY TO FLAMES

Handsome Montreal Edifice Burned to Ground.

Five Hundred Children in it When Fire Started.

Montreal, Nov. 1.—At 4.15 o'clock yesterday afternoon, an alarm of fire was turned in from the box at the corner of Atwater avenue and Workmen street, and by the time the first division of the brigade reached the scene, it was found that the St. Irene Roman Catholic Church was in flames, and the fire had gained such a hold on the structure that a second alarm was turned in immediately.

A large body of police were rushed out to the scene as soon as the magnitude of the outbreak was made known, and they had the utmost difficulty in keeping the rapidly gathering crowds at a safe distance from the walls, when, about a quarter of an hour after the outbreak was discovered, the tower and a portion of the roof fell in and the walls cracked and sagged in such an alarming manner that the crowd scattered in all directions.

With the second alarm, the ambulances of the various city hospitals reached the scene and were ready for any emergency.

The fire was intensely fierce, and the hangings and decorations fed the flames, which spread with great rapidity.

At the time the outbreak was discovered, there were five hundred children from the parochial school in the church attending the special services of prayer and meditation for October, and they, under the cool guidance of the reverend sisters and the priests, were got safely out of the building before the danger became too pronounced.

With the turning in of the second alarm, the danger of the walls and tower crashing down became more pronounced, and no sooner had the steamers been started and the lines of hose laid, when the tower of the edifice commenced to totter and the roof adjacent to it caved in with a roar which sent the flames and sparks flying over the adjoining roofs.

The crowd in their eagerness to see what was going on, hampered the men somewhat, and ran considerable risk in passing close to the walls, which every moment showed tendencies to fall outward. And so men- ing did this danger become, that certain portions were razed by dyn mite in order to give the fire-fight better facilities for getting at blaze.

Aiding the firemen in every way by telling them what the interior arra ments of the building were like, cure was in the thick of the fight without fear. The flames rapidly spre to the presbytery adjoining the edifice, and this was soon aflame fr attic to basement, and the residents in the neighborhood were on their roofs and wooden galleries, alert tha no falling embers started incipient blazes.

The fire broke out without warnin of any kind, and it is presumed menced in the basement, as the fir intimation of any kind that the co gregation had that anything was wro was when a sheet of flames shot through the floor of the chur

HOME RULE QUESTION COMES BEFORE THE BRITISH CABINET

Question of Finances Very Much to the Fore in the Scheme Now Being Considered.

London, Nov. 1.—The home rule scheme, which has been under secret preparation for some time past at the hands of Premier Asquith, Augustin Birrell, Chief Secretary for Ireland, assisted by Sir John Simon and other prominent members of the House of Commons, was discussed yesterday by the Cabinet, it is believed for the first time. The finacial features of the scheme are attracting the attention of all parties. The theory has been current that the Imperial Parliament will be asked to launch the Irish Government with a subsidy estimated at from $75,000,000 to $150,000,000.

The Treasury estimates that the Irish expenditure exceeds the reven by $6,500,000 annually. The Nationalists consider this an exaggeration b at least $1,500,000. They contend th any Irish deficit is due to extravaga expenses imposed by Parliament, notably those attached to the consta lary.

An alternative suggested to a lum grant is that the Government main tain some item of Irish expense. O age pensions are principally menti ed. A report last night credits th committee in charge of the home ru scheme as endorsing this. The opinion is that the Imperial Parlia ment will keep control of Irish toms and excise, thus insuring a eral system for the United Ki and preventing Ireland from a protective wall against England, the largest colonies have done.

SCIATICA

EXPECTED DEATH ANY DAY

Another Case Where Life Was Saved and Health Restored by "Nerviline."

It is because he feels it his solemn duty to tell to the world his faith in Nerviline that Victor P. Hires makes the following declaration: "For three years I was in the Royal Mail service, and in all kinds of weather had to meet the night trains. Dampness, cold, and exposure brought on sciatica that affected my left side. Sometimes an attack would come on that made me powerless to work. I was so nearly a complete cripple that I had to give up my job. I was in despair, completely cast down because the money I spent on trying to get well was wasted. I was speaking to my chemist one day, and he recommended "Nerviline." I had this good liniment rubbed on several times a day, and got relief. In order to build up my general health and improve my blood I used Ferrozone, one tablet with each meal. I continued this treatment four months and was cured. I have used all kinds of liniments, and can truthfully say that Nerviline is far stronger, more penetrating, and infinitely better than anything else for relieving pain. I urge everyone with lumbago, neuralgia, rheumatism, or sciatica to use Nerviline. I know it will cure them."

CURED SIX YEARS

There isn't a more highly-esteemed citizen in Westchester than Mr. Hires. What he says can be relied upon. For six years since being cured he hasn't had a single relapse. Don't accept anything from your dealer but "Nerviline." 50 cents per bottle, trial size, 25c; sold everywhere, or The Catarrhozone Co., Kingston, Ont.

CORNS CURED IN 24 HOURS

You can painlessly remove any corn, either hard, soft, or bleeding, by applying Putnam's Corn Extractor. It never burns, leaves no scar, contains no acids; is harmless, because composed only of healing gums and balms. Fifty years in use. Cure guaranteed. Sold by all druggists. 25c bottles. Refuse substitutes.

PUTNAM'S PAINLESS CORN EXTRACTOR

The Daily Review

WEDNESDAY, NOV. 1, 1911.

THE WHITNEY RECORD

The record which Premier Whitney refers to, in his electoral address, is one of which any man might be proud. The Liberals accuse him of living in the past because he modestly makes reference to the record. But does not the good book say that "By their fruits ye shall know them"? The record of a government in office is one which must necessarily be presented, because upon that record, and upon its plans for the future must any government be judged. The fact is that if there were anything in the Whitney record for the last six years which could be successfully criticized, the Liberals would not tumble over themselves to say all that was "living in the past." To divert attention from the magnificent record of Sir James would please the opposition sharp-shooters only too well.

But even Sir James does not rely only on his record of achievement. Sir James is mindful of the fact that the people of Ontario are very much satisfied that his policy of being "honest enough to be bold, and bold enough to be honest," has been successfully demonstrated in office. He knows that he can rely on the support of the people generally, that his administration has commanded the approval of the electorate at large. And in possession of this knowledge, Sir James may go quietly forward with his plans for the betterment of the work of the province, assured that while in some things he may not be radical enough to suit the Socialists, nor conservative enough to suit "the interests" he is pursuing the safe and sound course of general progressiveness. And it might be remarked that it would indeed be a queer province which would exchange the Whitney administration strong, forceful, and clean, for an administration composed of men now practically leaderless, and utterly disorganized as to concurrence in any practical, progressive platform. Wild, freak planks in a platform will not catch the people of Ontario. They must be solid, sane proposals, looking towards the betterment of the province. And where are those proposals from the Liberal opposition? The Whitney government has been so firm and forward in its policies that there isn't much room for the Liberal carpenters.

The return of Sir James is assured. We cannot say "by a larger majority," because he has almost all the majority in the house now, that he can get. Sir James could even afford to lose a few seats, without worrying at all. But West Peterborough and East Peterborough need government supporters, and Mr. Peck is the man for this riding on December 11th.

Wood's Phosphodine, The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins, Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhea, and Effects of Abuse or Excesses. Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. New pamphlet mailed free. The Wood Medicine Co. (formerly Windsor) Toronto, Ont.

THEIR WINNING FIGHT

While certain temperance enthusiasts may storm about the iniquity of the Whitney three-fifths clause in the local option law, it is growing more and more apparent daily that under this alleged iniquitous bit of legislation the cause of local option is becoming stronger and stronger. The record is an interesting one, and well worth scanning, says the Hamilton Spectator.

In 1875 there were 6,185 licenses issued for the province; to-day there are only 1,675. That in itself is an encouraging prospect for temperance workers, but it is by no means the most encouraging feature of the campaign. It is not more than seven years since the local option battle was taken up in earnest by the Dominion alliance and yet to-day out of the 822 municipalities in the province no less than 422 are "dry." But encouraging as this bit of information must be to the workers, it is not the best bit by any means.

Under the Whitney law it is not possible to submit by-laws either for the adoption or repeal of local option sooner than three years after a vote has been previously taken. In the year 1909 there were 97 Ontario municipalities where local option by-laws had been in force three years or more and where, therefore, repeal was possible. The liquor interests brought on voting in 29 places; 27 sustained local option; 2 repealed. In 1910 there were 111 possible repeal contests. Voting was brought on in only 12 places. Local option was sustained in 10, and repealed in 2 of these. In 1911, however, the success of local option was very marked. There were 134 municipalities where local option by-laws had been in force for three years or more. Actually in 131 of these the liquor interests found it impossible to bring on a repeal vote. Three municipalities voted, and all 3 sustained the law, the aggregate vote in the 3 places being, for local option, 1,043; against, 529; majority for, 514.

At the forthcoming municipal elections there will be another big fight between the liquor and temperance interests, this year the battle being waged in New Ontario and Western Ontario. The probability is that the local optionists will fight for the "drying" of about thirty-five per cent of the places open to them, while the liquor interests will endeavor to secure the repeal of the local option measure in about eight per cent. of the "dry" municipalities open for a repeal vote. Already it is admitted on both sides that the battle this year will be more sternly waged than ever before. The constituencies being attacked are harder to carry for the by-law and the repeal contests promise to be bitterly fought. But temperance people have no reason to be down-cast at the prospect. So far the victory has been predominantly with them. Even if in the coming fight they were to break even they would be winners, for their opponents stand to lose in any event.

LINOTYPE DUTIES

The Weekly Sun, of Toronto, says:

The Peterboro Review thinks the Canadian duty on linotype machines, which are used in type setting in the Review office, should be abolished.

The same journal opposed an agreement that would have removed the United States duty on Canadian hogs, cattle and barley and so made Canadian farming more profitable.

This is merely a specimen case of the selfishness and inconsistency of The Interests which opposed Reciprocity.

Surely this is to some extent begging the question. The Review advocates the removal of the duty on linotype or other setting machines not manufactured in Canada, because they are not produced in Canada, and will not likely ever be, there being such a comparatively small field for the machines considering their high cost. There is a duty of $500 or $600 on every linotype machine brought into Canada. This is not protection, for there is no home industry to protect. Surely it cannot be regarded as inconsistent in a protectionist newspaper, that it should desire to bring in free some things which we cannot produce here. As a matter of fact, the imposition of a duty on articles that we do not produce is merely a tax on ourselves for revenue, and we submit that if the Fielding surplus of thirty millions is at all true, this relief can be easily afforded the newspapers, which are doing a good work, with very little financial reward, in many cases.

If Canadians had a chance to grow linotype machines on our fertile prairies, or could manufacture them here in opposition to the United States, so that we could get them at a reasonable price above cost, the Review would not bother about the question of duty. The newspapers of Canada are not rich concerns on the whole and representing the power and force which they do, we wonder that even before this, they have not sought some relief from such TAXATION, pure and simple. If the publishers of Canadian newspapers were as active in caring for their own financial interests, as they are to support the party they are affiliated with, through right or wrong, they would be a good deal farther ahead.

THEY DID JUST WHAT YOU SAID

GIN PILLS WOULD DO

QUEBEC, P.Q.

"I received the sample of Gin Pills and have taken them. They have done me so much good. They do just what you say in your circular that they will do. I can but congratulate myself that I sent for the sample, and I bought a large box at my druggist's. I have made up my mind that I shall never be without them until I am cured. I thank you many times, for I had never found a remedy to do me any good until I tried Gin Pills".

MADAME MARIE MIVILLE DUCHENE.

Do just as Madame Duchêne did—write for a free sample of Gin Pills, and try them for Kidney Trouble, Irritated Bladder, Painful or Suppressed Urine, Pain in the Back, Rheumatism, Sciatica, or Lumbago. If they benefit you, get the regular size boxes at your druggist's—50c. or 6 for $2.50. But write right now for the free sample. National Drug and Chemical Co. of Canada, Limited, Dept. B Toronto. 95

EDITORIAL NOTES

The Toronto civic authorities are proposing to prohibit the keeping of hens in the city. Most of the poor married men in the city will shout for joy.

Some of the Liberals want a plank in the party platform calling for the prohibition of the sale of liquor in barrels. Well, that would help the manufacturers of demi-johns, and other glass-ware very nicely. The Liberals ought to at least get this support.

The latest rumor at Ottawa is that the Borden government will subsidize fast commercial steamers as armored cruisers to be used in the event of war. This might easily be done, if these ships were fast and modern. It would be a solution of the navy difficulty, agreeable to those who want a navy and those who don't.

Hon. Mr. MacKay has quit. The Liberals in Ontario are to commence the campaign with a new leader, strange to the people of the province, and with sharp divisions in its ranks as regards matters of policy. Those who say that Premier Whitney brought along the elections so soon, to take advantage of the Liberal party, should remember that there doesn't seem to be much visible party to take advantage of.

$100 REWARD, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Farmer's Strange Death.

Welland, Nov. 1.—John Anderson, aged 46, a prosperous farmer residing about two miles from the village of Wellandsport, was found dead in a wagon driven by Wm. Ricker, a neighbor. Anderson and Ricker had driven to Dunnville together in the morning, and were accompanied by Mrs. Ricker, mother of Ricker. At the time he left his home Anderson was in the best of health. Returning late in the afternoon, he said he did not feel good and would lie down.

It has been shown that he had not been drinking. An inquest will be held.

Wireless Tells of Tragedy.

London, Nov. 1.—The following marconigram was received from the yacht Sapphire: "Nine of the crew of the steamer Ravenshough, Glasgow to Riga, were picked up by us at 8.45 a.m. in Barra Sound, outer Hebrides. The ship is supposed to have foundered off Skerrymore early on Sunday morning. It is feared ten men have been drowned."

BEAUTIFUL EYES

are made beautiful by long, silky lashes, and well defined, lustrous brows. Eyes, like diamonds, depend on their setting. The beauties of the face are lost if the eye brows are thin and scanty, and the lashes are short and lifeless. Parisian Lash Lustre grows beautiful, soft, silky lashes. It has done so for society women throughout Europe, and it comes here well recommended to do the same for you. Parisian Lash Lustre is not a dye or colorator, but a scientific preparation for beautifying the eye lashes and brows. Our guarantee goes with every box of Parisian Lash Lustre. Two weeks' treatment will bring beauty to your eyes that you have never before possessed. By mail, prepaid, in oval boxes, on receipt of price, fifty cents. S. V. Marion, sole distributor, Bridge-

THE MARKETS

Latest Quotations in Grain Dairy Products, Live Stock Etc.

CHICAGO, Oct. 31.—Suspicion was rampant to-day that the leading longs in wheat had been letting go of a big part of their holdings. In consequence the market broke sharply in the last hour of trading and finished heavy 2c to 2 5-8c lower than last night. Other grains, too, showed a net loss—corn 1c to 1 1-8c and oats 7-8c to 1c to 1 1-8c. The end of the day left hog products varying from unchanged figures to a decline of 10c.

The Liverpool market closed to-day ¼d to ⅝d lower than yesterday on wheat, and unchanged to ¼d higher on corn. Antwerp closed ⅜c higher on wheat, Berlin ¼c lower, Paris unchanged to ¼d higher, and Buda Pest ⅜c higher.

Montreal Grain and Produce.

MONTREAL, Oct. 31.—Business in grain over the cable continues very quiet, the demand from foreign buyers being very limited, as they show no disposition to meet prices asked by exporters. There is a fairly good enquiry for oats on spot, of which the offerings are limited, and the undertone to the market is firmer. A good local and country trade continues to be done in flour at firm prices, but the export demand is quiet. Bran and shorts are in good demand, and a fair volume of business is passing in rolled oats. Cheese is quiet but firm, while the demand for butter and eggs is good. Provisions are steady, with a fair demand for some lines. Exports of cheese for last week were 54,868 boxes, against 59,478 a year ago.

Dressed hogs—Abattoir, $8.50 to $9 per 100 pounds.

Beef—Plate, half-barrels, 100 lbs., $7.50; barrels, 200 lbs., $14.50; tierces, 300 lbs., $21.50.

Lard—Compound tierces, 375 lbs., 9¼c; boxes, 50 lbs. net (parchment lined), 9⅜c; tubs, 50 lbs. net, grained, two handles, 9½c; pails, wood, 20 lbs. net, 9⅝c; tin pails, 20 lbs. gross, 9¼c.

Pork—Heavy Canada short cut mess, barrels, 35 to 45 pieces, $24; half-barrels, $12.25; Canada short cut and back pork, 45 to 55 pieces, barrels, $23; Canada clear pork, barrels, 30 to 35 pieces, $22.50; bean pork, small pieces, but fat, barrels, $17.50.

Oats—Canadian western, No. 2, 48c to 48½c, car lots, ex-store; extra No. 1 feed, 47½c to 48c; No. 3 C.W., 47c to 47½c; No. 2 local white, 46½c to 47c; No. 3 local white, 46c to 46½c; No. 4 local white, 45½c to 46c.

Flour—Manitoba spring wheat patents, firsts, $5.60; seconds, $5.10; winter wheat patents, $4.75 to $5; strong bakers', $4.90; straight rollers, $4.25 to $4.40; in bags, $1.95 to $2.05.

Millfeed—Bran, Ontario, $23 to $24; Manitoba, $23; middlings, Ontario, $27 to $28; shorts, Manitoba, $25 to $26; moullie, $30 to $33.

Eggs—Selected, 26½c to 28c; fresh, 30c to 34c; No. 1 stock, 22½c to 24c.

Cheese—Westerns, 14c to 14¼c; easterns, 13½c to 13⅞c.

Butter—Choicest, 27c to 27½c; seconds, 26½c to 26¾c.

CATTLE MARKETS.

Toronto Live Stock.

TORONTO, Oct. 31.—The railways reported 94 carloads at the City Yards, comprising 1614 cattle, 862 hogs, 1428 sheep and lambs and 90 calves.

Butchers' Cattle.

Geo. Rowntree bought 280 cattle on this market on Saturday, and 200 cattle to-day for the Harris Abattoir Company—steers and heifers at $5 to $5.65; cows, $3 to $4.65; bulls, $3.50 to $5; canners and cutters at $1.80 to $2.75.

Stockers and Feeders.

Feeders, 900 to 1000 lbs. each, sold at $4.50 to $4.75; feeders, 800 to 900 lbs. each, at $4.25 to $4.50; stockers, $3.25 to $4.

Milkers and Springers.

Milkers and springers sold at from $40 to $70 each. But see sales given.

Veal Calves.

Calves of all classes and grades ranged from $3.25 up to $7.50, and in one or two instances $8 was reported.

Sheep and Lambs.

Sheep sold at $3.50 to $4 for ewes, $3 for rams; lambs sold at $5.50 to $5.60 for the bulk, and $5.70 was paid for a few selected ewes and wethers.

Hogs.

Mr. Harris reported selects, fed and watered, at $6.10 to $6.15.

East Buffalo Cattle Market.

EAST BUFFALO, Oct. 31.—Cattle—Receipts 400 head; market dull and steady; prime steers, $7 to $7.75; butcher grades, $3 to $6.75.

Calves—Receipts 75 head; market active and steady; cull to choice, $5 to $9.50.

Sheep and lambs.—Receipts 3000 head; market active and firm; choice lambs, $5.50 to $5.90; cull to fair, $4.50 to $5.50; yearlings, $4 to $4.25; sheeps, $2 to $3.65.

Hogs—Receipts 4250; market slow, 5c to 10c lower; yorkers, $6.60 to $6.60; stags, $5 to $5.25; pigs, $5.85 to $5.90; mixed, $6.65; heavy, $6.70 to $6.75; roughs, $5.50 to $5.85.

New York Live Stock.

NEW YORK, Oct. 31.—Beeves—Receipts, 1130 head; no trading; feeling firm.

Calves—Receipts, 304 head; market steady. Veals, $6.50 to $10; culls, $4 to $5; grassers, $3.50 to $4.00; culls, $3; Indiana calves, $4.40 to $6.00.

Sheep and Lambs—Receipts, 8857 head; sheep steady; lambs firm and more active; sheep, $3 to $4.00; a few export at $4.75; culls, $1.50. Lambs, $4.75 to $5.85; culls, $4 to $4.50.

Hogs—Receipts, 3000 head; nominally firm, at $6.60 to $6.90; pigs, $6.25 to $6.50.

Chicago Live Stock.

CHICAGO, Oct. 31.—Cattle—Receipts, estimated at 7800; market steady. Beeves, $4.60 to $9.00; Texas steers, $4.10 to $5.90; western steers, $4.15 to $7; stockers and feeders, $2.80 to $5.75; cows and heifers, $2 to $5.85; calves, $5 to $8.50.

Hogs—Receipts, estimated at 28,000; market, 5c to 10c lower than yesterday. Light, $5.70 to $6.25; mixed, $5.75 to $6.30; heavy, $5.75 to $6.30; rough, $5.75 to $6; medium to choice heavy, $6 to $6.30; pigs, $3.75 to $5.65; bulk of sales, $6.10 to $6.25.

Sheep—Receipts, estimated at 30,000; market, 10c to 15c higher. Native, $2 to $3.70; western, $2.30 to $3.75; yearlings, $3.60 to $4.30; lambs, native, $3.50 to $5.75; western, $3.75 to $5.50.

Liverpool Cattle Market.

LIVERPOOL, Oct. 31.—John Rogers & Co. cabled to-day that the market in Birkenhead held firm and there was a better demand for best cattle, altho there was no advance on Saturday's quotations, which were: States steers, from 12½c to 13¼c; Canadians, 11¾c to 12½c, and ranchers, 11c to 11¾c per pound.

Rayo Lamp

The Lamp That Saves The Eyes

Children naturally never think of possible strain on their eyesight when poring over a fascinating book.

It is up to you to see they do not ruin their young eyes these long evenings by reading under a poor light.

The Rayo Lamp is an insurance against eye troubles, alike for young and old.

The Rayo is a low-priced lamp, but it is constructed on the soundest scientific principles, and there is not a better lamp made at any price.

It is easy on the eye because its light is so soft and white and widely diffused. And a Rayo Lamp never flickers.

Easily lighted without removing shade or chimney; easy to clean and rewick. Solid brass throughout, with handsome nickel finish; also in many other styles and finishes.

Ask your dealer to show you his line of Rayo lamps; or write for descriptive circular to any agency of

The Queen City Oil Company, Limited

MEXICO IN '42

By D. Lewis

"Well, Senor Colonel, your strategy is good. I don't see that you could have done better under the circumstances. But it's doubtful whether we shall be able to trap our foxes in the Pedregal. One of them knows its paths too well to let night or darkness hinder his travelling along them, and thence to the Sierras. Confound those Sierras with their caverns and forests. They're full of my enemies, rebels and robbers. But I'll have them rooted out, hanged, shot, till I clear the country of disaffection. I shall be master of Mexico, not only in name, but deeds Emperor in reality!"

"Yes, Senor Colonel!" he continued in tone satisfied as trimuphant. "These men must be recaptured at all cost — if it takes my whole army to do it. To you I intrust the task — its whole management. You have my authority to requisition troops and spend whatever money may be needed to insure success. And," he added stepping close to his subordinate and speaking in a confidential way, "if you can bring me back Ruperto Rivas, or his head so that I can recognize it, I shall thank you not as Colonel, but as General Santander."

CHAPTER XXXVI

Up the Mountain.

"We're going to have a night black as charcoal," said Rivas, running his eye along the outline of the Cordilleras and taking survey of the sky beyond.

"It will be necessary for us to reach the mountains before morning," he added after a pause. "Were we but common jailbirds who had bolted, it wouldn't much signify, and we'd be safe here for days, or indeed for ever. But neither you nor I, Senor Kearney, come under that category—unluckily for us, just now — and the Pedregal, labyrinth though it be, will get surrounded and explored — every inch of it within the next 48 hours. So out of it we must move this night or never."

The Mexican once more lead off, after enforcing upon the others to keep close to him and make no noise avoidable.

Another half hour of clambering over rocks and scrambing through thickets and he again came to a stop.

"A picket!" said Rivas, in a half whisper.

"Good!" mutteringly exclaimed the Mexican. "They're at their game of monte. While so engaged not much fear they'll think of aught else. I know the spot they're in, and a way that will take us round it. Come on comrades! The trick's ours!"

Sure enough it proved so.

Twenty minutes after they were mounting the steep slope of the Cerro Ajusco, amid tall forest trees, with no more fear of pursuit by soldiers than if separated from them by 100 long leagues.

After breasting the mountain for some time, they paused to take breath, Rivas saying:

"Well, friends, we're on safe ground now and may rest a bit. It's been a close shave, though. Look yonder! They're at it yet."

He referred to a faint light visible at a long distance below, on the edge of the Pedregal, where they had passed the monte players.

The point the fugitves were making for was still further up the mountain, though none of them could tell where save Rivas himself. He knew the place, and well; otherwise he could not have proceeded, so thick was the darkness.

Then a further advance up the mountain resulted in another halt; this time at hearing the hail:

"Who comes there?"

"El Capitan!" called out Rivas in answer and received for repoinder first an exclamation of delighted surprise, then words signifying permission to approach and pass.

The approach was not so easy, being up a steep incline, almost a cliff. But on reaching its crest they came in sight of the man who had challenged, standing on a ledge of rock. A strange-looking figure he seemed to Kearney and the Texan, wearing a long loose robe, girded at the waist — the garb of a monk, if the dim light was not deceiving them; yet with the air of a soldier, and sentinel-fashion, carrying a gun!

He was at "present arms" when they got up opposite, and wondering, but without saying aught, they passed him — their conductor, after a momentary pause and a muttered word to him, leading on as before.

Another ascent, this time short, but still almost precipitous, and this climbing came to an end.

CHAPTER XXXVII

A Faithful Steward.

"Behold my humble abode, comrades. Let me bid you welcome to it.'

There was light enough to let them see a massive pile of mason work outlined against the face of the cliff, too dim for them to distinguish its features. They could make out, however, what appeared to be a pair of windows with pointed arches and between them a large doorway, seeming more like the mouth of a cavern.

"Who are you?"

'I, Gregorio!" was the answer given by Rivas.

"El Capitan!" exclaimed the questioner, in a tone telling of pleased surprise. "And free again. I'm so glad, Don Ruperto!"

"Thanks, Gregorio! But there's no time to talk now. My friends and I are in want of something to eat. We're as hungry as coyotes. What have you got in the larder?"

"Not much, I fear, your worship. And the cook's gone to bed, with everybody else. But they'll be delighted to get up when they hear it's your worship come back. Shall I go and rouse them, senor?"

"No, no. Let them sleep it out. Any cold thing will do for us."

"What a faithful steward you've proved yourself, Gregorio! We haven't tasted tobacco for days, and are all dying for a smoke."

They had entered the porch. There was a light issuing from a side door, which stood open, and Rivas signified to the others to pass on inside, which they did.

"Now, friends," said the Mexican to his guests, on whose faces he could not fail to note an odd, inquiring expression, "I can at last say to you, feel safe, if I can't assure you of a supper good as I'd wish to give. Still, if I mistake not, 'twill be superior to our prison fare. Having to put up with that was punishment enough of itself, without being set to work in the sewers."

The remarks of their host were brought to a close by the entrance of the mayor-domo loaded with bottles and glasses. He had orders to bring the wine first, the cigars along with it.

Not long lingered they over it. Overcome by the toil and struggle of days, and the mental worry attendant, even the wine freely quaffed failed to excite them afresh. Rest and sleep they needed, and all were glad when Gregorio again showed his face at the door, saying:

"Gentlemen, your sleeping rooms are ready."

To be continued.

CARTER'S LITTLE LIVER PILLS.

CURE Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them.

CARTER MEDICINE CO., NEW YORK.

Small Pill. Small Dose. Small Price.

OLD NICK'S COURTING

By Lea. Throgmorten

Copyright by Publishers' Press Ltd.

"It was the fair time, and Jess Babberton was for the fair. 'I'm going to get a sweetheart,' she says. 'I can't do wantin' a sweetheart no more. I'm tired o' life, I be,' she says, 'wantin' a sweetheart.'

"'Hark,' says her mother, 'you don't get a sweetheart just with saying that. When the right man comes, he comes.

"But Jess was short-tempered then. 'I tell 'e I'm going to get husband at the fair — if it's Old Nick himself,' says Jess."

Jess went to the fair, but no one requested her company to see apples or cheese, or fat lady or thin gentleman, or any of the lucrative abortions. And to go and look at a double-headed boy all alone is hardly what one could call amusing.

So Jess left the flare of naphtha lamps behind and started homeward, but when a youth appeared from a side road and asked her if he might keep her company on the way she did not fling herself at him. She drew erect and said:

"I don't know you. Where do you come from? I don't mind your face. Where do you live?"

"I come," said he, "from walking up and down in the earth."

At the gate: "Can I see you some other night?" asked the youth.

Jess looked in his face freely — the face that she had been seeing so much in pale profile — and something prompted her then to say "No." So she said "Yes" with a sigh in her voice and a sickening leap at her heart.

"And did you meet your boy at the fair?" the mother asked. "I'm glad you didn't come back with Old Nick as you spoke of," said the mother, laughing to cover any sign of anxiety and watchfulness.

Jess Babbicombe had got a lover; she went out walking with him once a week to begin with. Later she went twice a week, for her boy waited for her after evening church, as well as once in mid-week, and they strayed through the lanes, and sat on the banks under the whisper of leaves in the trees.

But curiously, though Jess had often enough met friends when "walking out" with her boy, no one ever mentioned him to her, and that was a strange circumstance, for in our part of the world it is usual to say pleasant things to lovers, and the lovers, indeed, rather like such comments, and crave them when they are not offered.

Jess noticed this lack at length.

Jess's boy met her with great warmth. They kissed and clung a moment, and then turned to walk; but she caught him about the neck, and, said she: "Oh, I love you more every time I see you. But I grow afraid."

"Why are you afraid?"

"Tell me,' 'she said, "tell me—are you true to me—in the name of heaven?" she added with intensity.

"Don't say that!" he cried.

"Why not?" she said. "Why can't you answer me? Why should you fear the name of——" But he writhed from her.

"I am true to you," he said, and then he composed himself and, said he, in a hard voice: "I swear it!" And he kissed her on the cheek

But it chanced that the vicar had been passing as Jess spoke to her lover so, and he went on his way with a heavy heart, and next day he made a point of calling at the Babbicombes' farm, managing to see Jess alone at her work. He spoke to her like a father—for she had no father—and asked her about the young man.

And the vicar was so kind that she told him all. And he questioned more and found out how she had said that she would get a sweetheart were it Old Nick himself at the fair. So the vicar stood thinking some time, and then formed a scheme and laid it before Jess very solemnly. And as they schemed, so they acted.

Next time "the boy" came up the lane, Jess welcomed him and took him indoors and gave him the pleasure, dear to the male heart when it is in love, of seeing his sweetheart laying table for tea, poking up the fire, preparing the kettle.

Then there came a knock on the door and the vicar entered.

"Young man," said the vicar, "I am glad I happen to meet you here to-night, for I have seen you with my young friend Jess, and wished to meet you."

The young man frowned.

"I am no enemy to youth's love," said the vicar, "and I am glad to see you here as a friend."

"Thank you, sir," said "the boy." "Jess has just been and promised me her hand, and it's like we'll be needing your kind services soon."

"I shall be pleased to unite any happy pair in holy wedlock," said the vicar, "and," he added, staring hard, "to bless you in the name of the Father and of——"

"The boy" blanched and squirmed in his chair as with a seizure.

And the resolute vicar concluded the blessing in the orthodox church way, which no evil spirit can withstand.

And on that "the boy" gave a cry hardly human and rose to his feet. Said he wildly, his face transformed beyond all resemblance to that of the farm help he had been a moment before: "A blight on you!" And then he pointed to among the candles.

"I give till that candle burns out, and then," he said, "I shall snatch away this maiden for ever."

The vicar stepped to the candle, snuffed it out, and put it in his coat pocket, keeping a hand on it there, and then, raising his other hand, he said:

"Get thee hence, Satan!"

And the plough-boy, or whoever he was, rose and slouched from the place. And Jess was left without her lover.

And years after, when the masons were repairing the old church they found a hollowed stone in the wall, and in the hollow was a deed box with that old vicar's name on it, and in the deed box was a stump of candle.

FAME OF MORRISCY'S COUGH CURE

WIDE AS AMERICAN CONTINENT.

Ringing Praise For "No. 10." Prescribed By Him 47 Years Ago.

Mr. Miles Maroney, Blissfield, N. B., says: "I had occasion to visit the Rev. Gentleman for treatment for lung trouble, which proved to be of such a serious nature that my friends looked upon my recovery as almost hopeless—but after taking his No. 10 Lung Tonic I am thankful to say I am in perfect health, and I recommend No. 10 to all the world."

Mrs. Malcolm Livingston, Rumford Falls, Me., says: "I cannot praise your No. 10 Lung Tonic too highly, because it cured me of throat trouble of long standing—it is now four years ago and I have not been troubled since."

Mr Daniel McCarthy, Wood's Island, N. S., writes: "Thank God! my little girl is now well and able to go to school—your No. 10 saved her life, and I give you a thousand thanks that she is well again."

Mr. Jno. Aylward, Campbellton, N. B., writes: "While traveling on the Gaspé Coast I contracted a severe cold, which settled upon my lungs. I procured your No. 10 Lung Tonic just in the nick of time to save my life. After one month's use I felt like a new man, and I recommend it as the surest and best remedy I know of."

Mrs. George Desmarais, St. Jean, P. Q., says: "I can speak in the highest favor of your No. 10 Lung Tonic, as I suffered for a long time from lung trouble—and could get nothing to cure me until I tried your remedy. I used it regularly, and to my great surprise I got well, and now am completely cured. It is with sincere thanks and gratitude that I recommend this priceless remedy."

Mrs. Wm. Nar. Lavigne, Bathurst, N. B., writes: "I cannot find fitting words to say enough for your No. 10 Lung Tonic. It is indispensable to every home. It has done wonders for me when other remedies failed, and we are never without it in the home. The cures that have been made down here by this remedy are hard to believe—they are so wonderful. Everybody ought to use it."

Mr. Alex. H. McRae, Carnoustie, Sask., says: "I am glad you are pushing your medicines this way. Have used many kinds of cough medicine, but I never found anything to equal yours. Your No. 10 is all you claim for it. Believe your sales will be large out here, as these people appreciate a good thing."

The above prescription is not a "Cure-All" or so-called patent medicine. Dr. Morriscy prescribed it for 44 years, and it cured thousands after other doctors failed.

Price—Small Size, 25c.; Large Size, 50c. per bottle — at your dealers, or Father Morriscy Medicine Co., Limited, Montreal. 402

Sold and guaranteed in Peterborough by McDermid & Jary.

New "Far West" Location

A Canadian Pacific Railway Official who has just returned from a trip to the Pacific Coast states that there will be undoubtedly a big rush of settlers to the Windermere Valley next year, a district that is being rapidly opened up. The Company, it is stated, will have forty miles of road into the valley in operation next year, and with these transportation facilities at their command, new settlers will find the district a good one in which to settle. The land of the Windermere Valley is singularly free from rock, and is composed of rich fertile soil, with sufficient timber for the construction of buildings and for domestic purposes. Water for irrigation purposes is plentiful and easily obtained and the climate of the Valley is remarkably free from extremes of heat and cold.

With Good Intent.

"I am going over to comfort Mrs. Brown," said Mrs. Jackson to her daughter Mary. "Mr. Brown hanged himself in their attic last night."

"Oh mother, don't go. You know you always say the wrong thing."

"Yes; I'm going, Mary. I'll just talk about the weather. That's a safe enough subject."

Mrs. Jackson went over on her visit of condolence. "We have had rainy weather lately, haven't we, Mrs. Brown?" she said.

"Yes," replied the widow; "I haven't been able to get a week's wash dried."

"Oh," said Mrs. Jackson, "I shouldn't think you would have any trouble; you have such a nice attic to hang things in!"

When I say, "Everybody says so," it means that I may so.

MY LADY'S COLUMN.

HEALTH AND BEAUTY

Clean Healthy Hair is Woman's Crown of Glory, and Can be Easily Kept Just So.

One of the reasons why the yolks of eggs are good for shampooing the hair is that they contain sulphur and ammonia; another reason is that they are also emollient. Hair which has been cleansed with an egg shampoo invariably looks full of lustre and brightness, and is soft and silky to the touch after the drying process is complete; but, in order that these results may appear, thorough rinsing is essential, as, if any of the egg preparation remains in the hair, it will be unpleasantly sticky and greasy afterwards. One of the secrets of successful head-washing, in fact, is that, whatever medium be employed for cleansing purposes, the rinsing in pure clean water afterwards should be carefully carried out.

Another secret which is well worth knowing is that pure rain or distilled water is an ideal hair cleanser. Washing the hair in very hard water is seldom successful. In the country rain-water is easily obtainable, and, if not perfectly clean, can be filtered before using. In towns it is more difficult to get but automatic domestic stills are now so frequently employed that where one of these is in use a plentiful supply of soft water can always be obtained.

PRETTY AND GRACEFUL

The girl who can effectively wear her hair in a low knot at the back of her head is fortunate this season. This is one of the prevailing fashions, and it is as pretty as it is graceful. For this style the hair is parted and drawn over the ears.

The knot may be a single large one in the nape of the neck, two on either side of the nape, or a trio. If done in the latter then one knot must be close after the other.

For the Traveller

The traveller who is fastidious about the boiling of her eggs should invest in one of the egg-shaped boilers of copper, small enough to pack in a trunk. It will cook four eggs.

This lamp is like a huge egg, has an alcohol lamp beneath and a tray with four compartments to hold the eggs erect in the water and make removal easy.

For the girl in an apartment who likes to do light housekeeping such a cooker could be utilized for making cup custards and other dishes cooked in water.

Coffee Recipe

Roast the beans before putting them into coffee grinder, each time fresh. Pack ground coffee tight on top of french coffee pot, and put in one spoonful of water at a time, so that it will drip very slowly. Be sure the water is boiling. Pour it over several times and allow one hour to make good coffee. Never left it stand after it is made.

Hot milk should almost come to a boil, cooking slowly but should not be allowed to stand. Use rich milk for coffee. Never buy ground coffee —or keep your coffee uncovered.

Lemon Cream.

Add the seat of lemon, rubbed on lump sugar, to a pint of cream. Whip it well, and sweeten with sugar and lemon juice to taste. Have ready half an ounce of isinglass which has been dissolved and allowed to get cool. When the cream is thick, which it should be after the lemon juice is added, pour in the isinglass then empty all into an ornamental mould. Other flavourings may be used, such as orange, almond, and maraschino.

To Clean Silver

There is no better or quicker way than to put them into hot, soapy water, and rub them with a soft piece of flannel, occasionally dipping the flannel into powdered and slaked whitening. Dry thoroughly, then wipe with a soft leather. To slake the whitening, pour over it cold water, and set it in a cool oven to dry. It will then be ready for use.

Codfish Rolls.

Boil four potatoes in their skins, peel and mash very fine. Work into the hot potatoes a half-box of shredded codfish, add pepper and salt to taste, and, with the hands, form into rolls or sticks about as large as your finger. Roll each of these in flour, and set in a cold place until wanted. Fry in hot lard to a good brown. Serve with a white sauce into which a tablespoonful of chopped parsley has been stirred.

Apple Fool

May be made in a similar way to "gooseberry fool," except that when stewed they should be peeled.

TO CURE A COLD IN ONE DAY Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

Your Opportunity

For One Day's Work MacLean's Magazine Announces that they will send any Man or Woman in Peterborough.

or in any surrounding town or village, an article which may be selected from their new large catalogue of premiums.

All you have to do is to secure a few subscriptions to MacLean's Magazine, Canada's leading monthly publication. A few of your spare hours devoted to the work will be sufficient to earn the article you want.

MacLean's Magazine will forward the premium you earn, absolutely free of cost to your address.

THEATRICAL

"THE RIGHT OF WAY"

As Charley Steele, in "The Right of Way," Sandford Dodge, made a splendid impression, before a large audience at the Grand Opera House last night. were some deviations from the story as told by Gilbert Parker in his world-wide read book, but on the whole the company assisting Mr. Dodge did good work.

Special mention is due Mr Andrew Castle, who as Joe Portugais, the staunch friend of Steele, cleverly delineated the difficult role of the French riverman The beautiful character of Rosalie was in the capable hands of Miss Adelle Nickerson.

The stage settings and dressings were typical of the scenes of the story and altogether the presentation was thoroughly enjoyed.

Gold Fish, Fish Food, Fish Globes A large shipment just received at Mason's Floral Emporium, Water Street. 2d

Fords Won Out

They had some warm contests in the automobile races in Toronto on Monday. After the Ford car dropped out of the 10-mile race for 30 h.p. cars, Harry Borsch, with his Warren car, had little trouble in winning from the others. The large cars appeared to be considerably handicapped by the sharp corners, which in no way bothered the Ford car.

BROKE TWO RIBS

A painful accident befell Mrs. J. Weir, of Norwood, on Sunday last, when she fell down the cellar and fractured two ribs besides receiving other minor injuries.

Ever remark that it makes you shiver to hear your telephone bell very early in the morning!

LAST MEETING OF CHEESE BOARD

Past Season Has Been Banner one for Prices

Production Was Less Than That of Last Year

The Peterborough Cheese Board ended a comparatively successful season when the final meeting was held in the Bank of Montreal chambers this morning. The prices obtained this year were the best in the history of the board, and this offset other difficulties and drawbacks to a large extent. The first ten weeks of the cheese making season was very trying, the weather being so extremely hot, that besides the loss in the milk, the cheese heated and the loss was enormous.

Mr. R. W. Ward, who has been instructor and sanitary inspector in connection with the Peterborough board for the past year, addressed the board this morning. He said that there had been some successes and some drawbacks. The members should be elated over the former and profit by the latter He congratulated the board on the high prices it had obtained this season. He had never seen its equal before. Last season had been a good one for production, but this season had been the reverse. This should be a strong object lesson to all factories to keep the milk in proper condition and have proper facilities for keeping the cheese. There had been an enormous loss on heated cheese this year as well as heated milk, and it was only offset by the prices. They were liable to run into conditions like this at any time and should be prepared.

A vote of thanks was tendered Mr. Ward by the board, and the secretary was instructed to write regarding his engagement.

Some remarks were made regarding the appreciation of the board for the use of the Bank of Montreal chambers. On motion the board decided to remunerate the janitor, as well as the reporters

Before the boarding of the cheese, Mr. Morton, in a neat speech, offered a vote of thanks for the president and officers, under whose capable management another successful season had been brought to a close. Mr. J. H. Thompson seconded Mr. Morton's motion, which was carried unanimously.

ONLY 1,483 CHEESE.

There were only 1,483 cheese boarded to-day, and they were all bought, except Maple Leaf and Myrtle, by Messrs. Cook and Gillespie, at 14 1-8c, the former taking Keene, Warminster, Villiers, Warsaw, Westwood, Oakdale, Daisy D., Lang, Indian River, Norwood and Killarney, while Mr. Gillespie got Shearer, Central Smith, Selwyn, Pine Grove, Ormonde, Young's Point, East Emily and Cedardale. There were representatives present to sell Maple Leaf and Myrtle and they remained unsold.

The factories boarded as follows—

Keene	65
Warminster	80
Shearer	70
Central Smith	32
Selwyn	80
Villiers	76
Warsaw	100
Westwood	85
Oakdale	60
Daisy D.	45
Pine Grove	65
Maple Leaf	50
Myrtle	120
Ormonde	75
Young's Point	80
Lang	85
Indian River	80
East Emily	50
Norwood	100
Killarney	55
Total	1,483

LOCAL MEN AT PORT McNICHOLL

Young Railway Town is in Thriving Condition

Mr. George Ruth, the real estate merchant, accompanied by Ed. Manning, have returned from Port McNicholl, having taken in the special excursion of the C.P.R. from Toronto and which was attended by over one hundred visitors. Mr. Ruth was seen by a Review reporter to-day for his opinion concerning the growing port, and found him greatly enthused over the future which is prophesied for Port McNicholl. It is situated on Georgian Bay and a through train route will soon be opened up by the C.P.R., giving direct connection from Peterborough to the new lake nucleus of commerce. With a large harbor and a splendid new dock, constructed by the C.P.R. and ideal facilities for shipping and storing grain, Port McNichol cannot fail but thrive. Only last spring, said Mr. Ruth, the main street was opened up, and although there are as yet only about twelve residences in the place, yet they are all large brick buildings and substantially constructed, none of which cost under $2,000. There is not a sign of a shack or unpretentious abode around.

The elevator has a capacity of 2,000,000 bushels. The C.P.R. has expended a large amount of money in construction work around the town and it has an optimistic outlook on prosperity.

Y.W.C.A. CALENDAR FOR THE WEEK

Wednesday 8 to 10—Hallowe'en masquerade frolic.

Thursday 4.30—Intermediate gymnasium class. 7.45—Public school work. 8—Home hygiene, Dr. McCulloch. 8—Senior gymnasium class. 8— Loyalty club meeting.

Friday 4.15—Shirt waist class. 7.45—Shirt waist class. 8—Bible study.

Saturday 2 to 4—Junior club work. 2—Sunshine club. 2.30—Victoria club.

Cooking classes will be organized this evening (Tuesday) all those intending to join are asked to be present.

If you want to make **your own aviation caps** we have all the newest shades in Ealerdown Wools, full oz. skeins, 2 for **25c**

Harry Adams

THE LATE WM. C. TAYLOR

The death occurred at about one o'clock this afternoon of Mr. William C Taylor, at the family residence, 176 London street. The late Mr. Taylor had been ailing for many months past, from Brights' disease, and his death at the ripe old age of 76 years was not unexpected.

Peterborough County loses one of its oldest and most highly esteemed residents, in the death of Mr. Taylor. Born near Bridgenorth in the township of Smith on May 30th, 1835, he passed the entire portion of his life in Peterborough city and county. He was a son of the late Charles Taylor, of Yorkshire, England, one of the early settlers of the township of Smith. Farming operations in Smith he carried on until the year 1874, when he moved to Peterborough, and was interested in the grain business for some years. In 1885 he purchased Beechwood farm in the township of Douro, where he resided until about four years ago, when he retired from active life and came to the city to reside at 176 London street. While in Douro he was, perhaps the most extensive farmer in the township. He erected one of the finest homes in the district. Beechwood farm is situated just near the Peterborough golf links.

In 1876, he married Miss Isabella Hall, daughter of the late John Hall of Smith township, who together with one daughter, Miss Isabella, at home, and one son Mr. William H, of the city are left to mourn his demise.

Although the late Mr. Taylor never took any active part in public affairs, he was well versed in municipal and political matters. He was a Liberal of the old school, and had been a reader of the Globe since the early days of George Brown. In religion, he was a Presbyterian and was a faithful member of St. Paul's church. A wide circle of friends, who knew him for his kindly and sympathetic disposition and for his integrity will miss him.

Besides his widow, a son and a daughter, the deceased is survived by several brothers and sisters. They are, Mr. Nathan Taylor, Wescott st., Peterborough, James of Elston, Sask, Mrs. Jonathan Mann, Water street, and Mrs. J. J. Hartley of Peterboro and Mrs. George Wallace of Winnipeg

At the time of going to press, funeral arrangements had not been made but interment will likely be held at Little Lake cemetery [illegible] afternoon

SIR DONALD MANN
Who is critically ill — He has been operated on for gall-stones.

OBITUARY

Thomas Hopcroft

A bright young life was brought to a close yesterday morning when Thos. Hopcroft passed away at the age of eighteen years.

Born in Birmingham, Eng., deceased came to Canada in the spring of this year and has been employed with the Dickson Lumber company. He was only ill about a week death being due to appendicitis.

Besides his parents, two brothers, Charles, Peterborough; James, Birmingham; and three sisters, Misses Lizzie, Kate and Doris, residing in England, survive.

The funeral took place at 2.30 o'clock to-day to Little Lake cemetery. Rev. Canon Davidson officiated.

Mrs. Matchett Bereaved

Mrs R. W. Matchett, East City, received the sad intelligence by telegram on Monday of the death of her sister-in-law, Mrs Joseph Nethercot, sr., of Dundalk, Ont., formerly of Otonabee, and well known in Peterborough

The deceased's maiden name was Jane Dunlap, and she was born in North Monaghan seventy-three years ago. She was of a most estimable disposition and has endeared herself to a large circle of acquaintances during her long life. A sorrowing husband and eight children are left to mourn her death.

The funeral was announced to be held in Dundalk this afternoon

Thomas Dunlap, of this city, is a brother.

REV. C. E. CRAGG WAS APPRECIATED

Trustee Board Make Increase in Pastor's Stipend

At a meeting of the Trustee Board of the Mark street Methodist church held in the basement of the church, last night it was decided to increase Rev. C. E. Cragg's salary by $150, making his yearly stipend $1,000.

Among other business matters discussed the question of who should be the new choir leader to succeed Mr. J. H. Callander, who is resigning as he intends removing to the southern part of the city, received considerable attention but there was nothing definite settled upon.

Railway News

The many friends of conductor "Daddy" Haskill of the G.T.R. flyer, will regret to know that his condition is such that his physicians deemed it advisable to have him removed to St. Joseph's Hospital this morning.

Conductor George Jobbitt, of the Lakefield train, is in temporary charge of the flyer, while conductor Valentine, who was on the mud train, has temporary charge of Mr. Jobbitt's Lakefield run.

STREET CARS CAME TOGETHER

Conductor Guthrie of No. 14 Car Received Injuries

Conductor R. Guthrie of the Peterboro Radial Railway, narrowly escaped serious injury about eight o'clock this morning, when he was standing in the rear of car 14, at the corner of Charlotte and George streets, car No. 10 telescoped his car the brakes having refused to work. Mr. Guthrie received a nasty gash on his head and was badly shaken up and bruised. The end of car 14 was very badly damaged, the controler being knocked into the car amongst the seats, the windows broken and the rear of the car generally demolished No. 10, the C.G.E. car, fared better, a broken fender being about the extentt of the damage.

As there is only one spare car, and two were put out of commission together this morning, one of the new cars was put on the Jackson Park line today. There is only a controller in one end of this car and it is not very satisfactory with the present track facilities. It can only only be plied between the Park and George street.

CHARITY BOARD

Routine Business Transacted—Some Accounts Were Passed

Messrs. H. Rush, (chairman); W. McIntyre, F. W. Miller, W. Yelland, P. S. White, W. Kemp and Rev. F. J. Sawers were present at the meeting of the Charity Committee last evening

The following statement of orders given was read;

	Since last meeting	During 1911.
Groceries	$108.00	$ 659.00
Wood	18.10	332.67 1-2
Tickets	12.05	33.60
Sundries	253.10	1,147.35
Total	$391.25	$2,172.62 1-2

The following accounts were presented;

R. C. Braund	$ 3.00
J. J. Cocks	12.00
M. J. Dunford	6.00
Geo. Goheen	10.00
W. H. Hamilton	78.00
House of Providence	72.00
House of Providence	4.00
R. S. Parks	17.00
E. Oliver	6.00
Peterborough Protestant Home	115.00
Peterborough Lumber Co.	5.00
W. Roebuck	1.00
D. Sullivan	8.00
P. S. White	20.00

Moved by Wm. Kemp, seconded by Wm. Yelland, that the accounts as presented be paid, except that the account of the House of Providence for $78.00, be passed at $72.00.—Carried.

The Relief Officer reported that he had given coal to Robert Cook, and that he would need further relief. The matter was left in his hands.

He also reported that he had given groceries to Miss Cornell.—Approved.

The Board adjourned until Monday night, November 27th, 1911.

The Least Fuel. The Most Satisfaction

A Range You Will Be Proud Of

When you can depend on your range to make every baking day a success; to give you a steady, even heat on the oven and to cook perfectly on the top at the same time; when it combines all the modern, labor-saving improvements, and, last of all, when its appearance is all that could be desired—such a range you can take a real pride in. It is called the

HAPPY THOUGHT

Most of the Happy Thought special features are found in no other range.

- The Illuminated Oven Door
- Oven Thermometer
- Patented Damper
- Reinforced and Ventilated Oven
- Pyramidal Oven Plates

When the range problem bothers you, step in and let us show you the reason why the Happy Thought has been the Canadian housewife's standard for the past 25 years

It is a range made to give satisfaction, lasting satisfaction.

Some of your neighbors or friends will be sure to possess a Happy Thought Range. Ask about it.

More than a quarter of a million "Happy Thoughts" are in daily use in Canada.

TRAIN BANDITS GET $50,000

Special to the Review.

Memphis, Tenn., Nov. 1.—Two masked men robbed the east bound Rock Island express near here this morning, and took $50,000. One man covered the mail clerks with revolvers, while the other rifled the mail pouches and cracked the safe. They got away safely, and posses are being organized to search the country, which is wooded and very hard to travel.

Conservative Investors Wanted

As a rule our clients get the benefit of all the "Certainties" we control. To-day we are making use of "An Absolute Certainty" for the purpose of extending our clientele. Here's the proposition in a nutshell—

—a 7% profit sharing preference stock on which dividends are paid twice a year a stock issued by a concern with a record of 25 years' successful and progressive business experience a concern at present controlling Natural Resources which are bound to double the value of its securities before long.

We guarantee 7% on this investment. We are practically certain that this stock will pay higher profits. It's the best industrial stock, at par, on the market.

Furthermore, we guarantee to buy it back, at par, plus 7%, in one year from date of investment.

Night Classes

— AT THE —

Peterboro' Business College

(FOUNDED 1885.)

Many ambitious young people are taking advantage of the splendid opportunity to improve their education by attending the night classes at the Peterborough Business College. These classes are conducted on Monday, Wednesday and Friday nights, and students receive instruction in any one or all the subject of the Commercial or Stenographic Course. By this method, young people may learn while they earn, and thereby increase their salaries and better their positions without losing time from their work. You may enter any time, but it will be to your advantage to enter now. The cost is small, while the benefit to be derived therein is inestimable.

The Business world is full of opportunities, but the best positions are open only to those who are competent to fill them. By attending Night School at the Peterboro' Business College, you may become competent.

HARRY G. ROGERS

President of McGill University Athletic Association

The following item is from the McGill University Gazette, and refers to Harry Rogers, son of R. B. Rogers. The position of president of the Athletic Association is the greatest honor that can be bestowed in the athletic world of the university, and many friends will congratulate Harry in attaining this position;

The election of a new president was held and resulted in the election of Harry G. Rogers.

Mr. Rogers is an old-timer, having come to McGill in 1903. He made the first rugby team in '04, dropped a year, played for Montreal on the championship Q.R.F.U. team in '06, and returned to play under the scarlet and white last year. He is also a swimmer and boxer, so bo the major and minor clubs can feel assured that he will have their interests equally at heart.

There are two sure ways of paralyzing your neighbors. One is to get a divorce, and the other is to go abroad.

The Commissioners of the Transcontinental Railway.

NOTICE TO CONTRACTORS

Tenders for Boilers and Boiler Room Equipment.

SEALED TENDERS, addressed to the undersigned, and marked on the envelope "Tender for Boilers and Boiler Room Equipment," will be received at the office of the Commissioners of the Transcontinental Railway, at Ottawa, Ont., until 12 o'clock noon of the 5th day of November, 1911, for the construction and erection complete, in accordance with the plans and specifications of the Commissioners, of boilers and boiler-room equipment to be installed in the engine houses as follows:

2—150 H. P. Horizontal Return Tubular Boilers at Napadogan, N. B., Mile 119, District A.

2—150 H. P. Horizontal Return Tubular Boilers at Edmundston, N. B., Mile 230, District A.

3—150 H. P. Horizontal Return Tubular Boiler at Cochrane, Ont., Mile 1037, District D.

Plans, details and specifications may be obtained at the office of Mr. W. J. Press, Mechanical Engineer Ottawa, Ont.

Each tender must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered Bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway, for an amount equal to ten per cent (10 p.c.) of the amount of the tender.

The cheque deposited by the party whose tender is accepted will be deposited to the credit of the Receiver General of Canada as security for the due and faithful performance of the contract according to its terms. Cheques deposited by parties whose tenders are rejected will be returned within ten days after the signing of the contract.

The right is reserved to reject any or all tenders.

By order.
P. E. RYAN,
Secretary.

The Commissioners of the
Transcontinental Railway.

Dated at Ottawa, October, 4th, 1911.

Newspapers inserting this advertisement without authority from the Commissioners will not be paid for it.

EPWORTH LEAGUE ENTERTAITED WELL

Good Time With George Street Church Young People

George street church Sunday school room witnessed a scene of sociability and enjoyment last evening when the Epworth League tendered a reception to the students of the Normal School, the Business College out of town students, and the outsiders attending the Collegiate Institute. A downright jolly evening was passed, with several novelties of an extremely new character for the promotion of good-fellowship and friendship introduced, and which brought all together in a most social manner.

P. M. McCarroll ably presided and introduced the program, the musical numbers being as follows.

Vocal solo—Fred Myles.
Violin solo—Miss Palmer.
Solo—James Browne.
Piano solo—Helen Grieves.

A guessing contest was a new innovation. The scheme was to get all present arranged in groups, according to their initials and each group was to guess the following:

1. How many couples there were present.
2. How many petals on a certain flower.
3. How many peanuts in a gem jar.
4. How many chestnuts in a gem jar.
5. How many apples in a basket.
6. How many kernels on a cob of corn.
7. How many seeds in a pumpkin.

The group winning the highest aggregate guess was awarded the prize of a box of bon-bons.

Everybody joined in and the idea was a favorite from the start.

A big crowd was in attendance. Rev. Mr. Couch was also present and was called upon for a short opening address of welcome.

Refreshments of cake and ice-cream were served to the various groups.

The gathering closed with the singing of the National Anthem.

DEFENDANT IN CRIMINAL CASE IS IN HOSPITAL

Civil Action for $10,000 is Still In Progress

The first case of Mrs. Catherine Darke vs. the Canadian General Electric company, which commenced yesterday afternoon, is still in progress.

A true bill against Samuel Newell has been returned. The accused, however, will not be tried until spring as he is confined through illness to the hospital, and his condition is such as will not warrant his presence at the assizes now sitting.

Miss Pearl McKee, teacher of piano, Studio, Peterborough Conservatory of Music. Telephone 355. dtf

A band of young rowdies called at a house on Dublin street, south of Harvey street, last night, during the progress of a party and made things unpleasant for the merry-makers. A fight afterwards took place between several of the disturbers, and their countenances to day are not altogether angelic.

George James, the youngster who received a bullet in his leg while out hunting on Thanksgiving Day, is progressing nicely under the care of Dr. Young. He is at present at his home, 505 Sherbrooke street.

Mr. James McNicholl, of Cressman's, Ltd., has been elected to the executive committee of organised window dressers. A convention is to be held in Toronto.

In connection with the Knox church midweek service to-night, Mrs. Roger will speak on the Provincial Sunday school convention held at Brockville.

Mr. Chris Wood and party returned this morning from a couple of weeks' duck shooting at Gannon's Narrows. Their success while very fair, did not equal other years, owing, said Mr. Wood, to the weather, which was not of the kind adaptable for duck shooting.

Messrs. R. R. Hall and F. D. Kerr were in Toronto yesterday attending the Liberal convention of the Provincial Association. Mr. Kerr was elected to the executive of the association.

Mr. Sam Ray left yesterday afternoon to join the Shawanaga Hunting Club. He was to be joined at Toronto by Judge Roger.

Members of local fishing and hunting parties regret the death of Percy Franklin, Chief of Alderville Reserve and one of the best known guides in this part of the country. He was a fine specimen of an Indian and weighed something like 200 pounds. He was over 60 years of age, and death was due to a short and severe illness from pneumonia.

Mr. Edge Hartley has returned from his annual trip to Rice Lake for the duck shooting season. Most of the time, however, was spent fishing, as this season has been a poor one for ducks.

POLICE COURT

Two Names Were Added to the Blacklist

"Jim" Hayes, cropped up in police circles again this morning on the charge of being drunk yesterday. He pleaded guilty, but had no money to pay his $2 fine. Mr. James English, of the canoe factory, with whom Hayes has been employed, advanced the money to obtain James' release and to secure his services again at the factory, where he earns good money.

TWO NEW LISTERS

Two young men, the older of whom was twenty-four, and the other twenty-two, were placed on the prohibited list at police court this morning. Their liquor loving tendencies being considered so marked, it was considered to be the wisest and most prudent proceeding.

One of the young men was agreeable to the method taken for preventing him from indulging, but the other objected to the plan, asking for another chance.

WHO'S COMING AND GOING

Miss Eva Hartley spent the holiday in Campbellford.

Mr. G. Pratley, who has been visiting his parents here, returned to Toronto to-day.

Mrs. Dawson and daughter Alice, spent the holiday in Cobourg, and are expected home this evening.

Mrs. D. H. Downey, of Bolton, Ont., was the guest of her son, R. F. Downey, Boswell avenue, for the holiday.

Mrs. E. A. Armstrong and her two children, of Bolton, Ont., were the guests of Mr. and Mrs. R. F. Downey on Thanksgiving day.

Mrs. (Dr) Leach and daughter, of Ancaster, Ont., who have been the guests of Mr. and Mrs. Tivey, have returned home.

Misses Minnie and Jean Cunningham, returned yesterday evening from Trenton where they visited friends for a few days.

Mr. James Pickard of Glat who has been the guest of his daughter Mrs. George Southwell for the holiday, returned to his home to-day.

Mrs. Montgomery Nethercut and her daughter Maude, of Dundalk, who were called here owing to the serious illness of the former's sister, Mrs Archambeault, have been recalled to Dundalk through the serious illness of Mrs. Nethercut's husband.

ENTERTAINED

Young People Had Good Time at Hallowe'en Party

The Misses Daisy Hanna and Alice Hopwood entertained about thirty of their friends to a Hallowe'en party last night at the home of Mr. Jackson Hanna, 7 Bennett street.

MISHAP TO DR. HALLIDAY

Bone Fractured in Arm While Cranking His Auto

While cranking his automobile this morning Dr. J. T. S. Halliday, 457 Water street, had the misfortune to be struck on the arm by the handle, and a bone was fractured. The injured member was set, and the doctor will be confined to the house for a few days.

KIDS WERE GOOD

Police Were Watching—No Serious Damage Was Done

"We had very little serious trouble last night," said Chief Thompson today. Some sidewalks, fences and steps received the attention of the youngsters, but the order on the whole was better than that of last year.

Prosecution may follow in several cases, where some of the youths, who ought to have known better, went a little too far.

GUN DISCHARGED AT KEENE STATION

Peterboro Hunter Didn't Know it Was Loaded

Special Correspondence

Keene, Nov. 1.—Considerable excitement was caused at the G.T.R. station Keene, on Monday evening. It appears that a couple of Peterborough hunters were waiting for the evening train when one of them "who had an automatic gun" discharged a shot into the side of the waiting room. Women fainted and children screamed and the gentleman, who by the way, had a considerable Cockney accent, said he didn't know it was loaded. It is about time that the law compelled hunters to first pass an examination on the use and care of firearms before allowing them to carry the same, and then weak minded men would not be in possession of firearms. The gentlemen may be thankful they escaped without receiving a sound thrashing. One of them belongs to a family of battery officers and he should have made it a point to examine the gun and see that it was not loaded

Friday, 8 p.m., Brotherhood meeting. Social evening to which all men are invited.

McRAE TOLD ONLY TRUTH

Counsel is Certain Condemned Man Was Honest.

Shaw, Who Was Killed, Had Wife in England.

Cornwall, Nov. 1.—"F. D. McRae is a dazed man. He is absolutely unable to understand why the judge and jury could not accept his story. It is the same story," declares J. A. Chisholm, one of his counsel, "as the story he told me on July 6th, the first time I saw him after the shooting, and before the inquest. The importance of his testimony as to whether he was excited or not when the shot was fired was represented to him, but he absolutely refused to change his evidence a particle, whatever the cost, and if he had sworn that he was excited he could not have been contradicted."

"I told facts just as they happened, and I can't understand why it was not seen as I see it," McRae declares again and again.

"There is a man," added Mr. Chisholm, "who refuses to budge absolutely from the truth, and who holds the opinion that the marriage tie is indissoluble, and there he is," and the lawyer motioned in the direction of the cells.

McRae will go into the hospital at the penitentiary as soon as he arrives at Kingston. During his stay in Cornwall jail for the past two months he has had medical treatment every other day.

The Village of Carp has been less interested in the fate of William Shaw's slayer since word came from the Old Country that Shaw, who was about to be married to a young lady of Carp, was already married. His wife is in England, and he has not seen her for two years.

D. C. McRae, father of Mrs. Magee, is apprehensive that further efforts may be made by Dr. Magee to get possession of his child. Dr. Magee has, however, assured him that if he takes any further steps it will be through the courts.

Shops For Criminals.

Winnipeg, Nov. 1.—In discussing the case in which John K. McLeod and Norman Nagle, two young bank clerks, are charged with embezzlement and attempted arson, Police Magistrate Walker yesterday arraigned banks as "simply shops for turning out criminals." He arraigned the system which permitted continuous thefts without detection, saying in part: "If banks can't get a system by which these boys can be checked up regularly, the sooner they shut their doors, the better for the world. As things are, they are simply shops for turning our criminals. The boys are technically the guilty party, but to my mind the institutions are equally culpable, for it is their negligence which makes possible the crime."

The boys, who have pleaded guilty, were remanded for sentence.

Want to Flap the Flag.

Toronto, Nov. 1.—International complications are in sight as a result of the action of the Board of Censors for Ontario in refusing to permit moving picture films being exhibited in the province when they glorify the Stars and Stripes and ignore the Union Jack. That is these complications will come if the Motion Picture Distributing & Sales Co. can prevail on the U. S. Secretary of State to take action as a result of this "national affront."

This is a paragraph from their letter to Secretary Knox:

"As a further explanation of our interest in this matter, we are engaged in manufacturing and selling films throughout the United States and Canada, and we feel that a ruling of this kind has an international bearing and is one which should be brought to your attention. We consider it an insult to our flag and detrimental to our commercial interests."

COW WAS DROWNED

Mr. Dan Whetung of Indian village lost a valuable cow last week, the animal having wandered away and met a somewhat unusual death — that of drowning in Buckhorn Lake.

Dan stated this morning that ice formed on the Lake and at the bay during the night, to the thickness of a quarter of an inch.

Every housekeeper has at least one dirty habit.

GURNEY-OXFORD STOVES and RANGES

This marvellous regulator keeps the oven at a given temperature. No heat is wasted—nothing goes up the flue but bad odors, steam and smoke. The fire is held for hours without attention—ready for immediate use—and all this labor, time and fuel saved by simply turning the crank.

With the Divided Oven Flue Strip you have even baking, because of the perfect distribution of heat, secured by this expert arrangement.

The Reversible Grate is provided with strong, interlocking teeth that reduce coals to ashes by a single turn. In appearance, in details of finish and design the Chancellor is an ornament as well as a necessity in any kitchen.

The Range here represented and other Gurney-Oxfords of every sort for every purpose, displayed on our floor.

A Valuable Aid in Fighting Tuberculosis

NA-DRU-CO · N D C Co · TRADE MARK

ALWAYS LOOK FOR THIS TRADE MARK ON MEDICINAL PREPARATIONS. IT'S YOUR GUARANTEE OF HIGHEST QUALITY.

The modern weapons against the "White Plague" are fresh air and nourishing food. For years Cod Liver Oil has been recognized as probably the best form of nourishment.

The difficulty has been with its nauseating taste and its tendency to upset the digestion. In

NA-DRU-CO Tasteless Cod Liver Oil Compound

the nasty taste and the indigestibility have been done away with entirely. The Compound is very agreeable both to the palate and the stomach. At the same time it retains the nutritive and curative properties of the pure Norwegian Oil, strengthened by the addition, in just the right proportions, of Extract of Malt, Wild Cherry, and Hypophosphites of Lime, Soda, Potassium, Manganese and Iron.

When a cold or cough "hangs on", particularly with a child or growing boy or girl, don't take chances. Start right in with a bottle of Na-Dru-Co Tasteless Cod Liver Oil Compound—it will quickly build up the strength to throw off the cough or cold.

Ask your druggist about Na-Dru-Co Tasteless Cod Liver Oil Compound. He has it—or can get it—in 50c. and $1.00 bottles. 103

HURCH HOCKEY LEAGUE MEETING

presentatives of Teams Wanted at Y.M.C.A. To-morrow Night

ocording to reports there will be enthusiastic meeting in the Y.M.C. parlors to-morrow evening when re will be an effort made to re- nize the church hockey league. eral church clubs have already anized and appointed representa- es, and others, including All Saints', organizing this evening

hose clubs, which have already nified their intention of entering a m ,if a series be formed, are Park eet Baptist, Knox Presbyterian, orge street Methodist and Mark eet Methodist. All Saints' is al- t a certainty, while St. Andrew's undecided. St. James' has not n heard from ,but as they have a hockey enthusiasts, they may at st have a representative in attend- ce.

t is important that there be a l number of representatives pre- t, as there are some matters to ouss besides the election of offi- s. It has been proposed by some the churches who have only a ple of players and will not be e to place a team in the league, t it be made interdenominational that all players might play the ne. This would tend to make all teams stronger, as the managers uld have more material to choose m.

he meeting is called for eight o'- ck. Mr. E .N. McWilliams, a mer president, and Rev. W. C. ldiford will be present to help the aaization work.

PETE" CAMPBELL SHOWED HIS CLASS

s Peterboro Friends Were Prominent at Rugby Game

riting from Montreal Max J. Dob- says that Gordon Campbell, son of er Campbell, manager of the Bank oronto, put up a fine game for To- to Varsity in the Inter-Collegiate ne with McGill, at Montreal, on Sat- ay. It was "Pete" who started the bination play that gave Varsity its t try and all through the game the rborough boy's superb passing and ing were features of the play.

here were numerous ex-Peterbor- h boys at the game, among these noticed being Norman Geale, "Doc." Boucher, Bert Miller, Herbert Conroy and Walter Perks. After the game was over there was great rejoicing by the Varsity followers. "Pete" Campbell was lifted shoulder high by his Peterborough friends and carried bodily across the field to the club house.

A WONDERFUL CRICKETER

Lilley, Recently Retired, Most Prominent Wicket-Keeper England Has Ever Produced.

A. A. Lilley the famous English cricketer who has just retired from the game commenced his wonderful career appropriately enough against the Australians at Edgbaston in May, 1888. He had gained recognition by the skill and ability displayed for the Bournville Cricket Club, and Mr. Blackham, the famous Australian wicket-keeper, prophesied a great career for the Warwickshire lad, and was so impressed with his work that he made him a present of a pair of wicket-keeping gloves. The accuracy of Mr. Blackham's judgment has been abundantly justified, for no English wicket-keeper has ever figured so prominently in English cricket as Lilley has done. At the outset of his career he was but an indifferent batsman, but thanks to the advice of the late Arthur Shrewsbury, he applied himself to acquiring the art of run getting, and his performances, both in international matches and county matches, show how well he has succeeded. For a number of years he ranked as one of the most reliable batsmen in the Warwickshire eleven, and his batting feats for England against Australia constitute cricket history. No batsman in the English team showed greater nerve and resource when the game was going against his side. His capital efforts at Manchester and Kennington Oval in 1902 will not readily be forgotten. Lilley, who was born at Birmingham on November 18th, 1867, was undoubtedly one of the finest wicket-keepers of the day, and his magnificent batting in combination first brought him under the notice of the authorities responsible for the selection of the international teams. He first went to Australia with A. C. MacLaren's team in 1901, and with the M.C.C. team in 1903-4. He represented England against Australia in England on 22 occasions — three times in 1896, four in 1899, five in 1902, five in 1905, and five in 1909, and on ten occasions in Australia. He also played for England v. South Africa three times in 1907, and appeared for the Players against the Gentlemen in 1895-8, 1900-1-2-4-5-6-8-9, being honoured with the captaincy in several occasions. It is worthy of note that whereas his batting average in 1888 was 8.72, it was 40.58 in 1901, his progress having been steady, and last year he batted 27 times, scored 798 runs, and finished up with an average of 31.92 for his county. Up to the end of last year he had made 627 catches behind the wicket for Warwickshire, and stumped 198 batsmen.

ABE ATTELL

Featherweight Champion Boxer

Pugilism vs Baseball

The superiority of pugilism over baseball has been shown, among other ways, in this — the great value attached to its strikes. Here is a case in point. The other day, while playing and defeating Detroit, Johnson, Washington's pitcher, struck out nine men. This remarkable striker-out will have to go right on working all summer, and possibly the nearest he will come to fame will be a paragraph in the newspapers in the autumn stating that he has gone back to his home on the farm in order to get up the winter's stove-wood. Another Mr. Johnson, bearing the usually respectable name of John, struck out just one man about a year ago, and since then he has done nothing but attend theatres, ride in automobiles and live in hotels and in jails. It is such inequalities as these that threaten the foundation of our social system.

SAVED BY A PORTRAIT

By Gracie Grant

Copyright by Publishers' Press Ltd.

"It is like her; I think it will do."

Carberry stood back from the easel, and, not without satisfaction, scanned the painting. His face was earnest, his eyes absorbed. The painting was to him, for the moment, the only thing that existed. Each of his works in turn had been as much to him. Probably the fact explained his extraordinary success as an artist, and more especially as a portrait-painter.

Presently Carberry went back to the picture, and lifted his brush. Just a touch there — should he give it? He stood hesitating. At that moment a step sounded on the stair As the artist gave the touch he had hesitated over, the door of the studio opened and another man entered.

George Strong was older than Carberry, but looked younger.

"Well, I'm glad it is done. Imogen will like to know that her mother will have it as soon as she is gone."

Carberry assented. He said meditatively, "I sometimes wonder whether it would not have been even better had I painted her looking up."

Strong said carelessly, "It is a pity we are going so far away, and are unlikely to return. Had we been living here, you might have painted her again, in a hundred poses, had you liked."

"Yes, of course, you are not returning. I had hardly realised that."

When the other man was gone be left his chair hastily and took one or two turns up and down the room. With a horrible persistency his mind turned to that blank place.

Carberry said aloud, "She will not return." There was an odd, numbed desolation in the words.

He wondered again whether he would have done better to paint her looking up—with that little appealing glance she had, and that quiver of her lips.

He seated himself by the table near the window, lifted a pencil that lay there, and on the back of a loose cardboard began to sketch. "Looking up, her hair would fall like this—"

There was a timid tap at the door, the artist did not hear it. There came another, and he said impatiently, "Come in."

Then Imogen entered.

Carberry turned, looked at her in a half-frightened, half-patient fashion. Why had she come? Her coming emphasised the fact that she must go.

Something harsh in his manner reached her. The girl paused halfway toward him. She looked at him timidly. "I believe I am disturbing you. I—I thought I should like to see the portrait if it were finished."

He breathed more freely, came over and took her hand. He said evenly, "You do not disturb me. Yes, it is finished. I hope to send it to your mother — to-morrow. She will have it when you are gone."

A deep note, something unknown, in his voice arrested her. She gave him a little eager glance, then she said, "Is anything the matter?"

He replied laughing, as if to himself, "I shall feel it quite a wrench—to part with the portrait. So much of oneself goes into one's work; by the time a painting is finished it is a part of oneself, and to lose it is like losing a limb."

Imogen shrank back a little. She said, "You will soon start upon another painting, and the portrait will be forgotten."

The girl moved close to the portrait, then she moved back. Carberry returned to the table by the window, and turning the sketch that lay there face downwards he stood looking at the blank side of the cardboard, then he turned it again. He called her. "Come and look at this."

When she came, he said, "I wondered afterwards whether this pose would have been better. What do you think?"

The bride looked at the sketch with a whitening face. Had she, indeed, betrayed herself like that! had she looked like that — appealing, wistful, yearning, giving her secret away?

She said shakily, "I think perhaps the other is better, but——"

Carberry knew that she went to the window, and without turning he could see her bend to lift the dropped chrysanthemums from the floor. She stood for a moment with them in her hands, as if she had forgotten them; then, instead of returning them to the vase, put them into the band of her dress.

He said unthinkingly, "They must be faded."

She coloured, and replied, "I always feel sorry for fading things."

"I will give you some of the others," said Carberry.

She asked him suddenly, "Mr. Carberry, do you ever make mistakes? What would you do if you made a big mistake?"

He did not say, as she expected, "I would try to remedy it"; but, "I would try to bear the consequences without whining."

Looking at him blankly, her despair giving her courage, "I—I wonder were you ever in love——"

Carberry laid his hand gently on her arm, and led her to the mantelshelf above the cavernous grate. There was a portrait there, small, ill-painted, faded. He said, "That is the only girl I have ever loved — will ever love."

All the colour went out of the bride's face. She said bravely, "I suppose she died." When he did not reply, she said, "I am sorry," and stumbled over the words.

He pretended not to see the tears in her eyes when she went away. She forgot to shake hands and say good-bye, and he seemed not to notice.

He muttered to himself as the door closed, "Strong is a good fellow, and she will soon forget."

He had left his pipe on the mantelshelf. As he searched for it his eyes met those of the little faded painting. He thought, "Dear little sister, you got me out of many a scrape in the old days. You have saved me from dishonour now."

"What is an ultimate consumer?"
"Oh, the ultimate consumer, my boy, is the one that gets the hash."

PILES CURED IN 6 TO 14 DAYS

Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Blind Bleeding or Protruding Piles in 6 to 14 days. 50c.

DO YOU USE PILLS?

If In Doubt About the Right Pills to Use Read the Following Letter Carefully:

"I am one of those persons whose system requires aid," writes Mr. Young Gledhill, from Picton, "but it is so easily affected by reason of the great sensitiveness of the bowels that ordinary drastic pills inflict great injury to the delicate coating, and excite such persistent activity as to be with difficulty checked.

"I wish in the highest terms to express the great value of Dr. Hamilton's Pills in cases like mine, and I am sure also for elderly people and the very weak there is no pill like them.

"Speaking of my own experience with Dr. Hamilton's Pills, I can say they have proved the most stimulating pills for the liver I have found. I have proved their tonic action upon digestion, and the same results have been secured by friends upon whom I have urged their use. The manufacturers are to be congratulated upon possessing so valuable a prescription, and the public should know that so valuable a remedy has been placed at their command."

No other pill for constipation, for liver, kidney, or stomach trouble, compares with Dr. Hamilton's Pills; they are mild and sure always to restore health. Refuse substitutes. Sold by all dealers, 25c per box, or The Catarrhozone Co., Kingston Ont.

Dr. Hamilton's Pills A Family Medicine

TELEGRAPHIC BRIEFS.

The season for fishing on the lakes has been extended to Nov. 10.

Arthur Waite of South Yarmouth died suddenly while working on his farm.

The British copyright bill has passed the second reading in the House of Lords.

A. C. Stuart, the Port Huron hotel-keeper injured in an automobile accident near Sarnia, is dead.

Manitoulin Conservatives nominated R. R. Gamey, M.P.P., and East Kent Conservatives nominated P. H. Bowyer, M.P.P., for the Legislature.

A break in the natural gas main which brings the gas from Tilbury to Windsor practically tied up business in the latter place yesterday for over two hours.

There will be no election protests in New Brunswick. Both sides were ready with petitions to file yesterday, but after a conference it was decided to drop them.

Alfred Smaill of Port Albert was killed when his horse ran away on a hill near Goderich. Mrs. Smaill was seriously injured, but their little daughter escaped.

Joseph Kelly, a cigarmaker from London, Ont., was run over by a train at Hammond, Ind., and received such injuries to his left leg that it had to be amputated below the knee.

DIZZY SPELLS

Caused by Weak Kidneys

Dizziness is largely the result of disordered kidneys. Mrs. Hall, 84 Flora street, St. Thomas, Ont., says: "I suffered for years with spells of dizziness that would leave me unable to attend to any house duties. My back was weak and caused me much suffering through the night. I had doctored for years, but all to no avail. Nothing benefited me and my condition became worse. I learned of Booth's Kidney Pills. One box gave me a complete and lasting cure. I have not had a headache or dizzy spell since and I feel like a new person."

Don't think that it's woman's lot to suffer always, this is not true. A box of Booth's Kidney Pills will convince you of this. Send for a free trial or secure a box for 50c. at your dealers. Postpaid from The R. T. Booth Co., Ltd., Fort Erie, Ont. Remember this pills are guaranteed. Sold and guaranteed in Peterborough by Wm. Madill.

Tariff Reformer to Contest.

London, Nov. 1.—Prof. Hewins, tariff reformer, has promised to contest Middleton. Speaking at Rochdale, he said that if the Canadian elections had happened before, instead of after the Middleton bye-election, the latter result would have been very different. It is no good of free traders saying the Canadian elections had nothing to do with affairs here.

Steel Maitland, chief Conservative organiser, uttered similar sentiments in supporting Hewins.

HAVE YOU EVER

After retiring for the night, thought of your forgotten fire insurance policy, which had expired that day, and had not been renewed?

How quickly you'd spring to the telephone call up the agent, and make matters right till morning in fear that fire might wipe out your accumulations.

Yet how often have you retired to woo the sleep of the just, with **no life insurance** and it never crossed your mind seriously that ere morn the heart might stop beating, and with it, the whole earning power of both brain and hand, yet your property **may never burn**, but your heart will surely cease to beat some time. It's strange, is it not?

Then why not insure your life at once?

The Sun Life of Canada issues all the modern forms of life assurance at the lowest rates, consistent with ample security, and are giving settlements that should satisfy the most exacting.

Call or phone to the Sun Life Office, 159, Hunter Street.

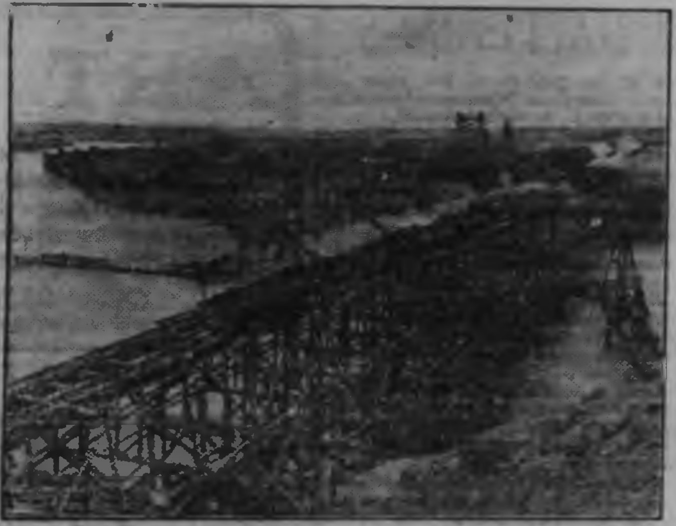
Entrance and outlet of Tunnel

THE SPIRAL TUNNELS NEAR FIELD, BRITISH COLUMBIA.

TOWN OF BANFF, AND BOW RIVER, ALBERTA.



BUILDING THE BIG DAM AT BASSANO

"THE GAP". ENTRANCE TO THE CANADIAN ROCKIES

If one were to ask the average man how he would like to spend three months taking pictures of Western Canada for use in a railway's advertising campaign, he would answer that he would like nothing better, and he would probably add that "he was just looking for a nice long holiday." To the average man such a trip at the expense of a railway would bring up visions of restful trips in the observation cars, of healthy suppers in the diners, of a very comfortable existence, withal, punctuated at convenient intervals with the snapping of camera shutters.

Talk with J. C. S. Bennett, the Official Photographer of the Canadian Pacific Railway, and you get a better idea of just what such a trip involves. Mr. Bennett is the man who, under the direction of W. T. Robson, the Advertising Manager, gets out all the illustrations for the many pretty pamphlets, issued by the C. P. R. Naturally with it's seventeen hotels, its sixty-seven steamships, its huge land interests and its one thousand and one other interests, the C. P. R. does considerable advertising. In fact as the biggest and best railway in the world, it is also one of the biggest advertisers, and in keeping itself before the public eye its photographic Department is one of its most important adjuncts. Wherever you go you will find their pictures and photographs. They appear in magazines and newspapers all over the world. They are in stations, in public buildings, in hotels and they are all prepared and printed at Mr. Bennett's headquarters in Montreal.

The photographic department at Montreal is a busy place. Thousands of pictures and photos of all kinds are distributed from here every year, and there is no slack season.

The Department is located at the Company's headquarters in Montreal. It is up near the roof of the Windsor Street Station where plenty of sun and light can be obtained for the printing of the photographs. At one end of the room is a door leading into the dark room, where all the plates are developed. At the other end there is another room where the lantern slides are prepared for use by the Company's lecturers. In boxes on the shelves of the main room of the establishment there are thousands of plates of all sorts of scenes, and in racks and cases along the walls there are numerous enlargements of pictures showing everything from city life to life on the rock bound coasts of Alaska.

All of these enlargements are made on the premises, prints 8" by 10" being enlarged to 6' 8" by 10'. It is these enlargements that the Canadian Pacific sends forth to its many patrons. Sometimes the pictures are sent out just as they appear after they have been printed. More often, however, they are first tinted in natural colors. For this work there is employed an artist, who gives to the pictures their natural colors. The lantern slides are also colored by the artist before being shown in lectures.

With all this work being done the Photographic Department of the C. P. R. at Montreal is a mighty busy spot. It is also a mighty interesting spot, as can be imagined.

When the author saw Mr. Bennett, he had just returned from the Pacific Coast. Nearly every year he stocks up a car with photographic supplies, and spends three or four month's wandering over his Company's lines taking pictures for the advertising Department. This summer he left Montreal on May 17th., and his wanderings led him a chase of 7500 miles before he got back within the shadow of Mount Royal again. The car used this year had formerly been a Pay Master's van, in the days when the railways paid their employees, with cold hard cash, instead of by cheque as is now customary. The car was fitted up as a miniature moving photographic establishment. There was a dark room, for developing tanks, work tables, drying frames, etc., and there were also spacious living quarters for Mr. Bennett and his assistants. Tanks to the capacity of 300 gallons were installed so that running water could always be had for washing the pictures. The actual photographic outfit included an 8 by 10 camera and a large panoramic camera capable of taking a picture of from 8 to 18 feet long.

Leaving Montreal the travellers made their first stop at Winnipeg. Here it had been hoped to obtain some pictures of the Royal Alexandra Hotel, the C. P. R. stock yards, etc., but the weather was inclement, and it was decided to postpone operations in this city until the home trip. Travelling Westward the party took the Crow's Nest Pass route to the Kootenay Lakes stopping en route at Lethbridge Crannbrook, etc. At the former place some good pictures were obtained of the big Canadian Pacific viaduct across the Belly River. This viaduct is one of the largest in the world. It is over five thousand feet long and takes the place of twenty wooden trestles. At the Kootenay Lakes there were many beautiful pictures to be had, especially around Balfour where the C. P. R. has just recently opened a new hotel. The Kootenay and Arrow Lakes form a highly picturesque waterway, and the C. P. R. men covered practically the whole district, taking views from the steamboats where possible and at other times travelling by foot.

At Victoria the party arrived just in time for the coronation festivities. Here the big panoramic camera was unlimbered, and set up on the roof of the Post office, and when the festivities were at their height the bulb was pressed. The resultant picture gives a magnificent panoramic view of Victoria. In the foreground is shown the C. P. R. hotel, the Government buildings, Government Street, Beacon Hill Park, the C. P. R. Docks, the boats "Princess Charlotte" and "Charmer" and the coronation procession making it's way along the waterfront under the gaily decorated arches. In the background is seen the boat channel leading out into the Straits and the open sea.

About three weeks were spent in the vicinity of Vancouver, Victoria and Seattle and then the homeward journey was commenced. During the return trip through the mountains both of the big cameras carried by the party were in almost constant use. Mountain climbs became daily occurrences, and during these excursions ponies were used for transportation purposes. In places where it was too difficult for even the ponies to proceed, the cameras and supplies were divided up and heights scaled on foot. In this way Mr. Bennett covered considerable territory, being generally absent for the whole day on excursions into the country adjacent to the lines of the railway.

CLIMBING MOUNT ABBOTT

The Hardy Mountain Men From Switzerland Are Careful Guardians of Rock Climbing Visitors

It was on this homeward trip through the mountains that the majority of pictures were taken. All along the lines of the railway stops were made and waterfalls, glaciers, canyons, rivers, lakes, hotels, all had to "look pretty" and pose for their pictures. The panoramic camera had to work over-time.

Going into Field a view was taken showing the spiral tunnels. When the line was first built the grade at this point was so heavy that it took four engines to draw an ordinary train. In reducing this grade the company found it necessary to construct two spiral tunnels. These tunnels are wonderful engineering feats. In each the train makes a complete circle inside the mountain before emerging from darkness into daylight. The view taken by Mr. Bennett shows the mouths of two tunnels with the C. P. R. tracks, in the foreground and in the rear a conglomeration of peaks passes and valleys, including Mt. Ogden, Echo Valley, Emerald Peak, Mt. Stephen, Mt. Wapta, Mt. Field, Mt. Burgess, Van Horn Range and Cathedral Peak. Altogether there is a horizon of about thirty-five miles reduced to a picture eight feet long.

Near here from Burgess Pass there was another panorama taken which shows probably fifty miles of horizon and in which nearly twenty peaks stand out prominently. The view is a complete circuit picture and shows Cathedral Mountain, Mt. Stephen, Mt. Dennis, Mt. Goodsir, Ottertail Range, Van Horne Range, Kicking Horse Valley, Mt. Burgess, Mt. MacMullen, Emerald Peak, Emerald Galcier, Emerald Peak, Emerald Glacier, Valley, Mt. Wapta, etc.

One of the incidents related by Mr. Bennett of his trip was in connection with Field. There he met an elderly Dutch lady who was going through to Montreal. She had booked her ticket straight through but when she saw Field she was sorry that she had not made arrangements to stop over. Asked by one of her fellow travellers if she would not like to wait over for a few days and see that section of the mountains she replied: "Ah, I am indeed sorry, for this scenery is the beat vat iss, don't it?"

At Laggen there was a view taken of Lake Louise from Mount Fairview. This is one of the most wonderful parts of the Rockies. Several of the Swiss guides who are annually brought over from Switzerland by the C. P. R. to aid tourist mountain climbers in the Rockies, were stationed here and they accompanied Mr. Bennett on several of his excursions into the surrounding country. With the panoramic camera away up on Mount Fairview a wide stretch of country could be seen through the focusing glass and the picture taken at this point shows among well known heights, Mount Victoria, Victoria Glacier, Lesser Beehive Mountain, Hazel peak, and Mount Pelon. There is also shown a grand sweep of Lake Louise, with the Chateau Lake Louise guarding the shores.

Of the many panoramic views taken at Banff probably the prettiest are those showing the village from Sulphur Mountain and from Tunnel Mountain. In the first of these pictures, Mount Rundle, the Bow River Valley, the C. P. R. hotel, Fairholme Range, Tunnell Mountain, Cascade Mountain, Stoney, Squaw Mountain and Sawback Mountain stand out prominently and there is also shown the new golf links that have been built on the Bow River Flats. The people of Banff are just a little bit proud of these links. They are the only ones in the Canadian Rockies and so of course they are one of the main attractions at Banff.

In the second picture mentioned are shown, Mount Rundle, Spray Valley, the C. P. R. hotel, the Alpine Club House, Mount Massive, Burgeois Range, Stoney Mountain, Squaw Mountain, etc.

During his stay in the mountains Mr. Bennett tried to get some pictures of William Rockefeller and party who were at that time making a trip through the Rockies in their main attractions at Banff. special train. Mr. Rockefeller managed to elude the C. P. R. man however, although the latter obtained good photos of several other no less prominent tourists

This was where the 8 by 10 camera did good work, and in fact hundreds of pictures were taken with this camera. At Glacier, B.C., a trip was made to the Illicillewaet Glacier. This is a huge moving ice field covering an area of over twenty square miles and it is one of the scenic features of the mountains. People by the score visit this spot every season and Mr. Bennett's pictures are only several of the thousand that the glacier annually poses for. At Glacier, too, glimpses were taken of the Great Caves of the Nakimu. These are wonderful caverns formed by the action of water for ages on the solid rock and consist of a series of chambers with large entrances and vaulted ceilings. The walls sparkle with the quartz crystals, and myriads of miniature lights are reflected from the darkness.

Near Field some views were obtained of the wonderful Takakkaw Falls, the highest cataract in America, — eight times the height of Niagara. This is in the Yoho Valley which is celebrated for its cascades, and its Emerald Lake.

Near Laggan the camera was unpacked and exposures taken of the Great Divide. This is the highest point of the Rockies. Here a mountain stream deviding, sends the water of one branch to the Atlantic ocean and the other to the Pacific Ocean.

The "Lakes in the clouds", the baths and the Canadian National Park at Banff furnished further "Copy". In fact with both the panoramic and the 8 by 10 camera working overtime throughout the Mountains, there was very little in the shape of scenery that escaped.

Leaving the mountains some fine views were obtained of the Canadian Pacific Railway's irrigation operations in the vicinity of Calgary. Here the Canadian Pacific is carrying out the biggest irrigation project in America. A tract of 3,000,000 acres is being irrigated, and operations are being pushed on a gigantic scale. There, were some especially interesting pictures of the big dam at Bassano obtained. Here the company is damming the Bow river with a structure 1000 feet long and 45 feet high and the pictures give a good idea of the immensity of the structure.

Coming still nearer Montreal stops were made practically all through Alberta and Manitoba to get good farm scenes. This was near the end of August and so the officials were just in time for the harvesting. The method of procedure in the getting of these pictures was to pile the camera and plates into an automobile and scour the surrounding country stopping and making exposures wherever a good chance offered. However the party was not lucky enough to always be able to travel in automobiles while on these excursions many times having to travel by horse and rig or on hand cars and at other times having to cover the ground on foot.

This was hard work but the results obtained were worth it. There are views showing the farmers reaping their grain with huge traction engines for motive power. There are views showing the farmers standing up to their shoulders in the ripe crops and there are numerous threshing scenes. Also there are good views of the Demonstration Farm at Strathmore. This farm was built with the two-fold object of providing fresh food stuffs for the Company's dining cars and to demonstrate to the Western farmers the best methods of crop cultivation. One of the pictures taken at this farm shows the cows being milked by machines run by electricity. The Ready-Made-Farms with their compact houses, their barns and their fenced acreage, all ready for the settler, gave other interesting pictures, and then Winnipeg was visited for the second time.

After leaving Winnipeg and the prairie provinces a stop of a few days duration was made at Port Arthur and Fort William and then down through the Great Lakes went the party and back to Montreal.

During the trip there were taken by Mr. Bennett probably six hundred pictures all of which will be used by the Advertising Department in its work during the next twelve months.

DEATH CAN COME IN 17,000 WAYS

Every New Invention Can in Some Way or Other Introduce Death in Slightly Different Manner Than Older Methods.

There are 17,000 ways to die!

This decision has been reached by members of the Polyclinic Institute of [illegible], with fellow members at London and Paris. It has been found that every new discovery or invention of man can in some way or other be utilized to produce death in a manner slightly different from similar deaths in the past.

The data so far gathered is based upon figures available during the first ten years of the present twentieth century.

From time to time the news reports make mention of what seems "a novel way" to die, but the medical statisticians say that this novelty exists only inferentially, in the sense that it is a method rarely used, and that if means were available to tabulate every death in the world for a hundred years, together with its causes, there would be not one instance of a novel way to die. There may be cases where the cause is unusual, but this more than likely because of a linking of various causes. St. Croix Johnstone, the aviator, for instance died really by being drowned, but the essential first cause was the fall of the aeroplane, with an anteceding cause that brought down his machine before its time.

The tendency of modern inventions, like electricity, aerial travel, locomotion, submarine exploration, to hasten death is, of course, evident, and for this reason the doctors say that the methods with which to achieve death are greater in number now than they were a thousand or two thousand years ago. The figures made up in Rome show that at the time of Nero there were 15,000 ways to die, thus making the increase in two thousand years less than two thousand, or one new way to die each year.

The institute supports this by figures and analyses. It is stated that in the year 1 A. D. fire, water, poison and steel were four quick agents, just as they are now, except that human ingenuity has made the steel implement not only into a new utensil, but has turned it into a steel rail with steel locomotive over it, and thus creating a brand new weapon for death.

ARE YOU GETTING YOUR SHARE

of the wonderful array of low priced articles contained in the high-class stock at Robert Fair & Co., Limited, that are being eagerly gathered in by the crowds who fill the store daily? If not, don't blame us. We have invited everyone to share in this great event, as we are determined to make memorable Mr. Fair's Great

RETIRING SALE

Housefurnishings Sacrificed

If you have a need in the home, this is your opportunity. Everything sacrificed.

CARPETS, RUGS, CURTAINS, WINDOW SHADES, LINOLEUMS, MATTINGS

NEWS ITEMS FROM OMEMEE

Special Correspondence.

Omemee, Oct. 30—The first practice of the choral society, in connection with the opening of the new town hall, was held on Tuesday evening in the basement of the Methodist church, and prospects are bright for a good chorus.

There are many of our old girls and boys home for the holiday. Some of these who came down from Toronto are Mr. Sam Skuse, Mr. Rube Bradley, Mr. Hasleton Dancy, Mr. Clifford Mulligan, Mr. Robert Thompson, Mr. Bert Henderson and Mrs. Charles McCaffrey.

The anniversary services of the Presbyterian Church on Sabbath, were largely attended. The Rev. D. W. Best of St. Andrews, Beaverton, preached the sermons at 10 a.m. and 7 p.m. This is the first time Mr. Best has preached in Omemee and his discourses were listened to with much appreciation. There were many of his old friends of Mount Pleasant and Emily present in the congregation, and they were delighted with his sermons. There was special music by the choir at each meeting. At the morning service, Mrs. A. O. Hodgetts, rendered a vocal solo that was very much enjoyed. At the evening service, a male duet was given with pleasing effect. The collections were special and quite liberal.

Mr. J. A. Wylie and Mr. James Rainey of Toronto were visiting friends on Thanksgiving.

Colonel T. Benson and captain E. E. Clarke of Kingston were in town with captain J. J. H. Fee on Monday.

Mr. Jas. Chambers of Peterboro was a visitor on Monday.

Rev. D. W. Best, who was the guest of Mrs. Currie at the manse, called on many of his friends before he returned home to Beaverton on Monday.

Messrs. R. J. Mutchett of Lindsay, H. H. Drake of Toronto, and R. Hull of Peterboro were in town last Thursday.

Rev. D. H. Currie returned on Monday from Beaverton, where he was supplying for the pastor of St. Andrew's church.

Messrs. John and David Morden of Peterboro and Fred. Morden of Port Hope, were the guests of their father on Thanksgiving Day.

Mrs. J. C. Eaton and her children Masters Timothy and John of Toronto spent Thanksgiving with her mother.

Miss Annie Thompson of Toronto and Mrs. Wesley Thompson and her children of Minneapolis, spent Thanksgiving at the home of Dr. and Mrs. J. N. Thompson, Sturgeon street.

The rifle match was well attended on Monday and reverberations from the ranges made one fancy they were in China and that the brave 45th were in deadly conflict with the celestials at the base of Mount Nebo. Captain Fee is to be congratulated in the success of the shoot.

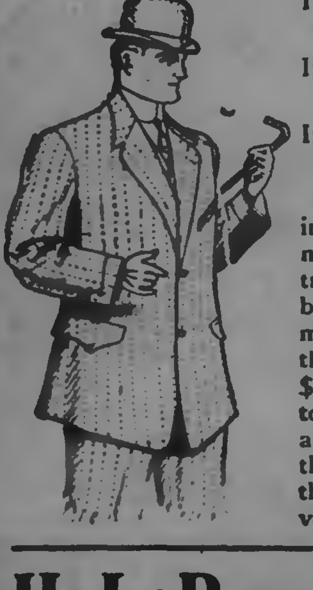
The lecture of Dr. Shearer on "Jean Val Jean," in the Presbyterian church on Monday evening drew a full house which enjoyed the impressive recital of one of Victor Hugo's gems of literature.

HAIR DRESSERS

Recommend Parisian Sage

Hugh D. McKinnon, of Brantford, Ont., says: "I consider Parisian Sage the best preparation for the cure of dandruff, falling hair and itching scalp, that I have ever used in my business. It is also a most excellent tonic and dressing, and has given perfect satisfaction to my customers. I am and always shall be pleased to highly recommend Parisian Sage."

Parisian Sage is the only scientific hair restorer in the world, and it is fully guaranteed by the proprietors to do what they claim or refund your money, but you must see that you get the genuine, which is guaranteed by W. Madill, who sells it at 50c. a large bottle. The girl with the Auburn Hair is on each package. Look for this.



MEN WE ARE GOING TO PAY YOU FOR READING THE "AD"

Every man who reads this AD. and then cuts it out and brings it to our store can have any Overcoat or Suit in the store at 10 per cent discount.

If you get a $10 Suit or Overcoat, you SAVE $1.00

If you get a $15 Suit or Overcoat, you SAVE $1.50

If you get a $20 Suit or Overcoat, you SAVE $2.00

We make this unusual offer in order to test the value of newspaper advertising, and introduce to the people of Peterboro' the height of fashion at moderate prices. We know that an opportunity to save from $1.00 to $2.50 will look good to any man who reads the "ad" and we are willing to pay out the necessary amount to learn the value of newspaper advertising.

H. LeBrun & Co. THE STORE THAT SATISFIES

REMEMBER THIS OFFER IS GOOD UP TO SATURDAY, NOV. 4 ONLY

FLEETWOOD

Many Transactions in Property are Being Made

Special Correspondence.

Fleetwood, Oct. 31.—Owing to the fine weather of late the farmers are getting well on with their plowing and nearly all of the roots have been stored away. The potatoes and turnips are a very poor crop.

Mr. and Mrs. John Robinson, who have been living in Fleetwood for some time, have, we are very sorry to say, removed to near Lifford, where they intend making their future home. They will be greatly missed as they were a very kind hearted couple. We all wish them success in their new home.

Mr. J. R. Shea is about to lease the farm belonging to Mr. John Brown, of Lindsay, and just vacated by Mr. and Mrs. Robinson.

Mr. Herb Brown, of Lindsay, is to move back to Fleetwood to his own farm just about to be vacated by Mr. John Crawford.

Mr. John Crawford has leased the fine farm belonging to Mr. William Davidson for a number of years, and intends moving to same next spring.

Mr. William Davidson, is going to Lindsay to make his future home as he purchased a nice property there some time ago, and no doubt he will live a retired gentleman's life.

Mr. Edward Atchinson, who has been unwell for some time, is at present in Fleetwood living with his daughter, Mrs. Thos. Crawford. Dr. Hamilton, of Bethany, is attending him. We hope to see him around again soon.

Mr. T. E. Shea, has been making great improvements of late, having torn all the old stables out from under his barn and put in cement floors throughout and has put in steel stalls and stanchions which will make a very sanitary stable in the future.

Mr. Arthur Flecch is about to sell one of his farms in the near future, and by doing so he will have a very snug farm for himself, where no doubt, he will make numerous improvements in the future.

Mr. Orrie Magill has leased his farm to Mr. Elmer Rowan. Mr. Magill intends going to the west in the course of a few months.

CAMPBELLCROFT

Special Correspondence

Campbellcroft, Oct. 31.—Mrs. Jonathan Smith, of Bolivar street, Peterborough, spent Thanksgiving here friends.

Mrs. Artie Henry and Mrs. Robt. Wright paid a visit to Port Hope during the holiday.

Mr. and Mrs. Ernest Lee, of Peterborough, spent the holidays with Mrs. Lee's parents in Elizabethville.

Mr. and Mrs. Doughty, of Peterborough, spent Thanksgiving with Mr. Doughty's sister, Mrs. F. Irwin, Perrytown.

Misses Ada and Margaret Corbett and Mr. and Mrs. Presant of Toronto, spent the holiday at E. Corbett's, Perrytown.

Dr. Beatty, of the Hill, is looking for parliamentary honors from the opposition side of the fence.

Mrs. D. Walsh and Miss M. Walsh, of Orono, spent Thanksgiving with Dr. and Mrs. Alex. Walsh.

Mrs. Stanley Gray received for the first time since her marriage last Thursday.

Miss Roddy spent a day in Port Hope last week.

Frank Menzie took his accustomed drive to Bewdley last Sunday.

Quite a number of our citizens were called to Port Hope last week owing to the Traders' Bank scare.

Friend Webber of the King Edward, has been under Dr. Beatty's care the past week with pleuresy.

Mr. and Mrs. Fred Campbell spent the holidays at Rosemount.

Electric Restorer for Men

Phosphonol restores every nerve in the body to its proper tension; restores vim and vitality. Premature decay and all sexual weakness averted at once. Phosphonol will make you a new man. Price $3 a box, or two for $5. Mailed to any address. The Scobell Drug Co., St. Catharines, Ont.

LAKEFIELD TOWN HAPPENINGS

Special Correspondence.

Lakefield, Nov. 1—The annual Public school Field Day was held on the exhibition grounds on Friday afternoon, Oct. 27th.

Miss Eva Alford entertained about thirty of her friends, by giving a card party on Thursday evening, Oct. 26th at her home on Regent street.

Miss Adams spent Thanksgiving at her home in Peterboro.

Miss Elsie Graham is visiting her sister, Mrs. Wells in New York city.

Partridges are reported to be very plentiful in this part of the country.

The hunters are getting ready for the hunt. It is expected that a number of hunters will leave this village for the back woods this week.

Mr. Thos. Sanderson of Michigan was visiting friends in the village last week.

Miss Mollie Young and Mr. Geo. Young were visiting friends in the village last week.

Miss Nora White, who has been spending a few months in Lakefield returned to Detroit, Mich.

Mr. Gordon Kline is spending Thanksgiving at his home in the village.

Mrs. Corkery of Campbellford was the guest of Mrs. Richard Crawford last week.

Miss Maude Clifford of Peterboro was visiting in the village last week.

Mr. J. Fitzpatrick of Peterboro was visiting friends in the village last week.

Mr W. K. Leonard, who has just completed a course in linotype operating at the Inland Printer school, Chicago, Ill. left on Friday for Chatham, where he has secured a position as operator in the Banner office.

Mrs. H. Fitzgerald returned to her home on Thursday from Toronto, where she has been visiting for a couple of weeks.

Mrs. J. Campbell returned to her home on Thursday after spending a few days visiting her daughter-in-law, Mr A. Campbell in Peterboro.

Miss Lilian Nelson of Peterboro was the guest of Miss Ruby Joy, on Thursday.

Miss Florence McNab entertained a few of her friends at her home on Queen Street on Wednesday evening October 25th, at eight o'clock.

Miss Elsie Sherin of Belleville returned Tuesday after spending Thanksgiving with her parents.

Miss Jean Thompson spent Thanksgiving with her parents in the village.

Misses Mollie and Isabel Johnson spent Thanksgiving at their home in the village.

The road race from Lakefield to Peterboro made quite an excitement in the village. Many people gathered on Queen street to see the beginning of the race.

Rev. T. B. McCorkindale, pastor of the Presbyterian church, Lakefield, preached a special Thanksgiving sermon on Sunday evening in the Methodist church.

The annual Thankgiving Dinner, under the auspices of the Ladies' Aid of the Methodist church was served from five to eight o'clock in the basement. Following this a very enjoyable program was given, featured by special music and recitations. The choir was assisted by prominent entertainers from Peterboro. Addresses were given by the resident ministers.

An interesting event took place at the home of Mr. and Mrs. R. Crawford, on Wednesday, Oct. 25, when their eldest daughter, Violet Laurie Elizabeth, was united in holy bonds of matrimony to Mr. Bertie H. Page, of Toronto. The ceremony was performed by Rev. H. A. Fen Olie in the presence of about thirty guests. The bride who was attired in a travelling costume of navy blue and carried a bouquet of white chrysanthemums, was assisted by her sister, Miss Oral Crawford, who wore a costume of blue. Mr John Fitzpatrick of Peterboro acted as groomsman. After the ceremony, the assembled guests sat down to a sumptuous wedding dinner, a pleasant hour being then spent. The happy couple drove to Peterboro, and to the train for Toronto and points west. Mr. and Mrs. Page will reside in Lakefield and have the best wishes of their numerous friends.

RINGING THROUGH QUEBEC PROVINCE

Another Marvellous Cure by Dodd's Kidney Pills

Ludger Cote's Backache had developed into Bright's Disease, and Pains and Aches were His Portion—Dodd's Kidney Pills Cured Him.

Ringing through Quebec province.

St. Yvon, Gaspe Co., Que., October 31 (Special)—Once more a wonderful cure has sent the name of the old Canadian Kidney Remedy ringing through the Province of Quebec. Mr. Ludger Cote, a well known resident of this place, is the man cured and the story of his cure in his own words is as follows—

"For four years I suffered from Backache, stiffness of the joints and finally Bright's Disease. I could not bend my right leg on account of the pain in my hip and knee. I had terrible pains in the region of the bladder. My eyes were swollen. I was always tired and nervous and took no pleasure in life.

"Finally I decided to try Dodd's Kidney Pills and the effect was marvelous. Six boxes cured me completely."

Backache neglected, develops into Bright's Disease. The one sure way to escape its tortures is to cure the backache when it first starts with Dodd's Kidney Pills.

There is an impression current that when a man attempts to reform, his old associates are anxious to pull him back. This is not the case; they encourage him to quit his bad habits.

Do tobacco chewers ever think of the rights of others? If you cannot quit chewing tobacco, you can at least look where you spit.

Brantford Power Prices.

Brantford, Nov. 1.—Ald. C. H. Hartman has announced his candidature for the mayoralty, and among other things will urge that the city enforce its five-year agreement with the Cataract Co., whereby power and light are promised at prices ten per cent. below Hydro Electric prices. Ald. Hartman claims that higher rates are being paid here than in several Hydro Electric municipalities west of Brantford, and he is strongly favorable to Brantford securing Hydro Electric power.

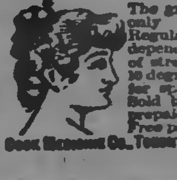
The present agreement with the Cataract Co. has almost a year and a half to run.

New Winnipeg Theatre.

Winnipeg, Nov. 1.—Sullivan and Considine announced yesterday that a new theatre to cost over a quarter of a million would be built here in the immediate future and that the present Empress would in all probability be devoted to burlesque. The same announcement stated that the Canadian circuit will comprise houses at Calgary, Edmonton, Moose Jaw, Saskatoon, Regina and probably at Fort William.

Accidentally Shot.

Montreal, Nov. 1.—Shot by a gun in the hands of a friend, Mr. William Bennett is now a patient at the General Hospital, with a charge of shot in the calf of his leg. The accident happened while he was out shooting.



Cook's Cotton Root Compound.

The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, $1; No. 2, 10 degrees stronger, $3; No. 3, for special cases, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: The Cook Medicine Co., Toronto, Ont. (formerly Windsor)

ART IN EYE GLASS MAKING

Perfection seems to have been reached in the making of Eye Glasses, when one beholds the creation of the present time. Our stock is always replete with the newest and best goods from the best makers; the standard of durability is not sacrificed, but lightness, style and strength are combined.

OUR SKILFUL FITTING and adjusting will satisfy the most critical.

J. W. BROWETT, OPTOMETRIST. Optical Institute, Market Building.

Young men frequently say, "When the old fogies die off, and we get some of their money in circulation, we will have a good town here."

The English and Scotch football teams clashed yesterday at Park st. grounds, the foggy land eleven winning by 2 to 1. Irish Neish refereed.

VOL. LXIII., No. 103. PETERBOROUGH, ONT., CANADA, THURSDAY, NOVEMBER 2, 1911 TEN CENTS PER WEEK.

ITALIANS ARE INDIGNANT AT THE STORIES OF ATROCITIES

Bedouins Are Responsible, Says Italian Premier --- Moslems Celebrate Victory.

Rome, Nov. 2.—The reports which have been spread in foreign countries that the Italian troops at Tripoli have practiced extreme cruelty in the war against the Turks and Arabs, killing women and children, the aged and infirm and non-combatants, have caused intense indignation throughout Italy. These reports have already been officially denied, but Premier Gioletti took occasion again last night to emphasize the denial and to make a statement in behalf of the Government and the whole nation.

"If any reproach is admissable," he said, "it can only be on account of excess of humitarianism. We have, perhaps, through exaggerated scruples, spared the lives and property of the enemy, and, in so doing have exposed ourselves to grave risks. This, however, we have been pleased to do, to prove that we are civilized and human. Perhaps what is the bounty of the strong may be judged as weakness.

"Our soldiers, trained in the school of loyalty and accustomed to the uprightness of the Abyssinians, who are open enemies or steadfast friends, did not expect that the Arabs, after they had sworn fealty and received grain and flour and other concessions, would treacherously break their oaths and traitorously turn their arms upon the wounded. Among those heroic dead many of them were barbariously killed by the enemy after they had fallen gravely wounded.

"He who asserts that the Italian soldier would offend woman or child shows ignorance of our country and race. The acts of treachery were due partly to the efforts of Bedouins, about 15,000 of whom migrate at this season of the year from the interior to the coast for the date crop. They formed a kind of conspiracy with the Turks and succeeded in persuading the Arabs, who had already declared themselves our friends, to rebel. But, indeed, the Arabs were ready to take up arms against those they considered weak, at any moment. This is shown by the fact that many of the habitations when set on fire, exploded like gunpowder magazines, so great were the quantities of arms and ammunition hidden in them.

"After the betrayal, when the Arabs, hidden by the trees, walls and houses in the oasis, shot in the back the troops courageously fighting the Turks, our soldiers defended themselves. They attacked the oasis and routed the traitors, killing those caught in the act of firing and taking others prisoners. For safety, we transported the prisoners to Tremiti and Ostica Islands, where on their own admission, outside of the curtailment of their liberty, they are better treated than in their own country."

Aviator Dropped Bombs.

Tripoli, Nov. 2.—The last twenty-four hours have passed quietly. An Italian military aviator, while making a reconnaisance Tuesday night, succeeded in dropping four bombs in the midst of the Turkish encampment.

Marching on Tripoli.

Constantinople, Nov. 2.—The chamber yesterday loudly cheered the reading of a telegram from Suleiman el Baruni, the deputy from Tripoli, commanding the Arab volunteers. The telegram, dated Oct. 28, said: "I reached the coast, accompanied by the volunteers, on Oct. 28, and delivered a formidable assault upon the enemy, who were driven out from their entrenched positions. To-day I am marching on Tripoli. Thanks to Divine assistance, I shall enter the town."

Riots in Egypt.

Alexandria, Egypt, Nov. 2.—Reports of Turkish victories were received here during the night in a tumult that at one time threatened to be serious. The natives turned out in thousands, calling up Allah to confound "the infidels."

Shots were exchanged between Moslems and Europeans. One native was killed and 14 others were wounded before the police had suppressed the rioting. Scores of arrests were made.

Aftermath of a Celebration.

Brantford, Nov. 2.—William Walker, a Port Burwell man, charged three local colored men in the police court here yesterday with relieving him of a wad of $120. The defendants were W. Williams, G. Walker and Douglas, the latter pleading guilty to receiving part of the stolen money. Walker was discharged, and Williams was held for sentence. All were celebrating.

STOPPED IN MID-OCEAN

Big Liner Held for Three Hours by Fish

Special to the Review.

Halifax, Nov. 2.—The steamship Durango which has arrived from London, was stopped in mid-ocean for several hours, before it was discovered that a fish, which had been sucked into the feed pipe, had prevented the pumps from working.

COUNTESS. SUED FOR $25,000. SAYS SHE WAS DUPED.

ERNEST TERAH HOOLEY. COUNTESS OF WARWICK.

The case of the Countess of Warwick, who is sued in the English high courts for $25,000 by Mr. A. J. Payne, proprietor of a hotel in Victoria street, has been adjourned.

The case grows out of the Countess' dealings with Ernest Terah Hooley. She gave him ten notes of $25,000 each, for which she was to receive 100,000 shares of the Pump Timber Company of America. The Countess says these shares, of which she only got 50,000, are practically worthless.

Mr. Paine sued Hooley, and the arbitrator awarded him $75,000 in settlement. Hooley offered to Mr. Paine three of the Countess' twenty-five thousand dollar notes. Mr. Payhe agreed to accept one and discounted it. As the Countess has not met it he is suing her for the money.

IMPERIAL TROOPS WILL BE CALLED OFF FOR SOME TIME

Negotiations to be Opened by New Chinese Premier With the Rebels—Peaceful Outcome is Possible, But Not Probable.

Pekin, Nov. 2.—The appointment of Yuan Shi Kai yesterday as Premier of China will be followed by a cessation of hostilities on the part of the Imperialists and the opening of negotiations with Gen. Li Yuen Heng, the leader of the revolutionists at Hankow.

An Imperial edict providing for important administrative changes also accepts the resignations of the Ministers, but until Yuan Shi Kai returns to Pekin, Prince Ching will continue to perform the duties of Premier and the present Cabinet will remain in office.

All the Ministers attended a secret session of the National Assembly, which, it is understood, practically agreed to the demands of the disaffected Lanchow troops. A member of the War Board was appointed to confer with the troops and express the assembly's views.

The Assembly also discussed the recent loan for which arrangements had been made with a Belgian and French syndicate. The Ministers explained that the loan was needed for the purpose of carrying on field operations. The Assembly thought there was a good prospect of the termination of hostilities, in which case the loan would not be necessary. It was finally decided to refer the matter by telegraph to Yuan Shi Kai. A member brought up the question of the Shanghai Taotai's failure to pay the instalment of the Boxer indemnity, and a Minister explained that two months' grace, with 4 per cent. interest had been allowed.

The panic among the people of Pekin which ensued after the issuance of the first Imperial edict, has been largely dispelled, and the newspapers are beginning to sum up the results of the 17 days' rebellion. The Daily News considers that the appointment of Yuan Shi Kai will change the entire political complexion, restore peace, inspire the people with confidence, command the respect of foreign countries and place the empire on a solid basis.

Reports received here state that Yunnanfu, Anking and several other small places in Anwei and Kukhien provinces have gone over to the revolutionists. Soldiers in North China are avowedly awaiting the action of Yuan Shi Kai.

The Government troops and the Shansi rebels are encamped not far apart. Apparently they do not intend to fight, for the present at least.

Hankow May Be Captured.

Pekin, Nov. 2.—The War Office has received a report that the Imperialist forces have recaptured Hankow and massacred the population.

Short Lived Republic.

Washington, Nov. 2.—The independent republic, which was set up at Canton, China, a few days ago, has had a short life. Mr. Williams, the American in charge at Pekin, informed the State Department yesterday that the vice-roy and other Imperial officials had absolutely refused to recognize the newly-proclaimed republic, and as the troops in Canton decided to remain loyal to the throne, the new republic perished.

Situation Changing.

Shanghai, Nov. 2.—The edict appointing Yuan Shi Kai Premier, and his active participation in negotiations with the rebels, have considerably cleared the situation. It is evident that the revolutionists throughout the south are awaiting Yuan's word.

While the Government's action has been delayed so long as to possibly seriously affect the negotiations, there is reason to believe that the tone of the edict will appeal to the sentiment of Chinese, and a few days may serve to settle the whole question. A great obstacle, however, is skepticism regarding the sincerity of the administration at Pekin.

Yuan Shi Kai has sent a wireless message to Shanghai, instructing the telegraphs department to send operators and material for repairs to Hankow, indicating that he expects to have control.

Rear Admiral Murdock, commander-in-chief of the American Asiatic squadron, is distributing the smaller vessels to points where Americans are nervous. He expects to establish wireless communication with Hankow today.

MR. PECK'S COMMITTEES

Ward 1.—At Mr. VanEvery's building, corner Rubidge and Dalhousie streets.

Ward 5.—At Mr. Hamilton's, Hunter street east.

Wards 2, 3 and 4.—At Central Committee rooms, George street.

All those desirous of assisting in the work of organization are requested to attend these meetings.

Child Fell to Death.

Toronto, Nov. 2.—Word has been received in the city of the accidental death in Fresno, Cal., of Rae Haley, 3 1-2-year-old child of R. J. Haley of Hambly avenue, real estate broker of this city.

Mr. Haley was traveling with his wife and child, and the boy fell down the elevator shaft at the Fresno Hotel, at which they were staying, being instantly killed.

The body is being brought to Toronto for interment to-day.

Seven Killed By Explosion.

Chehalis, Wash., Nov. 2—Fire which destroyed the powder factory of the Imperial Powder Co. here late yesterday, caused seven young women employed in the factory to lose their lives, and an eighth probably will die.

Only two girls escaped, although a dozen men were hurt.

AUTHORESS DEAD

Lady Colin Campbell Passes Away at London

Special to the Review.

London, Nov. 2.—Lady Colin Campbell, the noted authoress, passed away to-day.

MacKAY WILL STAY IN RUNNING

Owen Sound, Nov. 1.—Considerable curiosity existed here until late this evening as to whether Hon. Mr. MacKay's resignation of the leadership of the Opposition meant also that he would not contest North Grey. Shortly after Mr MacKay's arrival this evening all doubts were set at rest. He was met by a large group of the most influential Liberals of the town, who were chagrined to think that after ten years of almost ceaseless work in the Liberal ranks he should have felt constrained to resign the provincial leadership. They, however, immediately urged him to be a candidate in the coming fight, and Mr. MacKay consented. Conservatives here are confident that with a recent majority of 350 to the good they can again carry the riding. Their convention will be held to-morrow. The Liberal convention will be held on Wednesday, November 8.

TO STOP ITALIAN ATROCITIES

Special to the Review.

Berlin, Nov. 2.—Combined action on the part of the powers is being sought in an endeavor to prevent the continuance of massacring at Tripoli. A movement was started here to-day to protest against the Italian atrocities. The manner of butchering is said to be beyond anything in modern civilisation. Fifty men and boys were herded into an enclosure on the outskirts of Tripoli and the Italians fired volley after volley at the unfortunate prisoners.

COCHRANE STEPS IN

Will Discuss Power Matters With City Council

MR. BURNHAM HAS RECEIVED A LETTER FROM THE MINISTER OF RAILWAYS AND CANALS, HON. FRANK COCHRANE, IN WHICH HE SAYS THAT AT THE EARLIEST POSSIBLE OPPORTUNITY HE WILL ARRANGE A DATE TO DISCUSS THE WHOLE POWER QUESTION WITH THE CITY COUNCIL AND HYDRO-ELECTRIC COMMISSION.

Would Regulate Intercolonial.

Montreal, Nov. 2.—In the matter of the Intercolonial Railway rates on ex-water grain from Montreal to points east on the Intercolonial Railway, the managing board of the Canadian Government railways have notified the Montreal Board of Trade that the matter had been further discussed and that the views of the board could not be met.

The Board of Trade council, at a meeting yesterday, was of the opinion that this decision further emphasised the desirability of the Intercolonial being placed under the jurisdiction of the Railway Commission.

C.P.R. Express In Collision.

Calgary, Nov. 2.—When it ran into an open switch at Wessex, five miles north of Crossfield, yesterday morning, at about 2.30 o'clock, the express that left here at midnight for Edmonton collided with a southbound freight, and Fireman Tom Currie of Calgary, of the passenger train, was killed, while Engineer Houston of the same train was severely scalded, and J. Carson, baggageman, and a brakeman named Parsons, were injured. All the members of the crew were Calgary men. None of the passengers were injured.

ON STRIKE

Taxi Cab Drivers are After Better Wages

Special to the Review.

London, Nov. 2.—Five thousand drivers of taxi cabs quit work this morning to go on strike for higher wages.

Choked to Death In Wagon.

Welland, Nov. 2.—An inquest was held yesterday by Dr. Park, coroner of Marshville, as to the death of John Anderson, residing near Wellandsport, who was found dead in the wagon upon his return from Dunnville Friday last, and the verdict was rendered that Anderson came to his death on Friday, Oct. 28, while lying in a wagon coming from Dunnville from choking on particles of food lodging in the windpipe.

Leeds Liberals.

Brockville, Nov. 2.—The Liberals of Leeds have arraigned to hold a convention at Delta on Saturday, to arrange as to whether Hon. W. T. White of Toronto, will be allowed to sit for the constituency without opposition, as well as to select a candidate for this riding to contest the provincial election.

Lynchers Indicted For Murder.

Lake City, Fla., Nov. 2.—Charged with participating in the lynching of six negroes here on May 21 last, Samuel Ward and John Atkinson of Tallahassee were indicted yesterday for murder. A reward of $5,000 has been offered by the state for the apprehension of the persons who took part in the lynching.

Will Produce Books.

Indianapolis, Nov. 2.—Possession of account books of the International Association of Bridge and Structural Iron Workers and other evidence in the so-called McNamara dynamiting case yesterday was granted to the Federal Grand Jury by Judge Markel of the Criminal Court of this county.

ATLANTIC STORM WRECKED SIX SCHOONERS OF FLEET

"HOLY GHOSTER" ARRESTED

REV F W SANDFORD

On trial for negligence contributory to death of a follower.

Low Water Delays Navigation.

Montreal, Nov. 2.—As a result of the state of low water in the lift lock at the head of the Cardinal Canal, five steamers and eight barges, all of them carrying capacity cargoes of grain, are held up unable to proceed to Montreal.

A serious state of congestion exists and a local transportation official prophesies that there will be half a million bushels of grain unable to get to Montreal if matters do not improve before the end of the present week.

CONTESTS ORDERED

Rowell Wants Fight in Every Riding

Special to the Review.

Toronto, Nov. 2.—Leader Rowell, of the Liberal party, has inaugurated his leadership by an order to have practically every seat in province contested in the pending elections. He will probably be the candidate in West Middlesex, his old home.

Dr. Grenfell's Own, Yacht the McCosh, is Lost in Wild Storm.

Boston, Nov. 2.—The severe October storm which swept northern waters badly damaged the fishing fleet, according to a letter from Dr. Wilfred T. Grenfell, the misionary physician, written at Red Bay, Labrador. Dr. Grenfell writes that six vessels were totally wrecked, including his own costly auxiliary yacht Andrew McCosh, which was given to the Labrador mission by Princeton University. The other vessels lost were schooners, four of which foundered at Lewis Bay. The crews of all the vessels escaped.

The McCosh was wrecked at L'Anse Amour while on her way to take off Dr. Harrison Webster of Boston, who is stationed at Battle Harbor and who was visiting a patient at Forteau Lighthouse. The yacht's crew narrowly escaped with their lives. Dr. Grenfell was not on board at the time.

TAG DAY, Saturday, Nov. 11th

TWENTY FRIENDS OF CHICAGO WOMAN HAVE DIED LATELY

Chicago Police Have Been Investigating the Odd Coincidence—No Evidence Has Yet Been Found—A Long Record.

Chicago, Nov. 2.—Chicago police today pursued their investigation into the deaths of nearly a score of relatives and acquaintances of Mrs. Louise Vermilya, to make certain whether the similar demises constituted only a remarkable series of coincidences as Mrs. Vermilya asserts.

Nine deaths are included in the list with which Mrs. Vermilya's name has been connected, including two husbands, three step-children and three roomers at boarding-houses she kept.

No positive evidence of crime has been uncovered. The following new facts became known yesterday:

That while Mrs. Vermilya has said one of the death roster, Richard T. Smith, a conductor, was only a boarder at her home, a former roomer asserts the two claimed previously to have been married and that they lived together as man and wife.

That while the woman told the police she had assisted an undertaker at Crystal Lake, a former home, in embalming bodies, the undertaker there denies he ever had any such experience. She gave this as a reason why she could discuss the deaths with composure.

That R. N. Bruington, a photographer, of Peoria, and a brother-in-law of the conductor, Smith, had made love to the widow, following Smith's death, to investigate suspicions he then had about the reason for his relative's demise; that the widow had told him part of her matrimonial history, which he desires to give to the coroner.

That Smith died during convulsions and after drinking some substance, but that the doctors gave the cause of death, from descriptions of symptoms given by the widow, as acute gastritis.

That Bissonette was really engaged to be married to Miss Lydia Rivard of Kankakee, this was shown by the filing yesterday of the policeman's will, in which Miss Rivard was named as his fiancée. Mrs. Vermilya was a witness to the will and the police will endeavor to ascertain whether the widow had shown jealousy of the policeman.

A new coincidence developed yesterday following the sudden illness of Mrs. Vermilya herself, when a sister living in the house adjoining, Mrs. Mary Buch Holz, suddenly became ill. Mrs. Vermilya told enquirers yesterday she had never studied medicine nor sought to become a nurse, as had been reported, but that she had some little knowledge of medicines that she had acquired to enable her to aid neighbors and relatives. She insisted she was innocent.

The deaths being looked into follow: Fred. Brinamp, first husband of Mrs. Vermilya, died on a farm near Barrington, Ill., after brief illness; Charles Vermilya, second husband, died after six days' illness of gastritis, at Maplewood, Ill.; Florence Brinamp, four-year-old daughter, died at Barrington; Cora Brinamp, eight-year-old daughter, died at Barrington; Harry G. Vermilya, step-son, 36 years old; Lillian Brinamp, step-daughter, 26 years old; Frank Brinamp, son, died of pneumonia, in Chicago; Richard T. Smith, reported to be the third husband; Arthur Bissonette, policeman, roomer to whom she was engaged, died of gastritis last Thursday.

It was the suddenness of Bissonette's death, coupled with the widow's statement that he was addicted to drink, whereas members of the police force knew him as an abstainer, that decided the authorities on an investigation.

"HOLY GHOSTER" SANDFORD IS IN COURT ON SERIOUS CHARGE

Said to Have Contributed to Death of Follower by Neglect to Provide Food.

Portland, Me., Nov. 2.—Rev. F. W. Sandford, leader of the Holy Ghost and Us Society of Shiloh, was held at a preliminary hearing yesterday for trial before the December term of the United States court on a charge of causing the death of Charles Hughey, on board the yacht Coronet, by failing to provide proper and sufficient food when the yacht put to sea.

Robert McKay, one of the witnesses, was first mate of the Kingdom before she was wrecked, and testified that after the disaster, her masts were cut away and the vessel was set on fire. Mr. Sandford, he said, declared the Kingdom was a burnt offering for Africa.

He told at considerable length of the voyage across the Atlantic to Chesapeake Bay and up the coast to Newfoundland. At one time while coming over they fasted 28 days, and only one meal a day was eaten. It consisted of cornmeal mush and bread, served in the morning. At midnight sometimes the men working at the pumps were given a half pint of thin gruel.

Mr. Mackay said that when they were in the northern waters, George Hughey, one of the brothers, who died on board, was told by Sandford, while sick that he had withstood the leader at some time, and God was going to deal severely with him.

Blame Put on Patriotism.

Port Huron, Nov. 2.—Contractor Alexander S. Tracy, who was arrested on Labor Day for fast and reckless driving of his automobile at Toronto, which subseqeuently resulted in a $1,000 fine being imposed upon him, blames the whole trouble to excessive patriotism.

The severe sentence handed out to Tracy caused a great deal of surprise when announced in this city. He was found guilty of fast driving, but it was thought the court would inflict nothing more than a nominal sentence.

COMMANDS ITALY'S ARMY.

GENERAL CANEVA, COMMANDER-IN-CHIEF OF ITALY'S ARMY IN TRIPOLI

Captured by the Turks in a fight in the outskirts of Tripoli.

PROBABILITIES

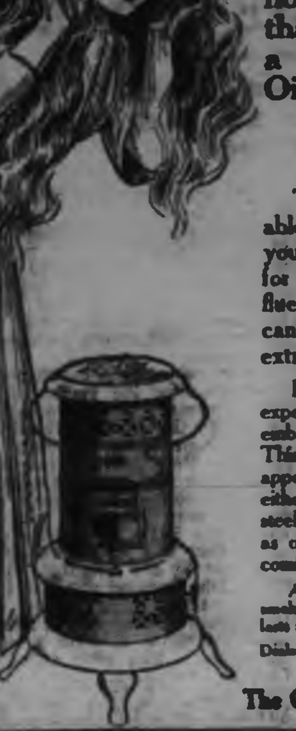
Fresh strong northwesterly winds; fair and decidedly cold to-day and on Friday.

CHINESE SECTION WAS DESTROYED

One Million Dollar Loss by Fire at Manila

Special to the Review.

Manilla, Philipines, Nov. 2.—As a result of a terrible fire which destroyed practically all of that part of the city, inhabited by Chinese, to-day, more than one million dollars loss was was brought about.



Clean, Dry Heat

Clean, dry heat, with no smoke or odor and with no flying ashes or soot—that is what you get with a Perfection Smokeless Oil Heater.

PERFECTION SMOKELESS OIL HEATER

The Perfection is the most reliable and convenient heating device you can find. It is always ready for use. There are no pipes or flues or wires to bother you. You can pick it up and take it wherever extra warmth is wanted.

Every mechanical improvement that experience could suggest was already embodied in the Perfection Heater. This year we have tried to add to its appearance. The drums are finished either in turquoise-blue enamel or plain steel, as you prefer; nickel trimmings; as ornamental as it is indispensable to comfort.

A special automatic device absolutely prevents smoking. All parts easily cleaned. Gallon font; lasts nine hours. Cool handle; damper top.

Dealers everywhere; or write for descriptive circular to any agency of

The Queen City Oil Company, Limited

The Daily Review

THURSDAY, NOV. 2, 1911.

MR. HALL'S CIRCULAR

The first of Mr. Hall's campaign efforts is a dodger distributed to the business men of Peterborough, asking them if they like the printing of the school books by a big Toronto departmental store—the Eaton company—with the name of the store on the book.

Mr. Hall wants to know, if they like the advertising the Toronto firm gets, through printing the readers, and the distribution of the books around the province at HALF OF THE FORMER COST.

Mr. Hall would probably prefer having the old Ross system of handling the school books, where the school book ring of publishers was able to "SOAK" the people of Ontario twice what the school books should have cost. The fact that the Toronto company does the school book printing so cheaply that the price of books now is half of what it used to be under the Ross graft system, is neither to the discredit of the concern nor of the Whitney government. On the other hand, it is saving to the parents of the province thousands and thousands of dollars that used to go to fatten the pocket-books and the automobile funds of the Ross money-grabbers.

As an evidence of the keenness of the Whitney government business methods, Mr. Hall could have cited nothing more to the point. By secretly circularising the merchants, Mr. Hall hopes to be able to prejudice them, because of the Toronto firm's connection with the school books, WITHOUT BETRAYING to the people the fact that he is OPPOSED to the method whereby they are saved half of the money that used to be paid for school books in the Ross regime. Do the voters of Peterborough, the workers as well as the merchants, want the Ross cliqueism in school books, or do they want the business methods of Whitney? That is a fair question.

THE WHITNEY APPEAL

The Montreal Witness (Liberal) cannot see any success in sight for the Liberals of Ontario, in the coming election. The Witness acknowledges that "so shattered and aimless is the opposition party that few would expect it to gather itself together had the warning been twice as long." The Witness' summary of the situation on the whole is very accurate and fair, though written from a prohibitionist standpoint. It is an interesting opinion:

"Sir James Whitney is appealing to the Province of Ontario at an auspicious moment. His boast that no one can complain of being taken by surprise by a two months' warning is a fair one. The elections are appointed for the first moment at which the voters' lists could be ready and the announcement could hardly, in view of the unmentioned occasion of the election, have been made sooner. But so shattered and aimless is the opposing party that few would expect it to gather itself together had the warning been twice as long. It is not that the majorities which recently swept the country are large. A very small turn of the tide would reverse the whole thing. But there seems nothing in sight to bring that about. Sir James goes to the country on a splendid past record, with a minimum of constructive policy for the future. The only utterance we have seen from the Liberals was issued by a caucus of Mr. Mackay's legislative supporters. It consisted more of reproaches of the government's sins of omission, and commission than of any announcement of a forward step.

Wood's Phosphodine, The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins, Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhea, and Effects of Abuse or Excesses. Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. New pamphlet mailed free. The Wood Medicine Co. (formerly Windsor) Toronto, Ont.

"The Liberals could hardly win the day at present with any policy. To accomplish such a miracle they would need some very fetching war cry. But if their turn is to come at all, before the party in power becomes much more decadent than it is, they will need to have some pronounced progressive policy. Were they to demand provincial abolition of the bar-room they would certainly conjure into the fullest activity against their success the greatest political force — indeed, we may say, even in Ontario, the ruling political force of the day. But they would be fighting in a winning cause, and if not now, which could hardly be, yet next time they would, after the present campaign of education, have all the conscience of the province with them. The evil force needs only to be exposed in open fight to lose its power. It was in his surrender on this subject that the hand of Sir George Ross became enervated, and after it that his administration sank to hopeless decay. So much so, that whatever faults may be found with the Whitney administration, they come into favorable comparison with those of the Ross Government.

A number of the reforms to which Sir James Whitney appeals are of real moral import. He has been far from fully enforcing the liquor laws. There have been cases of winking. But the enforcement has been much more effective than in the later days of the Ross Government, and although Sir James took from the municipalities the power of abolishing the bar on equal terms, he created a condition of enforcement under which almost no municipality went back on itself, as was done universally in the case of the Scott Act, through non-enforcement. The three-fifths clause in the present local option law will be a leading point of attack on his government. It is exceedingly resented that two supporters of the bar room should count for as much as three temperance voters, in view of the well recognized difference of respectability. Sir James Whitney's answer to that is that when once the law is passed it now takes three to two to abrogate it, and it practically becomes a permanent ordinance, and that when its enactment becomes general in the province it will be the temperance people who will be the advocates of the three-fifths clause, holding truly that two temperance men should count for three drinkers. Still there is no doubt that if there is a weak point in Sir James Whitney's harness, it is here, as it is greatly hampering the progress of the reform.

"On the other hand progressive moralists will have nothing but praise for the change which the government has wrought in the treatment of criminals, by giving them useful open air work to do. It is to our mind only a beginning. The time must come when the men of labor will want to give their lapsed brethren every chance to recover their manhood, and when they will realize that manhood depends upon doing one's best for mankind, and incidentally for oneself and family, and that prisons should be schools of industry and of intelligence, sending the prisoners out better, not worse, than they went in. We, however, heartily thank the Whitney Government for the step taken, as well as for the development of the parole system. The agricultural development is another honorable distinction. It was greatly aided by Sir William Macdonald and greatly promoted by Dr. Robertson. The principle of aid to private railways was abolished in the beginning of the Whitney regime. On the contrary, the railways have been taxed, which, in view of early public aid, is only fair. The government has, however, no objection to federal grants.

"One of the three measures put before the province for its decision at this election is whether the Whitney Government shall remain in power to insist on the federal government grant to railways being paid in the case of the provincial railway as a matter of right. Another is whether the government shall be authorized to make provincial expenditures in connection with the expected grant. We know of no country in the world that has been so lavish towards railways as Canada. In the United States land grants and subsidies have, we believe, for the most part, remained a lien upon the companies to be paid back in the days of their prosperity. The principle of government ownership of railways and water powers is a cardinal one with the Whitney Government. It is a dangerous one in our stage of political morals. Sir James Whitney's third proposition practically seems to be to expropriate the great water powers in Central Canada, the only important ones which the government does not already control. These are chiefly, if not altogether, in the Trent Valley. In fact, in having close relation with a federal work, the Trent Valley Navigation, these powers have been in the hands of a government which till now was out of harmony with that of Ontario. Now that Mr. Cochrane has left the provincial control to assume federal control, these conditions are changed, and he has already announced his policy as favorable to Sir James's plan. With this somewhat socialistic and popular program of public ownership Sir James Whitney now goes to the country."

THE GNASHIONALISTS

The Examiner is still frothing away at the Gnashionalist business. The Borden-Bourassa-Burnham bees are still in its metaphorical bonnet. Can it be that the business of the country has been dreadfully upset by this terrible triumph of the French element, in getting ordinary fair play, in Dominion affairs? A person would conclude so, by reading the diatribes of the organ.

Those who can see beyond the narrow, slant-eyed perspective of the Examiner in the matter, are not growing grey thinking that the country must be going to the dogs, because there happens to be a few Nationalists around. As a matter of fact, if the organ could only come out of its post-election catalepsy, and see things as they are, it would save some of its readers many trials of patience, for a newspaper that takes a continually hysterical view of a matter not at all alarming, is only a trial to the fair, thinking reader. There is no Dominion election in sight, but the organ is still fighting that terrible fight against those arch-traitors to Canada and the Liberal party—the Gnashionalists.

EDITORIAL NOTES

Mr. Rowell's name might be supposed to rhyme with trowel, but that does not mean that he might plaster it on.

The Globe a couple of days ago editorially had something to say about "Lot's wife." This should be taken with some salt, however.

The Conservatives have made four gains in the Alberta provincial elections. Alberta has, of course, always prided itself on being strictly up-to-date.

Some complaint is being raised because the Rideau hall grounds are not open to the public as before. The people of Canada ought to be willing to pay the price if they want royalty among them.

Now that Mr. Hall knows that he cannot become the Liberal leader in Ontario, he should be able to settle down to ordinary campaign work. His first move will probably be in getting out a search warrant to find where he is at, with regard to policies.

THE MARKETS

Latest Quotations in Grain Dairy Products, Live Stock Etc.

CHICAGO, Nov. 1.—Wheat rebounded to-day after being for a time demoralised owing to huge sales by a house that has been identified with the leading bull clique. Reports of export flour sales at Toledo helped to cause the rally. Closing figures were 1-8c and 1-4c net lower, but firm. Corn finished unchanged to a shade up, oats either not altered or 1-8c higher, and hog products at 22 1-2c to 27 1-2c advance.

The Liverpool market closed to-day ⅜d to ½d lower than yesterday on wheat, and 1½d lower on corn. Berlin closed ⅜d lower on wheat.

Liverpool Provisions

LIVERPOOL, Nov. 1.—Beef, extra India mess, 88s 9d. Pork, prime mess western, 97s 6d. Hams—Short cut, 14 to 16 lbs., 53s 6d. Bacon, Cumberland cut, 26 to 30 lbs., 54s; short ribs, 16 to 24 lbs., 60s 6d; clear bellies, 14 to 16 lbs., 58s; long clear middles, light, 28 to 34 lbs., 59s; do., heavy, 35 to 40 lbs., 58s 6d; short clear backs, 16 to 20 lbs., 49s 6d. Shoulders, square, 11 to 13 lbs., 47s. Lard, prime western, in tierces, 45s 9d. American refined, in pails, 46s. Butter, good U.S., 1128. Cheese, Canadian finest white, 68s 6d; do., colored, 69s. Tallow, prime city, 35s. Turpentine, spirits, 35s 3d. Rosin, common, 15s 6d. Petroleum, refined, 6½d. Linseed oil, 42s.

Montreal Grain and Produce.

MONTREAL, Nov. 1.—There was an increased demand from foreign buyers for Manitoba spring wheat and as bids for the low grades were in line in many instances, a fair volume of business was worked, but the bids for the regular grades were 1c per bushel below cost. There was a fairly good demand from local buyers for oats and sales of round lots of extra No. 1 feed, amounting to 70,000 bushels, were made to arrive. The tone of the spot market is very firm on account of the light stock on spot. American No. 3 yellow corn in car lots is firm at 81c, ex-store. A fair trade continues to be done in flour for local account, but the demand for export is slow. Demand for mill feed is good, of which supplies are limited. Cheese and butter

Lard—Compound tierces, 375 lbs., 9¼c; boxes, 50 lbs. net (parchment lined), 9⅜c; tubs, 50 lbs. net, grained, two handles, 9½c; pails, wood, 20 lbs. net, 9¾c; tin pails, 20 lbs. gross, 9¼c.

Pork—Heavy Canada short cut mess, barrels, 35 to 45 pieces, $24; half-barrels, $12.25; Canada short cut and back pork, 45 to 55 pieces, barrels, $23; Canada clear pork, barrels, 30 to 35 pieces, $22.50; bean pork, small pieces, but fat, barrels, $17.50.

Oats—Canadian western, No. 2, 48c to 48½c, car lots, ex-store; extra No. 1 feed, 48c to 48½c; No. 3 C.W., 47½c to 48c; No. 2 local white, 47c to 47½c; No. 3 local white, 46½c to 47c; No. 4 local white, 46c to 46½c.

Flour—Manitoba spring wheat patents, firsts, $5.50; seconds, $5.10; winter wheat patents, $4.75 to $5; strong bakers', $4.90; straight rollers, $4.25 to $4.40; in bags, $1.95 to $2.05.

Rolled Oats—Per barrel, $5.25; bag of 90 lbs., $2.50.

Corn—American No. 3 yellow, 81c.

13½c to 13¾c.

Millfeed—Bran, Ontario, $22 to $24; Manitoba, $22; middlings, Ontario, $27 to $28; shorts, Manitoba, $25 to $26; moullie, $30 to $33.

Eggs—Selected, 30½c to 29c; fresh, 23c to 24c; No. 1 stock, 22½c to 24c.

Cheese—Westerns, 14c to 14½c; easterns, 13¾c to 13⅞c.

Butter—Choicest, 27c to 27½c; seconds, 26½c to 26¾c.

CATTLE MARKETS.

Montreal Live Stock.

MONTREAL, Nov. 1.—At the Canadian Pacific Live Stock Market the offerings this morning were 800 cattle, 500 sheep and lambs, 1700 hogs, and 300 calves. On account of the colder weather and the smaller supply of cattle on the market a firm feeling prevailed and the advance in prices noted on Monday was well maintained. The demand was fairly good for all grades and a more active trade was done.

Choice steers sold at 5¾c, good at 5½c, fairly good at 5c to 5¼c, fair at 4½c to 4¾c, and common at 4c to 4¼c per lb. The market for good cows and bulls was stronger and prices ruled higher with sales of the former at 4½c to 5c, and the lower grades at 3½c to 4c, while bulls brought from 3c to 5c per lb, as to quality.

A stronger feeling developed in the market for hogs and prices advanced 25c per cwt., owing to lighter offerings and the improved demand from packers for supplies. The trade was fairly active and sales of selected lots were made at $6.25 to $6.50 per cwt., weighed off the cars.

A good trade was done in sheep and lambs. Sheep were firmer at 3c to 3¾c, and lambs were easier at 5c to 5¼c per lb. The demand for calves was good at prices ranging from $3 to $10 each, as to size and quality.

At the Montreal Stock Yards, West End Market, the supply of live stock consisted of 800 cattle, 800 sheep and lambs, 1800 hogs and 175 calves. The feature of this market was the active trade done in hogs and sales of selected lots were made at $6.25 to $6.50 per cwt., weighed off the cars. In cattle, sheep and lambs the feeling was firm, the demand being ample to absorb all the offerings.

East Buffalo Cattle Market.

EAST BUFFALO, Nov. 1.—Cattle—Receipts, 300 head; market, slow, steady; prime steers, $7.25 to $7.75; butcher grades, $3 to $6.75.

Calves—Receipts, 125 head; market, active, steady; cull to choice, $6 to $9.50.

Sheep and Lambs—Receipts, 5200 head; market fairly active and steady; choice lambs, $5.75 to $5.90; cull to fair, $4.25 to $5.50; yearlings, $4 to $4.25; sheep, $1.50 to $3.75.

Hogs—Receipts, 2200; market, slow, 5c to 10c lower; yorkers, $6.00 to $6.50; stags, $5 to $5.60; pigs, $5.80 to $5.90; mixed, $6.60 to $6.65; heavy, $6.60 to $6.70; roughs, $5 to $5.60.

Chicago Live Stock.

CHICAGO, Nov. 1.—Cattle—Receipts, estimated at 17,000; market, strong to 10c higher; beeves, $4.60 to $9.15; Texas steers, $4.10 to $5.80; western steers, $4.15 to $7.25; stockers and feeders, $3.00 to $5.75; cows and heifers, $2 to $6; calves, $5 to $8.75.

Hogs—Receipts, estimated at 23,000; market, 5c to 10c lower; light, $5.65 to $6.25; mixed, $5.65 to $6.40; heavy, $5.65 to $6.40; rough, $5.65 to $5.90; good to choice, heavy, $5.90 to $6.40; pigs, $3.75 to $5.50; bulk of sales, $5.95 to $6.25.

Sheep — Receipts, estimated at 20,000; market, 10c to 20c higher; native, $2.25 to $3.85; westerns, $2.40 to $3.90; yearlings, $3.60 to $4.20; lambs, native, $4.75 to $6.20; westerns, $4 to $6.

Dr. Morse's Indian Root Pills owe their singular effectiveness in curing Rheumatism, Lumbago and Sciatica to their power of stimulating and strengthening the kidneys. They enable these organs to thoroughly filter from the blood the uric acid (the product of waste matter) which gets into the joints and muscles and causes these painful diseases. Over half a century of constant use has proved conclusively that Dr. Morse's Indian Root Pills strengthen weak kidneys and Cure Rheumatism

CHAPTER XXXVIII
Anxious Hours.

"See, Luisita! Yonder go soldiers!"

"Where?"

"Along the calzada of Nino Perdido — under the trees — by the thick clump — they're galloping!"

"Yes! I see them now. Oh, Isabel! if they overtake the carriage!"

This exclamatory dialogue was carried on while the alarm bells were still ringing and the guns booming. The speakers were on the azotea of Don Ignacio's house.

In the balcony, with opera-glasses to their eyes, they had been scanning the roads which led south and southwest from the city.

What would be the upshot of all!

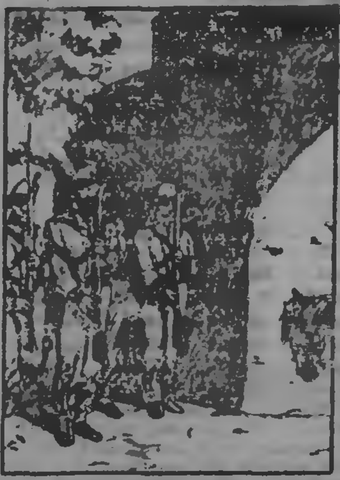
What *if* the *carriage* were overtaken with the fugitives in it, and beside them those knives and pistols, to say nothing of the file? A gentleman's cloak, too! Odd assortment of articles for ladies to take out on an airing! They had no fear of the coachman betraying them; but this paraphernalia surely would, if it fell into the hands of the pursuers. They might expect investigation, anyhow; but these things, if produced, would bring about an exposure unavoidable.

Luisa and the countess could not think of what they ought to do. But one way seemed plausible — even possible — that of depending on Don Ignacio. If they could prevail on him to tell a falsehood, all might be well. He had only to say the carriage had been made ready for a journey to his country home, whither he had intended to proceed that same evning, taking his daughter and the countess. That would explain the presence of the weapons, for carriage travellers take such with them, even when going but outside the suburbs of the city, and for good reason, there being foot pads and robbers everywhere. And the cloaks were for protection against the night airs

Finally Jose came back with the carriage and horses, and nothing besides—no weapons nor spare wraps.

Pepita brought this intelligence to the ladies, who longed to have an interview with him, but he had first to deliver his report to Don Ignacio who had sallied out into the stable to receive it.

At a later hour the circumspect coachman told his tale to other ears in terms somewhat different, and with incidents. His master, summoned to the palace, gave the opportunity, and he was soon interrogated with a volubility which made sober reply almost impossible.



THE GUARD WAS FOUND STANDING AT "PRESENT ARMS"

He told them about the slow driving of the carriage along the garden wall of San Francisco, the putting on the disguises, and how cleverly they had outwitted the guard at the garita; of their onward course, till stopped on the Coyoacan road, and how he fugitives had mounted and ridden off.

That was enough for the countess who, springing to her feet and clapping her hands, cried out:

"Joy, Luisita! They're safe, I'm sure. Ruperto knows the Pedregal, every path through it, as well as we the walks of the Alameda. I shall sleep this night better than the last and you may do the same."

Jose stood waiting, not for any reward, but the countess was thinking of it then. True to promise and contract, she said to him:

"Faithful fellow — courageous as faithful — take this; you've fairly earned it"

Whilst speaking, she drew the jeweled watch from her waist, and, passing the chain over her head, held it out to him.

"And this, too!" added the Donna Luisa, plucking a diamond ring from one of her fingers, and presenting it at the same time.

"No!" protested the faithful servitor. "Neither the one nor the other. Enough reward to me to know I've done your ladyship a service — if I have."

"But, good Jose," urged the countess, "you must either take my watch or the worth of it in gold! That was the understanding, and I shall insist on your adhering to it."

"Very well, condera; I consent to that. But only on the condition that the gentlemen get safe off. Till we're sure of that, I beg your ladyship won't look upon me as a creditor."

"If her ladyship should," here put in a third personage of the sex feminine, who had just entered upon the scene — "if she should. I'll pay the debt myself. I pay it now—there!"

It was Pepita who thus delivered herself, as she did so bounding forward, flinging her arms around his neck, and giving him a sonorous kiss upon his cheek! Then she added, laughing:

"I've given you that for what? Why, nothing more than doing your duty."

The laughter neither disconcerted nor vexed him. It was not scornful, while the kiss had been sweet. Long coveted, but hitherto withheld, he looked upon it as promise of a reward he would more value than all the watches and rings in Mexico — the possession of Pepita herself.

CHAPTER XXXIX
The Brotherhood.

"Where the deuce am I?"

It was Florence Kearney who asked himself this question on the morning after the retreat up the mountain.

"Queer crib it is," he continued to soliloquize. I don't remember ever having slept in so small a one, except aboard ship, or in a prison cell. How like the last it looks!"

"It must be an old monastery," he thought. "Here in Mexico they often have them in odd, out-of-the-way places. Out of the way this place surely is, considering the climb we've had to reach it."

While still dreamily conjecturing about it, the door of his room was gently pushed ajar. Turning his head round, Kearney saw a man in the garb of the monk.

"I have come to inquire how you have slept," asked the intruder.

"I've had a good night's rest — the best allowed me for a long time," replied Kearney. "But where ——"

While speaking, he had dropped his feet to the floor, and raised himself erect on the side of the bed. What caused him to leave the interrogatory unfinished was a recognition. The countenance he saw was a familiar one, as might be expected after having been so close to his own — within a few feet of it — for days past. No disguise of dress could hinder identification of the man who had partaken of his chain in the Acordada; for he it was.

"Oh! tis you, Don Ruperto!" exclaimed Kearney, suddenly changing tone.

"The same," rejoined the other.

"Well, you're the last man I should ever have supposed to be a monk!"

"Ah! Senor Don Florencio, in this our world of Mexico we are called upon to play many parts, and make our home in many places. Yesterday you knew me as a prisoner, like yourself, in a loathsome jail; today you see me in a monastery. And I am the head of this establishment. But come! As your host I am not now playing the part I should.

"Here, Gregorio!" This was a call to the mayor-domo outside, who instantly after appeared at the door. "Conduct this gentleman to the lavatory, and assist him in making his ablutions." Then again to Kearney: "If I mistake not, you will find a clean shirt there, with some other changes of raiment. And may I ask you to be expeditious? It is rather late for breakfast, and the brethren will be getting a little impatient for it. But, no doubt, your appetite will prompt you."

The monks of this mountain retreat evidently knew how to live. course after course being passed through the hatch in a variety which seemed as if it would never end. There were pucheros, guisados, tomales and half a score of other dishes Kearney had never before heard of, much less tasted.

And the wines were in correspondence — in quality, profusion, every thing.

Some strange speech, however, he heard passing around him, little in consonance with what might be supposed to proceed from the lips of religious men. But if the talk was worldly, it savored little of wickedness. And never could have been heard a more sincere toast than that with which the breakfast was brought to a close, when Rivas, rising to his feet, goblet in hand, the others standing up along with him, cried out:

"Patriay Libertad!"

Country and Liberty! Strange sentiment in such a place, and to be received with acclaim by such people!

To be continued.

Catarrhozone
Cures Permanently
BRONCHITIS, COUGHS, COLDS, ASTHMA, CATARRH

Throw medicine to the dogs. At best they are unpleasant, often useless. You are suffering from some disease of the throat, nose, or lungs. Doctors call it Bronchitis, Asthma, or Catarrh, or it is a slight or severe cold. Germs cause these diseases—they have a common root.

Catarrhozone destroys disease germs but it does more, it heals disease tissue.

CATARRHOZONE is little drops of healing carried by air to the exact place where Catarrh exists. Observe Catarrhozone not only destroys the germs, but immediately restores the result of diseased condition.

Catarrhozone means little drops of healing carried by air and placed over the lungs, throat, and nasal passages.

Catarrhozone is endorsed by doctors, druggists, and by thousands of Canadian people who have used it.

Catarrhozone

Yes, Sir, it is taken in air.

"Little drops of healing" carried by air to weak places in the lungs, throat and nasal passages.

Three sizes: 25c, 50c, and $1.00. Druggists, or by mail post-paid from The Catarrhozone Co., Buffalo, N.Y., and Kingston, Ont.

TELEGRAPHIC BRIEFS.

Puslinch Township is excited over a mad-dog episode.

Julia Buchanan was arrested near Pembroke on a charge of attempting to poison a neighbor.

George A. Scott of Montreal was drowned while on a shooting trip to the Laurentian Mountains.

A company has been organized to work the peat beds near Ottawa, and the Government will withdraw from the enterprise.

Mrs. Lillian M. N. Stevens of Portland, Me., was yesterday re-elected to the presidency of the U. S. National Woman's Christian Temperance Union.

Father Berard announces that a new erection would immediately be built to replace the St. Irene Church, which was destroyed by fire in Montreal on Tuesday.

Welland Liberals nominated Carleton Monroe for the Legislature, and South Huron Liberals nominated Mr. Edmund Ziller. Grenville Conservatives' choice was G. H. Ferguson, M.P.P.

Two women of the same age fell dead on the street in Montreal last night at exactly the same time, both expiring in the shadow of a church and in both cases death was pronounced due to heart failure.

Swooping down at Tucson, Ariz., Aviator C. V. Rogers, now on his last stage of his coast to coast flight, was greeted there by his rival, Robt. G. Fowler, who is attempting to make the transcontinental flight from west to east.

$100 REWARD, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO.,
Toledo, Ohio.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Hotelkeepers Go to Law.

Chatham, Nov. 2.—A writ is to be issued by the Hotel Sanita Co. against John McCoig, proprietor of the Grand Central Hotel, St. Thomas, charging that he took without permission a fall mirror and a number of valuable pictures from the walls of the Hotel Sanita and carried them off to St. Thomas with him. McCoig was the former proprietor of the Hotel Sanita, and sold to the present company. Recently, it is alleged, while on a visit to the hotel, he quietly appropriated the mirror and pictures.

Burned to Death.

Fort William, Nov. 2.—John, the four-year-old son of J. H. Garner, principal of the Ogden street school, was burned to death in the basement of his home here about noon yesterday. His infant sister was also badly burned, but may recover. Little John is thought to have started the fire in some papers during his mother's absence next door. When the mother returned she could not rescue the children because of smoke and flames.

Hewgill Out on Bail.

Toronto, Nov. 2.—Stephen Hewgill, charged with manslaughter in killing a Chinese boy with his motor car, was yesterday admitted to bail by the Attorney-General. The bond is $10,000 and Harry Magee is the bondsman. Bail had been refused by Magistrate Denison and by Mr. Justice Clute. Mr. Hewgill was released from the jail, where he spent Tuesday night.

It's the Carlton-Ritz Now.

Montreal, Nov. 2.—At a meeting of the promoters of the Carlton Hotel Co., held yesterday, the proposal to increase the 5 per cent. bond issue from $600,000 to $1,000,000, was adopted, as was the proposition to change the name of the hotel to the Carlton-Ritz.

Beginning Monday next there will be daily meetings of the Borden Cabinet.

MY LADY'S COLUMN.

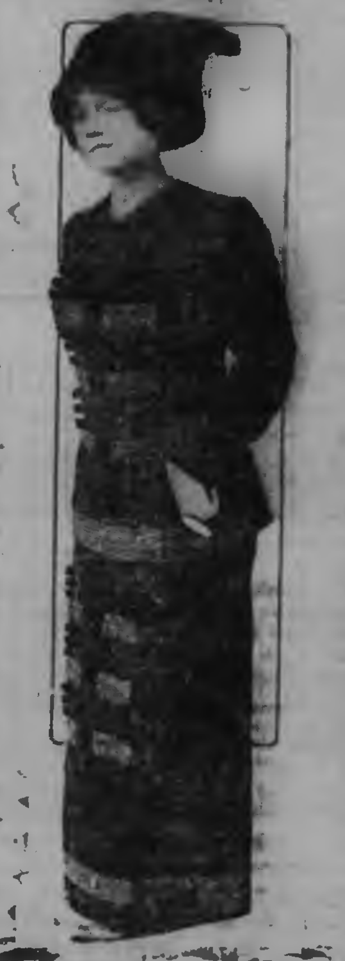
THE MODERN YOUNG WOMAN

Severe Critic Charges She Values Love Only as a Producer of Pretty Clothes and Hats.

The decay of love is a dreadful thing, and yet it attracts no attention. One searches in vain for any attempt to arrest it. Our poets no longer write love-songs. Our novelists are afraid to write love-stories. There is no such thing as true love on the stage. We decline to take love seriously, either in life or in literature. It is treated as the raw material for farce and comedy, but it is not now regarded as good enough for tragedy. Ingenious critics waste much ink on the futile task of proving that Thackeray was not a cynic.

Bless your heart! we are all cynics. And our attitude to love is a proof of our cynicism. In the old days stern fathers and vigilant mothers could not prevent their boys and girls from falling in love. The parent's occupation then was to control the fierce and headlong passions of his brood. Now-a-days, fathers and mothers strive vainly to bribe their children to catch the vanishing disease. The modern young woman does not groan and moan and sob and sigh over her love affairs. She is a practical person. She despises romance. She likes passion to pay a dividend in the shape of pretty clothes and new hats and rhomboid bags and jowelled parasols and all sorts of expensive amusements. She values love as a means to all kinds of merry ends.

Madam Fashion



This dark green suit in velveteen is richly trimmed with black silk soutache. The coat which buttons well over to the left, has soutache trimming between the groups of buttons, and has a band of similar material round the bottom. The same idea is carried out on the skirt, but the braid is two inches from the bottom.

A GOOD COMPLEXION

One of the worst enemies of a good complexion is the skin disorder known as acne, or black heads, the black pin point in the skin, which if neglected will develop into a spot, with or without a "head". This kind of thing arises from the condition of health, and is caused by the pores not acting properly. One of them gets clogged, the bead of perspiration cannot then leave the opening, it stays there, and taking to itself the dirt of the atmosphere develops a black head. The first thing for a cure is to get rid of these blacks; they must be got out of the skin. In many cases all that is needed is to press the part between the nails of the finger and thumb, and when the head is out a little eau de cologne should be rubbed on the part to make the pore close again. When the heads are too firm to remove in this way try what a little steaming will do. Get a jug of boiling water and hold your face over it, wrapping a towel round your head to keep the steam in. After ten minutes of this rub your face with a rather rough towel, and then at once try to press out the heads, using eau de cologne freely afterwards. The steaming tends to open the pores. Do not do this too often, because also it tends to relax the skin. Diet, too, is important aid to a cure, everything that is likely to disagree being avoided; while plenty of exercise and much fresh air are needful. Hot water with soap should be used daily, followed by a cold douche, and hot baths should not be neglected, as they induce the free action of perspiration, while in some cases a Turkish bath is very beneficial.

Sympathy must have a moral quality in it if it is to be any good.

THE CORRECTION OF DEFECTIVE EYESIGHT

It is very important that you have implicit faith in the ability of the Specialist who fits you with Glasses, since there are several important features which must be left solely to his ability and honor.

You cannot possibly appreciate the quality of lenses furnished, and yet on this feature depends the degree of satisfaction to be obtained from the use of glasses. In our Optical work we frequently find people wearing inferior and imperfect lenses, for which they have paid a full price. We will not economize in this department of our business, for we always insist on furnishing the best material at prices that are reasonable.

We believe you will be satisfied with the prices asked in our Optical Department, and know that you will be pleased with the results obtained.

CHARGE AGAINST TORONTO YOUNG MAN WAS DISMISSED

No Evidence of False Pretenses on His Part the Magistrate Ruled.

The case against D. Viener, the Toronto youth, who was charged with obtaining $115.57 from Mr. F. White, the Water street flour and feed merchant, was dismissed in police court this morning.

According to the evidence Viener, who represents B. Viener & Co. of Toronto, sold a carload of hay to Mr. White on Oct. 20th, and when Mr. White went to unload it the station agent ordered him to cease operations on the bill of lading.

D. C. Carmichael & Co., of Cannington, had shipped the hay here for Viener, expecting Savigny Bros. to take it, but as they had refused, the hay being wet and heated, Viener had sold to White and had not had the bill of lading transferred to him.

His Worship ruled that there was no false pretences on Viener's part, as he was the representative of the owners of the bay. He advised the settling of the liabilities with regard to the hay, which still stands as a G.T.R. siding here, out of court.

Mr. Basil Hall appeared for the defendant.

RODE ON SIDEWALK.

A young man, who rode on his bicycle on the sidewalk, was assessed $2 and costs, amounting to $4.60.

"All offenders hereafter will have to pay $4.60," remarked his worship.

PLAYED WITH FIRE.

A youth who was drunk in a public place last night, was fined $2, which, with the costs, amounted to $5.75. He paid.

George Seney, a Havelock man, who claims to be a property owner in that burg, returned to the cells while the officers were sent in search of friends who would pay Chief Thompson $5.75, the amount of Seney's fine for being drunk.

COUNTESS THAMARA DE SWIRSKY

COUNTESS THAMARA DE SWIRSKY

who is acknowledged by both critics and public to be the greatest inspiration and interpretive dancer of the day, is to visit Peterborough. The young Russian is in a class of her own positively unique, combining as she does the charm and grace of the dancer and the finest art of music. The Countess is a graduate of the Paris Conservatory of Music, where she took the first prize, the gold medal, and at Munich she won first honor with 300 others of all nationalities.

During her wonderfully successful season last year, as the Premiere Danseuse of the New York Metropolitan and Boston Grand Opera Companies, Countess Thamara de Swirsky attracted to her the eyes of New York's "400," and was engaged as a private attraction of that exclusive set in Newport. Mrs. James B Haggins built a theatre especially for the appearance of Mlle. de Swirsky, in which her dancing was the delight of Newport's Millionaire Cottage Colony. The Countess de Swirsky will appear at the Grand on Tuesday, Nov. 7th, accompanied by her own large special orchestra.

JURY SAYS DEATH WAS DUE TO DEFENDANTS NEGLIGENCE

Widow of Hugh Darke Receives $1800 as Compensation for Loss of Husband

At 2.30 o'clock this afternoon, the jury returned with the following verdict which was read by His Lordship. "That the deceased, Hugh A. Darke, came to his death through the negligence of the defendants; we do find that Hugh A. Darke was ordered to be present at the machine on that night; that there was a lack of a proper code of signals and that there was negligence on the part of Thompson in not making a proper code of signals; that his widow be paid $1800 on a basis of $100 for each year.

The jury again retired to deliberate on a number of questions previously given by His Lordship with the statement that they could go outside such to arrive at a verdict.

When the verdict was returned, His Lordship sent the jury back with the order that they must confine themselves to the questions.

When the jury returned again, their verdict was the same as in the first case.

Mr. G. H. Watson, K.C., gave notice that he would apply for permission to reopen the argument for the defendants on the grounds that the case should not have gone to the jury.

The jury empanneled in the case of Mrs. Hugh Darke, vs. the Canadian General Electric Company, being tried at the high court assizes, retired at eleven o'clock this morning at the conclusion of the action, and after being out but a short interval were recalled by the judge to further present to them some features of the case upon which they must base their opinion.

His Lordship remarked that they must take into consideration that it was the duty of the company to provide reasonably safe appliances, competent foremen and a system that has a reasonable regard for the safety of its employes. It was for the jury to decide whether the company had been guilty of negligence of any of the above precautions and if so they must specify in which they were negligent. The jury were also to decide whether the company had been guilty of negligence of any of the above precautions and if so they must specify in which they were negligent. The jury were also to decide if there was anything to justify Darke in stepping in upon the belt. The jury again retired with a model of the machine by which Darke came to his death.

While the first jury were in consultation, the jury for the succeeding action that of Grace Hillier, suing the Canadian Chicle Company for damages, was picked and sworn.

Messrs. Bennet and Goodwill were the solicitors for the plaintiff and O'Connell and Gordon for the Canadian Chicle Company. J. W. Bennet explained to the jurors the circumstances of the case, and the grounds upon which the claims were based. Grace Hillier, a girl under the age of eighteen was employed to feed a machine at the Chicle Company plant, and last June, lost a finger and suffered an injury to her right hand while engaged at her work. The chief ground of the claim as presented to the jury and emphasized by Mr. Bennet was the fact that the girl had been given gloves to use in the operation that were too long in the fingers and consequently had caused her hand to be drawn between the rollers of the machine.

PLAINTIFF'S EVIDENCE

Grace Hillier, the plaintiff herself was first called and stated that she was sixteen at the time of the accident. She said that she was employed in the factory to pack the gum and label the boxes. Mr. Frank O'Connor had employed her.

Mr Harvard had asked her to work on the machine where she had met with the accident. She had only worked on the machine once before and that time at Mr. O'Connor's order.

The plaintiff described the machine and the process by which it worked. There were two reversible steel rollers, operated by electric power, and the rollers were raised or lowered by means of the foot, to bring the gum to the desired thickness. When the gum came out of the boilers to be put through the machine it was hot and required the use of special gloves. She explained how she was guiding the gum through the rollers when her hand was injured. She spent five weeks in the hospital, the wound being attended by Dr. McPherson, the expenses being $29.50. At present she could only operate the thumb and first finger so that power is lost in three fingers.

Mr. Frank O'Connor employed her by phone and told her to come to the factory and he would instruct her as to her duties.

The case adjourned at one o'clock

BLIND CAPTAIN WELL KNOWN HERE

Captain Conger Visited Local Regiment for Inspections

Capt. W. S. Conger of the Winnipeg militia, who has been stricken with blindness will have the sympathy of the offices of the local militia, to whom he was well known, he having been a visitor to this city in connection with regimental inspections. Capt. Conger was also for some years paymaster of the third and fourth districts, which included Peterboro.

His case is a remarkable one, he having awakened on Monday morning last to find that his eye sight had gone.

Hopes are held out for the recovering of his sight and Peterboro friends will be pleased to hear of his complete recovery.

COL. HUGHES IS IN WINNIPEG

Minister of Militia Dealing With Barracks Matters

Winnipeg, Nov. 1 — Hon. Sam. Hughes arrived here this afternoon and was met by Col. Steele, D.O.C. It is expected that while here, the Minister of Militia will have a talk with Hon. Robert Rogers regarding the future site of Fort Osborne barracks, it being expected that an agreement can be reached whereby the present site will be surrendered to the Provincial Government for a new legislative building.

EAST VICTORIA TORIES IN SESSION

Select Dr. R. M. Mason to be Standard-bearer

Lindsay, Ont., Nov. 1.—At the East Victoria Conservative convention held at Fenelon Falls this afternoon, Dr. R. M. Mason was re-elected by acclomation to be the Conservative standard-bearer for Provincial House honors. The gentlemen nominated were: John Carew, G. A. Gordon and I. E. Weldon, of Lindsay; Jos. T. Beatty, Omemee; A. Bottum, Bobcaygeon; J. C. Lowery, Highland Grove. The former officers of the association were re-elected. The Conservatives are strong in East Victoria, and it is very doubtful if Dr. Mason will be opposed. At the elections three years ago Mr. Lockhart Gordon, of Toronto, was the defeated candidate.

"FRUIT-A-TIVES" WILL ALWAYS CURE THIS TROUBLE

McMILLAN'S CORNER, Ont.

"Your remedy Fruit-a-tives is a perfect panacea for Rheumatism. For years, I suffered distressing pains from Sciatic Rheumatism, being laid up several times a year, and not being able to work at anything. I went to different doctors who told me there was no use doing anything; it would pass away.

Fortunately, about two years ago, I got "Fruit-a-tives" and they cured me.

Since then, I take them occasionally and keep free of pain. I am satisfied that "Fruit-a-tives" cured me of Rheumatism and they will cure anyone who takes them". JOHN B. McDONALD.

Rheumatism, Sciatica and Lumbago are caused by Uric Acid—a poisonous substance formed as a result of acid indigestion and impurities in the blood.

"Fruit-a-tives", or intensified fruit juices, is the greatest blood purifying medicine in the world.

"Fruit-a-tives" keeps the whole system free of uric acid and will always cure Rheumatism in every form.

50c. a box, 6 for $2.50, or trial size, 25c. At all dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

MIXED MAIRRIAGE CASE IN COURT

Swiss Case Comes Under Notice of Government

Berne, Switzerland, October 25 — A case of mixed marriage—a Protestant and a Roman Catholic Swiss—which has just been before the Law Courts, has finally been brought before the Swiss Parliament, the extraordinary autumn session of which has now closed.

The case occurred in Canton Basel, where there is a small but active minority of Roman Catholics. A Roman Catholic Abbe, while performing the ceremony in the case of this marriage took upon himself to make from the pulpit some remarks exceedingly derogatory to those holding the Protestant faith.

These remarks were hotly resented by the bridegroom, a Protestant, as well as by his family and friends. He summoned the Abbe before the local court, which condemned the priest to pay a fine of 50 francs. Then the Abbe appealed to the High Court, which on technical grounds quashed the judgment of the court on first instance.

The case has greatly agitated opinion in Switzerland, especially in the German-speaking Cantons; and in Parliament the Schaffhausen deputy brought forward a motion calling upon the Government to take measures to maintain peace between the different religious sects.

This motion was passed, and during the discussion on its, the Roman Catholic deputies showed how strongly they disapproved of the action of the Abbe in Canton Basel, and were plainly doing their utmost to avoid any remarks which could offend Protestant susceptibilities. Federal Councillor Hoffmann speaking for the Government said that he did not propose to introduce any special pulpit law such as exists in the German penal code, but rather to frame measures applying to all religious sects alike, and tending to ensure respect for all religious confessions.

Of late religious animosities have become far less fierce in Switzerland Forty years ago such an incident as the one just described, would have been something like putting a match to a powder magazine.

Y.W.C.A. SCENE OF GAY GATHERING

Hallowe'en Program Was Enjoyed by Large Attendance

The masquerade party and Hallowe'en frolic in the Y.W.C.A. rooms last evening was attended with unqualified success and the attendance was fully the equal of other years. The interior of the building was thrown open to all young ladies, who were expected to come attired in masquerade costume. As a result, some queer and weird, and also many beautiful characters were represented.

The house was attractively adorned with Jack-o-lanterns, pumpkins, candles, Chinese lanterns, etc., and presented a very inviting appearance The lights burned dimly to heighten the effect.

Promenades were indulged in, for which suitable music was supplied on the piano. Games in which all could participate were played in the gymnasium, and in fact the evening was a delightful success all the way through.

AN OLD ORANGEMAN

Mr. Wm. Bartley Had Welcome Holiday Visitors

Among the visitors to the city on Thanksgiving Day were Mr. and Mrs. William Bartley, of Purple Hill, who were guests of their son, W. G. Bartley, 135 Rubidge street. Mr. Bartley is now in his eighty-second year while Mrs. Bartley is seventy-nine. They are both hale and hearty. Mr. Bartley has lived under four crowns three kings and one queen, and has been an active member of the Orange order for fifty-eight years, having served as recording secretary for thirty-five successive years, and since that time has been an honorary chaplain.

He is still in connection with the L.O.L. No. 399, Cartwright. He was born in the county of Fermanagh, Ireland, Oct 1st, 1830.

THE HOME OF THE CAVAN BLAZERS

Cavanville Historic Structure Makes Way for New Dwelling

Mr Herb. McCannon, the local builder has among his contracts one at Cavanville which is nothing less than the remodeling of the original home of the famous "Cavan Blazers"

The old building is being turned into an up-to-date dwelling The nails used when the place was erected, were "home made."

Intending Passengers for the Old Country, to spend Christmas at home, should book their passages quickly, as many of the Christmas sailings are already filled up, especially in the third class. Berths reserved all lines. See W. McIlroy, Agent C.P.R., 343 George St. 3d

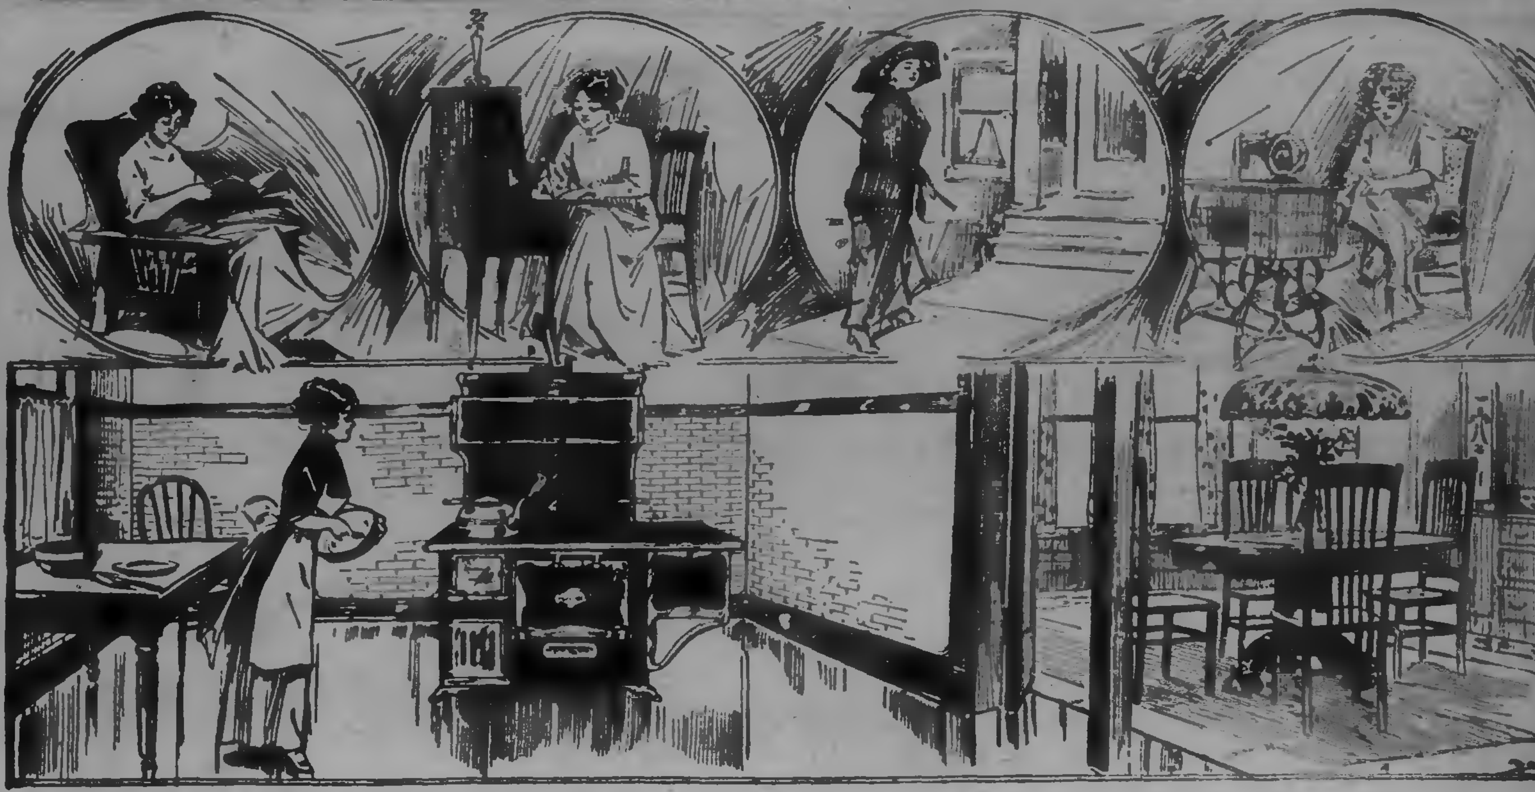
Annual 5th November Concert in Forester's Hall, Simcoe St. Monday evening, Nov. 6th. Choice programme and addresses Admission 25 cents.

Ald. Chas. Hartman will contest the Brantford Mayoralty on a Hydro-Electric platform.



You Read a Little, Write a Little, Visit and Sew, but You get 1000 Meals a Year.

A little journey to the home of the average woman shows clearly that the most important part of her daily routine is the "bread-and-meat" problem in the kitchen.

Three meals a day—more than a thousand times a year—the housewife plans and prepares the family diet. Success depends largely on health, health depends on food and its cooking, and the success of that cooking is assured by the use of a Gurney-Oxford range.

This range is built with all that highest skill and best materials can put into it—all the *lasting* qualities—all the points that tend toward comfort and convenience of operation.

It is built on honor by a firm of sixty years' standing, whose splendid reputation depends on a continuation of the integrity and square dealing that has made it famous.

In short, the housewife, to whose care is intrusted the imperative "three-times-a-day" demand for meals, will find every possible aid to perfect results conveniently obtained in Gurney-Oxford Stoves and Ranges.

The Oxford Economizer is a big factor in the working out of the fuel and time-saving principle. This Economizer is a small lever used *only* on Gurney-Oxford stoves. A turn of the Economizer and your fire is held at even temperature for hours without attention and with 20% saving in coal. It will bake though the pipe be cool.

The divided flue-strip gives an *honest* oven-baking that never disappoints, because the heat waves travel *equally all over it.* Ask the dealer to demonstrate the principle by which this oven-arrangement is assurance of baking success.

Ask to see, also, the clever working of the Reversible Grate. It can be cleaned with a half-turn to the right, and there is no trouble with clinkers, owing to the force of the strong interlocking teeth. The Gurney-Oxford special soft-coal grate is equally good for bituminous coal.

Come and let us demonstrate these splendid features

LOCAL OPTION

Working for Repeal in East Peterborough Districts

It is reported that anti-local optionists in East Peterborough districts are at work in an endeavor to secure a repeal of the present local option by-law.

It is said that the attempt will be made in Lakefield and Warsaw, and information at hand is to the effect that a petition is being circulated in Warsaw asking for the return of the license system.

Local optionists do not get a chance to call for a vote until next January of 1913. It is understood that another endeavor will be made to have the measure brought before the people.

MR. PECK'S COMMITTEES

Committees for Wards 2, 3 and 4, are requested to attend Committee Rooms, George St., this evening, Thursday 2nd, to complete organization. Usual Rally will be held on Saturday evening 4th, at Committee Rooms, George St. 1d

RUSSIAN SPEAKER FOR MURRAY ST.

Rev. John Kolesnikoff Will be Here Tuesday Night

One of the most gifted and successful of the workers of the Baptist denomination among the non English speaking peoples is the Rev. John Kolesnikoff, a Russian, of Toronto He has a story to tell which will be most interesting to all who know anything of that race and its sorrows.

The Ladies Mission Circle, of Murray street church, announce that Mr. Kolesnikoff will be the speaker at the annual thank offering service of their society next Tuesday evening. The public will be welcomed. There is to be no charge for admittance.

WHO'S COMING AND GOING

Mrs. (Judge) Roger of Cobourg is visiting in the city.

Miss Pearl Ruth, of Toronto Conservatory of Music, spent the holidays with her parents, 772 Water street.

Mrs. A. F. Lane, 422 Rubidge street, will receive to-morrow (Friday), Nov. 3rd, and afterwards on the first Friday of the month as heretofore.

Miss Frances Henry and Miss Jennie Lundy were the guests of Miss Greta Bailey, Bethel, over the holiday.

Mr James Pickald, of Galt, who was the guest of his daughter, Mrs. Geo. Southwell, for Thanksgiving Day, returned home yesterday.

Mr. and Mrs. G. A. Macdonald and Master Howard, Homewood Avenue, have returned after spending Thanksgiving with Mr. Macdonald's parents in Woodstock.

PASSED AWAY AT BEST'S STATION

Mr. Joseph Peacock of Best's station passed away this morning at the age of 65 years.

The funeral will be held to Little Lake cemetery, Saturday, leaving Best's station at eleven o'clock.

WILL DOUBLE THE CAPACITY

The First Mortgage Bonds of the Canadian Locomotive Company, which are now being offered in Canada, are meeting with a favorable reception Undoubtedly, from the standpoint of security, earnings and income return the bonds are attractive. The proceeds of the present bond issues will be used to double the present capacity of the plant to keep pace with the ever increasing demand for locomotives. Orders now on the books of the Canadian Locomotive Company ensure a plethora of work for some time to come. There is every reason to believe that, under new conditions, the present rate of earnings will be increased considerably.

A warrant is out for Randolph Sparks of Port Colborne who, it is alleged, tried to cut his wife's throat.

East Kent Conservatives re-nominated Phil H. Bowyer, M.P.P.

CHRISTMAS SAILINGS

Mr W McIlroy, local C.P.R. ticket agent, has been advised that the booking list for third class passengers on the Empress of Ireland, which sails on December 15, on her Christmas trip, has been closed, all accommodation having been taken up.

Peterborough will send a large contingent across the ocean for Christmas, and prospective passengers would do well to secure their tickets at the earliest possible date.

Fire did $125,000 damage to the White Pine Lumber Company plant at Blind River, Ont.

Gym games, includ basketball were also played. The S. hope to have their gym in foll ng in a short time.

Exit Buffalo Bill.

Richmond, Va., Nov. 2.—Col. William F. Cody, "Buffalo Bill" to the world, retired from public life last night. His show was packed off to winter quarters and his Indians will return to their tepees in what is left of the Redman's land, while "Buffalo Bill" intends to spend his remaining years in the Wyoming Big Horn, where he helped to make American history. So far as public exhibitions are concerned, he has shot the ashes from the last cigar and chased the last Indian.

During a career which began as a pony express rider, led him through more Indian battles than any other living white man and included twenty-eight years as a showman, Col. Cody became known as one of the most picturesque figures of American frontier life.

London Lines Merge.

London, Nov. 2.—The Amalgamation of London electric tubes and the London General Omnibus Co., has been practically agreed upon according to The Evening Standard. The omnibus company practically has a monopoly of the London street traffic. The combined capital of the undertakings is roughly estimated at $165,000,000. A new company, the newspaper says, will be formed to carry out the fusion.

Pope For America?

Rome, Nov. 2.—It is stated that the Pope intends to create Archbishop De Almaraz of Seville, a cardinal. Thus the foreign and Italian cardinals will be almost equal in number. The probability of the election of a foreign Pope is increasing, and the chances are said to favor America.

THIRTY TWO APPEALS IN

Court of Revision Hears List of Complaints

Over-Assessment is the Ground for Many Appeals

The Peterborough Court of Revision held a meeting last evening, Messrs. W. Langford, W. F. Johnston and B Morrow being in attendance.

The sitting was held in accordance with the advertisement published and notices given to hear appeals respecting the assessment of the city made in 1911 for 1912.

The clerk reported that the following appeals had been received within the time provided by law. The appeals are as follows, the person or company for whom the appeal is entered being named after the appellent.

W. H. G. Armstrong, self—Wrongly assessed for school taxes.

Auburn Woollen Mills, selves—Overassessed.

James Armstrong, self—Overassessed.

Emma J. Baillie, self—Overassessed.

Harry A. Blade, self—Overassessed.

S. D. Carver, self—Overassessed.

W. H. Collier, self—Wrongly assessed for income.

P. Conroy, self and J. McCauley—Changed hands.

Mrs. Ellen Crowley, self and Miss E. Crowley—Change asked.

R. F. Downey, self—Wrongly assessed.

Mrs. R. Drake, self—Overassessed.

N. S. Dunlop, behalf C.P. Railway—Wrongly assessed.

V. Eastwood, self—Overassessed.

Jas. Fairley, self—Overassessed.

G. W. Hatton, behalf Can. Cordage Co.—Overassessed.

R. R. Hall, self—Wrongly assessed.

Mary F. Kelly, self—Overassessed.

T. H. Kendry, self—Wrongly assessed for business.

O. de LaPlante, self—Wrongly omitted.

R. N. Merrett, self—Wrongly assessed.

Thomas J. Moore, self—Wrongly assessed for school taxes.

Thomas J. Moore, self—Overassessed.

S. H. Mitchell, self—Inequitable.

A. A. McIntyre, self—Overassessed.

J. B. McWilliams, self—Wrongly omitted.

O'Connell & Gordon, behalf St. Alphonsus Lyceum—Wrongly assessed and overcharged.

Martha Reid, self—Overcharged and wrongly assessed for school taxes.

S. Stinson, self—Overcharged.

Thirty-two of the appeals were taken up altogether.

Kyrle Bellew Ill.

Salt Lake City, Nov. 2.—Kyrle Bellow, for many years a leading actor of romantic roles, is critically ill here with pneumonia. He became rapidly worse yesterday and the physicians fear he will not recover.

The remainder of Mr. Bellew's tour through western and Pacific coast cities has been cancelled and his company will return to New York.

A Judgment of Solomon

An English Judge has set up a new legal precedent, and one which the peaceful, law-abiding public is not likely to desire to see generally acted upon. A man was brought before his Worship charged with being on premises with felonious intent. The circumstances were that a young lady, on retiring for the night to her bedroom, happened in a quite accidental manner to discover that there was a man lying concealed under her bed. She rushed out for help, and the man was arrested and brought before the judge. It was alleged that he had got into the house through a window, and had found his way upstairs unobserved. His excuse was that, under the influence of drink, he had mistaken the house. To most minds the excuse would appear to be a particularly thin one, but the court so far accepted it as to dismiss the case, holding that there was no evidence of felonious intent. People do not enter their own houses through the window and conceal themselves under beds as a rule, but one has heard of it being done before for unlawful purposes. In future Bill Sikes will have a legal precedent to quote in his favour whenever he is found on other people's premises; and the decision is one which will doubtless be welcomed by the predatory fraternity.

THE HURT OF JEALOUSY

By Gwen Adair

Copyright by Publishers' Press Ltd.

"You look tired, Bob. What happened at the bank today?"

"A rush day. Everybody coming to cut coupons and take out jewels before going to Europe."

"Nothing more interesting than that?"

Robert Hayward, superintendent of the deposit vaults of the Second National, did not seem to hear Mildred Lorne's question. He stared out of the window and seemed lost in reverie. This was most unusual, so unusual that, watching her distraught caller, Miss Lorne's fine face and clear-cut, strong features were bathed in a flood of indignant pink.

"You ask me to be nice to you. I try to be so, by talking of what will interest you, your work, and you don't even hear me."

"I beg your pardon, dear. I might suggest that there are other topics of greater interest to men after a hard business day."

"As for instance?"

Again the wandering glance. Again Mildred Lorne was conscious of a detachment of interest by this man, who had been her waiting slave for—how many years? She could not remember when it began, when it had not begun. Had she not heard him try to explain to a catechising mother why he had plucked a green apple from his yard while she looked over the fence of hers, an explanation that consisted chiefly of "No, she didn't ask me to pick it exactly, but she looked as though she wished I would" — and was interrupted by what Miss Lorne, listening in a fearsome silence, decided was unmistakably the swish of a whip. A fiend she had not suspected lived in her placid bosom awoke. The pink in her cheeks faded and crimson banners flung their signal instead.

"Robert Hayward, you are thinking—of a woman—and it isn't me."

Robert Hayward's gaze came back from the rose garden and fixed itself upon her. She had never noticed how cold those blue-gray eyes could be, nor how shrewd their glance. They looked at, through, beyond her, and beside this there was nothing. There was silence save for the strange beating of her heart. This sense of suffocation nearly overpowered her. She walked to the window. She tried to calm herself, but failed.

"Isn't it—true—Bob?"

"Yes, Mildred."

While Robert's eyes left her pleading ones and searched the room, each second's hesitation was a stab in her heart. She strangled a sob in her throat and whispered:

"Tell me about it, Bob dear. I am sure it was not your fault, but her's."

Beneath his fair mustache the young man's lip twitched. With an effort he controlled his emotion.

"I met her first eight years ago."

"Oh, Bob!" The words were like a moan.

"She came to the bank. She was a soft, gentle, unassuming little creature. I always thought of her as my little lady in gray."

Mildred's cheeks flushed, and her eyes burned. She had been described once or twice as militant.

"She engaged a lock box, paid for it and wrote her address, handing it to me with a shy little smile. Mildred, from that moment, I couldn't help it."

"Bob!" The commonplace monosyllable had become a cry of anguish.

"Do you want to hear any more, Mildred?"

"Go on," she chokingly answered.

"I did not see her again for a year. When she came she gave the number of her box in the soft small voice that I had remembered all these twelve months and handed me the key. I unlocked the outer box and handed her the inner one. She received it tenderly and carried it into one of the small waiting rooms. The gate clanged after her. She remained there with the box for a long time. Growing anxious about her, I passed and repassed the door. She sat there, the box in her lap, her lovely head bowed over it for an hour."

"Bob! I can't stand any more."

Hayward placed a pitying hand over hers.

"You had better hear to the end," he said. "It is better for us both. She drew her veil and went quietly out without a word. I did not see her again for a year. She asked for the box and went to the small waiting room, remaining as before for an hour. Every year she came on the same day. The last time I saw her she explained that she always called on that day because it was the anniversary of her wedding."

Mildred's pale lip curled. "A divorcee, I suppose."

"Wait, dear! Don't be too hard on her. Last Thursday was the date. She did not come. Yesterday a lawyer came, carrying the key to the lock box. He told me the little woman in gray was dead.

A long silence.

"We opened the lock box, and what do you think we found?"

"It contained a small but beautifully engraved silver urn. In it were the ashes of her husband."

Further silence, broken at last by the man.

"Can you forgive me for loving the dear old soul?"

"How old was she?"

"About seventy."

"Robert!"

"Yes, Mildred Lorne."

"I'm going to marry you soon, at once, but it is for only one reason. I still believe that the development of individuality is the first law of being."

"Yours and your husband's individuality, yes, love. But what is your motive for matrimony?"

"That it hurts so terribly to be jealous. And, Bob, stop mussing my hair on that side. Try the other."

"Yes, sweetheart."

And he did.

Playing Doctor.

Billy: "Gentleman, before we begin to operate, if you will hold the patient's hands and feet I'll get that four cents out of his right-hand pocket."

PILES CURED IN 6 TO 14 DAYS

ZAM-BUK
CURED US! WHY NOT YOU?

Injury to Foot Healed.

Mr. Reuben Atherton, of 367 Ferguson Ave., Hamilton, says:—While employed with the Otis Elevator Co. a heavy plank fell and severely crushed my big toe and right foot. The nail had to be removed from the toe when the doctor came to dress the injured members. The flesh was terribly bruised, turned very black, and the foot and leg became much swollen and painful. I was laid off work for some eight weeks. The doctor attended regularly at first, but the wounds did not heal. At last I heard of Zam-Buk and began using this ointment. It really seemed to act like magic, cleaning all unhealthy matter from the wounds, and drawing out all discoloration, inflammation and soreness. In two weeks the toe and foot were well again. Zam-Buk balm is certainly a wonderful healer, and I would not be without a box in the house.

Poisoned Sore Cured.

Mrs. D. S. Green, of Kingston, Ont., writes:—My daughter Hazel sustained a poisoned wound on her heel. She had chilblains and when the skin broke some poison got into the wound and made a terrible place. It was painful, much swollen, and made her almost unable to move about. For a long time she could not bear to put a shoe on. I tried several things, but there was no trace of improvement. At last a lady friend recommended Zam-Buk. I left off the ordinary salves and applied this herbal balm to her heel. In a few days Zam-Buk had cleansed and healed the sore so well that she was able to put on her shoe, and a few days later the wound was healed and Hazel was back at school. I shall always keep Zam-Buk handy in future.

Obstinate Skin Rash Ended.

Mrs. H. Burdett, of 198 Simcoe St. East, Hamilton, says:—"I was cured by Zam-Buk of an obstinate skin rash which had defied all previous remedies. This eruption broke out on my face in the form of red pimples and blotches. Various remedies one after another were tried, yet nothing permanently removed this eruption until I used Zam-Buk. After each application of this herbal ointment my skin became clearer, and in a week my face was as smooth and white as before the rash broke out, thanks to Zam-Buk. Since then our home is never without it.

For all skin injuries & diseases Zam-Buk is best. All druggists and stores 50c a box or post free for price from Zam-Buk Co., Toronto.

TEST IT FREE

Dun's Manager Dead.

Toronto, Nov. 2.—Wilbur C. Matthews, 8 Chestnut Park, general manager for the R. G. Dun Co. in Canada, died at the Toronto General Hospital last night. On Thursday last he was operated on for appendicitis, but pneumonia developed on Tuesday, and he never rallied from its effects.

Deceased, who was in the 66th year of his age, leaves a widow and three daughters.

Mr. Matthews was born at Maple, Ont., and had been 43 years with the firm. He first began work in Toronto and was afterwards manager at Memphis, Tenn. He was again transferred to Toronto, where he has lived for the past 37 years.

Charge False Pretence.

Chatham, Ont., Nov. 2.—A warrant has been issued for the arrest of E. F. Parker, weighmaster for the Michigan Sugar Co., who is charged by Isaac Coffel and John Thackeray, farmers, with securing quantities of beets by false pretences. It is claimed that in weighing the beets Parker cheated the complainants out of 900 pounds in one load and 895 pounds on another by underweighing them. The farmers claim they were not allowed to enter the weighing room but were told by Parker that according to custom they must remain on the wagons both before and after they had been unloaded.

Starts Campaign To-night.

Ottawa, Nov. 2.—Hon. W. T. White will make his debut as Minister tonight at Lansdowne, in Leeds County, where George Taylor has withdrawn in his favor. His speech is being looked forward to with considerable interest, not only as it is the first appearance of the new Minister, but because it is expected he may make some important announcements. Amongst other things it is understood he will advocate assistance of the provinces by the Dominion Government in opening up new and undeveloped countries, such as New Ontario, by grants for good roads, etc.

Vaniman's Venture.

Atlantic City, Nov. 2.—Test flights of the big airship Akron, which will attempt a journey across the Atlantic Ocean to Europe some time this month, will not be held until Friday or probably Saturday, according to Melvin Vaniman, the head of the venturesome expedition. If the wind is favorable a flight up and down the beach from the inlet to Longport, a distance of 10 miles, may be attempted Friday.

The start on the transatlantic trip is expected to be made about Nov. 15.

Local Option in Chatham.

Chatham, Nov. 2.—The petition for a plebiscite on local option which has just been presented to City Clerk W. G. Merritt for examination, contains 1,012 signatures out of 3,160 names on the voters' list for municipal elections. This is 45 per cent. of the total vote, and the temperance people claim to be greatly elated. In Dover Township, a like percentage has been secured, and, though it is not thought likely that local option will carry in Chatham, it is looked on as an assured thing in Dover.

Coal Results

¶ We sell the very best quality of hard coal, as good as we know how to buy.

¶ Are you getting results from the coal you are now using? Are you sure it is good? Are you burning it the right way?

¶ There is a deal of difference in how you handle the range or furnace. Our long experience tells us that fact, and we are ready to advise any in doubt as to the best way to make use of coal as fuel.

FIRST MORTGAGE FORTY-YEAR SINKING FUND GOLD BONDS

Dated July 1st, 1911 **Due July 1st, 1951**

Interest payable 1st January and July

Principal and Interest payable at the Bank of Montreal, Toronto, Montreal and London, England

Redeemable as a whole at 105 and accrued interest on or after July 1st, 1914, on prior notice, or annually for Sinking Fund drawings, beginning July 1st, 1916

Denominations: $100, $500 and $1,000
with Sterling equivalents

Bonds issued in coupon form with privilege of registration of principal and in fully registered form. Coupon and registered bonds are interchangeable.

TRUSTEE -
NATIONAL TRUST CO., LIMITED, TORONTO

The legal opinion of Messrs. Blake, Lash, Anglin and Cassels, Toronto will be furnished.

We emphasize the following salient points of this issue:

(1) Value of assets as of July 1st, 1911, $5,000,000—Consisting of Real Estate, Buildings, Plant and Goodwill, $3,837 911.94, and Net current quick assets in excess of current liabilities, $1,162,088.06.

Included in current assets is the sum of $734,909 invested in Municipal and other bonds.

(2) Average annual net earnings for past four years (1907-1910) $291,719 or practically 3¼ times the interest on the present bonds.

(3) An annual Sinking Fund beginning July 1st, 1916, sufficient to retire the present issue prior to maturity at a maximum price of 105 and accrued interest.

The Company has outstanding $1,500,000 7% Cumulative Preferred Stock and $2,000,000 Common Stock, both of which are listed upon the Toronto and Montreal exchanges.

The present capacity of the plant which may be said to comprise everything required for the building of the most modern and up-to-date locomotives, provides for a yearly output of seventy-five engines, but as each year many satisfactory orders have been declined owing to the inability of the Company to make the deliveries required, it has been decided to proceed immediately with such enlargement of the works as will increase their future output to at least double their present capacity. Therefore, it may safely be assumed that a corresponding increase in the earnings of the Company will be assured.

At the present time, the Company has a sufficient number of orders on its books to keep it fully employed for about a year, and if negotiations for additional contracts now pending are successful, the Company will have abundance of work until the early months of 1913.

The excellent management of the Company has been further strengthened by the acquisition of Mr. A. W. Wheatley as its General Manager. Mr. Wheatley is one of the foremost locomotive manufacturers in America, having, previous to joining this Company, been the General Manager of the American Locomotive Company's plant at Dunkirk, N.Y., the second largest locomotive works on this continent.

WHAT CANADIANS ARE DOING

HON. TREFFLE BERTHIAUME

To say that Hon. Berthiaume, proprietor of "La Presse", Montreal, is dissatisfied over the figuring-up of the recent election results is to put the situation somewhat mildly. There is no getting away from the fact that Mr. Berthiaume was in the front rank of those public men, to whom the defeat of the Laurier Government came with appalling surprise — even alarm. La Presse, it is admitted, was in real earnest in their expectations that all was still well with Laurier, and that the reciprocity scheme was assured of a safe passage through the polling booths of Canada, and the change in governmental steersmanship is a serious proposition to the man at its head. During many years, that newspaper has claimed, and recognisedly occupied, a strong influence in the world of politics as viewed through French Canadian spectacles. La Presse argued itself into the firm conviction that it was the whole outfit in the Dominion's political world. Editorially, and otherwise, the Honorable Berthiaume, was selfassured that he and his staff of Editorial, writers kept on holding the French speaking electors in the groove that was bound to lead to the marking of a cross for Laurier in the privacy of the polling booth. But the privacy of the polling booth had a quite different tale and today the chief of the La Presse has to recognise that the influence that counts with the big share of his compatriots is coming from La Patrie. It has proved a very severe wrench to the leading Liberal French organ. The management are practising new music — on a minor key.

HON. TREFFLE BERTHIAUME
Prominent Canadian Newspaperman

Mr. Berthiaume was born at St. Hughes, Que., on August 4 1848 and gleaned his early education at St. Hyacinthe College, and after some years experience in the ranks of the printer, became partner in the "Gebhardt-Berthiaume Lithographing and Printing Co. in 1884. But this was not sufficiently exciting and influential to hold Mr. Berthiaume, and five years later he was found in closer proximity to the front rank in politics as proprietor of La Presse. This not unnaturally led to honors and in 1896 the paper was represented on the Legislative Council of Quebec province. Mr. Berthiaume is claimed as a member by all the French clubs of Montreal.

Mr. J. TRAVERS LEWIS
Ottawa Political Campaigner

During the past political campaign the headquarters of the Conservative party in Ottawa were in charge of Messrs. J. Travers Lewis and J. F. Smellie.

John Travers Lewis, M.A., K.C., D.C.L., the senior member of the firm, was born in Brockville, Ont., on October 2th, 1857, the eldest son of His Grace the late archbishop of Ontario. He was educated at Bishops College School, Lennoxville, Que., Trinity College School, Port Hope, Ont., and Trinity University, Toronto. A brilliant student, he captured the Dickson scholarship in 1876 and the Brunside Scholarship in 1877.

Leaving college, he studied law, and was admitted to practice in 1882, when he came to Ottawa. He has resided there ever since. His first partnership was with Hon. James Cockburn, Q.C., and later he was with Mr. F. H. Cryeler until 1896. For the last thirteen years he has been senior partner in the firm of Lewis and Smellie.

In social life Mr. Lewis has been and still is, a prominent figure. To a scholarly training and a peculiar fitness for business he joins the true instincts of the gentleman. He is, above everything else, a man of courtesy, of sympathy, to whom injustice or suffering wherever he meets it makes a peculiar appeal.

He is one of the elected governors of St. Luke's Hospital, and is also a member of the Executive Council of the Victorian Order of Nurses. He is solicitor for both these organizations.

He has the unique honor of having been for the past two years president an active member of the Ottawa Golf of the Rideau Club, and he is also and Country Clubs.

He; "I am marrying her for her money."

She: "But money does not always lead to happiness."

"No, but Ithought it might facilitate the search."

Hamilton Hospital governors will in-

ONLY A VAGABOND
By Jean Sigaud
Copyright by Publishers' Press Ltd.

The court-crier rose, with seeming regret in his demeanour, and called in a mild tone of voice — "Antoine Jean, come forward!"

At that name a big fellow, wrapped from head to feet — in spite of the hot weather — in a trailing cloak of indefinable colour, a garment which must have been worn for many a year, pulled himself together and quietly obeyed.

"Your name?" said the presiding judge, in a weary voice.

"Antoine Jean."

"Your profession?"

"Independent gentleman."

Well now, Antoine Jean, have you anything to say in your own behalf?"

"Nothing whatever to you, as a judge, but to thee, my old chum, Boucahrd, I'll tell everything."

Those few words uttered by the vagabond suddenly brought back a new life to the whole court-room. The two associate judges sat bolt upright with indignant flashes in their eyes yet heavy from sleep.

"Bouchard, Bouchard, don't you remember my nickname, Rabelais?"

"Two months' imprisonment."

The jailor was smoking his pipe, as he enjoyed the fresh air in front of the prison door.

"Perrin," said M. Bouchard, "I wish to examine this man at my own house. Please bring him yourself at five o'clock."

Perrin bowed, somewhat surprised at this complete derogation from all the ordinary usages of the prison.

At five o'clock the jailor brought the prisoner as desired.

"So you recognised me at last!" said the prisoner in his gentle voice, and without lowering his eyes before the sorrowful gaze of the judge, who brought a chair and made the vagabond sit close beside him, while he tried to read in that mysterious face the secret of so complete a downfall, and tried to find underneath that wretched mask the features of his old friend. "Yes; it's I myself, sure enough!" the vagabond answered.

"And to think," exclaimed M. Bouchard, "that I was obliged to sentence you — you, my poor Chabert, whom I always knew as such a good fellow, so gentle, so sensitive — ah, too much so, no doubt," the Judge added, with a penetrating look. "What a continual, cruel irony is life! Bouchard judging Chabert! Rabelais! Ah, my poor fellow."

The magistrate, looking searchingly into Chabert's eyes, asked him sadly, and in a very low tone:—"Was it a woman?"

"To be sure!" exclaimed the vagabond. "When a man falls as I have done, it is because he has leaned upon a woman's arm, and that arm has been suddenly withdrawn from him. A love-match," he continued, "without money is bound to come to grief. I adored my wife, but I could not support her decently, and she was unfaithful to me. When this happens, some men kill themselves. Others take to drink. Still other bury themselves in some kind of work. As for me, I suffered far less than these, for I became insane. Taking nothing with me, and without looking back, I trampe dover the highways and over the footpaths in rain and sunshine thinking of nothing, seeing nothing, and only stopping at night when my swollen and bleeding feet would carry me no further. How far I tramped over those highways! My hat was full of holes, and my clothes could not have been at all creditable to me, for two policemen who saw me sitting on the opposite side of a ditch motioned me to come to them. The next morning Antoine Jean — for a remnant of sanity had made me conceal my true name — was committed for two months.

"What shall I say? Those two months must have been the beginning of a complete change in my whole physical and moral being. In the solitude of the prison my reason came back to me, and I meditated. And about what, do you suppose? About my fife's unfaithfulness and crime? No, about the happiness which she had brought me, my three years of earthly paradise while I lived with her! Her perfidy and my despair had disappeared; my thought did not rest upon them for a moment. That is the happiness which I owe to my prison, life. When my two months were over, I took my staff and wallet like any self-respecting tramp — and I continued my tour of France. It has taken me ten years to find you. After two months I shall continue my journey."

The judge, looking him full in the face and grasping both hands, exclaimed passionately — "My dear Chabert, I want to save you!"

"To save me? From what?"

"From yourself, and in spite of yourself, I fit must be so," said the judge, firmly. "As to the imprisonment for two months, I shall not permit you to endure it. I can arrange the matter. And, little by little, I want to see Jean Antoine disappear, and Chabert come to the front."

"Begin my life over again! Oh, no!" exclaimed the vagabond, as he rose from his seat. Then, taking the judge's hands in his own, he said—"My poor Bouchard, you are kind and good, and you love me; yet my cruelest enemy could not propose anything worse than you have done. I am speaking to you now with all my former cold sense, and I tell you that no place but the prison is gentle and pitiful to me. There only I can really live again, without thought of the present, without care for the future. And you would snatch this dream from me, and would kill me forever! Why, can't you see that my body is a mere rag, a thing which does not count at all, and which I no longer regard? What does it matter that this worn-out body should appear before sentenced, despised, branded! My dear old friend, call in the jailor who brought me here and let me go!"

"So be it!" said M. Bouchard in a sad tone. And the judge and the vagabond embraced each other fraternally. Then Chabert said, freeing himself and turning away—"Now, judge, do your duty."

JULIUS McVICKER WINS BRIDE WORTH FIFTEEN MILLIONS

Groom is Well Known Locally, Having Been Frequent Visitor Here.

Peterborough friends will be interested in the following despatch from New York, which refers to the wedding of Julius McVicker, who a number of years ago was a frequent visi-

cessed as an entertainer, He was a guest on many occasions of Mr. A. P. Poussette.

New York, Oct. 31.—Julius McVicker, son of a newspaper editor of Carnia, Ont., was married to-day at the Little Church Around the Corner, to Mrs. Alanson Sumner, widow of the late Standard Oil magnate, who died a little over a year ago leaving her

McVicker is an actor and singer of romantic parts in light comedy and musical shows. He is handsome, splendidly built, and has a voice calculated to inspire romance among the members of the fair sex. When he and the fifteen-million-dollar widow met it was a case of love at first sight, and the courtship has not been a long one.

Dr. de Van's Female Pills
A reliable French regulator; never fails. These pills are exceedingly powerful in regulating the generative portion of the female system. Refuse all cheap imitations. Dr. de Van's are sold at $5 a box, or three for $10. Mailed to any address.

DELAYED SHIPMENTS ARRIVING

After long delay, caused by the dock strikes in Liverpool, England, a large part of the balance of our big Fall order of the newest seasonable goods has just arrived. Everything has at once been put into stock and marked down to Retiring Sale Price for immediate disposal. This adds very decidedly to the advantageous opportunity offered to Peterborough and community by the

GREAT RETIRING SALE

SOME OF THE NEW ARRIVALS

The first to inspect these latest goods will be almost certain to purchase. They were bought to bring the Robert Fair & Co., Limited, Fall and Winter stock up-to-date, and their value is abundantly evident.

EVENING WEAR MATERIALS FROM PARIS AND LONDON, TWEED SUITINGS, BLACK AND NAVY BROADCLOTHS AND SERGES, FANCY DRESS SILKS, ALL-OVER LACES, PLAUEN LACES, FLOUNCING EMBROIDERIES, BOYS' RIBBED STOCKINGS, LADIES' AND CHILDREN'S PLAIN AND RIBBED STOCKINGS. Keep in mind and make fullest use of the making up departments for Dressmaking and Millinery.

SOME, AS YET, LITTLE TOUCHED LINES

The rush has been greater in some sections than others, but a suggestion of lines that will appeal strongly when brought to mind might be timely. Don't overlook these—

LADIES' SUITS TO SELL AS LOW AS $7.00, LADIES' SHIRT WAISTS, LADIES' SILK AND NET DRESS WAISTS, LADIES' WHITEWEAR, HOUSE-FURNISHINGS, WILTON RUGS, AXMINSTER RUGS, BRUSSELS RUGS, TAPESTRY SQUARES, INGRAIN CARPETS, NEW PURE WOOL, WHITE BLANKETS, DOWN COMFORTERS, &c.

MILLINERY Extra Special } *Velour and Beaver Shapes, the very newest designs. Also splendid values in Ostrich Feathers and Willows.*

This mammoth Sale means many hundreds of dollars left in the pockets of the prudent buyers who grasp the opportunity, and that much less for the store, but the big **$65,000** Stock must be hustled off our shelves as quickly as possible, so there is no hesitation when the knife is applied to the old prices. Hundreds have profited largely. Many more may do so if they wish to avail themselves of the chance while it lasts.

No Goods Exchanged or on Approval. | Same courtesy as before to Open Account Patrons.

Mr. Norman and Miss Hazel Moncrieff visited Miss E. Preston on Sunday.

Mrs. G. H. Gibson and children are visiting friends at New Park, Ontario.

Miss Maxwell and Miss Wilson spent the holiday with friends here.

Messrs. Ernie and Arthur Scott, Bridgenorth, spent Sunday with Mr. W. Bennett.

Mrs. Fee, of Peterborough, late of China, addressed the congregation here on Sunday morning. Her address was much enjoyed by everyone.

LORENZ NEWS

Special Correspondence.

Lorenz, Nov. 1.—Bensfort in last week's issue said that Lorenz had been an advocate of sulky plows for ladies. This is not a fact as I merely said a lady had been plowing in our vicinity. Bensfort is a little jealous in not having a lady in her community skilful enough to drive three horses on a plow. We feel justly proud in having a lady plower and if Tannerville and Bensfort ladies would indulge in the same vocation they would find it more healthful than doing much of the frivolous work which ladies indulge in quite often.

Miss Pearl Nurse was the guest of Miss Clara Thompson during the past week.

Miss Iva Dawson is home for Thanksgiving.

Mr. Chas. Wicks has disposed of his string band, as since the closing of the cheese factory their music became monotonous.

Miss Mabel Whitfield, our village teacher, is spending thanksgiving at her home in Cavanville.

Mr. William Turnbull purposes going to the lumber shanties for the winter months.

Miss Lily Talor was the guest of Mrs H Perrin on Sunday last.

Some of our farmers have been busy drawing out barley since it has reached such a high price. This tells us that reciprocity must have been carried.

It might be said that a lady in this vicinity has been helping to pick turnips. Bensfort may take exception to this statement also but I feel that it does not call for any comment on their part.

SELWYN LADIES DOING GOOD WORK

Bazaar and Social Proceeds for Church Improvements

Special Correspondence.

Selwyn, Nov. 1.—The ladies of the Methodist church, Selwyn, held a bazaar and social in the hall on Wednesday, Oct. 25th, which was a financial success. The proceeds will be used to wipe off the debt on the sheds erected this summer and for repairing the church in general.

The ladies wish to return thanks to all who so liberally assisted in the autograph quilt which was sold at auction by Mr. J. C. McConkey, the lucky possessor being Mr Fred McKee. The price paid was $7.50. Over $154 was subscribed on the quilt.

INDIAN RIVER

Indian River, Nov. 2.—It is something new in this district to see the farmers buying potatoes by the waggon load, but that is what they are doing; Mr. J. G Hall having brought in a carload. The potatoes are practically a failure here, one man is reported to have put the result of three hours' digging into one pail. It is hardly necessary to add that the remainder of the patch was not examined.

Hallowe'en passed off quietly. The depredations practiced in former times are gradually dying out, which proves that civilization is gaining headway, soon many of those things which used to make our blood tingle, our pulses beat, which took us away from the daily sameness of life, will have passed and everything will be utilitarian.

J. E. Devlin shipped hogs yesterday paying $6 cwt.

Mr. J. T. Hall shipped a car of cats last week.

A number from here attended the funeral of the late Sylvester Fife, Tuesday last.

Don't forget the social at the Baptist church on the 14th inst.

The following spent Thanksgiving Day at their respective homes here: Wm Walker, Toronto; Harry Clancy, Peterborough; Miss Mae Whibbs, Mr. Geo Whibbs and Mr. Jos. Whibbs, of Peterborough, Earle Kidd, Mr. and Mrs F. A. Kidd, Peterborough.

Mr. Gordon Earle and Miss Palmer, of Toronto, spent the holiday at the home of Mrs. F. A. Kidd here.

Mr. Jos. Collins was also home for the holidays.

Mr. W. O'Leary left for Muskoka on his annual deer hunt.

OSKIGMONG

Special Correspondence.

Oshkigmong, Nov. 1.—A grand reception was given in honor of A. Smoke, who won the Peterborough Examiner road race on Monday. A splendid repast was provided for him and his manager by the ladies, in which all the members of the C.A.C. and others participated. After supper there were games of such sorts for young and old to indulge in.

Quite a number of our people attended the funeral of the late R. Franklin, of Alderville, last week.

Mr. L. D. Taylor is in Scugog visiting his father-in-law.

Mrs John Muskrat, of Hiawatha, is visiting her daughter.

Miss Daisy Whetung is in Alderville visiting friends.

Mrs. P. McCue is in Alderville visiting her mother.

Mr. Hanlan Howard, of Hiawatha, attended the funeral of his little niece, the daughter of Mr. Arthur and Isabella Whetung, last week.

Albert Singelais was shot in the head in mistake for a partridge in the woods of Montmorency County, Quebec.

WARSAW NEWS

Special Correspondence.

Warsaw, Nov. 1.—Miss Coleman, sister of Mrs. David Miller, gave a lecture in the Presbyterian church Sunday evening on the missionary work in Turkey and the customs and manners of Turks.

Most of the hunters have left for the back country in search of game.

Partridge seems to be very plentiful here this fall. One man shot seven yesterday.

Mr. and Mrs. James Higgins were the guests of Mr. and Mrs. Geo. Clements on Sunday and Monday.

Mr. Edgar Carver gave a concert on Wednesday night in the town hall, but not in aid of the church as some people supposed.

Most of the farmers are done plowing in this part of the country.

The Junior Y.M.C.A. organized on Monday evening. Pres., William Wilkins; Vice Pres., Clayton Selkirk; Sec., Maxwell Clements; Treas., Cecil Watson.

ZION NEWS

Special Correspondence.

Zion, Nov. 1.—Messrs. Bert and Tom Cockbill and Mr. Frank Tovey sail on Wednesday for England.

Miss Myrtle White is visiting in Peterborough.

Mrs. W. W. Dickson and Miss Mary Dickson have returned from a few days' visit in Fenelon.

KEENE NEWS

Mr. and Mrs. A. Weir of east city Spent Sunday in Keene.

Mr. and Mrs. Jas. Mathews of Toronto were in Keene Thanksgiving, renewing old acquaintances.

Messrs. Mooney and Lewis of Toronto spent a few days the guest of the former's sister, Mrs. W. Kempt. They spent a day on Rice Lake and were successful in laying eight brace of ducks.

Mr. H. J. Cruikshank of Toronto spent a few days the guest of Mr. Wm. Campbell.

Mr Wallace Wood of Toronto spent a few days in the village.

Mr. A. St. A Smith spent Thanksgiving looking for partridge in the surrounding woods. Mr Smith reports the birds plentiful but very wild.

Miss E. McCammus a former resident of Keene is the guest of Mrs. Dr. Harrison.

A hunting party composed of Messrs. A Shearer, F. Shearer, D. Wallace, G. Bolin and R. J. McCamus left on Thanksgiving for the far north to hunt the noble deer.

The sports of our village report duck very plentiful on Rice Lake at present.

Mr. Robt. McGregor of the Peter Hamilton Mfg. Co., was in the village on business.

Mr. Stanley Taylor of the Kingan Hardware Co., spent the holiday in Keene.

Mr. H. McLachlan has purchased the fine residence of Mr. R. Lane; and is busily engaged in moving.

The Grand Trunk Railway System have recently placed orders for 20 switching engines and 10 Richmond Compound consolidated engines. Ten of the switching engines are to be built by the Lima Locomotive and Machine Works, Ltd., ten by the Montreal Locomotive Works and the Richmond Compound engines by the American Locomotive Co., Schenectady, N.Y.

The working pressure of the switch engines is 180 lbs., and of the Compound Consolidation engines 210 lbs.

The tender of the switch engines will have a capacity of 4,500 gallons of water and 8 tons of coal. The Compound Consolidation engines will have a capacity of water of 7,000 gallons and from 10 to 15 tons of coal.

The tractive power of the switch engines is 29,993 lbs., and of the Compound Consolidation engines 36,000 lbs.

ART IN EYE GLASS MAKING

Perfection seems to have been reached in the making of Eye Glasses, when one beholds the creation of the present time. Our stock is always replete with the newest and best goods from the best makers; the standard of durability is not sacrificed, but lightness, style and strength are combined.

OUR SKILFUL FITTING
and adjusting will satisfy the most critical.

J. W. BROWETT, OPTOMETRIST, Optical Institute, Market Building.

Have you Bought your Winter Coat yet?

We assure you we can save you money by buying from us.

Our lines of READY-TO-WEAR are most up-to-date. Our **prices** are the **lowest** in the city.

Prices of our **LADIES' COATS** range from **$5.00 to $30.00**, all good values guaranteed.

Gentlemen's OVERCOATS, SUITS and Furnishings, latest styles and lowest prices.

Cccc COAL

FLEEING IN FEAR

Foreigners Rushing to Leave Pekin.

Massacre at Hankow Likely Likely to be Duplicated.

Pekin, Nov. 3.—The massacre of natives at Hankow by Imperialist troops, intelligence of which has reached both the War Board and the German legation, may prove a serious hindrance to the peace negotiations which Yuan Shi Kai has been endeavoring to inaugurate with the rebel leaders. The population of Hankow is estimated ordinarily at 500,000, but it is believed that every non-combatant who was able to escape proceeded into the country prior to the conflict. The Hankow streets are very narrow and the houses are closely packed. There are many wealthy Chinese merchants and manufacturers in gold and silver.

The concessions are divided from the native city by streets 50 or 60 feet wide, and it will be difficult to protect the foreign houses from fire or even from attack, as the Imperialists have evidently got beyond the control of their officers. The foreign defenders include marines from twelve gunboats of eight or nine nations, and also volunteers from among the missionaries and business people.

The exodus from Pekin continues, the doors of many shops, as well as private houses, being closed in anticipation of a massacre.

The diplomatic body will meet today to reconsider the question of allowing the Chinese troops to enter Tien Tsin, a consul there having made serious objection.

An officiel despatch from Shih Kai Tan, Shansi Province, says that a regiment of Chansi troops, which had been despatched to assist the Imperialists, has mutninied. The mutineers killed their brigadier-general and then bombarded a Manchu city, massacreing a thousand Manchus, including the governor and his family. The governor's yamen was destroyed.

Gen. Yin Tchang, who until a few days ago was commander of the Imperial forces at Hankow, returned here yesterday.

It is understood that the National Assembly is showing determined opposition to the foreign loan, for which arrangements have already been made, arguing that such a loan is unnecessary, as many millions are hoarded in the Forbidden City.

Letters dated Oct. 29 and Oct. 30 from the Associated Press correspondent with the Imperialist army at Hankow, say that in the struggle for the possession of the city there was hand-to-hand fighting in the streets, the quarters being too close for shooting. The rebels, mostly raw recruits, not understanding the use of rifles, were driven back with much slaughter, their dead piling up on the quay. The casualties among the Imperialists for two days, Oct. 28 and 29, were 30 killed and 150 wounded. The rebels had about 700 killed or wounded.

It is learned that the most barbarous outrages were perpetrated on innocent persons in the villages. An officer of Yin Tchang's staff, explained that the outrages were committed by only 40 men of the Hupeh division.

A CORNER IN LEATHER ON

Americans Planning a Big Coup in Britain.

London, Nov. 3.—If present indications in the leather trade are maintained, Great Britain will shortly receive a sharp lesson on the subject of tariff reform. The Standard says agents of American boot and shoe manufacturers are secretly placing large orders in the principal hide and skin markets in England and Scotland and should their expectations be realized, a corner in leather will result which will send up the prices of footwear by leaps and bounds, thereby enabling the American manufacturers to pocket huge profits on boots and shoes made by American workpeople from British hides and re-imported to this country free of duty.

British workers meanwhile will be unemployed, because of the price which leather will have reached British manufacturers will be unable to compete with their rivals.

THE HYDRO-ELECTRIC FOR PETERBOROUGH DISTRICT

The power situation in Peterborough is not satisfactory to the people. Peterborough would like to get a supply of cheap electric power, under municipal control at the generating station, and by civic ownership be in a position to lower prices if they can be lowered, and in any event to be independent of the big power monopoly which is operating in Trent the district.

This is what all the power talk has arisen from — this desire by the people of Peterborough to share in the benefits of a hydro-electric scheme, as well as municipalities which served are from Niagara Falls. But the way has been blocked by grabs and clever corporation manipulation. There is not an available power site within reasonable distance of Peterborough left for the city to get, without expropriation by the Ontario government.

While the Laurier government remained in office there was no hope, for the Dominion government threatened to fight the Ontario hydro-electric commission over the sites that were claimed by Ontario. In fact, with Hon. George P. Graham as minister of railways and canals, there was no hope for anybody but the corporations in power matters.

And it will be recollected that in the matter of Dam No. 8, which was practically promised by the deputy minister of railways and canals to Peterborough, there was a sudden reversal of plans, following a visit by Mayor Morrow and civic representatives, and the Seymour Power company got it. It was another grab.

But times change. Hon. Frank Cochrane has written Mr. Burnham that he will be pleased to have a conference with Peterborough city council as soon as possible, to talk over the power business. He is ready to lend a helping, not an obstructing hand, to Peterborough.

Moreover, Sir James Whitney goes to the people in this election with some definitely expressed ideas regarding the extension of the hydro-electric scheme to eastern and central Ontario, including the Peterborough district. Here is what Sir James said in his address;

> "It should not be forgotten that this policy of the government contemplates the furnishing of electric power at cost to all sections of the province, but great efforts have been made by interested individuals to hamper and to prevent the carrying out of the intentions of the government in the central and the eastern parts of the province. So far have these efforts gone, that we in all probability shall be compelled to use the powers given us by statute in reference to expropriation."

In view of this interesting announcement, and in view of the sympathetic attitude of Hon. Frank Cochrane toward Peterborough's claims, would Peterborough be doing wisely to vote against Whitney? Not much. With cards properly played, with two governments behind it in the fight to get a site for civic development — perhaps in conjunction with a government scheme as outlined by Premier Whitney—Peterborough stands a good chance of getting what looked a few months ago like a forlorn hope.

The extension of the hydro-electric scheme to Peterborough district, along with the willingness of Hon. Mr. Cochrane to help the city to water-powers that may be expropriated by his late colleagues at Toronto, offers great promise to this city.

HON. MR. WHITE FOR PUBLIC OWNERSHIP

New Finance Minister Says He is Free of all Corporations—No Tariff Changes Are in Immediate Contemplation—Government Ownership in Favor.

Lansdowne, Nov. 3.—"On the Massey Hall platform last September I placed myself behind Mr. Borden and joined the ranks of the Liberal-Conservative party. I entered by the door. I did not climb up some other way. That door was opened to former Liberals by none other than your old chieftain, Sir John Macdonald, when he named his party the Liberal-Conservative party. He intended that Liberals should enter. Your honored leader to-day, Mr. Borden, formerly voted Liberal and came over to the Conservative party in 1891 on the great and cognate issue of commercial union."

So spoke Hon. W. T. White, Minister of Finance, in his initial appeal to the electors of Leeds here last night. The hall was well filled. The new Minister was accompanied by Mr. Taylor, who resigned after twenty-nine years of continuous representation of the constituency, and was given a cordial reception. Mr. Taylor's address was very frank. He stated that Premier Borden found much difficulty following the election in securing a sufficient strong Cabinet from the members-elect. "So," he stated, "he took the strongest man in each of three Provincial Governments, Manitoba, Ontario, and New Brunswick. There was only Mr. White left without a seat," Mr. Taylor continued, "and there was a proposition made to me to resign this seat. At the first opportunity I will retire to the Senate."

Addresses were also delivered by Mr. John Webster, M.P. for Brockville, and Rev. W. Robbins.

The Minister of Finance arrived from Ottawa on the afternoon train, and spent the afternoon with the former member, meeting his prospective constituents. At night he was escorted by band and torchlight procession to the Town Hall.

The two important features of the inaugural address of the new Minister of Finance were his declaration that no immediate changes in the Canadian tariff were contemplated, and a vigorous pronouncement in favor of a propaganda of public ownership. In this connection Mr. White stated that it was the definite intention of the new Government both to build and to operate the Hudson Bay Railway.

No direct reference was made to Conservative protests against his inclusion in the Cabinet, but Mr. White rapped the protesting Conservatives of Toronto and western Ontario over the knuckles on the words "at Ottawa" in his appreciative reference to the pay he had been received by the party. "In the great Conservative party at Ottawa I find myself truly in the home of my frineds," was his significant way of putting it.

Returns Confirmed.

Edmonton, Nov. 3.—Latest returns confirm Conservative victories in all four seats. The majorities are: Calgary, Tweedie, 1,115; Gleichen, Riley, 336; Lethbridge, Stewart, 178; Pincher Creek, Kemmis 135, with two polls to come.

FARMERS' BANK SHAREHOLDERS COMBINING TO REDUCE LOSSES

Want to Have Losses on Deposits and Loans Set Off Against Double Liability.

Toronto, Nov. 3.—Representing over 800 shareholders of the Farmers' Bank, William Laidlaw, K.C., has filed defence against the claims of the liquidator to have their names placed on the list of contributories. The shareholders claim that their deposits in and loans to the bank should be set off against their liabilities.

The defence claims that the authorized capital stock was $1,000,000. It is claimed that $500,000 was to be subscribed and that $250,000 was to have been paid to the Minister of Finance, and that the capital stock was not bona fide subscriptions and that the $250,000 was not paid to the Minister of Finance.

Bourassa Boosts Whitney.

Montreal, Nov. 3.—Mr. Henri Bourassa, M.P.P., in Le Devoir yesterday evening has an article on the Ontario provincial elections, declaring that the Whitney Government certainly possesses the confidence of the people of Ontario, as it has given that province the most progressive and honest administration of any province since Confederation.

Le Devoir also ridicules Hon. Rodolphe Lemieux's statement that the Federal elections were influenced by Father Vaughan's sermons against the Protestant faith.

If the Liberal party, adds Le Devoir, really seeks in earnest the real cause of their defeat, it will not be in making such ridiculous statements as these of the ex-Minister of Marine at the St. Louis Club.

GIVE NO QUARTER

Prisoners on Both Sides Cut Down Without Mercy

Special to the Review.

Shanghai, Nov. 3.—Fire has completely destroyed the native quarters at Hankow and desperate fighting continues. Neither side is granting quarter and prisoners are cut down at once, very few being held. The combatants have shown a preference to die fighting. The wounded are killed wherever found and corpses are to be seen everywhere. The inhabitants are mercilessly butchered by the Imperial troops and it is estimated that between six and seven thousand have been killed since fighting broke out.

ITALIANS TRAPPED.

Special to the Review.

Vienna, Nov. 3.—News of startling developments at Tripoli are expected at any time as the Italian force is believed to be critically situated.

TAFT REVIEWS THE U.S. FLEET

Armada of One Hundred Vessels Inspected.

High Efficiency and Preparedness Noticed.

New York, Nov. 3.—President Taft yesterday had his first real view of the United States navy. It had so happened since he entered the White House that the fleet, which was so greatly admired by his predecessor, Col. Roosevelt, had been on widely scattered duty for the greater part of the time.

From the bridge of the Presidential yacht Mayflower, Mr. Taft reviewed the gray armada of one hundred fighting vessels that for nearly a week had swung at anchor in the Hudson River awaiting his inspection.

As the little white Mayflower picked her way in and out among the giant craft of the battleship line, the guns of the fleet roared in a reverberating chorus of salute. Accepting these tributes as a matter of course, and disdaining to reply to any of them, the yacht, with the President's blue-crested flag at the main truck, sailed gracefully along the seven-mile column of fighting ships, turned at the end, and headed again down the river.

Following the review of the fleet, President Taft issued the following statement: "Those who saw the fighting fleet, which was assembled in New York harbor to-day, could not fail to be struck with its preparedness and with its high military efficiency, and must have been proud of its personnel.

"The equipment of the fleet is excellent, except as to the number of destroyers, and cruisers and colliers in proportion to the whole number. We had in the fleet yesterday 22 destroyers, or an average of four to each battleship. It is true that there has been a marked improvement in the type of colliers and fast cruisers in our navy, but it is also true that we have not a sufficient number.

"In addition to building great battleships, other nations are building enormous high-speed cruisers — 28 knots per hour—and it is believed that our navy should be similarly equipped. Unless a navy is maintained at the highest possible state of efficiency, it is a needless extravagance."

PROBABILITIES

Fresh west and south-west winds; fine. Saturday, south-west winds; fair and milder.

DRY GOODS GO UP IN SMOKE

London Has $300,000 Fire--Five Stores Gone

Special to the Review.

London, Ont., Nov. 3.—Loss estimated at about three hundred thousand dollars was caused here this morning by fire on Dundas street, in the principal business section. The business places destroyed were:—Kingsmills, dry goods, Maras' dry goods, Brewsters fancy goods, Rome and Corbett's shoe store and R. J. Young's dry goods. Kingsmills was one of the oldest establishments in the city.

CHILD MET AN AWFUL DEATH

Double Barrelled Gun Was Accidentally Discharged

Special to the Review.

Sherbrooke, Nov. 3.—Through the accidental discharge of a double barrelled gun, the three-year-old son of Lawrence Vosberga, had his head blown to pieces this morning.

MEN INVOLVED IN GOVERNMENT'S SUIT AGAINST STEEL TRUST

J. N. DICKINSON — ATTORNEY GENERAL WICKERSHAM — J. P. MORGAN — JUDGE E. H. GARY — JAMES A. FARRELL

Presented herewith are portraits of the men most prominently identified in the government's suit to dissolve the United States Steel Corporation. The petition for the dissolution of the biggest of American trusts was prepared under the direction of Jacob M. Dickinson, formerly general counsel for the Illinois Central Railroad and later Secretary of War in the Taft Cabinet. He has been retained by the government as special counsel to handle the fight on the great J. Pierpont Morgan financial creation.

It was largely through the efforts of Attorney General Wickersham that the suit against the big corporation was brought. James A. Farrell, the president of the Steel Trust, and Judge E. H. Gary, the chairman, are mentioned in the suit.

THE GREATEST BANQUET IN NOVA SCOTIA'S HISTORY IN HONOR OF PREMIER BORDEN

Great Ovation to the Native Son—Borden Outlines His Plans in General.

Halifax, Nov. 3.—The banquet in honor of R. L. Borden in this city last night, given by the Conservatives of Halifax, and of the Province of Nova Scotia, was the biggest function of the kind ever seen here. There were three toasts, "The King," "Mr Borden" and "The Members of Mr Borden's Cabinet."

The Prime Minister was surrounded by members of his Cabinet and prominent members of the party in the Maritime Provinces, and enthusiasm ran high at all times.

Any expectation that Hon. Mr. Borden would outline, save in general terms, the policy of the new Government, will pursue, was rather disappointing. He took a definite attitude, however, in favor of a permanent tariff commission, and declared for encouragement to agriculture by means of improvements to roads and also for chilled meat facilities. He took pains to emphasize the need of improved transportation facilities to bind east and west together.

Mr. Borden's response to the toast in his honor was in part as follows:

"Mr. Chairman and Gentlemen,—I need not tell you that I am deeply moved by this splendid reception accorded to me in this city where I have spent the best years of my life and perhaps my happiest days, and which I have had the honor of representing for many years in the Parliament of Canada.

"The issue which confronted the people of Canada in the recent contest was of surpassing interest and importance to the whole Empire. Its importance was realized by the people of Canada and it is not amiss on this occasion to express our appreciation of those Liberals who placed the interests of Canada above the ties of party allegiance and who fought with us in this campaign for the welfare of Canada and of the Empire.

"In some quarters, the claim has been made that the result of the election was due to some hostile or unfriendly spirit on the part of the Canadian people to the great neighboring republic. It is desirable that any such idea, if it exists, should be dissipated and dispelled.

After reviewing history of negotiations between Canada and the U. S. dating back to Canada's standing offer of reciprocity in 1879, and Canada's assertion on Sept. 21 last of the right to maintain her fiscal freedom, he said:

"I trust that the anniversary of one hundred years of peace will be commemorated in the two countries with a deep and solemn sense of national responsibility and that each will accomplish its destiny under the splendid inspiration of enduring friendship.

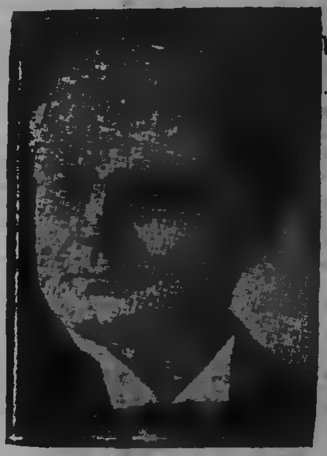
"Intelligent administration of public affairs must involve a wise conservation of our natural resources, as well as their development in the interest of the whole people. In a

Continued on page 6

CHAMP CLARK AND ANNEXATION

Fremont, Neb., November 2—"Nine-tenths of the people of this country favor the annexation of Canada," declared Champ Clark, Speaker of the House of Representatives, to-day, "and I don't care who hears me say it."

Beginning with a speech here Speaker Clark was scheduled to make addresses in twenty-one towns in the Third Nebraska District in the interest of Daniel V. Stevens, Democratic candidate for Congress, to succeed the late Rep. James P. Latta. The speaker's remarks concerning annexation of Canada caused considerable comment. "I am willing," he said, "to make this proposition: You let me run for President on a platform calling for annexation of Canada, in so far as this country can accomplish that end, and let the President run against me, opposing annexation, and I would carry every state in the nation."



CHAMP CLARK.

TURKS FIGHTING THEIR WAY UP TO THE ITALIAN LINES

Land Fighting Most Vigorous in the Neighborhood of Tripoli—Complete Censorship of News is Made.

Tripoli, Nov. 3.—The Turks yesterday morning brought up a few guns to the south of El Mesri and opened fire. This was not effective, as most of the shells failed to explode. The Italian artillery soon silenced the guns and forced the enemy to retire.

About five o'clock Wednesday evening Turks appeared before the line of defences and forced the 82nd Italian infantry to fall back from their position. The cruiser Carlo Alberto soon located the Turkish artillery, and by a well directed and vigorous fire, silenced it.

Italian's Patriotic Fervor.

Rome, Nov. 3.—A despatch to The Giornal d'Italia from Tripoli describes the observance of All Souls' Day at the Italian military camp at Bumelina. The altar was surrounded by cannon and a forest of rifles, the bayonets of which flashed back the rays of the sun. Above all waved the tri-color. The military band played the "Ave Maria," by Verdi. After the chaplains had celebrated mass, each general addressed the soldiers, urging them to imitate the example of the officers and men who had won victory and honor for their country by shedding their blood.

The thousands of soldiers responded with cries of "Long live Italy."

Italian Fleet Leaves Tripoli.

Malta, Nov. 3.—It is reported that the whole Italian fleet has left Tripoli for Turkish waters.

The Italian Government has suppressed direct sailings between Tripoli and Malta, owing to the leakage of news to foregin papers. All the mails from Tripoli have now to run the gauntlet of censorship at Sicily.

Turkish Forces at Tripoli.

Constantinople, Nov. 3.—The commander of the Turkish forces at Tripoli telegraphs his Government under date of Oct. 30, as follows: "The Turks have occupied all the forts surrounding the town. The Italians are demoralized and do not dare to venture outside the zone of fortifications."

Will Confiscate Cargoes.

Washington, Nov. 3.—Vessels whose cargoes are made up either in bulk or weight, of one-half contraband of war, will be confiscated by the Turkish Government, according to advices yesterday from Ambassador Rockhill at Constantinople. The Turkish Government defines as contraband of war all material which can be used without further preparation in promoting warfare.

MUNICIPAL TAXATION

The Ottawa Citizen says that it is a matter of regret that Sir James Whitney has not seen fit to forestall the Liberal opposition in the advocacy of the system of taxing land more heavily than improvements. This method of handling taxation is engaging the attention of enterprising cities in the west, with marked success. There does not seem to be any real reason why the government should not allow municipalities local option in the matter. Surely if the citizens of Peterborough were to decide that instead of assessing their property on an equal land and improvement basis, they would increase the assessment on the land and correspondingly reduce it on improvements, they should have the right to do so. Sir James would, we believe along with the Ottawa Citizen, have been well advised to have taken the matter into his serious consideration, thus depriving the Liberals of what may be perhaps their most effective plank.

CHAMP CLARK

How is this for an echo of the reciprocity fight—this statement by Champ Clark, made at Fremont, Nebraska, on Wednesday, in a state political campaign:

> "Nine-tenths of the people of the country favor the annexation of Canada and I don't care who hears me say it."
>
> "You let me run for president on a platform calling for the annexation of Canada insofar as this country can accomplish that end, and let President Taft run against me, opposing annexation, and I would carry every state in the union."

There were some people who said that Champ Clark was joking when he made his "annexation" statement in the House of Representatives. The Liberal newspapers all over Canada pooh-poohed his sincerity, and the sincerity of many other Americans of the frank type of the Missourian.

The only danger now is that the vision of acquiring Canada having been thrown on the screen before the eyes of the Americans—many of whom are heathenishly ignorant of Canada and her affairs—by such political meddlers as the editor of the Toronto Globe, the undercurrent of sentiment will crystallise into a real force.

LINOTYPES AND HOGS;

The St. Thomas Times takes up the question of duties on linotypes, referring to the comments of the Toronto Weekly Sun on what the Review said about the abolition of the twenty per cent duty on linotypes. The Toronto Sun has considered it inconsistency in the Review to advocate the abolition of the linotype duties, while opposing the reciprocity agreement that would have removed the duty on hogs.

The Times very aptly says:

There is this difference between linotypes and hogs. Hogs are produced in Canada; linotypes are not. If anyone wants to eat pork he can buy the home product at prices as low or lower than in the United States. During the recent campaign the Liberals told the farmers that hogs commanded a higher price in the United States than in Canada. They told the consumers in the city, on the other hand, that pork would be cheaper if the American product were allowed to come into Canada free. Funny reasoning.

But if a Canadian publisher or printer wants to buy a linotype he is compelled to buy it in the United States at the price paid by American publishers and printers, plus a duty of twenty per cent. He has no option in the matter at all.

A clause was injected into the reciprocity agreement throwing off the twenty per cent duty on linotypes. This was intended to make the Canadian newspapers feel kindly towards the measure, but the Conservative newspapers did not allow self-interest to interfere with their conscientious opposition to the agreement, even though its defeat meant the continuance of a tax upon the principal units of newspaper plants.

A few years ago the Laurier government threw off the duty of ten per cent on rotary and cylinder printing presses on the ground, we believe, that no home industry was protected by the duty, as the presses were not manufactured in Canada, and could not be manufactured profitably here until the country had grown materially in population.

The Times would like to be able to buy two linotypes, the cost of which is $6,650 and the duty would add $1,335 to that large sum. While in New York recently a representative of this paper had a conference with the head of the linotype concern that practically controls the world's output of these machines, with the view of finding out whether the company had any thought of establishing a branch plant in Canada, as they have in England. The statement was made that the consumption of machines in Canada is not great enough to warrant the installation of a plant capable of turning out a machine equal in efficiency to those made in the parent plant in Brooklyn.

The Times believes in the protection of Canadian industries, but no Canadian industry is protected by the continuance of the 20 per cent duty on linotype machines. Contrarywise, an important Canadian industry is retarded by the tax. The printing and publishing business is one of the most important in Canada. The Times company, for instance, pays as much money in wages yearly as do some of St. Thomas' industries that have been granted bonuses or other inducements to locate here.

Under present conditions the 20 per cent duty on typesetting machines is a distinct hardship.

Wood's Phosphodine, The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins. Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhoea, and Effects of Abuse or Excesses. Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. New pamphlet mailed free. The Wood Medicine Co. (formerly Windsor) Toronto, Ont.

EDITORIAL NOTES

It is quite true that the International Harvester company is going to take over and operate the Cordage works. But that won't be much of a salve for the feelings of some of Mr. Hall's constituents.

A Havelock man has won the prize for the largest black bass caught during the season. It weighed six and a half pounds. This is the biggest fish story from Havelock for a year.

A Sarnia man has wedded a widow with millions. If he has married the millions, as well as the widow, it is well, but sometimes the one isn't necessarily a logical consequence of the other.

Evidently Mr. Hall hasn't much sympathy with the poor people who don't want to be soaked twice as much for school books as they should. Why should parents trying to raise a family get consideration from Mr. Hall, anyway!

The Brockville Times, in an ebullition of rage at Toronto, says that Toronto is the concentrated essence of all the hogs in the Dominion, or something to that effect. Well, when it gets pinched, Toronto certainly has the squeal, at any rate.

Mr Hall says in his circular that the Whitney government has cut the cost of school books in two. It isn't every day that one finds so honest and frank a political opponent. If Mr Hall keeps on acknowledging the truth we will buy him a cherry tree and hatchet for Christmas.

The selection of Mr. Rowell as a leader for the Liberals seems to meet with general approval. Mr. Rowell has a fair field, and no favor. He can make or mar himself. He has many things in his favor—a splendid reputation, a strong church connection, and an irreproachable character.

Hon. Rodolphe Lemieux lays the blame for the defeat of Laurier on the shoulders of Father Bernard Vaughan. Mr. Lemieux is wrong. He should lay the blame on the shoulders of his reverend nibs of the Globe. The national revulsion did not come from religious feeling as much as from a distinct feeling that we would be better off without putting our heads into the American noose.

Will Mr. Hall please tell us since he talks so much about Peterborough being left out in the cold by the hydro-electric, how he came to get Dam No. 5—the Otonabee Power company site—after Hon. John Haggart had promised it to Peterborough. There seems to be a distinct impression that Mr. Hall has been more or less active himself in trying to block the advent of civic power for Peterborough.

A Winnipeg magistrate, in sentencing two bank clerks, found guilty of embezzlement, severely censured the bank methods, which made it easy for clerks to peculate. It would be more to the point if the banks could be made to pay salaries somewhat commensurate with the work performed, to the clerks. It is no wonder that young men with incomes of $300 or $400 a year from the banks, are tempted to make up their living expenses by helping themselves. The clerks' salaries are a disgrace.

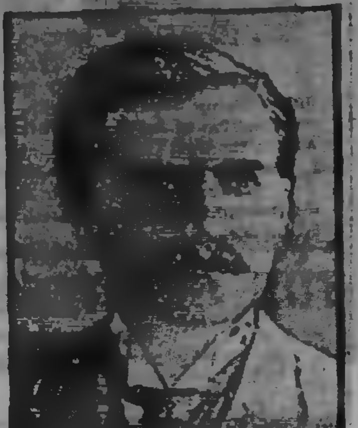
Montreal's New Postmaster.

Montreal, Nov. 3.—Hon. L. O. Taillon has received notice of his appointment as postmaster for Montreal. The postoffice authorities here have as yet received no official information, but that is expected almost any moment. Yesterday morning the Hon. Mr. Taillon visited the general postoffice.

WHO'S WHO IN CANADA

HON. W. T. WHITE

When it came to the filling of the position of Minister of Finance, Cabinet-builder Borden must have recognised he was up against the big proposition of the programme. That he has chosen one of the best at command will be readily granted. Admittedly there was at hand good material from which to make a choice, but in selecting Mr. W. T. White his nominating smile fell on one who is acknowledged as being of the front row financial men of Canada today. His genius for organization has been in great demand by the public institutions of Ontario and now that the country has the command of his talents many financial reforms may be looked for.



HON. W. T. WHITE,
Minister of Finance for the Dominion.

A. R. CREELMAN, K.C.

Shining Railroad Legal Light

In railroad, and in Canadian business circles generally, it is recognised that in prevailing upon Mr. A. R. Creelman, K.C., to abandon his Toronto practice and transfer to Montreal as general Counsel for the company, the C. P. R. did just the proper thing for that big concern. It was at a critical time in the railroad's affairs; Canada was waking up in real live earnest to her possibilities, and with the country's prospects, were, of course, bound up to very great extent the future of the C. P. R. shareholders. Brilliant legal talent was on demand to help pilot the ship. The men at the head of affairs calculated they could not go far astray with Mr. Creelman as counsel, and the success with which he has carried out his duties since that time — duties that sometimes have involved millions of the Company's money, and the preparation of cases for argument before the highest tribunal of the Empire—was recognised a short time ago when Mr. Creelman was awarded the coveted distinction of being elected to the directorate of the C. P. R.

At the time of his appointment to Montreal, in 1901, he was partner in the firm of McCarthy, Osler, Haskin & Creelman, and had been in practice in Toronto for over a score of years.

A native of Richibucto, in New Brunswick, Mr. Creelman, was educated in the grammar school at that place, and at Chatham Academy, but he studied his law in Toronto. In the same year in which he entered the legal firm before mentioned namely in 1878, he married Margaret Cummings, daughter of the Rev. John Jennings, D.D., of Toronto.

Mr. Creelman never allowed himself to become entirely absorbed in the dry intricacies of the law, but took an active interest in many forms of sport, and was besides for four years in the Canadian militia. These outside interests he still preserves, and he is a member of the leading social and sporting clubs in Montreal, as well as in Toronto and Ottawa.

GORDON C. WILSON

Mr. Wilson, who resigned his North Wentworth seat in the Provincial house to run against W. Oscar Sealy, member for Wentworth in the Commons, and who, more recently, to show his loyalty to the Conservative party, stood down to provide a seat for Hon. Frank Cochrane on his appointment as Minister of Railways and Canals, is referred to by his familiars as "one of Whitney's Fair-Haired Boys", and has a big bunch of real friends over many Canadian acres outside his own immediate political sphere of influence.

Local Conservatives strongly favored his return to Provincial politics, and the fact that he had recently been twitted with running away from front of Dr. McQueen in a local fight, was advanced as one strong reason for the surrender of Federal honors in addition to the desire to accommodate the new minister.

He is recognised as a born fighter; a progressive member of the local government who has done splendid service for his party, and for the public interests generally, and yet higher honors are set for him on the prophecy list.

Born about forty-two years ago in Dundas, Ont., Mr. Wilson is a general merchant of considerable success in his native county of Wentworth, and like many other Canadians who can claim a Scots descent, is a man of sterling worth all the way through, and a platform debater of no mean standing. He is a strong advocate of municipal ownership, and during his two terms in the provincial legislature was an ardent supporter of the Ontario hydro-power project.

First Nurse: "I shall not be able to go to the picnic to-morrow."

Second Nurse: "Why not?"

First Nurse: "To tell the truth, I'm afraid to leave the baby with its mother."

A warrant is out for Randolph Sparks of Port Colborne who, it is alleged, tried to cut his wife's throat.

THE MARKETS

Latest Quotations in Grain Dairy Products, Live Stock Etc.

CHICAGO, Nov. 2. Twice to-day the wheat market broke more than a cent a bushel in a few minutes. The selling stampedes resulted from nervousness about reports of a federal enquiry into big cash wheat accumulations here and elsewhere. The close was weak and ran from last night's figures to ⅝c below. Corn showed a net decline of ⅛c to 1⅛c, and oats a drop of ⅜c to ½c. At the end of the day hog products varied from 2½c to 5c lower to 5c advance.

The Liverpool market closed to-day unchanged to ¼d higher on wheat and ½d higher on corn. Antwerp wheat closed 1¼c lower, Berlin ⅜c lower and Buda Pest 1⅛c lower.

Liverpool Grain Prices.

LIVERPOOL, Nov. 2.—Closing—Wheat, spot steady; No. 2 Man., 7s 9d; futures, steady; Dec., 7s 4d; March, 7s 3⅝d; May, 7s 2⅞d; corn, spot, steady; American mixed, 6s 5d; futures, easy; Jan., 5s 7⅝d; Feb., 5s 7½d; flour, winter patents, 27s 9d; hops in London, Pacific Coast, £11 to £12.

Montreal Grain and Produce.

MONTREAL, Nov. 2.—The foreign demand for Manitoba spring wheat was fairly good and bids in some cases were 1½d per quarter higher and sales of No. 1 northern were made to London at 38s 10½d for November shipment, at 38s 9d, Nov.-Dec. and No. 3 northern at 35s 6d for December.

There was an increased demand for American corn and sales of round lots of No. 3 yellow were made at 80½c per bushel, ex-store, and car lots at 81c. There was a good enquiry from local buyers for round lots of oats, but at the advance in prices to-day in the west buyers were not disposed to operate. On spot, sales of car lots were made at full prices.

The export trade in flour continues quiet, but there is a fair trade doing for local account. Demand for mill feed is good. Cheese and butter are firm and provisions quiet.

Dressed hogs, abattoir, $8.75 to $9.25 per cwt.

Beef—Plate, half barrels, 100 lbs., $7.50; barrels, 200 lbs., $14.50; tierces, 300 lbs., $21.50.

Lard—Compound tierces, 375 lbs., 8¼c; boxes, 50 lbs. net (parchment lined), 9⅛c; tubs, 50 lbs. net, grained, two handles, 9⅜c; pails, wood, 20 lbs. net, 9⅝c; tin pails, 20 lbs. gross, 9⅛c.

Pork—Heavy Canada short cut mess, barrels, 35 to 45 pieces, $24; half-barrels, $12.25; Canada short cut and back pork, 45 to 55 pieces, barrels, $23; Canada clear pork, barrels, 30 to 35 pieces, $22.50; bean pork, small pieces, but fat, barrels, $17.50.

Oats—Canadian western, No. 2, 48½c to 49c, car lots, ex-store; extra No. 1 feed, 48c to 48½c; No. 3 C.W., 47½c to 48c; No. 2 local white, 47c to 47½c; No. 3 local white, 46½c to 47c; No. 4 local white, 46c to 46½c.

Flour—Manitoba spring wheat patents, firsts, $5.40; seconds, $5.90; winter wheat patents, $4.75 to $5; strong bakers', $4.90, straight rollers, $4.25 to $4.40; in bags, $1.90 to $2.05.

Rolled oats—Per barrel, $5.25; bag of 90 lbs., $2.40.

Corn—American No. 3 yellow, 81c.

Millfeed—Bran, Ontario, $23 to $24; Manitoba, $23; middlings, Ontario, $27 to $28; shorts, Manitoba, $25; moullie, $26 to $32.

Eggs—Selected, 28½c to 29c; fresh, 30c to 34c; No. 1 stock, 22½c to 24c.

Cheese—Westerns, 14c to 14¼c; easterns, 13¾c to 13⅞c.

Butter—Choicest, 27c to 27½c; seconds, 26½c to 26¾c.

CATTLE MARKETS.

Toronto Live Stock.

TORONTO, Nov. 1.—The railways reported 102 carloads of live stock at the City Yards, comprising 1500 cattle, 2208 hogs, 1340 sheep and lambs and 145 calves.

Butchers' Cattle.

George Rowntree bought for the Harris Abattoir Co. on Wednesday and Thursday, 200 cattle, as follows: Butchers, $5 to $6.75; cows, $3 to $4.85; bulls, $2.90 to $5.25. Canners and cutters, $1.50 to $2.75.

Stockers and Feeders.

Both stockers and feeders, that is, the bulk of them, were bought this week, 15c to 20c per cwt. cheaper than last week. Feeders, 1000 to 1100 lbs., sold at $4.50 to $4.75, with a very few reaching $5 to $5.10; feeders, 900 to 1000 lbs., at $4 to $4.50; stockers, 500 to 750 lbs., at $3.25 to $3.75.

Milkers and Springers.

Trade in good to choice milkers and springers, was both brisk and large, as there was a large number on sale. Prices ranged all the way from $40 to $80 each.

Veal Calves.

Receipts were large. Prices ranged from $3.50 to $8 per cwt., according to quality.

Sheep and Lambs.

Lambs were cheaper at $5.25 to $5.35 today; sheep, unchanged, at $3.50 to $4 for ewes, and rams at $3 per cwt.

Hogs.

Selects, fed and watered, were quoted at $6.25, and $5.90, f.o.b., cars, at country points.

East Buffalo Cattle Market.

EAST BUFFALO, Nov. 2.—Cattle—Receipts 300 head; fairly active and steady. Veals, 100 head; active and 5c higher at $5.50 to $10.

Hogs—Receipts 4000 head; market slow and steady; mixed, $6.55 to $6.60; yorkers, $6 to $6.55; pigs, $5.75 to $5.90; roughs, $5.75 to $5.90; dairies, $6.25 to $6.55.

Sheep and lambs—Receipts 4800 head; active, steady; lambs, 25c higher; lambs, $4 to $6.10; a few at $6.15.

Chicago Live Stock.

CHICAGO, Nov. 2.—Hogs—Receipts, 21,000. Market, steady. Mixed and butchers, $5.70 to $6.45; good heavy, $5.85 to $6.45; rough heavy, $5.70 to $5.95; light, $5.60 to $6.30; pigs, $5.75 to $5.50.

Cattle—Receipts, 6000. Market, steady to strong. Beeves, $4.70 to $9.15; cows and heifers, $2 to $6; stockers and feeders, $2.80 to $5.80; calves, $5.00 to $8.75.

Sheep and Lambs—Receipts, 22,000; market, steady; native, $2.50 to $4; western, $2.50 to $4.10; lambs, $4 to $6.30; western, $4.25 to $6.25.

Many Seamen Desert.

Montreal, Nov. 3.—According to a statistical record kept by Mr. Thomas Robb, secretary of the Shipping Federation of Canada, there have been upwards of 1000 desertions of ships' stewards, firemen and seamen from vessels in the port of Montreal so far this season.

This Little Crank In Your Kitchen

Saves 20% on Coal

It is a wonderful patent device, the Oxford Economizer, and is licensed for use only on

GURNEY-OXFORD STOVES and RANGES

This marvellous regulator keeps the oven at a given temperature. No heat is wasted—nothing goes up the flue but bad odors, steam and smoke. The fire is held for hours without attention—ready for immediate use—and all this labor, time and fuel saved by simply turning the crank.

With the **Divided Oven Flue Strip** you have even baking, because of the perfect distribution of heat, secured by this expert arrangement.

The Reversible Grate is provided with strong, interlocking teeth that reduce coals to ashes by a single turn. In appearance, in details of finish and design the **Chancellor** is an ornament as well as a necessity in any kitchen.

The Range here represented and other Gurney-Oxfords of every sort for every purpose, displayed on our floor.

MEXICO IN '42

By D. Lewis

CHAPTER XL
The Free Lances.

"Well, comrade," continued Rivas, "now for the promised explanations: That the monks of my community are of an order neither very devout nor austere, you've already observed, no doubt, and may have a suspicion they're not monks at all. Soldiers, every man; most having seen service, and many who have done gallant deeds. When I speak of them as soldiers, you will understand it in its true sense, senor. With one or two exceptions, all have held commissions in our army, and with a like limitation, I may say all are gentlemen. The last revolution, which has again cursed our country by restoring its chronic tyrant, Santa Anna, of course threw them out; the majority, as myself, being proscribed, with a price set upon their heads.

"But," questioned Kearney, "may I ask why you are habited as I now see you?"

"For a good reason, amigo. It adds to our security. Throughout Mexico the cowl of the monk is the best passport a man could be provided with. Wearing it, we go about among the mountain villages without suspicion, the people believing that this old monastery, so long abandoned as to have been forgotten, has again become the dwelling place of a religious order. Of course we don't allow any of the rustics to approach it. If they attempt it, we have sentinels to stay them. For ourselves, we have learned to play the part so that we have escaped detection, and I trust will, till the time arrives for our casting off the cassock, and putting on the soldier's coat.

"That day is not distant, Don Florencio; nearer than I expected, from what my comrades have told me since we came up. The state of Oaxaca is disaffected; as, indeed, the whole southern side of Acapulco, and an outbreak is anticipated ere long—possibly within a month. Alvarez, who controls in that quarter, will be the man to raise it; and the old Pinto chief will expect to be joined by the Free Lances. Nor will he be disappointed. We are all burning to be at it. So, caballero, you see how it is with us.

"And now," he added, changing tone and looking his listener earnestly in the face, "I have a question to put to yourself."

"What?" asked the Irishman, seeing that he hesitated.

"Will you be one of us?"

It was now Kearney's turn to hesitate. To what would he be committing himself if he consented? And what if he should refuse? Besides, under the circumstances, was he free to refuse? He and his comrade, Cris Rock, owed their escape to this strange man, whatever he might be, and to separate from him now, even under full permission, would seem like ingratitude. Noting his embarrassment the Mexican hastened to relieve him.

"If my proposal [illegible] the country. At all events, I won't send you back to the Acordada jail and the tender care of its governor. So you can speak frankly, without reserve. Are you willing to be one of us?"

"Yes, Don Ruperto," he said; "if you deem me worthy of belonging to your brotherhood, be it so. I accept your invitation."

"And your comrade, Don Cristoforo. Will he be of the same mind, think you?"

"Sure to be. I take it I can answer for him. But you shall hear for yourself."

He called to the Texan and explained the situation.

"Lordy, cap; what a question to be asked, an' by ourself! Ef they'd been brigands, I should 'a put my conscience in my pocket, and gone in with 'em, all the same; s'long you're agreed. But if they're men who intend fightin' for freedom, Cris Rock air all thar! Ye may tell him so."

"He consents," said Kearney, reporting to the Mexican, "and as willingly as myself."

CHAPTER XLI
Over the Cliff.

For some time after their arrival at the old monastery neither Kearney nor Cris Rock saw aught of their late "fellow" prisoner the hunchback. They supposed that he was still there, however, somewhere about the building.

And so he was, with a chain attached to his leg, the same he had shared with Rock, as severed and now padlocked to a ring bolt; and the apartment he occupied had as much of the prison aspect as any cell in the Acordada.

Why the misshapen creature was so kept needs little explanation. Helpless as he might appear, he was not harmless; and Don Ruperto knew that to restore him to liberty would be to risk losing his own, with something more. Though safely bestowed, however, no severity was shown him. He had his meals regularly, and a bed to sleep on. Moreover, after some time had elapsed, he was relieved from this close confinement during the hours of the day. A clever actor, and having a clever tongue, he had wheedled the major-domo into granting him certain indulgences, among them the privilege of spending part of his time in the kitchen and scullery, where he had proved himself useful in many ways.

Thus Gregorio, who had him in special charge, began to regard him as a handy addition to his domestic staff. Notwithstanding, the precaution was still continued of locking him at night and re-attaching the chain to his ankle. This last was more disagreeable than aught else he had to endure. He could bear the jibes of his fellow scullions, but that fetter sorely vexed him.

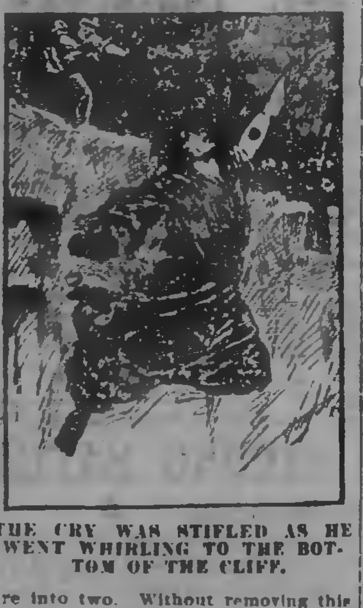
"It's so uncomfortable, Senor Don Gregorio," was his constantly recurring formula. "Keeps me from sleeping, and's very troublesome when I want to turn over, as I often do on account of the pains in my poor shoulders. Now, why need you put it on? Surely you're not afraid of me trying to get away? Ha, ha! that would be turning one's back upon best friends. I fare too well here to think of changing quarters. Above all, going into the Acordada; where I'd have to go sure, if I were to show my face in the city again."

At last with much cajoling he induced the major-domo to leave his chains unfastened.

It was twilight outside, but almost total darkness within the cell, as the major-domo turned to go out of it. Otherwise, he might have seen on the dwarf's features an expression calculated to made him repent his act of kindness, and instantly undo it.

The dwarf, rising to his feet, moved across to the door, and laid his ear against it to listen. He heard sounds, but they were sounds of merriment—the counterfeit monks at their evening meal.

Leaving the door, he glided across to the window, and set himself square against it, as if to measure its breadth by that of his own body. It was but a slit, unglazed, a single iron bar placed vertically, dividing the aperture into two. Without removing this he could not possibly pass through. But he had the means to remove it; that file, which he had contrived to get possession of, and for days kept secret in his cell. First however, he must see whether it was worth while using it; for during all the time of his being there he had never been allowed an opportunity to approach the window and look out.



THE CRY WAS STIFLED AS HE WENT WHIRLING TO THE BOTTOM OF THE CLIFF.

Without spending another second in the survey, he drew back from the window, plunged his hand under his bed mat, drew forth the file and commenced rasping away at the bar.

This task accomplished, he commenced groping about over the floor for the chain.

Having found it, he returned to the window. Having made one end fast around the stump of the bar, he lowered the other down outside, cautiously, without a tinkle of its links. And now again looking out and below he was delighted to see that it reached within a foot or two of the ledge.

Quickly squeezing out through the aperture, he let himself down on the chain, link by link.

Right be was in choosing that early hour, for the way he must needs take led out into the open ground, in front of the building, where at a later one a watch would have been stationed. There was none there now, and without stop or challenge he passed on and down.

He recalled the two steep slopes one above the other, with a narrow shelf between, on which they encountered the sentinel, who had hailed "Who comes?"

There would surely be one there now, and to such a challenge what answer could he make?

To be continued.

CARTER'S LITTLE LIVER PILLS.

CURE Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them.

CARTER MEDICINE CO., NEW YORK.

TELEGRAPHIC BRIEFS.

The London taxicab companies last night decided to close their garages and lock out the men until satisfactory arrangements are made.

About $25,000 of the money recently stolen from the Bank of Montreal at New Westminster, has been recovered by workmen while mending a sidewalk.

The coal company at Fernie has posted notices that the mines are open, and asking men who want to return to work to report to the company.

The survey of the proposed six-foot waterway from Edmonton to Winnipeg is practically complete. The survey parties will be back in Ottawa shortly.

Eighteen inches of snow blanketed the northern Indiana and lower Michigan fruit belt yesterday, and great damage is reported, as the apple and pear harvest had not been completed.

Melvin McNair, aged 14; two cousins named Eddie Kirkness and Emma Sette, and Veronica Berthold, aged 8, were drowned near Winnipeg yesterday, when they went for a sleigh ride on thin ice.

At a meeting of citizens in Lindsay Wm. McComb was apponted industrial commissioner. The recent census showed that Lindsay was one of the two Ontario towns with a decreased population.

Lady Colin Campbell, author and journalist, died yesterday in London after a long illness. Her suit in the divorce court in 1883, when she obtained a judicial separation created a great sensation.

The banquet of the Soo last night in honor of W. H. Hearst, the new Minister of Lands, Forests and Mines for Ontario, was attended by 400 persons representing all portions of the riding and eastern portions of the province.

The German Foreign Minister, Herr Von Kiderlin-Waechter, and the French Ambassador to Germany, M. Cambon, yesterday initialed the Congo portion of the Moroccan treaty. This means that the treaty is now complete.

The Masonic Grand Lodge of Scotland has inhibited the lodge of Forfar and Kincardine from conferring any further degrees on Jack Johnson, the negro prizefighter, pending an inquiry as to his initiation into the lodge a few days ago.

Liberal Majorities.

Winnipeg, Nov. 3.—Complete figures of the votes cast in the recent Dominion elections for all the constituencies in the Provinces of Manitoba, Saskatchewan and Alberta, show a total vote in these three provinces of Western Canada of 124,671 for the Liberals, and 104,710 for the Conservatives. The total independent and Socialist vote was 6,824.

In Manitoba, the Conservatives have a majority of 5,729; in Saskatchewan the Liberal majority totals up to 18,216; and in Alberta the Liberals led by 7,474.

Understanding Proved Treacherous.

Chicago, Nov. 3.—John Gregory, a negro, arraigned before U. S. Judge Landis on the charge of robbing a mail pouch, declared he had not touched the pouch. Then he said he would plead guilty.

"You'll do what?" asked the court. "That's unusual."

"Yas, sah," said Gregory; "ah understan' de p'liceman found mah knife in the pouch."

The court sentenced the negro to the Leavenworth Penitentiary for thirteen months.

Censures Chatham Hotelman.

Chatham, Nov. 3.—License Inspector French has completed his inspection of local hotels. He will report favorably on the accommodation provided, but will severely criticize hotelmen with regard to their not living up to the law in the matter of selling liquor to persons already under the influence of liquor.

"Father" Chiniquy's Widow Dead.

Worcester, Mass., Nov. 3.—Mrs. Euphemie Chiniquy, widow of Rev. Charles Chiniquy of Montreal, who attracted considerable attention many years ago by withdrawing from the Roman Catholic Church, of which he was a priest, and devoting the remainder of his life to an attack on that faith, died here yesterday at the home of her son-in-law, Rev. Samuel C. Delagneau. Mrs. Chiniquy was 77 years of age. She was a native of the province of Quebec.

I have no use for the loafer who goes about telling how liberal he would be if he had an industrious man's money.

MY LADY'S COLUMN.

MASSAGE FOR WRINKLES

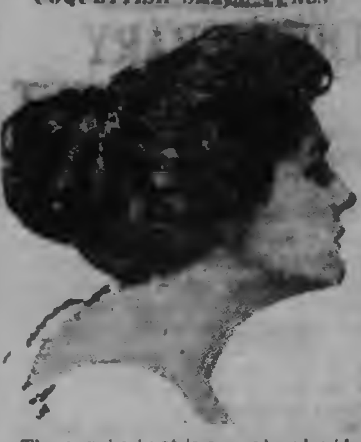
The amount of young women one sees nowadays with double chins, and faces all lined and wrinkled, is simply amazing; at first sight one would imagine, judging from the latter, they were people bearing heavy sorrows; but no, they are perfectly happy, enjoying lives of peaceful tranquility. They arise in the first place from too relaxed muscles. A relaxed muscle loses its natural form, causing the part of the body it covers to loose its curved and rounded contour, and gives rise to wrinkles and "sagging" of the flesh. The results are disastrous to beauty, youthful freshness, and to the charm of soft curves and rounded outline. The muscles of the face suffer more than any others from lack of proper development.

The best aid to this muscular development is massage; by a judicious movement, the muscles are stimulated, and rid themselves of unhealthy particles which are apt to accumulate in the tissues. Besides this it greatly encourages the formation and building up of flesh tissue. As to the mode of massage, "chacun a son goût," as the old French proverb has it; some women prefer using their finger tips, while others substitute a massage ball, which, perhaps, is more efficient.

The following is an easy way of making one. A short piece of wood about a foot in length is requisitioned; a fairly thick wooden knitting-needle will answer the purpose well. This wooden rod acts as a handle, and the end on it is arranged for purposes of massage. Over this end is fastened a soft mass of cotton wool, about the size of a ping-pong ball, and this is held in position by a soft covering of chamois leather, tied firmly with a piece of ribbon or string. The chamois leather must be of the softest possible character. An excellent substitute is a piece of soft kid or suede such as that which can be taken from the upper part of a long white evening glove. The inner surface, i.e., that which, in the glove was in contact with the arm, should be used to form the outer surface of the massage ball. This little ball dipped in a good cream, and gently rubbed over the wrinkles, will work wonders. Care, of course, must be taken in the choice of the cream; only those of excellent and standard quality should be used, but as it is not always easy to procure this a very good preparation can be made at home. Mix a little rose water with an ounce of oil of almonds, and then add drop by drop a very little oil of tartar, shaking the mixture well before each addition. A little glycerine will add to its efficacy for some skins, but this can only be ascertained by experiment, as glycerine sometimes produces irritation and redness.

As a variation, which is always to be recommended, the following is excellent:—Three ounces of oil of sweet almonds is mixed with one ounce each of white wax and spermaciti. These latter ingredients must be melted first, and well stirred into the almond oil. While still hot enough, rose or orange water is stirred in to make the whole into a smooth cream. A few drops of a favourite scent may be preferred by some, while a trace of tincture of benzoin will act as a preservative. These creams are really excellent for face massage, but another may be recommended for the arms and shoulders as a greater quantity is needed. Put half a pound of the very best lard in a basin and wash it well in successive quantities of boiling water; repeat this process two or three times, and each time pour the water off. Then beat the lard into a cream with a fork, and add a little oil of sweet almonds and rose water if preferred. This cream may be scented with a touch of some favourite essence, such as lavender or bergamot. These three preparations will become very popular, if used constantly, by reason of their great emollient and eradicating powers.

COQUETTISH SMALL CURLS



The psyche knot is now placed midway the back of the head. With this mode the front hair may be worn in either of two ways. It may be brushed up well over a small roll or brought down over the forehead with coquettish small curls.

Eye-Water for Weak or Red Eyelids

Put an ounce of orris root, and an ounce of white copperas into three pints of running water — that is, spring or water which flows from a brook or rock. Let it stand for two or three days, shaking occasionally well together. Bathe the eyes with a linen rag dipped in the lotion three times a day. Keep it in bottles, out of the way of children; copperas is poisonous.

Probably a woman hates to lie just because she doesn't fancy the idea of joining the silent majority.

TO CURE A COLD IN ONE DAY
Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box.

The Famous Rayo Lamp

The best part of the day is the evening, when the whole family is gathered together around the lamp.

The old days of the smoky fireplace and flickering candle are gone forever. In their place have come the convenient oil stove and the indispensable Rayo Lamp.

There are to-day, in the United States alone, more than 3,000,000 of these Rayo lamps, giving their clear, white light to more than 3,000,000 homes.

Other lamps cost more, but you cannot get a better light than the low-priced Rayo gives. It has become so popular we may almost call it "the official lamp of the American family."

The Rayo is made of solid brass, with handsome nickel finish—an ornament anywhere.

Ask your dealer for a Rayo lamp; or write for descriptive circular to any agency of

The Queen City Oil Company, Limited

When a doctor assists at an operation, he is as particular to have it mentioned, as a woman who assists at a reception.

You enjoy a drink of cool water. But drink a great deal of it and you become uncomfortable. You can easily get too much of a good thing.

HAVE YOU EVER

After retiring for the night, thought of your forgotten fire insurance policy, which had expired that day, and had not been renewed?

How quickly you'd spring to the telephone, call up the agent, and make matters right till morning in fear that fire might wipe out your accumulations.

Yet how often have you retired to woo the sleep of the just, with **no life insurance** and it never crossed your mind seriously that ere morn the heart might stop beating, and with it, the whole earning power of both brain and hand, yet your property **may never burn**, but your heart will surely cease to beat some time. It's strange, is it not?

Then why not insure your life at once?

The Sun Life of Canada issues all the modern forms of life assurance at the lowest rates, consistent with ample security, and are giving settlements that should satisfy the most exacting.

Call or phone to the Sun Life Office, 159, Hunter Street.

DR. BARCLAY COMING FOR ANNIVERSARY

Montreal Divine to be Heard at Knox Church

Interesting services are being arranged for the congregation of Knox church, to be held on Sunday and Monday, December 10 and 11.

On these two dates the first anniversary of the new church will be observed and a well known clergyman in the person of Rev. Dr. Barclay, of St. Paul's church, Montreal, will be here to take part in the rejoicings of the occasion. He will occupy the pulpit Sunday morning and evening and in probability remain over for the entertainment on the following Monday night.

Rev. Dr. Barclay is one of the big men of the Canadian Church and Peterboro people will be pleased to learn that they will have an opportunity of hearing him at Knox Church.

Dr. Barclay is a graduate of Edinburgh University; he has been president of the Protestant Board of school commissioners; he was during the life of Queen Victoria, Royal Chaplain, and he was approached with the offer to take the principalship of Queens University. He is an enthusiastic curler and golfer.

The choir is rehearsing a special program of music for the day which promises to become of unusual interest.

THE LIBRARY BOARD MET

Women's Art Association Granted Use of Room

At the regular meeting of the Public Library Board last night, on motion of Mr. Hasen Ritchie and Mr. T. F. Matthews, a hearty vote of thanks was passed to the anonymous donor of the beautiful copy of Raphael's Madonna There were present Messrs. E. H. D Hall, chairman; T. F. Matthews, D. Walker, H. Ritchie, J. Corkery, A. Mowat and D. Spence.

A letter was read from Mrs. W. R. Morris, 1st Vice-President of the Women's Art Association of Canada, requesting the use of a room in the basement of the library for purposes of the association—and also the use of the assembly hall for an art exhibit, during November.

Moved by Mr. Matthews, seconded by Mr. Mowat,—That the request of the Women's Art Association for the use of a room for art purposes, be granted and that the room in the basement at the southwest corner be available for that purpose, for one year free of rent, and that the association be granted the use of the lecture room for exhibition purposes for one week this month, the association to pay for lighting, heating and services of janitor the sum of eight dollars.—Carried.—

A request from the Women's Art Association to have the picture moulding in the lecture room lowered was received and referred to the chairman of the Property Committee.

A letter was read from W. R. Nursey, Inspector of Public Libraries, advising that a certificate of standing as a librarian, in accordance with the result of the examination held at the close of the summer school for librarians, was forwarded to Mr. De la Fosse, and congratulating him on the result of his work.—Received.

A letter was read from Thos. Mulvey, under secretary of State, informing the Board that a copy of Stuart Reid's Life of Lord Durham had been awarded to the library. — Received.

The Librarian reported that he had in due course acknowledged the receipt of the work.

Mr Walker, chairman, read the report of the Library Committee, recommending a list of periodicals to be purchased for 1912, which, on motion of Mr. Walker, seconded by Mr Ritchie, was adopted.

In the absence of Mayor Morrow, chairman of the Finance Committee, Mr. Corkery read the report of the committee, recommending the payment of the following accounts:

Peterborough Hardware Co.	$ 7.90
Higgins' Hardware Co.	1.25
Otonabee Power Co.	13.0
Kingan Hardware Co.	.70
McClelland & Goodchild	32.32
Cassell & Co.	46.6
John Ellam	11.01
Albert Britnell Co.	59.65
Trebilcock Bros.	10.00
J. Matheson	2.50

Moved by Mr. Corkery, seconded by Mr. Mowat,—That the report as read be adopted.—Carried.

A letter from the Library Bureau quoting price for book truck was read and referred to Mr. Matthews, chairman of Property Committee.

A letter from the Librarian, giving a list of articles and furniture required for the library was read and referred to Mr. Matthews, chairman of the Property Committee.

L. O. L. Notic

The members of the City District Orange Lodge will meet in Lodge room, Simcoe street, Sunday evening Nov. 5th, at 6 o'clock, to attend service at St Andrew's church. Visiting brethren welcome. 3d

Mr. Frank J. Watson is appointed Assistant General Freight Agent, Montreal. Mr. G. T. Pettigrew, is appointed Division Freight Agent, Montreal. Mr. R. J. S. Weatherston is appointed Division Freight Agent, Stratford. Mr. James Waugh is appointed Commercial Agent, Omaha, Neb., vice Mr. Allan Wallace, resigned.

The above appointments are all effective, November 1st, 1911.

THE CORRECTION OF DEFECTIVE EYESIGHT

It is very important that you have implicit faith in the ability of the Specialist who fits you with Glasses, since there are several important features which must be left solely to his ability and honor.

You cannot possibly appreciate the quality of lenses furnished, and yet on this feature depends the degree of satisfaction to be obtained from the use of glasses. In our Optical work we frequently find people wearing inferior and imperfect lenses, for which they have paid a full price. We will not economize in this department of our business, for we always insist on furnishing the best material at prices that are reasonable

We believe you will be satisfied with the prices asked in our Optical Department, and know that you will be pleased with the results obtained.

BUSINESS SECTION AT BETHANY DESTROYED BY FIRE DURING NIGHT; DAMAGE $34000

Blaze Started From Unknown Source in Frame Harness Shop—Eight Buildings Including Town Hall Fell Prey to the Flames.

The fire fiend paid an unwelcome visit to the little town of Bethany last night and to-day King street, the main business section, is a mass of ruins, and the loss is estimated at something like $34,000.

THE SUFFERERS.

The premises burned are:—T. J. Jackson, butcher and grocer; L. B. Sisson, barber; A. Monk, harness shop; Chas. Reynolds, hardware, tinware, etc.; Miss Atkins, dwelling; D. T. G. Brereton, drug store and office, town hall

UNDER CONTROL AT 3.30.

The fire started at 11.30 in the frame one storey harness shop of A. Monk a cause at present unknown and quickly spread east and west. At 3.30 the fire was under control after having reached the grain office of Preston Bros., which was not damaged.

The loss is made up in $28,000 to buildings; $5,000 to stock and furnishings taken from the burning buildings and $1,000 to furniture removed to the street.

POOR FIRE EQUIPMENT.

The fire equipment of the town consisted of two hand pumps and a couple of short lengths of hose and this was totally inadequate to combat the blaze. Volunteers quickly gave their service, and the people worked heroically. Employes of the C.P.R. on construction work, gave all possible aid, utilizing a temporary water tank nearby and to which the water was fed by a hydraulic pump at the creek. This pump was kept in continuous operation and was a great help.

LOCAL AID ASKED FOR.

Mr. J. J. Preston, member for East Durham, telephoned to the city to Mayor Morrow, but his Worship being out of the city, another call was sent to Chief Howard for assistance.

The chief replied that he could take the steam engine and hose wagon if all expenses were guaranteed and asked that a wire be sent to that effect, while he in the meantime was communicating with Ald. Morgan, chairman of the Fire, Water and Light Committee.

The train despatchers and operators of the G.T.R. and C.P.R. were afraid of the situation and it was decided that the C.P.R would be the more advantageous route, but later it was found that unloading conditions at Bethany were not such as would warrant the proper handling of the local apparatus and it was not sent.

The chief, however, boarded a freight and arrived at Bethany at a time when the fire was practically under control.

MAN FELL FROM BUILDING.

One man was injured, when he fell from a two storey building. Prompt attention was given by Dr. Brereton, who found his injuries not serious. The man was unconscious for about one hour.

To-day the town has no telephone connections and this morning the winter supply of coal stored at the rear of King street, was still burning.

After all danger was passed Mr. Preston supplied refreshments to the volunteers, who did so good work. His own services during the progress of the fire were very much appreciated by the people of Bethany.

POLICE OFFICER'S HOME VISITED BY PROWLERS

Floyd McMaster Was Fined $5 for His Part in the Program.

Two men, named Floyd McMaster and Yorkton, were arrested last night at seven o'clock, on the charge of endeavoring to effect a burglarious entry into the residence of P. C. Meagher, at three o'clock Tuesday morning. They were arraigned before Magistrate Dumble, at police court this morning and McMaster testified that if he had been guilty of the offence it was done while he was under the influence of liquor and he was unaware of what he was doing.

Yorkton his accomplice, said that the former had come to him Tuesday night and asked him to go to Norwood with him that night, but the train being late, it did not leave Peterboro until four o'clock inthe morning. The two did not entrain, but McMaster, said Yorkton, was pretty well intoxicated and suggested going for a walk He himself was also a little tipsy. He remembered seeing McMaster trying to force a window of a house, and he himself stood on the sidewalk across the road. Frightened by a woman's voice, they made off.

It seems that McMaster inadvertently stumbled upon the residence of P.C. Meagher into which, in his drunken wanderings he tried to enter by first trying the windows and then the door. Mrs. Meagher who was alone in the house with the children was terribly frightened. Her husband was on night duty up town at the time and afterwards she had to run about a block to reach the nearest phone to communicate with the police station. Her nerves have been completely unstrung since the occurrence

His Worship gave McMaster a severe lecture and assessed him $5.00 which his father, who was present produced Yorkston was allowed to go free

PLANS FOR NEW CHURCH

Charlotte Street Trustee Board After New Plans

The present situation in regard to the building of a new church for the Charlotte street Methodist church people, shows no immediate plans ready for the erection of a new place of worship.

The question is in the hands of the Trustee Board, who have asked a Toronto architect to prepare new plans and specifications for a building, as those that he did draw up were not acceptable to the Board. As far as the location of the proposed new church is concerned, the site at the head of Simcoe street, known as the Aaron Cox property seems to be the one most favored just at present.

OBITUARY

Mrs. Jas B. Mc Ewen

After an illness of one month, Mary Rome, wife of Mr. James B. McEwen, passed away this morning at the family residence, 137 Benson avenue.

The late Mrs. McEwen was born in Scotland and had been a resident of Peterborough County for 27 years. She was a Presbyterian in religion and attended St. Paul's church. Surviving are her husband, three sons Messrs. Edward, of Smith; Roy, of Prince Albert, and W. Albert, of this city, and one daughter, Mrs. Fred W. Scott, of Smith One sister, Mrs. Shadden, resides in Elgin, Ill.

The funeral will take place Monday afternoon from the late residence to the Little Lake cemetery. Service at two o'clock. Rev. Robt. Pogue will officiate

FIRE AT TURNER'S

The Furnace Door Blown Open Through Gas Accumulation

At 10.22 this morning the fire department was called to J. J. Turner & Sons, a fire having commenced in the basement of the building as a result of sparks and coals having been thrown about the floor, through the door of the furnace being blown open, due to an accumulation of gas.

The trouble was remedied with but very little damage caused.

LADIES' AID CLEARED $100

Splendid Result of St. James' Thanksgiving Dinner

The Ladies' Aid of St. James' Methodist church met yesterday afternoon, and after transacting some routine business, reported through the treasurer that the proceeds of the Thanksgiving supper amounted to the handsome sum of $100. This was considered to be an exceptionally flattering report, and the ladies felt highly delighted over the success of the affair

RELIEVED OF LARGE SUM

Was the Story Told by Stranger Arrested To-day

By all appearances, hailing from the lumber camps, a middle aged man, giving his name as Arnold Lindsay, was arrested this afternoon about two o'clock, at the corner of Simcoe and George streets while enjoying the effects of a beautiful jag. The intoxicated one was pretty well advanced in helplessness, induced by the liquor he carried, and staggered along the street like an ocean derelict, until he finally dropped in a heap on the slushy pavement by Payne's drug store.

A blue-coat was notified of the inebriated one's whereabouts and he was picked up and practically carried to the police station.

The man appeared to be in a sort of stupor, but stated that when he came to the city last night he had $90 in to the city last night he had $90 in money but there was none discovered on his person when arrested. He said that it had been stolen from him, but apparently he had no remembrance of when or under what circumstances it disappeared.

WHO'S COMING AND GOING

Mrs Rev. G. W. Henderson is spending a couple of weeks in Sarnia the guest of her daughter.

Mr. Morley Lyle, of the Canadian Canoe Company, has returned from a business trip to the Pacific Coast.

HURCH LEAGUERS TO AMEND THE CONSTITUTION

nother Meeting is to be Held Wednesday Night

The meeting at the Y.M.C.A. last ight to reorganize the church hockey ague was adjourned until next Wedesday evening, when, if there be enugh representatives present, officers ill be elected. The discussion last ight was limited to the matter of hanging the constitution in such a ay that managers may sign any ayer who is of the denomination hich his team represents. For inance, the Presbyterian manager ould choose from Knox, St. Andrew's nd St. Paul's; the Anglicans from e three Anglican churches, etc. It as considered that there would be tter hockey if that were the case. The question of finances was also iscussed at length. There were sevral suggestions as to means of raisg the necessary money to pay for e accommodation, and the one hich met with most favor was that f having a concert about a month ence.

Four clubs were represented last ight in Knox, St. Andrew's, All ints and Mark street, and the Park reet Baptists have signified their tention of entering a team, as well George street Methodists. Even if l these clubs enter, there will still some players who will not get a hance to play, and an inderdenomintional series seems to be the way o overcome this. There could be four trong teams placed in the series, amely, Presbyterians, Anglicans, ethodists and Baptists. Representatives from all these denominations re asked to attend the meeting on Wednesday next at the Y.M.C.A.

HOCKEY

Executive Meeting to be Held To-morrow Night

There will be a meeting of the executive of the Peterborough hockey club at the Examiner office to-morrow night at eight o'clock.

NOT ENDED YET

In the action of Mrs. Hugh Darke, against the Canadian General Electric Company for $10,000 damages for the death of her husband, while the jury assessed the damages at $1800, Chief Justice Mulock, reserved judgment as to liability. The motion for nonsuit will be argued on Tuesday at Osgoode Hall. Hall, Hayes, and Hall, were for the company.

New Billiard Parlor

The place to meet your friends is at the new billiard parlor, which has been recently fitted up by Yeotes Bros. at 339 George street. The formal opening will take place to-morrow Saturday morning, and an orchestra playing all day and evening, and an attractive game of billiards may be had. English billiards, American billiards and pool have been arranged for there being twelve tables fitted up. The parlor will be under the management of Louis Yeotes and will no doubt be a popular rendezvous for the young men of the city.

Y.M.C.A. NOTES

The intermediate gymnasium class held one of the best sessions of the season last night. Teams were selected and a schedule drawn up for a basketball league. which will open next Tuesday evening.

The new pins and balls have arrived for the bowling alleys and everything is now in first-class shape for the bowlers.

The regular monthly meeting of the junior leaders' corps will be held to-night at 5.30.

The following games of basketball are scheduled in the junior Collegiate class for to-morrow morning: White Sox vs. Hungry Five, Giants vs. Athgetics.

The monthly meeting of the intermediate leaders' crops will be held on Monday evening at 6.30 p.m.

Junior boys' gymnasium class tomorrow morning at 9.40

Senior Collegiate class opens on Monday, Nov. 6th, at 4.15.

CONFIRMATION BY BISHOP REEVE

Bishop Reeve arrived in the city this morning from Campbellford. where he inducted Rev. Chas. Carpenter as rector of Christ Church, last night His Lorship left, again for Young's Point to administer the rite of confirmation to-night, and will next go to the Apsley Mission for confirmation Saturday Sunday and Monday.

Mr. Kennedy's Sales

At the Toronto market yesterday, Mr. H. P. Kennedy sold one load of common butcher's cattle, 860 lbs., at $4.30; one load of choice feeders, 1050 lbs., at $4.95; medium butchers, $4 to $4.60; five loads of good cattle, 1230 lbs., at $5.25 to $5.60; eleven loads on orders, beeves, at $5 to $5.40, stockers $3 to $3.75.

ST. JAMES' CHOIR HAD GOOD-TIME

Members Were Entertained at Home of Mrs. H. C. Winch

The choir of St. James' were splendidly entertained last evening at the residence of Mrs. H. C. Winch, Crescent street, and a very pleasant social time passed. Music and games, followed by a delicious luncheon, contributed to the measure of success which marked the whole affair and Mrs Winch exhibited most praiseworthy talents as an entertainer. She was assisted at the reception by Miss Poole, Mrs. Carveth and Miss Whitfield.

The choir was extremely grateful to Mrs. Winch for her kindness and hospitality in providing such a highly delightful evening for their entertainment.

BLACKLISTERS

McMaster to Face another charge in Police Court

Floyd McMaster, the man who tried to enter the house of P.C. Meagher, on Tuesday morning, is also a blacklister, and he has been summoned to appear at police court to-morrow morning at ten o'clock, on a charge of a violation of his pledge. License Inspector Stewart laid the information.

Another blacklister will appear on Wednesday morning on a similar charge The latter will also be charged with illtreating his better half by slapping her face and using naughty language to her. License inspector Stewart is also at the bottom of this charge.

$100 REWARD, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO.,
Toledo, Ohio.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

POWER QUESTION

Date to be Arranged by Hon. Frank Cochrane

Hon. Frank Cochrane, Minister of Railways and Canals, has answered Mr J. H. Burnham, M.P., to the effect that at the earliest opportunity he will arrange for a meeting of the City Council and Hydro-Electric Commission in regard to power matters. Mr. Burnham took this step at the request of the council.

SUPERINTENDENT FOR SEWER WORK

Board of Works Will Deal With Question To-night

Mr. E. Wade having taken charge of the work on the new wharf at Spaulding's Bay, the Board of Works will, at a meeting to-night, take up the matter of appointing a superintendent for sewer work in the south end and in connection with the pumping station.

The George street section was completed by Mr. Wade.

ONE ENGINE LEFT TRACK

Early Morning Mishap to G.T.R. Freight Train

About three o'clock this morning, a double-header going west in the vicinity of Lock street on the G.T.R. overtook another train, leaving the storage siding, also west bound. The leading engine of the first mentioned train left the track as did the van and two cars of the train it struck.

The damage was slight as both trains were travelling slowly.

The auxiliary was sent to the wreck and shortly after 11 a.m., the track was clear and everything running smoothly again.

Electric Restorer for Men

Phosphonol restores every nerve in the body to its proper tension; restores vim and vitality. Premature decay and all sexual weakness averted at once. Phosphonol will make you a new man. Price $3 a box, or two for $5. Mailed to any address. The Scobell Drug Co., St. Catharines, Ont.

GRAND JURY'S PRESENTMENT

Relief for Weakminded and Aged in Jail Suggested

The presentment of the grand jury of the Fall Assizes to His Lordship, Mr. Justice Mulock, speaks of a praiseworthy condition of affairs at the St. Vincent orphanage, Protestant Home, St. Joseph's Hospital, House of Providence, Children's Shelter, Nicholls Hospital, Margaret Cox Home, for girls, Normal School, Collegiate Institute, County House of Refuge, all of which were a credit to Peterboro.

The grand jury found everything in connection with the keeping of the county jail, to be clean, orderly and good, but deprecated the position of the weak minded, of which there were three out of the total number of thirteen prisoners; and also of the age, who were found to accept shelter in common with other inmates. It was suggested that a fire escape be erected, at the infirmary in connection with the St. Vincent Orphonage.

The grand jury reported a visit to the Margaret Cox Home for girls, it being the first one made to that Institution. Fifty girls ranging in age from four to sixteen were being cared for.

At the Normal School, the grand jury was personally conducted by the principal. The presentment says, "It seemed to be the principal's ambition that he should have at some early date, a students' residence in connection with this school."

CHIEF JUSTICE KIND TO GIRL

Secured Promise of Some Compensation for Accident

At the conclusion of the Hillier—Chicle Co., action, which was dimissed at the assizes, by Chief Justice Mulock. His Lordship called for Mr. O'Connor to be brought before him and made a statement to the following effect:—

"The plaintiff cannot recover in this action on account of the condition of the law. This poor orphan girl has suffered irreparable injury by reason of her right hand passing through the rolls in your factory. Here she is, on the verge of womanhood and is distigured and maimed for life. It is your duty Mr. O'Connor, to make a substantial compensation to her. Under the circumstances you owe it to yourself as a citizen of this place, and I am sure Mr. O'Connor, you wouldn't want anyone to think you hadn't done so and for the sake of the good name of the Company in this community, I think you should do this. It might have been your own daughter, so I want you to do what you would do if she were your own child. Indeed your own daughter might be the next one to suffer in such a way.

Mr. O'Connor replied, "yes my Lord, I have been kind to the girl since the accident. I have paid her hospital bill, and her wages up to the time of the commencement of this action, etc.

His Lordship replied, "That is nothing, you have done nothing that begins to touch on what I have in mind, I mean something far more substantial than anything of that kind. Now I hope Mr. O'Connor you will do what is right by this girl." This Mr. O'Connor promised to do in open court.

"Now, Mr O'Connell, as counsel for the defendants, I hope you will use your best influence and endeavors to obtain a substantial compensation for this unfortunate girl. I not only expect you to do what is right, but I expect you to do handsomely by her."

Then turning to the jury his Lordship stated that he in view of the fact that the plaintiff could not recover at law would be under the necessity of discharging the jury, but he believed Mr. O'Connor and his counsel, Mr. O'Connell, have here in open court made such promises as will afford the plaintiff some adequate compensation for the loss she has sustained through injury to her right hand.

A prominent New York gentleman who has made a sojourn in Canada at the Laurentian Club, Lac-la-Peche, P. Q., in a letter addressed to Grand Trunk headquarters says: "I have been over the new Transcontinental Line, as far as Parent five miles from the end of steel, and thoroughly enjoyed the opportunity of seeing this portion of your line. It is the same high standard of construction through a difficult country most of the time affording the expected comfort of travel even now. The whole territory is studded with fine lakes and rivers, and will surely open up like this at the Laurentian Club."

PILES CURED IN 6 TO 14 DAYS

Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Blind Bleeding or Protruding Piles in 6 to 14 days. 50c.

(Continued from page 1)

country like Canada, with an enormous area and scattered population, the problem of transportation is of prime and vital importance, and you may rest assured that the Liberal Conservative party will be always alive to the vital importance of that problem.

"The policy of the Liberal Conservative party as presented to the people in the recent contest is before you. Among some of its principal items are such encouragement of the great basic industry, agriculture, as will enable those who till the soil to receive the highest return for their product, to turn out their products in the highest form and at the same time preserve the fertility of the land.

"The regulation of our tariff on reasonable business principles is an important article of our policy that is to be carried out by the establishment of a permanent tariff commission, which will ascertain all necessary facts in connection with the conditions and cost of production, and which will advise as to the condition which ought to be drawn from the facts so ascertained We propose also to extend that reform of the civil service which we initiated while in opposition, and which the late administration carried out in part upon our initiative. So far as trade relations are concerned, we believe that the true idea of reciprocity can be found within the vast dominions of this Empire, with its wonderful variety of natural and other products, which can be exchanged, to the mutual advantage of all."

HOCKEYIST MAY DIE

Bruce Ridpath the Victim of Auto Accident—Is Unconscious

Special to the Review.

Toronto, Nov. 3.—Bruce Ridpath is still unconscious and his condition is extremely critical.

Toronto, Nov. 3.—Mr. D. Bruce Ridpath, a professional hockey player, living at 584 Yonge street, was seriously injured last night as a result of being run down by an automobile. At an early hour this morning he was still unconscious, suffering from an injury to the base of the skull and concussion of the brain, besides bruises about the face and arms. Notwithstanding the fact that his injuries are of a serious nature, some hope is held out for his recovery.

The accident occurred shortly before 8 o'clock on Yonge street, a short distance south of Alexander street. Ridpath had just alighted from a north bound Yonge street car, and stepped in front of an automobile driven by Mr. Colin A. Campbell, of Havelock street, going in a southerly direction.

Mr Campbell, who was driving the car, promptly applied the emergency brakes, but the auto had struck Ridpath before it was possible to bring it to a standstill. Ridpath was struck by the hood of the machine and he was thrown back towards the rails. He was rendered unconscious.

Ridpath is probably one of the best known athletes in Canada. Apart from his skill as a professional hockey player he has gained a great reputation as an expert exponent of the art of canoeing. As a result of his achievements in this particular line at the Dominion Day regatta in Toronto a few years ago he was engaged to give demonstrations of his skill in hippodromes in Europe and America.

David McHarg, parcel clerk, will be appointed G.T.R. stationmaster at London.

SEALED TENDERS, addressed to the undersigned and endorsed "Tender for heating the addition and alteration to the present heating system of Public Building at Peterborough, Ont.," will be received until 4.00 P.M., on Wednesday November 8, 1911, for the work mentioned.

Tenders will not be considered unless made upon, and in accordance with the conditions contained in forms supplied by Department.

Plans and specification to be seen on application to Mr. Wm. Blackwell, Esq., Architect, Peterborough, Ont., and at the Department of Public Works Ottawa.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, October 28, 1911.

The Least Fuel. The Most Satisfaction

Why Worry—When You Can Obtain a "Happy Thought"?

Baking day worries—slow oven, uncertain draft, smoking flues, uneven heat—all these are unknown in the kitchen where the

HAPPY THOUGHT

Range produces such results.

You can depend that time spent preparing tasty dishes has not been wasted and the many labor-saving conveniences it possesses will cut your work in half.

Take the Illuminated Oven Door for instance. Through it you can observe the progress of cooking without opening the oven door and cooling the oven and filling the kitchen with the odor of cooking.

Then there's the Patented Damper. With it you can keep the heat under perfect control, direct it to any part of the range you desire, and heat as many parts of it as you wish at the same time.

A Happy Thought Range means more results and less trouble.

Drop in the next time you are passing and see one.

More than a quarter of a million "Happy Thoughts" are in daily use in Canada.

CANADA'S WEST; ITS PROGRESS SINCE FRASER

By W. D. McBride.

LAW AND ORDER

(Copyright by Publishers Press, Ltd.)

The primary functions of government are the maintenance of law and order and the proper administration of justice. A supreme test of the civilization of a people is the degree in which success is achieved therein. It is the question of moment then what success Canada has attained in these essential respects more especially in the West. It is the distinguishing mark of Anglo Saxon civilization that law arose out of the lives of the people. An American writer, Mr. Price Collier, has shown that the Saxons, not wishing to be troubled overmuch with matters of government, left to their chief men the task of governing; always, however, reserving to themselves the right to control their governors. For their own good and convenience the people made and followed certain customs, which is the origin of much of our Common Law. This was self rule, self discipline. There was therefore behind law not only the Majesty of the Sovereign but also the approval and active support of the people. We in Canada inherited full and unimpaired these traditions of the race. When we came to open out the vast wastes of the West it was a matter of course that the Crown's authority extended to its remotest bounds. The ultimate authority behind all law is force, which may express itself in different ways. In a new, sparsely peopled land, without organization, the authority of the Crown must needs take the form of the officers of the Sovereign backed up by visible force. Thus the Royal North West Mounted Police came into being, and worthily have they represented both the majesty of the law of the land and the best traditions of His Majesty's service. It was never a military or police domination, for at the highest period there were only a few over a thousand men to keep order in a sub-continent. It was the force behind this force that counted in preventing disorder. It had not only to protect law abiding citizens, but also to control, and protect as well against white agression, many Indian nations. It should be clearly understood in Canada that its work will not be ended for many years to come, for we have still these Indians as wards of the nation, and a growing stream of immigrants who have not been self disciplined in the traditions which are our boast. Moreover the enemies of society everywhere respect force only, and further where lawlessness ever is allowed to assert its dire reign it is seldom extirpated wholly. The reason that the West is orderly and law abiding is the very simple one that always it has been so. Order begets order, and confusion confusion. How easily the whole course of the West might have been changed by neglecting steps which were taken in the seventies! We have seen what was taking place in what is now Southern Alberta. Sir William Butler in his book Through the Forests of the North, written in 1873, eased his anger by a few bitter sarcasms on how to civilize a new land as he saw it in process in the Western States. The biting conclusion was that when the point was reached that killing was no murder then civilization was attained. He also mentioned casually a city on the Red River where two murderers walked abroad in peace, and censured the disorder at the polls in Winnipeg. There is, however, scarcely a disparaging note about the red men and white he met in the forests of the Saskatchewan, Mackenzie and Fraser Rivers. But these white men were such as Mr. Roderick Macfarlane, the fur trader and naturalist, who among the tobacco gentlemen on the Mississippi river would doubtless have been regarded as an old fogey. The symptoms of disorder he noticed in Winnipeg were serious. Mr. Alexander Begg in his history in telling of the trial in 1871 of prisoners arraigned for taking part in the Fenian Raid sets it down as a fact that among the mob of "loyalists" in court was one man who carried a rope the contemplated good end of which was to hang the Attorney General, Mr. Clarke, if he failed in obtaining a committment of the prisoners. This gentleman, who was the first premier of Manitoba, was murderously assaulted in 1874 when on account of feeble health he was passing through St. Paul on his way to California. The assailants were a gang of Fenians led by Michael Hoy and Owen Keegan whom he had prosecuted in Winnipeg in 1873 for the attempt to kidnap "Lord" Gordon. Mr. Clarke never fully recovered from his terrible injuries. Manitoba was for years the scene of heated agitations, so much so that it was said of Winnipeg in the eighties that ten men and the bar keeper constituted public opinion. Cynicisms such as this convey and conceal some truth. However, confederation contemplated the equality of the provinces, and in many respects Ottawa followed the example of Downing Street when its name was a reproach in Canada. There could be only one result of such a course. An agitation which sprang up on the banks of the Saskatchewan among the Half breeds was more unfortunate in its outcome. Here a little judicious paternalism in government might have been applied with good results. It must be remembered that the Half Breed had escaped from the control of the Company which had never been complete. They were its freighters by water and by land, and while employed as such were under partial control. Their discontent was largely economic. They suffered with the Indians by the disappearance of the buffalo, and in addition were deprived largely of their means of livelihood as freighters by the advent of the railways. When therefore by the maladroitness and dilatoriness of the Government at Ottawa they were led to fear the loss of their farms also they were ripe to listen to evil councillors who were at hand. In the rebellion of 1885 which they stirred up, Poundmaker and Big Bear's Indians took part, but it is to be remembered that Big Bear had always refused to make a treaty with us. This is the only occasion on which Canada has been at war with Indians, and Big Bear is responsible for the only massacre in the annals of the West of whites by Indians. His warriors killed nine men at Frog Lake. Let it be remembered to the credit of Pritchard and Nolin, two half breeds, that they saved two white women from the massacre by the expedient of purchase. This rebellion was simply a small civil commotion carried to the extreme of armed resistance. It must be borne in mind clearly that the North West Territories had to fight constitutionally for all their rights of self government. As late as 1890 the Lieut.-Governor took up the identical position taken by the good old Tory Governors of Canada before 1840, namely that he alone and not the Legislature had control of the revenues voted from the Dominion.

Under the Company the Council of Assinaboia governed the land from 1835 to the time of cession to Canada. The Company established courts to administer justice, but the Recorder, Mr. Thom, earned much unpopularity as he was accused of favouring the interests of the Company. Governor Archibald established a Mounted Police force in 1871, and the first act of the legislature to which he gave assent, on the 3rd of May 1871, was one to establish the Supreme Court of Manitoba. In the spring of 1872 Manitoba was invaded by desperadoes from Minnesota and Dakota, just such a gang as has terrorised whole states of the Union; but the severity of the authorities was such in sentencing these convicted that they quickly decamped from a land where the personal liberty of outlaws was so little regarded. Part of their operations was the attempt to carry off "Lord" Gordon by force to the United States, and the press of St. Paul threatened to send an armed force to rescue the kidnappers who were being submitted to trial. The unfortunate Attorney General who did his duty to the Crown paid the penalty as we have seen when afterwards he rashly trusted himself to the protection of a supposed friendly nation. When the Police were sent into the Territories in 1873 the commissioned officers were given judicial powers which they may still exercise; and in 1874 the Dominion Government passed legislation respecting administration of justice. Provision was made for the appointment of Sheriffs, Justices of the Peace, and Stipendiary Magistrates, appeal being allowed to the Manitoba court of Queen's Bench. It is worthy of note that Riel was tried by a stipendiary magistrate, Mr. Justice Richardson, and Justice of the Peace, Mr. H. Lejeune, before a jury in Regina in 1885. Lieut.-Col. MacLeod and Mathew Ryan were the first stipendiary magistrates for the Territories. The Council of the North West Territories had charge of the administration of law after 1876, and as good men and true were scarce in the West a jury to try criminal cases was reduced from the cryptic number of twelve to six men. It was not until 49 Victoria Chapter 25 that the Habeas Corpus Act was extended to the Territories, and in 1887 they were divided into five judicial districts and judges were appointed constituting the Supreme Court of the Territories. Hon. Edward L. Wetmore who was then appointed is now Chief Justice of the Supreme Court of Saskatchewan. It is not necessary to go through the criminal statistics of the early years to prove the fact which is not denied that justice was well administered and good order kept. As late as 1887 consternation was caused in the remote settlements because two murders were committed and many deeds of theft, so much so that associations for protection were formed. In 1879 owing to the Indian scares militia corps were organized for self defence. The people who came to the West in the early days were law abiding men. What is more they were Christians who made sacrifices to set up their churches in the land. A sufficient commentary on the zeal of missionaries, is the names of four of these noble men, Lacombe, Machray, McDougall and Robertson. Schools were a first consideration, and the Battleford Herald in 1879 made the lack of funds for schools, roads and bridges a ground of complaint against the Canadian Government. Such men as these welcomed the work of the police in preserving the Queen's peace, and also acted with reasonable discretion and consideration toward the Red Men. To sum up, murders were few; cattle roamed in reasonable security even near starving Indians; theft was rare and even in 1911 homestead houses are seldom locked; every law abiding man enjoyed full freedom of thought, action and speech, and terrorism by "bad men" was never tolerated, while the revolver never was, and is not, permitted to be the final court of appeal in any matter in the West. Bad men learned that the law "got them" surely in the end. The Criminal Statistics of Canada for the year ending September 30th 1909 show 15,300 charges and 11,449 convictions in all Canada for indictable offences. This class includes everything from offences against the person to forgery etc. Of these 2,943 charges were laid and 2,256 convictions secured in Manitoba, Saskatchewan and Alberta. The percentage of criminality to population is given as 6.53 for Manitoba, 4.76 for Saskatchewan and for Alberta 8.85. Ontario's percentage is 36.71. The charges of murder in all Canada were 42, there being 18 convictions. The trials in Manitoba and Alberta were 3 each and 2 in Saskatchewan. Including all indictable offences the ratio for each 10,000 people is, in Ontario 19.89, Manitoba 17.46, Saskatchewan 21.91 and Alberta 25.34. In all Canada in that year the charges for murder, attempted murder and manslaughter were 106, or about 15 charges in each million people. The convictions show about eight for each million, placing the population at 7,000,000. General Homer Lea says that in 1906 there were in England eight murders to each million people, in Germany four and in the United States one hundred and eighteen. The annual number of soldiers slain during the Civil War, he asserts, was but slightly in excess of the annual number of persons murdered in the United States. On this basis the proportion of murders in the west for 1909 would be 120, instead of the actual number of 8. The Canadian record compares very favourably with that of the most advanced countries of the world, and the average in the West is not above that of the rest of Canada outside of Prince Edward Island.

The West therefore has been settled up so far not only with an entire absence of disorder but also with a positive good order and respect for law comparable to that of the oldest civilized lands. May it not be claimed with due modesty that this achievement is the West's and Canada's contribution to the civilization of the World. In itself it is a sufficient rejoinder to misguided men such as Champ Clark of the Congress of the United States. If Canada shall continue for fifty years more this process of disciplining her people in respect for law and at the same time shall realize and act upon her national responsibilities within the Empire she may begin to feel a full consciousness of her ability to maintain her standing in the world.

IT DOES ALL RIGHT

It takes a good politician to come out squarely upon the platform and win a good all round victory.

At times it looks very much as though the peers would be disappearing.

Striking longshoremen in England refuse to dock vessels and also object to the docking of wages.

ALL LIKE THE NIOBE.

The Niobe went on the rocks, but that's nothing. Most of us have been on the rocks before now and it was all we could do to get floated again. In fact many of us are still there.

TROUBLE CONTINUALLY

Morocco seems to be afflicted with trouble germs.

RATS ARE A MENACE

Are the Means of Tremendous Loss—Some of Their Peculiarities—The Roder Idea of Extermination.

By T. Clagston Harrison.

War has been declared on Mr. Rat. Public interest has been sufficiently aroused on account of the fact that rats are disease bearing animals. Last year no fewer than 42,773 rats were killed in London, England, while the number for the last ten years passes 649,000; giving a monthly average of between 3,000 and 4,000.

Sir James Crichton Browne, the well known British scientist, is no lover of rats. He credits the rodents with being wholesale depredators, with the agriculturist as the chief loser. As is well known rats are extremely fond of grain and experiments prove that each rat consumes grain or does other damage to the extent of one farthing per day. If there was one rat to every acre of land in Great Britain the agricultural loss due to rats would be £15,000,000 or $75,000,000 a year.

Canada Suffers Much From Rats.

The area under crop in Canada is estimated at 32,711,000 acres. Supposing Sir James Crichton Browne's estimate of one rat to every acre were taken, the loss to the Dominion through rats amounts to $5,969,757,500. This estimate only includes the land under cultivation, but if based on the total acreage of Canada the figures would assume alarming proportions. If rats were exterminated Great Britain might reduce the importation of grain by several millions, while the grain exports of Canada would be greatly increased. The annual amount of damage inflicted by rats in the United States, according to the reports of the Department of Agriculture for 1910, is estimated at $150,000,000. Mr. Charles F. Brey, the exterminator, whose knowledge of rodents is probably unsurpassed by any other man in the country, is authority for this statement.

Rats do more damage all over the world than all other injurious animals combined. They destroy grain newly planted and while growing. They invade markets, stores, and warehouses, and destroy the merchandise. They carry disease germs from house to house, bubonic plagues from city to city, and cause disastrous fires and flood houses by gnawing lead water pipes, as was the case at Hull, Que., recently when a leakage in the pipe lines was found to be due to the rodents. The pipes carrying the water supply from the mains were encased in wooden boxes to guard against frost and were in this way run into the cellars of the houses. The rats made their way into the boxes and attacked the pipes in search of water. Hull, Que., lost an enormous quantity of water last year through rats.

Among other things destroyed by rats are artificial ponds and embankments. They damage foundations, floors, doors and furnishings of dwellings, destroy eggs and young poultry, and eat the eggs and the young of both song and game birds.

Originally Came from China.

Rats are said to have come originally from Western China and to have been carried by ships to the New World. In Europe the brown rat was a comparative late comer, having invested Russia in large numbers during the eighteenth century by crossing the Volga. Prior to this migration the black rat was supposed to be the chief rodent of Europe, but the brown rat being of a more ferocious nature began exterminating its weaker cousin. There is considerable difference in the disposition of the brown and the black rat. Domesticated rats, white or colored, usually belong to the black species.

Eastern American seaports became infested with the brown rat about 1750, while it is said that about a century later it had found its way to the Pacific Coast. As has been stated, rats are exceptionally fond of grain. At one time sailors were always careful to carry a cat with them on the voyage. The reason for this is said to be that if the owners of a cargo could prove that the ship had put to sea without a cat on board, they could recover damage caused by rats, from the shipowners. In fact so great was the depredation by rats when the cargo was grain that shipowners provided food specially for the rodents.

How Rats Board Vessels.

There is an old saying that rats always leave a sinking ship. It was unknown how rats were able to board vessels moored a little way from the quay until they were seen running along the mooring ropes. And curiously enough it is by the same means that they leave the vessel when she reaches port.

Browning made the rodent the subject of his beautiful poem, "The Pied Piper of Hamelin." This poem has been appreciated by all lovers of literature. Rats are said to be musical and to have sports and pastimes all their own. It was the rat which first suggested to owners of animal shows the idea of the "Happy Family." The writer once saw this happy family which consisted of a fair sized rat, a ferret, a rabbit, a dog, a rooster, a hedgehog, and a monkey. It is needless to say that the exhibit was featured by the owners.

Seldom Found Asleep.

Rats have seldom if ever been found asleep, being always on the alert for danger. This constant dread from attack by other animals and mankind has in some measure made them intelligent. For the rat has some good qualities. It is known to be of an unselfish nature and when food is discovered will generally inform its friends. All are familiar with the story of the rats which managed to get an egg carried the whole length of a staircase by making one of their number clasp the egg to his body by his feet and lie on his back while the others dragged him along. Also of those rats which finding some oil in a bottle with a long and narrow neck, persuaded one of their number to let his tail down into the oil for them to lick on its being withdrawn from the bottle.

Means of Extermination.

Many means for the extermination of the rodents have been employed. Some methods have proved fairly successful but the rapidity with which rats multiply is a serious factor to be overcome. They have several litters annually, each containing ten to twelve young, which become capable of breeding at a very early age.

Poison is a common method for destroying rats, but it is not always advisable. Smearing a rat with tar and letting it run away has successfully cleared a house of the rodents. While singeing their hair, the smell being disagreeable to the other rats, and pouring turpentine over them are some of the other methods employed. Of course these methods are cruel and in many cases only cause the rats to migrate to other parts. The best and the surest means of exterminating the rodents is by means of a good ferret or terrier.

The Roder Idea of Extermination.

An Australian, named William Roder, has stated that if a condition could be brought about where there were more male rats than female, the whole race would be exterminated. He figures that at the present time there are a great many more female rats than male rats because of the fact that the males are more venturesome than the females and consequently more of them get caught and killed. This state has been going on for generations and is still in existence. What he proposes is a scheme to catch the rats alive, kill the females and liberate the males. When males greatly outnumber the females, he says, the males will destroy the young rats and in a short time the whole family will be exterminated.

[illegible] destroyed is that by their running about after visiting sewers and other places, they carry and scatter the germs of disease. The dissemination of the bubonic plague and other dread diseases is considered largely due to rats. Dr. Andre Chantemesse, professor of hygiene at the Paris Faculty of Medicine, states that the western regions of Mongolia and districts east of Lake Baikal are the home of a rodent called the tarbagan [illegible] readily to the attacks of the microbe [illegible] being just as sensitive to infection by the pulmonary type of plague as an ordinary rat to infection by the bubonic form. Although the role of the Mongolian rodent is new in the history of the epidemiology of plague, it is not entirely unknown to scientists. Professor Schottelius of Stuttgart, already has described several instances in which the tarbagan spreads germs of disease along the course of the Siberian rivers. It is a mistake to presume that the rat problem cannot be successfully handled. There are plenty of effective methods of extermination, but the necessary factor is proper legislation accompanied by a concerted action by property owners. If a law were passed that every owner of a rat infested building be compelled not only to have the rats exterminated but to remedy the defects in the building which caused the presence of the rats, it would go a long way towards clearing the cities of the rodents.

THROUGH TOM A. HAWKE'S TELESCOPE

CLEAR THE WAY FOR CANADA

Clear the way for Canada,
 Let nothing interfere,
The youngest nation in the world
Hurrah! We have it here.
Old world please pause a moment
Let youth make glad your eyes—
Gaze here on vigor, beauty, strength—
The Empire's peerless prize. *

Clear the way for Canada
 Now in her youth's glad day;
Old world rise and salute her,
 To her all homage pay **
Nothing on earth shall sever
 The bond that enshrines and holds
With loving pride, the Dominion wide
 'Neath the old flag's glorious folds.
***

---

* As one gifted orator remarked at a recent political gathering "We ain't got no peers in Canada!".

** Just as you like about it. We're not particular.

*** Make no mistake about it!

CANADIAN SUMMER

Canadian Summer—beat it who can?
It's equal you'll search far to find,
The Sun may be hot but you'll find
 a cool spot
If you'll only just make up your mind.
 Yes, Canada's Summers
 Are certainly hummers—
Her mountains, her woods and her
 streams—
They're splendid—they're dandy
They're all to the Candy
And they're not man's creations or
 dreams.

Of course they're are breezes
Which flit thro' the tresses
And you stand just a chance of being
 stung;
Mosquitoes may bite you—
Insurance men write you—
And sometimes an odd sinner gets
 hung
That's the worst that can hap you—
If a maiden doesn't trap you;
Oh you! If you're caught on the beach
To get hung is "suspense"
But its e'en more intense
If you lose your head over a peach.
Yes our Summer climate—
(Observe how I rhyme it)—
Is certainly all to the pie.
Its few drawback features
Are really good teachers
For creatures as looney as I.

NO, NOT A WORD

A newspaper article takes up a whole page telling of the great work being done by Canadian women, but neglects to say anything about the dear, patient, hard-working souls who darn our socks and put patches on our trousers when we need 'em.

Political meetings are always the greatest evil.

Morocco Bound—Certain warships just now under cover.

PERUVIAN BARK

The Peruvian troops have been threatening to cross the border in a dispute over about eight dollars worth of land. If they do they may meet with a Chili reception.

Some of the [illegible] in this country who have felt the Summer so long may look out soon for an early fall.

DELAYED SHIPMENTS ARRIVING

After long delay, caused by the dock strikes in Liverpool, England, a large part of the balance of our big Fall order of the newest seasonable goods has just arrived. Everything has at once been put into stock and marked down to Retiring Sale Price for immediate disposal. This adds very decidedly to the advantageous opportunity offered to Peterborough and community by the

GREAT RETIRING SALE

SOME OF THE NEW ARRIVALS

The first to inspect these latest goods will be almost certain to purchase. They were bought to bring the Robert Fair & Co., Limited, Fall and Winter stock up-to-date, and their value is abundantly evident.

EVENING WEAR MATERIALS FROM PARIS AND LONDON, TWEED SUITINGS, BLACK AND NAVY BROADCLOTHS AND SERGES, FANCY DRESS SILKS, ALL-OVER LACES, PLAUEN LACES, FLOUNCING EMBROIDERIES, BOYS' RIBBED STOCKINGS, LADIES' AND CHILDREN'S PLAIN AND RIBBED STOCKINGS. Keep in mind and make fullest use of the making up departments for Dressmaking and Millinery.

SOME, AS YET, LITTLE TOUCHED LINES

The rush has been greater in some sections than others, but a suggestion of lines that will appeal strongly when brought to mind might be timely. Don't overlook these—

LADIES' SUITS TO SELL AS LOW AS $7.00, LADIES' SHIRT WAISTS, LADIES' SILK AND NET DRESS WAISTS, LADIES' WHITEWEAR, HOUSE-FURNISHINGS, WILTON RUGS, AXMINSTER RUGS, BRUSSELS RUGS, TAPESTRY SQUARES, INGRAIN CARPETS, NEW PURE WOOL WHITE BLANKETS, DOWN COMFORTERS, &c.

MILLINERY Extra Special } *Velour and Beaver Shapes, the very newest designs. Also splendid values in Ostrich Feathers and Willows.*

This mammoth Sale means many hundreds of dollars left in the pockets of the prudent buyers who grasp the opportunity, and that much less for the store, but the big **$65,000** Stock must be hustled off our shelves as quickly as possible, so there is no hesitation when the knife is applied to the old prices. Hundreds have profited largely. Many more may do so if they wish to avail themselves of the chance while it lasts.

No Goods Exchanged or on Approval. | Same courtesy as before to Open Account Patrons.

ROBERT FAIR & COMPANY, Limited

HORTICULTURAL SOCIETY ADDS LADIES TO ITS DIRECTORATE

Society is in Flourishing Condition — Mrs. Hazen Ritchie is Second Vice-President.

Mr. Frank Wise, secretary of the Peterborough Horticultural Society presented the following report at the annual meeting of the society last evening in the City Council chamber.

RECEIPTS FOR PARK PURPOSES

Balance in Bank	$ 4.72
By County Council	200.00
By City Council	600.00
Total	$ 801.72

EXPENDITURES FOR PARKS

For Wages	321.99
For Rent for 2 Years	10.00
For Plants and Flowers	115.00
For bulbs	24.38
Repairs to Water System	16.08
For Concrete Walk	100.00
For Tools, Paint, Lighting, etc	39.00
Secretary's Salary	50.00
Balance in Bank	125.27
Total	$ 801.72

General improvements were intended to be made in Victoria Park this year but owing to difficulty in getting men to do the work, it has had to lay over until another year.

Those present at the meeting were P. Campbell, president; Messrs. S. Jordan, Harry Beale, T.A.S. Hay, John Riddell, Dr. Burnham and Frank Wise, secretary; and James English.

SOCIETY IS FLOURISHING

The president remarked at the commencement of the meeting that the society was in a flourishing and satisfactory condition. There was a surplus in the bank, and the money was intended partly to go towards putting a cement coping along the walks in all the parks, which would add much to their attractiveness.

The treasurer's statement for the year ending Oct. 31st, 1911, showed the total receipts to be $446.62; the expenditures to be $388.32, leaving a balance of $58.30 in the bank.

Mr. Hay, one of the auditors reported a slight discrepancy in favor of the society, which will be rectified to-morrow.

On motion, the reports presented were adopted.

MEMBERSHIP TO 224.

Mr. Wise verbally reported the progress that was made in getting new members. There are 224 members of the society now, and the members who have joined, are nearly all lovers of plants and flowers, and they have joined with the avowed purpose of beautifying the city.

GOOD EXAMPLE

One lady who was a member reported to the secretary how her example in cultivating the good appearance of her grounds, had caused others to make improvements to their lawns in her neighborhood, and Mr. Wise quoted the case as an example of the good work the society was doing.

Mr. Riddell made some suggestions regarding street competitions.

MR. WISE RESIGNS

A letter from Frank Wise, secretary of the society, was received tendering his resignation owing to lack of time to devote to the duties. It was accepted.

The election of officers occurred next.

Mr. Peter Campbell was again unanimously elected to the position of president, his previous good work on the society winning general approval from all the members present. Mr. T.A.S. Hay suggested that the example of other horticultural societies be adopted by electing ladies to the board, making a motion to that effect. He advocated the idea on the ground that the membership would be greatly booned. Five or six ladies on the Board, said Mr. Hay would cause others to wish to connect themselves with the society. He thought a lady as vice president would be a valuable acquisition to the Board and help the membership. Mr. Hay suggested the names of several prominent local ladies as suitable, and whom he considered would be good and active members.

Mr. Harry Beale was elected 1st Vice-President, and Mrs. Hazen Ritchie was nominated for 2nd Vice-President.

The other officers appointed were, Secretary—(left open.)

Mr. Wise's resignation will go into effect on Jan. 1st, 1912.

The directors appointed were—J.H. Burnham, M.P., J. R. Stratton, James Edgar, Walter Stocker, R. M. Glover, R. W. Dumble, Mrs. Walsh, Mrs. W. H. Hill, Mrs. Coulthard and Miss Shirley Dennison, John Riddell, James English, S. Jordan, H. B. Cowan, T.A. S. Hay, and G. C. Wainwright.

Auditors—H. L. Beale and T.A.S. Hay.

A GOOD SUGGESTION

Mr. Hay objected to the actions of people walking on the grass in Central Park, when the walk is in good condition. In wet weather, however, it was too low, causing water to form in pools upon it. He suggested having boulevards made on either side of the walk which would be carefully protected, one on either side of the park, properly graded and about twenty feet wide. Seats could be placed close to the walk, anchored to the ground to prevent them being dragged around.

Mr. Hay showed a sketch of the proposed alterations at the park, to the society, who voted it to a most praiseworthy suggestion and it is altogether likely that it will go into effect.

GENTLEMEN!

Are your Fall and Winter needs supplied? Winter is here. Our stock this season is so large that you are sure to find here just what you want in **Suits, Trousers, Hats, Caps, Underwear, Shirts, Neckwear, &c.** Nowhere in town will you find such assortments as here.

LOTS OF NEW GOODS
HAVE JUST BEEN RECEIVED FOR ALL DEPARTMENTS

An unusually successful season's business has necessitated a generous replenishing of practically all our stocks, and you are now offered bright and fresh new goods to choose from. We have put forth every effort, drawn on every resource at our command to get the best goods the market affords and sell them to you for less than others charge for equal values.

COME AND SEE
WHAT WE CAN DO FOR YOU

H. LeBrun & Co.
WHERE QUALITY IS KING.

INDUSTRIAL COUNCIL

Lindsay Decides to Try Industrial Commissioner Game

W. McComb Gets Job at $100 per Week

Lindsay Warder—At a meeting of the subscribers to the Industrial Commission Fund held in the council chamber last-night Mr. W. McComb, the man who was instrumental in retaining the Sylvester business in Lindsay, which was taken over by Mr. Tudhope and which at the present time employs some forty-five hands, was appointed to the responsible position of industrial commissioner of Lindsay at a salary of $100 per week, he to pay his own expenses. In a large measure the securing of Seymour power in Lindsay is due also to Mr. McComb's systematic work and energy.

An industrial council of five gentlemen was also appointed comprising Messrs. J. D. Flavelle, chairman, Newton Smale, John Carew, Jas. Boxall and J. O'Reilly.

Mr McComb expressed his appreciation on being appointed to the responsible position and believed that he could do good work for the town. He would like to see Lindsay a city of 10,000 in 1915.

Intending Passengers for the Old Country, to spend Christmas at home, should book their passages quickly, as many of the Christmas sailings are already filled up, especially in the third class. Berths reserved all lines. See W. McIlroy, Agent C.P.R., 343 George St. 3d

After one reaches forty, he must arrange his affairs so that half of his time can be spared those of twenty, to tell of their future plans.

BANK OF OTTAWA WON CASE; ACTION FOR DAMAGES LOST

Fall Assizes of High Court Are Concluded — Bank Given Judgment in Full.

After occupying just two and a half days the regular fall assizes were concluded last evening about five thirty, by the quick disposal of the two remaining civil cases. The suit of the Bank of Ottawa to recover $1,282.62 on a promissory note from T. W. and Charlotte McDonough, resulted in judgement for the plaintiffs without costs. The action was started by the plaintiffs to recover the sum mentioned from the defendants, it being the balance of a joint and several promissory notes payable on demand to the bank. The plaintiffs were doing business on George street for several years and were said to have given a note for $2,500 to the bank. The bank claimed that only $1046.50 had ever been received by them and took action to recover the balance.

ACTION DISMISSED.

The other civil action namely, the one entered by Grace Hillier, claiming $4,500 damages from the Canadian Chicle company for the loss of a finger, was dismissed by his Lordship, without costs. Chief Justice Mulock in summing up the evidence stated that the matter rested chiefly upon the fact that the girl had not been directly asked by the employers to undertake the work at which she was engaged when the accident and injury to her hand was sustained. If the case had gone to the jury it would have been for them to say whether or not Mr. Harvard, the employe, who was on the same floor where the accident occurred, and who had requested the girl to do the work, had any actual authority to issue the order. Messrs. Bennet and Goodwill wove a very good chain of evidence for the girl, which, however, was not complete enough to satisfy his Lordship. O'Connell and Gordon acted for the defendant company.

His Lordship remarked that it appeared that the girl had been employed at the factory for one specific object, namely, to pack gum and label the boxes. In order to justify her presence at the machine on the day she met with the injury to her hand, resulting in the loss of a finger and the permanent injury to the other fingers, it was necessary for the plaintiff's solicitors to show that Mr. Harvard had authority to place her at the work, and which they had failed to prove.

Drs. Greer and Young, who had attended to the girl's injured hand, were both called to the stand to explain the extent and nature of the injury. Both testified to the severity of the injury, the former stating that it would certainly injure her capacity for manual labor as far as that hand was concerned. It would also handicap her in writing as two of the remaining fingers had contracted and could not be bent over to touch the palm of the hand. When asked by Mr. Bennet if the injury would have any after effects, Dr. Young said that the two contracted fingers not being used would in years to come, hinder the development of the muscles of the arm and the rest of his evidence practically agreed in the main with Dr. Greer.

In dismissing the action Justice Mulock addressed Mr. Frank O'Connor, the superintendent of the Canadian Chicle company, in reference to the plaintiff. As she had met with the accident while in his employ he strongly advised him for the sake of kindness alone and in consideration of the child's unfortunate circumstances, to do the generous thing for the girl, in compensating her in some degree. This Mr. O'Connor expressed his willingness and intention to comply with, as did also Mr. O'Connell.

"Do the generous thing," advised his Lordship, "remembering the feelings you would have had it been an accident similar, that happened to one of your family. It will be doing a good thing and a good thing you will never have cause to regret. A person never does have cause to regret doing a good deed," his Lordship concluded.

MADOC TO TRY FOR LOCAL OPTION

Petition to be Presented to the Council

Madoc, Nov. 3.—A petition to have a local option by-law submitted to the ratepayers of Madoc has been given to the village clerk, and will be presented at the next meeting of the Council. Madocers are thus assured of something else to think of than Christmas shopping for the next month or so.

Madoc's first attempt to pass local option three years ago, was defeated by a very small majority.

POPULATION OF LINDSAY DECREASED

Young Lad is Being Sought by His Parents

Anxious parents are looking for their boy who left Lindsay on Tuesday night, supposed to be in company with another young fellow two years his senior. He is the son of Mr. James Nicholl, of the east ward, and has always been a good young chap. The supposition is that he left for Peterboro, but Chief Thompson has been communicated with and reports no trace of him.

The youth had no money unless he drew on the cashier at the egg house plant, where he had been engaged plucking fowl for some days. A diligent search has been made along the river and secluded places, but to no avail.—Lindsay Warder.

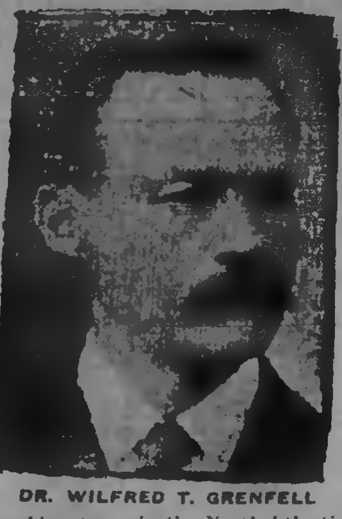
REMEMBER THE BIG PECK RALLY TO-NIGHT IN THE CENTRAL COMMITTEE ROOMS ON GEORGE STREET--OPENING OF CAMPAIGN

ITALIANS MASSACRED WOMEN AND CHILDREN BY HUNDREDS



DR. WILFRED T. GRENFELL

The big storm in the North Atlantic wrecked Dr. Grenfell's fine hospital yacht, the Andrew McCosh, and much sympathy is felt for him in his big loss.

Thousands of Unoffending People Ruthlessly Murdered---No Prisoners Taken---All Died by Brutal Bullet---Powers Take Action to Bring Italy to Time.

SPECIAL TO THE REVIEW.

London, Nov. 4.—Stories of Italian assassinations in Tripoli are too terrible to repeat. Thousands of men, women and children were shot to death. In an oasis outside of Tripoli, a vast stench arises from hundreds of corpses. No prisoners were taken. No quarter was given to the enemy, and unoffending inhabitants were massacred indiscriminately.

POWERS ARE MOVING

London, Nov. 4.—It is known that England, Germany, Austria and other nations are moving to secretly notify Italy that the conduct of her troops is unintelligible to the civilized world—that the horrible atrocities on women and children at Tripoli are almost unbelievable, and must instantly be stopped and offenders punished.

WHAT BRITISH OFFICER SAYS

London, Nov. 4.—The agitation against alleged atrocities by Italians in Tripoli, which has sprung up in the British press and was taken up by a few members of the House of Commons, since uncensored reports arrived here from English newspaper correspondents concerning recent occurrences in Tripoli, received fresh impetus last night through a telegram to a news agency from Herbert Montagu, a second lieutenant of the Fifth Fusiliers. Lieut. Montagu telegraphed from Soukelyohma by way of Dehibat, on the frontier of Tunis, as follows:

"I feel it my duty to send you the following telegram, and I beg you in the name of Christianity to publish it throughout England. I am an English officer now voluntarily serving in the Turkish army here.

"As you know already about the ferocious resistance which the Turks and Arabs are offering the Italians. I will only express my admiration for their bravery and fortitude, which would warm the heart of any Englishman or of any true soldier in the world.

"Imagine my feelings when on entering and driving the Italians out of Arab houses which they had fortified and were holding, we discovered the bodies of some 120 women and children with their hands and feet bound, mutilated, pierced and torn. Later on at (the name of the town was lost in transmission) we found a Mosque filled with bodies of women and children, mutilated almost beyond recognition. I could not count them, but there must have been three or four hundred.

"In this European war are such crimes to be committed? Cannot England do something to stop such horrors? In our civilisation and times you can hardly believe it, but it is true, nevertheless. I myself have seen it, so I know."

CAT FARM HIS IDEA

Would Get Rich Skinning Them—Great Scheme.

Chicago, Nov. 4.—"Get rich quick" schemes of J. Rufus Wallingford, facile financier of the tried and true roads to wealth by thrift and industry which have met with more or less success when pursued by John D. Rockefeller, J. P. Morgan and others, are as the blundering activities of children compared with a plan submitted to Postmaster Campbell yesterday.

The plan is nothing more or less than to feed rats to cats, skin the cats and feed the cats back to the rats, in endless succession, the only break being the deduction of the cat skins, the sale of which is to supply the profits. The writer, outlining his plan said: "We will start a cat ranch, getting 1,000,000 cats. Each will have twelve kittens a year. Cat skins are worth 10 cents for white ones and 75 cents for black. They will average 30 cents each. There is 12,000,000 cat skins a year, a daily gross income of some $10,000.

"A man can skin fifty cats for $2, and it will take 100 men to operate the ranch, leaving our profit over $9,000 a day. We will have to feed the cats. How?

"Start a rat ranch next door. Rats multiply four times as fast as cats. We will have, therefore, four rats a day for each cat, a plenty. How to feed the rats?

"Simple, feed them on the cat bodies—a fourth of a cat per rat—amply sufficient. Thus, you see the business will be self-supporting and automatic all the way. The cats will eat the rats, and the rats will eat the cats and we get the skins and wealth. Are you with me?"

PROBABILITIES

Moderate to fresh southwest winds fair and milder. Sunday, southwest winds, mostly fair, showers toward night.

SHANGHAI JOINS THE REBELS, BIG SUCCESS FOR REVOLUTION

Big Coast City Entirely in the Hands of the Revolutionists—No Disorder Apparent Under the New Regime.

Shanghai, Nov. 4.—Except for the foreign concessions Shanghai to-day is entirely in the hands of the revolutionists, who captured the city late yesterday afternoon. There was practically no resistance, only a few shots being fired. All the Chinese soldiers have joined the rebels, and the police and firemen apparently are sympathizing with them for they are wearing white badges on their arms.

After taking over the arsenal the rebels burned the Taotai's yamen in the native city.

The Associated Press correspondent yesterday afternoon covered the entire outlying section of Shanghai, but did not discover a single instance of disorder. Even in the native city where the Taotai's yamen, was burned to the ground, complete order prevailed. Every courtesy is being shown foreigners.

The soldiers, police and firemen are continuing on duty. The shops are closed. The natives are evincing almost childish delight over the fact that the new Government has taken over the affairs of the city. Their pleasure, however, is not of a demonstrative nature.

While the action of the rebels was expected the movement was made quickly. About 4 o'clock yesterday afternoon a slight disturbance occurred in the northern section of the city, and shortly afterward throughout the native city notices were posted announcing that "the military government of China" had taken over Shanghai. It warned the populace against disorder.

Quickly following the demands for the surrender of the arsenal came an attempt to cut the wires of the Nanking-Shanghai Railway, which was frustrated personally by A. W. U. Pope, general manager of the company. Mr. Pope found an armed revolutionary inside the station, and disarmed him. Then he telephoned the British consul that the railway property was threatened, and the British volunteers of Shanghai were called out and mounted guard over the station and outlying properties. This action has caused much comment, because this section of the railway is entirely outside the connection.

The apparent breach of neutrality is defended because the British bondholders claim a prior right in the railway property. The revolutionaries say they were prepared to maintain order, and while they intended to seize the railway they did not intend to destroy it. Therefore the British consul's action in calling out the British volunteers is regarded by the revolutionists as the first breach of neutrality, and its effect may be far-reaching. Throughout the night 70 armed Britishers stood guard over the railway property, while on the other side of the road an equal number of uniformed Chinese police, wearing the white badge, were drawn up and claiming the right on behalf of the Chinese revolutionary government to maintain order. It is said that the British guard is only a temporary one, and that the volunteers will soon be withdrawn into the concession.

During the night there was desultory firing in the city, and two or

DOMINION GOVERNMENT TO TAKE UP AEROPLANE TESTS

Interesting Experiments are Likely to be Made in Canada—Good War Material.

Montreal, Nov. 4.—"The Canadian Government will in all probability take up experiments with aeroplanes as an aid in warfare during the coming year," said Lt.-Col. Maunsel, in command of all the engineering departments of the Canadian militia, who is at the Queen's Hotel. "Petewawa will hardly be suited for the experiments, as it is undulating, and, in parts, stumpy. I know of no location so good as that of the level country between Montreal and Ste. Anne's."

Lt.-Col. Maunsel and Col. Fiset have just returned from Atlantic City, where they represented the Government at the attempt made on Oct. 29 to start the trip of the Vaniman dirigible across the Atlantic, a little excursion which Walter Wellman's chief engineer on the America hopes to complete in four days.

The Canadian military men were compelled to return here without witnessing the flight, as the weather was unsuitable.

"It would not be good business for Canada to be spending largely for experiments in air navigation, when it can have the benefit of such expenditures as that of Frank A. Leiterling, who is Vaniman's backer, and has put $250,000 into the America's successor," said Lt.-Col. Maunsel.

"We will start with aeroplanes, which can be had at short notice for $5,000. Men can be trained to run an aeroplane in two months."

England Must Keep Out.

Berlin, Nov. 4.—In making public last night a complete summary of the treaty concerning Morocco arranged by Foreign Secretary Herr Von Kiderlin-Waechter, and the French Ambassador, M. Cambon, the Foreign Office issued the following statement:

"The German Government believes that both parties can be in accord over the contents of the new treaty. It will have a calming effect not only upon conditions between Germany and France, but also upon the general political situation.

Germany stands at the conclusion of this treaty in the same position as to French undertakings in Morocco as does England. It is especially emphasized that England has not interfered in the negotiations."

MISSIONS ARE FIRED

Fifty Blind Boys Believed to Have Met Death

Special to the Review.

Shanghai, Nov. 4.—Information from Hankow states that the Wesleyan Mission quarters, a British institution, is on fire. A hospital is also burning, and the rebels are blamed for both. One of the buildings was known as the David Hall Mission and contained fifty blind boys, all of whom are believed to have perished.

MURDER CHARGE

Will be Laid Against Mrs Vermilyea, of Chicago.

Arsenic Poisoning Traces Found in One Case.

Chicago, Nov. 4.—Mrs. Louise Vermilya yesterday was formally charged with the murder of Policeman Arthur Bissonnette by poisoning him with arsenic, following the report of toxicologists, who had examined the viscera of the dead roomer at the widow's home. Coroner Hoffman announced that he will have exhumed the bodies of at least two of the other eight persons who had died in her home in the past eighteen years. Prof. Walter L. Hains, Dr. Ralph W. Webster and Dr. E. R. Lecount, reported to the coroner that they found more than enough arsenic in the liver and other organs of Bissonnette to have caused his death.

Chief of Police McWeeny, who, with States Attorney J. E. W. Wayman and several police officers had listened to the toxicologist's reports to the coroner, immediately swore out a warrant for the woman, who had been under close police surveillance. She had been ill with pneumonia and her condition was such that Captain Harding, the police officer in charge of the investigation, agreed to await service of the warrant until to-day, but added several men to the guard watching the suspected woman.

Coroner Hoffman likewise became active and procured permits from relatives or former acquaintances of the widow, whose deaths now have come under suspicion, to exhume the bodies for toxicological examination.

Dozens of detectives will search for further light on the eight deaths, which preceded the demise of Bissonette, while the decedents were living at Mrs Vermilya's home.

Just what bodies would be exhumed Coroner Hoffman declined to say. It was intimated, however, one of them would be that of Conductor Richard T. Smith, who, boasting of his having lived as the husband of the widow—not married to her—was taken suddenly ill and died under circumstances that since have aroused official curiosity. It developed he had obtained life insurance a short time before, of which she was to be the beneficiary.

Mrs. Vermilya collapsed when informed that the experts had found poison in the viscera of Bissonnette, but she showed no concern after recovering, and declined to make any statement. The increased guard, however, was instructed not to allow her to pass a moment not under a watchful eye, lest in despondency she attempt to injure herself.

PRIEST HAD A NARROW ESCAPE

Kingston, Nov. 4.—Rev. Father McWilliams had a narrow escape when he fell through a trap door at the archbishop's palace. He escaped with a few bruises and a severe shaking up. Plumbers had carelessly left the trap door open.

Mrs. Bina McClymont, Ottawa, a former Kingstonian, died while on a visit here, aged 61 years. Gilbert McClymont of The Ottawa Journal staff is a son.

Rev. Thomas W. Neal was elected chairman of the Kingston Methodist district, to fill the vacancy caused by the death of Rev. J. Tallman Pitcher of Gananoque.

A charity organization society was formed among charity workers in the city. The City Council will be asked to give support.

German Spy Sent to Prison.

Exeter, Eng., Nov. 4.—Lieut. Philip M. Schults of the 13th Hussars, stationed at Frankfort-on-the-Main, Germany, was convicted at the Devonshire Assizes yesterday on the charge of spying. The German officer was sentenced by the Lord Chief Justice, Lord Alverstone, to twenty months' imprisonment.

Lieut. Schults was arrested at Plymouth on Aug. 19 last. It was alleged by the prosecution that he was especially commissioned by the German authorities to obtain precise information as to how far the British Government was supporting France in the dispute over Morocco.

Attorney-General Isaacs in prosecuting the case contended that there cold be no doubt that Schultz was in the pay of the German Government.

TAIT WON HALF MILE

Canadian Team Took Relay Race From Buffalo Runners

Special to the Review.

Buffalo, Nov. 4.—In a three-quarter mile relay race last night between All Buffalo and All Canadian teams, the Canadians won in 2 min. 31 sec. Driscoll took the mile event in 4m. 28 2-3 sec., and Tait of Toronto, captured the 880 yards go in 1.59 1-5.

C. S. Dowser's lumber yard and the Jamieson meat market at Englehart were burned out, loss $80,000.

BENGHASI BOMBARDED BY ITALIAN FLEET; REPORT HEAVY LOSSES

OUTSIDE THE WALLS OF BENGHASI

The Italian fleet under Admiral Aubry bombarded Benghasi on October 10. The Turks had refused to surrender and with the aid of Arabs made a stubborn resistance. According to a despatch direct from Benghasi, which came through on the following day, the estimated casualties among the inhabitants were placed at four thousand.

CONSERVATIVE RALLY

Attend the Rally to-night at Mr. Peck's committee rooms, George street.

The Compensation to Workmen Act, School matters and other important questions will be dealt with by the speakers.

FRANCE SCORES A TRIUMPH IN MOROCCO OVER GERMANY

Bitterness in Germany and Trouble Probable in the Reichstag—Resignation of German Secretary of State.

Berlin, Nov. 4.—Simultaneous with the news of the conclusion of the Morocco controversy comes the announcement that Emperor William has accepted the resignation of Dr. Von Linderquist, Secretary of State for the Colonies. This resignation is a significant symptom of the unpopularity of the bargain within as well as outside the Government, and the debate in the Reichstag next Wednesday promises to be as severe an ordeal for Chancellor Von Bethmann-Hollwegg as that in November, 1908, was for Chancellor Von Buelow.

The definition of France's predominant position in Morocco occupies three of the fourteen articles of the treaty. The next nine contain a long series of guarantees and precautions to secure citizens of all countries equal commercial and economic opportunities in the country under French domination and close up all imaginable openings for favoritism. France obligated itself to see that the various directors of the Moroccan National Bank, which is an international institution, represent the bank on the permanent customs commission, changing yearly, so that other powers may get an insight into Moroccan customs affairs. The directors of the bank will interchange similarly in the holding of membership on the board of public contracts.

France undertakes to have the Moroccan Government permit foreign owners of mining and farming lands and of manufacturing establishments, without respect to their nationality, to build railways connecting their concerns with state roads or seaports.

A yearly report of the state railways must be issued after examination by the censors of the National Bank, who also will have the right to demand additional information from the managers. Troubles between foreign citizens are to be adjudicated by a board of arbitration consisting of the consuls of the countries involved. When they are unable to agree they shall appeal to the French consul, who will co-operate with them in naming a board of arbitration. This process will also apply to grievances against the Government and the French.

The Congo changes are more limited than were first expected. Germany will get only from four to seven miles of the Congo River, sufficient to establish a steamer trading station, and cedes a small triangle between the Logone and Shari Rivers, south of Lake Tchad. Togoland is not mentioned in the treaty.

Sacrifice Hats For Men.

Ithaca, N.Y., Nov. 4.—To deprive some of the men of the church of the excuse that they do not attend divine services because they cannot see the minister because of the size of women's hats, 150 women members of the First Methodist Episcopal Church of this city have agreed to remove their hats in church.

ADVERTISE IN THE REVIEW.

CONFERENCE AT HANKOW

Between the Rebel General and Premier Yuan

Special to the Review.

Shanghai, Nov. 4.—Premier Yuan and General Li are believed to be in conference at Hankow to-day, the General having agreed to an armistice for the meeting with the premier.

"Get-Hitched-Quick" Chester.

New York, Nov. 4.—"Get-Hitched-Quick" Chester is what all his friends are now calling George Randolph Chester, the creator of "Get-Rich-Quick" Wallingford. Although the interlocutory decree obtained by his first wife on Oct. 11 was not to take effect until three months, the author on Ot. 12 in Paris, wedded Lillian Deremo, who was named as co-respondent in the divorce case. Chester did not realize that he had committed bigamy until his arrival in New York Thursday with his new bride, and he was met by the ship reporters, who informed him he had committed bigamy. After a consultation with his attorney he decided to land in New York, and later, learning that his first wife did not intend to take any action against him, he became somewhat reassured.

Mrs. Chester, No. 2, a little woman with drooping eyes, was recognized by several persons on the Hoboken pier as a former friend of the first Mrs. Chester, who lived with the Chesters in this city for some time before Mrs. Chester's suspicions were aroused and her suit decided upon.

Newsies Mobbed Cigar Dealer.

Denver, Nov. 4.—Because an enterprising Denver cigar dealer conceived the idea of giving the choice of any local newspaper with every 10 cent purchase, a small riot occurred. Newsboys, with whom the scheme interfered smeared the windows of his shop with paste.

RIDPATH NO BETTER

Victim of Auto Accident Has Not Gained Consciousness

Special to the Review.

Toronto, Nov. 4.—Bruce Ridpath, the hockey player, is still in an unconscious and critical condition, owing to the brain being lacerated. The attending physicians are afraid to administer anesthetics.

Catarrhal Bad Breath

Corrected Quickly by the Use of

Catarrhozone

Catarrh is an inflammation. Where there is inflammation there is always more or less offensive secretion. Inflammation may be of the very active sort, but it is often of the slow kind, and this is the particular form in which the breath is rendered offensive and the presence of the sufferer becomes an offence to every person of delicate sensibility.

Bad breath is in itself sufficient to urge you to correct it, because one dislikes to be unpleasant to their friends, but this form of catarrh is dangerous because it supplies a hotbed for the development of Consumption or of other diseases of the throat and lungs.

Bad breath is an evidence that the microbes have found a good resting place and are carrying on their evil inroads into the health of the body.

Catarrhozone acts at once and destroys these minute organisms, but it does more—it heals the inflamed surfaces in which they found a nesting place and consequently removes both cause and effects of their action.

If we only highly estimated the value of prevention and used Catarrhozone at the beginning of a cold or just before it becomes well seated, the deadly ravages of Consumption would be stayed and the terrible agonies of sufferers of Asthma or Bronchitis completely abolished.

There is no remedy as effective for bad breath, Catarrh, Bronchitis, Asthma, etc., as Catarrhozone. Besides being healing and soothing it is germ destroying. Nothing ever offered to the public can compare with it in its promptness, efficiency, and permanency of action, and you can buy it from any dealer in medicine throughout the Dominion of Canada, 25c, 50c, and $1.00 sizes. By mail from The Catarrhozone Co., Buffalo, N.Y., and Kingston, Ont.

The Daily Review

SATURDAY, NOV. 4, 1911.

WORKMEN'S COMPENSATION

Mr. Hall is now advocating a radical remodelling of the Workman's compensation act, so that the soulless employers may be compelled to pay a workman or his family for any injury he may sustain in his work, whether he is directly responsible for the injury himself or not. For instance, in a case like that, if a man were desperately hard up, he might consent to shove a finger under a buzz saw or hammer, knowing that, in any event, he would get full damages. Of course, as a lawyer, Mr Hall knows better. The Workmen's compensation act should protect the workmen, and it should prevent continuous appeals by the rich corporations. But the question as to whether an employee's own negligence, sometimes rash and deliberate, should be considered by the courts in adjusting such matters, is not one that can be so easily disposed of. Mr. Hall knows this, but of course his solicitude for the workingman (with a vote) is especially keen for the time being.

When Sir William Meredith's report on the workmen's compensation act, and its working, is made, it will be found that the Whitney government will make every possible provision for the protection of the workingman, consistent with the fair judgment and deliberation that must characterise the action of a government.

If Mr. Hall had shown any solicitude for the workingmen in some half dozen local matters in which he has been concerned, his anxiety now to deprive himself as a lawyer of a lot of corporation work, would come with better grace.

MR. WHITE

The announcement made by Hon. W. T. White at Lansdowne, regarding himself, his financial affiliations and his intended course of action, is very significant, and very pleasing. It justifies those who had entire faith in Mr. White, in his determination to work for the good of the country, as a business man first and a politician afterwards. No better attitude could have been adopted by Mr. White than is indicated by his remarks in his first announcement to the country as finance minister, and these remarks will serve to clear up many misapprehensions and prejudices that have been entertained in quarters where Mr. White was not known or understood, and where it was thought that because he had been connected with some big financial institutions, he must necessarily be a creature of the corporations as finance minister.

Mr. White made this significant statement:

> "I have been a financial man, but in view of my having accepted the position of finance minister I have discontinued my entire financial connection and I desire to say to you that I am as free to serve you as any man in Canada, unfettered and untrammeled by any interest of any kind whatsoever."

The statement of the finance minister that he was strongly in favor of public ownership wherever practicable, and in favor of adequate expenditure, as long as value was received, dollar for dollar, in the expenditure, will be received with great satisfaction. Mr. White's statement was a frank one. It was directly satisfying, in clearing up the mists of suspicion that arose through the fact that he had risen from a comparatively unknown plane of work. The Review has a great deal of confidence that the choice of Mr. White will prove to be one of the greatest selections Premier Borden has ever made.

THE CLARK BUSINESS

Our old friend "Champ" Clark, Congressional leader of the Democratic party, has snatched the "gag" of expediency from his mouth with evident relief, and has told us that he was not joking, but was wholly serious when he said last spring that "we are preparing to annex Canada," says the Montreal Star. The keen humorists on this side of the border, who insisted that "Champ" was a great wit and that this was only one of his "bon mots," will kindly take notice that they laughed too soon—in more senses than one. Moreover, they should hereafter restrain their excessive sense of humor. So eager an appreciation of a joke might lead them some day to enjoy being "kicked down stairs" as an especially pointed piece of repartee.

"Champ" was not joking. He meant it. And he still means it; and—what is more—he does not care now who knows it. Canada has got through voting; and now he declares recklessly—"I do not care who hears me say it." Still the doughty Man from Missouri must have lost some of his reputation for fearless frankness by the chastened chagrin with which he watchfully kept his mouth shut all through the Canadian campaign. He ate his words with apparent relish; he kept quiet at the stern bidding of Taft; he would let us believe that he was "joking" if we were fools enough to swallow that story; and he lay a dumb dog for six months, hoping that we would come near enough his kennel to get soundly bitten.

But now that we have escaped, he is glad to hear the sweet sound of his own voice once more; and he even wants us to know how narrowly we missed being gobbled up. He thinks he could carry every state in the Union on an Annexation-of-Canada platform. We venture to think that he is mistaken—now. We have not the remotest doubt that a vast majority of the American people want Annexation, and would vote for it in a mass if there were any hope of getting it. He could have carried his election on that platform if we had accepted Reciprocity. But his fellowcountrymen are a shrewd and practical people; and they are not likely to grasp at the shadow and lose the substance. They know now that annexation is a shadow; and they know that an open declaration in favor of such a step would lose them the substance of British friendship. So we rather think that "Champ" and his platform would be beaten.

But we have no delusions as to the future. The forces of human nature will still rule. Any large nation like the American will want to grow; and its best chance to grow is by the absorption of the rest of its own continent, especially as it carries a kindred people accustomed to free government and offering an unrivalled market for American goods. Moreover, if it does not capture Canada, Canada will eventually be the head of a greater English-speaking alliance of nations than the United States; and the hegemony of our race will rest at Ottawa and not at Washington.

Still we now have our own future in our own hands. We can win out on independent lines. But we must be careful lest men of the breed of "Champ" Clark yet get their chance to enjoy their "jokes" remembering that "he who laughs last laughs best."

EDITORIAL NOTES

The Peck rally to-night in the central committee rooms will have bushels of interest for the electorate.

Mr. Hall evidently intends to do his electioneering principally by dodger and pamphlet. This might be regarded as the circular route to the polls.

The first big rally of the campaign in Mr. Peck's interest will be held to-night in the central committee rooms. Mr. Peck's exposition of the platform on which he stands will be of interest to the electors of the city. Get into the swim.

Chief Justice Sir William Meredith is now conducting an investigation into the matter of compensation for workmen for injuries. When Sir William reports on how the present act can be changed so as to afford the workmen better protection, the Whitney government will probably proceed to act.

The majority of Mr. Bradburn in 1908 was 428 over Mr. Gillespie. There were much bigger questions discussed in that campaign than there can possibly be in this contest. The Whitney government has proved so generally superior, and so generally efficient, that Ontario will undoubtedly record its approval of the administration. Mr. Hall is very hard up for material, if he cannot dig up something bigger than pointing out that the cost of the school books has been cut in half to the people. Peck all the way.

Wood's Phosphodine, The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins. Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, [illegible] and Effects of Abuse or Excesses. Price $1 per box, six for $5. One will please, six will cure. Gas Distended His Stomach

Caused Palpitation, and Prevented Sleep—When Health Was Gone, Cure Followed Use of "Nerviline."

"My last wish will be," writes Harry P. Pollard, a well-known boot and shoe traveler of Hartford, "that every one with a bad stomach may learn as I did, before it's too late, that Nerviline is the one remedy to cure. Why I was in mighty bad shape, my digestion was all wrong, and every night I would waken with a start and find my heart jumping like a threshing machine. This was caused by gas on my stomach pressing against my heart. When I started to use Nerviline I got better mighty fast. It is certainly a grand remedy for the traveling man, keeps your stomach in order, cures cramps, prevents lumbago or rheumatism, breaks up chest colds and sore throat—in fact there hasn't been an ache or pain inside or outside for the past two years that I haven't cured with Nerviline. Do you wonder I recommend it?"

Testimonial No. 4890

For general household use Nerviline has no equal; it will cure the aches and ailments of the entire family—refuse anything but Nerviline. 50c per bottle, trial size 25c, all dealers or The Catarrhozone Co., Kingston, Ont.

NERVILINE CURES ALL PAIN

LIQUOR PROBLEMS AT HASTINGS

Clergyman After Local Option Without Signed Petition

Hastings Star—At the special meeting of the council on Thursday night all the local clergymen waited on the council as a deputation asking the council to give the local option by-law, its first reading without the petition of twenty-five per cent of the eligible ratepayers.

The council was addressed by all the clergymen in support of their request and also by Messrs. A. B. Spellman and D. O'Connell of Peterboro, for the license holders. The council individually expressed their views on passing the by-law without the petition, and decided that they would take no action until the petition was forthcoming.

HERE IS A WOMAN OF VERY FEW WORDS

Tells Why She Recommends Dodd's Kidney Pills

She was Run Down, Had Dark Circles Under her Eyes and her Kidneys Bothered her—Dodd's Kidney Pills Cured Her Completely.

Upper St. Rose, Gloucester Co., N. B., Nov. 3. (Special)—"Dodd's Kidney Pills are a grand medicine for suffering women." In those words Laura Robichaud, a well known and highly respected resident of this place, voices her sentiments in regard to the grand old Canadian Kidney Remedy. And, like others who have borne similar testimony, she speaks from experience.

"I can recommend Dodd's Kidney Pills because they cured me," Miss Robichaud says. "I was in a generally rundown condition. I had dark circles under my eyes and my Kidneys bothered me. Two boxes of Dodd's Kidney Pills fixed me up."

This statement is made up of few words, but it describes the exact condition of thousands of women in Canada. They are rundown, have dark circles under their eyes, and they may not even know it, but their Kidneys are bothering them. If they follow Laura Robichaud's example, and use Dodd's Kidney Pills they will cure their Kidneys, and good health will follow naturally.

Yardman Killed at Berlin.

Berlin, Nov. 4.—George Dahmer, aged 50, a yardman of the G.T.R., was struck by the Toronto train here yesterday and instantly killed. Dahmer was working alone cleaning the switches and the manner in which he met his death is not known. The body was hurled to one side, the head being considerably crushed and the legs and hips broken.

Dahmer is survived by a wife and five children.

Ald. Chas. Hartman will contest the Brantford Mayoralty on a Hydro-Electric platform.

PILES CURED IN 6 TO 14 DAYS

Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days. [illegible]

THE MARKETS

Latest Quotations in Grain Dairy Products, Live Stock Etc.

CHICAGO, Nov. 3.—Wheat prices fell sharply to-day. One dealer was forced to suspend, and another dealer had to transfer all trades to houses possessing more capital. Fear of the effects of the federal probe caused the break. The close was nervous, ⅜c to 1⅛c under last night. Corn showed a net gain of ⅛c to ¼c, and oats an advance of ⅛c to ⅜c. In hog products latest trades varied from a shade decline to a gain of 5c to 7½c.

The Liverpool market closed to-day ⅛d to ⅜d lower than yesterday on wheat, and 1⅛d to 1¼d lower on corn. Antwerp wheat closed ⅜c lower, Buda Pest ⅛c higher, and Berlin ⅛c lower.

Montreal Grain and Produce.

MONTREAL, Nov. 3.—The foreign demand for Manitoba spring wheat was not so good and sales of only a few loads of sample and feed wheat were made. The local market for oats was firm under a fair demand for small lots and light offerings. A sale of 25,000 bushels extra No. 1 feed was made to arrive at 45c per bushel afloat. An easier feeling prevails for malting barley and prices are 1c per bushel lower at $1 to $1.02 ex-store. There is no change in flour, the demand being fairly good for local account, but the export trade is dull. Demand for bran and shorts is good. Cheese is quiet and steady. Butter is firm under a good demand. Eggs active and steady. Provisions quiet.

Dressed Hogs—Abattoir, $8.75 to $9.25 per cwt.

Beef—Plate, half barrels, 100 lbs., $7.50; barrels, 200 lbs., $14.50; tierces, 300 lbs., $21.50.

Lard—Compound-tierces, 375 lbs., 9¼c; boxes, 50 lbs., net (parchment lined), 9½c; tubs, 50 lbs. net, grained, two handles, 9¾c; pails, wood, 20 lbs. net, 9⅝c; tin pails, 20 lbs. gross, 9¼c.

Pork—Heavy Canada short cut mess, barrels, 35 to 45 pieces, $24; half barrels $12.25; Canada short-cut and back pork, 45 to 55 pieces, barrels, $23; Canada clear pork, barrels, 30 to 35 pieces, $22.50; bean pork, small pieces but fat, barrels, $17.50.

Oats—Canadian western, No. 2, 48½c to 49c, car lots, ex-store; extra No. 1 feed, 48c to 48½c; No. 3 C.W., 47½c to 48c; No. 2 local white, 47c to 47½c; No. 3 local white, 46½c to 47c; No. 4 local white, 46c to 46½c.

Flour—Manitoba spring wheat patents, firsts, $5.60; seconds, $5.10; winter wheat patents, $4.75 to $5; strong bakers', $4.90; straight rollers, $4.25 to $4.40; in bags, $1.95 to $2.05.

Rolled oats—Per barrel, $5.25; bag of 90 lbs., $2.50.

Corn—American No. 3 yellow, 81c.

Millfeed—Bran, Ontario, $23 to $24; Manitoba, $22; middlings, Ontario, $27 to $28; shorts, Manitoba, $25; moullie, $28 to $32.

Eggs—Selected, 26½c to 28c; fresh, 28c to 34c; No. 1 stock, 23½c to 24c.

Cheese—Westerns, 14c to 14½c; easterns, 13¾c to 13⅞c.

Butter—Choicest, 27½ to 27¾c; seconds, 26½c to 26¾c.

New York Dairy Market.

Hogs—Receipts, 11,300 head; active and 5c to 10c lower, heavy, $6.50 to $6.65; mixed, $6.45 to $6.50; yorkers, $6 to $6.50; pigs, $5.75 to $5.85; roughs, $5.75 to $5.90; dairies, $6.10 to $6.50.

Sheep and Lambs—Receipts, 13,000 head; active and 25c higher; lambs, $4 to $5.85; yearlings, $4 to $4.50; wethers, $3.75 to $4; ewes, $3 to $3.60; mixed sheep, $1.50 to $3.65.

Chicago Live Stock.

UNION STOCK YARDS, Ill., Nov. 3.—Hogs—Receipts, 13,000; market, slow; mixed and butchers, $5.70 to $6.40; good heavy $5.95 to $6.40; rough heavy, $5.70 to $5.85; light, $5.60 to $6.30; pigs, $3.75 to $5.30.

Cattle—Receipts, 2500; market, steady; beeves, $4.60 to $9.15; cows and heifers, $2 to $6; stockers and feeders, $3 to $5.80; Texans, $4.10 to $5.80; calves, $5.50 to $8.75.

Sheep—Receipts, 20,000; market, weak; active, $2.30 to $4; western, $2.50 to $4.10; lambs, $4 to $6.25; western, $4.25 to $6.25.

Cheese Markets.

NAPANEE, Ont., Nov. 3.—There were 530 white and 420 colored cheese boarded here to-day; all sold at 13⅝c to 13¾c.

IROQUOIS, Ont., Nov. 3.—At the regular meeting of the Iroquois Cheese Board, held here to-day, 600 cheese, all colored, were offered. All sold on board at 13⅝c.

Attacking Montreal's Slums.

Montreal, Nov. 4.—Mayor Guerin has perfected some of the ideas which he proposes to advance for the abolition of slum conditions in Montreal.

The new proposed health department law will give the city the right to disperse people living in houses where the conditions are not sanitary. They will forbid people living in dark, unlighted rooms, and in houses not lighted both from the front and back. They can also order unsanitary houses to be torn down.

The building bylaw, which is in the course of preparation, will also have provisions which will assist in working out the scheme.

Grafted Their Victuals.

Chicago, Nov. 4.—More than 5,000 families have been cut off the list of those regularly receiving free meat, flour and other necessities from the county.

It was found that many families of independent wealth, hundreds with comfortable incomes and thousands of property owners with ordinary means of support have been enjoying the charity of Cook County.

MEXICO IN '42

By D. Lewis

On this he reflected while descending the upper slope. The darkness due to the overshadowing trees made it necessary for him to go slowly, so giving him time. He went cautiously and so silently that the sentinel — for sure enough one was there — heard no noise to warn him of an enemy behind. In his monkish garb he was standing on the outer edge of the shelf rock, his face turned to the valley, which was just beginning to show silvery white under the rays of a rising moon. Perhaps he was gazing on some spot endeared to him as the home of his childhood; but from which, like the leader of the Free Lances, he had been bereft by the last confiscation. Possibly he was indulging in the hope of its being soon restored to him, but least of all dreaming of danger behind.

It was there, notwithstanding — in fiendish shape and close proximity. A creature squatted like a toad, saying to himself:

"What wouldn't I give for a knife with a blade six inches long!"

Then, with a sudden change of thought, seeing the chance to do without the knife, the dwarf made a dash forward, with the ape-like arms extended, and pushed the sentinel over.

The cry that came from the latter, on feeling the impulse from behind, was stiffled as he went whirling to the bottom of the cliff.

CHAPTER XLII

A Tale of Starvation.

It was the garden of Don Ignacio.

"This so strange our never hearing from them, and not a word of them. What do you make of it, Isabel? Is it a bad sign?"

"That we haven't heard from them is—in a way," responded the countess. "Yet that may be explained, too. The probability is, from the roads being all watched and guarded, as we know they are, they'd be cautious about communicating with us. If they've sent a messenger — which I hope they haven't — he must have been intercepted and made prisoner. And then, the message; that might compromise us. But I know Ruperto will be careful. Not to have heard of them is all for the best — the very best. It should almost assure us that they're still free, and safe somewhere. Had they been recaptured, we'd have known before this. All Mexico would be talking about it."

They had made a turn or two of the grounds, thus conversing, when both came to a sudden stop, simultaneously uttering exclamations of alarm.

"What can it be?" gasped Dona Luisa. "Is it a man?"

No wonder she should so doubtingly interrogate, since her question referred to that strange creature. The dwarf who had made his way to the city, seeming more ape than human being.

That he was human, however, was to be proved by his being gifted with the power of speech, put forth on the instant after:

"Pray, don't be alarmed, your ladyships, at a poor, miserable creature like me. I know that my body is anything but shapely; but my soul—that, I trust, is different. But, senoritas, surely you remember me?"

Astonishment hindering reply to his interrogatory, he continued:

"Well, your ladyships, I'm sorry you don't recognize me; the more from my being one of your best friends, or, at all events, the friend of your friends."

"Of whom do you speak, sir?" asked the countess, first to recover composure.

"Two worthy gentlemen, who, like my poor self, had the misfortune to get shut up in the Acordada; more than that set to work in the filthy sewers. Thanks to the luck of your ladyship's carriage coming past at a convenient time, we all escaped; and so far have been successful in eluding the search that's been made for us."

"You have succeeded — all!" both asked in a breath, their eagerness throwing aside reserve.

"Oh, yes; as I've said, so far. But it's been hard times with us in our hiding place; so hard, indeed, we might well have wished ourselves back in the prison."

"How so, sir? Tell us all! You needn't fear to speak out; we'll not betray you."

"I'm not afraid of your ladyships doing that. Why should I, since I'm here on account of your own friends and on an errand of mercy?"

"An errand of mercy?"

"Yes. And one of necessity as well. Ah! that far more."

"Go on, sir! Please tell us what it is!"

"Well, senoritas, I've been deputed on a foraging expedition. For we're in a terrible strait — all four of us. You may remember there were four."

"We do. But, how in a terrible strait?"

"How? Why, for want of food, starving. Up in the mountains, where we've been hiding for now nearly a month, all we've had to live upon was wild fruits and roots; often eating them raw, too. We daren't any of us venture down, as the roads all round have been beset by spies and soldiers. It's only in sheer desperation I've stolen through them; the Senor Don Ruperto sending me to San Augustin in the hope I might be able to pick up some provisions. The unlucky part of it all is, that even if I get safe in, I haven't the [illegible] to buy the eatables, and must beg them. That, I fear, won't be easy; people are so hard-hearted."

For a time his surprised listeners stood silent, giving way to sad reflections. Florencio and Ruperto starving!

"May I hope," continued the lying wretch, "your ladyships will let me look upon this accidental encounter as a godsend, and that you will give me something to buy ——"

"Oh, sir," interrupted the countess, "we will give you that. Luisa, have you any money in your purse? I havent' in mine — nothing to signify."

"Nor I, either—how unfortunate! We must——"

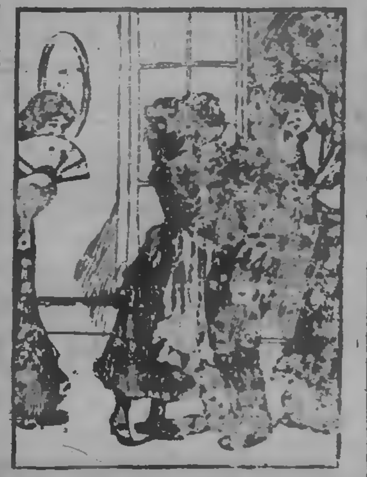
"Never mind money, your ladyships; money's worth will do quite as well. Rings, anything in the way of jewelry, will do. I chance to know a place in the village where I can convert them into cash."

"Here, take this!" cried the countess, handing him her watch, the same which had been given to Jose, but was redeemed by a money payment.

"And this!" said the Dona Luisa, also holding out a watch, both of which he speedily took possession of.

"'Tis very generous of your ladyships," he said, stowing them away among his rags; "the proceeds of these ought to support us for a long time, even allowing for the reduced rate I'll have to accept from the pawnbroker. Afterwards we must do the best we can."

As he spoke, his little, sparkling eyes were avariciously bent upon certain other objects he saw scintillating in the moonlight — bracelets, rings upon their fingers and in their ears. The hint was hardly needed. Enough for them the thought that more help might be reuired by those dear to them, and at a time when they could not extend it.



"I'LL PAY THE BEST MYSELF."

To be continued.

A MOTHER'S PRAISE OF BABY'S OWN TABLETS

A Mother's praise of baby's own tab- Mrs B. S. Baker, East Margaretsville, N.S., writes; "No mother would recommend for her baby any medicine of which she was not absolutely sure. A baby's life is too precious. A mother is always pleased to recommend to other mothers something that has been valuable in restoring the health of her own child. That is why I can highly recommend Baby's Own Tablets. They cured my baby (who was suffering from constipation and I feel that I cannot advise all mothers with sickly babies to give them a trial, well knowing what the result will be." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Firemen Interfered With.

Toronto, Nov. 3.—Usually it is a clear right of way, with every help offered to the firemen when they go out on business, but yesterday they struck a snag when they responded to a call to the Adams Brothers Harness Co., at King and Frederick streets. Arrived at the scene they were told that the fire was under control and that they might just as well go home.

Admission was refused by the factory hands who declared that they could manage their own fire, but when a tongue of flame shot out of a top storey window a moment later, the firemen waited no longer upon ceremony, but broke in a door and went to work. The damage done was about $9,000. The fire was on the top floor.

Chief Thompson is indignant over the detention of his men on their way to their work and will press for an investigation.

New Radial Line.

Lindsay, Nov. 3.—The survey for a line of an electric road from Port Hope, through Peterboro, Omemee and Lindsay to Orillia, is under way in this section of the country, the survey work being under the supervision of Messrs. Graham and Mann.

It is proposed to connect the line at Port Hope with an electric line from Montreal to Toronto, and it is hinted that the C.N.R. are back of the deal, as they wish to tap this section of the country.

BEAUTIFUL EYES

are made beautiful by long, silky lashes, and well defined, lustrous brows. Eyes, like diamonds, depend on their setting. The beauties of the face are lost if the eye brows are thin and scanty, and the lashes are short and lifeless. Parisian Lash Lustre grows beautiful, soft, silky lashes. It has done so for society women throughout Europe, and it comes here well recommended to do the same for you. Parisian Lash Lustre is not a dye or colorator, but a scientific preparation for beautifying the eye lashes and brows. Our guarantee goes with every box of Parisian Lash Lustre. A two weeks' treatment will bring beauty to your eyes that you have never before possessed. By mail, prepaid, in opal boxes on receipt of price, fifty cents. M. V. Marion sole distributor Brid-

Distinguished Passengers.

Berlin, Nov. 3.—Count Zeppelin's dirigible balloon yesterday took up a distinguished party including Prince August William and the princess, Prince Eitel Frederick, Prince Oscar, Prince Joachim, sons of the Emperor; Prince Frederick Leopold of Prussia, Prince George of Greece; the Minister of the Interior and Vice-Chancellor Herr Delbrueck and the Prussian Minister of State, Paul Von Breitenbach.

The airship cruised from Johannisthal to Potsdam, where for a little it hovered over the royal palace.

Woman Was Victimized.

Winona, Minn., Nov. 3.—Mrs. W. F. Jahn of Rolling Stone told the Winona police that she was robbed yesterday of $10,000 in cash which she carried in a suitcase, as she had no faith in banks. She said she was about to board a street car when a stranger, who got off the train from Rolling Stone, offered to carry her grip. She allowed him to do so. When she turned around she saw the man disappearing up a hill with the satchel. The empty grip was found later by the police in some bushes.

Police Arrest Widow.

Chicago, Nov. 3.—John Quinn, a motorman, was found shot to death in bed yesterday under circumstances that caused the police to hold his widow for an investigation. Mrs. Quinn told the police her husband had been shot by a burglar, who escaped with $100 Quinn had under his pillow. Quinn carried $3,000 life insurance, his wife being the beneficiary. They are said to have quarrelled frequently.

GOOD FOR COMPLEXION

Of all the skin beautifiers we have had in our store there is none that we can recommend more highly than the D.D.D. prescription.

D.D.D. is such a logical remedy for all kinds of skin trouble and so scientifically compounded that it clears up the complexion over night.

D.D.D. is most widely known as the most reliable treatment for Eczema, but it has also been found invaluable for all kinds of minor skin troubles. We do not hesitate to give D.D.D. our special recommendation. In fact, we are convinced that D.D.D. will give relief that no other remedy can.

Surely if you have any skin trouble you should give D.D.D. Prescription a trial.

Don't delay, for if not promptly checked, minor skin troubles often develop into serious disease, difficult even for D.D.D. to cure.

Better drop into our store anyway and get posted on this wonderful remedy. Ask also about D.D.D. Soap which is so invaluable in keeping the skin in healthy condition.

Or write the D.D.D. Laboratories, Dept. P.W., 49 Colborne street, Toronto, for a free trial bottle. In either case, don't put it off, but act at once.

McDermid & Jury and E. L. Payne, Peterborough.

SAILING FOR CHRISTMAS TIDE

When the Big Liners Leave the Canadian Ports

The following list of Christmas sailings on the steamship lines to the old country will be interesting to readers of the Review:

White Star Dominion Liners, special Christmas sailings are from Portland, Me., and Halifax, N.S., via Canada, December 2, Megantic December 9, Teutonic, Dec. 14.

On the Allan Line, steamer Virginian sails from St. John Friday, Nov. 24, and Halifax, Saturday, Nov. 25. Grampion, Victorian and Corsican set Dec. 2nd, 8th and 14th respectively from St. John. The Grampian and Corsican are direct. Victoria leaves Halifax one day later.

Canadian Northern, Royal Edward and Royal George sail from Halifax on Nov. 29 and Dec. 13, respectively. Royal Edward is due at Bristol Dec. 5 and Royal George Dec. 19.

C.P.R. Empress of Britain leaves St. John Dec. 1, Lake Manitoba on December 9, and Empress of Ireland December 15.

There have been many inquiries from the sons and daughters of Merrie England, who hope to spend Christmas with the old people, and Peterborough her [illegible] and her general life will likely receive atten- [illegible]

TELEGRAPHIC BRIEFS.

Sir Wilfrid Laurier's election in Soulanges has been protested.

Charles Lellis claims he saw Bill Miner, the noted desperado, on a train between Toronto and Cobalt.

The U. E. Loyalist of Toronto took action yesterday to obtain recognition from the Dominion and British Governments.

Hum Quom, an Ottawa merchant, has been elected representative of Canadian Chinamen in the Imperial Parliament of China.

The National Assembly has forced on the Chinese throne a new democratic constitution based on a limited monarchy and the supremacy of Parliament.

The twelve-pounder gun which was so heroically defended at Lilliefontein, has been presented to the city of Ottawa, and will be placed on the City Hall Square.

Steps are being taken towards the establishment of a municipal gas plant in Regina. The city already owns water works, electric light and street railway utilities.

Yesterday's nominations: Liberal—Dr. Henderson, West Lambton; Peter McMillan, North Ontario; R. R. Brett South Essex. Conservatives—J R. Dargavel, M.P.P., Leeds; A. H. Musgrave, M.P.P., North Huron.

Short Weight Beets.

Chatham, Nov. 4.—E. F. Packer, weighmaster for the American Sugar Beet Co., arrested at the instigation of Isaac Koffell and S. Thackery, Raleigh farmers, for alleged fraud, in giving the weight of two wagon loads of beets, was sent up for trial by Magistrate Houston yesterday.

Thackery claims to have been defrauded of 850 pounds of beets, and Koffell of 895 pounds. The farmers discovered the discrepancy, they state, by first weighing their loads on the city scales.

Want Street Railway.

Berlin, Nov. 4.—It was learned yesterday on good authority that a private firm would appear before the City Council on Monday next with an offer to purchase the franchise of the Berlin and Waterloo Street Railway now owned and operated by the city, offering 25 per cent. of the gross earnings for a lease of from five to twenty-five years.

It was learned that the Berlin and Bridgeport Street Railway Co. are largely interested in the offer.

Kyrle Bellew Dead.

Salt Lake City, Utah, Nov. 3.—Kyrle Bellew, the actor, died here at 5 o'clock yesterday morning of pneumonia. Funeral services will be held here and the body will be sent to New York.

Howard Kyrle Bellew was an English actor of great prominence and for many years had played in this country. He was born in Prescott, Eng., in 1856, and was the son of a clergyman. Bellew went to Australia as a gold prospector and in 1874 made his first appearance as an actor in Solferino, Australia. He returned to England and a few years later joined the company of Sir Henry Irving. In 1888 Kryle Bellew formed a partnership with Mrs. James Brown Potter and for ten years they starred together, making a tour around the world. He created the part of "Raffles."

Mr. Bellew has been appearing this season in "The Mollusc" and was to have begun a long engagement in San Francisco next Monday.

Pedestrians to Blame?

Boston, Nov. 3.—Up to yesterday 1,357 accidents in which motor vehicles were concerned have been reported to the State Highway Commission in the last eleven months and in pursuance of its duty to investigate these cases the commission has found that where pedestrians were the victims the blame often rested upon them and not upon the drivers. In the last eleven months there have been nearly 100 deaths and about 1,100 injuries caused by motor car accidents. In the previous twelve months there were 77 deaths and 963 injuries, so that with one month not counted of the present fiscal year of the Highway Commission there has been an increase of about 20 per cent. in deaths and 15 per cent. in accidents.

In that same period, however, there has been an increase of approximately 25 per cent. in the number of motor vehicles in use in the state.

Hurting Welsh Tin-plate.

London, Nov. 3.—The Welsh tin-plate makers are approaching the Canadian Government and alleging that since the withdrawal of the anti-dumping clause once operative, Americans are capturing the Canadian trade which was formerly held exclusively by Wales.

SEA CAPTAIN HAD INDIGESTION.

Calls Morriscy's No. 11 Tablets Magic Remedy.

FORBES POINT, N. S., July 8, 1910.

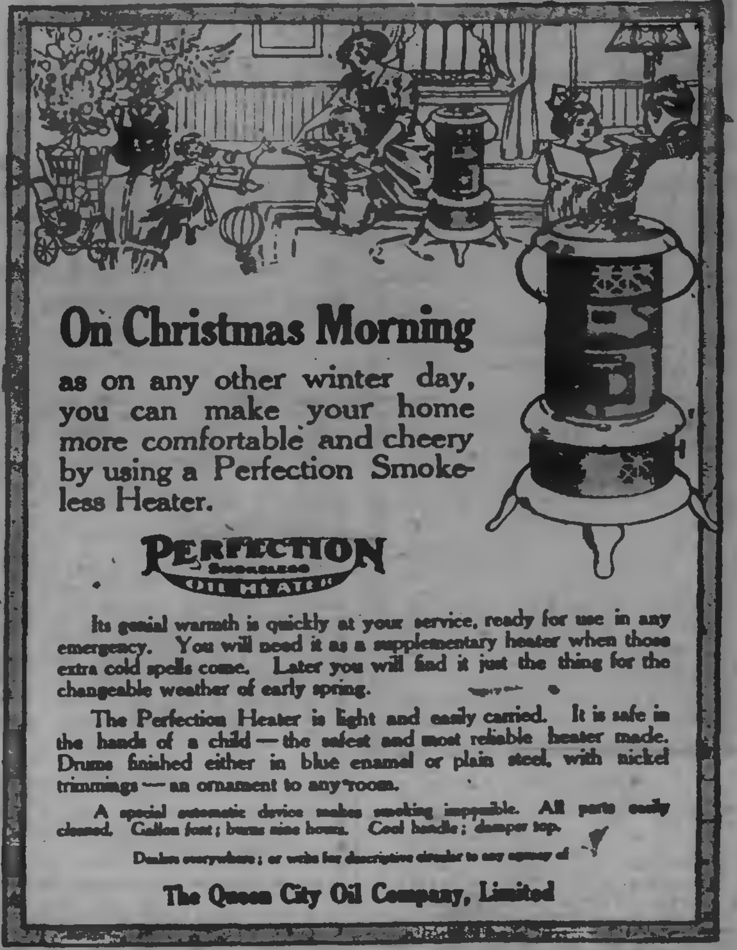
"Previous to taking your No. 11 Dyspepsia Tablets I had been undergoing treatment with my family physician for three months, and at an expense of about $100. I was suffering so badly that I could not sleep. Fortunately for me a friend recommended your No 11 Dyspepsia Tablets - I tried them, and they acted like magic. After the first dose I began to feel better, and that very night I slept soundly, and it was the first time for weeks that I was able to sleep. I used altogether 3 boxes of the remedy, and am entirely cured. Needless to say, I think No. 11 Dyspepsia Tablets are great, and anyone suffering from Dyspepsia or Indigestion should try these Tablets by all means, as I consider them a magic remedy."

Capt. Norman Devine.

The above prescription is not a "Cure-All" or so-called patent medicine. Dr. Morriscy prescribed it for 44 years, and it cured thousands after other doctors failed.

Price, 50c. per box at your dealers, or Father Morriscy Medicine Co., Limited, Montreal. 801

Sold and guaranteed in Peterborough by McDermid & Jury.



On Christmas Morning

as on any other winter day, you can make your home more comfortable and cheery by using a Perfection Smokeless Heater.

HAVE YOU EVER

After retiring for the night, thought of your forgotten fire insurance policy, which had expired that day, and had not been renewed?

How quickly you'd spring to the telephone, call up the agent, and make matters right till morning in fear that fire might wipe out your accumulations.

Yet how often have you retired to woo the sleep of the just, with **no life insurance** and it never crossed your mind seriously that ere morn the heart might stop beating, and with it, the whole earning power of both brain and hand, yet your property **may never burn**, but your heart will surely cease to beat some time. It's strange, is it not?

Then why not insure your life at once?

The Sun Life of Canada issues all the modern forms of life assurance at the lowest rates, consistent with ample security, and are giving settlements that should satisfy the most exacting.

Call or phone to the Sun Life Office, 159, Hunter Street.

SHE SUFFERED FIVE YEARS

Finally Cured by Lydia E. Pinkham's Vegetable Compound.

Erie, Pa. — "I suffered for five years from female troubles and at last was almost helpless. I went to three doctors and they did me no good, so my sister advised me to try Lydia E. Pinkham's Vegetable Compound, and when I had taken only two bottles I could see a big change, so I took six bottles and I am now strong and well again. I don't know how to express my thanks for the good it has done me and I hope all suffering women will give Lydia E. Pinkham's Vegetable Compound a trial. It was worth its weight in gold."—Mrs. J. P. ENDLICH, R. F. D. No. 7, Erie, Pa.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases we know of, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you want special advice write Mrs. Pinkham, Lynn, Mass., for it. It is free and always helpful.

SERVICES AT ST. ANDREW'S CHURCH

The services at St. Andrew's church will be of an unusually interesting nature to-morrow, owing to the presence of Rev. James S. Potter, of the Sailors Mission department work, who will occupy the pulpit in the morning. His sermon will be devoted to a description and explanation of the working operations that are carried on at all the inland lake ports for the benefit and education of the sailors.

In the evening the pastor, Rev. James Rollins, will preach a special sermon to the Orange body of the city and district.

L. O. L. Notice

The members of the City District Orange Lodge will meet in Lodge room, Simcoe street, Sunday evening Nov. 5th, at 6 o'clock, to attend service at St. Andrew's church. Visiting brethren welcome. 3d

Injuries are Painful

Mr Sherlock Thompson, of the Bell Telephone company, who met with painful injuries through falling from a ladder outside the National Hotel, will be confined to his bed for ten days by his physician's orders. His injuries are very painful.

RAILROAD TOWN HAS DREAMS OF GREATER HAVELOCK TO BE

As Divisional Point on Georgian Bay and Seaboard Line Hustling Havelock Will Leap Onward—What Work is Contemplated.

Special to the Review.

Havelock, Nov. 4—Havelock is on the eve of the realization of its hopes of the past few years. There were times during that period when those hopes seemed slated to be turned into pipe dreams, but now what the people were hoping and wishing for is fully assured. Havelock is to be a terminal of the new Georgian Bay grain route, as well as retain its old position as divisional route on the Toronto-Montreal line. Thus is the growing railroad town assured of increased prosperity in the future as has been her lot in the past. The "keep going" motto is not only an idle dream of fanciful well wishers. It is to be a realization.

The time can be counted in days rather than weeks, when grain will be moving eastward from Georgian Bay over the new line. The route has been fully completed as far as Lindsay and traffic will be commenced in the near future using the Lindsay-Burketon route, until the direct one, joining the main line at Bethany siding is completed. It is said that it will probably be close on the new year before this portion will be in proper shape for the running of trains by the direct and shorter route.

This will mean an increased number of railroad men at Havelock for crews are to be run west, out of here. Already there is considerable talk at different points of the assignment of men to the Victoria Harbor-Havelock division. There seemed some little doubt at times as to whether Havelock would be made the divisional point for the new line. It was well known that Peterboro coveted this honor, but this has always seemed an improbable change as the divisions would be broken up into unsatisfactory runs, if this was done.

Besides the large increase in the number of railroad men at this point, a vast improvement in the facilities here will be necessary. It will be remembered that two years ago, that in conjunction with the seaboard line a large expenditure of money in extending yards, etc., was recommended for Havelock. It is well known that the C.P.R. expend no money until necessary. Now with the grain route completed, this work will be commenced.

An extension of the yards in order to care for the increased traffic is essential. The "roundhouse" for the engines is to have its capacity doubled. There will also probably be an enlargement of the coal shutes. With this expenditure, the erection of a new station will probably be deferred for a short time, although specifications for that building have already been prepared.

Havelock was also made a dispatching centre this summer with a staff of six looking after the line, both east and west of this point. A chief dispatcher for each track will shortly be appointed. It is also expected that the superintendent of the Toronto-Montreal section will be transferred to Havelock.

Any improvement in this division of the C.P.R. means more prosperity for Havelock. Enlargement of the C.P.R. means the enlargement of Havelock. Their prosperity keeps pace, one with the other. A continued period of enlargement and prosperity for this division of the C.P.R. is assured. The same may be said of Havelock, the hustling railroad town.

WONDERFUL GARMENTS OF THE GREAT RUSSIAN DANCER

Countess Swirsky's Beautiful Robes Are Most Unique—Heavy Russian Costume for First Dance—Many Mock Jewels—Gauzy Habilaments of Entrancing Make.

The theatre-going people of the city are going to have a unique treat in the appearance of Countess Swirsky, at the Grand on Tuesday night next. This wonderful dancer has been creating a furore in the larger American cities. Lots of beads, quantities of jewels, some veils and sashes—of these are fashioned the clothes of the Countess de Swirsky, who is dancing at the Brandeis theatre.

Take away the many strings of pearls and the head ornaments from the wardrobe, and not much remains.

The dress that is the most interesting is the one she wears in the first dance. This is a Russian court dress, and it is heavy with mock jewels. The cloth itself looks much like tapestry. It is a peculiar shade of green. On this are square and oblong splotches of blue and red. This is made princess and the bottom of the skirt is finished with marabout. Down the front and encircling the corsage are many large imitation gems in red, green and blue. In the centre of the corsage is silver, is the royal coat of arms of Russia. The sleeves are white chiffon heavily spangled with gold.

The head dress for this costume is a huge affair. It is of mock pearls, very high and wide. At the back are streamers of red, yellow, green and blue ribbon, and added to this is a veil effect of spangled chiffon. Falling from this are several stands of pearls that make a musical jingle when she dances.

The red and gold costume was very unique. This consists of a very short skirt of cloth of gold worn over flesh colored chiffon. The hips are bound with a scarf of flame colored satin heavily spangled, and the waist, the place where the corsage should be, is bound with strands of jewels. On these bands are breast plates.

In the Peer Gynt suite she appears in a grass dress with a long train, but this is also "divided" and made of chiffon, so she has the free use of her lithe graceful limbs. Over this is worn a long black veil spangled with silver.

One of the noticeable costumes is the Greek. This is a long skirt and over this is worn a pointed overskirt. Both are accordian pleated. This reaches to the arms and holding it together are bands of gold braid.

REV. MR. ABRAHAM CALLED TO GUELPH

Port Hope Pastor Wanted by St. Andrew's Congregation

Guelph, Nov. 4.—Rev. H. E. Abraham, B.A., of Port Hope, pastor for the past eight years of St. Paul's Presbyterian church, has received a call from the congregation of St. Andrew's church, Guelph, to succeed Rev. W. G. Wilson, who lately removed to Moosejaw, Sask.

EXAMS. ONE MONTH EARLIER

Important Change for Pupils of Ontario Schools

Because of the many complaints which were made last July in connection with the system of holding matriculation examinations during that month, it has been decided by the Ontario Education Department that hereafter the examinations will be held a month earlier. Dr. John Seath, Superintendent of Education the province, is notifying principals of the schools that commencing next year all matriculation examinations will be completed by the end of June. This news will be received with great relief by pupils, teachers and parents. The examinations this year were held during the very hottest part of July and it is said that scores of young people failed to pass because of excessive heat.

ONE BEAN SHORT OF RIGHT NUMBER

Will Allen Won Dishes at the Roller Rink

Mr Will Allen won the set of dishes in the bean guessing contest at the Brock street roller rink last night, he guessed 1612 as the number of beans in the jar. When the beans were counted after nine o'clock it was found that there were 1613.

WEDDING BELLS

ALTY—CRAFTS

Peterboro friends will be interested in the following account of a wedding which took place at Princeton, the bride being Miss Mina M. Crafts, formerly of this city:

"A quiet but pretty wedding was solemnized at high noon on Tuesday, 24th ult., at the home of Mrs. Ella Crittenden of the Governor's Road, Princeton, where her niece, Miss Mina M. Crafts, was united in marriage to Rev. Thomas Shaw Alty of Solem, N.Y.

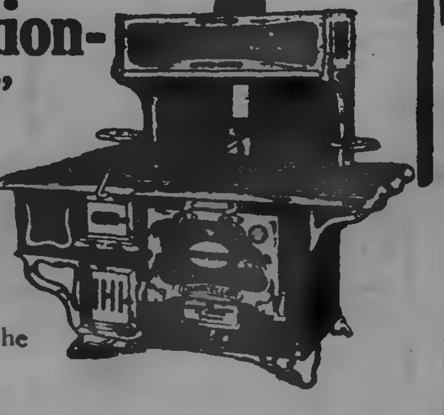
The ceremony was performed by the Rev. Matthew Conron, M.A., of Hamilton, a college friend of the bridegroom, in the presence of the immediate friends, only.

The bride, who was given away by her aunt, wore an elegant dress of white silk voile with satin trimmings, and a handsome veil of antique lace and orange blossoms. She was attended by her sister, Miss Amy A. Crafts, of Toronto, who was prettily gowned in white silk mulle, trimmed with lace, and pale blue satin. The bridegroom was supported by Mr. Ernest Codling, of Queen's University, Kingston. The bridal party entered the parlor to the strains of the wedding march played by Mrs. Stitt, and during the signing of the register the hymn, "How Welcome Was the Call" was sung.

The guests were Miss Mabel Curtis, of Toronto; Mr. William Mumford, of Victoria College; Rev. A. F. Whealen and Mrs. Whealen, Princeton; Mrs. Halbert and Miss Myrtle Crittenden, of Falkland; Mrs. Stitt and her Miss Sibbald, of "The Briars," Sutton West.

After the dejeuner the happy couple took the 3.30 p.m. train for Niagara Falls en route to their future home at Colden parsonage, N.Y.

The bride's travelling dress was a becoming suit of grey English tweed with black beaver hat with old rose trimmings of satin and chenille flowers. The bride was the recipient of many useful and valuable gifts, bearing testimony to the high esteem in which she is held in Toronto and elsewhere, and the numerous friends of Mr. and Mrs. Alty extend sincere wishes for their future welfare and happiness.



The "Woman Question—Three Meals a Day"

This is the problem confronting the average housewife—a problem of vital importance to the home, and one best solved by a trip to our store and the purchase of

GURNEY-OXFORD

For the Woman Question is not only what to eat, but *how to cook it*, and you find the answer in *Gurney-Oxford*—first in construction, as well as convenience; first in facilities for control and readiness. The *Divided Oven Flue Strip* assures perfect baking because of its even heat-distribution, and in every detail the perfect construction of this Chancellor Range assures satisfactory cooking results.

Another phase of the question is *economy*, and we invite a visit to our store expressly that you may examine the marvellous fuel-saving device the

Oxford Economizer

Gurney-Oxfords are the only stoves licensed to sell with this wonderful patent. It needs only to be set at a proper angle to hold heat *for hours without attention.* No fuel is wasted—a saving of 20 per cent.

The *Grate* is *Reversible* with strong teeth that save accumulation of clinkers and waste.

In point of appearance—nickel trimmings, beauty of design, etc.—the Gurney-Oxford has not a rival. Come to our store and find the best answer to the Woman Question—a Gurney-Oxford stove.

ORGANIZED FOR COMING SEASON

St. James Brotherhood Held First Meeting of the Season

The Brotherhood of St. James' Methodist church met last evening at the church, it being the first meeting of the season and the approaching term's program of work was presented and the features of it generally discussed. The meeting was of an organization nature, and the following officers were retained in the positions to which they were appointed at the time the Brotherhood was inaugurated:

President—J. H. Moss.
Secretary—G. Barrett
Assistant Secretary—Mr. Barton

Impromptu speeches were given by some of those present, followed by refreshments. The prospects look bright for a successful and helpful season's work by the Brotherhood.

MEMBERSHIP OF 400 AT Y.W.C.A.

Junior Department of Association Doing Good Work

The Young Women's Christian Association has now a membership of 400, but the 500 mark, it is hoped, will be reached before long. The directors are hard at work and look for success. The membership of 400 includes the junior department, and nearly every member is an active worker, the many interesting and valuable classes being largely attended.

In the junior department there are two clubs, the Sunshine Club for girls from 7 to 10 years of age, and the Victoria Club for girls from 11 to 14 years, and both meet Saturday afternoons from 2 to 4 o'clock. Training in gymnasium, kitchen garden, plain sewing, cooking, bible study and other helpful lessons are given. The benefits to be derived from these clubs should not be overlooked by parents, and the association officials will welcome any new members.

Night Classes

— AT THE —

Peterboro' Business College

(Founded 1885.)

Many ambitious young people are taking advantage of the splendid opportunity to improve their education by attending the night classes at the Peterborough Business College. These classes are conducted on Monday, Wednesday and Friday nights, and students receive instruction in any one or all the subject of the Commercial or Stenographic Course. By this method, young people may learn while they earn, and thereby increase their salaries and better their positions without losing time from their work. You may enter any time, but it will be to your advantage to enter now. The cost is small, while the benefit to be derived therein is inestimable.

The Business world is full of opportunities, but the best positions are open only to those who are competent to fill them. By attending Night School at the Peterboro' Business College, you may become competent.

GEO. SPOTTON - President
R. E. LOGAN - - - Principal

GRAPES! GRAPES!

The Sunday School Rally, called for November 7, has been indefinitely postponed. Rev. H. J. Keith, who was was delegated to attend the Brockville Convention was unable to be present on account of illness and there is therefore no report on the sessions to be made.

Mr. John McCartney of Toronto will preach the Gospel in the Assembly Hall, George street, 4 doors north of market arcade to-morrow night at 7 o'clock. All welcome.

Vocal recital by Miss Mary G. Chalmers, A.T.C.M., assisted by Dr. Frederic Nicolai, cellist, Friday, Nov. 10th, at 8.15 o'clock, in the Conservatory music hall.

New Billiard Parlor

The place to meet your friends is at the new billiard parlor, which has been recently fitted up by Yeotes Bros. at 389 George street. The formal opening will take place to-morrow Saturday morning, and an orchestra playing all day and evening, and an attractive game of billiards may be had. English billiards, American billiards and pool have been arranged for there being twelve tables fitted up. The parlor will be under the management of Louis Yeotes, and will no doubt be a popular rendezvous for the young men of the city.

MOSLEY ESTATE

This Park Lot on Communication Road, nearly opposite Thomas Edgars residence consisting of 10 acres, is advertised for sale by Public Auction at the Munro House, Peterborough, at 2 p.m., on Monday, November 13th, 1911. There are on the premises a snug brick house, good outbuildings, large hennery, also a small fruit orchard. This will make an ideal residence property or market garden. It is being sold by the Administrator. Apply to Dumble & Johnston, Solicitors.

RECEPTION TO THE STUDENTS

Faculty of Normal School Gave Annual Entertainment

The faculty of the Peterborough Normal school tendered a highly successful reception last evening at the institution to the students and teachers in training at the city schools. About one hundred and fifty were in attendance and a very enjoyable evening was spent.

The program was as follows:

Selection—Opera House orchestra.
Solo—Mr. Ferguson.
Reading—Miss Katie Leary.
Solo—Miss Steinhoff.
Violin solo—Dr. Parks.
Reading—Miss Pettit.
Solo—Miss Mary Chalmers.

Refreshments were served afterwards. The evening was somewhat of the character of a hallowe'en reception.

TALENT SOCIAL

Basket Social

Keep in mind Thursday evening, November 9th, at 8 p.m., and attend the I.O.F. basket social in the S.O.E. Hall, Hunter street. Admission free. Ladies will please bring baskets and cakes, so gentlemen be there. Musical programme and refreshments.

ALBERT CRAIG GETS THE JOB

Succeeds E. Wade as Superintendent on Sewer Work

Mr. Albert Craig was appointed superintendent of the sewer work in connection with the pump station by the Board of Works last night, on motion of Ald. Duncan and Graham. He will be paid $3 per day.

Ald. Buller moved that Frederick Bartlett, who sent in his application, be given the job. "I think there should be some outsider get the position," he said. Mr. Bartlett, he held, had had more experience at the work.

Mr. Craig has been working under Mr. Wade for some time. Mr. Chipman and his assistant, Mr. Armstrong, recommended Craig.

When the application of Mr. Bartlett was read, Ald. Duncan stated that he had been asked to put the name of Mr. Thos. McFadden before the Board.

Ald. Buller did not get a seconder for his motion.

Mr. Wade has taken a position on the wharf work at Spaulding's Bay.

City Engineer Hay was of the opinion that the work should be kept up as long as possible. "They laid forty feet of pipe to-day," he remarked.

ROMAINE STREET DIVERSION.

"Now is the time to have it right," urged Ald. Duncan when the chairman reported that C.P.R. officials had agreed to certain work at the Romaine street diversion.

"We ought to ask them to crib and fill in on the south side to the fence and make the road 32 feet," said Ald. Duncan.

On motion of Ald. Duncan and Anderson, it was decided that before the agreement with the railway be sanctioned, the company consent to widen the street to within three feet of the fence and crib it, and also maintain the culvert.

ENGINEER JAMIESON'S CASE.

The question of remuneration for Engineer Jamieson, of the fire department, for duties at the pumping station was discussed. He is supposed to look after the machinery twice a day, Sundays included, and must be ready to respond to an alarm from the pumping station at any time.

"This is a serious thing," said Ald. Buller. "Suppose there was a fire and trouble at the pumping station at the same time."

"Leave it with the two chairmen," suggested Ald. Graham.

The chairman informed the board that $200 per annum was asked.

On motion it was decided that the chairman of the Fire, Water and Light committee and Chairman Metheral take up the question and report at the next meeting.

L. O. L. NO. 321

The Annual Celebration Held at Downer's Corners

L.O.L. No. 321, Downer's Corners, held their annual 5th November celebration last evening, with a large attendance. Tea was served from 6 o'clock to 8 o'clock, after which the following program was rendered. Mr. A. Holden, W.M. was in the chair and opened with a few brief remarks.

Recitation—Miss Elsie Frost.
Address—Rev. Mr. Cragg.
Comedy—Entitled "Burglars."
Address—Mr. Joseph Batten.
Recitation—Mr. Thos. Williams.

After closing with the National Anthem,

Guy Fawkes was burned on the green in front of the lawn.

CASES FOR THE COUNTY COURT

Otonabee Lady Says She Was Assaulted

Several cases will be tried before County Magistrate Edmison on Monday morning at the County Court, the papers having been served on all the parties concerned.

One is the case of Carney vs. O'Reilly and consists of a claim for unpaid wages of $20 against the latter.

WOOD CASE AGAIN

Another information has been laid against Mr. Payne, Warsaw, in which he is charged by A. J. Collingwood of the Catholic Society, with inducing a youth named Herbert Francis Wood to abscond from the Home. Two informations were laid about this matter, the first one by the boy, himself but it was dismissed by the Magistrate. On the same day, Mr. Collingwood acting for the society, laid another information to the effect that on or about April 24th, 1911, Payne was responsible for Wood's leaving the confines of the Catholic society. There will be some dispute about the legality of the action through the statute of limitation. This trial will take place on Tuesday morning.

CHARGE OF ASSAULT.

A charge of common assault instituted by Mrs. Hughes against a man named Gallipan, both of Otonabee, will also be aired on Monday. Mrs. Hughes claims that Gallipan was guilty of striking her.

Another charge of common assault will come up, this one, alleged to have occurred between two parties named Bishop and Lindsay, the latter, so the information reads, being the assailant. These parties reside in Harvey. Both alleged assaults are said to have occurred on Sunday, October 29th.

Entertained the Ladies

Mr. and Mrs. Robert Colin of North Monaghan, entertained the W.F.M.S. and Ladies' Aid of Springville Presbyterian church, Thursday, and the visitors had a splendid time. Before departing again, the ladies acknowledged in warm terms the kindness of their host and hostess.

Most country town tailors, in trying to be liberal, make pants too long.

PROMINENT RAILROAD MAN

STRONGLY ADVISES HIS FRIENDS TO TRY GIN PILLS FOR THE KIDNEYS

"I have been a Pullman Conductor on the C. P. R. and Michigan Central during the last three years. About four years ago, I was laid up with intense pains in the groin, a very sore back, and suffered most severely when I tried to urinate. I treated with my family physician for two months for gravel in the bladder but did not receive any benefit. About that time, I met another railroad man who had been similarly affected and who had been cured by taking Gin Pills, after having been given up by a prominent physician who treated him for Diabetes. He is now running on the road and is perfectly cured. He strongly advised me to try Gin Pills which I did,—with the result that the pains left me entirely.

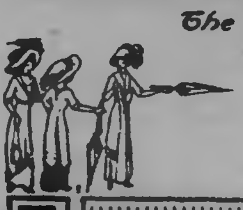
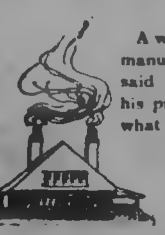
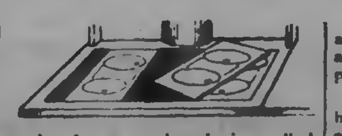
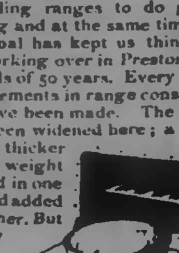
Ladies Made $75

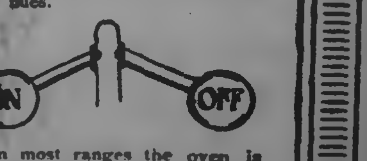
At the meeting of St. Andrew's Ladies' Aid Society yesterday afterno $75 was reported as being the amo realized on the Thanksgiving di











The Peerless Peninsular

a cast-iron range with modern oven and equipment

A wealthy mustard manufacturer once said that he made his profit not out of what people ate, but what they left on their plates.

The coal dealer might say about the same thing.

It's not the coal you use that buys his six-cylinder car, but the coal that goes up the chimney.

You might as well save some of that coal.

Building ranges to do good cooking and at the same time to save coal has kept us thinking and working over in Preston for upwards of 50 years. Every year improvements in range construction have been made. The flues have been widened here; a wall made thicker there; weight reduced in one spot and added to another. But every change has made the oven heat with less fuel and the construction of the range strong and durable. The perfect range which these years of study have produced is called "Peninsular."

Nickel ornaments, the number of lids, the special features or the size do not affect the internal construction or honest materials and workmanship that go into the "Peninsular." So that when buying one, a housewife may feel free to consult her own tastes as regards finish and appearance. If the range is "Peninsular" she will know that it will give her good bakings for the least amount of coal.

The Peerless

The PEERLESS Peninsular is a modern cast-iron range. Modern, because it has all the advantages of cast-iron and none of its disadvantages. In fact, it should be called a combination range—a combination of cast-iron steel. It has the firm close-fitting parts, the durable everlasting frame and the cosy home-like appearance, dear to all women; but—and here it differs from other cast-iron ranges—it also has a quick oven—an oven that heats evenly on every side, top and bottom—a square oven big enough to cook four pies at once; and it has a drop-oven door, which is not usual on a cast-iron range.

The PEERLESS Peninsular may be had with a steel warming closet and hot water reservoir and with a low closet under the oven for pots, pans and irons.

The PEERLESS is a perfect beauty and has many a convenience not found on other ranges.

Take the top of the Peerless Peninsular.

It is made in three separate sections which are interchangeable and which slide along or lift out whenever you want to clean the flues.

In most ranges the oven is either "on" or "off." That is, it is getting full heat or none at all. The Peerless Peninsular oven is regulated by means of a sliding damper so as to get just as much heat as you need. This is another way you save fuel.

Get "The Cost"

"THE COST of a Range" tells more about these Peninsular Ranges—not a list of pictures and prices, but a book showing that the after-cost is the big cost and how the "Peninsular" cuts it down. Yours, for the asking.

O'K O'K

Don't Judge the Lager You Drink by the Price You Pay For It.

The price has nothing to do with the quality. Imported lagers cost more than O'Keefe's "Pilsener" because of the high duty—NOT because they are better, or even as good.

O'KEEFE'S "Pilsener" Lager

The Light Beer in The Light Bottle

is brewed only of finest barley malt, hops and water—no rice, glucose or other ingredients—which cannot be said of any American lager.

O'Keefe's "Pilsener" is a pure, old, wholesome, healthful lager—brewed right here at home according to the Government standard—and is superior to any imported lager, no matter what the price.

SPRIGS OF SPORT

UNCONSCIOUS BUT PLAYED THE GAME

Remarkable Case of Rugby Player Who Was Injured

Hartford, Conn., Nov. 4.—That Pete Lawlor, the star halfback of Trinity team played practically all of the sensational Trinity-Wesleyan game on Trinity field yesterday while unconscious was the statement of Trinity to-night. Lawlor's case puzzles the physicians at the college, who declare it one of the most remarkable cases of temporary lapse of memory ever reported and say it was still more wonderful when at the end of the game Lawlor insisted that only one quarter had been played and continued to attempt line plunging against his teammates.

Lawlor in a scrimmage during the first period was kicked in the head, being rendered unconscious. He continued to play, however, and not one of his teammates noticed his condition. They realized that he missed a couple of signals and was slow on others, but as he was one of Trinity's strong players nothing was said to him. Throughout the remainder of the first period, the whole of the second and third periods and for about six minutes of the fourth period Lawlor continued to play, and while his work was at times somewhat different than his usual style of playing the teammates did not suspect that he was playing while unconscious.

Lawlor to-day told his teammates that he had remembered nothing from the time of the scrimmage shortly after Wesleyan had scored its first touchdown.

JUNIOR LEAGUE HAD GOOD TIME

Mrs. (Rev.) Couch entertained the Junior Epworth League at the parsonage last evening and the young people report a splendid time. Games were played and afterwards refreshments served by Mrs. Couch.

WON FINAL GAME IN POOL TOURNAMENT

With a score of 52 to 50, Mr. Art. Felleghem won the final game in the Belmont Club tournament last night in competition with Mr. Fred. Heaslip.

The contest was witnessed by a large number of the members, and was replete with good shots by the two competitors.

The prize was a cue presented by Mr. Chris. Graham.

HOW HE GOT THE LIQUOR

Floyd McMaster Not Backward in Giving Information

A youth who was placed on the "list" a couple of days ago, but who had not been presented with the papers that accompany the decree, was present at police court to-day, and pleaded guilty to being drunk yesterday. A friend came forward with the $4.00 to pay the fine imposed upon the listed one.

HOW HE PROCURED.

Floyd McMaster, the blacklister, who was summoned to appear this morning, was fined $12.60, which he paid. He was placed in the box by License Inspector Stewart to ascertain where he procured the liquor. He stated that Yorkston, his friend on the night the two alarmed Mrs. Meagher, had purchased two bottles of whiskey for him at one of the hotels. Yorkston knew, he said, that he was on the blacklist at the time. Prosecution will follow in Yorkston's case.

HAD A DREAM

Allan Lindsay's story of having had $90 taken from him while drunk must have been a pipe dream, for he never mentioned money when he was hauled up before the magistrate this morning, except that he had not the $5.85 to pay his fine. He is trying to raise the price at the place where he was working near No. 5 dam. Until he produces it the cells will afford him shelter.

SPREE COST $2.

An Irishman named James McGrathor was in the box for being drunk yesterday. Jimmy had the typical Irish brogue. He stated that he was working for the C.P.R. at Manvers and came to the city on business, but a little bit of pure rye got the best of him. He had $2 to hand over to the city treasury as a consequence.

ACCIDENTS WILL HAPPEN.

Fred Barlow was arrested for sleeping in a stable last night, and charged with vagrancy. The charge was not pressed by the chief, however, as it appeared that the man had unfortunately missed his connections with a vehicle that was to take him out to work in the country. He was allowed to depart on promising to go at the first opportunity.

Her Cup was Full.

The fact that Johnny was to compete for a prize for jumping was of little interest to Mrs. O'Halloran, if, indeed, she even knew it; what interested her was the train of disaster which accompanied his daily existence.

"Johnny's broke the school record!" announced Mr. O'Halloran, triumphantly, through the cloud of soapy steam which surrounded Mrs. O'Halloran and he wash-tube.

"Well, now, you can tend to that job yourself, Mike O'Halloran," returned his spouse, arms akimbo. "I've mended the front gate and the back gate, three chairs, and a table that he's broke all wid me own hands but whatever he's broke at school you can look after, or pay for having done, and save the money on your pipe, an' that's me last word!"

BROTHER OF BLIND ORGANIST WAS INJURED

Struck by Auto as it Backed Out of Lane

The following from the Kingston Whig refers to a brother of Mr. Herbert C. Trenear, the blind organist of St. Andrews:

William Trenear, Quebec street, was run over by an automobile on Friday morning and had his nose cut. A doctor was backing out of his laneway and ran into him. He was taken to the general hospital, where it required two stitches to close the wound. Outside of this cut, he is not seriously hurt.

William Trenear to whom the accident refers, is also blind. Herbert Trenear has another brother, who is blind. The local blind musical artist spent the past week in Kingston, his home town, and was there when the accident occurred. He returned to the city last night.

DIZZY SPELLS

Caused by Weak Kidneys

Dizziness is largely the result of disordered kidneys. Mrs. Hall, 84 Flora street, St. Thomas, Ont., says: "I suffered for years with spells of dizziness that would leave me unable to attend to any house duties. My back was weak and caused me much suffering through the night. I had doctored for years, but all to no avail. Nothing benefited me and my condition became worse. I learned of Booth's Kidney Pills. One box gave me a complete and lasting cure. I have not had a headache or dizzy spell since and I feel like a new person."

Don't think that it's woman's lot to suffer always, this is not true. A box of Booth's Kidney Pills will convince you of this. Send for a free trial or secure a box for 50c at your dealers. Postpaid from The R. T. Booth Co., Ltd., Fort Erie, Ont. Remember this pills are guaranteed.

Sold and guaranteed in Peterborough by Wm. Madill.

THE RING

Sam Langford, the Tar Baby, was in Montreal the other night, en route for Australia. Langford was accompanied by Joe Woodman, his manager, and Jake Davies, his sparring partner. Porky Flynn will join the party on board the Zealandia, the liner which will convey them across the Pacific. Sam will meet Jack Lester, Tommy Burns' white hope, Bill Lang, the Australian heavyweight champion, and Sam McVey, and probably two or three others. He will be away for eight or nine months.

When questioned as to whether he thought he could whip the men he will meet in Australia, Langford simply answered that he could whip anybody, and stuck to his statement though his manager and Jake Davies emphatically declared that there wasn't anyone, not barring Jack Johnson, he could not beat. Langford thought the statement about Johnson having retired from the ring mere newspaper talk, saying he could see no reason why the heavyweight champion should retire, as there was plenty of money in sight for him at the moment. He added that if he could get a match with Johnson he would retire whether he won or lost, as the fight would bring him a comfortable fortune.

The light heavyweight champion of the world, as he styles himself, has taken part in over two hundred battles in the course of his career.

East Kent Conservatives re-nominated Phil H. [illegible] M.P. [illegible]

SHANGHAI JOINS THE REBELS:

(Continued from page 1)

three persons were killed and several wounded.

The revolutionists have opened the warehouses and distributed rifles and revolvers. It is estimated that over two thousand volunteers were included in the Government forces that went over to the revolutionaries when they took the city. The rebels will ship machine guns and ammunition from here to Hankow.

China's Magna Charta.

Pekin, Nov. 4. The draft of the tentative constitution proposed by the National Assembly contains the following clauses:

The Emperor shall reign forever.

A person of the Taching dynasty (the great pure dynasty, the same being the name adopted by the ruling family) shall be Emperor inviolable.

The power of the Emperor shall be limited by the constitution.

The order of succession to the throne shall be prescribed by the constitution.

The power of amending the constitution shall belong to Parliament.

Parliament shall elect and the Emperor shall appoint the Premier, who will recommend the other members of the Cabinet, who shall also be appointed by the Emperor. The Imperial princes will be ineligible to the office of Premier or as members of the Cabinet or administrative heads of the province.

If the Premier when impeached by Parliament does not dissolve Parliament he must resign.

Imperial decrees cannot be issued to replace the law except in the event of urgent necessity in which case they may be issued in accordance with special conditions.

International treaties shall not be concluded with the consent of Parliament.

In case the financial budget fails to receive the approval of Parliament, the Government may not act upon the budget of the previous year nor may items of expenditure not provided for in the budget, be appended thereto. The Government shall not adopt extraordinary financial measures outside the budget.

$100 REWARD, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

CITY WATER IS ALRIGHT

Medical Health Officer Reports to Water Commissioners

Dr. A. W. McPherson reported at the Water Commissioners' meeting last night, a steady improvement in the condition of the water since the end of September and that the water at present is in first class condition.

The following were in attendance: Messrs. T. F. Matthews, chairman; W. H. Moore, and W. H. Hill.

A letter was read from J. A. Tedford, giving prices for weather strips for the doors and windows of the pumping station.

A communication was received from R. E. Wood, asking that the water be connected up with Mrs. Carnegie's house. An application for water for the house was received from Mrs. F. G. Carnegie.

Mr. Fawcett was instructed to have an inspection made of Mrs. Carnegie's house, also of the septic tanks, and to learn whether it is possible to supply water to the property.

It was moved and seconded that an account from E. Conroy for $576.65 be paid.

Mr. Fawcett was instructed to engage a draughtsman at a rate not to exceed $65.00 per month for the purpose of preparing a plan of the city, showing the water works system.

The following accounts were presented and ordered to be paid.—

A Lazy Liver

Upsets the Whole System.
Dr. Morse's Indian Root Pills Put Things Right Again.

His liver is to sluggish — his stomach bad

A bitter taste in the mouth—coated tongue—dizziness on rising suddenly—bowels alternately loose and constipated—these mean that the liver is out of order.

Instead of flowing into the bowels, to regulate them and aid digestion, the bile has been going all through the system, upsetting digestion, leaving the bowels constipated, and making the sufferer perfectly miserable. This is biliousness.

The quick, safe and certain cure is **Dr. Morse's Indian Root Pills.** They clear out the clogged-up system, stir up the lazy liver, cleanse the stomach and bowels and purify the blood. The bile returns to its normal course, the food is again digested properly and all the disagreeable symptoms vanish.

Doctors prescribe *Dr. Morse's Indian Root Pills* and they are known throughout the world as a proven cure for all digestive troubles. They are equally effective in strengthening weak kidneys and curing rheumatism.

Made by W. H. Comstock Co., Ltd., Brockville, Ont., and sold by all dealers at 25c a box. 15

MEN-YOU NEED NERVE

EARLY INDISCRETIONS AND EXCESSES HAVE UNDERMINED YOUR SYSTEM

The nerves control all actions of the body so that anything that debilitates them will weaken all organs of the system. Early Indiscretions and Excesses have ruined thousands of promising young men. Unnatural Drains sap their vigor and vitality and they never develop to a proper condition of manhood. They remain weaklings, mentally, physically and sexually. How you feel? Are you nervous and weak, despondent and gloomy, specks before the eyes with dark circles under them, weak back, kidneys irritable, palpitation of the heart, bashful, debilitating dreams, sediment in urine, pimples on the face, eyes sunken, hollow cheeks, careworn expression, poor memory, lifeless, distrustful, lack energy and strength, tired mornings, restless nights, changeable moods, premature decay, bone pains, hair loose, etc.

This is the condition our New Method Treatment is GUARANTEED TO CURE

We have treated Diseases of Men for almost a lifetime and do not have to experiment. Consult us FREE OF CHARGE and we will tell you whether you are curable or not.

We guarantee curable cases of NERVOUS DEBILITY, VARICOSE VEINS, BLOOD AND SKIN DISEASES, GLEET, BLADDER URINARY AND KIDNEY COMPLAINTS

Free Booklet on Diseases of Men. If unable to call write for QUESTION LIST FOR HOME TREATMENT

FIRST MORTGAGE FORTY-YEAR SINKING FUND GOLD BONDS

Dated July 1st, 1911 Due July 1st, 1951

Interest payable 1st January and July

Principal and Interest payable at the Bank of Montreal, Toronto, Montreal and London, England

Redeemable as a whole at 105 and accrued interest on or after July 1st, 1914, on prior notice, or annually for Sinking Fund drawings, beginning July 1st, 1916

Denominations: $100, $500 and $1,000
with Sterling equivalents

Bonds issued in coupon form with privilege of registration of principal and in fully registered form. Coupon and registered bonds are interchangeable.

TRUSTEE-
NATIONAL TRUST CO., LIMITED, TORONTO

The legal opinion of Messrs. Blake, Lash, Anglin and Cassels, Toronto will be furnished.

We emphasize the following salient points of this issue:

(1) Value of assets as of July 1st, 1911, $5,000,000—Consisting of Real Estate, Buildings, Plant and Goodwill, $3,837 911.94, and Net current quick assets in excess of current liabilities, $1,162,088.06.

Included in current assets is the sum of $734,909 invested in Municipal and other bonds.

(2) Average annual net earnings for past four years (1907-1910) $291,719 or practically 3¼ times the interest on the present bonds.

(3) An annual Sinking Fund beginning July 1st, 1916, sufficient to retire the present issue prior to maturity at a maximum price of 105 and accrued interest.

The Company has outstanding $1,500,000 7% Cumulative Preferred Stock and $2,000,000 Common Stock, both of which are listed upon the Toronto and Montreal exchanges.

The present capacity of the plant which may be said to comprise everything required for the building of the most modern and up-to-date locomotives, provides for a yearly output of seventy-five engines, but as each year many satisfactory orders have been declined owing to the inability of the Company to make the deliveries required, it has been decided to proceed immediately with such enlargement of the works as will increase their future output to at least double their present capacity. Therefore, it may safely be assumed that a corresponding increase in the earnings of the Company will be assured.

At the present time, the Company has a sufficient number of orders on its books to keep it fully employed for about a year, and if negotiations for additional contracts now pending are successful, the Company will have abundance of work until the early months of 1913.

The excellent management of the Company has been further strengthened by the acquisition of Mr. A. W. Wheatley as its General Manager. Mr. Wheatley is one of the foremost locomotive manufacturers in America, having, previous to joining this Company, been the General Manager of the American Locomotive Company's plant at Dunkirk, N.Y., the second largest locomotive works on this continent.

ANNIVERSARY OF INDUCTION

Dr. Marsh Has Been at Springville Five Years

The fifth anniversary of the induction of Rev. Dr. Marsh, as pastor of Springville Presbyterian church, will be observed to-morrow with special sermons at the church. Rev. J. D. Morrow, of Dale Presbyterian church, Toronto, is to preach, and the choir of Fraserville Methodist church is to assist with music. At the evening service, music will be given by a

On Monday evening, a concert, in which Toronto, Orillia, and Peterboro talent will take part, is to held in the church, and altogether the anniversary services promise to be exceedingly interesting.

During the five years, pastor and congregation have worked harmoniously together, and the church has made splendid progress.

Dr. de Van's Female Pills

A reliable French regulator; never fails. These pills are exceedingly powerful in regulating the generative portion of the female system. Refuse all cheap imitations. Dr. de Van's are sold at $5 a box, or three for $10. Mailed to any address. The Scobell Drug Co., St. Catharines, Ont.

Mr. G. T. Pettigrew, who, as Division Freight Agent at Montreal, succeeds Mr. Frank J. Watson, entered the service of the Grand Trunk, May 1st, 1888, and served as apprentice and clerk in the General Freight Agent's office until October 1st, 1895 on which date he was tranferred to the Foreign Freight Department; on January 1st, 1898, he was transferred to the General Freight Agent's office and on January 1st, 1899, was appointed to a clerkship of more responsibility in the Foreign Freight Agent's office; January 1st, 1893, he was appointed Chief Clerk in this latter office, and on July 22nd, 1907, he was appointed Division Freight Agent at

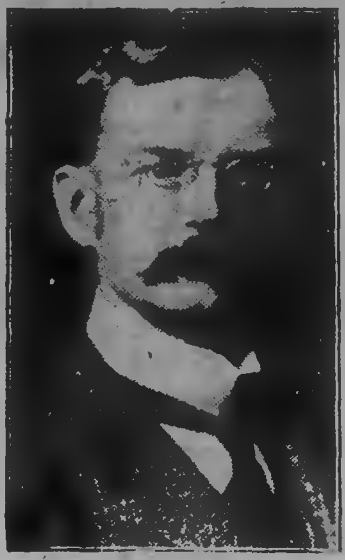
WHAT CANADIANS ARE DOING

H. B. AMES

Mr. Ames, of Montreal, is taking a chair a few paces to the rear of the front row these days so far as politics are concerned, and a few years of calmer life will probably operate to the ultimate advantage of the general public, and, incidentally, of Mr. Ames himself.

Mr. Ames was born in Montreal in June 1863, his father being a man of Massachusetts. His educational days of early life were spent in private and public schools of Montreal, following which were added some sections of a more advanced intelligence at Williamstown and Easthampton, Mass., and at Amherst College, also Massachusetts, from the latter of which he graduated in 1885. Mr. Ames, it will be recognized has even stronger leanings towards The States than usually come from the study of possible Reciprocity advantages to Canada.

Minor honors include membership



H. B. AMES
Now Out of the Political Lime Light

of the Council of Public Instruction for Quebec; Montreal Alderman 1898 to 1906; House of Commons 1906 to 1908. Mr. Ames is a Presbyterian, and a director of the Ames-Holden Co. Ltd. Motnreal.

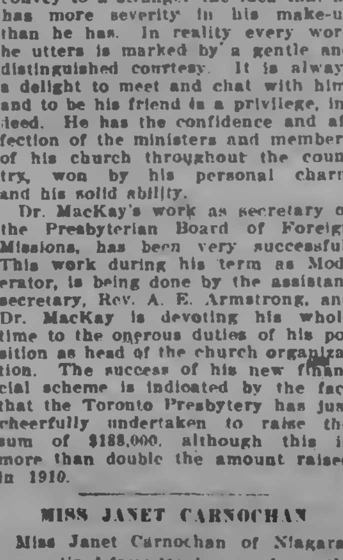
REV. ROBT. P. MACKAY, D.D.
Moderator, Presbyterian Church Assembly

Rev. Robert P. MacKay, D.D., Moderator of the General Assembly of the Presbyterian church in Canada, and author of the scheme for raising a million dollars for the various schemes of the church in 1912, by allotting to each local Presbytery a fixed amount is a very fine type of clergyman and church administrator. Photographs of the Moderator might convey to a stranger the idea that he has more severity in his make-up than he has. In reality every word he utters is marked by a gentle and distinguished courtesy. It is always a delight to meet and chat with him, and to be his friend is a privilege, indeed. He has the confidence and affection of the ministers and members of his church throughout the country, won by his personal charm and his solid ability.

Dr. MacKay's work as secretary of the Presbyterian Board of Foreign Missions, has been very successful. This work during his term as Moderator, is being done by the assistant secretary, Rev. A. E. Armstrong, and Dr. MacKay is devoting his whole time to the onerous duties of his position as head of the church organization. The success of his new financial scheme is indicated by the fact that the Toronto Presbytery has just cheerfully undertaken to raise the sum of $188,000, although this is more than double the amount raised in 1910.

MISS JANET CARNOCHAN

Miss Janet Carnochan of Niagara, now retired from teaching and greatly interested in the collecting of historical material, is a native of the Niagara peninsula. She is as keenly interested in educational life to-day as she was when she began teaching.



MISS JANET CARNOCHAN

Casey—"I don't believe it. Shure, I was talkin' to him yistherd'y an' he niver sed a word about it."

I have no use for the loafer who goes about telling how liberal he would be if he had an in-

SUFFERED FROM VIOLENT CATHARTICS

The Warning of Mr. Geo. C. Fox Is One That Should Be Heeded by All.

Few men on the road are better known than genial George Fox, whose friends throughout the West are legion. In the following letter he expresses gratitude for signal services rendered by Dr. Hamilton's Pills. He goes on to say: "Until I used Dr. Hamilton's Pills and experienced their wonderful mildness and curative power, I estimated the value of every pill by its activity. Talking about this to a well-known physician I met on the train the other day, he explained there are different kinds of drugs that act upon the bowels, the most active being known as drastic. Except in extreme cases where the life of the patient depends upon speedy evacuation of the bowels, pills should never be drastic. Purgatives cause catarrh of the bowels and inflammation; their dose must be increased, causing even more harm. With such a clear explanation I could see why Dr. Hamilton's Pills are curative and not irritating, why they are mild, yet most searching.

"From my experience I recommend everyone that takes pills to give up the old-fashioned harsh, purging pill, and, instead, to use Dr. Hamilton's. They cure headache, biliousness, constipation, bad stomach, and keep the system in perfect condition."

Refuse any substitute for Dr. Hamilton's Pills; sold for 25c., all dealers, or The Catarrhozone Co., Kingston, Ont.

Dr. Hamilton's Pills Cure Constipation

Crew May Be Drowned.

Chatham, Mass., Nov. 4.—A three-masted schooner sunk to her topmasts three miles west of Handkerchief Shoals, was discovered by the life-savers of Monomoy Point yesterday, but her name and the fate of her crew remained a mystery last night. It is thought probable that the schooner went down after a collision Thursday night.

Whether the crew of half a dozen men were picked up by the other vessel or made their way in safety to the Handkerchief Lightship and are now there waiting to be taken off, or whether they went down with their craft, is not known. The revenue cutter Acushnet, stationed at Woods Hole, was notified last night of the accident and will visit the wreck early to-day.

Missing Man at Barrie.

Barrie, Nov. 4.—James A. Clark, the blind young man who left his home in Toronto three weeks ago and whose whereabouts has caused considerable anxiety to his mother, has been working in Barrie for the past two weeks.

Clark thinks there was no need for any anxiety. He stated that as his father and mother had separated, he had taken care of his mother, who was of a very nervous temperament. His eyesight being affected, his mother was anxious for him to get employment in a piano factory near home, but this he found it difficult to do, and finally decided to seek employment elsewhere.

Fire at North Bay.

North Bay, Ont., Nov. 4.—Fire which broke out at midnight destroyed the refrigerator factory of E. M. Bogart, and the frame buildings belonging to Thomas Lafrance and John Connolly, used for warehouse purposes.

Two firemen were hurt when the hose wagon collided with a pole while being driven to avoid some excavations in the street. The horses then ran away.

ARE YOU AS WELL AS A YEAR AGO?

Dr. Williams' Pink Pills Point the Way to Health and Strength

Ask yourself the important question whether you are as strong as you were a year ago, as bodily fit as you should be. Many a reader has to confess "No." Some weakening ailment has during the past year laid hold of the system, unfitting you for the duties of life and seriously clouding the outlook of the coming days. It may be rheumatism with its sharp twinges of pain, indigestion, headache, nervous debility, depression and lack of energy, or the pains and ailments which only common folks know. It is well to know that all these weakening disorders arise from an impoverished condition of the blood. Renew and enrich your blood and all your troubles will cease. This is a strong statement, but it is made on the testimony of thousands who once suffered, but who have gained health and strength by the aid of the new, rich blood supplied by Dr. Williams' Pink Pills. We can quote thousands of cases similar to the following. Mr. Jos. Grandmaison, is a young man well known in the town of St. Jerome, Que. He says: "For a couple of years I began to find my strength failing, but did not dream that the trouble was serious. As I grew weaker I began to doctor, but it did not help me. The least exertion made my heart palpitate violently, my stomach seemed out of order and my whole system became so run down that I was finally forced to quit work. I had now been doctoring for almost six months and was very naturally growing discouraged. At this juncture I read of a case similar to mine, cured through the use of Dr. Williams' Pink Pills, and decided to try them. I took the Pills faithfully for about two months, gradually growing stronger and at the end of that time I was as well as any man could be. I shall always praise the medicine that raised me from despair to the blessing of good health."

Sold by medicine dealers everywhere or sent by mail at 50 cents a box or six boxes for $2.50 by The Dr.

LETTERS TO THE EDITOR

The Review does not hold itself responsible for opinions expressed by its correspondents

SOME CAUSES

To The Editor of The Review,

Sir,—These are some causes of the political turnover in the recent Dominion elections.

1st.—Canadians were distrustful of the Americans in their offer of reciprocity, in view of past experiences in making treaties and setting boundaries with them; and in view of the speeches of the leading statesmen of the United States, such as President Taft and Mr. Champ Clark about "the parting of the ways," and "annexation," and in various flag incidents between us. That the reciprocity pact or treaty was unpopular here was evidenced not only by the defeat of the Laurier Government, but by the defeat of the Government's two representatives to Washington, Messrs Fielding and Paterson, who helped negotiate it. Also the Liberals used too much scorn and abuse of the anti-reciprocity party in their campaign; their arguments were weaker and the present prosperity and good prices for farm products, left the Liberals with very little ground to stand on. The people were afraid to give up what they were sure of, for something that was uncertain. The Liberals were also defeated in 1891, when they appealed to the country on reciprocity.

2nd—The attitude of Rome towards Canadian laws and liberties, as in the Ne Temere decree, and Sir Wilfrid's attitude at the Eucharistic Congress held at Montreal, and his visit to the Pope at Rome; his attitude toward the Separate School question in Alberta and Saskatchewan, and toward the Jesuit Estates Act, and his declaration that he was neither an "Imperialist" or an "Anti-Imperialist," and above all his obstructive tactics at the Imperial Conference.

3rd.—Sir Wilfrid's procrastinating policy in bringing the Trent Valley Canal, to a successful completion and leaving it unopened at either end, after about 15 years in power; as well as his obstruction of the Georgian Bay canal scheme, as outlined by Mr. Perks of England. This great public work it seems to me, is one of the most important undertakings for the benefit of our Dominion that could be carried out at the present time. Also mismanagement in building the Transcontinental railway and the Quebec bridge.

4th—Sir Wilfrid's treatment of the temperance movement in our Dominion by taking the great plebiscite, and getting Quebec to give an adverse vote so as to furnish an excuse to break his promise; and the subsequent passing of the Parmelee amendment by which the Liberals shelved the prohibition question.

5th—The increasing graft and corruption in the Liberal party.

Yours Respectfully,
WILLIAM F. PAYNE.
Lakefield.

NOT MONKEY MEN.

To the Editor of the Review.

Sir,—In reply to your correspondent's letter of recent date, I would like to say in defence of Darwin, that Darwin did not claim to be descended from a monkey. I do not think he claimed even that such men as your correspondent were.

Yours, etc.,
"CRITIC."

Read Riot Act at Fernie.

Fernie, B.C., Nov. 4.—The riot act was read in Fernie Thursday night by Mayor Bleasdell after a violent outbreak on the part of the miners, when a train arrived from Coal Creek with men on board, who had gone to work in the mines without waiting until the agreement, now under consideration at Frank, had been signed and ratified.

Mr. Frank J. Watson, the newly appointed Assistant General Freight Agent at Montreal, entered the Grand Trunk service at Toronto, March 1st, 1884, and served in various capacities there and at Hamilton until May 1st, 1892, when he was appointed Travelling Freight Agent at Montreal. On July 1st, 1896, he was appointed Chief Clerk to the Division Freight Agent, Hamilton, August 1st, 1897, Division Freight Agent, Stratford, and on December 6th, same year, Division Freight Agent, Montreal, which position he has since held.

Arthur Prime, a G.T.R. engineer, for 40 years, is dead at Brantford, aged 63.

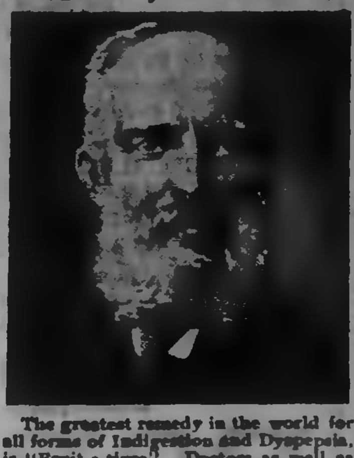
TORTURED FOR THIRTY FIVE YEARS

I really could not live without "Fruit-a-tives"

FENAGHVALE, ONT. Jan. 29th. 1910.

"For thirty-five years (and I am now a man over seventy) I have been a terrible sufferer from Constipation. No matter what remedy or physicians I employed, the result was always the same—impossible to get a cure. About two years ago, I read about 'Fruit-a-tives' and I decided to try them.

I have used 'Fruit-a-tives' ever since. They are the first and only medicine that suited my case. If it were not for 'Fruit-a-tives' I am satisfied that I could not live" JAMES PROUDFOOT.



The greatest remedy in the world for all forms of Indigestion and Dyspepsia, is "Fruit-a-tives". Doctors as well as hundreds of people proclaim it.

"Fruit-a-tives" cures all stomach troubles because it makes the liver active, strengthens the kidneys, purifies the blood and keeps the stomach sweet and clean. "Fruit-a-tives" is the only remedy made of fruit juices.

50c. a box, 6 for $2.50, or trial size, 25c. At all dealers, or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

The Commissioners of the Transcontinental Railway.

NOTICE TO CONTRACTORS

Tenders for Boilers and Boiler Room Equipment.

SEALED TENDERS, addressed to the undersigned and marked on the envelope "Tender for Boilers and Boiler Room Equipment," will be received at the office of the Commissioners of the Transcontinental Railway, at Ottawa, Ont., until 12 o'clock noon of the 8th day of November, 1911, for the construction and erection complete, in accordance with the plans and specifications of the Commissioners, of boilers and boiler-room equipment to be installed in the engine houses as follows:

—150 H. P. Horizontal Return Tubular Boilers at Napadogan, N. B., Mile 115, District A.

2—150 H. P. Horizontal Return Tubular Boilers at Edmundston, N. B., Mile 230, District A.

3—150 H. P. Horizontal Return Tubular Boilers at Cochrane, Ont., Mile 1057, District D.

Plans, details and specifications may be obtained at the office of Mr. W. J. Press, Mechanical Engineer Ottawa, Ont.

Each tender must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered Bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway, for an amount equal to ten per cent (10 p.c.) of the amount of the tender.

The cheque deposited by the party whose tender is accepted will be deposited to the credit of the Receiver General of Canada as security for the due and faithful performance of the contract according to its terms. Cheques deposited by parties whose tenders are rejected will be returned within ten days after the signing of the contract.

The right is reserved to reject any or all tenders.

By order,
P. E. RYAN,
Secretary.

The Commissioners of the
Transcontinental Railway.

Newspapers inserting this advertisement without authority from the Commissioners will not be

DELAYED SHIPMENTS ARRIVING

After long delay, caused by the dock strikes in Liverpool, England, a large part of the balance of our big Fall order of the newest seasonable goods has just arrived. Everything has at once been put into stock and marked down to Retiring Sale Price for immediate disposal. This adds very decidedly to the advantageous opportunity offered to Peterborough and community by the

GREAT RETIRING SALE

SOME OF THE NEW ARRIVALS

The first to inspect these latest goods will be almost certain to purchase. They were bought to bring the Robert Fair & Co., Limited, Fall and Winter stock up-to-date, and their value is abundantly evident.

EVENING WEAR MATERIALS FROM PARIS AND LONDON, TWEED SUITINGS, BLACK AND NAVY BROADCLOTHS AND SERGES, FANCY DRESS SILKS, ALL-OVER LACES, PLAUEN LACES, FLOUNCING EMBROIDERIES, BOYS' RIBBED STOCKINGS, LADIES' AND CHILDREN'S PLAIN AND RIBBED STOCKINGS. Keep in mind and make fullest use of the making up departments for Dressmaking and Millinery.

SOME, AS YET, LITTLE TOUCHED LINES

The rush has been greater in some sections than others, but a suggestion of lines that will appeal strongly when brought to mind might be timely. Don't overlook these—

LADIES' SUITS TO SELL AS LOW AS $7.00, LADIES' SHIRT WAISTS, LADIES' SILK AND NET DRESS WAISTS, LADIES' WHITEWEAR, HOUSE-FURNISHINGS, WILTON RUGS, AXMINSTER RUGS, BRUSSELS RUGS, TAPESTRY SQUARES, INGRAIN CARPETS, NEW PURE WOOL, WHITE BLANKETS, DOWN COMFORTERS, &c.

MILLINERY Extra Special } *Velour and Beaver Shapes, the very newest designs. Also splendid values in Ostrich Feathers and Willows.*

This mammoth Sale means many hundreds of dollars left in the pockets of the prudent buyers who grasp the opportunity, and that much less for the store, but the big $65,000 Stock must be hustled off our shelves as quickly as possible, so there is no hesitation when the knife is applied to the old prices. Hundreds have profited largely. Many more may do so if they wish to avail themselves of the chance while it lasts.

No Goods Exchanged or on Approval. | Same courtesy as before to Open Account Patrons.

Intending Passengers for the Old Country, to spend Christmas at home, should book their passages quickly, as many of the Christmas sailings are already filled up, especially in the third class. Berths reserved all lines. See W. McIlroy, Agent C.P.R., 343 George St. 3d

FINE RECORD IN HORSE SHIPMENT

From St. Paul to Vancouver in Less Than Four Days

Montreal, Nov 4.—Railway shippers, and especially shippers of live stock, will be interested in the record made by the Soo line and the Canadian Pacific Railway in transporting a shipment of horses from St. Paul to Vancouver last month. The shipment, which consisted of one hundred and fifty thoroughbred horses, was made from Lexington, Ky. by Irving H. Wheatcroft, a retired United States railroad man, and the owner of several big stock farms. In shipping his stock via the Soo line and the C.P.R., the only stipulation of importance made by Mr. Wheatcroft was that the horses should be delivered in good condition at Vancouver not more than six days after they had left St. Paul.

In forwarding the shipment the C.P.R. not only made delivery at Vancouver within the six days, but cut the time down to under four days, three days and twenty-one hours, to be exact. The special train containing the horses left Minneapolis at 10.15 a.m. on Oct. 13th, on Oct. 14th at 6.20 p.m. it reached Portal and it left Portal the same night at 8.00 o'clock. The trip over the C.P.R. lines from Portal was made in sixty-two hours, Vancouver being reached at 8.30 p.m. Oct. 17th. This is remarkable good time and on the arrival of the horses at Vancouver Mr. Wheatcroft complimented the C.P.R. officials on the high standard of their freight service. The horses were eventually shipped to Australia on the steamship Kishi, which sailed from Vancouver at 4.30 p.m. Oct. 30th

ORANGE CONCERT

Annual 5th November Concert in Forester's Hall, Simcoe St., Monday evening, Nov. 6th Choice programme and addresses Admission 25 cents.

Rally in Mr. Peck's Interest

Saturday night at Central Committee Rooms, George street. Speakers will discuss issues of the campaign.

The better the man, the more an attack on him is enjoyed.

POTATOES STILL AT HIGH PRICES

Farmers Asking $1.40 and $1.50 for Their Tubers

None of the farmers on the market this morning, seemed to be able to explain why potatoes were being shipped to the city and sold at $1.15 per bag, while $1.40 and $1.50 were the prevailing prices on the market. Tis true there were not many of the "murphies" on deck to-day and probably the salesmen were holding out for the high price since the people had to buy. Pork predominated on the outside market and sold at 11 and 12c. hind quarter and 8 1-2 by the fore quarter.

Other prices on the outside market were as follows—Lamb by the quarter 11 and 13c.; apples, "king" per barrel $3.50; russets per bag, 75c.; wealthies, per bag, $1.25; onions, per peck, 35c.; beets and carrots, per peck, 20c; parsnips, per peck, 25c; cabbage, per doz., 60.

UPSTAIR MARKET

There was not the crush upstairs this morning, that was so noticeable a week ago. Though the denizens of the farmyard were numerous, they were not so much in evidence as on the Thanksgiving market. Eggs were in the minority.

The prevailing prices were— Eggs, 30c; butter, 29 and 30c.; chickens, per pair, 80c. to $1.00; ducks, each, 60; geese, each, $1.10 and $1.25; turkeys $1.25 to $2.50, according to size.

ZAM-BUK CURED HIS SORES

Cures Also Chapped Hands and Chilblains

Mr Chas. Hardy, of 658 Home street Winnipeg, says—"My eldest son has proved the value of Zam-Buk and he would not be without a supply in the house. He had both ears so badly frozen that we became alarmed for fear they should have to be amputated. His ears were swollen to several times their usual size, and were very much discolored. Large blisters formed and then these burst and painful sores on both ears resulted. The sores matted, scales formed and the boy suffered terribly.

"The preparations which we at first used were found next to useless, in fact the wounds grew steadily worse, so we then tried Zam-Buk and found a great improvement in one or two applications.

"We continued with this herbal balm, until the scales and foul matter were cleared away thoroughly, and healing began. In a week from first using this excellent balm, the lad's ears were almost well again. In three weeks you would never have known his ears had been frozen, so well had Zam-Buk brought about healing."

Here is but one illustration out of scores of how superior Zam-Buk is to other salves. It also cures chapped hands, chilblains, piles, inflamed sores eczema, ringworm, scalp sores, ulcers abscesses, blood-poison, cuts, burns, scalds, and all skin injuries and diseases. On account of its purity and its herbal composition, it is the ideal balm for babies and young children.

All druggists and stores at 50c. box or post free from Zam-Buk Co., Toronto, upon receipt of price. Try also Zam-Buk Soap, 25. per tablet.

ITALIAN HAD HIS FOOT CRUSHED

Falling Rail Caused Painful Injury to C.P.R. Employee

An Italian who has been employed about three miles west of here, on construction work for the C.P.R. had the misfortune this morning to have a steel rail fall on his right foot, crushing it rather painfully.

He was brought to the city by some fellow workmen and was met at the C.P.R. station by Comstock's ambulance and conveyed to the Nicholls Hospital, where he is doing nicely.

ART IN EYE GLASS MAKING

Perfection seems to have been reached in the making of Eye Glasses, when one beholds the creation of the present time. Our stock is always replete with the newest and best goods from the best makers; the standard of durability is not sacrificed, but lightness, style and strength are combined.

OUR SKILFUL FITTING and adjusting will satisfy the most critical.

J. W. BROWETT, OPTOMETRIST. Optical Institute, Market Building.

Have you Bought your Winter Coat yet ?

READY-TO-WEAR STORE FOR LADIES AND MEN 432 George St. Phone 711.

Y.W.C.A. WORK AT NORMAL SCHOOL

Students Will Organize and Take up the Work

Y.W.C.A. work will be in evidence at the Normal School this term, the students having decided to organise after an address by Miss Mabel Jamieson, travelling secretary of the Y.W.C.A., given to them on Thursday afternoon.

Officers will be elected in the near future, so that the work may be proceeded with. This work is mostly devotional and is of great benefit to the prospective teachers.

In the colleges and universities, association work is an important factor as the opportunities are larger since the students are in attendance more than one year. With the Normal, the case is different as the work can only be taken up during a small portion of the one term, but nevertheless, the progress made, warrants the good work being continued.

Hastings Rink

Mr. Wm. Scriver purchased the rink last week from Mr. John Fitzgerald and has started to get things ready for the winter months.

TO CURE A COLD IN ONE DAY Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box 25c.

ASSIGNEE'S NOTICE TO CREDITORS

TAKE NOTICE that The Peterborough and Lake Simcoe Navigation Company, Limited, debtor, whose head office is at the City of Peterborough, Ontario, has made an assignment of its estate to me for the general benefit of its creditors under The Assignments and Preferences Act, (10 Edward VII, Chapter 64.

The creditors are notified to meet at the chambers over the Bank of Montreal, Water street, in the said city, on **THURSDAY, the Sixteenth Day of November**, 1911, at three o'clock in the afternoon, for the purpose of receiving a statement of the debtor's affairs, for the appointment of inspectors and the giving of directions with reference to the disposal of the estate.

All persons claiming to be entitled to rank on the estate must file their claims with me, with the proofs and particulars thereof required by the said Act, on or before the day of such meeting.

AND NOTICE IS FURTHER GIVEN that after the Fifteenth day of December, 1911, I will proceed to distribute the assets of the debtor amongst the parties entitled thereto, having regard only to the claims of which notice shall then have been given, and that I will not be liable for the assets or any part thereof so distributed to any person or persons of whose claim I shall not then have had notice.

W. H. MOORE, Solicitor. WM. BULLER, Assignee.

That Photo

NOW is the time to have that Photograph for Christmas. A few more days and it will be too late.

ITALIANS ARE HEMMED IN AT TRIPOLI ; ARE FACING STARVATION AND THE CHOLERA

Denials of the Butchery Are Said to be Lies—Thousands Were Butchered in Cold Blood.

Londo, Nov. 6.—"Ananias in his palmiest days never wrote half so many falsehoods and misrepresentations as have appeared in the Italian press in the official statements issued by the Italian Government," telegraphs the correspondent of Reuter's Telegram Co., Limited, at Tripoli, who arrived at Malta Saturday.

From Malta he was able to send an uncensored message which contains a pessimistic description of the condition of the Italian army around what he terms the besieged City of Tripoli. He says: "To sum up the results of the campaign, the Italians hold with nearly twice as many men, half the ground that they held three weeks ago. They have lost in killed and wounded, not counting the sick, well over 1.000 men. Many Arabs have been killed and vast numbers were shot in cold blood. Now 25,000 soldiers find themselves with their backs to the sea, cramped and confined, with an active enemy within a few yards of them and with cholera raging among them, for despite official efforts to conceal the truth, there have been many cases among the troops, and the civil population is suffering so much that whole streets in Tripoli have been closed by armed sentries.

"There has been no disgrace. On the contrary, the Italian troops fought with great courage, and their officers set a noble example.

"For four days after the engagement of Oct. 23, the Italian soldiers engaged in indiscriminate slaughter of the Arab population under Gen. Caneva's sanction," continues the correspondent. "Caneva first issued a general order to shoot all Arabs found with arms, but only when caught by troops in charge of officers. The troops complained that numbers of Arabs had hidden their arms and resumed work as innocent husbandmen. Thereupon Gen. Caneva issued another order, to shoot all Arabs who could reasonably be suspected of having borne arms."

The correspondent gives instances witnessed by himself and his colleagues, and follows with signed statements by the latter, made at the request of the British consul, and affidavits of three German residents in refutation of the Italian Premier's denial that women and children were shot. These statements, which are likely to stimulate the agitation against Italian methods, are beginning to excite Europe.

PROBABILITIES

South east winds, with rain to-day southwest gales to-night. Tuesday, Strong westerly winds, fair.

DOMINION IS RAKING IT IN

Treasury Full at Ottawa and is Fattening

Ottawa, Nov. 6.—The Dominion financial statement for October shows a revenue during the month of $12,221,653.27, as against $9,666,192.95 in October last year. The ordinary expenditure for the month was $4,364,903.11, as compared with $6,099,436.69 in the same month of 1910.

The revenue for the seven months is $76,291,178.04, as compared with $65,814,386.28 in the same period of last year, while the expenditure for the months has been $40,298,360.13, against $41,208,109.65.

The capital expenditure for the month was $2,561,812.30, against $3,548,270.93, and it is worthy of note that there were no payments on account of bounties. For the seven months the capital expenditure has been $14,889,830.43, as against $15,978,415.24. The public debt decreased by $8,344,844.50 during the month.

LEGAL TECHNICALITIES IN THE McNAMARA CASE BLOCKING

Full Jury by the First of January Expected Now.

Indianapolis, Nov. 6.—Judge Joseph Markey of the County Criminal Court, Saturday afternoon granted to the International Association of Bridge Workers an appeal to the Indiana Supreme Court from his order giving temporary possession of the evidence in the McNamara dynamiting case to the federal grand jury.

Detectives identified as assistants of William J. Burns and others, said to be agents of the Department of Justice at Washington were in court Saturday watching persons in any way interested in the dispute as to possession of evidence in the McNamara dynamiting case.

Los Angeles, Cal., Nov. 6.—Only five men out of the fourth venire drawn in the McNamara murder trial presented excuses Saturday pleasing to Judge Bordwell in his preliminary examination. One of them, Harry Chandler, son-in-law of General Harrison Gray Otis, proprietor of The Los Angeles' Times, was excused only temporarily.

Fifteen men on the venire of forty were not found, so that twenty venire men remain for service. This is about the usual proportion.

New Year's Day, 1912, will see a full jury box, in the opinion of counsel.

HE IS OFF TO A GOOD START

Mr. E. A Peck, the Conservative Candidate for the Legislature, is preparing for an aggressive campaign.

ANOTHER AUTO CRASH OCCURS IN TORONTO ; WOMAN MAY DIE

Head Was Blown Off.

Kingston, Nov. 6.—Robert W. Curragh, aged 18, son of James Curragh, Stuart street, was accidentally killed while out shooting at Collins' Lake yesterday morning.

Meagre particulars have been received, but it is believed that his rifle exploded. He had gone on a hunting trip with a companion.

The discharge blew the head right off the body.

CORNWALL IS BACK TO WATER

British Cruiser Leaves Dry Dock at Halifax

Ottawa, Nov. 6.—H.M.S. Cornwall, which was badly damaged while going to the rescue of the disabled Niobe, of the Canadian navy, off Cape Sable, is out of dry dock at Halifax, and has left for England. The Niobe, which has been anchored in the harbor, will go into the dock for permanent repairs.

The fourth cruiser squadron, which will provide the officers for the court-martial in connection with the Niobe mishap will reach Halifax this week.

The repairs made to the Cornwall under the direction of Marine Department officials were inspected by an officer sent out by the British Admiralty. The work done by the Canadians was pronounced so satisfactory that further repairs when the Cornwall reaches England may not be necessary.

WEDS SON OF AN ITALIAN ADMIRAI

MR AND MRS RICCARDO BERTELLI

Miss Ida Conquest, of Brooklyn, an actress, captured a Genoa fortune on Oct. 24 [illegible]

Car Came Along on the Other Track, Behind One That Stopped, and Hit the Auto.

Toronto, Nov. 6.—Still another motor car accident was added to the year's long list yesterday, when a machine collided with a street car at Harbord and Grace street, at 3.40 o'clock, and three of the passengers in the motor were injured, one very seriously. As well, a dozen people in the street car was considerably shaken up. The injured are:

Mrs. Jane A. Holstead, 71 Madison avenue, fractured skull, may die.

George J. Reid, Mount Forest, badly shaken up and cut about the face; not serious.

Mrs. G. J. Reid, badly shaken up and suffering from shock, cut about face; not serious.

Mrs. Jane A. Holstead, wife of the owner of the car, was thrown out, falling on her head. She sustained a fractured skull along with other injuries, and at the Western Hospital early this morning is was announced that she had not yet regained consciousness. The other four occupants of the car fared better, though all were shaken up, and two were cut by glass from the street car and from the front of the motor.

The accident is the first that has happened on Harbord street in connection with a street car since the service was inaugurated recently.

The motor was traveling east back of an eastbound street car. At Grace street the car stopped and the chauffeur of the motor turned northward, running behind it, with the intention of going up Grace street. But a westbound street car was approaching on the other tracks and before the motor could clear it the car struck the back end. The force of the collision was so great that a half-inch iron rod in the fender of the car was broken in two, the fender and the front of the car were smashed up and the rear of the motor car was wrecked.

When they came together the motor car was pushed along for a distance before it became disengaged. Then it swerved around so that the rear wheels banged against the curb.

The street car was going at considerable speed when the collision took place, but the motor car had slowed down to turn. In the street car were about a dozen people, who were jolted around by the shock of the collision.

The three injured persons were taken to the Western Hospital. Mr. and Mrs. Reid were able to be taken to the residence of their host, Mr. Holstead, several hours later. Neither Holstead nor the chauffeur, William Lowe, were injured.

The injured were rushed to the hospital in other motor cars that came along.

Mr. Reid is manager of the Mount Forest branch of the Traders' Bank.

To Stay Execution.

Richmond, Va., Nov. 6.—Lawyers for Henry C. Beattie, jr., under death sentence for the murder of his young wife, filed with the Supreme Court of Appeals yesterday a petition for a writ of error.

This constitutes an appeal from the judgement of the court at Chesterfield, which sentenced Beattie to be electrocuted on Nov. 24. Unless the court gives a decision before the day set for Beattie's execution, this move will act as a stay.

CAMPAIGN NOTES

The report of Mr. Peck's opening rally at the central committee rooms will be found on page four.

Isn't it somewhat humorous, really, that Robert Hall should pose as a friend to the horny handed toiler. Some men can play this game of befriending the poor, down-trodden masses, and get away with it without making every one smile, but R. R. Hall! Ouch!

You must remember, dear reader, that though Mr. Hall was connected with the Cordage company, he has no strings on the votes of the old shareholders.

Mr. Hall would have the law so framed that a workman would get rich by meeting with an accident, without the necessity of going to law. But if there were no litigation where would Mr. Hall be? Possibly he might live on the votes of his faithful constituents, eh!

This is the day when everyone reads in the Examiner about the great, rousing, soul-stirring, magnificently enthusiastic, whoop-up meeting for the Liberal candidate.—"Scenes of enthusiasm unparalleled." And Mr. F. D. Kerr almost chokes when he reads it.

TAFT ON TARIFF

President Will Stay by Plan of Reduction

Creation of a Permanent Board to Come up

Washington, Nov. 6.—White House policies for the session will be outlined in the message to be sent to Congress when it convenes next month. Discussion has started here as to legislative matters the President will treat. It is accepted as certain he will deal with:

A federal incorporation act for great industrial institutions engaged in interstate commerce.

Revision of some schedules of the tariff, beginning with wool and probably including cotton and steel.

Defence of the Sherman Act and resistance to its proposed amendment.

Government supervision of issues of stocks and bonds of interstate carriers and corporations.

Creation of a permanent tariff board.

Institution of a general parcels post system, modified to suit American conditions.

Conservation, with a special chapter on Alaska.

More adequate compensation for the federal judges, with some comment upon the importance of the judiacry.

Reform in the regulation of second-class mail matter, a defence of the arbitration treaties and a recommendation of legislation for currency reform, will be other subjects.

OFFICE OF MAYOR

Ald. W. H. Bradburn Decides to Become Candidate

"Yes, you can say I will be a candidate for Mayoralty at the 1912 municipal elections," said Ald. Bradburn to a Review representative to-day, when asked if he had arrived at any decision.

Ald. Bradburn entered the City Council in 1907, the same year as Mayor Morrow, who has signified his desire to retire from office at the end of the present term. He is chairman of the Finance Committee, and a member of the Power Committee and during the aldermanic duties has given splendid service to the city.

RIDPATH HAS CHANCE TO RECOVER

Condition is Improved But He is Semi-Conscious

Special to the Review.

Toronto, Nov. 6— Bruce Ridpath's condition is somewhat improved this morning, but the patient is still in a semi-conscious state. His doctors say that he has a chance to recover.

Toronto Railway Loses Its Appeal.

Toronto, Nov. 6.—Judgment was given in the Court of Appeal on Saturday, dismissing the appeal of the Toronto Railway Co. against the order of the Ontario Railway and Municipal Board of Aug. 10, directing the company to repair, renew and restore the tracks and substructure on a portion of Dundas street. Costs are against the railway.

Hall and Power Corporations

Sir James Whitney says that he will spread the hydro-electric power policy to CENTRAL ONTARIO (of which Peterborough is the centre) even if the Government has to expropriate to do it.

Hon. Frank Cochrane, as minister of railways and canals in the Dominion government, can, and will, lend a helping hand to the efforts of the Whitney government. Ottawa and Toronto will work together to provide a hydro-electric scheme for this district.

Would R. R. Hall be the man to have as local member at such a time—a man who has been allied with the big private power corporations for years? Would R. R. Hall get for Peterborough the attention and consideration of the Whitney government, in the formulation of such a hydro scheme? Would R. R. Hall not be in the way, an obstructing factor, in such a case? He has been connected with the Otonabee Power company for years, and would naturally be an opponent of a public power policy from the ground up. Could Peterborough afford to have such a man as a representative at such a time? Think it over.

CHINESE GOVERNMENT HARD UP ; CANNOT RAISE ANY MONEY

Yuan Shi Kai Not Willing to Take the Premiership, and Affairs Are in Chaos—Shanghai Peaceful Under Rebels.

Pekin, Nov. 6.—Yuan Shi Kai still declines to accept the Premiership, although assured of the support of the National Assembly and Gen. Chang, in command of the Lanchau troops. Both the Assembly and Gen. Chang, however, insist that when the Parliament is elected the Premier shall be chosen by that body.

In the meantime affairs here are in a state of chaos. No tangible head of the Government is visible. The Government urgently needs funds and hopes that the Franco-Belgian loan will be forthcoming, to enable the military operations and the administration to be carried on. The international group refuses to supply war funds. The Government is urging the group to advance money in order to allay the threatened financial and public deadlock in Pekin, as it is feared that the non-circulation of money will cause serious hardships to the coolies and the lower classes, which possibly might lead to local disturbances.

Quiet in Shanghai.

Shanghai, Nov. 6.—The first night after the capitulation of the city to the revolutionists passed uneventfully. Perfect order was maintained in Shanghai and the outlying districts, which constitutes a remarkable feature of the movement. Liping Shu is the responsible head of the new administration in the native city and suburbs, and is now engaged in completing his organization. He informed the correspondent that he recognized only the Republic of Han, and would guarantee order. The only disorderly elements, he said, now in China are the former officials, their supporters and the Manchu troops, who would never again be permitted to control.

There is reason to believe that the revolutionary sentiment throughout the south strongly favors the unconditional abdication of the Emperor and the establishment of an entirely new regime. Yuan Shi Kai will be repudiated if he adheres to the Manchus. He might become the head of the Government and receive universal support if he separated himself from his former alliance. There is, however, a growing suspicion and distrust of Yuan Shi Kai.

GUNBOATS SURRENDER

Commanders Unaware That Rebels Were in Control

Fate of Wesleyan Mission Not Yet Certain

Special to the Review.

Shangai, Nov. 6 — Three imperial gunboats which put in here, while their commanders were ignorant of the fact that the city has passed under rebel control, surrendered to-day. The remainder of Admiral Sahs' fleet in the Goutse River, is short of ammunition and must soon do likewise. The fate of the Wesleyan Mission at Hankow is still unknown.

TAKES POST WITH REVOLUTIONISTS

Dr. Fang Resigns as Chinese Minister to Washington

Special to the Review.

Pekin, Nov. 6—Dr. Wu Ting Fang, former Chinese Minister to Washington, has accepted the post of Foreign Secretary, under the Revolutionary Government.

SIR JOHN CARLING PASSING AWAY

Severe Attack of Pneumonia Hastening the End

Special to the Review.

London, Ont., Nov 6—Sir John Carling is in a critical condition, as a result of an attack of pneumonia, which seized him Saturday. He is sinking rapidly and his death is considered to be a matter of a short time. He is 84 years of age.

Sir John Carling is the head of the Carling Brewery. He was knighted by Queen Victoria. He has lived retired for a number of years. In his political life he was Minister of Militia in Sir John A. Macdonald's cabinet.

GREAT BETRAYAL NOT PUBLISHED

Lord Charles Beresford's Book on Navy is Withheld

Special to the Review.

London, Nov. 6—The publication of "The Great Betrayal," Lord Charles Beresford's book, which was to appear to-day has been cancelled for some time at least. If publication is ever made, important modifications will have to be made of the criticisms of the navy, and the book will be shorn of anything tending to hamper the present good intentions of the Admiralty.

READY TO START IN

Cabinet is Preparing for the Session

Trip to Halifax Utilized for [illegible] Observation [illegible]

Ottawa, Nov. 6.—Hon. R. L. Borden returned to Ottawa on Saturday night from Halifax, accompanied by Hon. J. D. Hazen, Hon. W. B. Nantel, Hon. George E. Foster and Hon. Dr. Sproule. Other Ministers are coming in to-day, and arrangements will be made for a series of Cabinet councils, in preparation of the work of the session The House will be called upon to pass estimates, but little important legislation is in sight

Hon. Frank Cochrane, who accompanied the Prime Minister to Halifax, has made use of the opportunity to get in touch with officials and affairs of the Intercolonial. The Minister heard a number of deputations in respect to the proposed taking over of branch lines as feeders.

Major R. W. Leonard, the new chairman of the National Transcontinental Railway, has begun his inspection of the line. A conference between Mr. Leonard and Mr. Cochrane took place at Quebec. Mr. Leonard's inspection will be a thorough one and will be made the subject of an exhaustive report.

While in Quebec Hon. Mr. Cochrane and Hon. F. D. Monk, Minister of Public Works, paid a visit to the harbor and its proposed improvements. They were accompanied by Hon. L. P. Pelletier, Postmaster-General, and included in the party were also Messrs. R. W. Leonard, chairman of the Transcontinental Commission; Chief Engineer Grant, St George Boswell, harbor engineer; A. E. Doucet, district engineer, and a number of prominent citizens. The harbor sites for terminals, the graving dock, the dock extensions and other points were fully inspected.

CANADIAN WHEAT BEST

Wins Shaughnessy Prize in N York

New York, Nov. 6.—The announc ment of Canada's victory over th U. S. in the contest for the prize offered by Sir Thomas Shaughnessy, president of the Canadian Pacific Railway, for the best wheat, spring summer, grown on either continen of America, was made Saturday noon at the Land Show in Madi Square Garden. The committee award, composed of C. G. Williams agronomist at the Ohio Agricultur Experiment Station; Prof. Alfred A kinson of the Montana Agricultura College, and Prof. William F. Jardin of the Kansas State College, concurred in the official statement that Canada raises the best wheat in th world

The winner of the world-beatin wheat was Seager Wheeler of Ro thern, Sask., Canada. He receiv a prize of $1,000 in gold. Anoth Canadian, W. L. Glass, of Mc Alta., was the alternate.

The $1,000 silver cup given b James J. Hill of the Great Norther Railway, for the best 100 pounds wheat grown in the United States 1911, was won by James Todd of Geyser, Mont. William H. Dorin of Glover, Va., won a $1,000 silver cup f 30 ears of Indian corn. The $1 silver cup for oats was awarded Patton & Hartmann of Bosema Mont.

R. Esinger of Manhattan, Mont won a $1,500 silver cup and the h of having raised the best bushel barley in the country. This cup given by Col. Gustav Pabst. Californi came to the fore in the start stapl cotton contest, and the $1,000 sil prise cup went to the American Ni Co. of El Centro, that state. W. Sudduth of Montana, and A Smith of British Columbia, respectiv ly, won the $1,000 silver cup and th $1,000 silver trophy for the best falfa and potatoes.

Horse Distemper

Prince Edward Farmer Solemnly Declares "Nerviline" Is a Specific.

"After fifty years' experience in raising horses I can safely testify that no remedy gives such good results for an all-round stable liniment as Nerviline." Thus opens the very earnest letter of J. J. Evanston, who lives near Wellington, P. E. "I had a very valuable horse that took distemper a month ago, and was afraid I was going to lose him. His throat swelled and hard lumps developed. His nostrils ran and he had a terrible cough. I tried different remedies, but was unable to relieve my horse of his pain and suffering till I started to use Nerviline. I mixed a bottle of Nerviline and sweet oil and rubbed the mixture on the throat and chest three times a day and you would scarcely believe the way that horse picked up. Nerviline cured him. I also have used Nerviline for colic in horses and cows, and earnestly recommend it to every man that is raising stock."

Nerviline CURES QUICKLY

For strains, sprains, swellings, colic, distemper, coughs, and colds, no liniment will prove so efficacious in the stable as "Nerviline"—it's good for man or beast, for internal or external use. Wherever there is pain, Nerviline will cure it. Refuse substitutes. Large bottles 50c, trial size 25c, at all dealers, or The Catarrhozone Co., Kingston, Ont.

CORNS CURED IN 24 HOURS

You can painlessly remove any corn, either hard, soft, or bleeding, by applying Putnam's Corn Extractor. It never burns, leaves no scar, contains no acids; is harmless, because composed only of healing gums and balms. Fifty years in use. Cure guaranteed. Sold by all druggists, 25c bottles. Refuse substitutes.

PUTNAM'S PAINLESS CORN EXTRACTOR

The Daily Review

MONDAY, NOV. 6, 1911.

MacDONALD'S SILENCE

The Montreal Star is demanding a parliamentary inquiry into the charges made by Rev. J. A. Macdonald, editor of the Globe, that there was $1,500,000 spent in Canada by the United States trusts to defeat reciprocity. The Star says that Mr. Macdonald is either wilfully and loosely slandering the Canadian people, or that he has special knowledge that ought to be secured for the benefit of the public.

Mr. Macdonald has maintained a discreet silence since making his remarks in St. Paul. But no man in the position of the preacher-editor can afford to ignore the wave of revulsion and disgust that has swept over the country. He is achieving, not fame, but notoriety, by his foolish talk.

The least that Mr. Macdonald might do is to air what specific knowledge he has, through the columns of the Globe. He should not, as the father of the late lamented reciprocity pact, go around the United States uttering slanders without being willing to show his hand.

This comes of having a preacher butting into politics.

MINISTERS' SALARIES

It is stated that one minister in the Toronto Methodist conference, has received $141 from his congregation for the present conference year, that is, from May 1. And this is in a rich farming community.

And another minister, also in the in the Toronto conference has received $33 for the quarter, ending November 3. He was compelled to borrow a small sum of money, which the $33 was not sufficient to pay back.

And yet we have the question: Why are not young men going into the ministry? Why is there so much indifference to this high vocation?

POWER FOR PETERBORO

The Whitney government proposes to extend the hydro-electric system into this part of Ontario, even though it has to resort to expropriation. We in Peterborough are in the centre of a power district, and must first of all get the benefit of any power scheme introduced by the government.

The Whitney government will now be able to carry into effect any plan it has in mind, regarding the expropriation by the hydro-electric commission. There will be co-operation by the Dominion government in the fight to get for Peterborough civic power, not obstruction.

The men who have been instrumental in grabbing power sites and rights through the aid of the Laurier government, will get what they should have got long ago. Mr. Hall will be one of those to notice the effect of the governmental program, perhaps. It may be that this is one of the reasons why he has decided to come out as a candidate in the provincial elections, although having once been a member of parliament one would have wondered that he should condescend to sit in the local house. Perhaps having been a politician for many years, Mr. Hall could not resist the attempt to jump into the aching void. When he is beaten on December 11, however, the work of demolishing the Liberal ring in Peterborough will have been fairly well done for a while at least.

But to come back to the power question: there is everything to gain and nothing to lose by the return of Mr. Peck. The Whitney government will undoubtedly be sustained in the coming elections. Satisfaction with the administration is too general to permit of Liberal success. Does Peterborough want Mr. Hall as a member, while the Whitney government is trying to get a power site for Peterborough, or to put through a hydro-electric scheme, in collaboration with Hon. Frank Cochrane?

Would Mr. Hall be inclined to work in sympathy with two Conservative governments in the hydro-electric program? Or would he not be an obstructing factor? He has been a power corporation man all his life.

Wood's Phosphodine, The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins, Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhoea, and Effects of Abuse or Excesses. Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. New pamphlet mailed free. The Wood Medicine Co. (formerly Windsor) Toronto, Ont.

THE WHITNEY RECORD

The Whitney government is appealing to the province with a clean, honorable record—a record of progress and of power. True, there may be some minor matters on which the Whitney government does not meet the views of a few people, but after all, these are so comparatively unimportant, that as a whole the administration of the people's affairs should be regarded as very satisfactory indeed.

No scandals of any kind have marred the administration. The honesty and fair purpose of the premier, his blunt power and strength, appeal to the sentiment of all. When people can have a man of backbone and strength in office, are they likely to exchange him for a politician only?

The fact that Premier Whitney has given such a sensible, strong administration so clear of partisan bias, so free of the "barnacle" system, ought in itself to be enough to win the support of Ontario generally. But here are some of the things which have been done by the Whitney government in its few years of office:

Abolished the numbered ballot;

Taken the first step towards the creation of Agricultural Schools by appointing district representatives in agriculture, and largely increased the expenditure for agricultural purposes;

Reconstructed the administration and financial resources of the Provincial University;

Revised the mining laws and taken a Cabinet Minister from New Ontario;

Restored the old law relating to County Councils;

Imposed taxation upon the railways, one-half of which goes to the municipalities;

Put an end to the granting of subsidies to railways;

Created a Railway and Municipal Board;

Reduced the price of school books by one-half, and destroyed the school book ring;

Revised the Public school system; created a consultative Council to which the teachers elect representatives, and provided for large grants in aid of payment of teachers' salaries;

Honestly and successfully enforced the Liquor License Law;

Extended the Government Railway;

Brought the Hydro-Electric scheme forward and in the sight of completion;

Increased the expenditure for the construction of colonization roads, and encouraged the development of New Ontario;

Put the provincial finances on a sound and stable footing, doubled the provincial revenue, and put upon the statute book a large amount of important and constructive legislation.

EDITORIAL NOTES

The election of Sir Wilfrid Laurier in Soulanges has been protested. By the way, who is Sir Wilfrid Laurier?

R. R. Hall may be a great friend of the workingman, but it seems to have been somewhat of a death-bed repentance.

Champ Clark is again getting a lot of free advertising. But the people of Canada on September 21, gave a solar plexus to that idea of his'n.

Mr. Peck's opening meeting was a splendid success. All Conservatives should make sure of hearing the speakers at the gathering next Saturday night.

Bill Miner, who was seen passing through the Cobalt country the other day, was captured in Georgia, in a box car. Bill has apparently solved the problem of how to be in two places at one time. He could make his fortune by telling business men that secret.

We do not think a provincial state insurance system covering accidents to all workingmen in the province, could be carried into effect without making the workingman pay for the protection. Some of the accident insurance companies might object to the government's invasion of vested rights, and it is a good rule that those who receive the benefits should pay the cost—and not those who do not.

There is a piece of land in England called East Quantockstead, which was originally bought for $40, and is now assessed at $133,000, which is the annual fees and rentals. This sounds something like a story from Calgary or Edmonton, but the illusion is somewhat spoiled by the fact that the $40 or its equivalent, was paid in the time of William the Conqueror. Canada does almost as well in a period of ten years—occasionally.

$100 REWARD, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO.,
Toledo, Ohio.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

TELEGRAPHIC BRIEFS.

The shunting engine at the G.T.R station shunted a box car off the track at Woodstock on Saturday, and a considerable amount of wreckage was strewn about.

The Reid Newfoundland Co.'s steamer Clyde has been ashore for the past twenty-four hours on a shoal at the entrance of Little Bay, on the north coast of the colony.

For the first time this season ice spanned St. John River Saturday. At Upper Maugerville the river is frozen over sufficiently to prevent wooden steamers getting through.

Benjamin Smith, a wool buyer of Binghampton, N.Y., was found murdered on the street Saturday. There was a leather strap around his neck and his skull was crushed.

Hon. L. P. Pelletier, the new Postmaster-General, will be entertained at a banquet on Dec. 2 next by his friends of Quebec City. It promises to be a most imposing affair.

Thieves on Saturday forced an entrance to the general store of Herman Mackenzie, Chippawa, Ont., while the proprietor was absent. They rifled the till and obtained nearly $50.

London mothers need no longer remain away from church because of crying babies. Rev. H. H. Bingham of Talbot street Baptist Church is to have a nursery where the children will be cared for.

The committee appointed to solicit subscriptions for the erection of a monument over the grave of General Wolfe has met with gratifying success, over $4,000 having been already subscribed in Winnipeg alone.

Crazed by drink, Antonio Teoli, a Montreal Italian, last evening drew a revolver in his room and fired at four-year-old Roch Stephano, the son of his boarding-house keeper. The shot did not penetrate the skull, and the youngster will recover.

Hon. Sydney Fisher's Views.

Montreal, Nov. 6.—The inability of the Conservatives to produce a single argument against reciprocity; the triumph of brains over money in constituencies lost by that party; and the victory of sentimentalism and anti-American feeling in those which the Conservatives won, was the view of the recent election adopted by the Hon. S. A. Fisher in a speech at a banquet tendered him by the Reform Club Saturday night.

The speaker also foresaw a new election shortly and prophesied trouble for the present administration, owing to the different elements composing it. The speaker's sentiments were enthusiastically applauded by his followers.

Will Hold Conference.

Kansas City, Mo., Nov. 6.—There will be no strike by shopmen on the Rock Island Railroad until a conference with a committee of three from each of the five federated unions is refused by the Rock Island officials, according to the statement made by J. H. Franklin, international president of the Boilermakers' Union.

Demands for a wage increase for shop employes have been made on the Wabash Railroad and refused, according to Mr. Franklin. Although negotiations have not been broken off, it was declared probable that the Wabash would be drawn into the strike involving the Illinois Central and the Harriman lines and threatening the Rock Island.

Will Fight Government.

Boston, Mass., Nov. 6.—Demurrers were filed by the officers of the United Shoe Machinery Co. in the U. S. Circuit Court Saturday to the indictments recently returned against them for alleged violation of the Sherman Anti-Trust Act. The defendants deny that their business comes within the scope of the Sherman Act, inasmuch as the machinery sold and leased by the United Company was entirely covered by letters patent.

Rodgers In Flight Again.

Imperial Junction, Calif., Nov. 6.—Rodgers left at 10.40 o'clock Saturday after having put his engine into such shape that he thought it would last until he could reach Pasadena, 184 miles away.

THE MARKETS

Latest Quotations in Grain Dairy Products, Live Stock Etc.

CHICAGO, Nov. 4.—The decline in the wheat market, which has been in effect all this week without practically a break, and which resulted in lowering of prices by about five cents a bushel, ran its course to-day, and the market took a sharp turn for the better. At the close wheat futures were 1-4c to 3-8c above last night.

The Liverpool market closed to-day ½d to ¾d higher on wheat, and ⅛d to ¼d higher on corn. Berlin closed ⅛c lower, Budapest ¼c lower, and Antwerp ⅜c lower.

Sheep—Receipts estimated at 10,000; market steady; native $2.50 to $4; western $2.50 to $4.10; yearlings $3.75 to $4.25; lambs, native $4 to $6.25; western $4.25 to $6.25.

Liverpool Live Stock.

LIVERPOOL, Nov. 4.—John Rogers & Co. cable that, owing to a general shortage of cattle, prices in Birkenhead improved for all sorts of cattle save the very best. The ranch cattle were of a superior quality and as a result commanded a ready sale. Full quotations were: States steers, from 12 3-4c to 13 1-2c; Canadians, 12 3-4c to 13 1-4c, and ranchers, 11 1-2c to 12 3-4c per lb.

Cheese Markets.

WATERTOWN, N. Y., Nov. 4.—Cheese sales, 4000 boxes at 13 3-4c to 14 1-4c.

ST. HYACINTHE, Que., Nov. 4.—At the butter and cheese market to-day 200 packages of butter sold at 26 1-2c; 300 boxes cheese were boarded, but only 28 were sold at 13 3-4c. Other buyers not following.

Killed by Hunter's Bullet.

Machias, Me., Nov. 6.—A stray bullet from a hunter's rifle is believed to have killed George Ackley, whose body was found in the woods near Marion on Saturday. There is a bullet wound in the abdomen.

Ackley, who lived in East Machias, had been gunning for a week with half a dozen other hunters in this vicinity, but none of his companions knew of his death until his body was found near the carcase of a cow moose, which had apparently fallen by a shot from his rifle.

Suspect Arrested.

Vancouver, B.C., Nov. 6.—John Bosey was arrested here Saturday suspected of complicity in the New Westminster bank robbery. He had $4,000 in bills, some of which were, according to the numbers, included in the sum obtained Sept. 15, when the Bank of Montreal was robbed of $258,000.

St. Lawrence Sugar

Laboratory of Provincial Government Analyst.

MONTREAL, 22nd February, 1909.

I HEREBY CERTIFY that I have drawn by my own hand ten samples of the St. Lawrence Sugar Refining Co's EXTRA STANDARD GRANULATED SUGAR, indiscriminately taken from four lots of about 150 barrels each and six lots of about 450 bags each. I have analyzed same and find them uniformly to contain 99-99/100 to 100 per cent of pure cane sugar, with no impurities whatever.

(Signed) MILTON L. HERSEY, M. Sc. LL.D. Provincial Government Analyst.

The St. Lawrence Sugar Refining Co. Limited
MONTREAL. 38

MEXICO IN '42

By D. Lewis

In less than five minutes both had divested themselves of every article in the way of gold or gems adorning them. They even plucked the pendants from their ears, thrusting all indiscriminately into the outstretched hands of the hunchback.

"Thanks—many thanks!" he ejaculated, crowding everything into his pocket. "But you ladyships will scarce care to accept thanks from me. 'Twill be more to your satisfaction to know that your generosity will be the saving of valuable lives, two of them, if I mistake not, very dear to you. Oh! won't the senores be delighted at the tale I shall take back! Not for the provisions I may carry, but how I obtained the means of purchasing them. But as time's pressing, senorita, I won't say a word more, only farewell!"

Without waiting for permission to depart, he slipped down from the wall, and disappeared on its other side.

It was an abrupt leave-taking, which alike surprised and disappointed them. For they had many questions to ask, and many anxieties they had wished set at rest.

CHAPTER XLIII
An Encounter

Just about the time when the hunchback was abruptly bidding adieu to the ladies, a man might have been seen moving along the road about half a mile from the village, with face turned cityward, for the man was Jose, Don Ignacio's groom. He carried over his arm a couple of slip halters. The horses, for whom they were intended, were to be seen standing at a nearby gate, and he was on his way to take them back to their stable.

As the groom got up to where his pets were expecting him, he saw a coyote standing near the horses, in an attitude as if it had been holding conversation with them. Solely for frolic's sake, he made a rush towards it, giving a swoop and swinging the halters around his head. Of course, the afrighted animal retreated.

The little spurt had carried him in under the shadow of the rocks across the road, and as he faced round to recross the moonlit causeway he saw coming along it that which, by some mysterious instinct, prompted him to keep his place. In the diminutive, crab-like form seen approaching he recognized the hunchback who had shared the box seat with him on that day never to be forgotten.

Soon after Zorillo came shuffling along through the dust, keeping close to the shaded side of the road. Having cleared the skirts of the village, however, he was less careful. Should there be any one abroad at that hour there was the Pedregal alongside, to which he could retreat. Evidently he had not seen Jose.

When nearly opposite the meadow gate he also made a stop, with a start, at perceiving the two horses' heads stretched over it, one with a cleft ear. His start came through recognition of them.

"Oho!" he exclaimed, "you there, too, my noble steeds? This is meeting one's old acquaintance all in a heap! It now only needs to encounter the coachman, and the party will be complete. Well, I may live in hope to see him too, sometime; and won't there be a reckoning when we're all together again?"

He was about to pass on, when a clattering of hoofs was heard. The sabres clanking against stirrup-iron proclaimed it a cavalry troop.

Like a tarantula retreating to its tree-cave, the dwarf darted in under the cliff, crouching down so close to Jose that the latter could have almost touched him with the tips of his fingers. He had no desire to do so, but the very opposite. His wish was to avoid an encounter. Fortunately for him, the hunchback had no suspicion of his proximity.

The Hussars — an escort of some eight or ten files, with two officers at its head — were chatting gaily and rather vociferously; the voice of him who spoke loudest being well known to Jose. For Col. Santander, whether welcome or not, was a frequent visitor at the home of Don Ignacio Valverde. And the dwarf now remembered it too, and as he did so abandoned all attempt at concealment, and glided out into the middle of the road.

The two officers' horses reared up snorting at the strange shape so suddenly presented before them. "What is it?" asked Santander.

"Senor Colonel," returned Zorillo "I am only a poor creature whom God has cursed by making him in a shape that isn't altogether fashionable. But just for that reason I trust being recalled to your excellency's remembrance — am I not?"

"Ah! You were in the Acordada?"

"Si, Senor Colonel."

"But where have you been since, sirrah?"

"Ah! Excellenza! that's just it; the very thing I want to tell you. I was on my way to the city in hopes of obtaining an interview with you. What a bit of fortune, your passing here: 'twill save me a journey I was ill able to make; for I'm quite worn out, and weak, from being starved up there in the mountains."

"Oh! you've been up there?"

"Yes, Senor Colonel, in hiding with the others. But not like them voluntarily. They took me along with them, whether I would or no, and have kept me ever since — till this night, when an opportunity offered for giving them the slip. It isn't all of four hours since I parted company with them. But if your excellency wishes to hear the whole story, perhaps you'd like it better in private. If I mistake not, some of it should only reach your own ears."

Santander had been already thinking of this, and turning to the officer by his side, he said,—

"Take the men on, Ramirez. Halt at a hundred yards or so, and wait for me."

In obedience to the order the escort moved on, stopping as directed, the dialogue between Santander and the dwarf meanwhile continuing.

After hearing all, Santader rose in his stirrups, his features showing triumph.

"The game is mine at last!" he muttered to himself, "every trick of it. They're in a trap now; and when they go out of it, 'twill be to the garrote."

For a moment he sat silent, apparently considering the best course to pursue. Then, seemingly having decided, he called out,—

"Ramirez Send a couple of men to me — the corporal and another."

These, detached from the escort, came trotting back along the road.

"Here, corporal! Take charge of this curious specimen. Keep him here, and see that you hold him safe till you have my orders for releasing him. Don't stray from this spot as you value your own neck — not an inch."

Saying which he put spurs to his horse, and rejoined his escort. Then commanding. "Forward! at the double quick!" they started off at full gallop towards the city.

CHAPTER XLIV
A Gambling Guard.

The first thought of the faithful groom was not about himself and his horses. These might stay in the meadow all night, as they were now likely to do. The lives of men were at stake — his own among the number — and his sole purpose now was to get home, report what he had heard to his young mistress, then hasten up the mountain to warn the imperilled ones.

As good luck would have it, he knew the place they were in.

But the difficulty was to get back to his master's house — even stir from the spot on which he stood.

The two hussars did not seem to be in the best of temper; the corporal more especially showing signs of dissatisfaction. Their orders were to stay in that spot, and stay they must. The difficulty was, how to spend the time. They drew out their cigarritos, with flint, steel, and tinder, and as these were lit the corporal asked:

"By the way, Perico, have you your cards with you?"

"Did you ever know me to be without them?"

"How lucky! I quite forgot mine. Let's have a game of monte."

"All right! Let the stakes! I haven't a cuartilla — nay, not so much as a claco."

"Carramba! Nor I either. I spent the last on a drink just before we got into the saddle."

"Ah, stay!"

"Now, I shouldn't wonder," continued the corporal, shifting upon his seat and facing fully round to the dwarf. "I shouldn't at all wonder but this diminutive gentleman has some spare cash upon him.

"It don't look much like he has," observed Perico.

"I haven't any," protested the dwarf. "If I had you'd be welcome to the loan you speak of. I've been stripped of everything; and, if you knew my story, you'd pity me, I'm sure."

"What story?" demanded the cabo, becoming curious.

"Why, that I've been robbed of all the money I had. I was on my way to San Augustin, when not far from here, two men—footpads I suppose—rushed out from the roadside, and made straight at me. One took the right, the other left. But I've good long arms, as you see, pretty strong ones, too; and so I was able to keep them off for a while.

While giving this account of an altogether imaginary adventure, he had started to his feet, and accompanied his speech with a series of gestures; dancing and flinging his arms about as he professed to have done while defending himself against the footpads. The grotesqueness of the performance, though seen only in the dim light — for he kept under the shadow — set his listeners to laughing. Little dreamt they why he was treating them to the spectacle, or how cleverly he was outwitting them.

But there was a third spectator, unknown to all of them, who was aware of it. The groom could not at first tell what were the things striking him in the pit of the stomach, as if he was being pelted with pebbles! But he could see they came from the hands of the hunchback, flung behind in his repeated gesticulations.

"Well! what did they do to you then?" asked the corporal. "Stripped you clean, as you've said?"

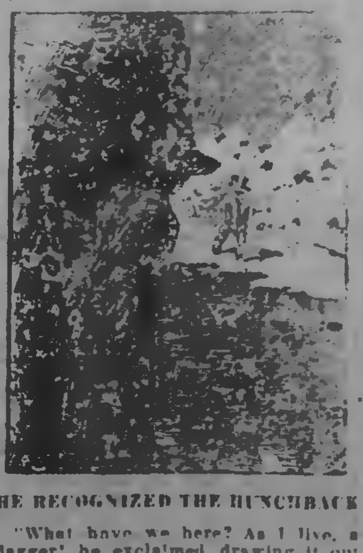
"Just that, senor. Took everything I had, except the rags I wear; and to them I might well have made them welcome."

"Now, are you sure they took everything?" questioned the other, still suspicious. The earnestness of the dwarf's affirmation made him so.

"Of course, senor. Quite sure. I'll swear to it, if you like."

"Oh, there's no need for the formality of an oath. Simpler to search you! and more satisfactory. Draw up here in front of me!"

The hunchback obeyed with an air of confident alacrity. He had no reluctance to being searched now, knowing his pockets were empty.



HE RECOGNIZED THE HUNCHBACK

"What have we here? As I live, a dagger!" he exclaimed, drawing it out and holding it to the light. "Silver hilted, too!"

"Half mine," interrupted Perico, putting in his claim.

"All right, comrade. Get out the cards and let us see whether it is to be yours or mine."

The unseen spectator, though silent, was not inactive. From the moment of seeing himself shut in a corner he had given all his thoughts to a mode of escape. He had carefully inspected the cliff overhead and he had discovered that there was a possibility of scaling it. A sharp pinnacle of rock was within reach and over this he had succeeded in flinging one of the halters. It but remained to climb up by the rope, and he was watching for an opportunity, when glittering golden ornaments came raining against his ribs, to fall at his feet.

To be continued.

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

Acute Dyspepsia

Restoration of Stomach Power Comes Quickly With the Right Medicine

"My food seemed to decompose in my stomach," writes Mr. Ralph Clemmons, of Newbridge, P.O. "I had stomach that failed in some way to perform its work. Digestion seemed more or less arrested and I grew thin, yellow, nervous. The stomach became distended and impeded apparently the action of the heart, for often at night it would do great stunts. At times I would vomit a mucous mass, and at these times my head ached most terribly. A friend, who had been cured of a similar condition, advised me to take Dr. Hamilton's Pills regularly which I did. The result in my case was simply marvelous. Dr. Hamilton's Pills removed the cause, strengthened the stomach, excited the liver to normal action, the kidneys were released of excessive work. Health soon glowed within me. I can now eat, sleep, and live like a live man."

Be advised—Use Dr. Hamilton's Pills—they are sure to do you good. 25c per box, at all dealers, or The Catarrhozone Co., Kingston, Canada.

Dr. Hamilton's Pills Cure Indigestion Dyspepsia

LONDON HAS BIG FIRE.

Loss in Big Conflagration Nearly Reaches Million Mark.

London, Nov. 4.—Six of the largest business houses were destroyed by a fire, the most costly one to visit London in a quarter of a century, early yesterday morning.

The total losses are $870,000, with a total insurance of $835,000. The losses in detail were as follows:

Purdom Hardware Co, building value $25,000; insurance $15,000; loss $10,000. Stock value $60,000, insurance $15,000, loss $20,000.

J. H. Chapman & Co., three stores, value $50,000, insurance $35,000; loss $50,000. Stock value $200,000, insurance $15,000; loss $200,000.

T. F. Kingsmill & Co., three stores, value $40,000, insurance $35,000; loss $40,000. Stock value $225,000, insurance $200,000; loss $25,000.

Brewsters, two stores, value $40,000, insurance $35,000; loss $40,000. Stock value $40,000, insurance $30,000; loss $40,000.

Mara & Co., store, value $25,000, insurance $15,000; loss $25,000. Stock value $75,000, insurance $60,000; loss $75,000.

Roome, Corbett & Co., one store, value $25,000, insurance $20,000; loss $20,000. Stock value $40,000, insurance $25,000; loss $40,000.

R. J. Young & Co., two stores, value $45,000, insurance $35,000; loss $5,000 Stock value $125,000, insurance $100,000; loss estimated at $50,000.

Total value of buildings $240,000, insurance $180,000; loss $190,000.

Stock, value $665,000, insurance ~~$655,000; loss $680,000.~~

Total loss, $870,000.

The fire broke out at 3.57 a.m., and was first noticed by Sergt. Macdonald and P. C. Fowler.

At 6 o'clock all the six places were burned out: Purdom Hardware Co., J. H. Chapman & Co., Kingsmills, Brewster and Roome, Corbett & Co.

Shortly after the time the firemen got control of the blaze. That the fire was not more far-reaching in its destination is due altogether to the splendid efforts of the firemen and the great pressure furnished by the new water system.

Fire was first seen issuing from Chapman's store, and, in an instant, so it seemed, the building was a mass of flames.

Flames were shooting clear across the street when the firemen arrived. Fifteen streams were turned into the blaze in very quick order and the fight for the mastery commenced. In a few minutes the fire got into Kingsmill's dry goods' store and in an incredibly short time that place of business was in flames.

Fire Chief Aiken remembered that in the basement of the Purdon Hardware Co. at the rear on Cartage street, was a lot of gun powder and oils stored, and he sent some of his men down to bring the stuff out.

This was done and that source of danger got over.

Shortly after that the wind, which had been strong, died down and the flames began to show signs of lessening in intensity.

The walls crashed down and then the firemen had a momentarily advantage. Quick to seize the opportunity, they poured the big streams into the midst of the blaze and their work began to tell.

Can Use Aeroplanes.

Washington, Nov. 6.—Italy's use of the aeroplane in dropping grenades into the Turkish camp, it is declared here, is not a violation of the fourteenth agreement of The Hague Conference of 1907 prohibiting the use of air craft in the discharge of projectiles and explosives, "or by any other method of a similar nature," in so far as that country is concerned.

The last official report of countries which have signed the agreements enacted by the 1907 conference, registered at the State Department last June, showed that while Turkey had signed this particular agreement, Italy had not.

Father Sherman Ill.

Boston, Nov. 6.—Suffering from a mental ailment, due to overwork, in his missionary labors, Rev. Thomas Sherman, S.J., son of the famous civil war general, William T. Sherman, has entered a sanitarium in Brookline. Eeight weeks ago Father Sherman was taken ill while conducting a mission in Missouri. He was taken to New York, but within a few days at the request of relatives, was sent to the Brookline sanitarium.

No Tips.

Chicago, Nov. 6.—A campaign against tipping has been started by the commercial travelers of the United States.

MY LADY'S COLUMN.

BEST IDEALS OF DRESS

Perfect Symmetry Comes Only When Every Part Is Tempered and in Harmony.

"Why is it that modern clothes are so unbeautiful?" asks a writer, and then proceeds to answer her own question. "I think it is because the very first essential of beauty is elegance or fitness. That means there must be intelligence in the creation which ensures a sense of unity and symmetery as well. After all, the purpose of our garments is to clothe us, and project us, and yet to allow easy and harmonious movement. Personally I think there is something rather naive and charming in the desire most people have to keep abreast with the 'fashions.' Who doesn't enjoy the feeling of being absolutely newly-clothed, with everything fresh and gay, and with all the last year's dusty, out-of-date furbelows thrown away — quite, quite done with? But, while the instinct is right that makes us like to feel as clean and bright and pretty as the ever-changing flowers and leaves, we have been given intelligence, and we really ought to use it if we are to attain to the best possible ideals of dress. Exaggeration, excess for the sake of excess, is only a reflection of the lack of self-control and self-restraint which is, alas, rather in evidence in modern life. To achieve perfect symmetry every part must be duly tempered and in harmony, so that one only receives the impression of a perfect whole. It is in this appreciation of beauty as a whole that we are inclined to be careless and short-sighted. We see our face in the glass against the background of one of those enormous hats, and think the effect is rather picturesque and pleasing; we go to our tailors, and are again attracted by the novel slimness of the newest skirt. But we don't think of the ridiculously disproportionate effect that a large roof has on the top of a pedestal which narrows as it descends, and ends in scarcely any base at all."

Europe's Latest

Longer skirts will be fashionable this fall, and in accord with this decree of fashion long cloaks are due. A garment as shewn is perhaps a trifle long for every day wear, but in Taupe color looks well. It is trimmed with silk of the taupe shade; dabs of white velvet are set on bands of the silk. The back of this garment is draped and the sleeves are roomy.

TO MANAGE A MAN

'Tis the Partnership Privilege of a Wife to Soothe and Manage a Tired Husband.

People rarely quarrel over the large and important issues of life. But they will fight to the death about the things that don't matter. In most families there is some small bone of discord which crops up again and again at every meal — a mean, contemptible cause of strife that none agree to bury decently once and for all. Between husband and wife some petty difference gradually grows which touches each on the raw whenever it appears with Jack-in-the-box regularity. A tactful, womanly management in the early stages would prevent the stupendous growing power of these matrimonial bogies.

Maybe a man's temper is a little "short" when he comes home in the evening. No doubt he has faced twenty men with short tempers and small patience in the course of a day. His wife can eternally face one; and it is the privilege of her partnership to soothe and manage a tired man.

After all, unselfishness on the part of the wife is the best weapon to fight an irritable man with; and a man must be a bear indeed if he can hold out against an unremitted course of kindness.

HAVE YOU EVER

After retiring for the night, thought of your forgotten fire insurance policy, which had expired that day, and had not been renewed?

How quickly you'd spring to the telephone, call up the agent, and make matters right till morning in fear that fire might wipe out your accumulations.

Yet how often have you retired to woo the sleep of the just, with **no life insurance** and it never crossed your mind seriously that ere morn the heart might stop beating, and with it, the whole earning power of both brain and hand, yet your property **may never burn**, but your heart will surely cease to beat some time. It's strange, is it not?

Then why not insure your life at once?

The Sun Life of Canada issues all the modern forms of life assurance at the lowest rates, consistent with ample security, and are giving settlements that should satisfy the most exacting.

Call or phone to the Sun Life Office, 159 Hunter Street.

THE CORRECTION OF
DEFECTIVE
EYESIGHT

It is very important that you have implicit faith in the ability of the Specialist who fits you with Glasses, since there are several important features which must be left solely to his ability and honor.

You cannot possibly appreciate the quality of lenses furnished, and yet on this feature depends the degree of satisfaction to be obtained from the use of glasses. In our Optical work we frequently find people wearing inferior and imperfect lenses, for which they have paid a full price. We will not economize in this department of our business, for we always insist on furnishing the best material at prices that are reasonable.

We believe you will be satisfied with the prices asked in our Optical Department, and know that you will be pleased with the results obtained.

MR. E. A. PECK DEALS WITH ISSUES AND DECLARES HIMSELF AT SUCCESSFUL RALLY

Children in Public Schools Should be Taught the Language of Ontario Says Conservative Candidate—The Workmen's Compensation Act Neglected for Nineteen Years by the Liberals.

Mr. E. A. Peck, the Conservative candidate for the local House, made a splendid impression at a successful rally in the Central Committee rooms on Saturday night.

He came out boldly, giving his views on the political topics of the present campaign and was heartily applauded throughout his remarks. The Liberals he scored for having, only in defence to the demands of the people, passed an act giving relief purporting to give relief to the working men and then resurrect it again as a campaign weapon, after they had placed it on the shelf and done nothing during nineteen long years of office. As to bi-lingualism, Mr. Peck held that the pupils in the public schools should be taught in the language of Ontario—English—and he explained that Mr. Whitney was making a thorough investigation to enable him to get at the facts. With these at his disposal the question in Ontario would receive every consideration.

Mr. T. E. Bradburn, M.P.P., presided, and in a short opening address urged upon the meeting the importance of all rallying around their candidate and giving him their support.

Mr. J. H. Burnham, M.P., introduced as the first speaker, took up the work of the Whitney government from the view point of the quiet, intelligent thinking man whom the speaker comprehensively showed to be the man who could logically and in all fairness criticise. What would such a man—a power in any constituency—think of the government? One of the chief issues of the day was Champ Clark's challenge to Taft, that he would make annexation with Canada his policy and beat Taft. The Conservatives could see the trend of things before. "We did right well," said the speaker. "And the Liberals say we are glad it happened."

This quiet thinking man, what does he do? He asks has there been any grafting done? No. Was there any waste? No. Was there any departure from the proper performance of administration? No. He sees the offices conducted properly, the education department made efficient and the crowning achievement of a cut in the cost of school books of one-half. What does that mean? It means that people who could not afford to educate their children could do so now. Education was within the reach of all. Those who were making the row were they who were not making the 75 per cent profit on the school books.

What does he find in the license department. Had it been well and honestly administered. He admits it has been. The Liberals admitted it. There was no scandal about the administration. He takes the mines and the forests, the asylums, the prisons and finds successful administration. He looks at the prison farm where the idea is to win back to good citizenship rather than drive them backwards. Such a policy would commend itself to all right thinking men.

What are the objections? The three-fifths clause,—that Whitney would not listen to taxation reform—that a system of bi-lingualism has been permitted. With the present conditions, all nationalities would be able to come in and have the same equality as the English. "Our candidate," says Mr. Burnham, "says that it must be done away with. We're all agreed upon that."

Woman suffrage, this man says, is all nonsense. But is it? The only point is do the women want it; if they do they should have it. Mr. Burnham took up other questions, such as the power situation and the Workmen's Compensation Act.

MR. L. M. HAYES, K. C.

"Take off your coat and work with your candidate and victory will perch on our shoulders," said Mr. L. M. Hayes, K. C., next introduced by the chairman. "We have a good party, a great leader and a splendid candidate. Mr. Peck has lived amongst us all his life. He is one of the most honored and esteemed men in the county and if we all put our shoulders to the wheel we will sweep him to victory with a good majority. But we have to work and I believe West Peterborough will be true to itself. As to the policy of the Whitney government, even its foes had praised it. One prominent Liberal confessed to me," said Mr. Hayes, "that he didn't know what he was going to say against the administration."

"The province had gone ahead, the country had developed, the schools were doing their work efficiently and books were purchased on a cheaper basis.

"As to the Workmen's Compensation Act, not one single move had been made during the Ross and Mowat regime. Who was the first to come forward with amendments? Whitney. During the past year the government had appointed Sir Wm. Meredith to draft an act as would give the workingmen proper compensation. Whitney initiated it. Now the Liberals are trying to steal our clothes," said Mr. Hayes.

GOVERNMENT'S GOOD WORK.

Mr. Peck, in his introductory remarks, referred to the Whitney government as having been one which had made splendid progress and had done a magnificent work during the past seven years, with Mr. Whitney as premier. He could not, he said, say anything about the policy of the Liberals because none had been announced. In their recent trouble they had lost their leader, and a small committee was given the task of assisting the new leader, Mr. Rowell, to find out what the policy was to be.

THE TEXT BOOKS.

Mr. Hall had issued two circulars; the first one, in which he complained bitterly about the way the government went about changing the text books. This one had reached the merchants in the city. But what did the government do? They simply issued specifications as to the books wanted, and asked everybody to tender for the supply, the tender to be exclusive for ten years. One tender, that of T. Eaton & Co., was lower. Should the government accept or reject? The tender was substantially lower, and in honor and fairness the government could do nothing more than award the contract to Eaton's. The result—a great benefit to the People of Ontario and their children. Nobody was suffering, and why should Mr. Hall complain?

BI-LINGUALISM.

Mr. Hall referred to by-lingualism and blamed Mr. Whitney for its presence. "But this bi-lingualism is not of recent date," said the speaker. "It was encouraged by the Liberals and allowed into the schools, and as a result is now become deeply rooted. Every year makes it more difficult to eradicate, and the Liberals were the first to encourage the teaching the teaching of French in preference to English."

LANGUAGE OF ONTARIO.

The public school system existed not so much for the parents, but for the children themselves. They were the wards of the province, and it was our duty to give them an education such as would place them in a position to compete with other children. And how could this be done unless the children are taught to be thorough English scholars—and taught English—the language of Ontario? That being so, we had to deal with facts as they exist.

Mr Whitney had appointed a commission with instructions to visit the schools for the purpose of ascertaining the existing conditions. There were 300 schools to be visited, and it is expected that the report would be ready by next January. The speaker held that Mr. Whitney was right in not referring to this question in his manifesto. He was in a responsible position and must act fairly. "He wants to know the facts and if French is taught instead of English, he will act promptly."

WORKMEN'S COMPENSATION ACT.

"This measure," said Mr Peck, "was passed by the Liberal government in 1886, and I would like to point out that the measure was only placed on the statute book after Meredith had twice brought in a bill asking for relief for the workingmen." The government had been forced to adopt the principles of the bill by public opinion. It was considered to be alright, and with its passage the government felt that they had done a magnificent thing. They never thought of changing it in their nineteen years of power. "Now, how can Mr. Hall reasonably complain that Mr. Whitney is to blame for this condition?"

LIBERALS SHELVED IT

"I fully admit it is unsatisfactory, but the Liberals cannot lay the blame on Mr. Whitney when they had nineteen years to amend it, but made no attempt." The Whitney government, only six years in power, had had a great deal to do to clean up the messes left by the Liberals when they were in power. Whitney has done a tremendous work. The act has been in his mind and will certainly be considered.

At the last legislative session the Scaffolding Act was passed and a commission appointed to take further evidence. Mr. Hall should not seek to claim credit for anything he may seek to do. "The fact of the needed improvement to the act has been in my mind, and I may say that when I accepted the nomination I had in mind that in this instance I might be able to assist the workingmen," said Mr. Peck. "If it comes to a question between Mr. Hall and myself, my feelings in the matter are just as strong as those of Mr. Hall, and I trust I will be able to do something for the workingmen of Peterborough in this as well as in other directions."

Of some defects in the act to be remedied, one was the difficulty of one party having a claim to establish their right. This would be changed so that the workingmen could get damages without going to the expense of prolonged litigation. "Along these lines I shall certainly make it my business to secure the views of the people here," said Mr. Peck in his concluding remarks.

Other speakers followed with brief remarks.

COUNTESS DE SWIRSKY, ONE OF RUSSIA'S BLUE ARISTOCRATS

Her Skill as an Interpretive Dancer an Evidence of Great Temperamental Disposition to Music—Large Seat Sale for the Attraction.

For some unknown reason Peterborough has been placed on the list of favored cities in which high-class productions shall appear. So far this season we have heard Lawrence D'Orsay in the "Earl of Pawtucket," "With Edged Tools," both of which have created a fine impression wherever they have shown. Now comes Countess Swirsky, a famous Russian pianiste and interpretive dancer, who is at the Grand Opera House to-morrow night. The Countess Swirsky is only appearing in the larger cities of Canada and the United States, so that the theatre-goers of the city should appreciate the opportunity that is afforded them of seeing this wonderful woman.

A young lady in this city, who was present in New York at a recital of Countess Swirsky's, says that it is one of the most wonderful exhibitions of dancing she has ever seen. Besides her skill in dancing Countess Swirsky is an accomplished pianist, having won high honors at the Paris Conservatory of Music.

Many people have commented upon the unique combination of the arts of dancing and music displayed by the Countess Thamara de Swirsky in her program. Mlle. De Swirsky is an interpretive dancer, which is entirely different from the dancer of the ballet and pantomine. Interpretive dancing begins with a perfect understanding on the part of the dancer of the musical compositions she interprets. Whether that composition depicts beauty, ugliness, joy, sorrow, love or hate, by proper costuming, movements of the body and facial expressions, the interpretive dancer will make a living reality of the composer's ideas. Adequately to express these ideals, the dancer must, essentially, be technically and temperamentally a great musician. The winning of the first prize, the gold medal, at the Paris Conservatory of Music, stamps Mlle. de Swirsky as a truly great pianiste. Before entering the conservatory the Countess had showed a remarkable inclination for the terpsichorean art, but on account of the high social position in Russia of the family, her parents did not wish her to become a professional dancer. After leaving the conservatory the celebrated Mottl invited the young artiste to take part in the Symphony Concert in Munich, where she played the "Grieg Concerto." She was personally complimented by Grieg for her big art and it was upon his suggestion that Mlle. de Swirsky returned to her first love, the dance. She is now conceded to be the greatest living interpreter of the highly colored compositions of Dvorak and of the tender Peer Gynt Suite of Grieg.

There is no doubt but that there will be a large audience to greet the Countess to-morrow evening for her program will appeal to many on account of the variety of numbers which are arranged for. In all her dances the Countess is modest and dainty and appeals to the highest artistic tastes. Her playing too, is a revelation to all music lovers.

The opera house management request that all be in their places before a quarter past eight, as there must be no interruption during the numbers.

SERMON TO ORANGEMEN

Racial Strife and Creedal Hatred to be Deplored

The Orangemen of the city and district to the number of about 100 paraded last evening to St. Andrew's Presbyterian church, in charge of Master of Ceremonies, Earl Dodds, and were treated to an elevating and thoughtful address on the ethics and principles of Orangeism, delivered by the pastor, Rev. James Rollins.

In a few suitable opening remarks the pastor welcomed the visiting brethren of the order to the church. Taking some lessons from the parable of the talents, he drew therefrom a lesson, which, he stated, was applicable to every church, organization or individual, and afforded to them an opportunity to exercise their talents, or talent, whatever the case might be, to the very fullest.

CREEDAL HATRED DEPLORED

In reference to discussions on the subject of the evening, upon which there was so much controversy, the speaker remarked that he deplored racial strife and creedal hatred. It should never descend to be a political or party question. Education along the lines mentioned should be sought to be done in a quiet, thoughtful manner, and to the degree that this was carried on, the more effective and thorough would be the education. All approaches to such questions should be kept free if possible from attack.

About the bilingual schools, he stated that there were many Roman Catholics, just as earnestly opposed to them, as the most radical English speaking opponents, and some of the fiercest condemnations of it had come from the pen of a Roman Catholic priest.

"If the Church of Rome is under suspicion to-day in Canada and throughout the world, she has only herself to blame," remarked the speaker. "A church that can send out such a decree as the 'Ne Temere' promulgates something that is an outrage on the noblest sentiments of the human mind. To be told that after a man and woman are legally married by a Protestant clergyman that, unless they are remarried by a Church of Rome representative, that they are living in sin, and their offspring are illegitimate is terrible. Yet such is the decree that comes to the evangelized world, in the name of infallibility.

"It is significant" he continued, "that the Roman Catholic creed has been turned out bag and baggage from two countries of the world.

In concluding, the pastor impressed upon the organization present, the necessity they were under to live according to the dictates of parable of the talents, and carry out all its principles, or the same fate would descend upon it, as was dealt to the unprofitable servant.

During the service, a solo by Miss Olive Howell, "My God, My Father, While I Stray," was given with excellent effect.

Basket Social

GUY FAWKES AT LAKEFIELD

Orange Lodges Took Part in Annual Ceremony

As the 5th of November, Guy Fawkes night, fell on Sunday this year, the local followers of King William celebrated the anniversary on Saturday night last, when they drove to Lakefield, where they were met by several of the country lodges. L.O.L. No. 1,175 and L.O.L. No. 90 of the city had representatives present. They left the city at seven o'clock by 'bus, and connected with their brethren from Downer's Corners before entering Lakefield as arranged for. The fifers and drummers heralded their coming.

Before starting the jubilations lunch was served in the Orangemen's hall, Lakefield.

According to the custom the burning of the effigy took place about 10.30 o'clock with the usual ceremonies.

FELL DOWN STAIRS INJURED HIS BACK

Serious Condition of Thos. Bleacher at Roseneath

Mr. Taylor, of the Chemong Indian village, went to Roseneath yesterday to visit his brother-in-law, Mr. Thos. Bleaker, who had his back injured a week ago by falling down the stairs in the Roseneath town hall, where the Alderville brass band, of which he is a member, was practising. Mr Taylor stated to-day that Mr. Bleaker was in a very precarious condition though hopes are still held for his complete recovery.

TEMPORARY SETBACK FOR MUCH TRAVELLED TRAMPS

Police Land Youthful Trio While Sleeping in Barn in North End of City.

Three young men were arrested last night about 10.30, while sleeping in a barn at the corner of Smith and George streets, on information phoned to the police station, by residents of the neighborhood, who had become alarmed by the suspicious actions of the trio. People in the northern part of the city had noticed three tough looking individuals lounging around the streets in the outskirts of the city and several places had been visited by the trio, who made requests for food. At a couple of places where they called, they were given generous quantities of edibles.

THREE BOY TRAMPS

Before the Magistrate this morning they gave their names as John O'Dey Michael Keeting, and Randolph White when arraigned on a charge of vagrancy. The story which their spokesman Keeting told, sounded quite adventurous and the title "Three Boy Tramps," would be applicable to the outfit.

HEADING FOR NEWFOUNDLAND

Keeting said the three of them had just come from the West. All their money which they had earned there had disappeared and they were trying to get to Newfoundland, where they originally hailed from. By riding the bumpers and beating their way, they rode from Winnipeg to Sarnia and to within a few miles from Toronto. They had heard so Keeting said, that there was work to be had in the bush here, and had come this way to see about it.

WORK WAS PLEASURE!

A porter at the Grand Hotel, had told them there was a gang going on Monday to the woods, so they thought they would hold over until to-day. Keeting also had a hard luck story to tell of his mother, in Newfoundland who wanted him to come home, and that was his reason for wishing to get to Newfoundland.

"But what about your begging," asked His Worship.

"Well if we did beg," was the reply "we approached people as gentlemen, and did not alarm them. We were and are absolutely sincere in our intentions to go to work, and if your Honor will let us off, we will prove it by going into the bush until spring while we earn some money. We are all familiar with bush life and have done lots of it, and none of us are criminals. Considerable more of such sentimental line of talk, was forthcoming from Keeting.

His Worship asked them however, if they could explain their drinking habits, and it silenced the spokesman for a spell.

The three were to meet the Magistrate at two o'clock to-day to make arrangements for securing work in the bush for which they appeared to be so earnestly seeking.

Capt. H. C. Winch, of the Ketchecum Club, and his hunting dogs, now off on the hunt near Ketchecum Lake.

BLIND PIG IS LOCATED

Lakefield Man Pleads Guilty and is Fined $100

Pleading guilty to the illegal sale of liquor in the local option village of Lakefield, Walter Bates was fined $100 to-day by County Police Magistrate Edmison. License Inspector Elias Williams of East Peterborough, laid the charge.

YOUTHS PAID $2 FOR THEIR FUN

East City Hallowe'en Rowdies Brought to Police Court

Eight East City youths, all by their appearance, under twenty years of age, were brought before Magistrate Dumble this morning as the aftermath of pranks committed by them on Hallowe'en night. The young lads are all sons of respectable parents, but his Worship, after hearing the story of their doings on the night in question, and other evidence relating to the previous conduct, decided to speak plainly to them, and accordingly imposed a $2 fine on each, netting $16 in all. Out of this sum $1 was taken to reimburse Mr. Tivey and Mr. Lumpell, two householders of East City, whose house windows were broken by stones alleged to have been thrown by one or more of the bunch. The two missiles were produced in court.

Detective Newhall and P. C. Meagher were ordered by the chief to proceed to East City on Hallowe'en night. Detective Newhall saw the gang run from Douro street over to Mark street. One of the boys was nabbed by P. C. Meagher and one of the others who escaped, with manly boyish heroism was heard to shout, "Don't give our names away."

SERVICES IN CITY CHURCHES

Dedication Festival Services Concluded at St. John's

The concluding service of St. John's annual dedication festival last night was attended by a large congregation incorporating the feast of "All Saints" the beautiful blending of the solemn and joyous service was well marked at both services. The choral evensong was a beautiful example of what is meant by a sung liturgical service and the splendid singing of the choir all through was an eloquent tribute to the value of the church's offices. In arranging for the "Hallelujah" chorus from Handel's "Messiah," Mr. R. J. Devey made no mistake, for the choristers sang as an inspired body, from the little fellows of eight years old to the veteran choristers of over forty years service, of whom more than one was present.

A very large number of members of churches in the city were present at the services to whom the Rev. Canon Davidson extended a hearty welcome.

The rector also announced the death of Mrs. Nesbitt.

AT KNOX CHURCH.

Rev. H. J. Keith delivered a forceful address on "Customs of Jesus," to a large congregation at Knox church last night, choosing his text from Luke 4th chapter and 16th verse.

Rev. Mr. Keith showed that Jesus had customs and habits which marked his career.

"We sometimes find the impression abroad that Jesus acted spontaneously on the spur of the moment and did not have any customs, but that is only one of the many wrong ideas people gather about Him," said Mr. Keith. The speaker went on to show that if our Master had need of customs and habits, much more need had we.

ALL SAINTS.

Rev. T. H. Perry, curate of the Church of the Ascension, Hamilton, took the services yesterday and was heard by large congregations, on two strong discourses. Holy Communion was observed at the morning service, when Rev. Mr. Perry made a strong plea for greater service to the church and its work.

ST. ANDREW'S.

A welcomed visitor in the person of Rev. James S. Potter, of the Sailors' Mission, occupied the pulpit of St. Andrew's church in the morning. He had an interesting message for the congregation and was heard by a large congregation.

Rev. Mr. Rollins spoke to the Orangemen at night.

GEORGE STREET.

Rev. Isaac Couch preached to very large congregations. Lovefeast and Sacramental service was held in the morning and at night the pastor preached a strong sermon on the subject of opportunity and ability.

Opportunity, he declared was at the present time greater than at any other time in the history of the world. He made an impassionate plea for greater effort.

It was announced that Rev. Mr. Armstrong, of Toronto, would preach next Sunday and that a special service for young men would be held in the near future.

Splendid music was given by the choir in solo and anthem. Mr. Pecquenette, of Stratford, who possesses a powerful bass voice, was heard in the solo, "Out of the Depths," by Marks.

OBITUARY

Mrs. Isabella Nesbitt

A well known resident passed away yesterday afternoon at two o'clock in the person of Mrs. Isabella Nesbitt, relict of the late Richard Nesbitt. The late Mrs. Nesbitt was born in Cavan eighty-one years ago, where she spent her earlier life, removing to Bailieboro, where she married. After her husband's death she came to this city twenty years ago to reside with her son, Mr. Richard Nesbitt, and after six months' illness her death occurred at 50½ Smith street. Last Thursday morning a paralytic stroke hastened the end.

The late Mrs. Nesbitt was an Anglican in religion and attended St. John's church. She won many friends, who will regret her passing.

Two sons, Messrs. John James, of Frobisher, Sask., and Richard H. of this city, survive.

The funeral will be held to-morrow, with service at the house at eleven o'clock. The remains will be sent to Millbrook and interment take place at the 4th line, Cavan, cemetery.

Alexander Clements

At the age of 30 years, Mr. Alexander Clements passed away at his residence 185 Perry street, Saturday evening after a short illness.

The late Mr. Clements has been in the employ of the Geo. Matthews Co., for some time, and won the esteem of his employers as well as of his many friends. Besides his wife and parents three brothers and two sisters survive.

The remains were taken to Belleville on the 1.40 G.T.R. train to-day where interment will take place.

Rev. H. Thomas Dead

Rev. Henry Thomas, Methodist minister, died at Colborne yesterday evening. Deceased had been a minister of the Methodist church for the past 38 years, and at the time of his death was in charge of the Salem circuit. The funeral will take place on Tuesday at 2.30 p.m.

McDERMID & JURY, the Druggists, are selling Hair Brushes for One Week at a 25% Discount.

WHO'S COMING AND GOING

Dr. Frederick left yesterday to attend the Clinical Congress of Surgeons of North America at Philadelphia, and will be absent about ten days. He also expects to visit Atlantic City while away.

BACK TO SHANTY

The three young fellows will depart for the shanties to-morrow morning to work for C. W. Cresswell of the Cavendish Lumber Company. They each expressed their gratitude to the Magistrate for his kindness in allowing them to proceed to work.

Lord Curzon has been gazetted as Baron Ravensdale.

The Rayo Lamp

It Never Flickers

The long winter evenings give a woman a splendid chance for sewing or embroidery; but her eyes suffer from the strain unless she has a good light.

The Rayo is the best lamp made.

It gives a strong, diffused light that is remarkably easy to the eyes. There is no glare to it; no flicker. It lights up a whole room.

The Rayo is an economical lamp, too.

You get the most possible light-value for the oil burned; and the Rayo itself is a low-priced lamp. Yet it is a handsome lamp—an ornament to any room in the house.

The Rayo Lamp is easily lighted without removing shade or chimney; easy to clean and rewick. Made of solid brass, nickel-plated; also in numerous other styles and finishes.

Ask your dealer to show you his line of Rayo lamps; or write for descriptive circular to any agency of

The Queen City Oil Company, Limited

LETTERS TO THE EDITOR

The Review does not hold itself responsible for opinions expressed by its correspondents

MONKEY BLOOD.

To the Editor of the Review.

Sir,—I believe every one applying for positions of importance in our country especially those where the education of the people is concerned, such applicants should be compelled—like the Jews of old—to declare their pedigree before they are accepted. And if any of such applicants have monkey blood in their veins, as the higher critics believe they have, they should be rejected and such educators should be admonished to go to their own people in monkeydom and try their hand on lifting their own kith and kin from the depths of degradation and ignorance that monkeydom has lain in for the last six thousand years. Then when these monkey-brand men have proved their love to their own people—for charity or love begins at home—and succeed in lifting them, then they might try their hand on a superior race.

SPRIGS OF SPORT

FOR SIX PLAYERS

Local Hockey Club Representative to Move Important Amendment

The representative of the Peterboro Hockey Club to the annual meeting of the Ontario Hockey Association, Mr. Thos. McGeachie, was instructed at a meeting of the executive. Saturday night, to bring in an amendment to the effect that the constitution be changed, making the number of players on a team, six instead of seven.

Mr. R. M. Glover was the choice for the O.H.A. executive. Mr. Glover was appointed to office last year by the president.

The elimination of the seventh of the seventh player was initiated by the National Hockey Association. Action on the amendment of the local club will be awaited with interest.

SPORTING COLUMN.

IS LACROSSE LOSING GROUND?

Writing on this subject President Con. Jones of the Vancouver club says:—"I do not think so. In answering a question of this kind, however, one can not but be influenced by local conditions. In Vancouver lacrosse never stood so high, or enjoyed such big patronage. There are more teams and better teams than ever before in the city, and there was never such patronage accorded the game in the history of the sport. The average attendance for senior league games this season in Vancouver has been 10,000, as against about 1000 a few years ago. That certainly does not indicate the sport is losing ground. I certainly think, however, that more encouragement should be given the youngsters. Lacrosse is a great game, but to be an expert at it, the boy must grow up with the stick in his hand. How many youngsters get the chance to play lacrosse in the various cities of Canada? The boy finds that it costs money to become the owner of a stick and whereas he can buy a baseball for a few cents, he naturally turns to the sport which costs him less for his recreation. That, I think, is the real reason lacrosse is not pursued more closely by the boys. The public at large want the game, and this has been shown repeatedly, but just now the crying need of the game is players, and it takes years to make players. Teach the boy lacrosse, help him to play the game, and there you have the secret of keeping up Canada's national game."

JOHN PAUL JONES

Jones is a most interesting figure in athletics, not only because he has proven to be the most wonderful middle distance runner America has ever had, but because he is credited with having developed his powers as an athlete in spite of the handicap of a frail and sickly childhood. He was at one time threatened with consumption, his physician fearing that he might not survive to reach maturity. Not pleased with the prospect he set about strengthening his body and lungs, took up running, and this year succeeded in establishing two new intercollegiate records, one of these being a new world's amateur record. For sixteen years the wonderful record of 4 minutes, 15 3-5 seconds for the mile, made by Tom Conneff, at Travers Island, had not even been approached. Jones did it in 4 minutes, 15 2-5 seconds, after having already set a new intercollegiate mark of 1 minute 54 4-5 seconds for the half-mile on the same afternoon.

The mile record was partly due to good competition. Paull, of Pennsylvania, and Hanivan, of Michigan, both being expected to do better than 4:20. They set a hot pace, but Jones ran away from them easily in the finish. Earlier in the season he had shown his speed by defeating Paull in the Cornell-Pennsylvania meet, running the mile in 4:18 4-5, one second slower than the previous intercollegiate record held by Paull.

Jones had also taken the latter's measure at the U. of P. Relay Carnival when each ran the last lap of the four mile relay championship. Starting the last mile, Paull had a good lead, only to be beaten by yards at the finish. It is due to Jones and his speed that a new four-mile relay record was made upon that occasion.

A GREAT RUNNER

Electric Restorer for Men

RUSSIAN RAILWAY WONDER.

When the railway between Moscow and St. Petersburg was opened, an old peasant determined to take a ride on it to 'Mother Moscow.' The down express and the up express met at Bologoe—half-way between St. Petersburg and Moscow—and the passengers of both trains were allowed half an hour for supper. Among the people who alighted from the other train, the old peasant recognized a friend whom he had not seen for a long time. They had a delightful chat together over their tea in the restaurant, and then, without any thought of what he was doing, the old peasant boarded his friend's train instead of his own. The talk was very merry for some time, but at last the old man became grave and silent, and appeared to be puzzling deeply over something. At last he broke out: 'Ah Ivan, what a wonderful thing are these railroads. Here we sit in the same car, I going to Moscow and you to St. Petersburg!'

Board Is Regular.

Ottawa, Nov. 6.—The Department of Labor has written to Rev. Dr. Sparling, chairman of the conciliation board, in connection with the dispute between the Grand Trunk Pacific and its men replying to the statement of the company that the board was not legally constituted.

The Department takes the stand that the board was properly formed, according to the Industrial Disputes Act. Wallace Nesbitt, K.C., was first appointed by the company as its representative on the board. After considerable delay Mr. Nesbitt notified the Labor Department he was unable to act, as business prevented him going to Winnipeg. The company did not name a successor, and in such a case the law calls for the Minister of Labor to name a representative. Rev. J. L. Gordon was nominated to represent the G.T.P.

The Department claims that under the circumstances it is not fair to call the board "illegally constituted."

East Kent Conservatives re-nominated Hal H. Bowyer, M.P.P.

THE MASTER KILLER

By Brent Brabazon

Copyright by Publishers' Press Ltd

El Delgado Terrible — so he had been dubbed — was a tiger, a small Campeche tiger of south-eastern Mexico. In all the lumber and chicli camps, the rubber and cano plantations, and little villages that were sprinkled throughout the wide, vast expanse of jungle, he was known and hated and feared: this animal that seemed supernatural, so great was his prowess — The Terrible One — truly.

Never before had the district been visited by a tiger whose methods were so peculiar, so inexplicable, so phenomenal, for always was his prey the same — a steer, a bull, a cow — never anything smaller, never the favourite flesh of his kind, a young calf. One day he would kill at a certain place, and the next day he would be heard from some forty or fifty miles distant.

Heywood swore that he would have that beast — alive, and got busy.

Then he went to work; at the watering holes, the tiger's own little intricate paths, around the cattle corrals, he set steel traps, cunningly placed and hidden by his master hand. But all to no avail.

By and bye he located the animal's lair, a small hole in the base of a rocky cliff with a couple of fussy little cubs rolling around in front. Trap after trap of many kinds were fixed in vain and at length Heywood packed a month's food and established himself in a hollow giant mahogany close by the water hole. Early morning of the sixth day his eyes caught a huge black-gray boar waddling slowly, majestically along, and Heywood knew that a jungle tragedy was at hand. And he saw something he never could forget.

From an intricate tangle of dense vine work a form shot out — a long, thin, serpentine, tawny form — front paws outstretched, tail rigidly poised, and the cruel, sardonic mouth open. For twenty feet it passed through the air like a well-hurled dart, and the the tiger landed on the enemy's back. As the tiger struck the boar, the bristles that ran along the back-bone under the short, woolly hair, rose in a formidable mane; the thick lips curled up and showed all of the two long, dangerous tusks and sharpened teeth. It roared angrily, heaved itself up on its short massive hind legs, and with all its force flung itself backward. At the same instant the tiger withdrew his two hind claws from his opponent's haunches; took a firmer grip with his fore claws; sank his punishing teeth and jaws into the back of the boar's neck, and with marvellous rapidity, coupled with all his strength, he whirled his body around in a circle.

Again the boar rose up; the tiger crouched, the grey beast jumped forward, hoping to crush the other beneath his hoofs, but the black and yellow bunch of steely muscles sprang to meet him, and they struck with terrible impetus. There was the gnashing of teeth on teeth, a fire-work display of swinging feet, each one trying to rip the other open.

Following on some severe and bloody tackling on both sides, in course of which the tiger had his throat slit, the big boar became antagonised and goaded to such a state that he was rendered almost crazy. His foaming lips screwed up in a snarl; his blazing eyes almost closed, and like some huge, awkward monster, he bounded wildly forward, grunting and bellowing his rage. But as he came on the elusive tiger side stepped, and just as the boar struck the ground, he sprang and twined his limbs about the hairy body. The boar toppled over and for a moment lay kicking on his back.

The Terrible One had been waiting for this moment. Every muscle in his body seemed tingling and twitching; his cruel, long mouth was open wide, and his eyes glinted red and green. Like a fearfully powerful piston-rod his serpentine form shot forth. He struck the boar squarely and pinned him down to earth. Deep —deep he buried his teeth in the gory throat and swayed his body from side to side. And then sounded a muffled shriek of satisfied longing; once more the tiger threw his body free from his opponent, and another life had gone out.

Heywood in his hollow tree trunk, relaxed his tense, clasped fingers and firmly compressed lips. It was the greatest, bravest battle he had ever seen.

And now, with eyes of respectful homage, he watched the tiger, standing silent, trembling a bit with weakness from his loss of blood, red fluid dripping from his mouth and sides, and the gashes on his neck and belly.

Heywood saw him walk painfully and softly forward in the direction of the watering hole — the trap surrounded water. For the fraction of a second the man deliberated, then his heart flew to his throat and he stepped forth, his mind made up. "Back," he yelled, pointing his arm at the tiger. "I don't want yu now — no — yu can live. Yu're the grandest thing I ever seen. Back!"

The weakened, battered tiger moved not an inch. He raised his stooping head and stared haughtily, scornfully, at the man.

Heywood's heart went out. At that moment he loved him as he would have loved a brother of whom he was vastly proud. He walked forward and spoke as if to a human being. "Back, boy, I tell yu there's traps there, back."

The tiger moved his eyes and gazed stonily at the spring. He seemed to understand. Heywood sprang to within five feet of the animal. He stretched his arm at the brazen face and broke out excitedly, "I tell yu, boy, there's traps there. Get back — get back to yu're mate an' young and let 'em fix yu up. Yu're game — the gamest thing I ever seen, an' by God, I ain't agoin' to hunt yu."

Once again the proud, fearless head was raised with kingly grace, the brazen, cunning eyes seemed to pierce the man through, and slowly, gracefully, arrogantly, El Delgado Terrible — the master killer of the bush — strode off through the thick, black jungle.

One Chicago brokerage firm Saturday suspended, and another transferred its trade to avoid going to the wall.

WHO'S WHO IN CANADA

SIR THOMAS SHAUGHNESSY.

To be the guiding spirit of a great railway company with a firm hand on the lever of a thousand phases of the work, requires long, practical, thorough experience, splendid executive ability in choosing and handling men, a quick mind to decide vital issues on the moment if need be. Sir

SIR THOMAS SHAUGHNESSY, K.C., V.O.

Guiding Spirit of Canadian Pacific.

Thomas G. Shaughnessy, President of the Canadian Pacific Railway has these essentials and more; he is a tireless worker, a man of energy and enthusiasm, a keen common sense that cuts Gordian knots of difficulty with ease, and a prodigious memory that is always ready on the instant.

He was born in Milwaukee, Wis., of Irish parents, in 1853, and after taking the usual course in the public schools and a little supplementary smoothing down and polishing in a business college, he was then ready at sixteen to begin the battle of life. Entering the kindergarten of railroading in his first position in the purchasing department of the Milwaukee and St. Paul road, it was not long before it was recognized that he had a good business head set firmly on his broad shoulders, and with constant purpose and undaunted determination he worked his way forward until in 1879 at the age of twenty-six he was general storekeeper of the road.

In 1882 he entered Canadian railroading in the capacity of General Purchasing Agent of the Canadian Pacific Company and from that time on his promotion was very rapid. In 1885 he won by his ability the post of Assistant General Manager, later becoming assistant to the President. In 1891 he was made Vice-President and elected a director, and in 1898 when Sir William Van Horne retired from the presidency of the Railway Mr Shaughnessy was unanimously elected to fill the vacancy.

Mr. Shaughnessy became Sir Thomas in 1901 when King Edward VII conferred upon him the honor of Knighthood.

JAMES DAVIDSON

Controller and Manufacturer, Ottawa

Controller Davidson has been one of Ottawa's civic representatives since 1898. He was alderman from that year to 1907, when he was elected controller, heading the poll at Ottawa's first control board elected. He has been returned every year since that date, and was mayor of the city for part of the year 1901. It is typical of the man that he has never accepted one cent of the salary coming to him for municipal office, but has always turned it over to the various charities of the city, not neglecting the organizations of any religion. He is a Presbyterian himself, and attends St. Andrew's Church.

There is no member of the present council and probably none of former councils more familiar with matters pertaining to the Board of Works administration than Controller Davidson is. For years he has been in almost daily touch with the city engineer and his predecessors in office as to improved methods in connection with the civic administration in dealing with the construction of walks, the making of pavements of various kinds, and in the improving of the snow cleaning system in which Ottawa leads almost every city in Canada. Almost every conceivable matter pertaining to street extensions and dozens of various forms of local improvements have come under the genial "Jim" Davidson's eye.

Mr. Davidson is a man of varied interests. In addition to being a property owner on a fairly large scale, he has a half interest in the Dominion Theatre and the Hotel Cecil, is proprietor of the Mortimer building on Wellington street, Ottawa, owns a saw mill at Davidson, Que., which turns out 85,000 feet of lumber a day, and, in addition, owns some extensive timber limits.

CONNAUGHT WILL CONTINUE

One of the first public men to associate themselves with the Co-partnership in Housing Movement was Earl Grey, and it was at his request that Mr. Henry Vivian came to Canada last year to inaugurate a similar movement here. It is, therefore, appropriate that now he is returning to England the first public welcome should be that of the Co-partnership tenants. The returning Governor-General of Canada has promised to attend a dinner they are arranging in his honour at the Holborn Restaurant, London, early in November. The Duke of Connaught will continue his work for co-partnership in the Dominion. Viscount Howick, the son of Earl Grey, is also an enthusiast on housing reform.

Arthur Prime, a G.T.R. engineer for 40 years, is dead at Brantford aged 63.

ONLY ONE FOR BREAKFAST!

Not Even a Forty Days Fasting Man Could Face More Than One Egg Like This.

The egg of the gigantic extinct bird aepyornis, of South Madagascar, has a capacity of two gallons, or 150 times that of a hen's egg. The shell is 1-8 inch thick. Lengthwise it is 32 inches in circumference, and it measures 26 inches around the middle. Though termed a fossil egg, it is not petrified, but is in perfect condition, unbroken, and has a yellow colour. The contents have turned into a fine dust, which comes out, when handled, through a small natural perforation on one side. The aepyornis, like the moa of New Zealand, was exterminated by the hand of man. A few centuries ago it was quite abundant. Several incomplete fossil remains have been discovered but no complete skeleton has ever yet been found. These show the bird was three-toed of massive proportion and short winged. The Madagascar natives have for many years used the great egg shell for various household purposes. In fact, the first knowledge of these eggs became known when some Madagascar-natives came to the Mauritius to buy rum, bringing the aepyornis eggs with them to hold the liquor. Only three or four of these huge eggs have been brought into civilization.
